# ANNOUNCEMENT FOR THIRD QUARTERLY RESULTS FOR THE NINE MONTHS ENDED 31 DECEMBER 2012

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the "Directors") of Ming Kei Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement in this announcement misleading.

<sup>\*</sup> For identification purposes only

The board (the "Board") of Directors is pleased to report the unaudited condensed consolidated results of the Company and its subsidiaries (collectively, the "Group") for the three (the "Quarterly Period") and nine (the "Period") months ended 31 December 2012 together with the comparative figures as follows:

#### 8. DISCONTINUED OPERATION

#### General trading operation

During year ended 31 March 2012, in view of the low profit margins and keen competitions in the general trading industry, the Group decided to cease its general trading operation. Accordingly, the general trading operation was re-classified from a continuing operation to a discontinued operation. For the purpose of presenting this discontinued operation, the comparative unaudited condensed consolidated income statement and the related notes have been re-presented as if the operation discontinued during the prior period had been discontinued at the beginning of the comparative period.

The results of the discontinued operation for the current and prior periods, which had been included in the profit or loss, were as follows:

Basic loss per share for the discontinued operation for the Period is approximately HK Cents 0.02 (2011: HK Cents 0.03) based on the loss for the Period from the discontinued operation of approximately HK\$64,000 (2011: approximately HK\$52,000).

The denominators used are the same as those detailed in note 10 for the basic loss per share attributable to owners of the Company.

Basic and diluted loss per share amounts for the current and prior periods were equal as the convertible instruments of the Group outstanding during the current and prior periods had an antidilutive effect on the basic loss per share calculation from the discontinued operation for the current and prior periods.

#### 9. DIVIDEND

The Board does not recommend for payment of a dividend for the Period (2011: HK\$Nil).

## 10. LOSS PER SHARE

The calculation of basic loss per share is based on the loss for the current and prior periods attributable to the owners of the Company, and the weighted average number of ordinary shares in issue during the current and prior periods.

The calculation of diluted loss per share for the period is based on the loss for the period attributable to the owners of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the period, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

As the Company's outstanding share options and warrants where applicable, had an anti-dilutive effect on the basic loss per share calculation for the current and prior periods, the conversion of the above potential dilutive shares is not assumed in the computation of diluted loss per share. Therefore the basic and diluted losses per share from (i) continuing and discontinued operations; and (ii) from continuing operations for the respective periods are equal.

## MANAGEMENT DISCUSSION AND ANALYSIS

#### BUSINESS REVIEW AND PROSPECTS

The Group is principally engaged in (i) property investment holding in Hong Kong; and (ii) business of coal trading business between the PRC and Indonesia.

Decrease in revenue were mostly contributed by the reduced of selling price per metric tonne of coal sold for the coal trading business and the disposal of SIB Group completed on 11 May 2012. The reduced of selling price per metric tonne of coal sold for did not have significant impact to the cash flows or the operating model of the coal trading business pursuant to pages 18 and 19 of the circular of the Company dated 14 October 2010, in particular maintaining a positive price gap between the purchase price and the selling price of at least US\$2 per metric tonne of coal sold. Given the letter of intents signed with the customers and suppliers separately, the coal trading business will continue and provide a stable and regular source of income to the Group.
