2013 Annual Report

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Gamma Logistics Corporation (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT & MANAGEMENT DISCUSSION AND ANALYSIS

On behalf of the Board of Directors (the "Board") of Gamma Logistics Corporation (the "Company"), I would like to present the annual report of the Company and its subsidiaries (the "Group") for the year ended 31 December 2013 (the "Financial Year").

BUSINESS REVIEW

The Company's shares were successfully listed on the Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 22 August 2013 (the "Listing Date"). For the Financial Year, the Group's principal business remains the same as those set out in the issuance of prospectus of the Company dated 14 August 2013 (the "Prospectus").

Our integrated logistics freight services can be divided into below categories during the Financial Year:

1. Integrated logistics freight services

(a) Land and ocean freight services

The Land and ocean freight services composed as the core business of the Group. Although the macro industry trend shows that containers shipping overseas are transferring via the terminal from Hong Kong to the Pearl River Delta ("PRD") region, eg. Shenzhen and Guangzhou, the Group's containers throughput (to and from Hong Kong and PRD region) remain at the similar level of approximately 313,000 Twenty-foot Equivalent Units ("TEU") for the Financial Year (2012: approximately 321,000 TEUs). The Group recorded an increase of 3.5% of revenue to approximately HK\$401.8 million for the Financial Year (2012: HK\$388.4 million). The increase is mainly attributable to the revenue generated from Intra-PRD region services and the supplement services, including inland transportation, provided.

(b) Air freight forwarding services

During the Financial Year, the Group continued to focus on its air freight forwarding services within the East Asia region. The air freight forwarding services income decreased slightly to HK\$31.8 million for the Financial Year (2012: HK\$35.1 million), which is generally in line with the air cargo movement in the East Asia while during the Financial Year, Hong Kong flight movements in terms of cargo decreased mildly, especially in Malaysia.

(c) Operation equipment rental services

The income from operation equipment rental services decreased during the Financial Year compared to 2012. The decrease in income from equipment rental services reflected the decrease in containers being transported to and from PRC and Hong Kong during the respective periods.

2. Supporting services

The Group's supporting services comprising provision of fuel cards, tractor repair and maintenance services and insurance agency services. The income from the supporting services increased to HK\$23.2 million in the Financial Year (2012: HK\$15.5 million).

(a) Provision of fuel cards

During the Financial Year, the increase in the Group's supporting services income was mainly driven by the increase in income from provision of fuel cards of 49.8% as a result of increased marketing efforts for the promotion discount offered to our clients.

CHAIRMAN'S STATEMENT & MANAGEMENT DISCUSSION AND ANALYSIS

(b) Tractor repair and maintenance services and insurance agency services

Tractor repair and maintenance services and insurance agency services, albeit their contribution to our Group's revenue being relatively insignificant, served as major types of value-added-services to our land and ocean freight clients during the Financial Year. The relevant revenue increased by 35.9% during the Financial Year.

OUTLOOKS

The Company's shares were listed on GEM of the Stock Exchange on 22 August 2013. The funds raised from the listing have helped lay a solid foundation for the Group's future development.

Looking forward, the Group expects to implement profit optimization strategy ("Profit Optimization Strategy") from the first quarter of 2014. The strategy includes (i) gradual increase in shipping freight charges up to 30% ("Pricing Strategy") on customers to optimize the return on the shareholders' equity. This Pricing Strategy is, in a short-term, expected to incur loss from customers who contribute low profit margin, however the Board expects an optimization on the profit stream in the future and a more high quality services provided to high profit margin clients; (ii) The Pricing Strategy in a short term might increase the average cost, as fixed cost remains at the same level, that might have impact on gross profit margin, the Board expects that the effects will be diminished as the Group is also implementing the cost optimization strategy ("Cost Optimization Strategy"), including disposal of redundant and old facilities, eg. containers, tractors and trailers.

The Profit Optimization Strategy aims to facilitate the long term growth of the Group. The Group will also continue to enhance the core business in land and ocean freight services and explore the business in air freight forwarding business and other possible business to diversify the revenue stream and to maximize the best interests for the shareholders of the Group.

FINANCIAL REVIEW

The Group's revenue grew by approximately 3.2% to HK\$466.5 million for the Financial Year (2012: HK\$452.1 million). The increase in the Group's revenue was mainly attributable to the increase in revenue generated from the provision of (i) the stable increase of land and ocean freight services, especially the increase of intra-PRC sea freight forwarding services and its inland transportation; and (ii) the increase in income from provision of fuel cards as a result of increased marketing efforts for the promotion discount offered to our clients.

The Group's cost of sales increased by 3.7% to approximately HK\$372.9 million for the Financial Year (2012: HK\$359.7 million), mainly driven by the increase in feeder operating expenses costs of 25.9%.

With the combined effects of revenue and cost of sales, the company's gross profit margin stays stable at 20.1% for the Financial Year (2012: 20.4%).

The Group's finance cost decreased sharply by 56.7% to HK\$1.3 million for the Financial Year (2012: HK\$3.0 million), mainly due to the decrease in average loan balance as compared to 2012.

The Group's net profit after taxation remains stable at HK\$12.7 million for the Financial Year (2012: HK\$12.6 million).

CHAIRMAN'S STATEMENT & MANAGEMENT DISCUSSION AND ANALYSIS

Liquidity and financial resources

The Group continued to adopt a prudent financial management policy and has a healthy financial position.

As at 31 December 2013, the Group had net current assets of approximately HK\$38.0 million (2012: approximately HK\$7.7 million) including cash and cash equivalents of approximately HK\$36.9 million (2012: approximately HK\$9.1 million).

The Group's equity capital, bank borrowings, together with the profit generated from operations, have been applied to fund its working capital and other operational needs. The Group's current ratio as at 31 December 2013 was 1.35 (2012: 1.07).

As at 31 December 2013, the Group's gearing ratio (defined as the ratio of total debts to total equity) was 28.9% (2012: 47.4%).

Capital structure

There has been no change in the capital structure of the Company since the Listing Date. The capital of the Company mainly comprises ordinary shares and capital reserves.

Dividend

The board does not recommend the payment of a dividend for the Financial Year (2012: Nil).

