CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (THE "GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors ("Directors") of Zhi Cheng Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; and there are no other matters the omission of which would make any statement in this report misleading.

Chairman's Statement

Dear shareholders,

On behalf of the board of Directors (the "Board") of Zhi Cheng Holdings Limited (the "Company"), I herein present the results of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 March 2016.

During the year under review, the Group recorded a decrease in revenue from continued operation of approximately 13.8% to HK$28.5 million (2015: HK$33.1 million). The revenue was derived from the provision of financial leasing and other financial services, advertising and media related services and travel agency and related operations. The Group recorded a loss attributable to owners of the Company of approximately HK$65.3 million (2015: HK$155.6 million). The change was mainly attributed to a decrease in administrative expenses of approximately HK$51.6 million (2015: HK$64.7 million); a diminution in impairment losses recognised in respect of available-for-sale investments for continuing operations of HK$Nil (2015: HK$6.0 million); and in respect of intangible assets for discontinued operations of HK$4.3 million (2015: approximately HK$68.4 million).

Future Plans

On 20 June 2016, a wholly-owned subsidiary of the Company entered into a finance lease arrangement for the sales and leaseback transaction of renewable solar energy equipment with a indirectly wholly-owned subsidiary of China Sinyes Solar Technologies Holdings Limited. Pursuant to the arrangement, Shenzhen City Jia Ying Financial Leasing Company Limited* (深圳市嘉盈融資租賃有限公司) ("Shenzhen Jia Ying") purchased the equipment for RMB40 million and leased back to the lessee for a term of 12 months with total future lease payments of approximately RMB42.6 million.

Looking ahead, the Group will continue to develop its main business lines, including advertising and media related services and financial leasing and other financial related services. In 2015, there were over 7,000 Public-Private Partnership projects in PRC's national catalogue with a total investment of RMB8.3 trillion. These Public-Private Partnership projects range from urban infrastructure, healthcare, energy to public transportation and other industries. The rapid growth reflects the PRC government's support towards infrastructure investments by way of Public-Private Partnership. Observing the trend on the development of government backed projects and the financing needs from these projects, the Group is exploring opportunities to develop in the sector through its financial leasing and other financial related services business segment.

Finally, I would like to thank our Board, management and staff for their contributions to the Group. I would also like to extend my sincere gratitude to our shareholders, business partners, customers and suppliers for their continued supports.

Lien Wai Hung
Chairman

General

During the year under review, The Group is principally engaged in the provision of financial leasing and other financial services, provision of consultancy services, advertising and media related services, provision of project management services, travel agency and related operations.

Business Overview

Provision of Financial Leasing and other Financial Services

Following the completion of fund raising by way of open offer in December 2015, the Group has commenced its financial leasing operation during the year under review. With the advent of finance lease of electric and hybrid vehicles in the PRC, the financial leasing business is expected to generate a steady stream of revenue in the near future.

The Group is currently in the process of finalizing a number of financial leasing transactions, mainly in the infrastructure and electric vehicle areas. The Group is planning to make further investments in this segment and also look into the establishment or joint establishment with other partners of financial leasing or other financial related companies that will complement the Group's financial leasing and other financial services business.

During the year under review, the revenue contributed by such segment was approximately HK$0.4 million (2015: HK$Nil).

Advertising and Media Related Services

Apart from the provision of advertising services through marketing and promotional events with advertising clienteles in the lifestyle and apparel industry, and riding on the trend of growing number of connected consumers, the expansion of mobile telephony, and elevated mobile broadband adoption, the Group is also developing its media services in the video production area and expects the projects to generate revenue in the upcoming quarters.

One of the other media services has been the publishing of travel books with associated advertisements. The spending on travelling advertising media continued to shift to digital services at a rapid pace, proclaiming the end of the printed media as the trend continues in 2016 by the recent closure of international and Hong Kong local newspapers and magazines. Victimized by the inevitable substitution of the digital shift, provisions were accordingly made to the goodwill relating to advertising and media related services segment.

Advertising and media related services are provided in the PRC by three subsidiaries of the Company, of which 上海思璇廣告有限公司 (Shanghai Si Xuan Advertisement Company Limited*, "Shanghai Si Xuan") were controlled by contractual arrangements and details and reasons for the contractual arrangements are disclosed in the Company's announcements dated 3 May 2012. The Group is reviewing the contractual arrangements for Shanghai Si Xuan and will consider unwinding the structured contracts when the conditions for a relaxation of foreign-funded advertising enterprise are met. Risks associated with the contractual arrangements included that the PRC Government may determine the structured contracts are not in compliance with applicable PRC laws, rules, regulations or policies; the structured contracts may not provide control as effective as direct ownership; the Group's ability to recover or reclaim any or all of the related interest in the event of breach of contractual terms by the PRC company and its PRC shareholders; and the imposition of additional tax on the structured contracts may be subject to scrutiny by the PRC tax authorities. The Group continues to monitor and arrange annual reviews of the contractual arrangements to mitigate the effects of the above risks.

During the year under review, the revenue contributed by such segment was approximately HK$22.9 million (2015: HK$16.3 million).

Travel Agency and Related Operations

While the overall travel industry remained steady for the past year, tradition brick-and-mortar travel agencies continues to face the challenge of higher cost in comparison to with automated online travel booking platforms that offer services like real-time price comparison. Some travel agencies remains competitive by providing personalized and specialize customer services that highly depend on experienced staffs with established connections with clientele. The Group experienced a shortage of talents towards the end of 2015 thus affecting the revenue under the travel agency and related operations. Plans for diversification are in action and the Group is also reviewing the strategic direction for this segment.

During the year under review, the revenue contributed by such segment was approximately HK$5.2 million (2015: HK$15.1 million).

Provision of Project Management Services

Mobile and internet technologies have evolved rapidly in the past few years brought opportunities and challenges. The original functions of the Education Institution Internal Security Control System ("EIISCS") have been superseded by location-based services and mobile applications. Due to a change of the technology surrounding the operating environment, provisions were made to the intangible assets relating to the project management services segment.

During the year under review, the revenue contributed by such segment was HK$Nil (2015: approximately HK$1.0 million).

Provision of Consultancy Services

With internet connectivity widely available in form of Wi-Fi and mobile data communications, some would even consider internet vital as electricity and water utilities. Tradition international call telephony and short message services now appears a vestige and the prepaid SIM cards market is now shifted from specific demographics in Hong Kong to mobile data for outbound travelers going overseas. As such the Group is reviewing the consultancy services segment to determine the next course of action.

During the year under review, the revenue contributed by such segment was HK$Nil (2015: approximately HK$0.7 million).

Decoration and Interior Design Services

On 31 August 2015, the Company has entered into a sale and purchase agreement to dispose of its entire equity interest in Chun Sing Design (HK) Limited ("Chun Sing") to an independent third party, at an aggregate consideration of HK$1,200,000. Chun Sing directly holds the entire equity interest in Chun Sing Design (Shenzhen) Limited* (駿昇設計製作（深圳）有限公司). The transaction was completed on 31 August 2015 and the target ceased to be a subsidiary of the Company and its financial results were reclassified as discontinued operations in the Group's financial accounts for the year ended 31 March 2016.

During the year under review, the revenue contributed by such segment was approximately HK$25,000 (2015: HK$2.0 million).

Financial Review

For the year under review, the revenue from continuing operations of the Group was approximately HK$28.5 million (2015: HK$33.1 million), of which approximately HK$0.4 million (2015: HK$Nil) was generated from provision of financial leasing and other financial services; approximately HK$22.9 million (2015: HK$16.3 million) was generated from provision of advertising and media related services; approximately HK$Nil (2015: HK$0.7 million) was generated from provision of consultancy services; approximately HK$Nil (2015: HK$1.0 million) was generated from provision of project management services; approximately HK$5.2 million (2015: HK$15.1 million) was generated from travel agency and related operations, thus representing a decrease of approximately 13.8% as compared with that of the year ended 31 March 2015. Other revenue amounted to approximately HK$3.9 million (2015: HK$0.4 million), an increase of approximately 7.8 times over the prior year.

Administrative expenses decreased by 20.2% to approximately HK$51.6 million from HK$64.7 million in prior year. Such a decrease was mainly attributed to a decrease in the amortisation of intangible assets of approximately HK$3.4 million (2015: HK$8.1 million) and consultancy expenses to approximately HK$3.8 million (2015: HK$10.1 million); and also to a decrease in staff costs to approximately HK$14.2 million (2015: HK$15.6 million).

* for identification purpose only

Finance costs increased to HK$0.4 million (2015: HK$Nil). The increase was mainly due to interest paid on a corporate bond issued by the Company during the year.

