CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Chairman's Statement and Management Discussion and Analysis

I am pleased to report the activities of South China Assets Holdings Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31 December 2016.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL SUMMARY AND KEY PERFORMANCE INDICATORS

The Group recorded revenue and loss attributable to the equity holders of the Company, both being the financial key performance indicators, for the year ended 31 December 2016 of HK\$5.5 million (2015: HK\$0.6 million) and HK\$292.6 million (2015: a profit of HK\$48.1 million), respectively. The loss attributable to the equity holders of the Company for the year ended 31 December 2016 primarily resulted from the release of available-for-sale financial assets revaluation reserve into income statement upon distribution of redeemable convertible preference shares of a related company ("RCPS"), decrease of the fair value gain on redemption option embedded in the RCPS, loss on disposal of available-for-sale financial assets on redemption of the RCPS, increase in administrative and other operating expenses and finance costs. Loss per share attributable to equity holders of the Company for the year was HK2.66 cent (2015: Earnings per share of HK0.44 cent).

Excluding non-operating and one-off items (being losses arising from, among other things, disposal and derecognition of available-for-sale financial assets, fair value gain on financial assets and redemption option embedded in RCPS, impairment loss on properties under development and gain on disposal of subsidiaries), adjusted operating loss of the Group for the year was HK\$35.5 million as compared to a loss of HK\$22.2 million in 2015.

FINANCIAL REVIEW

In 2015, the Group acquired companies engaged in provision of investment advisory and asset management services and money lending business. The new money lending business acquired in November 2015 has started to generate revenue for the Group in the year under review. The property development segment did not record any revenue in both 2016 and 2015 as the property development projects on hand were still at the development stage.

In 2016, the fair value gain on redemption option embedded in the RCPS was HK\$14.9 million (2015: HK\$85.3 million). The change in fair value gain mainly resulted from the movements in various parameters including share price of South China Holdings Company Limited ("SCHC"). Also, as detailed in the joint announcement of the Company and SCHC dated 29 July 2016 and in the circular of the Company dated 31 August 2016, the Company declared and settled a special dividend by distribution of an aggregate of 2,235,406,996 RCPS, which incurred an one-off loss of HK\$233.4 million in the year under review.

Administrative and other operating expenses and finance costs amounted to HK\$41.2 million (2015: HK\$22.8 million) and HK\$26.6 million (2015: HK\$1.3 million) respectively for the year under review. The increase mainly resulted from the effect of non-capitalisation of such expenses in properties under development after the disposal of subsidiaries as set out in the joint announcement of the Company and SCHC dated 7 October 2015.

BUSINESS REVIEW

The principal businesses of the Group include financial services and property development.

(a) Financial Services

South China Asset Management Limited (“SCA”), a licensed corporation holding the licenses for type 4 (advising on securities) and type 9 (asset management) regulated activities under the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong), was acquired from South China Financial Holdings Limited (“SCF”) in September 2015. SCA is currently working on product and channel development, and has not recorded any revenue in the year under review.

In November 2015, the Group acquired a company engaged in money lending business, South China Financial Credits Limited (“SCFC”), from SCF. SCFC is governed by the Hong Kong Money Lender Ordinance (Chapter 163 of the Laws of Hong Kong) with business scope encompassing unsecured personal loans, tax loans, small business loans, specialised lending and debt consolidation. The loan portfolio of the money lending business amounted to HK\$10.0 million as at 31 December 2016.

In furthering the Group’s strategy to build up an “one-stop financial services center” to offer customers with a diverse range of financial services, the Group has applied and the Securities and Futures Commission (“SFC”) has approved the application for corporate license to carry out regulated activities in dealing in securities in October 2016. The Group is currently working on its products development, and has not recorded any revenue in the year under review.

The directors considered that the key risk exposures of our investment advisory and asset management business and money lending business are market risk, credit risk and the need to maintain sufficient liquidity to satisfy regulatory capital requirements and working capital needs. The Group does not take trade positions which expose it to material price risk or foreign exchange risk.

The Group’s risk management objectives are therefore to minimise the key financial risks through clearly defined terms of business with customers, stringent investment and credit control over transactions with them, and regular monitoring of cash flow and management accounts to ensure that the relevant regulated entities comply with the regulatory capital requirements and the financial services operations maintain adequate working capital.

Chairman's Statement and Management Discussion and Analysis

(b) Property development

(i) Shenyang, Liaoning Province

Under the development plan of the Huanggu District (皇姑區) property development project, the Huanggu District (皇姑區) property development project has a site area of approximately 67,000 square metres. A mixed development which comprises commercial/retail, residential and office/hotel will be built. According to the Auction Confirmation Letter (掛牌交易成交確認書) (the "Auction Confirmation Letter"), the consideration for the land use rights is RMB1,176.8 million. As of today, RMB235.4 million land premium has been paid.

Since the site demolition work and occupants relocation have not been carried out by the government, the government is not in a position to deliver vacant possession of the site to a subsidiary of the Company. Regarding payment of compensation, the Company and the subsidiary of the Company has commenced legal proceedings against Shenyang City Huanggu Region Construction Administration Bureau (沈陽市皇姑區城市建設局) and Shenyang Land Reserve & Exchange Centre (沈陽市土地交易中心) (collectively referred as the "Shenyang Bureau") in the Liaoning High People's Court (遼寧省高級人民法院) for damages and other reliefs. Meanwhile, management has been negotiating with the government for refund of the RMB235.4 million land premium paid.

On 4 May 2016, Liaoning High People's Court (遼寧省高級人民法院) ruled in our favor that the Shenyang Bureau is required to pay to the Company's subsidiary the interests on the land premium paid by the Company, which are to be calculated from 3 March 2010.

On 23 May 2016, the Shenyang Bureau appealed to the Supreme People's Court of The People's Republic of China (中華人民共和國最高人民法院).

On 2 March 2017, the Supreme People's Court of The People's Republic of China has ruled in our favor, being the same as the ruling on 4 May 2016, that the Shenyang Bureau is required to pay to the Company's subsidiary the interests on the land premium paid by the Company, which are to be calculated from 3 March 2010.

(ii) Cangzhou, Hebei Province

The Huanghua New City (黃驊新城) property development project, with a site area of 32,336 square metres, is a commercial/retail development to provide shopping mall, entertainment, dining and recreational facilities with a total GFA of approximately 45,000 square metres. The consideration for the land use rights is RMB15.3 million. The Group has obtained the Stateowned Land Use Right Certificate (國有土地使用證), the Land Use Permit (建設用地規劃許可證) and the Construction Planning Permit (建設工程規劃許可證) for the project. Main contract work is expected to commence upon the issuance of the Construction Permit (建設工程施工許可證).

In February 2014, the Group won a bid at the tender for the acquisition of the land adjacent to the then existing Huanghua New City property development project with a site area of 32,921 square metres and allowable GFA of approximately 99,000 square metres. The consideration for the land acquisition, which amounted to RMB15.5 million, has been paid fully. This newly acquired land, being the second phase of the Huanghua New City property development project, will provide further commercial/retail/office/hotel facilities.

Chairman's Statement and Management Discussion and Analysis

The existing property portfolio of the Group is located in the PRC and is therefore subject to the risks associated with the PRC property market. Our property development operations in the PRC may also be exposed to the risks of policy change, interest rate change, demand-supply imbalance, and the overall economic conditions, which may pose an adverse impact on the Group's business, financial condition or results of operations. To mitigate the abovementioned risks, the Group will monitor such exposures closely with a view to reacting timely to any change.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2016, the Group had a current ratio of 2.0 (2015: 1.7) and a gearing ratio of 4.7% (2015: 0.3%). The increase in gearing ratio was due to both increase in interest-bearing bank borrowing and disposal of available-for-sale financial assets as special dividend as detailed above; despite the increase the gearing ratio is considered at a healthy level.

