## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

## Chairman's Statement

*Dear Shareholders,*

On behalf of the board (the "Board") of directors (the "Directors") of Zhejiang Chang'an Renheng Technology Co., Limited (the "Company"), I hereby present the annual report of the Company and its subsidiaries (collectively, the "Group") for the year ended 31 December 2015 (the "Year Under Review") to shareholders (the "Shareholders") for your review.

The year of 2015 was a year of challenges for the Group. As China's economy entered a "new normal state", various industries were experiencing the short-term pain of structural adjustment and streamlining of production capacity. Against this backdrop, the Group took an active approach to adjusting its development strategy, with a focus on the capital security. It also dedicated its efforts to building relationship with major clients with a sound financial position, and had established business partnership with a number of large foreign-owned enterprises.

### RESULTS OF OPERATION

The Group recorded an aggregate turnover of approximately RMB77,444,000 for the year ended 31 December 2015, representing a decrease of approximately RMB14,585,000 or 15.8% as compared to the previous year. Profit attributable to shareholders was approximately RMB1,963,000, representing a decrease of approximately 83.8% as compared to the previous year. The overall gross profit margin was up to 49.9%, while earnings per share was approximately RMB0.06, representing a decrease of approximately 88.2% as compared to the previous year. The Board believes that the existing financial position and cash flow of the Group are sufficient to support the long-term development of the Group.

### ACTIVE EXPANSION OF SALES CHANNELS

The Group continued to adopt its regional development strategy, with a focus on forging relationship with major clients with high potential and mature scale, as well as a preference for foreign-owned enterprises with a sound financial position. The Group has been able to maintain the average selling price of our products above the average level of the industry on the market where it operates. In addition, high-quality products and technical services of the Group have obtained extensive recognition across the industry, which further consolidated our position as leading supplier of bentonite fine chemicals.

### ENHANCING PRODUCT QUALITY

The Group is committed to enhancing the quality of existing products, developing new products and building new production lines in accordance with its overall strategies, with a view to further strengthening its competitiveness. In addition to maintaining mature product lines, the Group also expanded into new product domains by building an organic bentonite production line with annual output of 10,000 tons and a water treatment agent product line with annual output of 10,000 tons.

### FUTURE OUTLOOK AND DEVELOPMENT STRATEGIES

Looking into the year of 2016, we will continue to see fluctuations in the economic environment, while markets in different regions will deliver mixed performance. However, we believe that the government will maintain the supportive macro policies for the bentonite fine chemicals industry. Accordingly, the Group will endeavor to maintain its competition advantage and growth prospect through strategic area extension, gradual optimization of its product portfolio, and the offer of high-quality products and services.

## Chairman's Statement

### ACKNOWLEDGEMENT

Here, on behalf of the Board of the Company, I hereby wish to extend my gratitude for the hard work contributed by all staff and the Directors, as well as the support to the Company from all the Shareholders. We will adhere to advanced development concept, follow development trend, grasp market opportunities, and make continuous efforts to create greater value for our Shareholders and make new contribution to the community.

**Mr. Zhang Youlian**  
*Chairman of the Board*

## Management Discussion and Analysis

### INDUSTRY REVIEW

In 2015, the PRC's gross domestic product (GDP) increased by 6.9% as compared to 2014. It is the slowest growth in the past 25 years and reflects that China's economy is slowing down and is undergoing structural adjustment. 2015 is a relatively difficult year for the development of the PRC's economy, but it is also a critical year to be "out of plights". The PRC's economy is "approaching the worst and closing to the bright". Facing the complicated international situation and the heavy task of domestic reform and development, China's economy is moving on with shifting pace of economic growth. In this new normal economic status, the economic development is transferring from high-speed to medium-high economic growth; the economic structure is being optimized and upgraded; and the economic development mode is changing from key-factor driven and investment driven to innovation-driven.

Affected by the macro-economy and industry, currently, the development of the pulp and papermaking industry in China is in the low point, and production of certain products has negative growth. Facing the difficult situation, the enterprises in the pulp and papermaking industry, especially those leading enterprises, endeavor to adjust the structure, pursuit changes and progress, and look for the right direction leading to a sustainable and healthy development of the pulp and papermaking industry. With the elimination of outdated products and the slowdown of development in new production capacity, the concentration of the papermaking industry is expected to be further improved, which is beneficial for the leading enterprises to grasp greater market share. On the other hand, the overall slowdown or the shrink of papermaking capacity will improve the imbalance between supply and demand, which will help the industry rebound, and in turn the improvement in the overall performance of the papermaking industry is expected.

Under the current economic situation, the way out for the development of the bentonite industry lies in emphasizing on scientific research and development, increase of added value of bentonite and broadened applications. Specifically, the rational exploration and utilization should be the key point, and the ultimate goal is to broaden the applications of bentonite by improving its refining level. When new applications of bentonite are explored, its market price will be many times higher than that of traditional products. On one hand, the development of some emerging industries and new products promotes the application of new uses of bentonite, such as in the storage of highly radioactive wastes, environmental protection, desert reclamation and water proofing of underground construction. On the other hand, high value-added products, such as nanometer materials, pillared clay, organic gel, phase change materials and fine chemical products, have been developed through refinement and modification technologies, which have reached a new level driven by scientific-technical progress and the improvement of progressing technologies. Therefore, in the future, the development of bentonite will focus on comprehensive utilization of mineral resources, mineral purification and deepen processing technology, so as to intensify research effort of development and application in new fields of bentonite application.

### BUSINESS REVIEW

During the Year Under Review, the Group continued its market expansion, focused on the market development direction of major clients and successfully achieved business cooperation with large foreign papermaking enterprises.

The Group paid much attention to the injection on R&D of new products. In 2015, the R&D expenditure of the Group amounted to approximately RMB4,860,000. The Group built an academician workstation with Mr. Zhang Quanxing, an academician of Chinese Academy of Engineering from Nanjing University, to conduct cooperative development of the application of bentonite in environmental protection.

During the Year Under Review, the Group planned to construct a water disposal project with annual output capacity of 10,000 tons in Changxing of Zhejiang Province, the head quarter of the Group, to enlarge our market share in environmental protection field. The Group has engaged Jilin Design and Research Institute for Petrochemical Engineering (吉林石化设计院) to make plans and carry out designs for this project, the construction of which has been commenced.

The Group newly constructed an organic bentonite project with annual output capacity of 10,000 tons in Yangyuan of Hebei Province. The products from this project will be used in paint, coating, agricultural chemicals and oil fields, which will bring new market opportunities for the Group.

# Management Discussion and Analysis

## FINANCIAL REVIEW

### 1. Turnover

The following table sets out revenue by product categories and the corresponding percentage of total revenue for the Year Under Review:

Product	For the year ended 31 December			
	2015		2014	
	RMB'000	%	RMB'000	%
Sales of papermaking chemicals	70,475	91.0	77,043	83.7
Sales of bentonite for metallurgy pellet	5,191	6.7	5,815	6.3
Sales of quality calcium-bentonite	311	0.4	1,972	2.1
Others	1,467	1.9	7,199	7.9
<b>Total</b>	<b>77,444</b>	<b>100.0</b>	<b>92,029</b>	<b>100.0</b>

Revenue from sales of papermaking chemicals decreased by approximately RMB6,568,000 or 8.5% from approximately RMB77,043,000 for the year ended 31 December 2014 to approximately RMB70,475,000 for the year ended 31 December 2015. As the average unit selling price remained stable for the comparative periods, the decrease in revenue was mainly due to the decrease in sales volume, which decreased by approximately 8.1% from approximately 16,181 tonnes for the year ended 31 December 2014 to approximately 14,871 tonnes for the year ended 31 December 2015.

