**FIRST QUARTERLY REPORT
FOR THE THREE MONTHS ENDED
31 MARCH 2016**

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Feishang Non-metal Materials Technology Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

The Company is an investment holding company while the principal subsidiary is mainly engaged in bentonite mining, production and sales of drilling mud and pelletising clay.

The unaudited condensed consolidated financial statements of the Group are presented in Chinese Yuan ("CNY"), which is the same as the functional currency of the Company. CNY is the currency of the primary economic environment in which the principal subsidiary of the Company operates (the functional currency of the principal subsidiary).

Feishang International, which is a holding company of Feishang Material and Shenzhen Zhuorui Business Management Consultant Company Limited* (深圳市卓瑞企業管理諮詢有限公司), is ultimately owned by Mr. Li Feilie, Laitan Investments Limited and Feishang Group Limited (the "Controlling Shareholders") since August 2002.

Pursuant to the reorganisation as set out in the section headed "History, Reorganisation and Group structure" in the prospectus of the Company dated 18 December 2015 (the "Reorganisation"), the Company became the holding company of the companies now comprising the Group on 17 September 2015.

The Reorganisation above involves interspersing a shell company, the Company, between Feishang International and the Controlling Shareholders, which does not represent combination of businesses. Therefore, the Group comprising the Company and its subsidiaries resulting from the Reorganisation is regarded as a continuing entity. Accordingly, the unaudited condensed consolidated financial statements of the Group have been prepared and presented on the basis as if the Company had always been the holding company of the companies now comprising the Group throughout the three months ended 31 March 2015.

2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements have been prepared in accordance with the applicable International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standard Board (the “IASB”) and the applicable disclosure requirements of the GEM Listing Rules.

The accounting policies and methods of computation used in the preparation of the unaudited condensed consolidated financial statements are consistent with those used in the annual accounts for the year ended 31 December 2015. The Group has adopted new or revised standards, amendments to standards and interpretations of IFRSs which are effective for accounting periods commencing on or after 1 January 2015. The adoption of such new or revised standards, amendments to standards and interpretations does not have material impact on the consolidated accounts and does not result in substantial changes to the Group’s accounting policies.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

China's overall economic slowdown and the gloomy outlook of the iron and steel industries have adversely impacted the selling price of pelletising clay. In addition, the slump in price of energy including oil and natural gas has resulted in a sharp decrease in energy industry investment, which has in turn led to a decline in sales of drilling mud products of the Group. Given the difficult business environment, the Group modified its marketing strategy for pelletising clay, which included, among others, adopting the "selling more with lower margin" strategy by lowering the selling price of pelletising clay with the aim to increase sales volume and market share. In the first quarter of 2016, the Group achieved an increase sales volume of pelletising clay despite the challenging environment. As a result, the gross profits of pelletising clay achieved a year-on-year increase of 16.6%.

FINANCIAL REVIEW

Revenue

The revenue decreased by approximately 3.9% from approximately CNY7.3 million for the three months ended 31 March 2015 to approximately CNY7.0 million for the three months ended 31 March 2016. Such decrease in revenue was mainly due to (i) the decrease in sales volume of drilling mud and unprocessed clay; and (ii) the decrease in average selling price of pelletising clay, which was partially offset by the increase in sales volume of pelletising clay. The drop in sales volume of drilling mud was mainly caused by the general economic downturn in the PRC. The general economic slowdown in China's iron and steel industry also exerted pressure on the average selling price of pelletising clay. Despite the adverse environment, the Group managed to increase the sales volume of pelletising clay by strengthening its marketing and sales effort.

Gross Profit

The gross profit decreased by approximately 19.1% from approximately CNY3.3 million for the three months ended 31 March 2015 to approximately CNY2.7 million for the three months ended 31 March 2016. The decrease in the gross profit was mainly caused by (i) the decrease in sales volume of drilling mud, which had higher gross profit than that of pelletising clay; and (ii) the decrease in average selling price of pelletising clay.

Other Income

The rise in other income from approximately CNY0.3 million for the three months ended 31 March 2015 to CNY2.0 million for the three months ended 31 March 2016 was mainly due to the Group's receipt of a monetary award in the sum of CNY2.0 million from Fanchang County People's Government* (繁昌縣人民政府) in the first quarter of 2016 for the successful listing of the Company's shares (the "Shares") on GEM on 29 December 2015 (the "Listing Date"). The other income for the three months ended 31 March 2015 mainly comprised net gain on financial assets.

Selling and Distribution Expenses

The selling and distribution expenses increased by approximately 16.2% from approximately CNY0.3 million for the three months ended 31 March 2015 to approximately CNY0.4 million for the three months ended 31 March 2016. The increase was primarily due to the rise in transportation cost incurred in the increased pelletising clay sales to customers and the fact that the Group was responsible for the product delivery cost that was included in the selling price.

Administrative and Other Expenses

The administrative and other expenses decreased by approximately 30.7% from approximately CNY2.5 million for the three months ended 31 March 2015 to approximately CNY1.7 million for the three months ended 31 March 2016. The decrease was mainly due to the one-off listing expenses amounting to approximately CNY1.9 million recognised for the three months ended 31 March 2015, which was partially offset by (i) the professional fees and expenses amounting to approximately CNY0.5 million incurred in respect of ongoing compliance with, among others, the relevant regulatory requirements for listed companies for the three months ended 31 March 2016; (ii) the increase in research and development expense of approximately CNY0.2 million; and (iii) the increase in staff cost amounting to approximately CNY0.2 million resulting from an increase in the headcount of administrative and management staff.

Finance Costs

The finance costs increased by approximately 114.6% from approximately CNY0.1 million for the three months ended 31 March 2015 to approximately CNY0.2 million for the three months ended 31 March 2016, primarily due to the increase in accrual of bank loan interest expense drawn down in December 2015.

Income Tax Expense

The Group had income tax expense of approximately CNY0.5 million for the three months ended 31 March 2016 as compared to approximately CNY0.9 million for the three months ended 31 March 2015. The decrease was mainly due to a decline in the opening deferred tax assets for the three months ended 31 March 2015 resulting from a reduction of enterprise income tax rate applicable to Feishang Material, the indirect wholly-owned subsidiary of the Company, from 25% to 15% as it was categorised as a High Technology Enterprise.

Profit (Loss) and Total Comprehensive Income (Expense) for the Period

The profit and total comprehensive income attributable to the owners of the Company for the three months ended 31 March 2016 was approximately CNY2.0 million, an increase of approximately CNY2.2 million from the loss of approximately CNY0.2 million for the three months ended 31 March 2015. This was mainly contributed by (i) the CNY2.0 million monetary award from Fanchang County People's Government* (繁昌縣人民政府) in the first quarter of 2016; and (ii) the decrease in one-off listing expenses amounting to approximately CNY1.9 million. The effect was partially offset by the (i) approximately CNY0.6 million decrease in gross profit; (ii) the increase in research and development expense amounting to approximately CNY0.2 million; (iii) the increase in staff cost amounting to approximately CNY0.2 million; and (iv) the increase in professional fees and expenses amounting to approximately CNY0.5 million in respect of ongoing compliance with, among others, the relevant regulatory requirements for listed companies.

OUTLOOK

The iron, steel and energy industries are expected to remain weak and exert further downward pressure on pelletising clay and drilling mud sales in the short term. In order to cope with the challenging business environment, the Group intends to further expand its customer base and market share, increase product recognition of its principal products, enhance production technologies, and develop new products in order to increase its competitiveness. The Group will also continue with the strategy of "selling more with lower margin" and continue to increase the marketing effort of pelletising clay in order to minimise the impact of the industry downturn on the Group. As to drilling mud, the Group is actively developing products with different specifications. Since the second quarter of 2016, the Group has proactively assisted its drilling mud customers to explore and develop new markets by providing them with customised technical support, facilities and manpower support in an aim to achieve sales growth.

CONTINGENT LIABILITIES

As of 31 March 2016, the Group did not have any loan capital or debt securities issued or agreed to be issued, outstanding bank overdrafts and liabilities under acceptances or other similar indebtedness, debentures, mortgages, charges or loans or acceptance credits, finance leases or hire purchase commitments or guarantees or material contingent liabilities.

DIVIDEND

The Board does not recommend the payment of a dividend for the three months ended 31 March 2016 (2015: Nil).

Chairman and Chief Executive

Mr. XU Chengyin is the chairman and chief executive officer of the Company. He is mainly responsible for formulating corporate strategies and supervising the business and marketing operations of the Group. The Board believes that the balance of power and authority is adequately ensured by the operations of the Board which comprises experienced and high-calibre individuals including three independent non-executive Directors offering independent advice from different perspectives. In addition, major decisions are made after consultation with the Board and appropriate Board committees, as well as senior management. The Board is therefore of the view that there are adequate balance and safeguards in place.

The Audit Committee meets regularly with the Company's senior management and the Company's auditors to consider the Company's financial reporting process, the effectiveness of internal controls, the audit process and risk management. The unaudited condensed consolidated financial statements of the Company for the three months ended 31 March 2016 have been reviewed by the Audit Committee, which was of the opinion that the preparation of such statements complied with applicable IFRSs and that adequate disclosure has been made in respect thereof.

MATERIAL ACQUISITION AND DISPOSAL
