ANNUAL REPORT 2014

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed in the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Brilliance Worldwide Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, (i) the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; (ii) there are no other matters the omission of which would make any statement herein or this report misleading; and (iii) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

This report, in both English and Chinese versions, is available on the Company's website at www.brillianceww.com.

On behalf of the board (the "Board") of directors (the "Directors") of Brilliance Worldwide Holdings Limited (the "Company") and its subsidiaries (the "Group), I am glad to present this statement to our business partners and shareholders.

The Group is an exporter of apparel products distributing a wide range of innerwear and other apparel products. During the year, the Group has streamlined its business operation by disposal of its manufacturing business in China. In future, the Group will focus on the distribution of apparel products to its customers, targeting to have market expansion and well management of customer relationship. By shifting its resources to better serve its customers, the Group aims to return to profitable business.

The Group has strategically targeted to develop sales in China and has acquired a brand name and registered a brand name in China. To promote our products, we have contracted with a Hong Kong artist and singer, Mr. Rico Kwok as our product representative. In the past years, we have sold our products in the biggest supermarket chain, the SPAR, in Dongguang of China, with more than 80 sales outlets. We have also closely discussed with a well-developed brandname for possible acquisition but was called off at the final stage due to misrepresentation by the seller. Developing of consumer market in China is one of our strategy, and internet shopping is a prevalent mode of consumers in China. It is an advancement of market segment that we need to capture. In order to strengthen our competitiveness, the Directors will cautiously control the risk and enhance the efficiency of our business operation.

The Directors will carefully consider other investment opportunities other than only focus on the the sales of apparel products with the aim to maximize the return to the shareholders.

I would like to thank all the Board, the management team and staff for their dedication and contribution to the Group's development. I would also like to thank all the shareholders and business partners for their continuous support and trust.

Ko Chun Hay, Kelvin
Chairman

Hong Kong 24 December 2014

BUSINESS REVIEW

The Group's turnover contributed from innerwear, casual wear and baby and children wear for the year ended 30 September 2014 were HK$35.5 million, HK$13.9 million and HK$14.0 million (for the nine months ended 30 September 2013 were HK$43.1 million, HK$12.8 million and HK$10.8 million) respectively.

The product mix of the Group reflects that the portion of sales of casual wear and sales of baby and children wear to the total sales has increased from 19.2% to 21.9% and 16.2% to 22.1%, respectively. Due to the increase of sales in casual wear and sales of baby and children wear, the portion of sales of innerwear has dropped from 64.6% to 56.0%. The innerwear products of the Group remain as the main products of the Group.

FINANCIAL REVIEW

The turnover and cost of sales in respect of the continuing operation for the year ended 30 September 2014 was approximately HK$63.4 million and HK$58.4 million, respectively. The gross profit was approximately HK$5.0 million at gross profit margin of 7.9% for the year ended 30 September 2014. Comprehensive loss for the year attributable to owners was approximately HK$2.8 million.

LIQUIDITY AND FINANCIAL RESOURCES

At 30 September 2014, cash and bank balances and pledged bank deposits of the Group amounted to approximately HK$9.6 million (At 30 September 2013: HK$9.4 million). The current ratio (current asset divided by current liabilities) of the Group was 2.6 times and 5.4 times as at 30 September 2013 and 2014, respectively. In view of the Group's current level of cash and bank balances, funds generated internally from our operations and the banking facilities available, the Board is confident that the Group will have sufficient resources to meet its finance needs for its operations.

OUTLOOK

We believe that the world factory in China is shifting or has been shifted to South East Asia countries. In the past years, we has established valuable and long term relationships with our customers. By re-focusing our business on apparel distribution, the Directors believe that the Group will be able to shift its resources to better serve its customers, which in turn to improve its profitability. The current release of liquidity in Europe may stimulate the purchasing forces of European and we hope that we are one of the beneficiary from this policy.

With the rising standard of living, Chinese has created a huge purchasing force in China consumer market and even spreading over to the world's consumption market. Not only local enterprises, but also many international enterprises have created or are creating their marketing team to develop business in China. Although competition is keen, the Directors are of confident to occupy a portion of market share in the consumer market in China. The Group will continue to develop its sales in China. We will cautiously consider the costs and returns in each investment with the aim to achieve the best utilization of resources and to maximize the returns to shareholders. Bearing in mind of these, we shall also consider other kind of investments but not limit to apparel related business.

FINAL DIVIDEND

The directors do not recommend the payment of any dividend in respect of the year ended 30 September 2014 (for the nine months ended 30 September 2013: Nil).

CAPITAL MANAGEMENT

The Group's objectives when managing capital are to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debt and equity balance. The management reviews the capital structure by considering the cost of capital and the risks associated with each class of capital. In view of this, the company will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt as it sees fit and appropriate.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt/(cash) is calculated as total borrowings (including "current and non-current borrowings" as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as "equity" as shown in the consolidated statement of financial position plus net debt, if any.

CAPITAL COMMITMENT

As at the end of the reporting period, the Group does not have any significant capital commitment.

FOREIGN CURRENCY EXPOSURE

Presently, there is no hedging policy with respect to the foreign exchange exposure. The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and cash balances that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily Renminbi and United States dollar.

CONTINGENT LIABILITIES

As at the end of the reporting period, the Group did not have any significant contingent liabilities.

SIGNIFICANT INVESTMENTS

As at the end of the reporting period, the Group did not have any significant investment plans.

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

Save as disclosed in this annual report, there was no specific plan for material investments or capital assets as at 30 September 2014.

MATERIAL ACQUISITIONS OR DISPOSALS

On 11 March 2014, Prosperity Global Investments Limited as the vendor (the "Vendor"), a wholly-owned subsidiary of the Company, and Success Footstep Limited as the purchaser (the "Purchaser"), an independent third party, entered into the conditional sale and purchase agreement (the "Agreement") which the Purchaser has conditionally agreed to acquire and the Vendor has conditionally agreed to sell the entire issued share capital of Yoko Garment Limited and its wholly-owned subsidiary at a consideration of HK$4.03 million, with completion being conditional upon the fulfilment of all the conditions precedent under the Agreement.

