First Quarterly Report

2013/14

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Ming Kei Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement in this report misleading.

The board (the “Board”) of Directors is pleased to report the unaudited condensed consolidated results of the Company and its subsidiaries (collectively, the “Group”) for the three (the “Period”) months ended 30 June 2013 together with the comparative figures as follows:

7. DIVIDEND

The Directors do not recommend for payment of an interim dividend for the Period (2012: HK\$Nil).

8. LOSS PER SHARE

The calculation of basic loss per share is based on the loss for the current and prior periods attributable to the owners of the Company, and the weighted average number of ordinary shares in issue during the current and prior periods.

The calculation of diluted loss per share for the current and prior periods are based on the loss for the period attributable to the owners of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the periods, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

As the Company's outstanding share options and warrants where applicable, had an anti-dilutive effect on the basic loss per share calculation for the current and prior periods, the conversion of the above potential dilutive shares is not assumed in the computation of diluted loss per share. Therefore the basic and diluted losses per share from (i) continuing and discontinued operations; and (ii) from continuing operations for the respective periods are equal.

(i) From continuing and discontinued operations

The calculation of basic and diluted loss per share is based on:

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS AND FINANCIAL REVIEW

The Group is principally engaged in (i) property investments; and (ii) business of coal trading business between the People's Republic of China (the "PRC") and Indonesia.

Pursuant to pages 18 and 19 of the circular (the "Indonesia Circular") of the Company dated 14 October 2010, in particular maintaining a positive price gap between the purchase price and the selling price of at least United States dollar (the "US\$") 2 per metric tonne of coal sold, any changes in selling price per metric tonne of coal sold for did not have significant impact to the cash flows or the operating model of the coal trading business. Given the letter of intents (the "LOIs") separately signed with the customers and suppliers to sell and purchase 30,000 metric tonnes of Indonesian coal per month, and will be renewed automatically upon expiration with same trading terms and conditions, the coal trading business will continue and provide a stable and regular source of income to the Group.

The Group recorded total turnover of approximately Hong Kong dollar (the "HK\$") 25,392,000 (2012: approximately HK\$24,031,000) for the Period representing an increase of by approximately HK\$1,361,000 over the corresponding prior period. The increment of revenue were mostly contributed by the increase in selling price per metric tonne of coal sold for the coal trading business which increased by approximately HK\$621,000 to approximately HK\$24,507,000 (2012: approximately HK\$23,886,000) for the Period. The new investment property located in Tuen Mun, Hong Kong generated additional and steady rental income and cash inflow of approximately HK\$885,000. By reflecting the improved gross profit margin after the Property Acquisition, the gross profit was approximately HK\$2,137,000 for the Period (2012: approximately HK\$1,370,000) representing a slightly increase of approximately HK\$767,000.

In the absent of one-off gain arising from the disposal of the Star International Business Company Limited ("SIB") and its subsidiaries (collectively the "SIB Group"), which has been completed on 11 May 2012, the Group reported a decrease in other income and other gains and losses, net for the Period to approximately HK\$407,000 (2012: approximately HK\$2,469,000).

The administrative and other expenses for the Period decreased by approximately 31.2% to approximately HK\$7,406,000 (2012: approximately HK\$10,764,000) was mainly due to cost control and decrease in staff costs.

Loss attributable to the owners of the Company for the Period was approximately HK\$5,336,000 (2012: approximately HK\$7,447,000).

Property Investments

Given HK\$885,000 gross rental income received for the Period and the annual gross rental income from the investment property located in Tuen Mun acquired on 24 October 2012 of approximately HK\$3.5 million represents a yield (the "Annual Yield") of approximately 4.0% to the Consideration, the Board considered the returns satisfactory and the acquisition of the new investment property located in Tuen Mun was a good opportunity for the Group to achieve long term stable income and growth.

Coal Trading Business

Pursuant to the Indonesia Circular, given the LOIs, the existing coal trading business will continue and provide a steady source of income and positive impact on the earnings to the Group. The Group will continue monitoring the sale price of steam coal as well as the controls over costs and related expenses towards the coal trading operations to ensure its continued profitability. By maintaining the same strategies as set out in the Indonesia Circular, the Group takes opportunities to expand its customer base and supplier networks through the business plan of a new coal trading business in the PRC and uses the best endeavour to make appropriate decision and process on a timely manner.

In order to catch the surge in demand as aforesaid, the Group entered into sale and purchase agreement for the proposed acquisition (the “Coal Acquisition”) of the entire issued share capital of Wider Trading Limited on 27 March 2013 extended by an extension agreement on 26 June 2013 and processing the due diligent process for the new establishment in the PRC. The Group continues to hold the business strategy by taking opportunities to expand its customer base and suppliers network. Through the acquisition of a PRC enterprise with a coal trading qualification license (煤炭經營資格證) that (a) can enabling the Group to step in the business of trading coal domestically and nation-wide in the PRC; (b) expand the regions and geographical coverage; (c) provide a synergy effect to the existing coal trading business in the future by introducing new customer base and supplier networks; (d) improve the financial results of the Group through the additional income source; and (e) with the opportunity to mitigate this exposure and the prospect of a more balanced revenue and customer base.

The Company has been exploring opportunities to broaden the Group’s business scope and additional income sources within the same industry.

The completion of the Coal Acquisition is subject to and depending on the results of the due diligent review, valuation, if applicable, and other related issues. We may not be able to complete the Coal Acquisition within a prescribed time frame or conclude on terms commercially acceptable to the Group and the Shareholders, the Directors hold the view that other business opportunities as the alternatives of the Coal Acquisition could be identified if sufficient financial resources is available to the Group as the Directors have experienced to receive proposals from potential vendors in respect of potential investment projects from time to time.

Prospects

Following completion of the Rights Issue, additional working capital may be employed and available for the operations to capitalize on newly presented business opportunities, the Coal Acquisition and other potential acquisition, including but not limited to the Pawn Acquisition. The net proceeds of the Rights Issue was approximately HK\$27.9 million. The Rights Issue is consistent with the strategic plans of the Group, and is therefore fair and reasonable, and in the interests of the Company and the Shareholders as a whole. The net proceeds from the Rights Issue will (a) enable the Group to use the best endeavour to make appropriate decision and on a timely manner; (b) has sufficient financial resources to negotiate with other potential vendors; and (c) to facilitate the completion of potential acquisition (including Coal Acquisition and Pawn Acquisition).

As part of its business plan, the Board will continue to explore and evaluate new businesses and investment opportunities (including Pawn Acquisition) which could be of good potential and/or long-term benefit to the Group and the Shareholders.

The Board will take a cautious and conservative approach in the evaluation and timing of potential projects or investments, including Coal Acquisition and Pawn Acquisition and constantly keep reviewing the Group's strategies and operations with a view to improve its business performance and Company's shareholders' returns. As the Directors have experienced in receiving proposals from potential vendors in respect of potential investment projects from time to time, the Board considers there are possibilities that the Group would identify suitable investment opportunities having greater potential returns which may broaden the Group's business scope, provide additional income sources, and may enhance the earnings per share of the Group, have arisen and will arise from time to time by taking advantage of the good market sentiments in future.