Significant investment

Save as disclosed in this report, the Group did not have any significant investment as at 31 December 2013.

Future plans for material investments or capital assets

Save as disclosed in this report, there was no specific plan for material investments or capital assets as at 31 December 2013.

Material acquisition and disposals of subsidiaries and associated companies

As disclosed in the Company's Prospectus dated 14 August 2013, the Company has agreed to acquire the remaining 50% equity interests in Win Top Shipping Company Limited ("Win Top"), a subsidiary company of the Group. This transaction has completed during the Financial Year and the Group's interests in Win Top and its wholly-owned subsidiary have been increased to 100%. Other than this, the Group has no material acquisitions and disposals of subsidiaries and associated companies during the Financial Year.

Pledge of assets

The Group used facilities from its bank and other borrowings to finance its expansion of its business. Secured borrowings are secured by the Group's property, plant and equipment, having carrying amounts of approximately HK\$3.7 million (2012: HK\$4.6 million), and pledged bank deposits of HK\$0.4 million (2012: HK\$0.9 million).

CHAIRMAN'S STATEMENT & MANAGEMENT DISCUSSION AND ANALYSIS

Foreign currency exposure

As at 31 December 2013, the Directors considered the Group's foreign exchange risk to be insignificant. During the Financial Year, the Group did not use any financial instruments for hedging purposes.

Employees and emolument policy

As at 31 December 2013, the Group employed a total of 347 employees (2012: 335 employees) based in Hong Kong and the PRC. Total staff costs, including Directors' emoluments, amounted to approximately HK\$62.8 million (2012: HK\$61.0 million).

The Group reviews the emoluments of its directors and staff based on the qualification, experience performance and the market rates so as to maintain the remunerations of its directors and staff at a competitive level.

Contingent liabilities

As at 31 December 2013, the Group had no material contingent liabilities (2012: Nil).

Comparison between future plans and prospects and actual business progress

An analysis comparing the future plans and prospects as contained in the Prospectus with the Group's actual business progress from 7 August 2013, being the latest practicable date as defined in the Prospectus, to 31 December 2013 (the "Relevant Period") is set out below:

	Future plans and prospects	Actual business progress during the Relevant Period

To the shareholders of
Gamma Logistics Corporation
(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Gamma Logistics Corporation (the "Company") and its subsidiaries (together the "Group") set out on pages 27 to 86, which comprise the consolidated and the Company's statements of financial position as at 31 December 2013, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2013, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

1. CORPORATION INFORMATION

Gamma Logistics Corporation (the “Company”) was incorporated in the Cayman Islands on 13 September 2011 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of the registered office of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The Company is an investment holding company. The principal activities of its subsidiaries are detailed in note 14 to the consolidated financial statements. The principal place of business is Unit 13006–08E, 13/F., ATL Logistics Centre B, Berth 3, Kwai Chung Container Terminal, Kwai Chung, New Territories, Hong Kong.

The Company and its subsidiaries are herein collectively referred to as the “Group”.

2. REORGANISATION OF THE GROUP AND BASIS OF PRESENTATION

Group reorganisation

Pursuant to a group reorganisation completed on 3 August 2013 (the “Reorganisation”) to rationalise the corporate structure in preparation for the initial listing of the Company’s shares on the Growth Enterprise Market (“GEM”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Company became intermediate holding company of the Group and Golden Fame International Investments Group Limited (“GFIL”) became the ultimate holding company of the Group. Details of the Reorganisation were set out in the prospectus of the Company dated 14 August 2013 (the “Prospectus”).

The shares of the Company were listed on the GEM of the Stock Exchange on 22 August 2013 (the “Listing”).

Basis of presentation

As the Group was controlled by the ultimate holding company of the Group (the “Controlling Party”) before and after the Reorganisation, the Reorganisation is considered as a business combination under common control and is accounted for by applying the principles of the merger accounting under Hong Kong Accounting Guideline 5 “Merger accounting for common control combinations” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”).

Under this basis, the consolidated financial statements of the Group for the years ended 31 December 2013 and 2012 have been presented as a continuation of the existing group using the pooling of interests method. Accordingly, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows are prepared as if the current group structure had been in existence since the date of incorporation/establishment of the group entities or since the date when the combining entities or business first came under common control, regardless of the date of the common control combination, and throughout the years ended 31 December 2013 and 2012.

Likewise, the comparative consolidated statement of financial position as at 31 December 2012 presents the assets and liabilities of the entities now comprising the Group as if the current group structure had been in existence at that date.

The net assets of the consolidating entities or businesses are consolidated using the existing book values from the Controlling Party’s perspective. No amount is recognised as consideration for goodwill or gain on bargain purchase at the time of common control combination, to the extent of the continuation of the Controlling Party’s interest.

There was no adjustment made to the net assets nor the profit or loss of any combining entities in order to achieve consistency of the Group’s accounting policies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

3. STATEMENT OF COMPLIANCE

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKAS”) and Interpretations issued by the HKICPA, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. The consolidated financial statements also complies with the applicable disclosure requirements under the Rules Governing the Listing of Securities on the GEM of the Stock Exchange.

The consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the accountants’ report as set out in Appendix I of the Prospectus.

A summary of the principal accounting policies adopted by the Group is set out in note 4 to the consolidated financial statements.

4. PRINCIPAL ACCOUNTING POLICIES

Basis of measurement

The measurement basis used in the preparation of these consolidated financial statements is historical costs.

Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and all of its subsidiaries as at 31 December each year. The financial statements of the subsidiaries are prepared for the same reporting year as that of the Company using consistent accounting policies.

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full. The results of subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Non-controlling interests are presented, separately from owners of the parent, in the consolidated statement of comprehensive income and within equity in the consolidated statement of financial position. The non-controlling interests in the acquiree, that are present ownership interests and entitle their holders to a proportionate share of the acquiree’s net assets in event of liquidation, are measured initially either at fair value or at the present ownership instruments’ proportionate share in the recognised amounts of the acquiree’s identifiable net assets. This choice of measurement basis is made on an acquisition-by-acquisition basis. Other types of non-controlling interests are initially measured at fair value, unless another measurement basis is required by HKFRSs.