Revenue of bentonite for metallurgy pellet for the year ended 31 December 2015 decreased by approximately RMB624,000 or 10.7% as compared to the year ended 31 December 2014.

Revenue of quality calcium-bentonite for the year ended 31 December 2015 decreased by approximately RMB1,661,000 or 84.2% as compared to the year ended 31 December 2014. While the average unit selling price remained steady for these two periods, the decrease in revenue was mainly due to the decrease in sales volume.

Revenue of others for the year ended 31 December 2015 decreased by approximately RMB5,732,000 or 79.6% as compared to the year ended 31 December 2014. Others mainly comprise organic bentonite and inorganic gel.

### 2. Cost of sales

The cost of sales mainly comprised cost of raw materials, direct labour costs and manufacturing overhead costs such as depreciation and utility charges. The following table sets out the breakdown of the cost of sales of the Group for the Year Under Review:

	For the year ended 31 December			
	2015		2014	
	RMB'000	%	RMB'000	%
Cost of raw materials	29,432	75.9	40,894	83.8
Direct labour costs	2,444	6.3	2,103	4.3
Manufacturing overhead cost	6,027	15.5	5,055	10.4
Others	882	2.3	774	1.5
<b>Total</b>	<b>38,785</b>	<b>100.0</b>	<b>48,826</b>	<b>100.0</b>

## Management Discussion and Analysis

The cost of sales decreased approximately RMB10,041,000 or 20.6% from approximately RMB48,826,000 for the year ended 31 December 2014 to approximately RMB38,785,000 for the year ended 31 December 2015.

Cost of raw materials accounted for approximately 83.8% and 75.9% of cost of sales for the year ended 31 December 2014 and 2015 respectively. The cost of raw materials decreased by approximately RMB11,462,000 or 28.0% from approximately RMB40,894,000 for the year ended 31 December 2014 to approximately RMB29,432,000 for the year ended 31 December 2015 was mainly due to the decrease of quantity consumed of CPAM. CPAM was the major raw material for a kind of product in papermaking chemicals with a relatively high unit price. As sales volume of this kind of product decreased significantly for the year ended 31 December 2015, the cost of sales for CPAM decreased accordingly.

Direct labour costs accounted for approximately 4.3% and 6.3% of cost of sales for the year ended 31 December 2014 and 2015 respectively. Direct labour costs remained stable during the comparative years.

Manufacturing overhead costs accounted for approximately 10.4% and 15.5% of cost of sales for the year ended 31 December 2014 and 2015 respectively. Manufacturing overhead costs increased by approximately RMB972,000 or 19.2% from approximately RMB5,055,000 for the year ended 31 December 2014 to approximately RMB6,027,000 for the year ended 31 December 2015.

### 3. Gross profit margin

Gross profit margin increased from 46.9% in 2014 to 49.9% in 2015. The increase in gross profit margin was mainly attributable to the improvement of gross profit margin of papermaking chemicals by selling more products with higher profit margin to the customers.

The table below sets out the Group's gross profit and gross profit margin by product for the Year Under Review:

Product	For the year ended 31 December			
	2015		2014	
	RMB'000	%	RMB'000	%
Papermaking chemicals	36,375	51.6	36,853	47.8
Bentonite for metallurgy pellet	1,701	32.8	1,895	32.6
Quality calcium-bentonite	253	81.4	1,513	76.7
Others	330	22.5	2,942	40.9
<b>Total</b>	<b>38,659</b>	<b>49.9</b>	<b>43,203</b>	<b>46.9</b>

The gross profit margin of papermaking chemicals increased from 47.8% for the year ended 31 December 2014 to 51.6% for the year ended 31 December 2015. The improvement of gross profit margin was mainly due to the change of product mix in response to the market demand. The Company sold more products with higher gross profit margin for the year ended 31 December 2015.

The gross profit margin of bentonite for metallurgy pellet was 32.6% and 32.8% for the year ended 31 December 2014 and 2015 respectively. The gross profit margin remained stable during the comparative years.

The gross profit margin of quality calcium – bentonite was 76.7% and 81.4% for the year ended 31 December 2014 and 2015 respectively. The gross profit margin increased by 4.7% during the comparative years.

## Management Discussion and Analysis

The gross profit margin of other products was 40.9% and 22.5% for the year ended 31 December 2014 and 2015 respectively. The gross profit margin decreased by 18.4% during the comparative years.

### 4. Distribution costs

The distribution costs for the year ended 31 December 2014 and 2015 amounted to approximately RMB11,083,000 and RMB11,942,000 respectively. The distribution costs increased by approximately RMB859,000 mainly because of the increase in transportation expenses from approximately RMB8,421,000 for the year ended 31 December 2014 to approximately RMB9,748,000 for the year ended 31 December 2015.

### 5. Administrative expenses

The administrative expenses increased by approximately 50.8% from approximately RMB10,542,000 for the year ended 31 December 2014 to approximately RMB15,898,000 for the year ended 31 December 2015. The increase was mainly due to the impairment loss of long outstanding trade receivables of approximately RMB3,051,000; and the related professional fees for continuing listing compliance.

### 6. Research and development expenses

The research and development expenses increased by approximately RMB1,099,000 or 29.2% from approximately RMB3,761,000 for the year ended 31 December 2014 to approximately RMB4,860,000 for the year ended 31 December 2015 due to a start of few research and development projects.

### 7. Other gains – net

Other gains for the year ended 31 December 2014 and 2015 amounted to approximately RMB3,403,000 and RMB1,818,000 respectively. The decrease in other gains mainly due to the decrease in government grants from approximately RMB3,615,000 for the year ended 31 December 2014 to approximately RMB2,767,000 for the year ended 31 December 2015.

### 8. Finance income and expenses

The net finance expenses decreased by approximately RMB2,672,000 or 39.5% from approximately RMB6,765,000 for the year ended 31 December 2014 to approximately RMB4,093,000 for the year ended 31 December 2015, which was mainly due to the decrease of interest expenses on borrowings as a result of the drop in bank borrowings. The borrowings were financed for working capital and capital investments in the production facilities.

### 9. Income tax expense

The effective tax rates were 16.0% and 22.7% for the years ended 31 December 2014 and 2015, respectively.

### 10. Net profit

The net profit decreased by approximately RMB10,180,000 or 83.8% from approximately RMB12,143,000 for the year ended 31 December 2014 to approximately RMB1,963,000 for the year ended 31 December 2015. The net profit margin for the Group decreased from approximately 13.2% for the year ended 31 December 2014 to approximately 2.5% for the year ended 31 December 2015. The decrease in net profit margin of the Group was mainly due to the decrease in gross profit, the increase in administrative expenses and the one-off listing expenses incurred during the Year Under Review.

