### Business Review

The Company continued to be principally engaged in the design, research, development, manufacture, and sale of image transmission fibre optic products in the PRC.

### Financial Review

The Company reported a turnover of approximately RMB42,296,000 for the nine months ended 30 September 2011, representing a decrease of 11% from approximately RMB47,485,000 for the same period in 2010. The decrease in the sales was mainly due to the decrease in the demand from the Asian customers and partly due to the continued appreciation of Renminbi as a majority of the Company's sales was denominated in US Dollars and Euro.

During the nine months ended 30 September 2011, the Company recorded cost of sales amounting to approximately RMB27,339,000, representing an increase of 11% from approximately RMB24,623,000 for the same period in 2010. The increase in the cost of sales was mainly due to the increase in the cost of raw materials. The cost of certain raw materials was increased by few times during the past twelve months.

Administrative expenses of the Company for the nine months ended 30 September 2011 was approximately RMB14,561,000, representing an increase of 12% from approximately RMB12,951,000 for the same period in 2010. The increase in the administrative expenses was mainly due to the substantial increase in the research and development costs by approximately RMB1,588,000 to approximately RMB3,815,000 as compared to approximately RMB2,227,000 for the same period in 2010 as the Company has been preparing to launch a new product line in the coming future.

The Company's unaudited profit attributable to owners of the Company for the nine months ended 30 September 2011 was approximately RMB134,000 (For the nine months ended 30 September 2010: RMB8,483,000).

To conclude, the management of the Company considered that (1) continued appreciation of Renminbi; (2) increase in the cost of certain raw materials substantially and the cost of production; (3) increase in the research and development costs substantially for the preparation of the launch of a new product line; (4) increase in the overheads generally; and (5) increase in the finance costs were the main factors to lead to the decrease in the profit of the Company for the nine months ended 30 September 2011.