Allocation of total comprehensive income

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to the owners of the Company and the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Basis of consolidation *(Continued)*

Changes in ownership interest

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest determined at the date when control is lost and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests at the date when control is lost. The amounts previously recognised in other comprehensive income in relation to the disposed subsidiary are accounted for on the same basis as would be required if the parent had directly disposed of the related assets or liabilities. Any investment retained in the former subsidiary and any amounts owed by or to the former subsidiary are accounted for as a financial asset, associate, joint venture or others as appropriate from the date when control is lost.

Subsidiaries

Subsidiaries are all entities over which the Group has control.

Specifically, the Group controls an investee if and only if the Group has all the following:

- power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Subsidiaries *(Continued)*

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

In the Company's statement of financial position, an investment in subsidiary is stated at cost less impairment loss. The carrying amount of the investment is reduced to its recoverable amount on an individual basis, if it is higher than the recoverable amount. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but no control or joint control of those policies.

The Group's investments in associates are accounted for under the equity method of accounting, except when the investment or a portion thereof is classified as held for sale. Under the equity method, the Group's investment in associates is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the post-acquisition results of the associates and any impairment loss relating to the investment. The consolidated statement of financial position includes the Group's share of the net assets of the associate. The Group discontinues recognising its share of further losses when the Group's share of losses of the associate equals or exceeds the carrying amount of its interest in the associate, which includes any long term interests that, in substance, form part of the Group's net investment in the associate, except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

The requirements of HKAS 39 Financial Instruments: Recognition and Measurement ("HKAS 39") are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When the application of HKAS 39 indicates that the investment may be impaired, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 Impairment of Assets ("HKAS 36") as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment, and where the cost of the item can be measured reliably, the expenditure is capitalised as an additional cost of the asset or as a replacement.

The Group has entered into Usage Priority Agreements for the preferential use on three vessels with the legal owners of each vessel with an aggregate consideration of approximately RMB8.4 million. According to the Usage Priority Agreements, the legal owners and the Group mutually agreed the following key terms:

- the Group has the exclusive preferential right to use these three vessels;
- the Group has the preferential right to acquire the interest or obtain the sales proceeds of disposal (pre-approval by the Group in advance) of these vessels; and
- any transfer, leasing, written-off or pledge of these vessels have to be approved by the Group in advance.

In accordance with HKAS 16 Property, Plant and Equipment (“HKAS 16”), the cost of an item of property, plant and equipment shall be recognised as an asset if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. With reference to the terms of Usage Priority Agreements, the cost of these three vessels can be measured reliably. In addition, the Group can demonstrate the ability to control these three vessels as the use, disposal, transfer, leasing, written-off or pledge of these vessels have to be pre-approved by the Group. Moreover, the Group can obtain future economic benefits associated with these three vessels by exercising the exclusive preferential right to use the vessels to provide logistic services to the customers or obtain the sales proceeds on disposal of these three vessels.

Therefore, management considered that the Group has controlled these three vessels and the future economic benefits associated with these three vessels are expected to flow to the Group. Accordingly, the aggregate net book value of HK\$3.61 million and HK\$4.42 million as at 31 December 2013 and 2012 have been recorded under property, plant and equipment respectively.

In accordance with HKAS 38 Intangible Assets (“HKAS 38”), some intangible assets may be contained in or on a physical substance. In determining whether an asset that incorporates both intangible and tangible elements should be treated under HKAS 16 or as an intangible asset under HKAS 38, the entity uses judgement to assess which element is more significant.

The management of the Group, based on the terms set out in the Usage Priority Agreements, considered that in substance the Group is able to exercise effective control over the “usage” of the three vessels as if it were the owner throughout the period covered by the Usage Priority Agreements. Accordingly, the three vessels are recorded by the Group under HKAS 16.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Property, plant and equipment *(Continued)*

Depreciation is provided to write off the cost less accumulated impairment losses of property, plant and equipment over their estimated useful lives from the date on which they are available for use and after taking into account of their estimated residual values, using the straight-line method, at the following rates per annum:

Leasehold improvements	Over the unexpired term of lease
Furniture, fixtures and equipment	20%
Motor vehicles	20%
Computer equipment	20%
Containers	20%
Feeder vessels and barges	8 $\frac{1}{3}$ %

Assets held under finance leases are depreciated over the shorter of their expected useful lives or the terms of the leases.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset calculated as the difference between the net disposal proceeds and the carrying amount of the item is included in profit or loss in the year in which the item is derecognised.

Impairment of other assets

At the end of each reporting period, the Group reviews internal and external sources of information to assess whether the carrying amounts of its property, plant and equipment have suffered an impairment loss or impairment loss previously recognised no longer exists or may be reduced. If any such indication exists, the recoverable amount of the asset is estimated, based on the higher of its fair value less costs to sell and value in use. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the smallest group of assets that generates cash flows independently (i.e. a cash-generating unit).

If the recoverable amount of an asset or a cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

A reversal of impairment losses is limited to the carrying amount of the asset or cash-generating unit that would have been determined had no impairment loss been recognised in prior years. Reversal of impairment losses is recognised as income immediately.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Financial instruments

Recognition and derecognition

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments and on a trade date basis.

A financial asset is derecognised when and only when (i) the Group's contractual rights to future cash flows from the financial asset expire or (ii) the Group transfers the financial asset and either (a) the Group transfers substantially all the risks and rewards of ownership of the financial asset, or (b) the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset but it does not retain control of the financial asset.

A financial liability is derecognised when and only when the liability is extinguished, that is, when the obligation specified in the relevant contract is discharged, cancelled or expires.

Classification and measurement

Financial assets or financial liabilities are initially recognised at their fair value plus, in the case of financial assets or financial liabilities not carried at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial assets or financial liabilities.

Loans and receivables

Loans and receivables including trade and other receivables, pledged bank deposits and cash and bank balances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are not held for trading. They are measured at amortised cost using the effective interest method, except where receivables are interest-free loans and without any fixed repayment term or the effect of discounting would be insignificant. In such case, the receivables are stated at cost less impairment loss. Amortised cost is calculated by taking into account any discount or premium on acquisition, over the year to maturity. Gains and losses arising from derecognition, impairment or through the amortisation process are recognised in profit or loss.