## Management Discussion and Analysis

### ANALYSIS OF MAJOR BALANCE SHEET ITEMS

#### 1. Inventories

The inventories comprise raw materials, finished goods and low-value consumables. The following table sets out the inventories as at balance sheet dates indicated:

	As at 31 December	
	2015 RMB'000	2014 RMB'000
Raw materials	16,393	13,063
Finished goods	5,139	4,122
Low-value consumables	213	194
<b>Total</b>	<b>21,745</b>	<b>17,379</b>

Raw materials mainly comprised bentonite and CPAM. Finished goods are bentonite fine chemicals mainly applied in the papermaking industries. The Group customizes the formulas for bentonite fine chemicals based on customers' requirements and makes enhancement in response to customers' production conditions.

#### *Provision for impairment of inventories*

The Group has established policies to evaluate the amount of provision required for impairment of inventories. The Group inspects and reviews the aging and conditions of inventories on a regular basis. If the Group considers that the inventories have become obsolete or damaged, provision for impairment of inventories will be provided against these inventories to reflect the net realisable value of these inventories.

The Directors considered that there was no indication that the inventories were impaired because the average gross profit margin of the products was approximately 45-50% during the Year Under Review and the finished goods manufactured can be stored for several years.

#### *Inventory turnover*

The following table sets out the average inventory turnover days for the year indicated:

	Year ended 31 December	
	2015	2014
Average inventory turnover days ( <i>note</i> )	184	118

#### *Note:*

Average inventory turnover days are equal to the average inventory divided by cost of sales and multiplied by 365 days. Average inventory equals inventory at the beginning of the financial year plus inventory at the end of the financial year and divided by 2.

The average inventory turnover days increased from 118 days for the year ended 31 December 2014 to 184 days for the year ended 31 December 2015. The increase in average inventory turnover days in 2015 was primarily because the slow down in sales.

## Management Discussion and Analysis

### 2. Trade and other receivables

The following table sets out an analysis of the trade and other receivables as at the balance sheet dates indicated:

	As at 31 December	
	2015	2014
	RMB'000	RMB'000
Trade receivables	48,383	52,008
Less: provision for impairment	(4,028)	(1,670)
Trade receivables – net	44,355	50,338
Other receivables	12,360	11,965
Less: provision for impairment	(397)	(201)
Other receivables – net	11,963	11,764
Interest receivables on time deposits	13	56
Bills receivable	14,021	13,563
Prepayments	1,894	15,307
Trade and other receivables – net	72,246	91,028

#### *Trade receivables*

Trade receivables as at 31 December 2014 and 2015 mainly represented the outstanding amounts of receivable from customers less any provision for impairment of trade receivables. The following table sets out an analysis of the trade receivables as at the balance sheet dates indicated:

	As at 31 December	
	2015	2014
	RMB'000	RMB'000
Trade receivables	48,383	52,008
Less: provision for impairment	(4,028)	(1,670)
Trade receivables – net	44,355	50,338

The customers are normally required to make payment pursuant to the credit terms which is determined by the length of the customers' relationship with the Group and the contract value. The Group generally provides a credit term up to 180 days to its customers.

## Management Discussion and Analysis

The table below sets out the aging breakdown of trade receivables as at the balance sheet dates indicated:

	As at 31 December	
	2015 RMB'000	2014 RMB'000
Within 180 days	32,142	42,221
Over 180 days and within 1 year	6,504	8,617
Over 1 year and within 2 years	9,368	976
Over 2 years and within 3 years	241	148
Over 3 years	128	46
<b>Total</b>	<b>48,383</b>	<b>52,008</b>

The Group's trade receivables decreased by approximately RMB3,625,000 or 7.0% from approximately RMB52,008,000 as at 31 December 2014 to approximately RMB48,383,000 as at 31 December 2015. The trade receivables due over 180 days increased by approximately RMB6,454,000 or 65.9% from approximately RMB9,787,000 as at 31 December 2014 to approximately RMB16,241,000 as at 31 December 2015. The significant increase was mainly due to the fact that more customers delayed their settlements during the Year Under Review.

### *Trade receivable turnover days*

The following table sets out the Group's trade receivables turnover days for the year indicated:

	Year ended 31 December	
	2015	2014
Trade receivable turnover days ( <i>note</i> )	237	199

### *Note:*

The number of trade receivables turnover days is calculated as average trade receivables (trade receivables at the beginning of the year plus trade receivables at the end of the year then divided by 2) divided by total revenue for the year multiplied by 365.

The Group's trade receivables turnover days for the years ended 31 December 2014 and 2015 were approximately 199 days and 237 days respectively. The increase of turnover days was due to two reasons: (1) late payments by customers; and (2) providing favorable payment arrangement to new customers and existing customers with a view to solicit new business development since 2012.

### *Provision for impairment of trade receivables*

The Group determines the provision for impairment of trade receivables based on credit history of the customers and the current market condition. The Group reassesses the provision at each balance sheet date.

Thus, significant judgment is exercised in assessing the collectability of trade receivables from each customer. In making the judgment, the Group takes into consideration the following factors when assessing the recoverability of the trade receivables from individual customer: (i) indications that the debtor is experiencing significant financial difficulty; (ii) history or indication of default in payment; and (iii) relationship with the debtor and subsequent settlement of receivables. If the financial conditions of the customers of the Group were to deteriorate, which resulted in an impairment of their ability to make payments, additional provision of impairment may be required.

## Management Discussion and Analysis

### 3. Trade and other payables

The following table sets out an analysis of the trade and other payables as at the balance sheet dates indicated:

	As at 31 December	
	2015	2014
	RMB'000	RMB'000
Trade payables	12,671	13,585
Other payables	6,443	4,476
Staff salaries and welfare payables	2,695	2,940
Advances from customers	177	52
Accrued taxes other than income tax	1,653	1,648
<b>Total</b>	<b>23,639</b>	<b>22,701</b>

As at 31 December 2014 and 2015, all trade and other payables of the Group were non-interest bearing, and their fair values, except for the advances from customers, staff salaries and welfare payables and accrued taxes other than income tax which are not financial liabilities, approximate their carrying amounts due to their short maturities.

The trade payables decreased by approximately RMB914,000 or 6.7% from approximately RMB13,585,000 as at 31 December 2014 to approximately RMB12,671,000 as at 31 December 2015.

In order to meet the production needs, the Group purchased more CPAM especially from the major overseas supplier for the year ended 31 December 2015. As the purchase of raw materials decreased during the Year Under Review, the balance of trade payables as at 31 December 2015 decreased accordingly.

#### *Trade payables turnover days*

The following table sets out the Group's trade payables turnover days for the year indicated:

	Year ended 31 December	
	2015	2014
Trade payable turnover days ( <i>note</i> )	124	84

#### *Note:*

The number of trade payables turnover days is calculated as average trade payables (trade payables at the beginning of the year plus trade payables at the end of the year then divided by 2) divided by cost of sales for the year multiplied by 365. The trade payables turnover days increased to 124 days for the year ended 31 December 2015, which was due to the decrease in purchase of raw materials during the Year Under Review.

He is currently an associate member of The Hong Kong Institute of Certified Public Accountants (HKICPA), and an associate member of The Institute of Chartered Accountants in Australia. Mr. Chan has over 28 years of extensive experience in accounting and finance fields, gaining from an international accounting firm and various listed corporations. He served as the financial controller of Fairwood Holdings Limited (stock code: 00052), a company listed on the Main Board of the Stock Exchange from 1995 to 1998. He worked as a corporate finance director of Texwood Limited from 2000 to 2005 and a Business Director of Texwood Group from 2006 to 2008. Mr. Chan served from September 2008 to April 2009 as the company secretary, qualified accountant and authorised representative of Freeman Corporation Limited (Stock Code: 00279) (now known as Freeman Financial Corporation Limited), a company listed on the Main Board of the Stock Exchange.