All of the conditions precedent under the Agreement had been fulfilled. On 11 April 2014, an Extraordinary General Meeting of the Company was held and approved the Agreement. Except for the aforesaid, the Group did not have any other material acquisitions or disposals.

EMPLOYEES AND REMUNERATION POLICY

Total staff costs, including Directors' emoluments, amounted to approximately HK$5.9 million for the year ended 30 September 2014 (for the nine months ended 30 September 2013: HK$17.5 million). The Group's remuneration policies were determined with reference to the performance, qualification and experience of individual employee, as well as the results of the Group and the market conditions. The Group provided discretionary bonus, medical insurance, provident fund, education subsidy and training to its employees. The Company adopted a share option scheme on 3 November 2010, under which the Company can grant options to, among others, employees of the Group to subscribe for shares of the Company with a view to rewarding them for their contributions to the Group and giving incentives to them for optimizing their future contributions to the Group. PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

During the year ended 30 September 2014, neither the Company nor any of its subsidiaries has purchased, redeemed or sold any of the Company's shares.

FINANCIAL SUMMARY

A summary of the results of the Group for the past five financial years is set out on page 75 of this annual report.

DIRECTORS AND DIRECTORS' SERVICE CONTRACT

In accordance with the Articles of the Company, one-third of the Directors are subject to retirement by rotation or, if their number is not three or a multiple of three, then the nearest to but not less than one-third shall retire from the office and, being eligible, will offer themselves for re-election, at the forthcoming annual general meeting of the Company.

The service contracts between the Company and each of the Directors are for a term of two years which commenced on 3 November 2010 and are subject to renewal by agreement for one or more consecutive terms of three years. Their terms of office are also subject to retirement by rotation and re-election at the annual general meeting of the Company in accordance with the articles of association of the Company.

No Director proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

CONFIRMATION OF INDEPENDENCE

The Company has received annual confirmations of independence from Mr. Li Kar Fai, Peter, Mr. Zhang Qing, and Mr. Li Xiao Dong pursuant to the Rules Governing the Listing of Securities on the GEM Listing Rules. The Company considers the independent nonexecutive Directors to be independent pursuant to Rule 5.09 of the GEM Listing Rules as at the date of this annual report.

DIRECTORS' AND SENIOR MANAGEMENT'S BIOGRAPHIES

Biographical details of the directors of the Company and the senior management of the Group are set out on pages 7 to 8 of this annual report.

DIRECTORS' INTERESTS IN CONTRACTS

Save as disclosed in note 8 to the consolidated financial statements, no Director had a material interest, either directly or indirectly, in any contract of significance to the business of the Group to which the Company, or any of its subsidiaries was a party during the year.

COMPETING INTEREST

For the year ended 30 September 2014, the Directors were not aware of any business or interest of the Directors, the controlling shareholder, the management shareholder and their respective associates (as defined under the GEM Listing Rules) that compete or may compete with the business of the Group and any other conflict of interest which any such person has or may have with the Group.

GROUP'S EMOLUMENT POLICY

The Directors' fees are subject to shareholders' approval at general meetings. Other emoluments are determined by the Board with reference to the Directors' duties, responsibilities and performance and the results of the Group. Each Director may also receive a year-end bonus in respect of each financial year. The amount of such bonus will be determined by the remuneration committee of the Board, subject to shareholders' approval at general meeting.

The emolument policy of the Group is on the basis of the qualifications and contributions of individuals to the Group. The Company has adopted a share option scheme as an incentive to eligible participants, details of which are set out below in the section "Share option".

Details of the emoluments of the Directors and five highest paid individuals pursuant to Rules 18.28 to 18.30 of the GEM Listing Rules are set out in notes 8 and 9 to the consolidated financial statements, respectively.

CONTRACT OF SIGNIFICANCE

There is no contract of significance between the Company or any of its subsidiaries, and a controlling shareholder or any of its subsidiaries for the year ended 30 September 2014.

For the year ended 30 September 2014, there were no debt securities issued by the Group and the Company at any time.

Save as disclosed above, as at 30 September 2014, the Directors were not aware of any other person, other than the Directors and the chief executive of the Company who had, or was deemed to have, interests or short positions in the Shares or underlying shares which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO; or who is directly or indirectly, to be interested in 5% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other member of the Group or options in respect of such share capital.

SHARE OPTION

A share option scheme (the "Scheme") was adopted by the Shareholders by way of written resolutions passed on 3 November 2010. Details of the Scheme are as follows:

(i) Purpose

The purpose of the Option Scheme is to attract and retain the best quality personnel for the development of the Company's businesses; to provide additional incentive to the employees including any executive or non-executive director and officer of the Company or any affiliate, consultants, agents, representatives, advisers, customers, contractors, business allies and joint venture partners; and to promote the long term financial success of the Company by aligning the interests of the option holders to the shareholders of the Company.

(ii) Qualifying participants

Any employee including any executive or non-executive director of the Company or any affiliate, any consultant, agent, representative, adviser, customer, contractor, business ally or joint venture partner of the Company or any affiliate.

(iii) Maximum number of shares

The total number of shares which may be issued upon exercise of all options to be granted under the Option Scheme must not in aggregate exceed 10% of the issued share capital of the Company at the date of approval of the Option Scheme or 30% of the issued share capital of the Company from time to time. The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Option Scheme and any other share option scheme(s) of the Company must be, in aggregate, exceed 30% of the total number of issued shares of the Company from time to time.

(iv) Limit for each participant

The total number of Shares of the Company issued and to be issued upon exercise of options (whether exercised or outstanding) granted in any 12-month period to each participant must not exceed 1% of the Shares of the Company in issue.

(v) Option period

The period within which the Shares must be taken up an option shall be determined by the Board in its absolute discretion at the time of grant, but such period must not exceed 10 years from the date of grant of the relevant option.

The Board has the authority to determine the minimum period for which an option must be held before it can vest. The Option Scheme itself does not specify any minimum holding period.

(vi) Acceptance and payment on acceptance

The Options will be offered for acceptance for a period of 28 days from the date on which the Options are offered to an eligible person. Upon acceptance of the Options, the eligible person shall pay HK$1 to the Company as consideration for the grant.

(vii) Subscription price

The subscription price for each Share subject to and upon the exercise of the Options will be a price determined by the Board and notified to each Participant and shall be at least the highest of (i) the closing price of each Share on GEM as stated in the daily quotations sheet of Stock Exchange on the date of grant of the Options, which must be a business day; (ii) the average closing price of each Share on GEM as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant of the Option; and (iii) the nominal value of one Share.

(viii) Remaining life of the Option Scheme

The Scheme will remain valid for a period of 10 years commenting from 3 November 2010.

On 19 January 2012, as approved by the Board of Directors, a total of 13,800,000 Options, have been granted to 2 executive directors at an exercise price of HK$0.087 per Share. On 8 February 2013, as approved by the Board of Directors, a total of 13,800,000 Options, have been granted to 2 executive directors at an exercise price of HK$0.091 per Share. As at the date of this annual report, a total of 27,600,000 Shares, representing 3.99% of the existing issued share capital of the Group are available for issue in respect of the remaining options which may be granted under the Scheme. Up to the date of this annual report, the 27,600,000 Options have not yet been exercise by the Participants.

RELATED PARTY TRANSACTION

Details of the related party transactions of the Group and the Company are set out in note 32 to the consolidated financial statements.

CORPORATE GOVERNANCE

Principal corporate governance practices as adopted by the Company are set out in the Corporate Governance Report section set out on pages 9 to 13.

PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge, as at the date of this report, there is sufficient public float of 25% of the Company's issued shares as required under the GEM Listing Rules.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's articles of association and the laws of Cayman Islands, which would oblige the Company to offer new shares on a pro-rata basis to existing shareholders.

EVENTS AFTER THE REPORTING PERIOD

As at the end of the reporting period, the Group did not have any significant events after the reporting period.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF BRILLIANCE WORLDWIDE HOLDINGS LIMITED
(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Brilliance Worldwide Holdings Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 20 to 74, which comprise the consolidated and company statements of financial position as at 30 September 2014, and the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended 30 September 2014, and a summary of significant accounting policies and other explanatory information.

Directors' responsibility for the consolidated financial statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 30 September 2014, and of the Group's loss and cash flows for the year ended 30 September 2014 in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

1. CORPORATE INFORMATION

Brilliance Worldwide Holdings Limited (the "Company") was incorporated and domiciled in the Cayman Islands as an exempted company with limited liability on 24 February 2010. The Company has established a principal place of business in Hong Kong at Flat 16, 1st Floor, Wah Yiu Industrial Centre, 30-32 Au Pui Wan Street, Fotan, New Territories, Hong Kong. Its shares have been listed on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 25 November 2010.

The principal activity of the Company is investment holding. The principal activities of the subsidiaries of the Company as set out in note 16 are principally engaged in garment distributions.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and accounting principles generally accepted in Hong Kong. These financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance, which for this financial year and the comparative period continue to be those of the predecessor Companies Ordinance (Cap. 32), in accordance with transitional and saving arrangements for Part 9 of the new Hong Kong Companies Ordinance (Cap. 622), "Accounts and Audit", which are set out in sections 76 to 87 of Schedule 11 to that Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules"). A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

b) Basis of preparation of the financial statements

During the previous financial period, the financial year end date of the Company and the Group has been changed from 31 December to 30 September. Accordingly, the corresponding comparative amounts shown for the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and related notes cover a period of nine months from 1 January 2013 to 30 September 2013 and therefore may not be comparable with amounts shown for the current year.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). These financial statements are presented in Hong Kong dollars ("HK$"), rounded to the nearest thousand except for per share data. Hong Kong dollar is the Company's functional and the Group's presentation currency.

The measurement basis used in the preparation of the financial statements is the historical cost basis.

2. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

b) Basis of preparation of the financial statements (Continued)

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 36.

c) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances and transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(g)), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

2. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

d) Property, plant and equipment

Property, plant and equipment are stated in the consolidated statements of financial position at cost less accumulated depreciation and accumulated impairment losses (see note 2(g)).

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

— leasehold land classified as held under finance lease is depreciated over the unexpired term of lease.

— building situated on leasehold land are depreciated over the shorter of the unexpired term of lease and their estimated useful lives, being no more than 50 years after the date of completion.

— other property, plant and equipment are depreciated on a straight-line method over their estimated useful lives as follows:

Plant and machinery	20% per annum
Furniture, fixtures and equipment	20% per annum
Motor vehicles	20% per annum

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are recognised in profit or loss during the financial period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net proceeds on disposal and the carrying amount of the item and are recognised in the profit or loss on the date of retirement or disposal.

e) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

— Trademark	5 years

Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss in the period when the asset is derecognised.

2. SIGNIFICANT ACCOUNTING POLICIES(CONTINUED)

f) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

i) Classification of assets leased to the Group

Assets held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exceptions:

— land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

ii) Assets acquired under finance leases

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are included in property, plant and equipment and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost of the assets over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out in note 2(d). Impairment losses are accounted for in accordance with the accounting policy as set out in note 2(g). Finance charges implicit in the lease payments are charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

iii) Operating lease charges

Where the Group has the use of assets under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged as expenses in the accounting period in which they are incurred.

iv) Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

g) Impairment of assets

i) Impairment of investment in equity securities and other receivables

Investment is equity securities and other receivables that are stated at cost or amortised cost are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

— significant financial difficulty of the debtor;

— a breach of contract, such as a default or delinquency in interest or principal payments;

— it becoming probable that the debtor will enter bankruptcy or other financial reorganisation;

— significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and

— a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

If any such evidence exists, any impairment loss is determined and recognised as follows:

— For investments in subsidiaries, the impairment loss is measured by comparing the recoverable amount of the investment with its carrying amount in accordance with note 2(g)(ii). The impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount in accordance with note 2(g)(ii).