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES AND ASSOCIATES

During the year ended 31 December 2016, the Group did not make any material acquisition and disposal of subsidiaries and associates.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND RELATED HEDGES

As at 31 December 2016, the Group had no significant exposure to fluctuations in foreign exchange rates and any related hedges.

PLEDGE OF ASSETS AND CONTINGENT LIABILITIES

As at 31 December 2016, the Group had no pledge of assets and contingent liabilities.

EMPLOYEES

As at 31 December 2016, the total number of employees of the Group was 7 (2015: 40). Employees' cost (including Directors' emoluments) amounted to HK\$22.7 million for the year (2015: HK\$49.9 million).

In addition to salary, other fringe benefits such as medical subsidies, life insurance and provident fund are offered to all employees of the Group. Performance of the employees is normally reviewed on an annual basis with adjustment compatible to the market. Individual employees may also receive a discretionary bonus at the end of each year based on performance. Employees may also be granted share options and share awards under the share option scheme and the employee's share award scheme adopted by the Company on 8 May 2012 and 18 March 2011 respectively.

PROSPECTS

Management reviewed the business of the Group in 2016, and was of the view that it is in the best interest of the Group to continue consolidate its existing property development business and diversify into new business in the financial services sector which is able to produce steady income stream given the existing market conditions and the resources available.

The year of 2017 will be another challenging year given the dynamic changes in both macroeconomic environment and policy changes in the PRC. Despite the challenges, management believes opportunities still exist for our business growth. The Group will pay close attention to the internal and external economic situations and continue to closely monitor and make great efforts on adjusting internal structure and optimising businesses.

Chairman's Statement and Management Discussion and Analysis

(a) Financial services business

To capitalise strong demand for financial services and surging needs of customers in the Greater China region, the Group's strategy is to build up an "one-stop financial services center" to offer customers with a diverse range of financial services. To pursue this goal, the Group acquired SCA, the asset management arm, and SCFC, the money lending business unit, in second half of year 2015.

SCA was in the incubation stage in the year under review and is continuing its effort in structuring private funds with various investment strategies and asset classes to meet our clients' investment needs and risk appetites. SCA aims to launch new funds and is in discussion with potential investors for an engagement as investment manager to provide tailor-made discretionary portfolio and management solutions. Management anticipates that SCA will generate revenue upon successful rollout of the funds and discretionary managed accounts.

SCFC recorded a growth in loan receivable in first half of year 2016 but shrank in the second half of year 2016. This was largely attributable to a new market positioning strategy devised in the second half of year 2016. The move is to tap into customer segments with better credibility records as a step towards building a healthy loan portfolio, which is conducive to the sustained growth of business in the future. Amidst product repositioning strategy, SCFC has tightened its credit approval of new loan and loan refinancing applications, dwindling the amount of new loan disbursements in second half of year 2016. To grasp more business opportunities in year 2017, SCFC contemplates to launch new loan products suitable to new target customer segments. Concurrently, SCFC plans to enlarge its sales force and strengthen its credit approval process and debt collection functions which provides safeguard to the Group for excessive credit risk.

In addition to the Group's successful application for the licence to conduct regulated activities in dealing in securities in October 2016, as a further step moving towards the mission as an "one-stop financial services center", the Group has submitted application to SFC for license to conduct regulated activities in dealing in futures contracts as of the date of this report.

(b) Property development business

After the completion of the disposal of entire issued share capital of Elite Empire and Bigwin in year 2015, the projects on hand has aggregate site area of approximately 142,000 square meters including approximately 67,000 square meters attributable to the Huanggu District project. As mentioned in the section "BUSINESS REVIEW", the Company has commenced legal proceedings and has been negotiating with the government for refund of the RMB235.4 million paid.

To diversify its business, the Group has shifted its focus to the small to medium size projects to relieve the burden on resources for the capital intensive projects.

ENVIRONMENTAL POLICIES

We are committed to building an environmentally-friendly corporation that pays close attention to conserving natural resources. We strive to minimize our environmental impact by saving electricity and encouraging recycle of office supplies and other materials. In this regard, we have implemented various environmental policies and guidelines to manage the efficient use of resources in our day to day operations. Going forward, we will strive to continue to enforce new efficiency measures to reduce the consumption of energy and water, and indirectly reduce the emissions of greenhouse gas.

COMPLIANCE WITH LAWS AND REGULATIONS

Compliance procedures are in place to ensure adherence to applicable laws, rules and regulations, which have significant impact on the Group. The Group has established a compliance department which is operated by experienced compliance officers and is monitored by management. The principal roles of the compliance department are to monitor the daily financial status and to review internal control of the Group regularly to ensure the Group is in compliance with related regulations. Updates on the applicable laws, rules and regulations are brought to the attention of relevant employees and relevant operation units from time to time.

RELATIONSHIPS WITH KEY STAKEHOLDERS

Employees

Human resources are one of the greatest assets of the Group and the Group regards the personal development of its employees as highly important. The Group wants to continue to be an attractive employer for committed employees. The Group has also adopted share option schemes and share award schemes to recognize and reward the contribution of the employees to the growth and development of the Group.

Customers

The Group has the mission to provide excellent customer service whilst maintaining long term profitability, business and asset growth. Various means have been established to strengthen the communications between the customers and the Group in the provision of excellent customer service towards market penetration and expansion.

Service vendors

Sound relationships with key service vendors of the Group are important in supply chain, premises management and meeting business challenges and regulatory requirements, which can derive cost effectiveness and foster long term business benefits. The key service vendors comprise system and equipment vendors, external consultants which provide professional services, suppliers of office goods/merchandise and other business partners which provide value-added services to the Group.

Shareholders

One of the corporate goals of the Group is to enhance corporate value to shareholders. The Group is poised to foster business developments for achieving the sustainability of earnings growth and rewarding shareholders taking into account capital adequacy levels, liquidity positions and business expansion needs of the Group.

APPRECIATION

On behalf of the Board, I wish to express my gratitude to our customers and shareholders for their continued support and all our staff members for their hard work and dedicated service.

Directors' Report

The directors of the Company (the "Directors") submit herewith their report and the audited financial statements for the year ended 31 December 2016.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

The Company is an investment holding company. Its subsidiaries are property investment and development in the People's Republic of China, money lending, provision of investment advisory and asset management service and dealing in securities.

Excellent Tide Limited, an indirect wholly-owned subsidiary of the Company, has applied and the Securities and Futures Commission has approved the application for corporate licence to carry out regulated activities in dealing in securities in October 2016. Other than that, there were no significant changes in the nature of the Group's principal activities during the year.

Further discussion and analysis of these activities as required by Schedule 5 to the Hong Kong Companies Ordinance, including a discussion of the principal risks and uncertainties facing the Group and an indication of likely future developments in the Group's business, can be found in the Chairman's Statement and Management Discussion and Analysis set out on pages 4 to 9 of this Annual Report. The discussion forms part of this directors' report.

RESULTS AND DIVIDENDS

The results of the Group for the year ended 31 December 2016 and the financial position of the Group at that date are set out in the financial statements on pages 59 to 136 of this Annual Report.

Directors' Report

DIRECTORS' INTERESTS IN COMPETING BUSINESSES

The Company, SCHC and SCF, both, being listed on the Stock Exchange, have certain common directors. The principal activities of SCHC and SCF include property investment or development business and provision of investment advisory or asset management services or dealing in securities.