Financial liabilities

The Group's financial liabilities include trade and other payables, bank loans and other borrowings. All financial liabilities except for derivatives are recognised initially at their fair value and subsequently measured at amortised cost, using effective interest method, unless the effect of discounting would be insignificant, in which case they are stated at cost.

Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer of the contract to make specified payments to reimburse the holder of the contract for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantee contract is initially recognised as deferred income within trade and other payables at fair value (being the transaction price, unless the fair value can otherwise be reliably estimated). Subsequently, it is measured at the higher of (i) the amount initially recognised, less accumulated amortisation, and (ii) the amount of the provision, if any, that is required to settle the commitment at the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Financial instruments *(Continued)*

Impairment of financial assets

At the end of each reporting period, the Group assesses whether there is objective evidence that financial assets are impaired. The impairment loss of financial assets carried at amortised cost is measured as the difference between the assets' carrying amount and the present value of estimated future cash flow discounted at the financial assets' original effective interest rate.

Such impairment loss is reversed in subsequent periods through profit or loss when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Cash equivalents

For the purpose of the consolidated statements of cash flow, cash equivalents represent short-term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value, net of bank overdrafts.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue and costs, if applicable, can be measured reliably and on the following bases.

Revenues from ocean freight and land transportation services are recognised and coincided with the date of departure.

Revenues from container terminal operations are recognised when the services rendered are complete and the vessel leaves the berth.

Revenue from ocean and air freight forwarding business are recognised and coincided with the date of departure for outward freights and the time of transfer of goods to the customers at the designated location for inward freight.

The insurance agency income are recognised when the related services are complete.

Income from tractor repair and maintenance is recognised when the related services are complete.

The percentage of completion for revenue recognition is not applicable because the integrated logistics services provided by the Group can be completed in a short period of time. Financially, even if the adoption of percentage of completion for revenue recognition is possible, it would not have caused any material difference with the revenue recognition basis currently adopted by the Group.

Income from provision for fuel cards, net of trade discount, is recognised on transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and the title is passed.

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Revenue recognition *(Continued)*

Revenues from operational equipment rental are recognised when the equipment are let out and on the straight-line basis over the lease terms.

Management fee income is recognised when services are rendered.

Interest income from financial asset is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable.

Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in the currency of Hong Kong dollars, which is the Company's functional currency.

Foreign currency transactions are translated into the functional currency of each of the Group's entities using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

The results and financial position of all the group entities that have a functional currency different from the presentation currency ("foreign operations") are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the end of reporting period.
- Income and expenses for each statement of comprehensive income are translated at average rates.
- All resulting exchange differences arising from the above translation and exchange differences arising from a monetary item that forms part of the Group's net investment in a foreign operation are recognised as a separate component of equity.
- On the disposal of a foreign operation, which includes a disposal of the Group's entire interest in a foreign operation, a disposal involving the loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate that includes a foreign operation of which the retained interest is no longer equity-accounted for, the cumulative amount of the exchange differences relating to the foreign operation that is recognised in other comprehensive income and accumulated in the separate component of equity is reclassified from equity to profit or loss when the gain or loss on disposal is recognised.
- On the partial disposal of the Group's interest in a subsidiary that includes a foreign operation which does not result in the Group losing control over the subsidiary, the proportionate share of the cumulative amount of the exchange differences recognised in the separate component of equity is re-attributed to the non-controlling interests in that foreign operation and are not reclassified to profit or loss.
- On all other partial disposals, which includes partial disposal of associates that do not result in the Group losing significant influence or joint control, the proportionate share of the cumulative amount of exchange differences recognised in the separate component of equity is reclassified to profit or loss.

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Borrowing costs

Borrowing costs incurred, net of any investment income on the temporary investment of the specific borrowings, that are directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the amount of obligation can be made. Expenditures for which a provision has been recognised are charged against the related provision in the year in which the expenditures are incurred. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount provided is the present value of the expenditures expected to be required to settle the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

As lessee

Assets held under finance leases are recognised as assets of the Group at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as finance lease obligation. Finance charges, which represent the difference between the total leasing commitments and the fair value of the assets acquired, are charged to profit or loss over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

Rentals payable or receivable under operating leases are charged or credited to profit or loss on a straight-line basis over the term of the relevant lease.

Lease incentives are recognised in profit or loss as an integral part of the net consideration agreed for the use of the leased asset. Contingent rentals are recognised as expenses in the accounting period in which they are incurred.

Employee benefits

Short-term employee benefits

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the period in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

Defined contribution plans

The obligations for contributions to defined contribution retirement scheme are recognised as an expense in profit or loss as incurred. The assets of the scheme are held separately from those of the Group in an independently administered fund.

Contributions to the state-managed retirement schemes in jurisdictions other than Hong Kong, which are calculated on certain percentages of the applicable payroll costs, are charged as expenses when employees have rendered services entitling them to the contributions.

Share-based payment transactions

Equity-settled transactions

The Group's employees, including directors, receive remuneration in the form of share-based payment transactions, whereby the employees rendered services in exchange for shares or rights over shares. The cost of such transactions with employees is measured by reference to the fair value of the equity instruments at the grant date. The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a reserve within equity. The fair value is determined using the binomial model, taking into account the terms and conditions of the transactions, other than conditions linked to the price of the shares of the Company ("market conditions").

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the year(s) in which the vesting conditions are to be fulfilled, ending on the date on which the relevant employees become fully entitled to the award ("vesting date"). During the vesting period, the number of share options that is expected to vest ultimately is reviewed. Any adjustment to the cumulative fair value recognised in prior years is charged/credited to profit or loss for the year of the review, with a corresponding adjustment to the reserve within equity.

Taxation

The charge for current income tax is based on the results for the period as adjusted for items that are non-assessable or disallowed. It is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither the accounting profit nor taxable profit or loss, it is not accounted for.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Taxation *(Continued)*

The deferred tax liabilities and assets are measured at the tax rates that are expected to apply to the period when the asset is recovered or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of reporting period. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, tax losses and credits can be utilised.

Deferred tax is provided on temporary differences arising on investment in subsidiaries and associates, except where the timing of the reversal of the temporary differences is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Related parties

A related party is a person or entity that is related to the Group.

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of the parent of the Group.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

4. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

Related parties *(Continued)*

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (a) that person's children and spouse or domestic partner;
- (b) children of that person's spouse or domestic partner; and
- (c) dependants of that person or that person's spouse or domestic partner.

In the definition of a related party, an associate includes subsidiaries of the associate and a joint venture includes subsidiaries of the joint venture.

Critical accounting estimates and judgements

In the process of applying the Group's accounting policies, which are described above, management has made various estimates and judgements which are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Estimates and judgements are continually evaluated. The key source of estimation uncertainty and accounting judgements, other than the judgment on the ownership of three vessels as described in above, that result in significant risk of causing a material adjustment to the carrying amount of assets and liabilities in the next financial year or significantly affect the amounts recognised in the consolidated financial statements are discussed below:

Key sources of estimation uncertainty

(i) Useful lives of property, plant and equipment

The management determines the estimated useful lives of the Group's property, plant and equipment based on the historical experience of the actual useful lives of the relevant assets of similar nature and functions. The estimated useful lives could be different as a result of technological innovations which could affect the related depreciation charges included in profit or loss.

(ii) Allowance for bad and doubtful debts

The provisioning policy for bad and doubtful debts of the Group is based on the evaluation by management of the collectability of the accounts receivable. A considerable amount of judgment is required in assessing the ultimate realisation of these receivables, including assessing the current creditworthiness and the past collection history of each customer. If the financial conditions of these customers were to deteriorate, resulting in an impairment of their ability to make payments, allowance will be required.

(iii) Income taxes

The Group is subject to income taxes in several jurisdictions. Significant estimates are required in determining the provision for income taxes. There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business, where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impair the income tax and deferred tax provision in the period in which such determination is made.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

4. PRINCIPAL ACCOUNTING POLICIES (Continued)

Key sources of estimation uncertainty (Continued)

(iv) Impairment of investments and receivables

The Group assesses annually if investment in subsidiaries and associates has suffered any impairment in accordance with HKAS 36 and follows the guidance of HKAS 39 in determining whether amounts due from these entities are impaired. Details of the approach are stated in the respective accounting policies. The assessment requires an estimation of future cash flows, including expected dividends, from the assets and the selection of appropriate discount rates. Future changes in financial performance and position of these entities would affect the estimation of impairment loss and cause the adjustments of their carrying amounts.

(v) Control over Win Top Shipping Limited (“Win Top”) and Wintop Logistics Development Co., Ltd (“Wintop Logistics”)

Although the Group had only 50% effective equity interests and voting rights in Win Top before the acquisition of further interests in Win Top and Wintop Logistics as detailed in note 14 to the consolidated financial statements, the Group had control of these two companies because a written agreement (“Written Agreement”) had been mutually agreed by shareholders of these two companies. Pursuant to the Written Agreement, the director appointed by the non-controlling shareholder of these two companies would vote unanimously and consistently with the directors appointed by the Group. In effect, the arrangement granted the Group the right to direct the relevant activities of these two companies.

Future changes in HKFRSs

At the date of authorisation of these consolidated financial statements, the HKICPA has issued a number of the following new/revised HKFRSs that are not yet effective for the current year, which the Group has not early adopted.

5. SEGMENT INFORMATION

The chief operating decision maker has been identified collectively as the executive directors of the Company. An operating segment is a component of the Group that is engaged in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal management reporting information that is provided to and regularly reviewed by the Group's executive directors in order to allocate resources and assess performance of the segment.

For management purposes, the Group is currently organised into the following operating segments:

Operating segments	Principal activities
— Integrated logistics freight services	— Provision of ocean freight and land transportation and container drayage services — Provision of ocean freight forwarding services — Provision of air freight forwarding services — Provision of feeder container storage facilities and hiring services of barges and vehicles
— Provision of fuel cards	— Provision of fuel cards
— Tractors repairs and maintenance services and insurance agency services	— Tractors repairs and maintenance — Provision of insurance agency services

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segments assets include all property, plant and equipment, receivables, bank deposits and cash and cash equivalents other than interests in associates and corporate assets which are managed on a group basis. All liabilities are allocated to reportable segment liabilities other than unallocated head office and corporate liabilities which are managed on a group basis and certain other payables and accrued charges.

Revenues and expenses are allocated to the reporting segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation of assets attributable to those segments. The measure used for reporting segment results is profit before taxation without allocation of share of results of associates and other unallocated corporate expenses and income. For the purpose of assessing the performance of the operating segments and allocation of resources between segments, the Group's results are further adjusted for items not specifically attributed to individual segments and other head office or corporate administration costs.

Inter-segment sales transactions are charged at prevailing market prices.

10. TAXATION *(Continued)*

(i) Hong Kong Profits Tax

Hong Kong Profits Tax has been provided at the rate of 16.5% on the Group's estimated assessable profits arising from Hong Kong during the year.

(ii) Income taxes outside Hong Kong

The Company's subsidiaries in the PRC are subject to Enterprise Income Tax. PRC Enterprise Income Tax is calculated at the prevailing tax rate at 25% on taxable income determined in accordance with the relevant laws and regulations in the PRC.

Pursuant to the rules and regulations of the British Virgin Islands ("BVI") and the Cayman Islands, the Group is not subject to any taxation under jurisdictions of the BVI and the Cayman Islands.

(iii) PRC taxes of Golden Fame Delta Shipping Limited ("GFDS")

For safeguard reasons, GFDS had, through a tax advisor, sought a view from the relevant PRC tax authority on the potential tax exposure of a company operating in the scenario as GFDS carries on its business in the PRC on a no-name basis. The view given was that such company would not be eligible for the PRC tax exemption even if it is normally managed or controlled in Hong Kong with its profit assessed under Hong Kong tax.