— For trade receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

  If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade and bills receivables included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade and bills receivables directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

g) Impairment of assets (Continued)

ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

— property, plant and equipment; and

— intangible asset.

If any such indication exists, the asset's recoverable amount is estimated.

— Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing its value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

— Recognition of impairment losses

An impairment loss is recognised in the profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying amount of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

— Reversals of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

iii) Interim financial reporting and impairment

Under GEM Listing Rules, the Group is required to prepare a quarterly financial report in compliance with HKAS 34, Interim Financial Reporting, in respect of each quarter of the financial year. At the end of the quarterly period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see note 2(g)(i) and (ii)).

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

h) Inventories

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the first-in, first-out method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realizable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

i) Trade and other receivables

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method, less allowance for impairment of doubtful debts (see note 2(g)), except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of doubtful debts (see note 2(g)).

j) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

k) Trade and other payables

Trade and other payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

l) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

m) Employee benefits

i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

ii) Share-based payments

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a capital reserve within equity. The fair value is measured at grant date using the Binomial Option Pricing Model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to the profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to retained profits).

iii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

n) Income tax

Income tax for the period comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

n) Income tax (Continued)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided that those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences related to investments in subsidiaries to the extent that, in the case of taxable difference, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the company has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

o) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

p) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

i) Sale of goods

Revenue is recognised when goods are delivered at the customers' premises which is taken to be the point in time when the customer has accepted the goods and the related risks and rewards of ownership. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

ii) Interest income

Interest income is recognised as it accrues using the effective interest method.

q) Translation of foreign currencies

Foreign currency transactions during the period are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into Hong Kong dollars at the closing foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

q) Translation of foreign currencies (Continued)

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In the case of a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates that do not result in the Group losing significant influence), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

r) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

s) Discontinued operations

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which represents a separate major line of business or geographical area of operations, or is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. It also occurs when the operation is abandoned.

Where an operation is classified as discontinued, a single amount is presented on the face of the profit or loss, which comprises:

— the post-tax profit or loss of the discontinued operation; and

— the post-tax gain or loss recognised on the measurement to fair value less costs to sell, or on the disposal, of the assets or disposal group(s) constituting the discontinued operation.

t) Related parties

a) A person, or a close member of that person's family, is related to the Group if that person:

   i) has control or joint control over the Group;

   ii) has significant influence over the Group; or

   iii) is a member of the key management personnel of the Group or the Group's parent.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

t) Related parties (continued)

b) An entity is related to the Group if any of the following conditions applies:

i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

iii) Both entities are joint ventures of the same third party.

iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.

vi) The entity is controlled or jointly controlled by a person identified in (a).

vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

u) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

In the current year, the Group has applied the following new and revised HKFRS issued by the HKICPA.

Amendments to HKFRSs	Annual Improvements to HKFRSs 2009-2011 Cycle
Amendments to HKAS 1 (Revised)	Presentation of Items of Other Comprehensive Income
Amendments to HKFRS 7	Disclosures — Offsetting Financial Assets and Financial Liabilities
Amendments to HKFRS 10, HKFRS 11 and HKFRS 12	Consolidated Financial Statements, Joint Arrangement and Disclosure of Interests in Other Entities: Transition Guidance
HKFRS 10	Consolidated Financial Statements
HKFRS 11	Joint Arrangements
HKFRS 12	Disclosure of Interests in Other Entities
HKFRS 13	Fair Value Measurement
HKAS 19 (as revised in 2011)	Employee Benefits
HKAS 27 (as revised in 2011)	Separate Financial Statements
HKAS 28 (as revised in 2011)	Investments in Associates and Joint Ventures
HK(IFRIC) – Int 20	Stripping Costs in the Production Phase of a Surface Mine

Except as described below, the application of the amendments to HKFRSs in the current period has had no material effect on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these financial statement.

Annual Improvements to HKFRSs 2009-2011 Cycle

This cycle of annual improvements contains amendments to five standards with consequential amendments to other standards and interpretations. Among them, HKAS 1 has been amended to clarify that an opening statement of financial position is required only when a retrospective application of an accounting policy, a retrospective restatement or a reclassification has a material effect on the information presented in the opening statement of financial position. The amendments also remove the requirement to present related notes to the opening statement of financial position when such statement is presented. These amendments do not have any material impact on the results of operations and financial position of the Group for the years presented.

Amendments to HKFRS 7 Disclosures — Offsetting Financial Assets and Financial Liabilities

The amendments introduce new disclosures in respect of offsetting financial assets and financial liabilities. Those new disclosures are required for all recognised financial instruments that are set off in accordance with HKAS 32, *Financial Instruments: Presentation* and those that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments and transactions, irrespective of whether the financial instruments are set off in accordance with HKAS 32.

The adoption of the amendments does not have an impact on these financial statements because the Group has not offset financial instruments, nor has it entered into master netting agreement or similar agreement which is subject to the disclosures of HKFRS 7 during the periods presented.

3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

HKFRS 10 Consolidated Financial Statements

HKFRS 10 replaces the requirements in HKAS 27, *Consolidated and Separate Financial Statements* relating to the preparation of consolidated financial statements and HK-SIC 12 *Consolidation — Special purpose entities*. It introduces a single control model to determine whether an investee should be consolidated, by focusing on whether the entity has power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power to affect the amount of those returns. The adoption does not change any of the control conclusions reached by the Group in respect of its involvement with other entities as at 1 October 2013.

HKFRS 11 Joint Arrangements

HKFRS 11, which replaces HKAS 31 Interests in Joint Ventures, divides joint arrangements into joint operations and joint ventures. Entities are required to determine the type of an arrangement by considering the structure, legal form, contractual terms and other facts and circumstances relevant to their rights and obligations under the arrangement. Joint arrangements which are classified as joint operations under HKFRS 11 are recognised on a line-by-line basis to the extent of the joint operator's interest in the joint operation. All other joint arrangements are classified as joint ventures under HKFRS 11 and are required to be accounted for using equity method in the Group's consolidated financial statements. Proportionate consolidation is no longer allowed as an accounting policy choice.

