# 2012/13 Interim Report

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report for which the directors (the "Directors") of Longlife Group Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquires, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

(a) At the end of April 2012, the Company first became aware of an announcement issued by the State Food and Drug Administration ("SFDA"), accusing that Zhejiang Xinda Zhongshan Capsules Company Limited ("ZS Capsules"), an indirectly owned subsidiary of the Company, has committed serious misconduct. As a result, the SFDA has directed Zhejiang Food and Drug Administration to revoke the manufacturing and production licence of ZS Capsules in accordance with the statutory procedures, and relevant individuals are under criminal investigation by the relevant authorities.

Pursuant to a sale and purchase agreement dated 14 December 2012, the Group disposed of its 61.11% shares in ZS Capsules for an aggregate consideration of HK\$500,000. No gain or loss on disposal of its investment in ZS Capsules was recognised during the six months ended 31 March 2013.

#### 19. Comparative figures

Certain comparative figures have been restated to conform with the current period's presentation.

### **BUSINESS REVIEW**

During the six months ended 31 March 2013 ("Period 2013"), there were some changes in the mix of the Group's major businesses. In March 2013, the Group has disposed of its business of synthetic rubber, which has been completed subsequently on 14 May 2013. In this interim report, the result of this business line was included in discontinued operations and the Group's interest in this business was reported as assets held for sales, together with the Company's interest in ZS Capsules, which was sold in December 2012. In addition, from 16 May 2012 onwards, the investments in financial assets have no longer been considered as one of the Group's major businesses.

To strength the Company's consumer products business, the Company acquired a business of trading of pharmaceutical and healthcare products in March 2013.

### Revenue

For Period 2013, the Group recorded an unaudited turnover of approximately HK\$39.9 million. As compared to the turnover of approximately HK\$50.9 million for the six months ended 31 March 2012 ("Period 2012"), the Group's turnover decreased by 21.6%. Owing to unstable atmosphere covering investment market, the Group decided to allocate more resources on the consumer goods businesses and develop other business potentials. As such, investments in financial assets have been recorded as other revenue from 16 May 2012 onwards. The trading revenue of financial assets during Period 2012 amounted to approximately HK\$15.2 million. Excluding the trading revenue of financial assets, the Group's turnover for Period 2012 was adjusted to approximately HK\$35.7 million, which were wholly in relation to the PRC operations. The loss on trading of financial assets of approximately HK\$0.1 million for Period 2013 was included in other income.

The Group's turnover for PRC operations increased by 11.8%, from approximately HK\$35.7 million for Period 2012 to approximately HK\$39.9 million for Period 2013. The increase in sales for the Group's PRC operations was resulted from the full-fledged implementation of the business model of "asset minimization, focus on operation and full services".

#### **Gross profit**

Due to the reclassification of trading revenue of financial assets since 16 May 2012 as mentioned above, the gross profit decreased from approximately HK\$25.0 million for Period 2012 to approximately HK\$12.3 million for Period 2013. Excluding the profit of trading of financial assets of approximately HK\$15.2 million, the Group's gross profit in relation to the PRC consumer products businesses for Period 2013 increased by 25.5% from approximately HK\$9.8 million for Period 2012. The increase in gross profit was principally resulted from the increase in sales volume of high-end products in the current period.

#### **Discontinued operations**

As the Group's investment in ZS Capsules has been classified as assets held for sale in the last fiscal year as at 30 September 2012, the result (including revenue and expenses) generated by ZS Capsules for the Period 2012 was classified as net loss from discontinued operation, net of tax in this condensed consolidated statement of comprehensive income amounting to approximately HK\$1.6 million. As the manufacturing and production of capsule products have been ceased, no revenue and expenses of ZS Capsule was recognized in Period 2013.

The Group has disposed of its synthetic rubber business in March 2013 at a cash consideration of HK\$28 million, after considered that (i) trading of synthetic rubber is not regarded as a core business of the Group and may not have synergy with the Group's principal business in manufacture and sales of medical and health related products, (ii) the sales proceeds can enhance the cash flow of the Group which enables the Group to better utilize its resources to pursue the aforesaid principal businesses, and (iii) the terms of the sales and purchases agreement are in the interest of the Group.

Similar to ZS Capsule mentioned above, the result (including revenue and expenses) generated in synthetic rubber sector for Period 2013 was classified as net profit from discontinued operation, net of tax in this condensed consolidated statement of comprehensive income amounting to approximately HK\$0.6 million. As the Group has not yet commenced the business of synthetic rubber in Period 2012, no result related to synthetic rubber business was included in discontinued operations for that Period.

#### **Results for the period**

Although performance of the Group's PRC consumer products business has improved in Period 2013 as compared to that in Period 2012, the overall loss of approximately HK\$11.0 million was recorded in Period 2013 (Period 2012: HK\$1.0 million). The significant change in the Group's result is principally resulted from the performance of the Group's financial assets investment (loss of approximately HK\$0.1 million) in Period 2013 was not as outstanding as that in Period 2012, in which net profit of HK\$15.2 million was recorded.

### LIQUIDITY AND FINANCIAL RESOURCES

The Group adopts a prudent policy for its financial resources management. The Group had cash and cash equivalents of approximately HK\$14.8 million as at 31 March 2013 (30 September 2012: approximately HK\$38.3 million). Included in prepayments and other receivables was cash held in securities accounts of approximately HK\$0.7 million (30 September 2012: approximately HK\$0.4 million). The significant decrease in cash and cash equivalents is principally resulted from a loan of HK\$15 million granted in September 2012 to the subsidiary, the business of which is the synthetic rubber business, and that subsidiary is currently recorded as assets held for sale as at 31 March 2013.

The Group generally finances its operations with internally generated cash flows and banking facilities. As at 31 March 2013, the Group had bank and other borrowings of approximately HK\$18.9 million (30 September 2012: approximately HK\$12.2 million). The interest of such bank and other borrowings usually accrue at fixed rates. More bank loans borrowed during Period 2013 was to support the expansion of operation scale of the Group's PRC consumer products business.

Details of assets pledged by the Group to secure banking facilities are set out in note 14 to the condensed consolidated financial statements.

The gearing ratio (defined as total borrowings (including amount due to an ex-director, Mr. Yang Honggen) to total assets) of the Group as at 31 March 2013 and 30 September 2012 were approximately 17.9% and approximately 14.5% respectively, which were maintained at a low level.

# SIGNIFICANT ACQUISITION AND DISPOSAL OF SUBSIDIARIES

On 7 March 2013, the Group has acquired a group, the principal business activity of which is trading pharmaceutical and health care products at a consideration of HK\$45.6 million, which shall be satisfied by the allotment and issue of 190 million new shares of the Company. The transaction has been completed on 10 May 2013 (see the Company's announcements dated 7 March 2013 and 10 May 2013 for further details).

On 26 March 2013, the Group has disposal of its entire interests in Sinogate Energy Limited at a cash consideration of HK\$28 million. The principal business of Sinogate Energy Limited group is trading of synthetic rubber. The transaction has been approved at the extraordinary general meeting held on 14 May 2013 (see the Company's announcement dated 26 March 2013 and its circular dated 19 April 2013 for further details).

Save as disclosed above, the Company does not have any significant acquisition and disposal of subsidiaries during the six months ended 31 March 2013.

# DIVIDEND

The Board does not recommend the payment of an interim dividend for the six months ended 31 March 2013 (2012: nil).

## **CURRENCY AND INTEREST RATE STRUCTURE**

The Group had limited exposure to foreign exchange rate and interest rate fluctuation as most of its transactions, including borrowings, were mainly conducted in RMB and the exchange rates and interest rates of RMB were relatively stable throughout the six months ended 31 March 2013.

# **CONTINGENT LIABILITIES**

The Company and Capital VC Limited have jointly entered into a tenancy agreement for the lease of office premises for a term of three years from 5 July 2010 to 4 July 2013. As at 31 March 2013, the maximum rental liabilities of the Company due to default of rental payment of Capital VC Limited would be HK\$0.4 million.

# **FUTURE OUTLOOK**

Looking forward, it is expected that the operating environment of the domestic consumer business will continue to be tough, due to the impetus of inflation and the pressure of wages increment in China. In order to tackle the anticipated challenges and stay competitive, the Group will allocate more resources in conquering the market share for generating revenue and continue its policy of implementation of cost control measures.

Continuing to deepen the implementation of the business model of "asset minimization, focus on operation and full services" is still the primary objective of the Group regarding its consumer products business. In addition, the Group is actively exploring other attractive business opportunities in pharmaceutical and health care products, so as to broaden the market share in this market sector.

The Directors believe the above measures will contribute to realize the Group's objective to maintain its profitability and enhance shareholders' value for the long run.
