(Formerly known as "Rising Power Group Holdings Limited 昇力集團控股有限公司") (Incorporated in Bermuda with limited liability) (Stock Code: 8047)

> 2014-2015 Interim Report

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached other than companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "directors") of Sky Forever Supply Chain Management Group Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

8. DISCONTINUED OPERATIONS

On 18 July 2014, Upper Power Limited, a direct wholly owned subsidiary of the Company, entered into a subscription agreement with an independent third party (the "Investor") pursuant to which Upper Power Limited sold the entire equity interest of Beaming Investments Limited and its subsidiaries (collectively known as "Beaming Investments BVI") at a consideration of HK\$3 million (the "Disposal"). Upon completion of the Disposal on 1 August 2014, the Group no longer has any equity interest in Beaming Investments Limited.

Management considers that following the Disposal, the Group's control over Beaming Investments BVI had been discontinued and thereby constituted discontinued operations. Accordingly, certain comparative figures in the consolidated statement of comprehensive income have been re-presented to separately reflect the results of the continuing operations and discontinued operations. The results of the discontinued operations for the periods ended 30 September 2014 and 2013 have been analysed as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Operational review

>>>>>>>

The electromagnetic pulse protection business contributed to approximately 56% of the total turnover of the Group for the six months ended 30 September 2014. During the period, the contractual works in Hubei (湖北), Guizhou (貴州) and Tianjin (天津) have completed and generated approximately HK\$4.7 million revenue to the Group. Contractual works will commence for telecommunication operators in Liaoning (遼寧) and are expected to be completed in the coming quarters.

In respect of energy conservation (saving) and emission reduction ("Energy Emission Reduction"), the Group recorded turnover of approximately HK\$3.0 million during the period. Certain projects in Liaoning (遼寧) and Anhui (安徽) were still in progress. The Group will continue actively in strengthening the business through participating in the tender projects in the future.

Looking ahead, the Group will continue to devote more resources in the development of supply chain management businesses and to increase their total contribution to the Group's turnover. During the period under review, the Group already entered into agreement with nine independent parties to set up joint venture companies in various locations within the PRC. The joint venture partners are well-established regional companies with established customer network and human resources in various industries in the PRC. The management has strong confidence that the formation of these joint venture companies will enable the Group to build a national supply chain management platform in the long run.

On 21 October 2014, the Group entered into a memorandum of strategic cooperation with SAP, a market leader in enterprise application software, in relation to Qianhai Subsidiary's industry chain integration platform for a term of four years. Pursuant to the memorandum, the Group and SAP agreed to cooperate and utilise their own strengths and resources in development and promotion of various industry chain solutions for the supply chain business of the Group. The business solution of SAP ties in with the supply chain management demand of the Group. The management believes that the software and services provided by SAP can improve and enhance the supply chain platform being developed by the Group. And we can foresee the business are getting a further expansion with optimized resources.

Financial review

The Group recorded a decrease in turnover from continuing operations of approximately 12% to approximately HK\$8.5 million for the six months period ended 30 September 2014 as compared to approximately HK\$9.7 million for the corresponding period in 2013. The decrease in turnover was mainly derived from the Energy Emission Reduction business as certain projects were still in progress.

The Group recorded an increase in gross profit of approximately 243% to approximately HK\$2.9 million in the current period as compared to approximately HK\$0.8 million in the corresponding period in 2013. The increase in gross profit was mainly due to the majority of revenue was generated from the Energy Emission Reduction business which has a relatively higher gross margin ratio.

During the reporting period, administrative expenses incurred by the Group were approximately HK\$19.8 million (2013: HK\$14.3 million). The increase was mainly due to the increase in professional fee associated with the set up of supply chain management business and the proposed acquisition of 75% equity interest of Hong Kong Automobile Restoration Group Limited. Net loss attributable to equity holders of the Company for the six months period ended 30 September 2014 amounted to approximately HK\$17.6 million (2013: HK\$13.5 million).