HKFRS 12 Disclosure of Interests in Other Entities

HKFRS 12 brings together into a single standard all the disclosure requirements relevant to an entity's interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. The disclosures required by HKFRS 12 are generally more extensive than those previously required by the respective standards.

HKFRS 13 Fair Value Measurement

HKFRS 13 replaces existing guidance in individual HKFRSs with a single source of fair value measurement guidance. HKFRS 13 also contains extensive disclosure requirements about fair value measurements for both financial instruments and non-financial instruments. The adoption of HKFRS 13 does not have any material impact on the fair value measurements of the Group's assets and liabilities.

4. TURNOVER

The principal activity of the Group is garment manufacturing and sale of apparel products.

Turnover represents the sales value of goods supplied to customers as follows:

	Continuing operations		Discontinued operations		Consolidated	
	1 October 2013 to 30 September 2014 HK$'000	1 January 2013 to 30 September 2013 HK$'000 (Restated)	1 October 2013 to 30 September 2014 HK$'000	1 January 2013 to 30 September 2013 HK$'000 (Restated)	1 October 2013 to 30 September 2014 HK$'000	1 January 2013 to 30 September 2013 HK$'000 (Restated)

Loss before taxation is arrived at after charging the following:

a) Staff costs (including directors' remuneration (Note 8))

	Continuing operations		Discontinued operations		Consolidated

12. DIVIDEND

The directors do not recommend any payment of dividend for the year ended 30 September 2014 (nine months ended 30 September 2013: Nil).

13. LOSS PER SHARE

a) For continuing and discontinued operations

The calculation of basic loss per share is based on the loss attributable to the owners of the Company as follows and the weighted average number of 692,000,000 shares in issue during the year (for the nine months ended 30 September 2013: 692,000,000 shares in issue).

	2014 HK$'000	2013 HK$'000 (Restated)
(Loss)/profit		
(Loss)/profit attributable to equity shareholders of the Company used in the calculation of basic loss per share		
From continuing operations	**(3,424)**	(5,695)
From discontinued operations	**514**	(8,555)
	(2,910)	(14,250)

Diluted loss per share equals to the basic loss per share for both year/period of 2014 and 2013 because the outstanding share options had an anti-dilutive effect on the basic loss per share.

b) For continuing operations

The calculation of basic loss per share is based on the loss attributable to the owners of the Company as follow and the weighted average number of 692,000,000 shares in issue during the year (for the nine months ended 30 September 2013: 692,000,000 shares in issue).

	2014 HK$'000	2013 HK$'000 (Restated)
Loss		
Loss attributable to the owners of the Company	**(3,424)**	(5,695)

Diluted loss per share equals to the basic loss per share for both year/period of 2014 and 2013 because the outstanding share options had an anti-dilutive effect on the basic loss per share.

c) For discontinued operations

Basic earnings per share for the discontinued operations is HK$0.001 per share (2013: basic loss per share HK$0.012 per share) which is based on the gain from the discontinued operations of HK$514,000 (2013: loss of HK$8,555,000 (restated)) and the weighted average number of 692,000,000 shares in issue during the year (for the nine months ended 30 September 2013: 692,000,000 shares in issue).

Diluted earnings per share equals to the basic earnings per share because the outstanding share options had an anti-dilutive effect on the basic loss per share for both year/period ended 2014 and 2013.

14. EMPLOYEE RETIREMENT BENEFITS

Defined contribution retirement plan

The Group operates a Mandatory Provident Fund Scheme (the "MPF scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK$30,000 (HK$25,000 prior to June 2014). Contributions to the plan vest immediately.

The Group also participates in a state-managed scheme. The employees of the Group's subsidiaries in the PRC are members of a state-managed retirement benefit scheme operated by the government of the PRC. The subsidiaries are required to contribute certain percentages of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit scheme is to make the specified contributions..

	17,016	12,110	66	66

All of the trade and other receivables are expected to be recovered or recognised as expense within one year.

a) Aging analysis

The aging analysis of the trade and bills receivables presented based on invoice date, which approximates the respective revenue recognition dates, as of the end of the reporting period was as follows:

	The Group	
	2014 HK$'000	2013 HK$'000
0-90 days	5,836	10,304
91-180 days	–	12
181-365 days	1,269	1,270
	7,105	11,586
Less: allowance for doubtful debt	(1,269)	(1,269)
	5,836	10,317

Trade and bills receivables are normally due within 15 to 60 days from the date of billing. Further details on the Group's credit policy are set out in note 35(a)(i).

19. TRADE AND OTHER RECEIVABLES (CONTINUED)

b) Allowance for doubtful debt

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly (see note 2(g)).

Movements in the allowance for doubtful debt

	The Group	
	2014	2013
	HK$'000	HK$'000
At the beginning of year/period	**1,269**	–
Impairment loss recognised	**–**	1,269
At the end of year/period	**1,269**	1,269

As at 30 September 2014, trade receivables of the Group amounting to HK$1,269,000 (2013: HK$1,269,000) were individually determined to be impaired. The individually impaired receivables were long outstanding at the end of the reporting period or were due from customers with financial difficulties. Accordingly, specific allowances for doubtful debts of approximately HK$1,269,000 were recognised (nine months ended 30 September 2013: HK$1,269,000).

c) Trade and bills receivables that are not impaired

The aging analysis of trade and bills receivables that are neither individually nor collectively considered to be impaired are as follows:

	The Group	
	2014	2013
	HK$'000	HK$'000
Neither past due nor impaired	**5,836**	9,975
Past due but not impaired		
Less than 3 months past due	**–**	339
3 to 12 months past due	**–**	3
	–	342
	5,836	10,317

Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

20. AMOUNTS DUE FROM/(TO) SUBSIDIARIES

The amounts due from/(to) subsidiaries are unsecured, interest-free and repayable on demand.

