ABOUT DIGITALHONGKONG.COM (STOCK CODE: 8007)

DIGITALHONGKONG.COM (“Digital HK”) has been listed on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the “Exchange”) since April 2000. Started as a commerce service provider that specialised in providing outsourcing services for online commerce, Digital HK has strategically positioned itself to integrate both online and offline businesses, and to engage in technology investments focusing on industries supported by government policies.

Digital HK and its subsidiaries now operate the following complementary lines of business:

- provision of internet and e-commerce enabling solutions, IT consulting and technical services
- strategic investments in selected technologies and applications
- investment in lifescience and health related projects
- promotion and trading of cultural products and related services

Digital HK is a subsidiary of Champion Technology Holdings Limited, a global technology group listed on the Main Board of the Exchange.

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE EXCHANGE

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.