During the year ended 31 December 2012, in order to avoid delay, GFDS has reached an agreement with the relevant local tax authorities on the bases of computation of the PRC tax liabilities and paid an amount of approximately RMB742,000, including Business Tax and Enterprise Income Tax, in respect of the 3 years from 2009 to 2011 and surcharge for late payment of approximately RMB249,000 under the self-reporting system of the PRC tax rules.

Having settled the aforesaid PRC tax liabilities and surcharge, the management has reassessed the adequacy of provision for tax and related payments made in the past years and determined that the said payments should not have caused a significant financial impact on the Group's results and financial positions throughout the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

10. TAXATION (Continued)

Reconciliation of tax expenses

The tax charge for the year can be reconciled to the profit per the consolidated statement of comprehensive income as follows:

	2013 HK\$'000	2012 HK\$'000
Profit before taxation	16,578	15,610
Income tax at applicable tax rate of 16.5%	2,735	2,575
Effects of different tax rates of subsidiaries operating in other jurisdictions	233	7
Non-deductible expenses	2,829	1,457
Tax exempt revenue	(1,205)	(1,226)
Tax effect of share of results of associates	(208)	(375)
Utilisation of previously unrecognised tax losses	(60)	(144)
Unrecognised temporary differences	217	489
Over provision in prior year	(296)	(91)
Tax effect of tax loss not recognised	294	–
Others	(649)	352
Tax expense for the year	3,890	3,044

Tax exempt revenue mainly included profits not taxed in Hong Kong under S.23B of the Inland Revenue Ordinance for being carriage shipped outside Hong Kong and bank interest income. Non-deductible expenses mainly included bank loan and overdraft interest incurred for non-producing assets, loss not allowable in Hong Kong under S.23B of the Inland Revenue Ordinance for being carriage shipped outside Hong Kong as well as listing expenses charged to profit or loss.

11. LOSS ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

13. EARNINGS PER SHARE

Basic earnings per share for the years ended 31 December 2013 and 2012 are calculated by dividing the profit attributable to the equity holders of the Company by the weighted average number of ordinary shares in issue.

In determining the weighted average number of ordinary shares in issue, 1 ordinary share issued on incorporation of the Company, 9,999,999 ordinary shares issued as consideration for the acquisition of the entire issued share capital of Gamma Logistics (B.V.I.) Corporation ("GLBVI") and the capitalisation issue of 590,000,000 ordinary shares upon the Listing on 22 August 2013 were deemed to have been in issue on 1 January 2012 for the purpose of the calculation of basic earnings per share.

	2013 HK\$'000	2012 HK\$'000
Profit attributable to equity holders of the Company	10,095	8,700
Weighted average number of ordinary shares in issue	671,780,822	600,000,000
Basic earnings per share	1.50 HK cents	1.45 HK cents

Basic and diluted earnings per share are the same as the Company did not have any dilutive potential ordinary shares during the years ended 31 December 2013 and 2012.

	2013 HK\$'000	2012 HK\$'000
The above borrowings, other than bank loans, are repayable as follows:		
— repayable on demand or within 1 year	918	1,542
— repayable after 1 year but within 2 years	974	817
— repayable after 2 years but within 5 years	2,133	681
	4,025	3,040
The above bank loans are repayable as follows:		
— repayable on demand or within 1 year	9,564	6,727
— repayable after 1 year but within 2 years	2,063	3,874
— repayable after 2 years but within 5 years	765	2,828
	12,392	13,429
Total interest-bearing borrowings	16,417	16,469

The bank loans carry interest at the prevailing market rates of about 3% to 6% (2012: 4% to 6%) per annum for the year ended 31 December 2013. Further details about the banking facilities granted to the Group are set out in Note 31 to the consolidated financial statements.

The obligations under finance leases carry interest at the annual percentage rates of about 6% (2012: 5.3% to 8.3%) per annum for the year ended 31 December 2013.

Notes:

- (a) The Company was incorporated in the Cayman Islands on 13 September 2011. At the date of incorporation, the authorised share capital of the Company was HK\$380,000 divided into 38,000,000 ordinary shares of HK\$0.01 each. On incorporation, 1 ordinary share with par value of HK\$0.01 was allotted, issued and credited as fully paid.
- (b) In preparation for the listing of the Company's shares on the GEM, the following changes in authorised and issued share capital of the Company took place on 3 August 2013:
- (i) Pursuant to the written resolutions of the sole shareholder passed on 3 August 2013 (the "Written Resolutions"), the authorised share capital of the Company was increased to HK\$100,000,000 divided into 10,000,000,000 ordinary shares of HK\$0.01 each by the creation of an additional 9,962,000,000 ordinary shares of HK\$0.01 each.
- (ii) As mentioned in the paragraph headed "Reorganisation" in the section headed "History, Reorganisation and Corporate Structure" of the Prospectus, GLBVI capitalised the amount due to GFII of HK\$986,795, resulting from execution of several assignments and novations, by allotting and issuing 20 new shares of US\$1 each, credited as fully paid to GFII on 25 July 2013.
- Followed by the capitalisation of the amount due to GFII mentioned above, the Company acquired the entire issued capital of GLBVI from GFII and in consideration of and in exchange for which, the Company allotted and issued 9,999,999 shares, credited as fully paid to GFII on 3 August 2013.
- The net effects of the capitalisation of amount due to GFII and acquisition of GLBVI, as parts of the Reorganisation, have been credited to the capital reserve.
- (c) On 22 August 2013, 200,000,000 ordinary shares ("Placing Shares") of HK\$0.01 each were issued by way of placing (the "Placing") at a price of HK\$0.25 per share for cash consideration of HK\$50,000,000. The excess of the placing price over the par value of the shares issued, net of listing expenses of HK\$14,010,000, was credited to the share premium account.
- (d) Pursuant to the written resolution of the sole shareholder passed on 3 August 2013, the Company capitalised an amount of HK\$5,900,000 from the amount standing to the credit of the share premium account, being credited as a result of the issue of the Placing Shares, by applying such sum to pay up in full at par a total of 590,000,000 shares for allotment and issue to GFII, the sole shareholder appears on the register of members of the Company at the close of business on 7 August 2013.

All the shares issued during the year ended 31 December 2013 rank pari passu in all respects with the then existing shares.