21. AMOUNT DUE FROM ULTIMATE HOLDING COMPANY

Particulars of amount due from ultimate holding company disclosed pursuant to section 78 of Schedule 11 to the new Hong Kong Companies Ordinance (Cap. 622), with reference to section 161B of the predecessor Hong Kong Companies Ordinance (Cap. 32) are as follows:

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

28. RESERVES

a) The movements in components of equity

The reconciliation between the opening and closing balances of each component of the Group's consolidated equity is set out in the consolidated statement of changes in equity. Details of the changes in the Company's individual components of equity between the beginning and the end of the year/period are set out below:

	Share premium (note 28(b)(i))	Contributed surplus (note 28(b)(iv))	Share-based compensation reserves (note 28(b)(vi))	Accumulated losses	Total

At 30 September 2014	16,489	18,497	1,319	(20,820)	15,485

b) Nature and purpose of reserves

i) Share premium

The application of the share premium account of the Company is governed by the Companies Law of the Cayman Islands. Under the Companies Law of the Cayman Islands, the funds in the share premium account are distributable to shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

ii) Capital reserve

On 18 March 2011, Yoko Garment capitalised the indebtedness of HK$3,719,432 including the loan from a director and amount due to a director of HK$2,747,267 and HK$972,165 respectively, owed by Yoko Garment to Mr. Ko Chun Hay, Kelvin in consideration of the allotment and issue of a total 800 ordinary shares of HK$1.00 each in the share capital of Yoko Garment, all credited as fully paid, to Mr. Ko Chun Hay, Kelvin. As a result, share premium of HK$3,718,633 was credited to the share premium account of Yoko Garment. This share premium of Yoko Garment of HK$3,718,633 is governed by Section 48B of the predecessor Hong Kong Companies Ordinance and it is not distributable to the owners of Yoko Garment. Upon reorganisation of the Group, it is recognised as capital reserve on group level.

iii) Merger reserve

Merger reserve represents the difference between the nominal values of the ordinary shares issued by the Company and the share capital of subsidiaries acquired through an exchange of shares pursuant to the reorganisation in prior years.

28. RESERVES (CONTINUED)

b) Nature and purpose of reserves (Continued)

iv) Contributed surplus

Contributed surplus represents the difference between the nominal value of the ordinary shares issued by the Company and the net asset value of subsidiaries acquired through an exchange of shares pursuant to the reorganisation in prior years.

v) Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policy set out in note 2(q).

vi) Share-based compensation reserve

The share-based compensation reserve represents the fair value of the actual or estimated number of unexercised share options granted to employees of a subsidiary recognised in accordance with the accounting policy adopted for share-based payments set out in note 2(m)(ii).

c) Distributability of reserves

The Company's reserves as at 30 September 2014 available for distribution to owners of the Company as calculated under the provision of the Companies Law of the Cayman Islands are approximately HK$14,166,000 (2013: HK$33,879,000).

29. DISPOSAL OF SUBSIDIARIES

The Group discontinued its manufacturing operation at the time of disposal of its subsidiaries during the year ended 30 September 2014. The net assets at the date of the disposals (i.e. 15 April 2014) were as follows:

	HK$'000

30. SHARE OPTIONS SCHEME

The Share Option Scheme of the Company was adopted pursuant to a resolution in writing of all shareholders passed on 3 November 2010. The purposes of the Share Option Scheme are to provide incentives or rewards to full time or part-time employees, executives, officers, directors, business consultants, agents, legal and financial advisers of the Company and the Company's subsidiaries for their contribution to the success of the Group's operations. The Share Option Scheme became effective on 3 November 2010 ("Effective Date"), unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The total number of shares of the Company available for issue under the Share Option Scheme must not in aggregate, exceed 69,200,000 shares, representing 10% of the issued share capital of the Company (692,000,000 shares) at the Effective Date.

The maximum number of shares issuable upon exercise of the options which may be granted under the Share Option Scheme (including exercised, cancelled or outstanding options) to each participant (other than a substantial shareholder, chief executive or director as explained below) in any 12-month period shall not exceed 10% of the issued share capital of the Company for the time being. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their respective associates (as defined under the GEM Listing Rules), are subject to approval in advance by the independent non-executive directors (excluding any independent non-executive director who is the grantee of the options). In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their respective associates, (as defined under the GEM Listing Rules) in excess of 0.1% of the shares of the Company in issue with an aggregate value (based on the closing price of the Company's shares at the date of the grant) in excess of HK$5,000,000, in the 12-month period up to and including the date of grant, are subject to shareholders' approval in a general meeting.

The offer of a grant of share options may be accepted in writing by a participant within 28 days from the date of offer upon payment of a nominal consideration of HK$1 by the grantee. The exercise period of the share options granted is determined by the directors, which period may commence from the date of acceptance of the offer for the grant of share options but shall end, in any event, not later than 10 years from the date of the conditional adoption of the Share Option Scheme by the shareholders subject to the provisions for early termination under the Share Option Scheme.

The exercise price is determined by the directors of the Company, and shall not be less than the highest of (i) the closing price of the shares on the date of grant, (ii) the average closing price of the share for the five business days immediately preceding the date of grant, and (iii) the nominal value of the Company's shares.

On 19 January 2012, the Company granted 13,800,000 share options to its directors under the Share Option Scheme. Options granted must be taken up within 28 days of the date of grant, upon payments of HK$1 by each of the grantees. The options may be exercised at any time after the date of grant of the share options to the fifth anniversary of the date of grant.

On 8 February 2013, the Company granted options to its directors to subscribe for additional 13,800,000 shares under the Share Option Scheme. Options granted must be taken up within 28 days of the date of grant, upon payments of HK$1 by each of the grantees. The options may be exercised at any time after the date of grant of share options to the seventh anniversary of the date of grant.