Mr. Ng, Ms. Cheung, Mr. Gorges and Mr. Law, all being Executive Directors of the Company, are also the executive directors of SCHC. Mr. Ng and Ms. Cheung are also the executive director of SCF. Ms. Ng Yuk Mui Jessica, an Executive Director of the Company, is also the non-executive director of SCHC and the executive director of SCF. Mr. Paul Ng, a Non-executive Director of the Company, is also an executive director of SCHC.

Mr. Ng is the chairman of the board and controlling shareholder of SCHC, is also chairman of board and substantial shareholder of SCF. Mr. Gorges and Ms. Cheung are the substantial shareholders of a controlled corporation of Mr. Ng, which, together with its direct wholly-owned subsidiary, holds 20.12% interest in SCHC.

The Group seeks to undertake property development projects in smaller size and diversify into the financial services businesses while SCHC mainly focuses on the medium to large scale property investment and development projects.

The Group is in the course of diversifying into the financial services businesses while SCF undertakes a wide range of financial services businesses of sizable scale in operations and with solid client portfolio.

The abovementioned common directors declare their interests in competing business and abstain from voting in transactions in which the Company and SCHC or SCF compete or is likely to compete with each other and, therefore, do not control the Board as far as transaction in relation to competing business is concerned. As such, the Board is independent from the board of SCHC or SCF, and the Group is capable of carrying on its businesses independently of, and at arm's length from, the businesses of SCHC or SCF. Given the difference in business focus as referred to in the preceding paragraph, the competition between the businesses of the Company and SCHC or SCF is considered to be relatively remote.

INDEMNITY OF DIRECTORS

Pursuant to the Company's Articles of Association, every Director of the Company shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities incurred or sustained by him as a Director in defending any proceedings in which judgment is given in his favour, or in which he is acquitted. The Company has taken out directors' and officers' liability insurance to protect the Directors against potential costs and liabilities arising from the claims brought against them, if any.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained the prescribed public float under the GEM Listing Rules as at the date of this report.

CONNECTED AND CONTINUING CONNECTED TRANSACTIONS

Details of the significant related party transactions undertaken by the Group during the year in the ordinary course of business are set out in note 35 to the financial statements.

CONTINUING CONNECTED TRANSACTION

During the year and up to the date of this Annual Report, the Group had the following continuing connected transaction, details of which were disclosed in compliance with the requirements of Chapter 20 of the GEM Listing Rules:

Reference is made to the circular of the Company dated 4 September 2015 (the "Circular"), regarding the very substantial and connected disposals of the entire interest in Elite Empire and Bigwin by Crystal Hub, a direct wholly-owned subsidiary of the Company, the announcement of the poll results of the EGM of the Company dated 30 September 2015 and the joint announcements of the Transactions dated 7 October 2015 and 1 February 2016 respectively. Unless otherwise defined herein, the capitalized terms used shall have the same meanings as those defined in the Circular.

Under the Sale Shares Agreement, the Vendor shall procure the Company, by entering into the Deed of Undertaking, to indemnify SCHC against all guaranteed sum (which shall not exceed HK\$100 million) together with all costs and expenses (including, without limitation, interest, legal costs and recovery costs) incurred by SCHC under or by virtue of each Guarantee. Upon SCHC being notified of any claim pursuant to a Guarantee, the Company shall forthwith on demand pay to SCHC the amount of such claim and, if valid receipts are provided together with the demand for payment for the said claim, the costs and expenses incurred by SCHC in dealing with or defending such claim. In any other case, demand for payment of the costs and expenses incurred by SCHC in dealing with or defending any claim pursuant to any Guarantee shall be settled by the Company within 14 days from the day of presentation of the relevant valid receipts to the Company.

On 2 November 2015, SCHC provided a guarantee in the amount of HK\$15 million to a bank in respect of a loan facility granted to a subsidiary of the Company. In return, the Company also provided a counter guarantee in the amount of HK\$15 million to SCHC against the said guaranteed sum. As at 31 December 2016, the loan facility was utilized to the extent of HK\$11 million.

The above continuing connected transaction has been reviewed by the Independent Non-executive Directors of the Company who have confirmed that the transaction has been entered into:

- (1) in the ordinary and usual course of business of the Group;
- (2) on normal commercial terms or better; and
- (3) according to the agreements governing them on terms that are fair and reasonable and in the interest of the shareholders of the Company as a whole.

Directors' Report

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued an unqualified letter containing their findings and conclusions in respect of the continuing connected transactions disclosed above in accordance with Rule 20.54 of the GEM Listing Rules.

The Directors confirm that the disclosure requirements in accordance with Chapter 20 of the GEM Listing Rules have been complied with by the Company.

COMPANY SECRETARY

Mr. Chong Man Kit, the company secretary of the Group, is a fellow of the Hong Kong Institute of Certified Public Accountants.

AUDITOR

Messrs. BDO Limited, the auditor of the Group, will retire and, being eligible, will offer itself for re-appointment at the forthcoming annual general meeting of the Company.

On behalf of the Board

Ng Hung Sang
Chairman

Hong Kong, 16 March 2017

Corporate Governance Report

The Company is committed to the establishment of good corporate governance practices and procedures. The corporate governance principles of the Company emphasize accountability and transparency to the shareholders. Periodic review will be made to the corporate governance practices to comply with the regulatory requirements.

CORPORATE GOVERNANCE CODE

The Company had complied with all the code provisions as set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 15 of the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the “GEM Listing Rules”) throughout the year ended 31 December 2016 except the following as stated:

Mr. Ng Hung Sang, the Chairman and an Executive Director of the Company, was unable to attend the annual general meeting of the Company held on 7 June 2016 since he had other business engagements, which deviated from code provision E.1.2.

After the resignation of Ms. Chan Sau Mui Juanna as the Company Secretary of the Company with effect from 8 January 2016, the Company no longer complied with the requirement under Rule 5.14 of the GEM Listing Rules and, hence, the relevant code provisions in respect of company secretary. Following the appointment of Mr. Chong Man Kit as the Company Secretary of the Company with effect from 9 August 2016, the Company has complied with the requirement under Rule 5.14 of the GEM Listing Rules and, hence, the relevant code provisions.

The Company remained in compliance with Rule 5.05A, which requires that the Independent Non-executive Directors shall represent at least one-third of the Board, for the period from 1 January 2016 to the date of this Annual Report.

Corporate Governance Report

The Board composition is reviewed regularly to ensure that it has a balance of skills and experience appropriate to the requirements of the businesses of the Group. A balanced composition of Executive Directors and Non-executive Directors is maintained to enable the Board to exercise independent judgement effectively and provide sufficient checks and balances that safeguard the interests of shareholders and the Group. The Company has also complied with the GEM Listing Rules requirement that at least one of the Independent Non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise.

The Company is committed to equality of opportunity and does not discriminate on the grounds of race, gender, age, disability, nationality or any other factors. It also recognizes and embraces the benefits of diversity in Board members. The Company has adopted a board diversity policy in August 2013. Under the board diversity policy, a range of diversity perspectives including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service are taken into account when considering the nomination of a candidate for directorship and all Board appointments are based on meritocracy. Candidates are considered against objective criteria, having due regard for the benefits of diversity on the Board and the ultimate decision is based on merit and contribution that the selected candidates will bring to the Board. The Remuneration and Nomination Committee monitors the implementation of the diversity policy and review the same as appropriate.

The appointment of Directors is recommended by the Remuneration and Nomination Committee and approved by the Board based on the formal written procedures and policy for the appointment of new directors. When selecting potential candidates for directorship, their skills, experience, expertise, devotion of time and conflicts of interests are the key factors to consider.

All Directors (including Non-executive Director) of the Company are subject to retirement by rotation at least once every three years in accordance with the Company's Articles of Association. The Board is collectively responsible for the formulation of the Group's strategy and overseeing the management of the business and affairs of the Group.