## Corporate Governance Report

The Board strives to uphold the principles of corporate governance set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 15 to the GEM Listing Rules, and adopted various measures to enhance the internal control system, the Directors’ continuous professional development and other areas of practice of the Company. While the Board strives to maintain a high level of corporate governance, it also works hard to create value and achieve maximum return for its Shareholders. The Board will continue to conduct review and improve the quality of corporate governance practices with reference to local and international standards.

During the Year Under Review, the Company has complied with the code provisions, other than code provisions A.2.1 and A.1.8 of the CG Code.

According to code provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Currently, Mr. Zhang Youlian is the Chairman of the Board and the chief executive officer. The Board is in the opinion that having Mr. Zhang to carry out both roles can bring about strong and consistent leadership for the Group, and can be more effective in planning and implementing long-term business strategies. The Board also considers that since members of the Board include competent and independent non-executive Directors, this structure will not impair the balance of power and authority between the Board and its management in the business of the Group. The Board is in the opinion that the structure described above will be beneficial to the Company and its business.

In addition, according to the code provision A.1.8 of the CG Code, the Company should arrange appropriate insurance cover in respect of legal action against its directors and officers. As the Board needed time to consider quotes from different insurers, during the Year Under Review, the Company did not take out directors and officers liability insurance to cover liabilities arising from legal action against its directors.

### MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers on terms no less exacting than the required standard of dealings as set out in Rules 5.48 to 5.67 of the GEM Listing Rules (the “Model Code”) as its own code governing securities transactions of the Directors. Specific enquiries have been made to all Directors and all Directors have confirmed that they have fully complied with the required standard of dealings as set out in the Model Code during the Year Under Review.

### BOARD OF DIRECTORS

The Board should have a balance of skills and experience appropriate for the requirements of the business of the Company. Board should ensure that changes to its composition can be managed without undue disruption. Board should include a balanced composition of executive Directors (the “Executive Directors”), non-executive Director (the “Non-executive Director”) and independent non-executive Directors (the “Independent Non-executive Directors”) so that there is a strong independent element on the Board, which can effectively exercise independent judgment.

The Board comprises a total of nine Directors, being four Executive Directors, one Non-executive Director and four Independent Non-executive Directors. Mr. Zhang Youlian, Mr. Sun Wensheng, Mr. Fan Fang and Mr. Chen Weidong, served as Executive Directors, Ms. Zhang Jinqin served as Non-executive Director and Mr. Shao Chen, Mr. Wang Xiangyao, Mr. Huang Zemin and Mr. Chau Kam Wing, Donald served as Independent Non-executive Directors. These Independent Non-executive Directors, who have different business and professional backgrounds, have brought valuable experience and expertise for the best interests of the Group and its Shareholders. One of the Independent Non-executive Directors is a qualified accountant who has appropriate professional qualifications or accounting or related financial management expertise. Each Independent Non-executive Director has been appointed for a 3-years term of services.

There is no financial, business, family or other material/relevant relationship amongst Directors and supervisors, except (i) Mr. Zhang Youlian is a brother of Ms. Zhang Jinqin, a Non-executive Director; and a cousin of Mr. Zhang Donglian, a supervisor; (ii) Ms. Zhang Jinqin is a sister of Mr. Zhang Youlian, an Executive Director; and a cousin of Mr. Zhang Donglian, a supervisor; and (iii) Mr. Zhang Donglian is a cousin of Mr. Zhang Youlian, an Executive Director, and Ms. Zhang Jinqin, a Non-executive Director.

## Corporate Governance Report

Biographical details of and the relationship between the Directors and supervisors are set out in the section headed “Directors’ and Senior Management’s Biographies” of this report.

An updated list of Directors and their role and functions is maintained at the websites of the Company and the Stock Exchange and the Independent Non-executive Directors are identified by name in all corporate communications.

Each Independent Non-executive Director has given an annual confirmation of his independence to the Company, and the Company considers them to be independent under Rule 5.09 of the GEM Listing Rules.

### RESPONSIBILITIES OF THE BOARD

All the Directors (including the Independent Non-executive Directors) have acquired a proper understanding of the Company’s operation and business and are fully aware of his/her functions and responsibilities under statute and common law, the GEM Listing Rules and other applicable legal and regulatory requirements. Every Director has given the Company the details on the number and nature of offices held in other companies and significant commitments at the time of his/her appointment.

The Board is responsible for leadership and control of the Group and be collectively responsible for promoting the success of the Group by directing and supervising the Group’s affairs. The Board focuses on formulating the Group’s overall strategies, authorizing the development plan and budget; monitoring financial and operating performance; reviewing the effectiveness of the internal control system; supervising and managing management’s performance of the Group; and setting the Group’s values and standards. Though the Board delegates the day-to-day management, administration and operation of the Group to management, all the Directors continue to give sufficient time and attention to the Company’s affairs. The delegated functions are reviewed by the Board periodically to ensure that they accommodate the needs of the Group.

### CORPORATE GOVERNANCE FUNCTIONS

The Company’s corporate governance function is carried out by the Board pursuant to a set of written terms of reference adopted by the Board on 19 December 2014 in compliance with provision D.3.1 of the CG Code, which include (a) to develop and review the Company’s policies and practices on corporate governance; (b) to review and monitor the training and continuous professional development of the Directors and senior management of the Group; (c) to review and monitor the Company’s policies and practices on compliance with legal and regulatory requirements; (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees of the Group and the Directors; and (e) to review the Company’s compliance with the CG Code and relevant disclosure in the corporate governance report of the annual report of the Company.

The Board has performed the abovementioned corporate governance functions during the Year Under Review.

### APPOINTMENT AND RE-ELECTION OF DIRECTORS

Independent Non-executive Directors are appointed for a specific term subject to retirement by rotation and re-election in accordance with the articles of association (the “Articles of Association”). Each Independent Non-executive Director is required to inform the Company as soon as practicable if there is any change that may affect his independence and must provide an annual confirmation of his independency to the Company. Up to the date of this report, no Independent Non-executive Director has served the Company more than 9 years.

### BOARD DIVERSITY POLICY

Pursuant to the CG Code, the Board has adopted a board diversity policy (the “Board Diversity Policy”). The Company recognizes and embraces the benefits of diversity of Board members. While all Board appointments will continue to be made on a merit basis, the Company will ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the needs of the Company’s business. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, experience (professional or otherwise), skills and knowledge.

## Corporate Governance Report

As at the date of this report, the Board comprises nine Directors. One of them is a woman. Four of the Directors are Independent Non-executive Directors and independent of management, thereby promoting critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of gender, professional background and skills.

### DIRECTORS' CONTINUOUS TRAINING AND PROFESSIONAL DEVELOPMENT

All Directors are aware of their responsibilities to the Shareholders and have exercised their duties with care, skill and diligence, in pursuit of the development of the Group. Every newly appointed Director receives an induction to ensure that he/she has a proper understanding of the business and operations of the Group and that he/she is fully aware of his/her duties and responsibilities as a director under applicable rules and requirements.

All Directors (with the names set out in the section "Board of Directors" in this Corporate Governance Report) are provided with regularly updates on the Company's performance and financial position to enable the Board as a whole and each Director to discharge his/her duties. In addition, briefings and updates on the latest development regarding the GEM Listing Rules and other applicable regulatory requirements are provided to each of the Directors during Board meetings to ensure compliance and enhance their awareness of good corporate governance practices. In May 2015, the Company organized a training session to provide each of the Directors with an update on the GEM Listing Rules.

### BOARD COMMITTEES

The Board has formed three committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee, for overseeing particular aspects of the Company's affairs. All committees have been formed with specific written terms of reference in compliance with Appendix 15 to the GEM Listing Rules which deal with their respective authorities and duties.

Copies of minutes of all meetings and resolutions of the committees, which are kept by the company secretary (the "Company Secretary"), are circulated to all Board members and the committees are required to report back to the Board on their decision and recommendations where appropriate. The procedures and arrangements for a Board meeting have been adopted for the committee meetings so far as practicable.

Members, duties and responsibilities of the committees are as follows:

#### AUDIT COMMITTEE

The Company established an Audit Committee (the "Audit Committee") on 26 March 2014 and has formulated its written terms of reference, which have from time to time been modified in accordance with the prevailing provisions of the CG Code. The Audit Committee has three members, namely Mr. Shao Chen, Mr. Huang Zemin, and Mr. Chau Kam Wing, Donald, who are Independent Non-executive Directors. Mr. Chau, who has appropriate professional qualifications and experience in accounting matters, has been appointed as the chairman of the Audit Committee.

The primary duties of the Audit Committee are (among other things) to provide an independent review and supervision of financial reporting, and examine the effectiveness of the internal controls of the Group and to ensure the external auditor is independent and the audit process is effective. The Audit Committee examines all matters relating to the accounting principles and policies adopted by the Group, auditing functions, internal controls, risk management and financial reporting. The Audit Committee also serves as a channel of communication between the Board and the external auditor. External auditor and the Directors are invited to attend the committee meetings as and when necessary.

During the Year Under Review, the Audit Committee had held four meetings and all the members attended the meetings. The attendance record of committee members at these meetings are set out in the section headed "Board Proceedings and Individual Attendance" of this report. Pursuant to the meeting of the Audit Committee held in March 2016 attended by all the members of the Audit Committee, the Audit Committee has, together with the management of the Company and external independent auditor, reviewed the consolidated financial statements for the year ended 31 December 2015, the results announcement, this 2015 annual report and accounting principles and practices adopted for the Group for the Year Under Review, and agreed with the accounting treatments adopted by the Group.

## Corporate Governance Report

### REMUNERATION COMMITTEE

The Company established a Remuneration Committee (the “Remuneration Committee”) on 26 March 2014 and has formulated its written terms of reference, which have from time to time been modified in accordance with the prevailing provisions of the CG Code. The Remuneration Committee has three members, namely Mr. Fan Fang, an executive Director, Mr. Huang Zemin and Mr. Wang Xiangyao, both Independent Non-executive Directors. Mr. Wang has been appointed as the chairman of the Remuneration Committee.

The primary duties of the Remuneration Committee are (among other things) to make recommendation to the Board the terms of remuneration packages, bonuses and other compensation (including benefits in kind, pension rights and compensation payments, including any compensation payable for loss or termination of their office or appointment) payable to the Directors and senior management and to make recommendations to the Board on the Group’s policy and structure for all remuneration of the Directors and senior management.

During the Year Under Review, the Remuneration Committee had held two meetings and all the members attended the meetings. The attendance record of the committee members at these meetings are set out in the section headed “Board Proceedings and Individual Attendance” of this report.

### NOMINATION COMMITTEE

The Company established a Nomination Committee (the “Nomination Committee”) on 26 March 2014 and has formulated its written terms of reference, which have from time to time been modified in accordance with the prevailing provisions of the CG Code. The Nomination Committee has three members, namely Mr. Fan Fang, an Executive Director, Mr. Wang Xiangyao and Mr. Shao Chen, both Independent Non-executive Directors. Mr. Shao has been appointed as the chairman of the Nomination Committee.

The principal responsibilities of the Nomination Committee are (among other things) to review the composition of the Board, including its structure, size and diversity at least annually to ensure that it has a balance of expertise, skills and experience appropriate to the requirements of the business of the Group. It is also responsible to consider and recommend to the Board suitably qualified persons to become a member of the Board, monitor the succession planning of Directors and assess the independence of Independent Non-executive Directors. The Nomination Committee will also give consideration to the Board Diversity Policy when identifying suitably qualified candidates to become members of the Board, and the Board will review the Board Diversity Policy, so as to develop and review measurable objectives for the implementing the Board Diversity Policy and to monitor the progress on achieving these objectives.

During the Year Under Review, the Nomination Committee had held two meetings and all the members attended the meetings. The attendance record of the committee members at these meetings are set out in the section headed “Board Proceedings and Individual Attendance” of this report.

### BOARD PROCEEDINGS AND INDIVIDUAL ATTENDANCE

Regular board meetings are held at quarterly intervals with additional meetings convened as and when necessary to discuss the overall strategic directions, the Group’s operations, financial performance, and to approve quarterly, interim and annual results and other significant matters. For regular meetings, Board members are given at least 14 days prior notice and agenda with supporting papers are sent to Directors not less than 3 days before the relevant meeting is held. Directors may propose to the Chairman or the Company Secretary to include matters in the agenda for regular board meetings.

Directors are requested to declare their direct or indirect interests, if any, in any proposals or transactions to be considered by the Board at board meetings and abstain from voting in favour of the related board resolutions as appropriate.

Minutes of meetings of the Board and Board committees are kept by the Company Secretary in sufficient details of the matters considered and decisions reached, including dissenting views expressed, and are open for inspection on reasonable notice by any Director. Draft and final versions of minutes are sent to all Directors for their comments and records respectively within a reasonable time after the board meeting is held.

## Corporate Governance Report

### FINANCIAL REPORTING, INTERNAL CONTROL AND RISK MANAGEMENT

#### Financial reporting

The Board acknowledges its responsibility, as set out in the Independent Auditor's Report, to prepare the Company's financial statements which give a true and fair view of the Group's state of affairs, results and cash flows for the year and in accordance with the International Financial Reporting Standards issued by the International Accounting Standards Board, and the disclosure requirements of the Hong Kong Companies Ordinance. The Company has selected appropriate accounting policies and has applied them consistently based on prudent and reasonable judgments and estimates. The Board considers that the Group has adequate resources to continue in business for the foreseeable future and not aware of any material uncertainties relating to events or conditions that may affect the business of the Company or cast doubts on its ability to continue as going concern.

The responsibilities of PricewaterhouseCoopers, the Company's external auditor, with respect to financial reporting are set out in the section headed "Independent Auditor's Report" in this annual report.

## Corporate Governance Report

### Internal controls

The Board recognizes its responsibility to ensure the Company maintains a sound and effective internal control system and the Board has conducted a review of the effectiveness of the internal control system of the Group during the Year Under Review. The Group's internal control system is designed to safeguard assets against misappropriation and unauthorized disposition and to manage operational risks. Review of the Group's internal controls covering major financial, operational and compliance controls, as well as risk management functions of different systems has been done on a systematic basis based on the risk assessments of the operations and controls. No major issue but areas for improvement have been identified. The Board and the Audit Committee considered that the key areas of the Group's internal control systems are reasonably implemented.

### EXTERNAL AUDITOR

PricewaterhouseCoopers has been appointed as the external auditor of the Company. The Audit Committee has been notified of the nature and the service charges of non-audit services performed by PricewaterhouseCoopers and considered that such services have no adverse effect on the independence of the external auditor.

### PROPERTY, PLANT AND EQUIPMENT

Details of the movements in property, plant and equipment of the Group for the year ended 31 December 2015 are set out in Note 13 to the Financial Statements.

The Group's land use rights and buildings as at 30 September 2014 were revalued by Greater China Appraisal Limited, an independent property valuer, and the relevant property valuation report is set out in Appendix III – Property Valuation Report to the Company's prospectus dated 31 December 2014 (the “Prospectus”). The net valuation surplus, representing the excess of market value of the land use rights and buildings over their carrying value amounting to RMB10.3 million, has not been included in the consolidated net tangible assets of the Group attributable to the equity holders of the Company as at 31 July 2014. The above adjustment does not take into account the above revaluation surplus. Had the land use rights and buildings been stated at such valuation, an additional depreciation of RMB0.5 million per annum in respect of the revaluation surplus, before income taxes, would be charged against the consolidated statement of comprehensive income.

### PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Association or the laws of the PRC which would oblige the Company to offer new shares on a pro-rata basis to existing Shareholders.

## Independent Auditor's Report

羅兵咸永道

To The Shareholders Of Zhejiang Chang'an Renheng Technology Co., Ltd.  
(incorporated in the People's Republic of China with limited liability)

We have audited the consolidated financial statements of Zhejiang Chang'an Renheng Technology Co., Ltd. (浙江長安仁恒科技股份有限公司, "the Company") and its subsidiaries set out on pages 43 to 97 which comprise the consolidated balance sheet as at 31 December 2015, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and its subsidiaries as at 31 December 2015, and of their financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## Independent Auditor's Report

## 1 GENERAL INFORMATION

Zhejiang Chang'an Renheng Technology Co., Ltd. (浙江長安仁恒科技股份有限公司, the "Company") and its subsidiaries (together, the "Group") are principally engaged in the business of development, production and sale of bentonite fine chemicals. The Group uses bentonite as its basic raw materials to manufacture paper chemicals, bentonite for metallurgy pellet, quality calcium-bentonite and other products.

The Company was established as a company with limited liability under the name of Changxing Renheng Fine Bentonite Co., Ltd. (長興仁恒精製膨潤土有限公司) in the People's Republic of China (the "PRC") on 4 December 2000. Mr. Zhang Youlian (張有連) is the controlling shareholder of the Company (the "Controlling Shareholder").

On 31 December 2008, the Company was converted into a joint stock company with limited liability and changed to its current name.

The address of the Company is Laoyatang, Si'an, Changxing, Zhejiang Province, PRC.

The English names of companies mentioned in this report represented the best effort by directors of the Company in translating their Chinese names as they may not have official English names.

The Company issued a total of 8,000,000 H shares with a per value of RMB1.00 each at a price of HKD9.70 per share on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited on 16 January 2015 (the "Listing").

The consolidated financial statements are presented in Renminbi ("RMB"), unless otherwise stated. These financial statements have been approved for issue by the Board of Directors on 19 March 2016.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### 2.1 Basis of preparation

The consolidated financial statements have been prepared in accordance with all applicable International Financial Reporting Standards ("IFRSs") and under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.1 Basis of preparation (Continued)

##### (a) *New and amended standards adopted by the Group*

The following amendments to standards have been adopted by the group for the first time for the financial year beginning on or after 1 January 2015:

- Amendment to IAS 19 on contributions from employees or third parties to defined benefit plans. The amendment distinguishes between contributions that are linked to service only in the period in which they arise and those linked to service in more than one period. The amendment allows contributions that are linked to service, and do not vary with the length of employee service, to be deducted from the cost of benefits earned in the period that the service is provided. Contributions that are linked to service, and vary according to the length of employee service, must be spread over the service period using the same attribution method that is applied to the benefits.
- Amendments from annual improvements to IFRSs – 2010-2012 Cycle, on IFRS 8, ‘Operating segments’, IAS 16, ‘Property, plant and equipment’ and IAS 38, ‘Intangible assets’ and IAS 24, ‘Related party disclosures’.
- Amendments from annual improvements to IFRSs – 2011-2013 Cycle, on IFRS 3, ‘Business combinations’, IFRS 13, ‘Fair value measurement’ and IAS 40, ‘Investment property’.

The amendments are not material to the group.

##### (b) *New Hong Kong Companies Ordinance (Cap. 622)*

In addition, the requirements of Part 9 “Accounts and Audit” of the new Hong Kong Companies Ordinance (Cap. 622) come into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the consolidated financial statements.

##### (c) *New standards and interpretations not yet adopted*

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2015 and have not been applied in preparing these consolidated financial statements. None of these is expected to have a significant effect on the consolidated financial statements of the group, except the following set out below:

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.1 Basis of preparation (Continued)

#### (c) New standards and interpretations not yet adopted (Continued)

- IFRS 9, 'Financial instruments', addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through OCI and fair value through P&L. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes.
- Contemporaneous documentation is still required but is different to that currently prepared under IAS 39. The standard is effective for accounting periods beginning on or after 1 January 2018. Early adoption is permitted. The group is yet to assess IFRS 9's full impact.
- IFRS 15, 'Revenue from contracts with customers' deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS 18 'Revenue' and IAS 11 'Construction contracts' and related interpretations. IFRS 15 is effective for annual periods beginning on or after 1 January 2018 and earlier application is
- IFRS 16, 'Leases' addresses the definition of a lease, recognition and measurement of leases and establishes principles for reporting useful information to users of financial statements about the leasing activities of both lessees and lessors. A key change arising from IFRS 16 is that most operating leases will be accounted for on balance sheet for lessees. The standard replaces IAS 17 'Leases', and related interpretations. The standard is effective for annual periods beginning on or after 1 January 2019 and earlier application is permitted subject to the entity adopting IFRS 15 'Revenue from contracts with customers' at the same time. The group is currently assessing the impact of IFRS 16.

There are no other IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the group.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.2 Subsidiaries

#### 2.2.1 Consolidation

A subsidiary is an entity (including a structured entity) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

#### 2.2.2 Business combination

The group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

The group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis. Non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are measured at either fair value or the present ownership interests' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by IFRS.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with IAS 39 in profit or loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

Intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the group's accounting policies.

#### 2.2.3 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.2 Subsidiaries (Continued)

#### 2.2.3 Separate financial statements (Continued)

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

### 2.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive director of the Company that makes strategic decisions.

### 2.4 Foreign currency translation

#### (a) Functional and presentation currency

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Renminbi ("RMB"), which is the company's functional and the group's presentation currency.

#### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement, except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the income statement within 'finance income or expenses'. All other foreign exchange gains and losses are presented in the income statement within 'other gains – net'.

### 2.5 Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the consolidated statement of comprehensive income during the financial period in which they are incurred.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.5 Property, plant and equipment (Continued)

Depreciation is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

	Estimated useful lives	Estimated residual values
Buildings, fixtures and facilities	5 to 30 years	5%
Machinery and equipment	4 to 10 years	5%
Vehicles	4 to 10 years	5%
Electronic and office equipment	3 to 5 years	5%

Construction in progress represents buildings, plant and equipment under construction or pending installation and is stated at cost less provision for impairment loss, if any. Cost includes the costs of construction and acquisition. When the assets concerned are available for use, the costs are transferred to property, plant and equipment and depreciated in accordance with the policy as stated above.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.9).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within "other gains – net" in the consolidated statement of comprehensive income.