The following table discloses movements of the Company's share options granted under the New Share Option Scheme and movements in such holdings:

Category of grantee	**Exercise price per share**	**Date of grant**	**Exercisable period**	**Contractual life of option**
	HK$			
Directors	0.087	19 January 2012	20 January 2012 to 19 January 2017	5 years
Directors	0.091	8 February 2013	9 February 2013 to 8 February 2020	7 years

30. SHARE OPTIONS SCHEME (CONTINUED)

a) The number and weighted average exercise prices of share options are as follows:

	2014		2013	
	Weighted average exercise price HK$ per share	**Number of options**	Weighted average exercise price HK$ per share	Number of options
Outstanding at the beginning of the year/period	**0.089**	**27,600,000**	0.087	13,800,000
Granted during the year/period	**–**	**–**	0.091	13,800,000
Outstanding at the end of the year/period	**0.089**	**27,600,000**	0.089	27,600,000
Exercisable at the end of the year/period	**0.089**	**27,600,000**	0.089	27,600,000

b) **Fair value of share options at measurement date and assumption**

The fair value of services received in return of share options granted are measured by reference to the fair value of share options granted. The estimate of the fair value of the share options granted is measured based on the Binomial Option Pricing Model. The contractual life of the option is used as an input into this model.

Grant date	**8 February 2013**	**19 January 2012**
Fair value of shares options and assumptions:		
Fair value at measurement date (HK$)	0.04983	0.046
Share price (HK$)	0.086	0.085
Exercise price (HK$)	0.091	0.087
Expected volatility (expressed as weighted average volatility used in the modeling under the Binomial Option Pricing Model)	75.49%	77.18%
Option life (expressed as weighted average volatility used in the modeling under the Binomial Option pricing model)	7 years	5 years
Expected dividends	0%	0%
Rick-free interest rate (based on Hong Kong Exchange Fund Notes)	0.86%	0.72%

The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility due to publicly available information. Expected dividends are based on historical dividends. Changes in the subjective input assumptions could materially affect the fair value estimate.

Share options were granted under a service condition. This condition has not been taken into account in the grant date fair value measurement of the services received. There were no market conditions associated with the share option grant.

31. SEGMENT REPORTING

Segment revenue, results, assets and liabilities

The Group is principally engaged in garment distributions. For management purposes, the Group operates in one business unit based on their products, and has one operating segment which is garment distributions. Although the garments are sold to domestic and overseas customers, the Group's Board of Directors, being the chief operating decision-maker ("CODM"), regularly reviews their consolidated financial information to assess the performance and makes resource allocation decisions. Accordingly, no segmental revenue, results, assets and liabilities are presented.

Geographical information

The Group's operations are located in Hong Kong.

The Group leases a number of properties under operating leases. The lease typically run for an initial period of one to two years. None of the leases include contingent rentals.

34. ULTIMATE HOLDING COMPANY

At 30 September 2014, the directors consider the ultimate holding company of the Group is Magic Ahead, a company incorporated in British Virgin Islands. The ultimate holding company does not produce financial statements available for public use.

35. FINANCIAL RISK MANAGEMENT AND CAPITAL DISCLOSURES

a) Financial risk managements and policies

The Group's major financial instruments include pledged bank deposits, cash and bank balances, bank borrowings, amount due from ultimate holding company, trade and other receivables and trade and other payables. Details of the financial instruments are disclosed in respective notes. The risk associated with these financial instruments include credit risk, liquidity risk, currency risk and interest rate risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

i) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

In respect of trade and other receivables, in order to minimise risk, the management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. Credit evaluations of the financial position and condition of the customers and debtors of the Group are performed on all customers and debtors requiring credit over a certain amount. Debtors with overdue balances will be reviewed on a case-by-case basis, those with overdue balances exceeding the credit limit are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers.

In respect of trade and other receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk. At the end of the reporting period, the Group has a certain concentration of credit risk as 23% (2013: 55%) and 30% (2013: 72%) of the total trade and other receivables was due from the Company's largest customer and the five largest customers respectively.

35. FINANCIAL RISK MANAGEMENT AND CAPITAL DISCLOSURES (CONTINUED)

a) Financial risk managements and policies (Continued)

i) Credit risk (Continued)

The credit risk on balances of cash is low as these balances are placed with reputable financial institutions.

Further quantitative disclosures in respect of the Group's exposure of credit risk arising from trade and other receivables are set out in note 19.

ii) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the raising of loans to cover expected cash demands, subject to approval by the directors. The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash.

The following table set out the Group's and the Company's remaining contractual maturities at the end of the reporting period of the Group's and the Company's non-derivative financial liabilities on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period and the earliest date the Group and the Company can be required to pay.

Specifically, for bank loans which contain a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, i.e. if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other bank borrowings is prepared based on the scheduled repayment dates.

35. FINANCIAL RISK MANAGEMENT AND CAPITAL DISCLOSURES (CONTINUED)

a) Financial risk managements and policies (Continued)

iii) Interest rate risk

The Group manages its interest rate exposure based on interest rate level and outlook as well as the potential impact on the Group's financial position arising from volatility. The Group currently does not have any interest rate hedging policy in relation to fair value and cash flow interest rate risks. The directors monitor the Group's exposure on an ongoing basis and will consider hedging the interest rate should the need arises.

The Group is exposed to interest rate risk through the impact of rates changes on interest-bearing borrowing, predominantly with variable interest rate.

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank borrowings (see note 25 for details of these borrowings).

i) Interest rate profile

The following table details the interest rate profile of the Group's borrowings at the end of the reporting period:

	2014		2013	
	Effective interest rate %	HK$'000	Effective interest rate %	HK$'000
Variable rate borrowings:				
Packing loan	**8.5%**	**3,040**	7.75%	2,059
Financial liabilities on bills discounted with recourse	**8.5%**	**456**	4.25-7.75%	27
Bank overdrafts, secured	**7.75%**	**902**	4.25-7.75%	750
		4,398		2,836

ii) Sensitivity analysis

At 30 September 2014, it is estimated that a general increase/decrease of 100 basis points in interest rates for variable rate bank borrowings, with all other variables held constant, would increase/decrease the Group's loss after tax and accumulated losses by HK$37,000 (2013: increase/decrease the Group's loss after tax and accumulated losses by HK$24,000). Other components of consolidated equity would not change in response to the general increase/decrease in interest rates.