Loss attributable to owners of the Company was approximately HK$65.3 million (2015: HK$155.6 million). The change was mainly attributed to a decrease in administrative expenses of approximately HK$51.6 million (2015: HK$64.7 million); a diminution in impairment losses recognised in respect of available-for-sale investments for continuing operations of HK$Nil (2015: HK$6.0 million); and in respect of intangible assets for discontinued operations of HK$4.3 million (2015: approximately HK$68.4 million).

Dividend

The Board does not recommend the payment of a dividend for the year ended 31 March 2016 (2015: HK$Nil).

Liquidity and Financial Resources

At 31 March 2016, the Group had total assets of approximately HK$518.5 million (2015: HK$285.5 million), including net cash and bank balances of approximately HK$226.5 million (2015: HK$4.3 million). The increase in cash and bank balances coincided with fund raising activities of the Company and operations of the Group during the year.

During the year under review, the Group financed its operations with internally generated cash flows and the proceeds from the issuance of new shares.

Capital Structure

Save as disclosed below, there was no change in the capital structure of the Group at 31 March 2016 as compared with that at 31 March 2015.

During the year ended 31 March 2016, certain option holders exercised their option rights to subscribe for an aggregate of 14,940,000 shares at HK$0.51 per share and an aggregate of 41,740,000 shares at HK$0.339 per share. The net proceeds from the exercise of option rights amounted to approximately HK$21.8 million.

On 2 October 2015, the Company and Kingsway Financial Services Group Limited (the "Underwriter") entered into the underwriting agreement in respect of the proposed open offer of 313,037,533 offer shares available to the qualifying shareholders on the basis of one offer share for every two existing shares in issue and held on the record date and payable in full on acceptance (the "Open Offer"). The gross proceeds raised by the Company from the Open Offer amount to approximately HK$31.3 million (before expenses). The Open Offer was completed on 9 December 2015 and the net proceeds raised by the Company from the Open Offer amount to approximately HK$29.2 million (after expenses). The net proceeds from the Open Offer were utilised towards: approximately HK$15.6 million being the paid-up capital of Shenzhen Jia Ying for financial leasing business in the PRC; approximately HK$7.9 million on staff costs including directors' remuneration; approximately HK$1.5 million towards rental expenses; approximately HK$0.5 million towards overseas and domestic travelling, transportation and entertainment expenses. The remaining amount of approximately HK$3.8 million were held at bank accounts of the Group as at 31 March 2016.

Corporate Governance Report

Introduction

The Board of directors (the "Board") and the management of the Company are committed to establishing good corporate governance practices and procedures. The maintenance of high standard of business ethics and corporate governance practices has always been one of the Group's goals. The Company believes that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture, thereby leading to the enhancement of shareholders' value.

Corporate Governance Practices

The corporate governance principles of the Company emphasise a quality Board, sound internal controls, transparency and accountability to all shareholders. By applying rigorous corporate governance practices, the Group believes that its accountability and transparency will be improved thereby instilling confidence to shareholders and the public. Throughout the financial year ended 31 March 2016, the Group has complied with the code provisions in the Corporate Governance Code and Corporate Governance Report (the "CG Code") as set out in Appendix 15 of the GEM Listing Rules save for certain deviations, details of which will be explained in the relevant paragraphs in this report. The Board has, since the amendments to the GEM Listing Rules regarding corporate governance practices were first proposed by the Stock Exchange, continued to monitor and review the Group's progress in respect of corporate governance practices to ensure compliance. Meetings were held throughout the year and where appropriate, circulars and other guidance notes were issued to directors and senior management of the Group to ensure awareness to issues regarding corporate governance practices.

The Board

Responsibilities

The Board is responsible for the leadership and control of the Company and oversees the Group's business, strategic decisions and performances and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. In practice, the Board takes responsibility for decision making in all major matters of the Company including: the approval and monitoring of all policy matters, the setting of objectives, annual budgets and overall strategies, material transaction, appointment of directors and other significant financial and operational matters. The day-to-day management, administration and operation of the Company are delegated to the senior executives. These responsibilities include the implementation of decisions of the Board, the co-ordination and direction of day-to-day operation and management of the Company in accordance with the management strategies and plans approved by the Board. Approval has to be obtained from the Board prior to any significant transactions entered into by these senior executives and the Board has the full support of them to discharge its responsibilities.

Composition

The Board currently comprises Eight Directors: four executive Directors and four independent non-executive Directors that are more than one-third of the Board. Biographical details of the Chairman and other Directors are set out in the section of "Profile of Directors" on page 13.

The Directors have distinguished themselves in their field of expertise, and have exhibited high standards of personal and professional ethics and integrity. All the Directors give sufficient time and attention to the Company's affairs. The Board believes that the ratio of executive to non-executive Directors is reasonable and adequate to provide checks and balances that safeguard the interest of the shareholders and the Company as a whole.

At 31 March 2016, the Board comprised eight Directors, including four executive Directors, namely Mr. Lien Wai Hung, Mr. Wei Shu Jun, Ms. Zhu Qi and Dr. Shen Furong and four independent non-executive Directors, Mr. Chong Yiu Kan, Sherman, Ms. Feng Lei, Ms. Chan Wing Yan, Carman and Mr. Yeung Kwong Wai. Two of the independent non-executive Directors has appropriate professional qualifications, or accounting or related financial management expertise.

In accordance with the Company's bye-laws, newly appointed Directors are required to offer themselves for re-election at the first annual general meeting following their appointment.

The Board as a whole is responsible for the appointment of new Directors and Directors nomination for re-election by shareholders at the annual general meeting of the Company. Under the Company's bye-laws, the Board may from time to time appoint a Director either to fill a vacancy or as an addition to the Board. Any new Director appointed to fill a casual vacancy shall hold office until the first general meeting after his appointment and shall then be eligible for re-election. Any Director appointed by the Board as an addition to the existing Board shall hold office until the next following annual general meeting of the Company and shall then be eligible for re-election.

Independence

The Company has four independent non-executive Directors, at least one of whom has appropriate financial management expertise, in compliance with the GEM Listing Rules. The Company considers these directors to be independent under the guidelines set out in Rules 5.09 of the GEM Listing Rules.

Deviation from the CG code

Throughout the year ended 31 March 2016, the Company complied with the CG Code in Appendix 15 to the GEM Listing Rules, with the exception of CG Code Provision A.4.1 (specific terms of non-executive Directors).

Terms of non-executive Directors

Under the Code provision A.4.1, all non-executive directors should be appointed for a specific term, subject to re-election. The term of office for non-executive directors is subject to retirement from office by rotation and is eligible for re-election in accordance with the provisions of the Company's bye-laws. At each annual general meeting, one-third of the directors for the time being, (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation. As such, the Company considers that such provisions are sufficient to meet the underlying objective of this code provision.

Board Meetings and Shareholders' Meetings

The Board regularly meets in person or through other electronic means of communication at least four times every year to determine overall strategic direction and objectives and approve quarterly, interim and annual results, and other significant matters. At least seven business days' notice of regular Board meeting are given to all Directors, who are all given an opportunity to attend and include matters in the agenda for discussion. Apart from regular meetings, senior management from time to time provides Directors information on activities and development of the businesses of the Group. The company secretary takes detailed minutes of the meetings and keeps records of matters discussed and decision resolved at the meetings.

During the year ended 31 March 2016, 21 board meetings were held. Details of the attendance of the Directors at general meetings, the meetings of the Board and its respective committees are as follows:

Shareholders Relations

The Company is committed to maintaining a high level of transparency and employs a policy of open and timely disclosure of relevant information to its shareholders. The commitment to fair disclosure and comprehensive and transparent reporting of the Company's activities can be reflected in many aspects.

In endeavouring to maintain an on-going dialogue with shareholders, the annual general meeting provides a useful forum for shareholders to exchange views with the Board.

The proceedings of the annual general meeting are reviewed from time to time to ensure the Company conforms to the best practices regarding corporate governance. The annual general meeting circular, which is circulated to all shareholders at least 21 days prior to the holding of the annual general meeting, sets out the details in relation to each resolution proposed, voting procedures (including procedures for demanding and conducting a poll) and other relevant information. At the Company's 2015 annual general meeting, all the resolutions were put to the vote by poll and Tricor Secretaries Limited, the Company's Hong Kong Branch Share Registrar, was engaged as scrutineer to ensure the votes were properly counted. The rights of shareholders and the procedures for demanding a poll on resolutions at shareholders' meeting are contained in the Company's Bye-laws.

The Company also communicates to its shareholders through its annual, interim and quarterly reports.

Conclusion

The Company believes that good corporate governance is significant in maintaining investor confidence and attracting investment. The Management will devote considerate effort to strengthen and improve the standards of the corporate governance of the Group.

To the Shareholders of Zhi Cheng Holdings Limited
(incorporated in the Cayman Islands and continued in Bermuda with limited liability)

We have audited the consolidated financial statements of Zhi Cheng Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 29 to 135, which comprise the consolidated statement of financial position at 31 March 2016, and the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Auditors' Responsibility *(Continued)*

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group at 31 March 2016, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes:

(i) Share premium

After the change of domicile, the application of share premium account is governed by the relevant provisions set out in the Company's Bye-laws and the Companies Act.

(ii) Contributed surplus

The contributed surplus of the Group represents the difference between the nominal value of the shares of the subsidiaries acquired and the nominal value of the shares of the Company issued for the acquisition at the time of the reorganisation of the Group.

(iii) Share-based compensation reserve

The share-based compensation reserve of the Company and the Group arise on the grant of share options of the Company and is dealt with in accordance with the accounting policies set out in note 4.

(iv) Statutory reserve

The statutory reserve of the Group refers to the People's Republic of China (the "PRC") statutory reserve fund. Appropriations to such reserve fund are made out of profit after tax as recorded in the statutory financial statements of the PRC subsidiaries. The amount should not be less than 10% of the profit after tax as recorded in the statutory financial statements unless the aggregate amount exceeds 50% of the registered capital of the PRC subsidiaries. The statutory reserve can be used to make up prior year losses, if any, and can be applied in conversion into the PRC subsidiaries' capital by means of capitalisation issue.

(v) Translation reserve

Translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations. The reserve is dealt with in accordance with the accounting policies set out in note 4.

1. GENERAL INFORMATION

The Company was incorporated as an exempted company with limited liability in the Cayman Islands on 9 November 2001 and continued in Bermuda on 20 April 2009. The Company's shares have been listed on the Growth Enterprise Market (the "GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") since 26 August 2002. According to the register of substantial shareholders maintained by the Company, at 31 March 2016, Joy Grand Investment Limited and UBS SDIC Asset Management (Hong Kong) Company Limited are substantial shareholders of the Company. The ultimate controlling party of Joy Grand Investment Limited is China Smartpay Group Holdings Limited.

The registered office and principal place of business of the Company are located at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and Room 3203, 32nd Floor, Tower 1, Admiralty Centre, 18 Harcourt Road, Hong Kong respectively.

The consolidated financial statements are presented in Hong Kong dollar ("HK$"), which is the same as the functional currency of the Company and all values are rounded to the nearest thousand (HK$'000) except otherwise indicated.

The principal activity of the Company is investment holding and the principal activities of its subsidiaries are set out in note 39.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

The Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") for the first time in the current year:

HKAS 19 (Amendments)	Defined Benefit Plans: Employee Contributions
HKFRSs (Amendments)	Annual Improvements to HKFRSs 2010-2012 Cycle
HKFRSs (Amendments)	Annual Improvements to HKFRSs 2011-2013 Cycle

The application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

3. ISSUED BUT NOT YET EFFECTIVE HKFRSs

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective:

HKAS 1 (Amendments)	Disclosure Initiative[1]
HKAS 16 and HKAS 38 (Amendments)	Clarification of Acceptable Methods of Depreciation and Amortisation[1]
HKAS 16 and HKAS 41 (Amendments)	Agriculture: Bearer Plants[1]
HKAS 27 (2011) (Amendments)	Equity Method in Separate Financial Statements[1]
HKFRSs (Amendments)	Annual Improvements to HKFRSs 2012-2014 Cycle[1]
HKFRS 9	Financial Instruments[1]
HKFRS 10 and HKAS 28 (2011) (Amendments)	Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures[4]
HKFRS 10, HKFRS 12 and HKAS 28 (2011) (Amendments)	Investment Entities: Applying the Consolidation Exception[1]
HKFRS 11 (Amendments)	Accounting for Acquisitions of Interests in Joint Operations[1]
HKFRS 15	Revenue from Contracts with Customers[2]
HKFRS 16	Leases[3]

1 Effective for annual period beginning on or after 1 January 2016, with earlier application permitted
2 Effective for annual period beginning on or after 1 January 2018, with earlier application permitted
3 Effective for annual period beginning on or after 1 January 2019, with earlier application permitted
4 Effect for annual period beginning on or after a date to be determined

HKFRS 9 Financial Instruments

HKFRS 9 issued in 2009 introduced new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for general hedge accounting. Another revised version of HKFRS 9 was issued in 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' ("FVTOCI") measurement category for certain simple debt instruments.

3. ISSUED BUT NOT YET EFFECTIVE HKFRSs *(continued)*

HKFRS 9 Financial Instruments *(continued)*

Key requirements of HKFRS 9 are described below:

- All recognised financial assets that are within the scope of HKAS 39 "Financial Instruments: Recognition and Measurement" are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities' credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

- The new general hedge accounting requirements retain the three types of hedge accounting. However, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an 'economic relationship'. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity's risk management activities have also been introduced.

3. ISSUED BUT NOT YET EFFECTIVE HKFRSs *(continued)*

HKFRS 9 Financial Instruments *(continued)*

The directors of the Company anticipate that the adoption of HKFRS 9 in the future may have a significant impact on the amounts reported in respect of the Group's financial assets and financial liabilities. Regarding the Group's financial assets, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

HKFRS 15 Revenue from Contracts with Customers

In July 2014, HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 "Revenue", HKAS 11 "Construction Contracts" and the related Interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

The directors of the Company anticipate that the application of HKFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of HKFRS 15 until the Group performs a detailed review.

3. ISSUED BUT NOT YET EFFECTIVE HKFRSs *(continued)*

HKFRS 16 Leases

HKFRS 16, which upon the effective date will supersede HKAS 17 "Leases", introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under HKFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, HKAS 17.

In respect of the lessor accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The directors of the Company will assess the impact of the application of HKFRS 16. For the moment, it is not practicable to provide a reasonable estimate of the effect of the application of HKFRS 16 until the Group performs a detailed review.

Save as described above, the directors of the Company anticipate that the application of these amendments will have no material effect on the Group's consolidated financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs, which is a collective term that includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations ("Ints") issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules") and by the Hong Kong Companies Ordinance.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Statement of compliance *(continued)*

The provisions of the new Hong Kong Companies Ordinance (Cap. 622) ("new CO") regarding preparation of accounts and directors' reports and audits became effective for the Company for the financial year ended 31 March 2016. Further, the disclosure requirements set out in the GEM Listing Rules regarding annual accounts have been amended with reference to the new CO and to streamline with HKFRSs. Accordingly the presentation and disclosure of information in the consolidated financial statements for the financial year ended 31 March 2016 have been changed to comply with these new requirements. Comparative information in respect of the financial year ended 31 March 2015 are presented or disclosed in the consolidated financial statements based on the new requirements. Information previously required to be disclosed under the predecessor Companies Ordinance or GEM Listing Rules but not under the new CO or amended GEM Listing Rules are not disclosed in these consolidated financial statements.

Basis of preparation

The preparation of the consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 7.

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Basis of preparation *(continued)*

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Basis of consolidation *(continued)*

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Basis of consolidation *(continued)*

Changes in the Group's ownership interest in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combination

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combination *(continued)*

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 "Income Taxes" and HKAS 19 "Employee Benefits" respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 "Share-based Payment" at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another HKFRS.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Business combination *(continued)*

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with HKAS 39, or HKAS 37 "Provisions, Contingent Liabilities and Contingent Assets", as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in its former subsidiary after the sale.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses, except that when an item of property, plant and equipment is classified as held for sale, when it is not depreciated and is measured at the lower of carrying amount and fair value less costs to sell. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Cost may also include transfers from equity of any gains/losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of profit or loss in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment and the cost of the item can be measured reliably, the expenditure is capitalised as an additional cost of that asset or as a replacement.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold improvements	Over the shorter of the lease terms or 20%
Showroom equipment	33%
Office equipment	20% – 33%
Furniture and fixtures	20% – 33%
Motor vehicles	20% – 25%

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of that item is allocated on a reasonable basis among the parts and each part is depreciated separately.

Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

The Group as lessee

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see the accounting policy below). Contingent rentals are recognised as expenses in the periods in which they are incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Leasing *(continued)*

The Group as lessee *(continued)*

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into two categories, including available-for-sale ("AFS") financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for financial assets.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Financial assets *(continued)*

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables, finance lease receivables – net, promissory note receivable and bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment.

Available-for-sale financial assets

AFS financial assets are non-derivatives that are either designated as available-for-sale or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at FVTPL.

Equity and debt securities held by the Group that are classified as AFS financial assets and are traded in an active market are measured at fair value at the end of each reporting period. Changes in the carrying amount of AFS monetary financial assets relating to interest income calculated using the effective interest method and dividends on AFS equity investments are recognised in profit or loss. Other changes in the carrying amount of AFS financial assets are recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss.

Dividends on AFS equity investments are recognised in profit or loss when the Group's right to receive the dividends is established.

AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of each reporting period.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For AFS equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Financial assets *(continued)*

Impairment of financial assets (continued)

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets that are carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Financial assets *(continued)*

Impairment of financial assets (continued)

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of AFS equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. In respect of AFS debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Financial liabilities and equity instruments *(continued)*

Other financial liabilities

Other financial liabilities including trade and other payables and corporate bond are subsequently measured at amortised cost, using the effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, (where appropriate), a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis for financial liabilities.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Financial instruments *(continued)*

Derecognition *(continued)*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Offsetting financial instrument

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related taxes.

Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in the consolidated statement of profit or loss as follows:

Rental income from operating leases

Rental income receivable under operating leases is recognised in the consolidated statement of profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset.

Lease incentives granted are recognised in the consolidated statement of profit or loss as an integral part of the aggregate net lease payments receivable. Contingent rentals are recognised as income in the accounting period in which they are earned.

Provision of medical information digitalisation system ("MIDS")

Revenue from provision of MIDS is recognised on the transfer of risks and rewards of ownership which generally coincide with the time where the systems are delivered, installed and title passed.

Provision of consultancy services

Revenue from consultancy services is recognised when the services are rendered.

Provision of advertising and media related services

Revenue from provision of advertising and media related services is recognised when the services are rendered.

Provision of project management services

Revenue from provision of project management services is recognised when the services are rendered.

Provision of travel agency and related operation

Revenue from provision of travel agency service is recognised when air ticketing and air/hotel packages sold.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Revenue recognition *(continued)*

Provision of decoration and interior design services

Revenue from provision of decoration and interior design services is recognised when the services are rendered or constructions are completed.

Provision of financial leasing services

Revenue from finance lease is recognised over the lease term on a systematic and rational basis so as to produce a constant rate of return on the net investment in the finance lease.

Interest income

Interest income is recognised as it accrues using the effective interest method.

Employee benefits

Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Employee benefits *(continued)*

Short term employee benefits and contributions to defined contribution retirement plans *(continued)*

The employees of the Company's subsidiaries operating in the PRC are members of retirement benefits schemes (the "PRC RB Schemes") managed by the local municipal governments. The PRC subsidiaries are required to contribute to the PRC RB Schemes to fund the retirement benefits. The local municipal government undertakes to assume the retirement benefit obligation of all existing and future retired employees of the PRC subsidiaries. The only obligation of the PRC subsidiaries with respect to the PRC RB Schemes is to meet the required contributions under the PRC RB Schemes. The contribution are charged to the profit or loss as they become payable in accordance with the relevant laws and regulations of the PRC.

Share-based payments

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in share-based compensation reserve with equity. The fair value is measured at grant date using the Black-Scholes Option Pricing Model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options expected to vest is reviewed. Any adjustment to the cumulative fair value recognised in prior years is charged/credited to the consolidated statement of profit or loss for the year under review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the share-based compensation reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to the share-based compensation reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the share-based compensation reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to retained profits).

Termination benefits

Termination benefits are recognised when, and only when, the Group demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'loss before taxation' as reported in the consolidated statement of profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profits.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Provisions and contingent liabilities

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;

- exchange differences on transactions entered into in order to hedge certain foreign currency risks (see the accounting policies below); and

- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Foreign currencies *(continued)*

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK$) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currency translation reserve.

On the disposal of a foreign operation, all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Related parties

A related party is a person or entity that is considered to be related to the Group if:

(a) A person or a close member of that person's family is related to the Group, and if that person:

- (i) has control or joint control of the Group;
- (ii) has significant influence over the Group; or
- (iii) is a member of the key management personnel of the Group or the Group's parent.

(b) An entity is related to the Group if any of the following conditions applies:

- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (iii) Both entities are joint ventures of the same third party.
- (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
- (vi) The entity is controlled or jointly controlled by a person identified in (a) above;
- (vii) A person identified in (a)(i) above has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close family members of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

5. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from 2015.

The directors consider the cost of capital and the risks associates with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

Consistent with others in the industry, the Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowing (including current liabilities as shown in the consolidated statement of financial position) less cash and cash equivalents.

5. CAPITAL MANAGEMENT *(continued)*

Gearing ratio

The directors of the Company review the capital structure on an annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. The gearing ratios at 31 March 2016 and 2015 were as follows:

	2016	2015
	HK$'000	HK$'000
Total debt (Note a)	**42,197**	18,199
Less: cash and cash equivalents	**(226,503)**	(4,252)
Net (cash)/debt	**(184,306)**	13,947
Equity (Note b)	**462,314**	251,322
Net debt to equity ratio	**N/A**	5.5%
Total debt to equity ratio	**9.1%**	7.2%

Notes:

(a) Debt included trade and other payables and corporate bond, as detailed in notes 28 and 29 respectively.

(b) Equity included all capital and reserves of the Group.

Categories of financial instruments *(continued)*

Details of the financial instruments for the Group are disclosed in respective notes to the consolidated financial statements. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management of the Company manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

There has been no change to the types of the Group's exposure in respect of financial instruments or the manner in which it manages and measures the risks.

Fair value measurement

The fair values of financial assets and financial liabilities are determined as follows:

- the fair values of financial assets and financial liabilities with standard terms and conditions and traded in active markets are determined with reference to quoted market bid prices and ask prices respectively;
- the fair values of derivative instruments are calculated using quoted prices. When such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives; and
- the fair values of other financial assets and financial liabilities (excluding those described above) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate to their fair values.

All financial assets and liabilities of the Group at 31 March 2016 and 2015 were loans and receivables, AFS investments and financial liabilities stated at amortised cost respectively.

Financial risk management objectives and policies

The Group's major financial instruments include AFS investments, trade and other receivables, finance lease receivables – net, promissory note receivable, bank balances and cash, trade and other payables and corporate bond. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management of the Company manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

There has been no change to the Group's risk exposure relating to financial instruments or the manner in which it manages and measures the risks.

6. FINANCIAL INSTRUMENTS *(continued)*

Financial risk management objectives and policies *(continued)*

Credit risk

The Group's credit risk is primarily attributable to trade and other receivables. Management of the Company has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

In respect of trade and other receivables, the credit periods usually vary from one month to twelve months depending on the nature of the business. Extension may be granted to major customers and each customer is granted a maximum credit limit. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and also taking into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Given the constant repayment history, the directors are of the option that the risk of default by these counter parties is not significant. Debtors with balances that are more than 3 months past due are requested to settle all outstanding balances before any further credit is granted and all overdue balances are reviewed regularly by the management of the Company. Normally, the Group does not obtain collateral from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry and country in which customers operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers. At the end of the reporting period, the Group has certain concentration of credit risk as 55.0% (2015: 32.4%) and 55.1% (2015: 78.97%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated statement of financial position after deducting any impairment allowance. The Group does not provide any guarantees which would expose the Group to credit risk.

The Group deposited its cash and cash equivalents with approved and reputable banks. Bankruptcy or insolvency of the bank may cause the Group's right with respect to cash and cash equivalents held to be delayed or limited. Management of the Company monitors the credit rating of these banks on an ongoing basis, and considers that the Group's exposure to credit risk at 31 March 2016 and 2015 were minimal.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables is disclosed in note 24 to the consolidated financial statements respectively.

6. FINANCIAL INSTRUMENTS *(continued)*

Financial risk management objectives and policies *(continued)*

Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient amount of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The Group monitors and maintains a level of cash and cash equivalents considered adequate by the directors of the Company to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group held cash and cash equivalents amounting to approximately HK$226,503,000 at 31 March 2016 (2015: HK$4,252,000).

The following table details the Group's remaining contractual maturity at the end of the reporting period of the Group's financial liabilities based on undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date on which the Group required to pay. The analysis is performed on the same basis for 2015.

Financial risk management objectives and policies *(continued)*

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate bank deposits and cash flow interest rate risk in relation to variable-rate bank loan and bank balances. The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise. The Group's interest rate profile as monitored by management is set out below.

	2016 Weighted average effective interest rate %	**HK$'000**	2015 Weighted average effective interest rate %	HK$'000
Variable rate:				
Bank balance	**1**	**226,314**	1	4,252

Sensitivity analysis

The loans to independent third parties of the Group and the corporate bond issued, which are fixed rate instruments, are insensitive to any change in interest rates. A change in interest rates at the end of the reporting period would not affect profit or loss.

At 31 March 2016, it is estimated that a general increase/decrease of 100 basis points in interest rates for variable-rate bank balances and bank loan, with all other variables held constant, would decrease/increase the Group's loss after taxation and accumulated losses by approximately HK$2,263,000 (2015: HK$43,000). Other components of consolidated equity would not change in response to the general increase/decrease in interest rates.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for financial instruments in existence at that date. The 100 basis point increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the end of the next annual reporting period. The analysis is performed on the same basis for 2015.

6. FINANCIAL INSTRUMENTS *(continued)*

Financial risk management objectives and policies *(continued)*

Foreign currency risk

The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and bank balances and cash that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transaction relate. The currencies giving rise to this risk are primarily HK$, Renminbi ("RMB"), United States dollar ("USD") and Canadian dollar ("CAD").

Certain bank balances and cash are denominated in RMB, USD and CAD. The conversion of RMB into other currencies is subject to the rules and regulations of foreign exchange control promulgated by the government of the PRC. The Group is exposed to foreign exchange risk in respect of exchange fluctuation of HK$ against RMB, USD and CAD. The Group currently does not have a foreign currency hedging policy in respect of foreign currency assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

Sensitivity analysis

The carrying amounts of the Group's foreign currency denominated monetary assets at the end of the reporting period are as follows:

	Assets	
	2016	2015
	HK$'000	HK$'000
RMB	**3,475**	620
USD	**4,680**	391

Financial risk management objectives and policies *(continued)*

Foreign currency risk *(continued)*

Sensitivity analysis *(continued)*

The following table details the Group's sensitivity to a 5% increase and decrease in the HK$ against the relevant foreign currencies. As HK$ are pegged to USD, it is assumed that there would be no material currency risk exposure between these two currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes outstanding foreign currency denominated monetary items, and adjusts their translation at the period end for a 5% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number below indicates an increase in profit where the relevant currencies strengthen 5% against HK$. For a 5% weakening of the relevant currencies against HK$, there would be an equal and opposite impact on the profit and the balances below would be negative.

	Profit/(loss)	
	2016	2015
	HK$'000	HK$'000
Impact of RMB	**174**	31
Impact of USD	**234**	19

The Group's sensitivity to foreign currency has decreased during the current year mainly due to the decrease in non-functional currency denominated monetary net assets.

7. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal to the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account of their estimated residual value. The determination of the useful lives and residual values involve management's estimation. The Group assesses annually the residual value and the useful life of property, plant and equipment and if the expectation differs from the original estimate, such a difference may impact the depreciation in the year and in the future period.

Impairment of property, plant and equipment

The recoverable amount of an asset is the greater of its net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset, which requires significant judgement relating to level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or reversal of impairment in future periods.

Fair value of investment properties

As described in note 20, investment properties are stated at fair value based on the valuation performed by independent professional valuers. In determining the fair value of the investment properties, the valuers have based on method of valuation which involves certain assumptions and estimates that reflect comparable market transactions assuming that the Group sells the properties on the market in their existing state by making reference to comparable sales evidences as available in the relevant market. In relying on the valuation report, the management has exercised their judgement and is satisfied that the method valuation is reflective of the current market conditions. Should there be any changes in assumptions due to change of market conditions, the fair value of the investment properties will change in future.

7. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(continued)*

Classification of assets and liabilities as disposal group held for sale and discontinued operations

On 13 March 2015, the Group entered into a disposal agreement with a purchaser to dispose of the entire registered capital of Jia Tai Hua Digital Technology (Tianjin) Company Limited*(嘉鈦華數碼科技(天津)有限公司) ("Jia Tai Hua"), a wholly-owned subsidiary of the Company, which carried out the Group's MIDS operations.

On 26 March 2015, the Group entered into a disposal agreement with a purchaser to dispose of the entire registered capital of Tianjin Yi Chen Electronic Technology Company Limited* (天津市逸晨電子科技有限公司) ("Yi Chen"), a wholly-owned subsidiary of the Company, which carried out the Group's MIDS operations.

On 23 March 2015, the Group entered into a disposal agreement with a purchaser to dispose of the entire registered capital of Guangzhou Xun Zhi Tong Information Technology Company Limited* (廣州迅置通信息科技有限公司) ("Guangzhou Xun Zhi Tong"), a wholly-owned subsidiary of the Company, which carried out all of the Group's project management services operations.

These transactions have not yet been completed at the date of the annual report.

The Group follows the guidance of HKFRS 5 to classify the assets and liabilities of Jia Tai Hua and Yi Chen as disposal group held for sale and discontinued operations, and Guangzhou Xun Zhi Tong as disposal group held for sale. The determination requires significant judgement, the Group considers that (i) the assets (or disposal) group are available for immediate sale in its present condition and the sale is highly probable given the proposed disposal has been approved and committed by the Group and a disposal agreement has been entered; (ii) the disposal would be completed within twelve months after the end of the reporting period; and (iii) the carrying amount would be recovered principally through a sale transaction rather than through continuing use.

If any of the circumstances mentioned above about the classification as disposal group held for sale or discontinued operations is no longer satisfied, the assets and liabilities of Jia Tai Hua and Yi Chen shall be derecognised as assets and liabilities of disposal group held for sale and discontinued operations, and Guangzhou Xun Zhi Tong shall be derecognised as assets and liabilities held for sale. The depreciation of property, plant and equipment and amortisation of intangible assets shall be resumed upon the date of reclassification to continuing operations.

7. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(continued)*

Impairment of trade and other receivables

The Group's management determines impairment of trade and other receivables on a regular basis. The estimate is based on the credit history of its customers and current market conditions. The management of the Group has reassessed the impairment of trade receivables at the end of the reporting period.

Impairment of goodwill and intangible assets

Determining whether goodwill and intangible assets are impaired requires an estimation of the value in use of the cash-generating units to which goodwill and intangible assets have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating units and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

Income tax

Certain treatments adopted by the Company in its tax returns in the past years are yet to be finalised with the Hong Kong Inland Revenue Department and other jurisdiction. In assessing the Company's income tax and deferred tax during the current year, the Company has followed the tax treatments it has adopted in those tax returns, which may be different from the final outcome in due course.

8. REVENUE

Revenue represents the net amounts received and receivables from goods sold and rendering of services by the Group to customers, after allowances for returns and trade discounts where applicable and services rendered.

10. SEGMENT INFORMATION

The Group manages its businesses by divisions, which are organised by a mixture of both business lines (products and services) and geographical locations. During the year ended 31 March 2016, the Group commenced to engage in a new segment, financial leasing and other financial services. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has presented the following five reportable segments. No operating segments have been aggregated to form the following reportable segments.

(i) Consultancy services: Provision of consultancy and advisory services to entities in relation to the rechargeable stored value subscriber identity module ("SIM") card business in Hong Kong.

(ii) Advertising and media related services: Engaged in designing, production, acting as agency and placement of advertisements, information consulting and marketing planning in the PRC.

(iii) Project management services: Provision of PRC project management services to entities in relation to the operation and monitoring of radio-frequency identification ("RFID") card system.

(iv) Travel agency and related operations: Rendering travel agency services related to air ticketing and air/hotel packages in Hong Kong.

(v) Financial leasing and other financial services: Provision of financial leasing and other financial services in the PRC.

Two operations (property investments and decoration and interior design services) were discontinued during the year ended 31 March 2016, whereas two operations of MIDS and securities broking services were discontinued during the year ended 31 March 2015.

10. SEGMENT INFORMATION *(continued)*

For the purposes of assessing segment performances and allocating resources between segments, the Group's senior executive management monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment revenue and results *(continued)*

The accounting policies of the reportable segments are the same as the Group's accounting policies as described in note 4. Segment results represent the profit/(loss) earned/(suffered) by each segment without allocation of central administration cost including directors' remuneration, other income and gains, finance costs and income tax expense. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

The calculation of the basic and diluted loss per share attributable to owners of the Company is based on the following data:

From continuing and discontinued operations

	2016	2015
	HK$'000	HK$'000
		(Restated)
Loss		
Loss attributable to owners of the Company for the purposes of basic and diluted loss per share	**(65,349)**	(155,627)

		(Restated)
Number of shares		
Weighted average number of ordinary shares for the purpose of basic and diluted loss per share	**821,031,863**	645,614,236

The computation of diluted loss per share does not assume the exercise of the Company's outstanding share options since the exercise would result in a decrease in loss per share in both years.

Number of shares		
Weighted average number of ordinary shares for the purpose of basic and diluted loss per share	**821,031,863**	645,614,236

From discontinued operations

Basic and diluted loss per share for the discontinued operation is HK0.21 cents per share (2015: HK11.74 cents per share), based on the loss for the year from the discontinued operations of approximately HK$1,751,000 (2015: HK$75,755,000).

The weighted average number of ordinary shares for the year ended 31 March 2015 for the purposes of calculating basic and diluted loss per share have been adjusted and restated for the issuance of new shares upon open offer which took place on 9 December 2015.

The denominators used are the same as those detailed above for both basic and dilutive loss per share.

The investment properties was revalued at 31 March 2015 on the basis of a valuation carried out on that date by Peak Vision Appraisals Limited ("Peak Vision"), an independent qualified professional valuers not connected to the Group. Peak Vision is a member of The Hong Kong Institute of Surveyors and has appropriate qualifications and recent experiences in the valuation of similar properties in the relevant locations. The valuation was arrived at by reference to market evidence of transaction prices for similar properties.

All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purpose are measured using the fair value model and are classified and accounted for as investment properties.

The fair value of investment properties located in Canada is determined using market comparison approach by reference to recent sales price of comparable properties on a price per square foot basis using market data which is publicly available.

Fair value adjustment of investment properties is recognised in the consolidated statement of profit or loss. All gains recognised in the consolidated profit or loss for the year are arisen from the property held at the end of the reporting period.

On 29 November 2015, the Group disposed of the entire investment properties by selling the entire issued share capital of Grandeur Concord to an independent third party (note 33(c)).

The carrying amount of investment properties shown above comprises:

	2016 HK$'000	2015 HK$'000

20. INVESTMENT PROPERTIES *(continued)*

The Group leases out investment properties under operating leases. The leases typically run for an initial period from two to five years, with an option to renew the lease after that date at which time all terms are renegotiated. Lease payment are usually increased every five years to reflect market rentals. None of the leases includes contingent rentals.

All properties held under operating leases that would otherwise meet the definition of investment properties are classified as investment properties.

Details of the Group's investment properties and information about the fair value hierarchy at 31 March 2015 are as follows:

	Level 1	Level 2	Level 3	Total
At 31 March 2015				
Investment properties:				
– Located outside Hong Kong	–	21,406	–	21,406

During the years ended 31 March 2016 and 2015, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3. The Group's policy is to recognise transfers between levels of fair value hierarchy at the end of the reporting period in which they occur.

There had been no change on the valuation techniques in the current year. In evaluating the fair value of the investment properties, the highest and best use of the properties is the current use.

21. GOODWILL

Impairment test of goodwill *(continued)*

Advertising and media related services

There are two cash-generating units, Keen Renown Group and Shanghai Si Xuan, which were acquired through acquisition of subsidiaries during the previous years, and are the main operating entities with the segment "advertising and media related services" identified by the Group.

The recoverable amount of the goodwill allocated to advertising and media related services are determined based on the value-in-use using the present value of cash flows taking into account the expected operating synergy and profitability and growth of businesses arising from Keen Renown Group and Shanghai Si Xuan.

Keen Renown Group

The cash flow projections are based on financial budgets approved by management covering a 5-year period and assumed growth rates are used to extrapolate the cash flows in the following years. The financial budgets are prepared based on a 5-year business plan which is appropriate after considering the sustainability of business growth, stability of core business developments, long term economic cycle and achievement of business targets. All cash flow are discounted at pre-tax discount rates of 18% (2015: 15%) under baseline and stressed scenarios respectively. Management's financial model assumes an average growth rate of 3% (2015: 3%) per annum beyond the 5-year period taking into account long term gross domestic product growth and other relevant economic factors. The discount rates used are based on the rates which reflect specific risks relating to the cash-generating units.

No impairment loss has been recognised in respect of goodwill related to cash-generating unit of Keen Renown Group for the year ended 31 March 2016 (2015: Nil) as its recoverable amount exceeds the carrying amount.

The directors of the Company believe that any reasonably possible change in the other key assumptions on which the recoverable amount is based would not cause the cash generating unit's carrying amount to exceed its recoverable amount.

Shanghai Si Xuan

As the mobile data services have become more available and affordable in Asia-Pacific countries, tourists visiting foreign countries can access travel information right from their finger tips and the reliance on printed media have gradually reduced in past years, evident by the closure of several printed media and periodicals with a long history ceasing to circulate physical copies. Due to the decrease in market demand and dissatisfying operating results of Shanghai Si Xuan, an impairment loss of goodwill of approximately HK$15,225,000 (2015: HK$14,802,000) was recognised in the consolidated statement of profit or loss during the year ended 31 March 2016 and the goodwill has been fully impaired.

22. INTANGIBLE ASSETS *(continued)*

The master services agreement, co-operation agreement and strategic co-operation agreement, licensing agreement, consultancy agreement and project management services agreement were purchased through acquisition of subsidiaries with finite useful life.

The following estimated useful lives are used in the calculation of amortisation:

Master services agreement	15 years
Co-operation agreement and strategic co-operation agreement	10 years
Licensing agreement	15 years
Consultancy agreement	5 years
Project management services agreement	8 years
Computer software	5 years

The intangible assets will be tested for impairment whenever is an indication that they may be impaired. The particulars of impairment testing are disclosed as follows:

Impairment test of master services agreement

The master services agreement refers to the provision of MIDS which relates to healthcare information system and custom built Wi-Fi/RFID identification application system to healthcare sector in the PRC. For the purpose of impairment testing, the carrying amount of the master services agreement is allocated to an individual cash-generating unit.

During the year ended 31 March 2015, to ensure information security requirements are being complied with, some electronic computer equipment manufactured by international renowned companies are no longer on the list of approved equipment available for procurement by the PRC authorities. While these tightened policies and measures are essential from the national security prospective, the provision of healthcare information systems by foreign companies are practically cannibalised. Given that further development in this business is no longer viable and the MIDS segment and the Group is in the process of disposing the operating companies in the PRC. The directors of the Company have assessed the recoverable amount of the master services agreement and are of the opinion that the master services agreement will no longer generate any income in the future and an impairment loss of HK$38,475,000 was recognised in the consolidated statement of profit or loss during the year ended 31 March 2015. The carrying amount of the master services agreement has reduced to its recoverable amount.

22. INTANGIBLE ASSETS *(continued)*

Impairment test of co-operation agreement and strategic co-operation agreement

The co-operation agreement and strategic co-operation agreement refers to the provision of MIDS which relate to marketing and custom-built the regional healthcare information collaboration platform to healthcare sector in the PRC. For the purpose of impairment testing, the carrying amount of the co-operation agreement and strategic co-operation agreement is allocated to an individual cash-generating unit.

During the year ended 31 March 2015, to ensure information security requirements are being complied with, some electronic computer equipment manufactured by international renowned companies are no longer on the list of approved equipment available for procurement by the PRC authorities. While these tightened policies and measures are essential from the national security prospective, the provision of healthcare information systems by foreign companies are practically cannibalised. Given that further development in this business is no longer viable and the MIDS segment and the Group is in the process of disposing the operating companies in the PRC. The directors of the Company have assessed the recoverable amount of the co-operation agreement and strategic co-operation agreement and are of the opinion that the co-operation agreement and strategic co-operation agreement will no longer generate any income in the future and an impairment loss of HK$17,366,000 was recognised in the consolidated statement of profit or loss during the year ended 31 March 2015. The carrying amount of the co-operation agreement and strategic co-operation agreement has reduced to its recoverable amount.

Impairment test of licensing agreement

The licensing agreement refers to the provision of MIDS which relate to the exclusive license for the Group to use and sub-license certain hospital information system software in the PRC in particular to PACS. For the purpose of impairment testing, the carrying amount of the licensing agreement is allocated to an individual cash-generating unit.

During the year ended 31 March 2015, to ensure information security requirements are being complied with, some electronic computer equipment manufactured by international renowned companies are no longer on the list of approved equipment available for procurement by the PRC authorities. While these tightened policies and measures are essential from the national security prospective, the provision of healthcare information systems by foreign companies are practically cannibalised. Given that further development in this business is no longer viable and the MIDS segment and the Group is in the process of disposing the operating companies in the PRC. The directors of the Company have assessed the recoverable amount of the licensing agreement and are of the opinion that the licensing agreement will no longer generate any income in the future and an impairment loss of HK$9,639,000 was recognised in the consolidated statement of profit or loss during the year ended 31 March 2015. The carrying amount of the licensing agreement has reduced to its recoverable amount.

22. INTANGIBLE ASSETS *(continued)*

Impairment test of consultancy agreement

The consultancy agreement to the provision of consultancy services which relate to provision of consultancy and advisory services to entities in relation to the rechargeable stored value SIM card business in Hong Kong. For the purpose of impairment testing, the carrying amount of the consultancy agreement is allocated to an individual cash-generating unit.

During the year ended 31 March 2015, the Group carried out a review of the recoverable amount of the consultancy agreement. As the result of the continuous losses suffered by the consultancy services segment, the recoverable amount of the consultancy agreement at 31 March 2015 was calculated to be lower than its carrying amount and accordingly, impairment losses of HK$2,953,000 was recognised in the consolidated statement of profit or loss for the year ended 31 March 2015.

The recoverable amount of the consultancy agreement was accessed by the director of the Company with reference to the valuation carried out by an independent firm of valuers, Peak Vision at 31 March 2015. The valuation was appraised on the value-in-use basis. The key assumptions for the value-in-use calculation are those regarding the discount rate and budgeted gross margin and revenue during the period. The Group estimates discount rate using the rate that reflects current market assessments of the time value of money and the risks specific to the consultancy agreement associated with the consultancy services business. Budgeted gross margin and revenue are based on past practices and expectations in the consultancy agreement associated with the consultancy services industry.

At 31 March 2015, the Group has prepared 1-year cash flow forecast derived from the most recent financial budget of the co-operation agreement and strategic co-operation agreement approved by the directors of the Company using a discount rate of 19.27% per annum.

During the year ended 31 March 2015, as the cash-generating unit in which the consultancy agreement is allocated has been reduced to its recoverable amount of HK$2,147,000, any adverse change in the assumptions used in the calculation of recoverable amount would result in further impairment losses.

Impairment test of project management agreement

The project management agreement to the provision of PRC project management services to entities in relation to the operation and monitoring of RFID card system. For the purpose of impairment testing, the carrying amount of the project management agreement is allocated to an individual cash-generating unit.

During the year ended 31 March 2016, the directors of the Company have assessed the recoverable amount of the project management agreement and are of the opinion that the project management agreement will no longer generate any income in the future. As a result of the continuous losses suffered by the project management services segment, an impairment losses of HK$4,335,000 was recognised in the consolidated statement of profit or loss for the year ended 31 March 2016 and thus the project management agreement has been fully impaired.

– Equity securities incorporated in Hong Kong	–	–

Note:

Unlisted equity securities issued by private entities classified as AFS investments are stated at cost less impairment loss at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors of the Company consider that their fair values cannot be measured reliably.

During the year ended 31 March 2015, the directors of the Company have determined that an impairment loss of HK$6,000,000 was recognised in the consolidated statement of profit or loss as the AFS investments are not expected to generate positive income in the future. Therefore, the carrying amounts of the AFS investments have been reduced to their recoverable amounts.

(i) At 31 March 2013, included in other receivables of RMB10,000,000 (approximately HK$12,506,000), represented a deposit paid by a wholly-owned subsidiary of the Keen Renown Group ("Subsidiary") to Ms. Kang Qian, a former shareholder of Subsidiary, for the purpose of acquiring 50% share capital of a target company at a consideration of RMB40,000,000. The acquisition was terminated on 13 September 2012, and accordingly, the deposit was reclassified as other receivables. The amount has been fully settled during the year ended 31 March 2016.

(ii) During the year ended 31 March 2013, the Group entered into a conditional agreement with Mr. Lui, the former executive director and chief executive officer of the Company to further acquire 40% of the issued share capital of Keen Renown Group at a consideration of HK$22,000,000, in which HK$17,000,000 (the "Indebtedness") had been paid to Mr. Lui as deposit and payment of the consideration. The possible acquisition was lapsed during the year ended 31 March 2014, and accordingly, the deposit for investment was reclassified as other receivables. Details of the transaction are set out in the Company's announcement dated 1 April 2014. During the year ended 31 March 2015, among the Group, Mr. Lui and an independent third party entered into a deed of assignment and novation, pursuant to which, Mr. Lui assigned to the independent third party all its rights, liabilities, obligation titles, benefits and interests in the Indebtedness and to hold the same unto the Group absolutely. At 31 March 2016, the outstanding balance was HK$11,000,000 (2015: HK$17,000,000) and approximately HK$10,600,000 has been settled subsequent to the date of reporting period.

(iii) During the year ended 31 March 2014, the Group entered into a letter of intent with a vendor, an independent third party, for acquiring an associate company of the vendor. Pursuant to the letter of intent, the Group paid RMB9,700,000 as a refundable acquisition earnest money to the vendor. The vendor was unable to fulfil the conditions stated in the letter of intent and the proposed acquisition lapsed during the year ended 31 March 2014, and accordingly, the refundable acquisition earnest money was classified as other receivables. At 31 March 2015, the outstanding balance of the refundable acquisition earnest money was approximately HK$3,383,000 (equivalent to approximately RMB2,705,000). The amount has been fully settled during the year ended 31 March 2016.

(iv) During the year ended 31 March 2013, the Group entered into a memorandum with a vendor, who is an independent third party, for granting of priority right of management of two power plants to the Group. A sum of HK$3,000,000 was deposited to the vendor as a security deposit. The priority right expired on 31 December 2013 and extended to 31 December 2014. The acquisition was terminated on 31 December 2014, and accordingly, the deposit was reclassified as other receivables at 31 March 2015. The deposit is interest free and guaranteed by the vendor. The amount has been fully settled during the year ended 31 March 2016.

Notes: *(continued)*

(d) The other receivables mainly consist of the followings: *(continued)*

(v) During the year ended 31 March 2014, the Group entered into a memorandum with a vendor, an independent third party, for acquiring a percentage of the issued share capital of a power producer company and a security and refundable deposit of HK$9,000,000 was paid to the vendor. The Group further entered into two supplemental memorandums with the vendor. Pursuant to the supplemental memorandums, Activemix Limited ("Activemix") deposited a sum of HK$9,000,000 to the vendor as security and refundable deposit. The acquisition was terminated on 30 September 2014, and accordingly, the deposit was reclassified as other receivables. At 31 March 2016, the outstanding balance was HK$8,820,000 (2015: HK$18,000,000) and the amount has been fully settled subsequent to the date of reporting period.

(vi) Included in the other receivables were amounts of HK$14,000,000 and approximately HK$6,965,000, representing the deferred consideration for disposal of the Joint Vision Investments Limited and its subsidiaries ("Joint Vision Group") and the unsettled debt borne by the purchaser of the Joint Vision Group respectively (note 33(d)). The amounts were outstanding at 31 March 2016 and HK$1,000,000 has been settled subsequent to the date of reporting period.

(vii) Included in the other receivables was an amount of HK$12,100,000 of the deferred consideration for disposal of Innovate (note 33(f)). The amount was outstanding at 31 March 2016 and HK$2,000,000 has been settled subsequent to the date of reporting period.

(e) The loan receivables mainly consist of the followings:

(i) During the year ended 31 March 2015, the Company entered into two loan agreements with an independent third party (the "Borrower A"). Pursuant to each of the loan agreement, the Company agreed to grant a loan to Borrower A for the sum of HK$2,000,000 at an interest rate of 20% per annum unsecured, repayable within three months and six months from the date of the first drawdown of the loans respectively. At 31 March 2015, the Company granted a sum of HK$3,500,000 to Borrower A.

During the year ended 31 March 2016, the Company further granted a sum of HK$500,000 to Borrower A. On 15 March 2016, among the Group, Borrower A and an independent third party entered into a deed of assigment, pursuant to which, all the debts and obligations owed to the Company by Borrower A were transferred to and vested in the independent third party. The amount has been fully received subsequent to the date of reporting period.

(ii) During the year ended 31 March 2016, the Company entered into a loan agreement with an independent third party ("Borrower B"). Pursuant to the loan agreement, the Company agreed to grant a loan to Borrow B for the sum of HK$7,800,000 at an interest rate of 10% per annum unsecured, repayable within six months from the date of the first drawdown of the loan. During the year ended 31 March 2016, the Company granted a sum of HK$4,680,000 to Borrower B. The amount has been fully received subsequent to the date of reporting period.

25. FINANCE LEASE RECEIVABLES – NET

At 31 March 2016	–	–	–

Under the EIT Law of the PRC, withholding tax is imposed on dividends declared in respect of profit earned by the PRC subsidiaries from 1 January 2009 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to the profits earned by the PRC subsidiaries as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

At 31 March 2016, the Group has unused tax losses of approximately HK$112,435,000 (2015: HK$108,514,000) available for offset against future profits. No deferred tax asset has been recognised in respect of unused tax loss due to the unpredictability of future profit streams and in relation to deductible temporary difference as it is not probable taxable profit will be available against which the deductible temporary differences can be utilised. Tax losses are available indefinitely for offsetting future taxable profit of the companies in which the losses arose except for the tax losses arising in the PRC of approximately HK$59,850,000 (2015: HK$58,141,000).

35. COMMITMENTS

Operating lease commitments

As lessor

The Group leases its investment properties (note 20) under operating lease arrangements, with leases negotiated for terms ranging from 1 to 5 years. The terms of the leases generally also require the tenants to pay security deposits and provide for periodic rent adjustments according to the then prevailing market conditions. The investment property of the Group was held for rental purpose and generated rental yield of 7.8% for the year ended 31 March 2015.

At 31 March 2016 and 2015, the Group had total future minimum lease receivables under non-cancellable operating leases lad contracted with its tenants falling due as follows:

	2016	2015
	HK$'000	HK$'000
Within one year	–	991
In the second to fifth years, inclusive	–	294
	–	1,285

During the year ended 31 March 2016 and 2015, the Group did not recognise any contingent rentals receivables.

35. COMMITMENTS *(continued)*

Details of the transaction are set out in the Company's announcements dated 17 January 2014.

During the year ended 31 March 2016, the Group has completed the registration of a PRC company in relation to the provision of financial leasing services.

36. MATERIAL RELATED PARTY TRANSACTIONS

Save as disclosed elsewhere in the consolidated financial statements, the Group had the following material transactions with related parties:

During the year ended 31 March 2015, the Group, Mr. Lui and an independent third party of the Company entered into a deed of assignment and novation. Pursuant to which, Mr. Lui assigned the independent third party all its rights, liabilities, obligation titles, benefits and interest in the Indebtedness and to hold the same unto the Group absolutely.

Compensation to key management personnel

Compensation to directors of the Company and other members of key management personnel during the year is as follows:

	2016	2015
	HK$'000	HK$'000
Short-term benefits	**6,480**	8,050
Retirement scheme contribution	**18**	18
	6,498	8,068

The remuneration of directors of the Company and key executives is determined by the remuneration committee with due regard to the performance of individuals and market trends. Further details of directors' and the chief executive's emoluments are included in note 15 to the consolidated financial statements.

37. DEFINED BENEFIT PLANS

The Group operates a Mandatory Provident Fund Scheme ("MPF Scheme") for all qualifying employees. The assets of the MPF Scheme are held separately from those of the Group, in fund under the control of trustees. The Group contributes 5% of relevant payroll costs (limited to HK$30,000, HK$25,000 before 1 June 2014, per annum of each individual employee) to the MPF Scheme, which contribution is matched by employees.

The employees employed in the PRC subsidiaries are members of the state-managed retirement benefits schemes operated by the government of the PRC. The PRC subsidiaries are required to contribute to the retirement benefits schemes based on a certain percentage of their payroll to fund the benefits. The only obligation of the Group with respect to these retirement benefits schemes is to make the required contributions under the schemes.

Employees employed by the Group outside Hong Kong are covered by the appropriate local defined contribution schemes pursuant to the local labour rules and regulations.

38. SHARE OPTION SCHEME

Pursuant to a resolution passed at the annual general meeting of the Company held on 25 September 2012, a new share option scheme (the "New Share Option Scheme") was adopted by the Company.

The previous share option scheme of the Company (the "Old Share Option Scheme") was expired on 2 August 2012, no further options can be granted under the Old Share Option Scheme thereafter. All outstanding share option granted under the Old Share Option Scheme prior to the said expiry shall be lapsed in accordance with the provisions of the Old Share Option Scheme.

The major terms of the New Share Option Scheme are summarised as follows:

(a) The purpose of the New Share Option Scheme is to enable the Group to grant share options to selected participants as incentives or rewards for their contribution to the Group.

(b) The participants include:

(i) (1) any employee or proposed employee of the Company, any of its subsidiaries or any entity ("Invested Entity") in which the Group holds an equity interest, including any executive director of the Company, any of such subsidiaries or any Invested Entity;

(2) any non-executive director (including independent non-executive directors) of the Company, any of its subsidiaries or any Invested Entity;

(3) any supplier of goods or services to any member of the Group or any Invested Entity;

(4) any customer of the Group or any Invested Entity;

(5) any person or entity that provides research, development or other technological support to the Group or any Invested Entity;

(6) any shareholder of any member of the Group or any Invested Entity or any holder of any securities issued by any member of the Group or any Invested Entity; and

(7) any joint venture partner or counter-party to business transactions of the Group.

(ii) any company wholly owned by one or more persons belonging to any of the above classes of participants.

38. SHARE OPTION SCHEME *(continued)*

(c) The exercise price of a share option shall be a price determined by the directors and shall at least be the higher of:

   (i) the closing price of a share of the Company as stated in the Stock Exchange's daily quotations sheet on the date of grant, which must be a business day; and

   (ii) the average closing price of a share of the Company as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant.

(d) Maximum number of shares:

   (i) The total number of shares which may be issued upon exercise of all outstanding share options granted and yet to be exercised under the New Share Option Scheme and any other share option schemes of the Company must not exceed 30% of the shares in issue from time to time; and

   (ii) The total number of shares which may be issued upon exercise of all share options to be granted under the New Share Option Scheme and any other schemes must not in aggregate, exceed 10% of the shares in issue at the date of adoption of the New Share Option Scheme (the "Limit") provided that share options lapsed in accordance with the terms of the New Share Option Scheme will not be counted for the purpose of calculating the Limit.

(e) The total number of shares issued and to be issued upon the exercise of share options granted and to be granted to each participant (including both exercised and outstanding options) in any 12-month period up to and including the date of grant must not exceed 1% of the shares in issue.

(f) The exercisable period should be determined by the board of directors upon grant of the share option but in any event should not exceed 10 years from the date of grant of the share option.

At the end of the reporting period, the number of shares which may be issued upon exercise of share options granted and remain outstanding under the New Share Option Scheme was approximately 69,785,000 (2015: 55,760,000), representing 3% (2015: 9%) of shares of the Company in issue at that date. At 31 March 2016, 183,520,000 (2015: 120,960,000) share options were granted under the New Option Scheme since its adoption.

38. SHARE OPTION SCHEME *(continued)*

During the years ended 31 March 2016 and 2015 the Company's share options granted under the share option schemes are as follows:

The fair value of options granted under the New Share Option Scheme measured at the date of grant during the year ended 31 March 2016 was approximately HK$9,677,000. The following significant assumptions were used to derive the fair values using the Black-Scholes Option Pricing Model:

38. SHARE OPTION SCHEME *(continued)*

Date of grant	10 March 2016
Total number of share options	62,560,000
Option value	0.1547
Option life	3 year
Expected tenor	3 year
Exercise price	0.339
Stock price at the date of grant	0.335
Volatility	77.020%
Risk free rate	0.878%

For equity-settled share-based payments with parties other than employees, the Group has rebutted the presumption that the fair values of the services received can be estimated reliably. As in the opinion of the directors, the Group measured the services received from these parties and its fair value is approximate to the fair values of the share options granted using the trinomial option pricing model, at the date these parties rendered related services to the Group.

Expected volatility was determined by using the historical volatility of the Company's share price over certain historical periods. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

The Group recognised a total expense of approximately HK$9,677,000 for the year ended 31 March 2016 (2015: HK$11,529,000) in relation to share options granted by the Company.

Notes:

(a) These subsidiaries are wholly foreign-owned enterprises in the PRC.

(b) This subsidiary is a domestic enterprise with limited liability established in the PRC. The subsidiary is indirectly held by the Company through contractual arrangement by Kang Qian and Wang Weina who hold the interest in the subsidiary of 10% and 90% respectively. At 31 March 2015, the structured contracts for this subsidiary were unwired during the year ended 31 March 2015.

(c) This subsidiary is a domestic enterprise with limited liability established in the PRC. The subsidiary is indirectly held by the Company through contractual arrangement by Mr. Sun Yiqi who holds the interest in the subsidiary of 100%.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

None of the subsidiaries had any debt securities outstanding at the end of the reporting period or at any time during the year.

Under the current PRC regulations, the Group is not allowed to directly hold the equity interests in an advertising and media company. Foreign companies are allowed to acquire 100% equity interests in the advertising enterprise in the PRC in accordance with the provision of Regulations for Merger with and Acquisition of Domestic Enterprises by Foreign Investors and Regulations on the Administration of Foreign-funded Advertising Enterprises.

Hence, the contractual arrangement are designed to provide the Group with effective control over and the right to enjoy the economic benefits in and assets of Shanghai Si Xuan. Upon the contractual arrangement becoming effective, the Group is able to consolidate 100% of the interests in Shanghai Si Xuan by treating this company as indirectly wholly-owned subsidiary.