Daily operation and management of the business of the Group including, inter alia, the implementation of strategies are delegated to the Executive Committee, which comprises all Executive Directors. The Executive Directors reports its work and business decisions to the Board periodically.

The roles of Chairman and Chief Executive Officer are separate and are clearly defined. Such roles are performed by different individuals with a view to reinforce independence and accountability. Key and important decisions are fully discussed at board meetings.

The Chairman has delegated the responsibility for drawing up the agenda for each board meeting to the Company Secretary. With the assistance of the Executive Directors and the Company Secretary, the Chairman seeks to ensure that all Directors are properly briefed on issues arising at board meetings and have received adequate and reliable information in a timely manner.

The Board held five meetings in 2016:

	Number of Meetings Attended/Eligible to Attend
Executive Directors:	
Ng Hung Sang (Chairman)	3/5
Cheung Choi Ngor	4/5
Richard Howard Gorges	5/5

Law Albert Yu Kwan	5/5
Non-executive Director:	
Ng Yuk Yeung Paul	5/5
Independent Non-executive Directors:	
Chan Mei Bo Mabel	5/5
Leung Tony Ka Tung	4/5
Pong Scarlett Oi Lan	5/5

The Board meets at least four times a year. At least fourteen days' notice is given to all Directors for each regular Board meeting. All Directors are given the opportunity to include matters for discussion in the agenda. Agenda and Board papers are sent to all Directors at least three days before each regular Board meeting. Directors can attend meetings in person or through other means of electronic communication in accordance with the Articles of Association of the Company.

The Company Secretary ensures that the procedures and all applicable rules and regulations are complied with. Minutes of Board meetings and meetings of Board committees are kept by the Company Secretary and are available for inspection at any time on reasonable notice by any Director.

Directors have full access to information on the Group and are able to seek independent professional advice at the Group's expense as they consider appropriate.

SECURITIES TRANSACTIONS BY THE DIRECTORS

The Company has adopted the required standard of dealing set out in Rules 5.48 to 5.67 of the GEM Listing Rules as its code of conduct regarding securities transactions by Directors. In addition, the Board has established similar guidelines for relevant employees who are likely to possess inside information in relation to the Group or its securities.

In response to the Company's specific enquiry, all Directors of the Company confirmed that they have complied with the required standard of dealing and its code of conduct regarding securities transactions by Directors throughout the year ended 31 December 2016.

RISK MANAGEMENT AND INTERNAL CONTROL

The Board has the overall responsibility for overseeing and maintaining a sound and effective risk management and internal control systems and reviewing the effectiveness of same. The Board assesses the effectiveness of the risk management and internal control systems through the ongoing reviews performed by the Audit Committee, executive management and both internal and external auditors. Taking into account the views of the Audit Committee, the Internal Audit Department formulates audit plan periodically, agree the same with the Audit Committee and reports its findings and recommendations to the Audit Committee which, in turn, reports to the Board on the effectiveness of the risk management and internal control systems. The audit plan covers the key financial, operational and compliance controls of the major business units on a rotation basis. The scope of and time budgeted for an audit assignment normally depend on the assessed risk level. The Audit Committee meets with the internal auditor and external auditor at least twice a year. During the year, Internal Audit Department reviewed the general expenditures and payments of Shenyang and Cangzhou property businesses and made a number of recommendations for improvement of control environment.

The risk management and internal control systems aims at safeguarding assets from inappropriate use and ensuring the maintenance of proper accounting records and compliance with the applicable rules and regulations. Management is primarily responsible for the design, implementation and maintenance of the risk management and internal control systems, which are designed to provide reasonable but not absolute assurance against misstatement or loss, and to manage risks of failure in the Group's operational systems.

The Internal Audit Department may also conduct ad hoc review in light of the concerns expressed by management or the Audit Committee from time to time, if any.

With the support of the relevant business unit managers, the Board identifies and assesses the key risks, existing or emerging, facing the Group, and formulates strategies and measures to mitigate the relevant risk exposures. A risk register is prepared to facilitate the management of key risks of the Group. For each key risk identified, the risk register records the risk exposure estimation, current risk mitigation measures and further management actions to better control the risks. The Board has reviewed the Group's risk management and internal control systems for the year ended 31 December 2016. The review included considering risk register and the risk management and internal control evaluations conducted by the Audit Committee, executive management and the internal and external auditors.

RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors are responsible for the preparation of the financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Group.

The statement by the auditor of the Company about their reporting responsibilities on the financial statements of the Group is set out in the Independent Auditor's Report on pages 56 to 58 of this Annual Report.

AUDITOR'S REMUNERATION

The fees paid/payable to the auditor of the Company for the year ended 31 December 2016 in respect of the audit and non-audit services provided to the Company and its subsidiaries amounted to HK\$603,000 and HK\$5,000, respectively. Such non-audit services consist of professional service rendered to review and report on the continuing connected transactions of the Group.

DIRECTORS' CONTINUOUS PROFESSIONAL DEVELOPMENT

Directors must keep abreast of their collective responsibilities. Each newly appointed Director receives an induction package covering the Group's businesses and the statutory and regulatory obligations of a director of a listed company.

To enhance the Directors of the changes in applicable rules and regulations and the developments in corporate governance, the Company also provides the Directors with updates on the relevant topics. In addition, the Directors are encouraged to participate in continuous professional development activities to develop and refresh their knowledge and skills.

REMUNERATION AND NOMINATION COMMITTEE

The Remuneration and Nomination Committee performs both remuneration and nomination functions under the CG Code. It currently consists of three Independent Non-executive Directors, namely Ms. Pong Scarlett Oi Lan, BBS, J.P. (Chairman of the Committee), Ms. Chan Mei Bo Mabel and Sr Dr. Leung Tony Ka Tung.

As set out in the terms of reference posted on the websites of the Stock Exchange and the Company, the principal duties of the Remuneration and Nomination Committee, which are substantially the same as the relevant code provisions in the CG Code, include, among others, reviewing the policy and structure for Directors' and (if any) senior management's remuneration, remuneration proposals for Directors' and (if any) senior management's remuneration, determining the remuneration packages of Executive Directors and (if any) senior management, making recommendations to the Board on the remuneration of Non-executive Directors, reviewing the structure, size and diversity of the Board, identifying suitable candidate for directorship and making recommendations to the Board on the remuneration and Director nomination matters as referred to in the terms of reference of the Remuneration and Nomination Committee.

For new appointment of Director, the Remuneration and Nomination Committee identifies and selects suitable candidates following the board diversity policy as referred to in the section "BOARD COMPOSITION AND BOARD PRACTICES" and taking into account the candidate's his/her independence and capability to devote sufficient time and commitment to the role as well as potential conflict of interests. Once the Remuneration and Nomination Committee has selected a candidate, it seeks the comments on such candidate from the Executive Committee for its consideration and approves the appointment as it thinks fit.

The Remuneration and Nomination Committee met once in the year ended 31 December 2016 to review, consider and, where appropriate, approve/make recommendation to the Board on the remuneration packages of the Directors (based on the skills, knowledge, performance and involvement in the Company's affairs of the relevant Director taking into consideration the Company's performance), the policy and structure for Directors' remuneration, the structure, size and diversity of the Board, the Director nomination policy, the independence of the Independent Non-executive Directors and the retirement and re-election of Directors. The attendance records of the members of the Remuneration and Nomination Committee at the abovementioned Remuneration and Nomination Committee meeting are as follows:

SHAREHOLDERS' RIGHTS

The Company uses general meeting, annual report, interim report, quarterly report, announcement, circular and its website as communication tools to keep its shareholders informed of the matters of significance and latest development of the Group.

Shareholders are provided with contact details of the Company to enable them to make enquiries with respect to the Company's affairs. Shareholders can also send their enquiries to the Company through these channels or contact Union Registrars Limited, the branch share registrar of the Company, in case of enquiries about shareholdings.

The annual general meeting of the Company ("AGM") allows the Directors to meet and communicate with shareholders. The Company ensures that shareholders' views are communicated to the Board. The chairman of the AGM proposes separate resolutions for each issue to be considered. Members of the Audit Committee and the Remuneration and Nomination Committee and the external auditor also attend the AGM to answer questions from shareholders. AGM proceedings are reviewed from time to time to ensure that the Company follows good corporate governance practices. The notice of AGM is distributed to all shareholders at least 20 clear business days prior to the AGM. The accompanying circular sets out the details of each proposed resolution and other relevant information as required under the GEM Listing Rules. Voting results are posted on the Company's website on the day of the AGM.

Extraordinary general meeting of the Company ("EGM") shall be convened on the requisition of any one member of the Company which is a recognised clearing house or any two or more shareholders of the Company holding, at the date of deposit of the requisition, not less than one-tenth of the paid up capital of the Company having the right of voting at general meetings. Such requisition shall be made in writing to the Board of Directors or the Company Secretary of the Company for the purpose of requiring an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within 3 months after the deposit of such requisition. If within 21 days of such deposit, the Board fails to proceed to convene such meeting, the requisitionist(s) themselves or any of them representing more than one-half of the total voting rights of all of them may convene such meeting, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

Environmental, Social and Governance Report

The Group is committed to contributing to the sustainability of the environment and community. As such we aim to give investors and other stakeholders an overview of the Group's internal policies and initiatives on the environmental and social issues in the year 2016 with this environmental, social and governance report ("ESG"), which is prepared in accordance with the Environmental, Social and Reporting Guide under Appendix 20 of the GEM Listing Rules.

AT A GLANCE: OUR APPROACH, PRIORITIES AND OBJECTIVES

We encourage environmental, social and corporate governance best practice in our offices across Hong Kong, as we believe this will deliver the best long-term returns.

In gist, we are committed to:

ENVIRONMENT

Basic Stance

We firmly believe that a healthy environment is crucial to the well-being of our society and businesses and is the foundation of a strong and sustainable economy. Because of this, we are committed to doing our part across our businesses in Hong Kong.

Three themes, amongst many, are particularly important when we consider future of a sustainable environment: tackling climate change, efficient use of resources and recycling initiatives. These are also areas where our society demands a high level response from businesses.

In order to address these important themes, the Company is leveraging new frameworks to reduce the impact of its operations on the environment and undertake environmental protection initiatives. Through our businesses, as well as social activities, we are aiming to create a sustainable environment.

Our Initiatives to Reduce Air and Greenhouse Emissions

We recognize that climate change is one of the most pressing issues facing the global community. We believe that, whilst tackling this issue will depend a great deal on the development and implementation of global climate regulatory frameworks and business innovations, we as a business enterprise, also have a responsibility to reduce our carbon footprint in the move towards a lower carbon society.

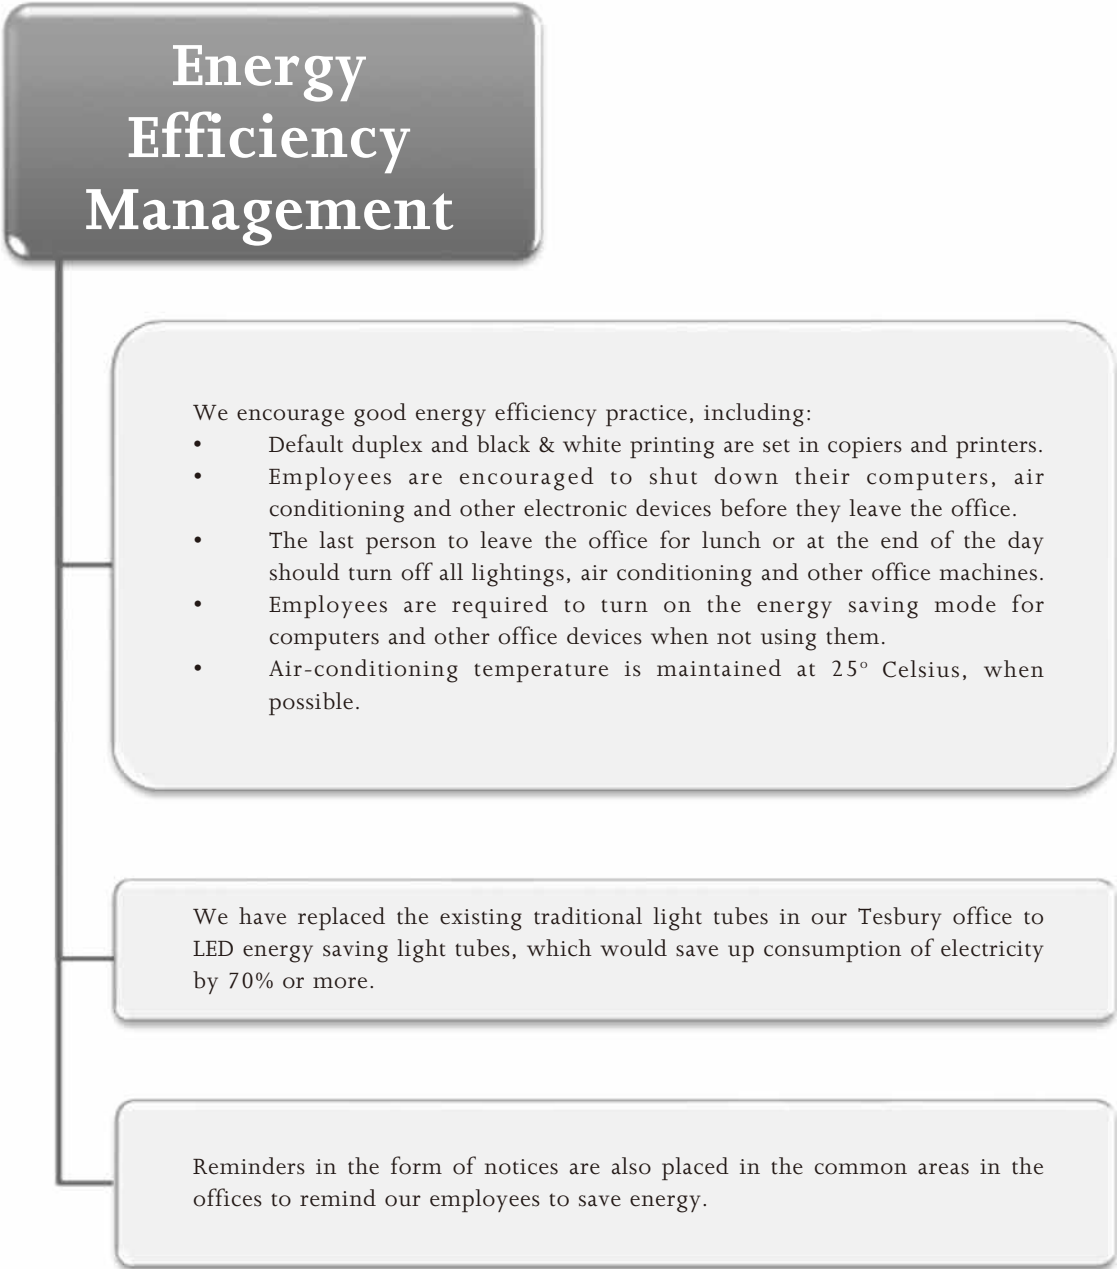

Therefore, we are committed to implement new efficiency measures to do our part to reduce further damage to the environment. We have issued a Business Travel Policy whereby:

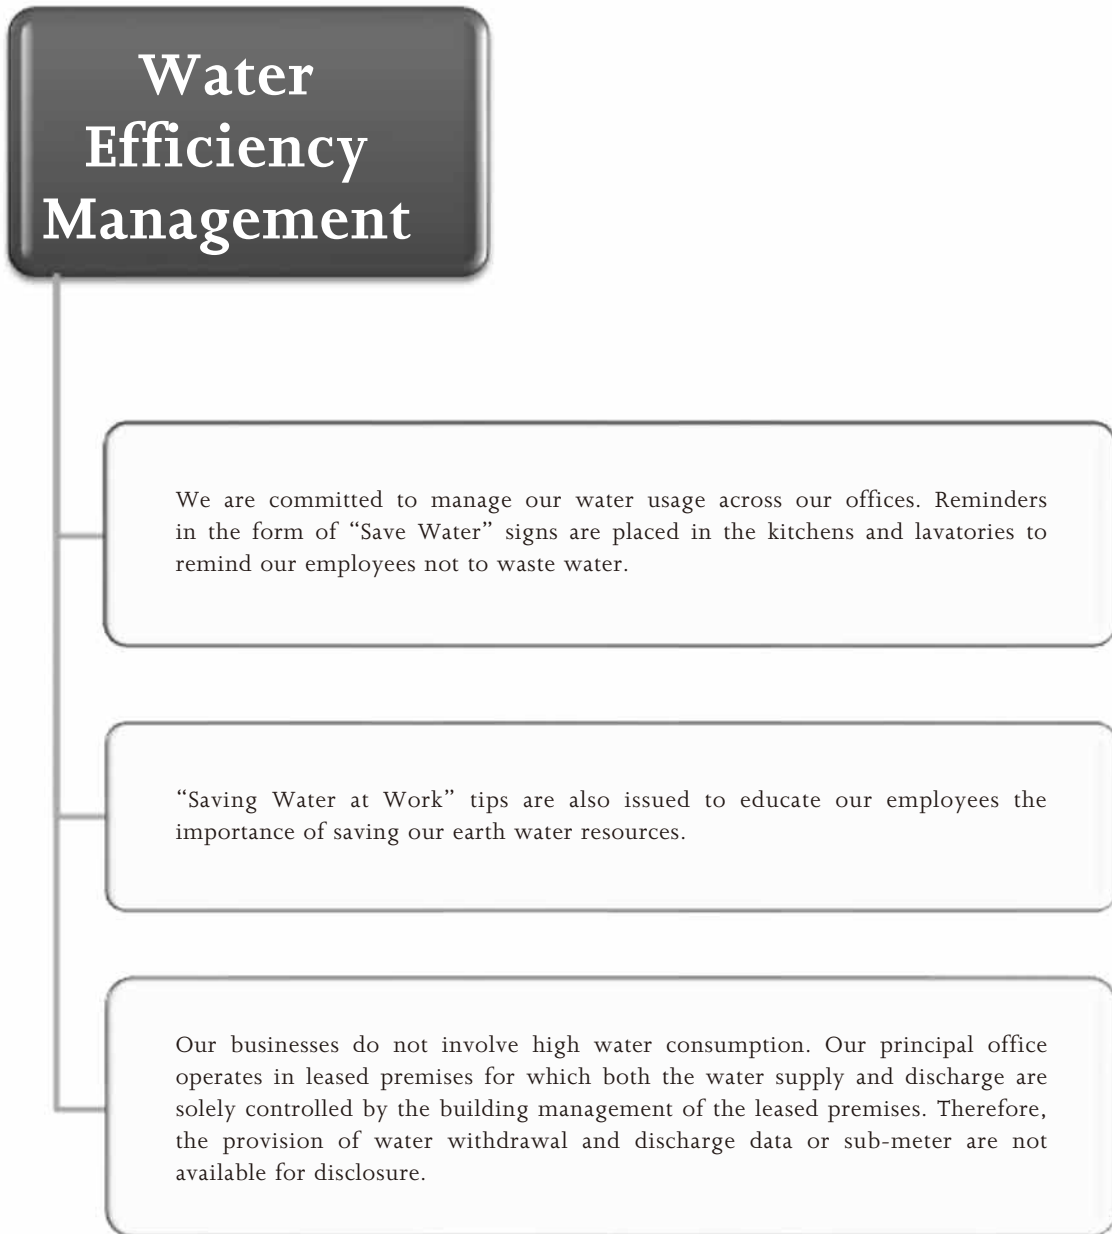

All our employees are required to use video/audio conferences for business meetings. Business travels, especially by air, are only allowed on a need basis.

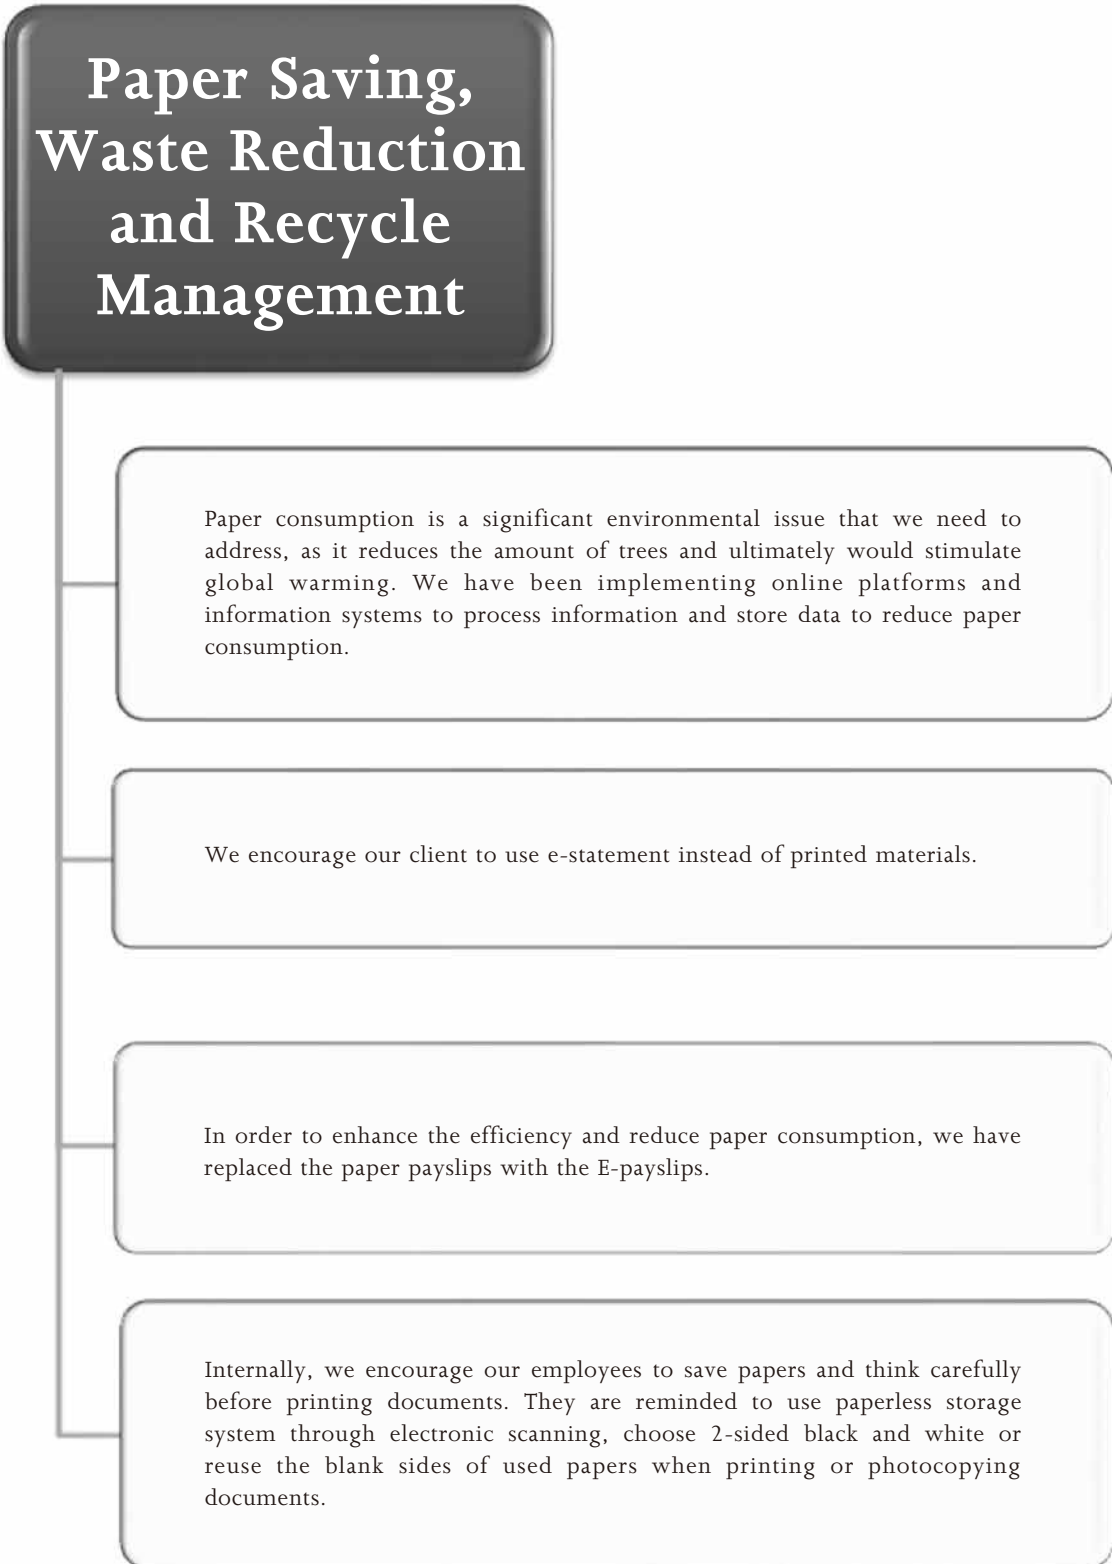

All our employees are encouraged to use public and shared transportations instead of private transportations when going to work.

Our Initiatives on Efficient Use of Resources to Minimise Any Significant Impact on the Environment and Natural Resources

In order to minimise any significant environmental impacts arising from the operations of our different business units, we have implemented policies and guidelines such as the “Energy Efficiency of Lightings, Air Conditioning and Office Machines Services Guide” and the “Recycle Paper and Toner Cartridge Services Guide” to manage the efficient use of resources in our day to day operations. Not only that, we have also initiated green projects and energy/water saving measures to reduce the consumption of energy and water in our offices.

Paper Saving, Waste Reduction and Recycle Management (...continued)

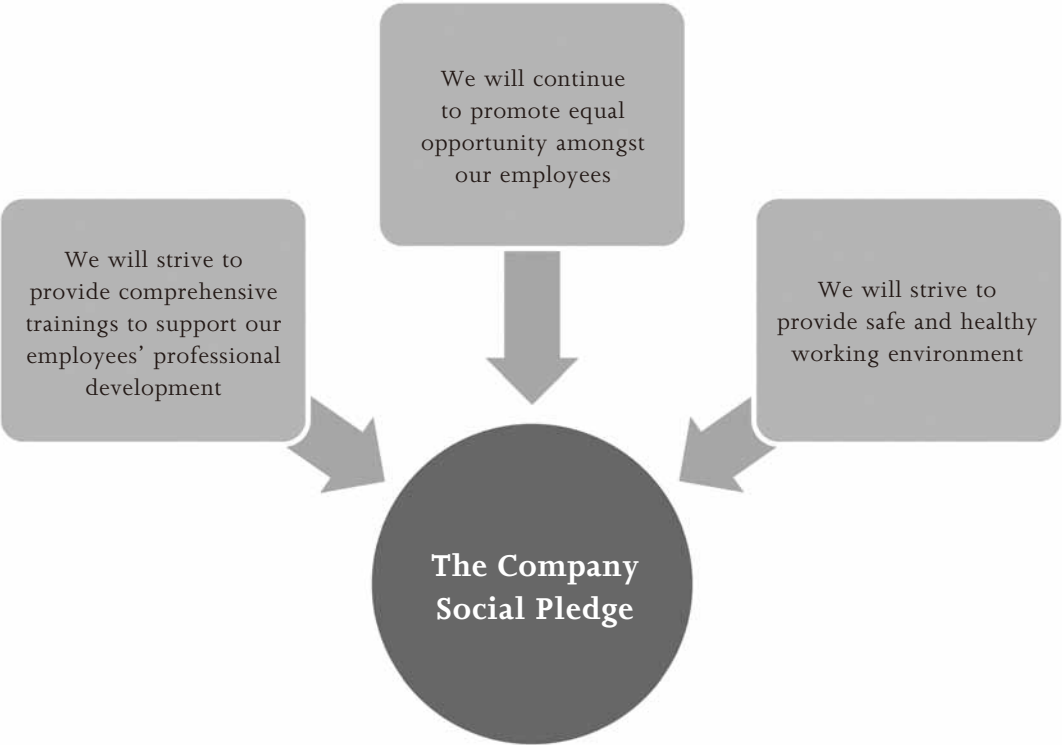

In order to reduce wastes, various recycling collection points are available in the offices to collect waste paper. The external vendors are appointed to collect the waste paper for recycling on a regular basis.

Besides waste paper, we also arranged for empty toner cartridges to be collected by these vendors for recycling purpose.

In October 2016, we set up a collection point at our principal office for collection of second-hand goods for donation to the needy. The second-hand goods were donated to a charitable organisation on 29 October 2016.

Going forward, we will strive to continue to enforce these efficiency measures to reduce the consumption of energy and water, and indirectly reduce the emissions of greenhouse gas.

SOCIAL

EMPLOYMENT AND LABOUR PRACTICES

Basic Stance

We are always committed to providing our employees with a fair, safe and healthy working environment, as well as to comply with the applicable laws.

To us, our employees are our most valuable assets. We believe that their well-being is essential to sustainable corporate growth. To this end, we promote varied measures to encourage further growth in our human capital and to create structures and environments that allow our employees to maximize their potentials.

Awards

In recognition to our contributions to the society, we were awarded:

1. the "CIMA 2013 Quality Employer Partners Award" for our support in our employees' professional trainings; and
2. the "Caring Company Logo" by The Hong Kong Council of Social Services for our commitment in caring for the community, caring for the employees and caring for the environment.

We will continue to enhance our employees' benefits and take up our corporate social responsibility in charitable causes and social service projects. We believe our contribution and engagement will move us forward to a more harmonic community.

There are 4 cores aspects of our employment and labour practices.

Our initiatives: Employment

We promote equal opportunities amongst our employees. In line with our Code of Conduct, Equal Opportunities and Anti-Discrimination Policy and Recruitment Policy, we promote equal treatment of individuals and do not discriminate against any individuals because of age, race, religion, colour, gender, disability, national origin, ancestry, marital status, sexual orientation, gender identity or expression or veteran status. Our cultural diversity is regarded as an asset and discrimination against individual or groups of people will not be tolerated.