23. SHARE OPTION SCHEME

The Company adopted a share option scheme (the "Scheme") on 3 August 2013. The purpose of the Scheme is to recognise and acknowledge the contributions that participants has made or may make to the Group, to provide participants with an opportunity to have a personal stake in the Company with the view to achieve motivating the participants to optimise their performance and efficiency for the benefit of the Group, to attract and retain or otherwise maintain ongoing business relationship with participant, whose contributions are or will be beneficial to the long term growth of the Group.

Participants include (i) any director and employee, consultant, customer, supplier, agent, partner or adviser of or contractor to the Group or a company in which the Group holds an interest or a subsidiary of such company ("Affiliate"); or (ii) the trustee of any trust the beneficiary of which or any discretionary trust the discretionary objects of which include any director, employee, consultant, professional, customer, supplier, agent, partner or adviser of or contractor to the Group or an Affiliate; or (iii) a company beneficially owned by any director, employee, consultant, professional, customer, supplier, agent, partner, adviser of or contractor to the Group or an Affiliate.

The directors may, at their discretion, invite any participant to take up options. Options may be granted to participants under the Scheme during the period of 10 years commencing on the effective date of the Scheme. An option is deemed to have been granted and accepted by the grantee upon the duplicate letter comprising acceptance of the option duly signed by the grantee and paying HK\$1 by way of consideration for the grant thereof.

The subscription price of the share options will be a price determined by the board and shall not be less than the higher of (a) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the relevant option, which must be a business day (b) the average closing price of the shares as stated in the Stock Exchange's daily quotation sheet for the five business days immediately preceding the date of grant of the relevant option and (c) the nominal value of a share on the date of grant.

The maximum number of shares to be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share option scheme of the Company must not in aggregate exceed 30% of the total number of shares in issue from time to time. The total number of shares of the Company which may be issued upon exercise of all options to be granted under the Scheme and any other share option schemes of the Company shall not in aggregate exceed 80,000,000 shares of the Company, being 10% of the total number of shares of the Company in issue as at the date of approval of the Scheme unless shareholders' approval has been obtained. An option may be exercised during a period to be determined by the directors in their absolute discretion and in any event such period shall not be later than 10 years after the date of grant of the option.

The maximum entitlement for any participant is that the total number of shares issued and to be issued upon exercise of the options granted to each participant under the Scheme in any 12-month period shall not exceed 1 percent of the total number of shares in issue of the Company. Any further grant of options in excess of the 1 percent limit shall be subject to certain requirements provided under the GEM Listing Rules.

At the end of the reporting period, no option has been granted under the Scheme since its adoption.

24(a) SHARE PREMIUM

Share premium represents the excess of the net proceeds from issuance of the Company's shares over its par value. Under the law of the Cayman Islands and the Company's Articles of Association, it is distributable to the Company's shareholders provided that the Company is able to pay its debts as they fall due in the ordinary course of business.

24(b) CAPITAL RESERVE

The capital reserve arises from the business combination under common control in relation to the Reorganisation. The amounts represent the difference between aggregate net asset value of the companies comprising the Group and the investment costs in the subsidiaries.

The negative capital reserve represents the excess of "total investment costs in the companies comprising the Group" over "the aggregate net assets value of the companies comprising the Group".

Under merger accounting the net assets of the combining entities are combined using the existing book values from the Controlling Party's perspective. No amount is recognised as consideration for goodwill or gain on bargain purchase at the time of common control combination, to the extent of the continuation of the Controlling Party's interest. Accordingly, the above mentioned difference has been recorded in the capital reserve under merger accounting.

Year ended 31 December 2013

24(c) EXCHANGE RESERVE

Exchange reserve of the Group comprises all foreign exchange differences arising from translation of the financial statements of the Group's subsidiaries in the PRC. The reserve is dealt with in accordance with the accounting policy set out in note 4 above.

24(d) STATUTORY RESERVE

The statutory reserves are reserves required by the Accounting Regulations for Business Enterprises applicable to the Company's PRC subsidiaries. The reserves can be used to reduce previous year's losses and to increase the capital of the subsidiaries.

24(e) OTHER RESERVES

During the year, the Group acquired the remaining 50% equity interests in Win Top, which owns 100% equity interests in Wintop Logistics, at a consideration of HK\$13,000,000 as mentioned in note 14 to the consolidated financial statements. The carrying amount of the non-controlling interests in the two subsidiaries on the date of acquisition was HK\$6,143,000. The Group derecognised non-controlling interests of HK\$6,143,000 and recognised directly in equity attributable to owners of the parent of HK\$6,857,000 for the difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid.

24(f) CONTRIBUTED SURPLUS

The contributed surplus of the Company arose from the Reorganisation on 3 August 2013. The balance represents the difference between the nominal amount of the Company's shares issued and the consolidated shareholders' fund of the subsidiaries acquired during the Reorganisation.

At the end of the reporting period	2,564	239

Pursuant to the PRC Enterprise Income Tax Law, a 10% withholding tax is levied on dividends distributed to foreign investors by the foreign investment enterprises established in the PRC. The requirement is effective from 1 January 2008 and applies to earnings accumulated after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between the PRC and jurisdiction of the foreign investors.

As at 31 December 2013 and 2012, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings of the Groups' subsidiaries established in the PRC because these PRC subsidiaries have accumulated losses as at 31 December 2013 and 2012.

28. COMMITMENTS

At the end of the reporting period, the Group had total future minimum lease payments under non-cancellable operating leases (other than Shipping Slot Charter Agreement (船舶運輸合同) mentioned below) which are payable as follows:

	2013 HK\$'000	2012 HK\$'000
Within one year	1,870	2,358
In the second to fifth years inclusive	323	1,162
	2,193	3,520

Operating lease payments represent rentals payable by the Group for its office premises and dormitories. Leases for office premises and dormitories are negotiated for term ranging from 1 to 5 years with fixed rentals.

At the end of the reporting period, the Group had committed to pay for the use of flight in relation to the minimum tonnage arrangement as follows:

	2013 HK\$'000	2012 HK\$'000
Within one year	1,986	4,485

During the year, the Group entered into two kinds of agreements, namely Shipping Slot Charter Agreement (船舶運輸合同) and Usage Priority Agreements.