The sensitivity analyses above have been determined based on the exposure to interest rates at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis points (2013: 100 basis points) increase or decrease in interest rates is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. The analysis is performed on the same basis for 2013.

35. FINANCIAL RISK MANAGEMENT AND CAPITAL DISCLOSURES (CONTINUED)

a) Financial risk managements and policies (Continued)

iv) Currency risk

i) Exposure to currency risk

Presently, there is no hedging policy with respect to the foreign exchange exposure. The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and cash balances that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily Renminbi and United States dollar.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities that are denominated in a currency other than the functional currency of the entity to which they relate. The Company's exposure at the end of the reporting period to currency risk is insignificant. For presentation purposes, the amounts of the exposure are shown in Hong Kong dollars, translated using the spot rate at the year end date.

Exposure to foreign currencies (expressed in Hong Kong dollars)

	2014		2013	
	United States dollars HK$'000	**Renminbi HK$'000**	United States dollars HK$'000	Renminbi HK$'000

ii) Sensitivity analysis

The following table indicates the instantaneous change in the Group's loss after tax (and accumulated losses) that would arise if foreign exchange rates to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any changes in movement in value of the United States dollar against other currencies.

The Group

	2014		2013	
	Increase/ (decrease) in foreign exchange rates	**Effect on loss after tax and accumulated losses HK$'000**	Increase/ (decrease) in foreign exchange rates	Effect on loss after tax and accumulated losses HK$'000
Renminbi	**5%**	**6**	5%	–
	(5%)	**(6)**	(5%)	–

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the group entities' profit/loss after tax and equity measured in the respective functional currencies, translated into Hong Kong Dollars at the exchange rate ruling at the end of the reporting period for presentation purposes.

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period. The analysis is performed on the same basis for 2013.

35. FINANCIAL RISK MANAGEMENT AND CAPITAL DISCLOSURES (CONTINUED)

b) Capital management

The Group's objectives when managing capital are to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debt and equity balance. The management reviews the capital structure by considering the cost of capital and the risks associated with each class of capital. In view of this, the company will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt as it sees fit and appropriate.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt/(cash) is calculated as total borrowings (including "current and non-current borrowings" as shown in the consolidated statement of financial position) less cash and bank balances. Total capital is calculated as "equity" as shown in the consolidated statement of financial position plus net debt, if any.

The debt to equity ratio of the Company as at 30 September 2014 and 2013 are as follows:

	2014 **HK$'000**	2013 HK$'000
Bank borrowings	**4,398**	2,836
Less: cash and bank balances	**(2,595)**	(9,435)
Net debt/(cash)	**1,803**	(6,599)
Total equity	**23,529**	26,281
Net debt to equity	**7.7%**	N/A

Neither the Company nor any its subsidiaries are subject to externally imposed capital requirements.

c) Fair value

The carrying amounts of the Group's and the Company's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 30 September 2014 and 2013.

d) Estimation of fair values

The major method and assumption applied in determining the fair values of the following financial instruments.

Interest-bearing loans and borrowings

The fair value is estimated as the present value of future cash flows, discounted at current market interest rates for similar financial instruments.

36. CRITICAL ACCOUNTING ESTIMATES

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

i) Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation charge where useful lives are less than previously estimated lives, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

ii) Impairment of property, plant and equipment and intangible asset

The recoverable amount of an asset is the higher of its fair value less costs to sell and value in use. In assessing its value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, which requires significant judgement relating to level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs. Changes in these estimates could have a significant impact on the carrying amount of the assets and could result in additional impairment charge or reversal of impairment in future periods.

iii) Impairment of receivables

The Group maintains impairment allowance for doubtful debts based upon evaluation of the recoverability of the trade and other receivables, where applicable, at the end of the reporting period. The estimates are based on the ageing of the trade and other receivables balances and the historical write-off experience, net of recoveries. If the financial condition of the debtors were to deteriorate, additional impairment allowance may be required.

iv) Write-down of inventories

The management of the Group reviews its inventories at the end of each reporting period and write-down inventories to net realisable value. Management estimates the net realisable value for such items based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review on a product-by-product basis at the end of the reporting period and make allowance for obsolete items.

v) Current taxation and deferred taxation

Judgement is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the periods in which such determination are made.

Deferred taxation relating to certain temporary differences and tax losses are recognised only if management considers it is probable that future taxable profit will be available against which the temporary differences or tax losses can utilitse. Where the expectation is different from the original estimate, such differences will impact the recognition of deferred taxation in the periods in which such estimate is changed.

37. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 30 SEPTEMBER 2014

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective for the year ended 30 September 2014.

Amendments to HKFRSs	Annual Improvements to HKFRSs 2010-2012 Cycle[3]
Amendments to HKFRSs	Annual Improvements to HKFRSs 2011-2013 Cycle[2]
Amendments to HKFRSs	Annual Improvements to HKFRSs 2012-2014 Cycle[5]

HK(IFRIC) – Int 21	Levies[1]

1 Effective for annual periods beginning on or after 1 January 2014.
2 Effective for annual periods beginning on or after 1 July 2014.
3 Effective for annual periods beginning on or after 1 July 2014, with limited exceptions.
4 Effective for first annual HKFRS financial statements beginning on or after 1 January 2016.
5 Effective for annual periods beginning on or after 1 January 2016.
6 Effective for annual periods beginning on or after 1 January 2017.
7 Effective for annual periods beginning on or after 1 January 2018.

The Group is in the process of making an assessment of what the impact of these new and revised HKFRSs is expected to be in the period of initial application. So far it has considered that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

38. COMPARATIVE FIGURES

Due to the disposal of subsidiaries set out in Note 29, which constituted a discontinued operation under HKFRS 5 "Non-Current Assets Held for Sale and Discontinued Operations", certain comparative figures have been re-presented to conform to current year's presentation.

The financial results of the Group for the financial years 2010 to 2014 and the assets and liabilities of the Group as at 31 December 2010, 2011, 2012, 30 September 2013 and 2014 are as follows:
