Interim Report

2012

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this interim report (the “Report”), make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the Report.

The Report, for which the directors (the “Directors”) of Fairson Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in the Report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or the Report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

In the first half of 2012, the Group continued to execute its growth strategy in order to contain the impact of uncertain global economies. Digital communications industry, however, is still expanding which provides good opportunities for the Group to seize the market. For the six months ended 30 September 2012 (the "Interim Period"), the turnover of the Company and its subsidiaries (together the "Group") was approximately HK\$83.4 million representing an increase of approximately 17% from approximately HK\$71.2 million for the six months ended 30 September 2011 (the "Previous Corresponding Period"). The increase in the turnover was mainly due to increase in the segment turnover of power and data cords for mobile handsets, and the segment turnover of copper wires. For the Interim Period, the loss of the Group attributable to owners of the Company was approximately HK\$6.8 million (2011: profit of approximately HK\$2.2 million) which was mainly due to (i) 70% share of the operating loss of approximately HK\$7.9 million arising from the business segment of copper wires which had been ceased since late September 2012 that incurred a further write-off of assets of approximately HK\$2.5 million; (ii) the decrease of the profit margin as a result of the intensified market competition under the global economic downturn; and (iii) the increased staff costs partly due to the increasing minimum wage level of the staff in the People's Republic of China (the "PRC").

The board of Directors (the "Board") does not recommend the payment of an interim dividend for the six months ended 30 September 2012.

Business Review

For the Interim Period, the Group's turnover of its key product groups, including (i) power cords and inlet sockets for household electric appliances; (ii) power and data cords for mobile handsets and medical control devices; (iii) raw cables and (iv) copper wires accounted for approximately 18%, 67%, 1% and 13% (2011: approximately 35%, 61%, 4% and 0%) of the total turnover of the Group, respectively.

Turnover arising from Hong Kong and the PRC markets continued to be the key contributors for the Group, representing approximately 86% (2011: approximately 81%) of the total turnover of the Group for the Interim Period. The remaining of turnover of approximately 14% (2011: approximately 19%) for the Interim Period was contributed by customers from other overseas markets, including the United States.

Power cords and inlet sockets for household electric appliances

For the Interim Period, the Group's turnover from power cords and inlet sockets for household electric appliances was approximately HK\$15.4 million (2011: approximately HK\$25.0 million), representing a decrease of approximately 38% from the Previous Corresponding Period, which accounted for approximately 18% (2011: approximately 35%) of the total turnover of the Group.

The Group's power cords and inlet sockets used in household electric appliances received safety approvals and/or certificates in many countries, many of which also received eleven types of international safety standards. The Group believes that the high standard of the products can fulfill the expectations and requirements of customers and benefit the Group's business expansion in the long run.

Power and data cords for mobile handsets and medical control devices

For the Interim Period, the Group's turnover from power and data cords for mobile handsets was approximately HK\$46.2 million (2011: approximately HK\$32.9 million), representing an increase of approximately 40% from the Previous Corresponding Period, which accounted for approximately 55% (2011: approximately 46%) of the total turnover of the Group.

The power and data cords for mobile handsets are generally used for power charging and data transfer and are essential accessories for all mobile handsets. The enormous demand for telecommunications devices, especially in the PRC, facilitated the Group to produce power and data cords of different specifications, including high speed USB connectors and data cord products, which can support higher data transmission speed and audiovisual output quality. All our devices conform to the standard of mobile handset design set by USB Implementers Forum, Inc..

For the Interim Period, turnover from power and data cords for medical control devices was approximately HK\$9.7 million (2011: approximately HK\$10.8 million), representing a decrease of approximately 10% from the Previous Corresponding Period, which accounted for approximately 12% (2011: approximately 15%) of the total turnover of the Group.

The medical control devices are multi-functional products which are mainly exported to a customer in the United States. The devices are then used for further assembling and processing into final products (which include pillow speakers, bed controls, bed cables and call cords to be sold to hospitals and clinics).

Raw Cables

For the Interim Period, turnover from raw cables was approximately HK\$0.8 million (2011: approximately HK\$2.5 million), representing a decrease of approximately 68% from the Previous Corresponding Period, which accounted for approximately 1% (2011: approximately 4%) of the total turnover of the Group. The decrease in turnover from raw cables was mainly due to the Group's change of strategy to concentrate on integrated products with connectors rather than 2-pin raw cables. The Group is also engaged in the manufacturing of raw cables using halogen-free insulation materials as they are more environmentally and are able to adapt to the changing needs and requirements of the market.

Copper wires

For the Interim Period, turnover from copper wires was approximately HK\$10.6 million (2011: HK\$nil) and accounted for approximately 13% of the total turnover of the Group. Copper rods are purchased and processed to copper wires for sale. Due to the business unit not having been achieved economies of scale in the near term and having incurred a significant operating loss, the Group streamlined its business during the Interim Period by ceasing the operation since late September 2012. Looking forward, the Group will focus on its existing business and new business of electric wire and cable's machinery engineering.

Outlook

Macro-economic uncertainties are expected to continue during 2013. Taking into account the fast growth of the telecommunication and smartphone market, the mobile phone manufacturing industry in the PRC is full of potential and the manufactured mobile phone volume exported from the PRC is expected to reach 1 billion in 2012. As a result, a substantial increase in demand for mobile handset accessories is expected. In order to grasp the vast opportunities and maximize the interest of the Group and its shareholders, the Group established a new production plant in Hunan Province in the PRC which focuses on the production of power and data cords for mobile handsets. The production capacity shall be expanded to cater for the sales demand for mobile handset accessories globally as well as domestically for the PRC market.

Looking ahead, the business in the PRC market is expected to continually increase in the future. At the same time, the Southeast Asian smartphone and related mobile handset accessories market is booming and the consumption is expected to reach 163 million pieces in 2015. The Group will invest in customer network enhancement in Southeast Asia region and expect to capture potential revenue therein. In light of the high volatility of the equity market and uncertainties of the global economy, the Group announced on 8 November 2011 and 19 September 2012 respectively the proposed adjustment of use of net proceeds from the placing of shares of the Company as previously set out in the prospectus of the Company dated 6 May 2011 (the "Prospectus"). Part of the net proceeds of approximately HK\$23 million was adjusted as stated in these announcements and retained as working capital of the Group and for expansion of domestic sales channel in the PRC and the other overseas regions, especially Southeast Asia. The Group believes that such expansion in the clientele and marketing network would help to increase the profitability of the Group.

Employees' remuneration policy

As at 30 September 2012, the Group employed 763 (31 March 2012: 941) full time employees mainly in the PRC and Hong Kong. The Group's remuneration policy is reviewed periodically and determined by reference to market terms, the Group's performance, and individuals' qualifications and performance. Employee benefits include medical schemes, mandatory provident fund scheme for Hong Kong employees, and central pension schemes operated by the local municipal governments for employees in the PRC. The Group also provides training programs for our employees to equip them with the requisite skills and knowledge and offer a share option scheme to recognise the employees who make significant contributions to the Group.

Total staff costs (including Directors' remuneration) for the Interim Period amounted to approximately HK\$21.1 million (2011: approximately HK\$12.2 million).

Liquidity, financial resources and capital structure

As at 30 September 2012, the indebtedness of the Group was approximately HK\$18.2 million (31 March 2012: approximately HK\$26.1 million). The borrowings are denominated in Hong Kong dollars. The Group had bank and cash balances of approximately HK\$8.3 million (31 March 2012: approximately HK\$19.9 million).

As at 30 September 2012, the ratio of current assets to current liabilities of the Group was approximately 1.33 (31 March 2012: approximately 1.34), and the gearing ratio of the Group was approximately 15.1%. (31 March 2012: approximately 8.7%). Gearing ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the condensed consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as 'Equity' as shown in the condensed consolidated statement of financial position plus net debt.

Details of the capital structure of the Company as at 30 September 2012 are set out in note 13 to the unaudited condensed consolidated interim financial statements.

Commitments of the Group as at 30 September 2012 are set out in note 14 to the unaudited condensed consolidated interim financial statements.

Exposure to foreign exchange risk

The Group operates in Hong Kong and the PRC and is exposed to foreign exchange risks arising from various currency exposures, primarily with respect to the Renminbi ("RMB") and United States dollar ("US\$"). In respect of management of the foreign exchange risk arising from future commercial transactions and recognised assets and liabilities, the Group entered into foreign exchange forward contracts with external financial institutions to mitigate such foreign exchange risks. The Group also mitigates these risks by maintaining HK\$, US\$ and RMB bank accounts to pay for the transactions denominated in these currencies respectively.

Pledge of assets

As at 30 September 2012, the Group's following assets are pledged to secure its bank borrowings:

- a) The Group's leasehold land and buildings with an aggregate carrying value of approximately HK\$6,111,000 (31 March 2012: approximately HK\$6,199,000);
- b) Pledge of the Group's bank deposits with an aggregate carrying value of approximately HK\$5,510,000 (31 March 2012: approximately HK\$5,510,000); and
- c) Corporate guarantees provided by the Company and its subsidiaries.

Significant disposals

On 21 September 2012, the Group entered into the provisional sale and purchase agreements with independent third parties respectively and conditionally agreed to dispose the Group's leasehold land and buildings at an aggregate consideration of HK\$6,512,400 (the "Disposals"), which would be completed on or before 30 November 2012. An unaudited estimated gain on the Disposals would be approximately HK\$4,902,000 (before deducting the relevant expenses and tax) upon the completion of the Disposals. The net proceeds from the Disposals will be used for the repayment of the bank borrowings of the Group in order to reduce its financial costs and increase the general working capital of the Group.

Due to economies of scale not having achieved in the near term and having incurred a significant operating loss of the copper wire business, the Group streamlined its business during the Interim Period by ceasing the operation since late September 2012 that incurred a further write-off of assets of approximately HK\$2.5 million.

Contingent liabilities

The Group had no significant contingent liabilities as at 30 September 2012 (31 March 2012: HK\$nil).

INDEPENDENT REVIEW REPORT

TO THE BOARD OF DIRECTORS OF FAIRSON HOLDINGS LIMITED
(Incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 11 to 25 which comprises the condensed consolidated statement of financial position of Fairson Holdings Limited (the "Company") and its subsidiaries (collectively, the "Group") as at 30 September 2012 and the related condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-months period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"). The directors are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the HKICPA. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months 30 September 2012

1. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements of the Group have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and with the applicable disclosure requirements of Chapter 18 to the GEM Listing Rules.

The unaudited condensed consolidated interim financial statements should be read in conjunction with the 2012 annual consolidated financial statements. The principal accounting policies and methods of computation used in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those adopted in the preparation of the Group's consolidated financial statements for the year ended 31 March 2012.

The HKICPA has issued a number of new and revised Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations (collectively, "HKFRSs"). For those which are relevant to its operations and effective for its accounting period beginning on 1 April 2012, the adoption of these new and revised HKFRSs has no significant changes on the Group's accounting policies, the presentation and the reported results and the financial position of the Group for the current or prior accounting periods.

The Group has not applied the new and revised HKFRSs which have been issued but are not yet effective. The Group is currently in the process of making an assessment of the impact of these new and revised HKFRSs but is not yet in a position to state whether they would have a material impact on the Group's results of operations and financial position.

2. SEGMENT INFORMATION

The reportable operating segments derive their turnover primarily from the manufacture and sale of power and data cords. Management assesses the performance of the following segments:

- Power cords and inlet sockets for household electric appliances
- Power and data cords for mobile handset and medical control devices
- Raw cables
- Copper wires (discontinued operation)

The sales from trading of plant and equipment and other cables are not included in the reportable operating segments. The turnover and results of these operations are included in the "all other segments" column.

The segment information for the reportable segments for the Interim Period is as follows:

5. INCOME TAX EXPENSE

Hong Kong profits tax has been provided at the rate of 16.5% on the estimated assessable profits for the Interim Period (2011: 16.5%). The PRC corporate income tax is provided at the rate of 25% for the Interim Period (2011: 25%).

6. DISCONTINUED OPERATION

Due to economies of scale not having achieved in the near term and having incurred a significant operating loss, the Group streamlined its business during the Interim Period by ceasing the operation of the copper wire business since late September 2012.

The results of the discontinued operation related to copper wires for the Interim Period, which have been included in the consolidated profit or loss, are set out below.

8. (LOSS)/EARNINGS PER SHARE

(a) Basic

For continuing and discontinued operations – Basic

Basic (loss)/earnings per share is calculated by dividing the unaudited (loss)/profit attributable to owners of the Company of HK\$(3,943,910) (2011: HK\$1,892,873) by the weighted average number of ordinary shares of 550,000,000 (2011: 550,000,000) in issue for the three months ended 30 September 2012. Basic (loss)/earnings per share is calculated by dividing the unaudited (loss)/profit attributable to owners of the Company of HK\$(6,775,203) (2011: HK\$2,244,255) by the weighted average number of ordinary shares of 550,000,000 (2011: 506,721,311) in issue for the six months ended 30 September 2012.

For continuing operations – Basic

Basic earnings per share for continuing operations is calculated by dividing the unaudited profit attributable to owners of the Company of HK\$193,358 (2011: HK\$2,004,441) by the weighted average number of ordinary shares of 550,000,000 (2011: 550,000,000) in issue for the three months ended 30 September 2012. Basic (loss)/earnings per share for continuing operations is calculated by dividing the unaudited (loss)/profit attributable to owners of the Company of HK\$(1,284,332) (2011: HK\$2,373,035) by the weighted average number of ordinary shares of 550,000,000 (2011: 506,721,311) in issue for the six months ended 30 September 2012.

For discontinued operation – Basic

Basic loss per share for discontinued operation is calculated by dividing the unaudited loss attributable to owners of the Company of HK\$4,137,268 (2011: HK\$111,568) by the weighted average number of ordinary shares of 550,000,000 (2011: 550,000,000) in issue for the three months ended 30 September 2012. Basic loss per share for discontinued operation is calculated by dividing the unaudited loss attributable to owners of the Company of HK\$5,490,871 (2011: HK\$128,780) by the weighted average number of ordinary shares of 550,000,000 (2011: 506,721,311) in issue for the six months ended 30 September 2012.

(b) For continuing and discontinued operations – Diluted

No diluted (loss)/earnings per share is presented as the Company did not have any potential dilutive ordinary shares outstanding for the three and six months ended 30 September 2012 (2011: Nil).

9. DIVIDEND

The Board do not recommend the payment of an interim dividend for the Interim Period (2011: Nil).

10. PROPERTY, PLANT AND EQUIPMENT

During the Interim Period, the Group acquired approximately HK\$3,618,000 (2011: approximately HK\$5,154,000) for the additions to property, plant and equipment, and disposed property, plant and equipment for the discontinued operation of copper wires with the aggregate carrying value of approximately HK\$2,934,000.

11. TRADE AND OTHER RECEIVABLES

Included in trade and other receivables are trade receivables of HK\$46,006,630 (31 March 2012: HK\$52,924,271).

The majority of the Group's sales are on credit terms after the end of the month up to 120 days. As at 30 September 2012, trade receivables of approximately HK\$9,985,000 (31 March 2012: approximately HK\$13,278,000) were past due but not impaired. These relate to a number of independent customers for whom there is no recent history of default. The aging analysis of trade receivables is as follows:

	(Unaudited) 30 September 2012 HK\$	(Audited) 31 March 2012 HK\$
Not yet due	36,021,860	39,645,776
1 – 30 days past due	8,240,518	11,046,231
31 – 60 days past due	74,263	1,673,071
61 – 90 days past due	1,600,796	35,856
91 – 120 days past due	–	523,337
181 – 365 days past due	69,193	–
Past due but not impaired	9,984,770	13,278,495
	46,006,630	52,924,271

Trade receivables that were past due but not impaired relate to customers that have a good record with the Group or a sound credit quality. Based on past experience and regular credit risk assessment performed on all significant outstanding trade receivables, management believes that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and it received some post-dated cheques so that the balances are still considered fully recoverable. The maximum exposure to credit risk at the period end is the carrying value of each class of receivables mentioned above. The Group does not hold any collateral over these balances.

12. TRADE AND OTHER PAYABLES

Payment terms granted by suppliers are mainly 30 to 120 days after end of the month in which the relevant purchase occurred.

	(Unaudited) 30 September 2012 HK\$	(Audited) 31 March 2012 HK\$

14. COMMITMENTS

(a) Lease commitments

At 30 September 2012, the total future minimum lease payments of the Group under non-cancellable operating leases in respect of the factories in the PRC were payable as follows:

	(Unaudited) 30 September 2012 HK\$	(Audited) 31 March 2012 HK\$
– within one year	3,027,672	4,127,073
– in the second to fifth years inclusive	3,682,016	9,586,556
– over fifth years	–	344,400
	6,709,688	14,058,029

(b) Capital commitments

The Group's capital commitments for property, plant and equipment contracted but not provided for amounted to approximately HK\$426,000 (unaudited) at 30 September 2012 (31 March 2012: approximately HK\$380,000 (audited)).

15. RELATED PARTY TRANSACTIONS

Transactions between the companies comprising the Group have been eliminated and are not disclosed. Details of transactions between the Group and other related parties are disclosed below.

For the significant transactions of the Group with its related parties were as follows:

	(Unaudited) Six months ended 30 September 2012 HK\$	2011 HK\$
Directors' emoluments	1,094,000	1,066,000

The Group had the following balances with a related party:

	(Unaudited) 30 September 2012 HK\$	(Audited) 31 March 2012 HK\$
Payable to a related party: – Mr. Yeung Tin Hung (Note)	3,418,266	4,207,422

Note: Balances represented amounts paid by the Director on behalf of the Group with respect to the start-up of the copper wires business.

Payable to a related party is unsecured, interest free and is repayable on demand. The balances with a related party are denominated in RMB.

16. EVENT AFTER THE REPORTING PERIOD

On 21 September 2012, the Group entered into the provisional sale and purchase agreements with independent third parties respectively and conditionally agreed to dispose the Group's leasehold land and buildings at an aggregate consideration of HK\$6,512,400 (the "Disposals"), which would be completed on or before 30 November 2012. An unaudited estimated gain on the Disposals would be approximately HK\$4,902,000 (before deducting the relevant expenses and tax) upon the completion of the Disposals. The net proceeds from the Disposals will be used for the repayment of the bank borrowings of the Group in order to reduce its financial costs and increase the general working capital of the Group.

17. CONTINGENT LIABILITIES

The Group had no significant contingent liabilities at 30 September 2012 and 31 March 2012.

18. APPROVAL OF UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The unaudited condensed consolidated interim financial statements were approved and authorised for issue by the board of Directors on 12 November 2012.

OTHER INFORMATION PROVIDED IN ACCORDANCE WITH THE GEM LISTING RULES

CORPORATE GOVERNANCE PRACTICES

The Company is committed to achieving high standards of corporate governance to safeguard the interests of its shareholders and enhance its corporate value. The Company's corporate governance practices are based on the principles, code provisions and certain recommended best practices as set out in the Corporate Governance Code and Corporate Governance Report in Appendix 15 to the GEM Listing Rules (the "CG Code").

During the Interim Period, the Company had complied with the code provisions in the CG Code with the exception of the CG Code provision A.2.1, which states that the roles of Chairman and Chief Executive Officer should be separate and should not be performed by the same individual.

The Board is of the view that the Chairman has thorough understanding and expertise regarding the business operations of the Group and thus enabling him to make appropriate decisions in a timely manner which is in the interests of the shareholders of the Company as a whole. The other reasons for such deviation were set out in the Corporate Governance Report of the Company's annual report for the year ended 31 March 2012 published on 25 June 2012.

SECURITIES TRANSACTIONS BY DIRECTORS

Note: In order to increase the Group's financial flexibility and better utilize the financial resources of the Group in preparation for the uncertain financial and economic environment, the Group announced on 8 November 2011 and 19 September 2012 respectively the proposed adjustment of use of net proceeds from the placing of shares of the Company as previously set out in the Prospectus. Part of the net proceeds of approximately HK\$23 million was adjusted as stated in these announcements and retained as working capital of the Group and for expansion of domestic sales channel in the PRC and other overseas regions, especially Southeast Asia. The Group believes that such expansion in clientele and marketing network would help to increase the profitability of the Group.

COMPARISON OF BUSINESS PLAN WITH ACTUAL BUSINESS PROGRESS

The following is a comparison of the Group's business plan as set out in the Prospectus with actual business progress for the period ended 30 September 2012.

Business plan up to 30 September 2012 as set out in the Prospectus	Actual business progress up to 30 September 2012
1. Construction of new production plant and enhancement of production capability	
– Apply for hi-tech enterprise qualifications	The Group applied the hi-tech qualifications during the Interim Period and may have the result on or before the end of 2012
– Establish product development for mini-HDMI data cord	The Group had performed the feasibility study work on mini-HDMI data cord and concluded to cease the product development during the Interim Period that the slim profitability of this business contributed to the Group due to fierce market competition
– Finalise location of new production facility	The Group entered into a rental agreement in August 2012 for the leasing of a production plant in Hunan Province in the PRC, rather than to construct its own production plant, which will substantially lower the financial burden of the Group as to the capital commitment for such construction
– Lease production premises from Bao Xing and relocate assembly function of medical control devices	The Group decided to use its own existing premises to produce the assembly function of medical control devices to reduce the costs of the Group

2. Development, manufacture and sale of new products

- Develop micro-USB power and data cord with higher transmission speed
The Group developed and produced different specifications of mobile handset power and data cord products with micro-A and micro-B USB connectors, which facilitated higher data transmission speed and audiovisual output quality, during the year ended 31 March 2012
- Establish product development for mini-HDMI data cord
The Group had performed the feasibility study work on mini-HDMI data cord and concluded to cease the product development during the Interim Period that the slim profitability of this business contributed to the Group due to fierce market competition

3. Expansion in clientele and sales network

- Expansion of sales department for mobile handset related products
The Group expanded the sales department for mobile handset related products during the year ended 31 March 2012
- Development of other mobile handset brands
The Group continues to develop the other mobile handset brands to meet the market demand and competition
- Commence marketing and sales of mini-HDMI data cord and micro-USB power and data cord
As the mini-HDMI data cord ceased for product development, the Group commenced marketing and sales of micro-USB power and data cord during the year ended 31 March 2012
- Participate in trade fairs and exhibitions in the PRC and Hong Kong
The Group had participated in trade fairs and exhibitions in the Southeast Asia