Charges under Shipping Slot Charter Agreement (船舶運輸合同) are usually calculated based on usage volume. Accordingly, there is no significant non-cancellable commitment as at 31 December 2013.

According to the Usage Priority Agreements, the Group has the exclusive preferential right to use the three vessels and to acquire the interest or to obtain the sales proceeds of disposal, which has to be approved by the Group in advance, of these vessels. The Group has controlled these vessels and their net book values have been recorded under property, plant and equipment accordingly. Therefore, there was no operating lease commitment in this regard as at 31 December 2013 and 2012.

The Company had no significant lease commitment as at 31 December 2013 and 2012.

29. FINANCIAL INSTRUMENTS

(a) Financial risk management objectives and policies

The Group's principal financial instruments comprise interest-bearing borrowings, amounts due from/to associates and bank balances and cash. The main purpose of these financial instruments is to raise and maintain finance for the Group's operations. The Group has various other financial instruments such as trade and other receivables and trade and other payables, which arise directly from its business activities.

The main risks arising from the Group's financial instruments are (i) foreign currency risk, (ii) interest rate risk, (iii) credit risk and (iv) liquidity risk. The Group does not have any written risk management policies and guidelines. However, the board of directors co-operates closely with key management to identify and evaluate risks and generally adopts conservative strategies on its risk management and limits the Group's exposure to these risks to a minimum level as follows:

(i) Foreign currency risk

Most of the Group's business transactions were conducted in Hong Kong dollars and Renminbi ("RMB"). Exposures to foreign currency risk arise from certain of the Group's trade and other receivables, trade and other payables and cash and bank balances denominated in RMB. The Group does not use derivative financial instruments to hedge its foreign currency risk. The Group reviews its foreign currency exposures regularly and considers there is no significant exposure on its foreign currency risk.

(ii) Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to its interest-bearing financial instruments including interest-bearing borrowings with variable interest rates and bank balances and cash.

The table below is a summary quantitative data about exposure to interest rates at the end of the reporting period:

	The Group		The Company	
	2013 HK\$'000	2012 HK\$'000	2013 HK\$'000	2012 HK\$'000
Pledged bank deposits	400	923	–	–
Bank balances and cash	40,405	9,756	26,573	–
Bank overdrafts, secured	(3,515)	(649)	–	–
Interest-bearing borrowings (with variable interest rate)	(12,392)	(13,429)	–	–
Net exposure	24,898	(3,399)	26,573	–

At the end of the reporting period, if interest rates had been 100 basis points lower/higher and all other variables were held constant, the Group's net profit would decrease/increase by HK\$249,000 (2012: net profit would increase/decrease by HK\$34,000).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended 31 December 2013

29. FINANCIAL INSTRUMENTS *(Continued)*

(a) Financial risk management objectives and policies *(Continued)*

(ii) Interest rate risk *(Continued)*

At the end of the reporting period, if interest rates had been 100 basis points lower/higher and all other variables were held constant, the Company's net loss would increase/decrease by HK\$266,000 (2012: Nil).

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for the financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next annual end of the reporting period.

(iii) Credit risk

Credit risk mainly arises from restricted and unrestricted bank balances and cash, trade receivables, other receivables and amounts due from related parties. The Group limits its exposure to credit risk by selecting the counterparties with reference to their past credit history and/or market reputation. The Group's maximum exposure to the credit risk is summarised as follows:

	The Group		The Company	
	2013 HK\$'000	2012 HK\$'000	2013 HK\$'000	2012 HK\$'000
Pledged bank deposits	400	923	–	–
Bank balances and cash	40,405	9,756	26,573	–
Trade and other receivables	98,036	91,755	–	–
Due from related parties	–	284	–	–
Due from associates	2,349	1,067	–	–

The credit risk on pledged bank deposits and bank balances is limited because the counterparties are creditworthy licensed banks. Management does not expect any counterparty to fail to meet its obligation.

The Group reviews the recoverable amount of each individual debtor, including related and third parties, at the end of the reporting period to ensure adequate impairment losses are made for irrecoverable amounts.

At 31 December 2013, the Group had a concentration of credit risk as 8.9% (2012: 10.0%) of the total trade receivables was due from the Group's largest customer and 25.2% (2012: 30.0%) of the total trade receivables was due from the Group's five largest customers respectively.

29. FINANCIAL INSTRUMENTS *(Continued)*

(a) Financial risk management objectives and policies *(Continued)*

(iv) Liquidity risk

Management of the Group aims at maintaining sufficient level of cash and cash equivalents to finance the Group's operations and expected expansion. The Group's primary cash requirements include payments for operating expenses, additions or upgrades of property, plant and equipment and repayment of borrowings. The Group finances its working capital requirements mainly by the funds generated from operations, advanced from related parties and use of bank borrowings.

The Group manages liquidity risk by forecasting the amount of cash required and monitoring the working capital of the Group to ensure that all liabilities due and known funding requirements could be met. Based on the assessment of the management, the overall liquidity risk encountered by the Group is manageable.

The maturity profile of the Group's financial liabilities at the end of reporting period based on contractual undiscounted payments is summarised below:

(iv) Liquidity risk *(Continued)*

The amounts repayable under loan agreements that include a clause that gives lenders the unconditional right to call loans at any time are classified under the "on demand" bracket. In this regard, interest bearing loans of approximately HK\$2,828,000 as at 31 December 2013 (2012: HK\$6,702,000) (see note 20) have been so classified even though the directors do not expect that lenders would exercise their rights to demand repayment and thus these borrowings (including the aggregate principal and interest cash outflows) would be repaid according to the following schedule as set out in the loan agreements:

	The Group

29. FINANCIAL INSTRUMENTS (Continued)

(b) Capital management

The objectives of the Group's capital management are to safeguard its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, to maintain an optimal capital structure to reduce the cost of capital and to support the Group's stability and growth.

The capital structure of the Group consists of interest-bearing borrowings, pledged bank deposits, cash and cash equivalents and equity attributable to equity owners of the Company.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or return capital to shareholders. No changes were made in the objectives, policies or processes during the years ended 31 December 2013 and 2012.