### 2.6 Prepaid leasing expenses

Prepaid leasing expenses (land use rights) are stated at cost and amortized over the remaining period of the leases on a straight-line basis, net of any impairment losses, if any (Note 2.9).

### 2.7 Mining rights

Mining rights are stated at cost and amortized over the remaining period of the license periods on a straight-line basis, net of any impairment losses, if any (Note 2.9).

### 2.8 Leasehold improvements

Leasehold improvements are stated at cost and amortized over the lower of expected beneficial periods or lease periods on a straight-line basis, net of any impairment losses, if any (Note 2.9).

### 2.9 Impairment of non-financial assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.10 Financial assets

#### 2.10.1 Classification

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. The Group only has financial assets classified as “loans and receivables” during the years ended 31 December 2015 and 2014.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise “trade and other receivables”, “restricted cash” and “cash and cash equivalents”, in the consolidated balance sheets (Notes 17 and 19).

#### 2.10.2 Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Loans and receivables are initially recognised at fair value plus transaction costs. Loans and receivables are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

### 2.11 Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a “loss event”) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated statement of comprehensive income. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

## Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.11 Impairment of financial assets (Continued)

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated statement of comprehensive income.

#### 2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average method. The cost of finished goods comprises design costs, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

#### 2.13 Trade and other receivables

Trade receivables are amounts due from customers for goods sold in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

#### 2.14 Cash and cash equivalents

In the consolidated cash flow statement, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less. Restricted cash is excluded from cash and cash equivalent.

#### 2.15 Restricted cash

Restricted cash represents guaranteed deposits held in a separate reserve account to be pledged to the bank for issuance of trade facilities such as time deposits as security deposits for borrowing agreement, guaranteed deposits for issuance of bills payable and guaranteed deposits for purchase of equipment. Such restricted cash will be released when the Group repays the related trade facilities or bank loans.

#### 2.16 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### 2.17 Trade and other payables

Trade payables are obligations to pay for goods, construction or services that have been acquired in the ordinary course of business from suppliers. Trade payables and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.18 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of comprehensive income over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

### 2.19 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### 2.20 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### (a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

## Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.20 Current and deferred income tax (Continued)

##### (b) *Deferred income tax*

###### *Inside basis differences*

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill, and deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

###### *Outside basis differences*

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

##### (c) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 2.21 Employee benefits

##### (a) *Pension obligations*

The full-time employees of the Group in the PRC are covered by various government-sponsored defined contribution pension plans under which the employees are entitled to a monthly pension based on certain formulas. The relevant government agencies are responsible for the pension liability to these retired employees. The Group contributes on a monthly basis to these pension plans. Under these plans, the Group has no obligation for post-retirement benefits beyond the contributions made. Contributions to these plans are expenses as incurred and contributions paid to the defined-contribution pension plans for a staff are not available to reduce the Group's future obligations to such defined-contribution pension plans even if the staff leave the Group.

##### (b) *Housing benefits*

The Group contributes to the state-prescribed housing fund. Such costs are charged to the consolidated statement of comprehensive income as incurred. Apart from those described above, the Group does not have other legal or constructive obligations over such benefits.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### 2.21 Employee benefits (Continued)

#### (c) Bonus entitlements

The expected cost of bonus payments is recognised as a liability when the Group has a present contractual or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

### 2.22 Provisions

Provisions for environmental rehabilitation are recognised when: the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

### 2.23 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods supplied, stated net of discounts returns and value-added tax. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and when specific criteria have been met for each of the Group's activities as described below.

#### (a) Sales of goods

Revenue from the sale of goods is recognised when the Group has delivered products to the customers and the customers have confirmed the acceptance of the products, which means the significant risks and rewards of ownership of the goods are transferred to the buyer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and it is probable that the economic benefit associated with the transaction will flow to the Group and the relevant revenue and costs can be measured reliably.

#### (b) Interest income

Interest income is recognised using the effective interest method. When a loan and receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income.

## Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2.24 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants relating to costs are deferred and recognised in the consolidated statement of comprehensive income over the period necessary to match them with the costs that they are intended to compensate.

Government grants relating to assets are deferred and credited to the consolidated statement of comprehensive income on a straight-line basis over the expected useful lives of the related asset.

#### 2.25 Research and development

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects relating to design and testing of new or improved products are recognised as intangible assets when it is probable that the project will be a success, considering its commercial and technological feasibility, and costs can be measured reliably. Other development expenditures are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

#### 2.26 Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated statement of comprehensive income on a straight-line basis over the period of the lease.

#### 2.27 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

#### 2.28 Safety fund

According to CaiQi [2012] No 16 "Measures for the accruals and utilization of safety fund for enterprises", issued by the Ministry of Finance ("MOF") and Safety Production General Bureau, the Group is required to accrue a "safety fund" to improve the production safety. Accruals to the safety fund are treated as an appropriation to reserves, which will be reversed to retained earnings upon utilization and charged to cost of sales.

# Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

## 3 FINANCIAL RISK MANAGEMENT

### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group currently does not use any derivative financial instruments to hedge certain risk exposures.

(a) *Market risk*

(i) *Foreign exchange risk*

The Group's major operational activities are carried out in mainland China and a majority of the transactions are denominated in RMB. The Group is exposed to foreign exchange risk arising from the recognised assets and liabilities, and future transactions denominated in foreign currencies, primarily with respect to HK dollars ("HKD"). The Group's finance department at its headquarters is responsible for monitoring the amount of assets and liabilities, and transactions denominated in foreign currencies to minimise the foreign exchange risk. Therefore, the Group may consider entering into forward exchange contracts or currency swap contracts to mitigate the foreign exchange risk. During the years ended 31 December 2015 and 2014, the Group did not enter into any forward exchange contracts or currency swap contracts.

As at 31 December 2015, if the RMB had strengthened/weakened by 5% against the HKD while all other variables had been held constant, the Group's net profit for the year would have been approximately RMB49,000 (2014: nil) higher/lower respectively for various financial assets and liabilities denominated in HKD.

(ii) *Cash flow and fair value interest rate risk*

The Group's interest rate risks arise from borrowings. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash held at variable rates. Borrowings obtained at fixed rates expose the Group to fair value interest rate risk. As at 31 December 2015, the Group's borrowings of RMB37,061,415 (2014: RMB28,887,578) were charged at variable rates while the Group's borrowings of RMB31,360,525 (2014: RMB61,661,524) were charged at fixed rates, respectively.

The Group has not hedged its respective cash flow and fair value interest rate risks. The interest rates, terms of repayments and fair value of borrowings are disclosed in Note 26.

As at 31 December 2015, if the interest rates on the Group's borrowing charged at variable rates had been 50 basis points higher/lower, the net profit for the years would have been approximately RMB158,000 (2014:RMB123,000) lower/higher, respectively.

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.1 Financial risk factors (Continued)

##### (b) Credit risk

The carrying amounts of cash and cash equivalents, restricted cash and trade and other receivables included in the consolidated balance sheets and the balance sheets represent the Group's maximum exposure to credit risk in relation to its financial assets.

The Group expects that there is no significant credit risk associated with cash and cash equivalents and restricted cash since they are substantially deposited at state-owned banks and other large or medium size listed banks. Management does not expect that there will be any significant losses from non-performance by these counterparties.

In addition, the Group has policies to limit the credit exposure on trade and other receivables. The Group assesses the credit quality of and sets credit limits on their customers by taking into account their financial position, their credit history and other factors such as current market conditions. The credit history of the customers is regularly monitored by the Group. In respect of customers with a poor credit history, the Group will use written payment reminders, or shorten or cancel credit periods, to ensure the overall credit risk of the Group is limited to a controllable extent.

##### (c) Liquidity risk

The Group's objective is to maintain sufficient cash and sources of funding through committed credit facility and maintain flexibility in funding by maintaining committed credit lines. To manage the liquidity risk, management monitors rolling forecasts of the Group's liquidity reserve (comprising undrawn banking facilities) and cash and cash equivalents on the basis of expected cash flow. The Group expects to fund the future cash flow needs through internally generated cash flows from operations and borrowings from financial institutions.

The table below analyses the Group and the Company's financial liabilities into relevant maturity Groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

#### 3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on basis of the gearing ratio. This ratio is calculated as net debts divided by total capital. Net debts are calculated as total borrowings less cash and cash equivalents and restricted cash. Total capital is calculated as "equity" as shown in the consolidated financial statements plus net debts.

The gearing ratios as at 31 December 2015 and 2014, respectively, are as follows:

	As at 31 December	
	2015 RMB	2014 RMB
Total borrowings (Note 26)	68,421,940	90,549,102
Less: Cash and cash equivalents and restricted cash (Note 19)	(20,524,100)	(17,326,481)
Net debt	47,897,840	73,222,621
Total equity	92,915,610	60,844,620
Total capital	140,813,450	134,067,241
Gearing ratio	34%	55%

The decrease in the gearing ratio was resulted primarily from the increase in retained earnings.

### 3 FINANCIAL RISK MANAGEMENT (Continued)

#### 3.3 Fair value estimation

(a) *Financial assets and liabilities not measured at fair value*

Financial assets not measured at fair value included cash and cash equivalents, restricted cash and trade and other receivables (except for prepayments and guaranteed deposits for environmental rehabilitation) and financial liabilities included borrowings and trade and other payables (except for advance from customers, staff salaries and welfare payables and accrued taxes other than income tax). The carrying amount of these financial assets and liabilities not measured at fair value is a reasonable approximation of their fair value.

(b) *Financial assets measured at fair value*

Financial assets measured at fair value included guaranteed deposits for environmental rehabilitation.

Based on the lowest level input that is significant to the fair value measurement in its entirety, the fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Guaranteed deposits for environmental rehabilitation is categorized as level 3. As at 31 December 2015 and 2014, the difference between its carrying amount and fair value is RMB128,051 and RMB120,219, respectively.

### 4 CRITICAL ACCOUNTING ESTIMATES

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) **Impairment of receivables**

Management determines the provision of impairment of trade and other receivables, based on the credit history of its customers and the current market condition. Management reassesses the provision at each balance sheet date.

## Notes to the Consolidated Financial Statements

for the year ended 31 December 2015

### 4 CRITICAL ACCOUNTING ESTIMATES (Continued)

#### (a) Impairment of receivables (Continued)

Significant judgment is exercised on the assessment of the collectability of trade receivables from customers. In making the judgment, management considers a wide range of factors such as results of follow-up procedures performed by sales personnel, customer payment trends including subsequent payments and customers' financial performance. If the financial conditions of the customers of the Group were to deteriorate, which resulted in an impairment of their ability to make payments, additional provision of impairment may be required.

#### (b) Estimated useful lives and residual values of property, plant and equipment

The Group anticipates estimated useful lives and estimated residual value of property, plant and equipment. Such estimates are based on historical experience of actual useful lives of property, plant and equipment with similar nature and function. As a result of technology advances, management will adjust estimated useful lives and estimated residual value when they are different from previous estimation, or the corresponding property, plant and equipment are written off or written down when technologically backward equipment items are disposed of or sold.

#### (c) Environment rehabilitation obligations

Environment rehabilitation obligations are inherently imprecise and represent only the approximate amounts because of the subjective judgments involved in the estimation of the costs. Environment rehabilitation obligations are subject to a considerable amount of uncertainties which affects the Group's ability to estimate the ultimate cost of remediation efforts. These uncertainties include: (i) the exact nature and extent of the contamination at various sites including, but not limited to, mines and land development areas, whether operating, closed or sold, (ii) the extent of required clean up efforts, (iii) varying cost of alternative remediation strategies, (iv) changes in environmental remediation requirements, and (v) the identification of new remediation sites. In addition, as prices and cost levels change from year to year, the estimate of environment liabilities also changes. Despite the inherent imprecision in these estimates, these estimates are used in assessing the provision for rehabilitation.

#### (d) Income taxes

The Group is subject to income taxes in a few jurisdictions. There are many transactions and events for which the ultimate tax determination is uncertain during the ordinary course of business. Significant estimate is required from the Group in determining the provision for income taxes in each of these jurisdictions. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

### 5 SEGMENT INFORMATION

The chief operating decision-maker of the Group assesses the performance and allocates the resources of the Group as a whole, as all of the Group's activities are considered to be primarily dependent on the performance of production and sales of bentonite clay products. Therefore, management considers there is only one operating segment, under the requirements of IFRS 8, Operating Segments. In this regard, no segment information is presented.

### 11 INCOME TAX EXPENSE (Continued)

The Company obtained the certificates of High and New Tech Enterprises from the Ministry of Science and Technology, Ministry of Finance and office of the State Administration of Taxation and local taxation bureau of Zhejiang province, which granted tax preferential rate of 15% for three years from 14 October 2011 to 13 October 2014. The Company renewed the certificate in October 2014, which granted tax preferential rate of 15% for another three years from 27 October 2014 to 26 October 2017.

The other subsidiaries are subject to income tax rate of 25% for the years ended 31 December 2015 and 2014.

The difference between the actual income tax charge in the consolidated statement of comprehensive income and the amounts which would result from applying the enacted tax rate to profit before income tax can be reconciled as follows:

	Year ended 31 December	
	2015 RMB	2014 RMB

### 23 DEFERRED GOVERNMENT GRANTS

Government grants relating to integrated utilization project of associated mine are deferred. The Group benefits from the government grants by using the production lines which are depreciated on a straight-line basis to the grants. So the government grants are recognised in the consolidated statement of comprehensive income on a straight-line basis over the expected useful lives of the related production lines.

The analysis of deferred government grants is as follows:

	As at 31 December	
	2015 RMB	2014 RMB
Deferred government grants		
– Current	84,000	87,208

Debited to the consolidated statement of comprehensive income	182,742	121,133
At the end of the year	817,275	634,533

A provision is recognised for the present value of costs to be incurred for the restoration of the tailings dam which has been determined by management based on their past experience and best estimate of future expenditure. However, if the impact on the land and the environment from current mining activities becomes different in future periods from originally estimated, the estimate of the associated costs may be subject to revision in the future. The amounts provided in relation to close down, rehabilitation and environmental clean up costs are reviewed at least annually based upon the facts and circumstances available at the time and the provisions are re-measured accordingly.
