Revenue has decreased by 10.6% attributable mainly to the lower contribution by approximately \$449,000 from the public sector and by approximately \$150,000 from the private sector. Several high value public sector contracts have contributed lower revenue as work volume has decreased in 2016.

The gross profit for the six months ended 30 June 2016 was approximately S\$2,576,000 (2015: approximately S\$2,457,000). The higher gross profit of S\$119,000 is due to the recognition of additional revenue for certain contract upon completion.

Other gains and losses included approximately \$245,000 relating to unrealized foreign exchange loss for cash and bank balances which are denominated in Hong Kong dollars.

Selling and administrative expenses for the six months ended 30 June 2016 was approximately S\$1,544,000, (2015: approximately S\$1,205,000) representing an increase of S\$339,000 or 28.1% mainly due to higher expenses incurred for higher staff cost and legal and professional fees.

Other expenses for the six months ended 30 June 2015 included approximately S\$1,035,000 listing expenses.

The Group recorded a profit before tax for the six months ended 30 June 2016 of approximately S\$796,000 (2015: approximately S\$323,000), representing an increase of S\$473,000 or 146.4% as compared with the corresponding period of last year. Excluding the listing expenses of approximately \$1,035,000, the net profit before tax for the six months ended 30 June 2015 would have been S\$1,358,000, representing a decrease of profit before tax of S\$562,000 or 41.4%. This is mainly due to higher selling and administrative expenses and the foreign exchange loss incurred.

## MANAGEMENT DISCUSSION AND ANALYSIS

Profit for the six months ended 30 June 2016 was approximately S\$572,000, representing an increase of S\$479,000 or 515.1% as compared with approximately S\$93,000 for the corresponding period in 2015.

### Liquidity and Financial Resources

The Group's exposure to liquidity risk arises in the general funding of the Group's operations, in particular, that the duration of the contracts span from 1 month to 4 years and during which the amount of progress claim vary from month to month depending on the provision of signage and related products for the month. The supply and installation schedule is as directed by the customer, in accordance with the main contractor's schedule. As such, the Group actively manage our customers' credit limits, aging, and repayment of retention monies and monitor the operating cash flows to ensure adequate working capital funds and repayment schedule is met.

For the period under review, the cash and cash equivalents of the Group has increased by approximately S\$1,460,000. This was mainly generated from the Group's operating activities.

As at 30 June 2016, the Group's borrowings comprised the obligations under finance lease of S\$162,000 (31 December 2015: approximately S\$210,000).

At 30 June 2016, the Group had cash and cash equivalents of approximately S\$11,299,000 (31 December 2015: approximately S\$9,839,000) which were placed with major banks in Singapore and Hong Kong.

### Foreign Exchange Exposure

The Group transacts mainly in Singapore dollars, which is the functional currency of the Group. However, the Group retains the proceeds from Placement in Hong Kong Dollars which contributed to an unrealised foreign exchange loss of approximately S\$245,000 as Hong Kong Dollars depreciated against the Singapore Dollars.

### Significant Investments Held, Material Acquisitions and Disposals of Subsidiaries, and Future Plans for Material Investments or Capital Assets

There were no significant investments held, nor were there any material acquisitions and disposals of subsidiaries during the period under review. There was no plan authorised by the Board for any material investments or additions of capital assets at the date of this interim report.

## MANAGEMENT DISCUSSION AND ANALYSIS

## **BUSINESS REVIEW**

Revenue comprised of revenue from the sales of signage and related products in both the public and private sectors in Singapore, which amounted to approximately S\$5,033,000 and S\$5,632,000 for the six months period ended 30 June 2016 and 2015, respectively.

Public sector includes road signage, education institutions, public housing flats/compounds, defence compound, airport and national parks, amongst others.

Private sector includes signage and related products for commercial buildings, industrial buildings, private residential buildings, hospital and fast food chains.

During the current financial period, the business revenue and net profit was approximately S\$5,033,000 and S\$572,000 respectively. The public sector revenue has decreased by S\$449,000 mainly due to the lower contribution of 2 significant contracts as work volume has decreased.

### **Prospects**

In the Group's last quarter announcement, the Group had announced that the Group was expecting to benefit from anticipated public sector demand based on the Building and Construction Authority's ("BCA") press release of 15 January 2016 projecting construction demand to be between S\$27 billion and S\$34 billion.

Based on the Group's observation of roll-out of public sector projects to date and with the Group being involved in the later stages of such projects when signage installation works are typically underway, the benefit that the Group was expecting from such demand may not materialise within the current year.

Having regard to the above, and with economic and construction industry environment continuing to be challenging coupled with overall slow-down in demand for the Group's services, the Group expects its revenue to continue on a decline.
