FIRST QUARTERLY REPORT

2016 / 2017 第一季度報告

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Bamboos Health Care Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND PROSPECTS

Our Group's principal activities are to provide customised healthcare staffing solution services to individuals and institutional clients in a timely manner as well as duty opportunities to self-employed healthcare personnel registered with us. In addition, we generate income from the provision of outreach case assessment related service, offering advertising service in our monthly magazine, BamBoOs! Life, as well as other activity initiatives.

For the three months ended 30 September 2016, the revenue of our Group increased to approximately HK\$14.6 million from HK\$12.1 million of the corresponding period in 2015, representing an increase of approximately 20.7%. Profit attributable to equity holders of our Company for the three months ended 30 September 2016 was approximately HK\$7.1 million, representing an increase of approximately 12.7% as compared with that of the corresponding period in 2015 (2015: HK\$6.3 million).

Our Group was awarded the "Best HK Healthcare Brand" in the Enterprising Hong Kong Brand Awards 2016, which was organised by South China Morning Post Publishers Limited in July 2016. We take pride in the award as it gives recognition to our efforts and strengthens our determination to continue to provide quality services and stand out among the competitors in the healthcare staffing solution service industry in Hong Kong.

Moving forward, our Group plans to further develop our case assessment related service and will continue our effort in expanding our healthcare personnel pool and enhancing our healthcare staffing solution services to our clients with an aim to maximize stakeholder and shareholder value.

As announced on 2 September 2016, our Company had submitted a formal application to the Stock Exchange of the proposed transfer of listing from GEM to the Main Board of the Stock Exchange. The application is currently under the vetting of the Stock Exchange. We hope the proposed transfer of listing, if approved by the Stock Exchange, will enhance the corporate profile of our Company and provide increased visibility and recognition of our Group. This will, in turn, enhance the business prospects of our Group and add to our competitive strength in attracting, retaining and augmenting our Group's qualified staff, healthcare personnel pool as well as client base.

FINANCIAL REVIEW

Revenue

The revenue of our Group for the three months ended 30 September 2016 was approximately HK\$14.6 million, representing an increase of approximately 20.7% as compared with that of approximately HK\$12.1 million for the three months ended 30 September 2015. The increase in revenue was mainly due to the increase of differential rate earned for an upward price adjustment exercise in August 2016 and the increase in demand for healthcare personnel placement from individual clients and hospitals, offset by the decrease in demand for healthcare personnel placement from social service organisations.

Other income

Other income mainly comprises i) advertising income and ii) others, representing the income from advertisements placed by advertisers in our BamBoOs! Life, a magazine edited and published by our Group for free distribution, and income from administration fee in relation to registration and application matters received from healthcare personnel and our clients respectively. Other income increased from approximately HK\$0.5 million for the three months ended 30 September 2015 to approximately HK\$1.0 million for the three months ended 30 September 2016. The increase was mainly resulted from the increase in advertising income, which was mainly due to the marketing effort in promoting the magazine, and increase in administration fee, offset by decrease in income generated from sales of goods.

Expenses

Our employee benefit expenses increased from approximately HK\$3.0 million for the three months ended 30 September 2015 to approximately HK\$3.6 million for the three months ended 30 September 2016, which was mainly attributable to the increase in average number of employees in the three months ended 30 September 2016 compared to the same period in 2015 and general increment in salary paid to our employees.

Other operating expenses increased from approximately HK\$1.8 million for the three months ended 30 September 2015 to approximately HK\$2.9 million for the three months ended 30 September 2016, which was mainly resulted from the increase in professional fees for the preparation of the transfer of listing of the shares of our Company from the GEM to the Main Board of the Stock Exchange, which were recognised in the three months ended 30 September 2016 but were non-recurring.

Net finance income

Net finance income represented the interest income on short-term bank deposits offset by interest expenses on bank borrowings. Net finance income was approximately HK\$26,000 for the three months ended 30 September 2016, which decreased from approximately HK\$44,000 for the three months ended 30 September 2015. The decrease is mainly due to the decrease in bank deposit interest income for shorter time deposit period with lower interest rate was placed during the three months ended 30 September 2016 than the corresponding period in 2015.

Income tax expense

Income tax expense amounted to approximately HK\$1.7 million for the three months ended 30 September 2016, representing an increase of approximately 30.8% as compared with that of approximately HK\$1.3 million for the three months ended 30 September 2015. The increase was mainly attributable to the increase in profit before income tax resulted from operating performance. The Group's effective tax rate increased from approximately 17.3% for the three months ended 30 September 2015 to approximately 19.1% for the three months ended 30 September 2016.

Profit for the period attributable to equity holders of the Company

Profit attributable to equity holders of the Company amounted to approximately HK\$7.1 million for the three months ended 30 September 2016, representing an increase of approximately 12.7% as compared with that of approximately HK\$6.3 million for the three months ended 30 September 2015, which was mainly resulted from the operating performance as analysed above.

LIQUIDITY, FINANCIAL RESOURCES AND FUNDING

Our Group remained in a healthy and sound liquidity position as at 30 September 2016. Our working capital needs and other capital requirements have been met through a combination of shareholders' equity and cash generated from operations. Going forward, we intend to finance our future operations and capital expenditures with cash flow from operating activities and the net proceeds from the listing by way of the placing of a total of 100,000,000 new shares in our Company at the placing price of HK\$0.5 each. Our primary uses of cash have been and are expected to continue to be operating costs and capital expenditure.
