2012/2013 INTERIM RESULTS ANNOUNCEMENT

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors ("Directors" and each a "Director") of TeleEye Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange for the purpose of giving information with regard to Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

FINANCIAL REVIEW

For the six months ended 31 December 2012, the Group recorded a turnover of approximately HK\$19,737,000, representing a decrease of about 1% as compared with a turnover of approximately HK\$19,985,000 of the same period in last year. The loss attributable to owners of the Company was approximately HK\$2,427,000 for the six months ended 31 December 2012, representing an increase of approximately 29% when compared with the same period in last year.

During the six months ended 31 December 2012, the Group had capitalised operating costs of approximately HK\$602,000 (2011: HK\$852,000) in respect of development of advanced CCTV products.

BUSINESS REVIEW

The launch of the GX series High Definition ("HD") Video Servers in the beginning of 2012 has greatly stimulated our sales of HD video surveillance products. The sales of HD products in this period was more than 4 times the sales achieved in the same period last year. During the period we have launched new models of HD cameras, video servers and video management software to expand and strengthen our HD product line. Overall the Group business was flat with major markets in Europe suffering from austerity measures and weak demands. Price competition continued to put pressure on our profit margin.

BUSINESS OUTLOOK

To strengthen our position in the HD video surveillance market, we will launch several new models of HD products in the next six months. Our goal is to become a company with one of the most comprehensive line of products in HD video surveillance market. The sales of HD products will continue to grow while the sales of analog products will ease due to severe competition from low cost manufacturers. The markets in Asia are improving, however, those in Europe and Africa are still weak. Overall TeleEye's business will remain stable.

SEGMENT INFORMATION

Asia

Turnover for Asia (inclusive of Hong Kong, Singapore, Middle East and other Asian countries) as a whole for the six months ended 31 December 2012 amounted to approximately HK\$13,521,000 (2011: HK\$11,811,000) or 68% (2011: 59%) of the Group's turnover. The responses to our HD video products are encouraging. High value customers in the retail, banking, hotel and education sectors are adopting our HD video surveillance solution in this region.

Europe

Turnover for the six months ended 31 December 2012 amounted to approximately HK\$2,706,000 (2011: HK\$3,952,000) or 14% (2011: 20%) of the Group's turnover. Affected by the poor economic situation in Europe, sales in many countries in this region dropped significantly. Austerity measures, sluggish corporate spending and tight credit market all contributed to the weak demand in this region.

Africa

Turnover for the six months ended 31 December 2012 amounted to approximately HK\$2,771,000 (2011: HK\$3,602,000) or 14% (2011: 18%) of the Group's turnover. The fluctuation in currency especially the significant drop in the value of South Africa Rand against United States ("US") dollar has hurt our sales in the region.

Others

Other geographic segments mainly included the Americas and Australia. Turnover for the six months ended 31 December 2012 amounted to approximately HK\$739,000 (2011: HK\$620,000) or 4% (2011: 3%) of the Group's total turnover. The overall markets in these countries are relatively stable.

EMPLOYEE INFORMATION

As at 31 December 2012, the Group employed 40 (2011: 48) full time employees in Hong Kong and 13 (2011: 15) full time employees in the PRC and overseas offices. The Group's staff costs, including directors' emoluments, employees' salaries and retirement benefits schemes contributions amounted to approximately HK\$8,223,000 (2011: HK\$8,478,000).

Employees are remunerated in accordance with individual's responsibility and performance, which remain competitive with the prevailing market rates. Other fringe benefits such as medical insurance, retirement benefits schemes and discretionary bonus are offered to all employees. Share options are granted at the Directors' discretion and under the terms and conditions of share option schemes.

CODE ON CORPORATE GOVERNANCE PRACTICES

The Company has complied with the code provisions set out in the Code on Corporate Governance Practices contained in Appendix 15 of the GEM Listing Rules for the six months ended 31 December 2012 except for the following deviations:

1. Code Provision A.2.1 stipulates that the roles of Chairman and Chief Executive Officer should be separate and should not be performed by the same individual. The division of responsibilities between the Chairman and Chief Executive Officer should be clearly established and set out in writing.

At present, Prof. Chan Chok Ki is both the Chairman and Chief Executive Officer of the Company who is responsible for managing the Board and the Group's business. Prof. Chan has been both the Chairman and Chief Executive Officer of the Company since its incorporation. The Board considers that Prof. Chan has in-depth knowledge in the Group's business and can make appropriate decisions promptly and efficiently. The combination of the roles of Chairman and Chief Executive Officer can effectively formulate and implement the Group's strategies. The Board also considers that this structure will not impair the balance of power and authority between the Board and the management of the Company as the Board, which comprises experienced and high caliber individuals, meets regularly to discuss issues affecting the operations of the Group. The Group considers that, at its present size, there is no imminent need to segregate the role of Chairman and Chief Executive Officer.

2. Code Provision A.4.1 stipulates that Non-Executive Directors should be appointed for a specific term, subject to re-election. Code Provision A.4.2 stipulates that all Directors appointed to fill a causal vacancy should be subject to election by shareholders at the first general meeting after their appointment, and every Director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years.

At present, the independent ("Independent") Non-Executive Directors are not appointed for a specific term, but are subject to retirement by rotation and re-election in accordance with the Company's Articles of Association. In addition, not every Director is subject to retirement by rotation at least once every three years. Directors are subject to rotation in accordance with the Articles of Association of the Company (that at each annual general meeting, one-third of the Directors for the time being or, if their number is not a multiple of three, the number nearest to but not greater than one-third, shall retire from office) provided that notwithstanding anything herein, the Chairman of the Board and/or the managing Director of the Company shall not, whilst holding such office, be subject to retirement by rotation or be taken into account in determining the number of Directors to retire in each year. As such, with the exception of the Chairman provides the Group a strong and consistent leadership and is of great importance to the smooth operations of the Group. Therefore, for stability reasons, there is no imminent need to amend the Articles of Association of the Company.
