# FIRST QUARTERLY RESULT ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2012

Characteristics of the Growth Enterprise Market (the "GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange")

#### Impact of Businesses strategy change on PDS

For the PDS business before 2011, the Group initiated PDS project when the Group found a market opportunity, invested capital and other resource to research and develop a drug technology (including application and obtainment of patent, Clinical Study Approval and Manufacturing Approval) and sold the drug technology to customer. Because rigid requirement of new drug development under recent government regulations, the Group had to invest more capital and time to finish a PDS project before it could be sold to customer, and increased the risk of the Company. In 2011, the Group changed the business strategy of PDS. The Group had ceased the investment on PDS projects without customer contract and will start a new PDS project only after signing a customer contract.

For the former PDS project involving drug technology transfer and follow up service, the Group used to adopt the sales recognise method that the first stage contract payment should be recorded as revenue of technology transfer. However, in 2011, the Group changed the business strategy of PDS and only R&D service rather than drug technology transfer would be provided in PDS project. Thus, the first stage contract payment of PDS projects that formerly recorded as revenues from transfer of new drug development and formulation data would be recognised to the extent of the milestone payments earned in accordance with the applicable performance requirements and contractual terms and, where appropriate, as the related costs are incurred. The financial impact of the above business strategy change on compare figures that published in previous quarterly report is as follows:
