CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Ming Kei Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The directors of the Company, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement in this report misleading.

The board of directors (the "Board") of the Company is pleased to report the unaudited condensed consolidated results of the Company and its subsidiaries (collectively, the "Group") for the three (the "Quarterly Period") and six (the "Interim Period") months ended 30 September 2012 together with the comparative figures as follows:

Provision for Hong Kong profits tax is calculated at 16.5% on the estimated assessable profits for the current and prior periods. Taxes on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries or places in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

8. DISCONTINUED OPERATION

General trading operation

During year ended 31 March 2012, in view of the low profit margins and keen competitions in the general trading industry, the Group decided to cease its general trading operation. Accordingly, the general trading operation was re-classified from a continuing operation to a discontinued operation. For the purpose of presenting this discontinued operation, the comparative unaudited condensed consolidated income statement and the related notes have been re-presented as if the operation discontinued during the prior period had been discontinued at the beginning of the comparative period.

The results of the discontinued operation for the current and prior periods, which had been included in the profit or loss, were as follows:

	Three months ended 30 September		Six months ended 30 September	
	2012 (Unaudited) HK\$'000	2011 (Unaudited) HK\$'000	2012 (Unaudited) HK\$'000	2011 (Unaudited) HK\$'000

Income tax	-	-	-	-
(Loss)/profit for the period from discontinued operation	-	(334)	(64)	209

The cash flows of the discontinued operation was as follows:

	Six months ended 30 September	
	2012 (Unaudited) HK\$'000	2011 (Unaudited) HK\$'000
Net cash used in operating activities	(4,278)	(4,808)
Effect of foreign exchange rate changes, net	(16)	237
Total net cash outflows	(4,294)	(4,571)

Basic loss per share for the discontinued operation for the Interim Period is approximately HK\$0.0002 (2011: earnings per share of HK\$0.001) based on the loss for the Interim Period from the discontinued operation of approximately HK\$64,000 (six months ended 30 September 2011: profit of approximately HK\$209,000).

The denominators used are the same as those detailed in Note 10 for the basic loss per share attributable to owners of the Company.

Basic and diluted loss per share amounts for the current and prior periods were equal as the convertible instruments of the Group outstanding during the current and prior periods had an anti-dilutive effect on the basic loss per share calculation from the discontinued operation for the current and prior periods.

9. DIVIDEND

The Board does not recommend for payment of a dividend for the Interim Period (2011: HK\$Nil).

10. LOSS PER SHARE

The calculation of basic loss per share is based on the loss for the current and prior periods attributable to the owners of the Company, and the weighted average number of ordinary shares in issue during the current and prior periods.

The calculation of diluted loss per share for the period is based on the loss for the period attributable to the owners of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the period, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

As the Company's outstanding share options and warrants where applicable, had an anti-dilutive effect on the basic loss per share calculation for the current and prior periods, the conversion of the above potential dilutive shares is not assumed in the computation of diluted loss per share. Therefore the basic and diluted losses per share from (i) continuing and discontinued operations; and (ii) from continuing operations for the respective periods are equal.

(i) From continuing and discontinued operations

The calculation of basic and diluted loss per share is based on:

The master framework purchase agreements (the "LOIs") related to the Coal Trading CGU and represented separate legally binding master framework purchase agreements entered into between the CIFC Group and a customer and a supplier, which were acquired as part of the Group's acquisition of the CIFC Group in prior years. The useful lives of the LOIs were estimated by the Group to be indefinite as the LOIs are renewed automatically and unconditionally at no additional cost.

Impairment testing of the Coal Trading CGU

The recoverable amount of the Coal Trading CGU as at 30 September 2012 was assessed by the directors by reference to a professional valuation performed by Greater China Appraisal Limited ("Greater China Appraisal").

The recoverable amount of the Coal Trading CGU is determined based on a fair value less costs to sell calculation using a cash flow projection according to the financial budgets approved by management for the next 5 years and extrapolates cash flows beyond the 5 years with the key assumptions stated below:

Key assumptions used in the fair value less costs to sell calculation:

	30 September 2012
– Growth in revenue year-on-year	No growth
– Post-tax discount rate per annum	12.96%
– Budgeted gross margin	5.4%

The basis used to determine the value assigned to the growth in revenue and the budgeted gross margins is the management's expectation of market development and future performance of the Coal Trading CGU. The discount rate used reflects specific risks relating to the coal trading industry.

During the Interim Period, the Group is of the opinion, based on the fair value less costs to sell calculation, that the net carrying amount of the LOIs of the Coal Trading CGU was not impaired as compared with their recoverable amounts as at 30 September 2012 (During the year ended 31 March 2012: impairment loss of approximately HK\$3,660,000).

The Rules Governing the Listing of Securities on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial statements to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA").

The directors of the Company are responsible for the preparation and presentation of these interim financial statements in accordance with HKAS 34. This report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" ("HKSRE 2410") issued by the HKICPA. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that these interim financial statements are not prepared, in all material respects, in accordance with HKAS 34.

Other Matter

The condensed consolidated income statement, the condensed consolidated statement of comprehensive income and the relevant explanatory notes for each of the three months ended 30 September 2012 and 2011, disclosed in these interim financial statements have not been reviewed in accordance with HKSRE 2410.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND PROSPECTS

Decrease in revenue were mostly contributed by the reduced of selling price per metric tonne of coal sold for the coal trading business and the disposal of SIB Group completed on 11 May 2012. The reduced of selling price per metric tonne of coal sold for did not have significant impact to the cash flows or the operating model of the coal trading business pursuant to pages 18 and 19 of the circular of the Company dated 14 October 2010, in particular maintaining a positive price gap between the purchase price and the selling price of at least US\$2 per metric tonne of coal sold.

Given the letter of intents signed with the customers and suppliers separately, the coal trading business will continue and provide a stable and regular source of income to the Group.

References are made to the circular and announcement of the Company dated 26 September 2012 and 24 October 2012 respectively.

The Group entered into an Agreement to acquire the entire issued share capital of Foremost Star Investments Limited, the Target, and Calvea Capital Limited, the Target Subsidiary at a consideration of HK\$88,000,000. The Target Subsidiary is legally and beneficiary interested in a property located in Tuen Mun, Hong Kong.

The Consideration was settled by the Funding Raising Exercise, the allotment and issue of the Consideration Shares, and internal funding of the Group. The equity funding raising exercises, including:

- (i) on 14 August 2012, 115,251,000 offer shares of par value HK\$0.01 each of the Company were issued under an open offer at a subscription price of HK\$0.43 each at a gross consideration of approximately HK\$49,558,000; and
- (ii) during the Interim Period, 33,760,000 and 46,100,000 placing shares (79,860,000 placing shares in aggregate) of the Company were placed at subscription prices at HK\$0.28 and HK\$0.36 respectively, at an aggregate gross consideration of approximately HK\$26,049,000,

provided source of funds for the Acquisition. Details are set out in the announcements dated 18 April 2012, 13 August 2012 and 29 August 2012. Given the annual gross rental income from the Property of approximately HK\$3.5 million represents a yield of approximately 4.0% to the Consideration, the Board considers the return satisfactory and the Acquisition is a good opportunity for the Group to achieve long term stable income and growth.

The Board considers the Group's financial positions remain stable and has sufficient cash resources to meet its present and future cash flow requirements. The Board will constantly keep reviewing the Group's strategies and operations with a view to improve its business performance and Company's shareholders' returns. The Board considers that there are possibilities that the Group would identify suitable investment opportunities and are trying to identify and capture investment opportunities which will have greater potential returns and may enhance the earnings per Share of the Group which may arise from time to time by taking advantage of the good market sentiments in future.

FINANCIAL REVIEW

The Group reported total turnover of approximately HK\$46,017,000 (2011: approximately HK\$58,853,000 (restated)) for the Interim Period representing a decrease by approximately HK\$12,836,000 over the corresponding prior period. The decrement of revenue were mostly contributed by the reduction in selling price per metric tonne of coal sold for the Coal Trading Business by approximately HK\$12,299,000 to approximately HK\$45,872,000 (2011: approximately HK\$58,171,000 (restated)) for the Interim Period, and reduced rental income due to the disposal of SIB Group completed and announced on 11 May 2012.

Included in other income, and gains and losses, net of approximately HK\$2,765,000 (2011: approximately HK\$421,000 (restated)) was mainly a gain on disposal of subsidiaries of approximately HK\$2,143,000 in related to the disposal of SIB Group (2011: HK\$Nil) during the Interim Period.

The Group's selling and distribution costs for the Interim Period decreased slightly to approximately HK\$342,000 (2011: approximately HK\$371,000), which were arising from the Coal Trading Business.

The administrative and other expenses increased approximately HK\$1,937,000 to approximately HK\$19,695,000 (2011: approximately HK\$17,758,000 (restated)), mainly due to increase in rental expenses, the financial printing cost and the monthly retainer legal and professional fees.

Loss attributable to the owners of the Company from the continuing operations for the Interim Period was approximately HK\$15,281,000 (2011: approximately HK\$15,024,000 (restated)) which was comparable with last corresponding period.

The increase was mainly due to net proceeds raised from open offer and placing arrangements. Details were set out in the announcements dated 18 April 2012, 13 August 2012 and 29 August 2012.

During the Interim Period, most of the transactions of the Group are denominated in Hong Kong dollars, Renminbi and United States dollars, and no hedging or other arrangements to reduce the currency risk have been implemented as the Board considers that the Group's exposure to foreign currency exchange is insignificant.