We have implemented rewards and bonus schemes based on the employees' contribution and performance. Annual appraisals would be carried out for managing, coaching, developing, assessing and rewarding employees' performances with the following goals:

- Ensure clear objectives linked to business results.
- Build strong alignment between manager and employee.
- Conduct meaningful and development discussions.
- Provide feedback, recognition, support and coaching to employees.
- Link rewards (salary increase/bonus/promotion) to performance.

Comprehensive medical insurance is also provided to every employee. In year 2016, we decided to introduce a new medical scheme to enhance the existing in-patient and out-patient benefit levels, including extending the medical scheme to the employees' spouses and dependents by offering self-sponsored voluntary portal plan.

In order to raise awareness of healthy living habits, we send e-healthy tips to employees on a regular basis.

We also promote employees' work life balance. We organise and encourage our employees to participate in our yearly "Jessica Run" event. This great event is aimed to bring family members closer together through healthy outdoor activities, as well as promoting charity by fund raising.

Moreover, in order to encourage employees to exercise more, we have negotiated with one of the most well-equipped fitness centres near our principal office to provide corporate discount to our employees.

To foster good relationships, we will send birthday cards and cake coupons to our employees to celebrate their birthdays.

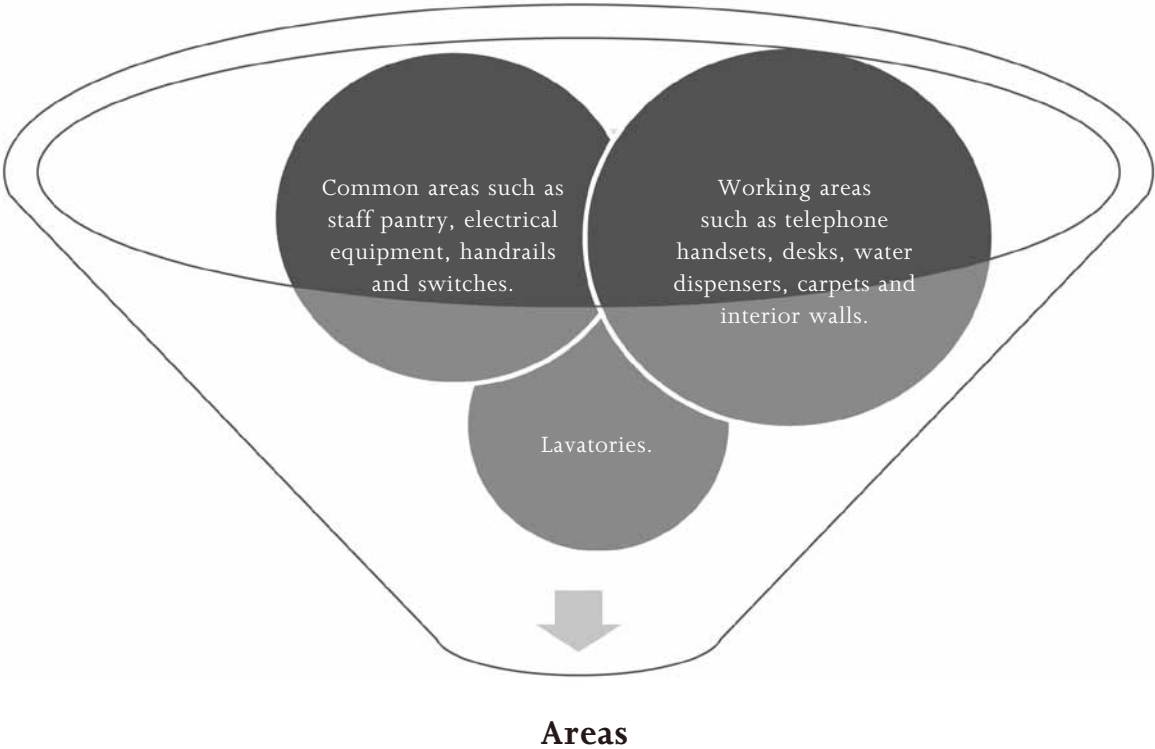

Environmental, Social and Governance Report

Our initiatives: Health and Safety

We put great importance in our employees' health and safety at work. Due to the nature of our operations, our employees are not exposed to high risks occupational hazards.

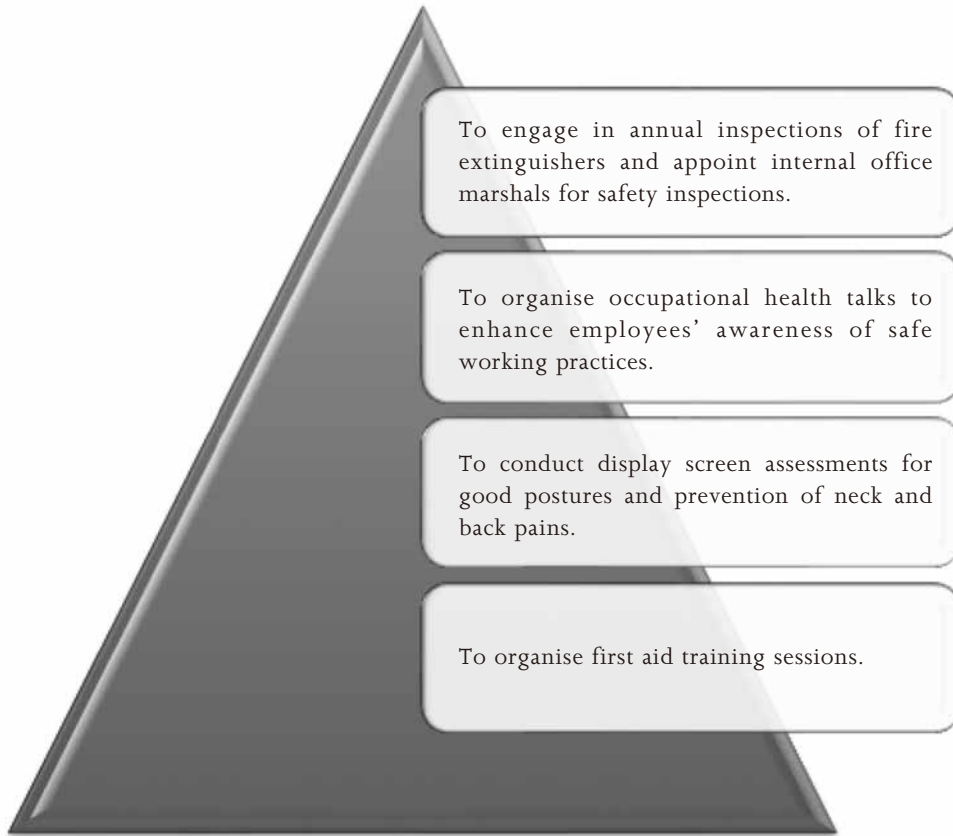

In order to maintain safe working environment, we have implemented the "Occupational Safety and Health Services Guide" to promote safe working environment and protect employees from occupational hazards. All our offices are also well-equipped with typical safety facilities such as first aid medical boxes, fire exits and fire extinguishers, sprinklers, fire detectors, hose reels and emergency lights. We also plan to assign certified first aiders across our offices. Currently, we have assigned a certified first aider in our Tesbury office. Further, we also required our employees to participate in annual fire drill for emergency evacuations organized by the building management offices.

A clean working environment is also important to our employees. We have implemented "Office General Cleaning and Air Cond Fan Coil Cleaning Services" guide to manage offices general cleaning practices in the following areas:

We also understand that it is inevitable that employees who are using computers for a prolonged period may suffer from health problems such as upper limb pains, eyestrain and fatigue. In order to minimise the risk, we circulated "A Guide to Work With Computers", published by the Occupational Safety and Health Branch, Labour Department, to educate our employees to maintain the correct postures and eye and lighting levels when using the computers.

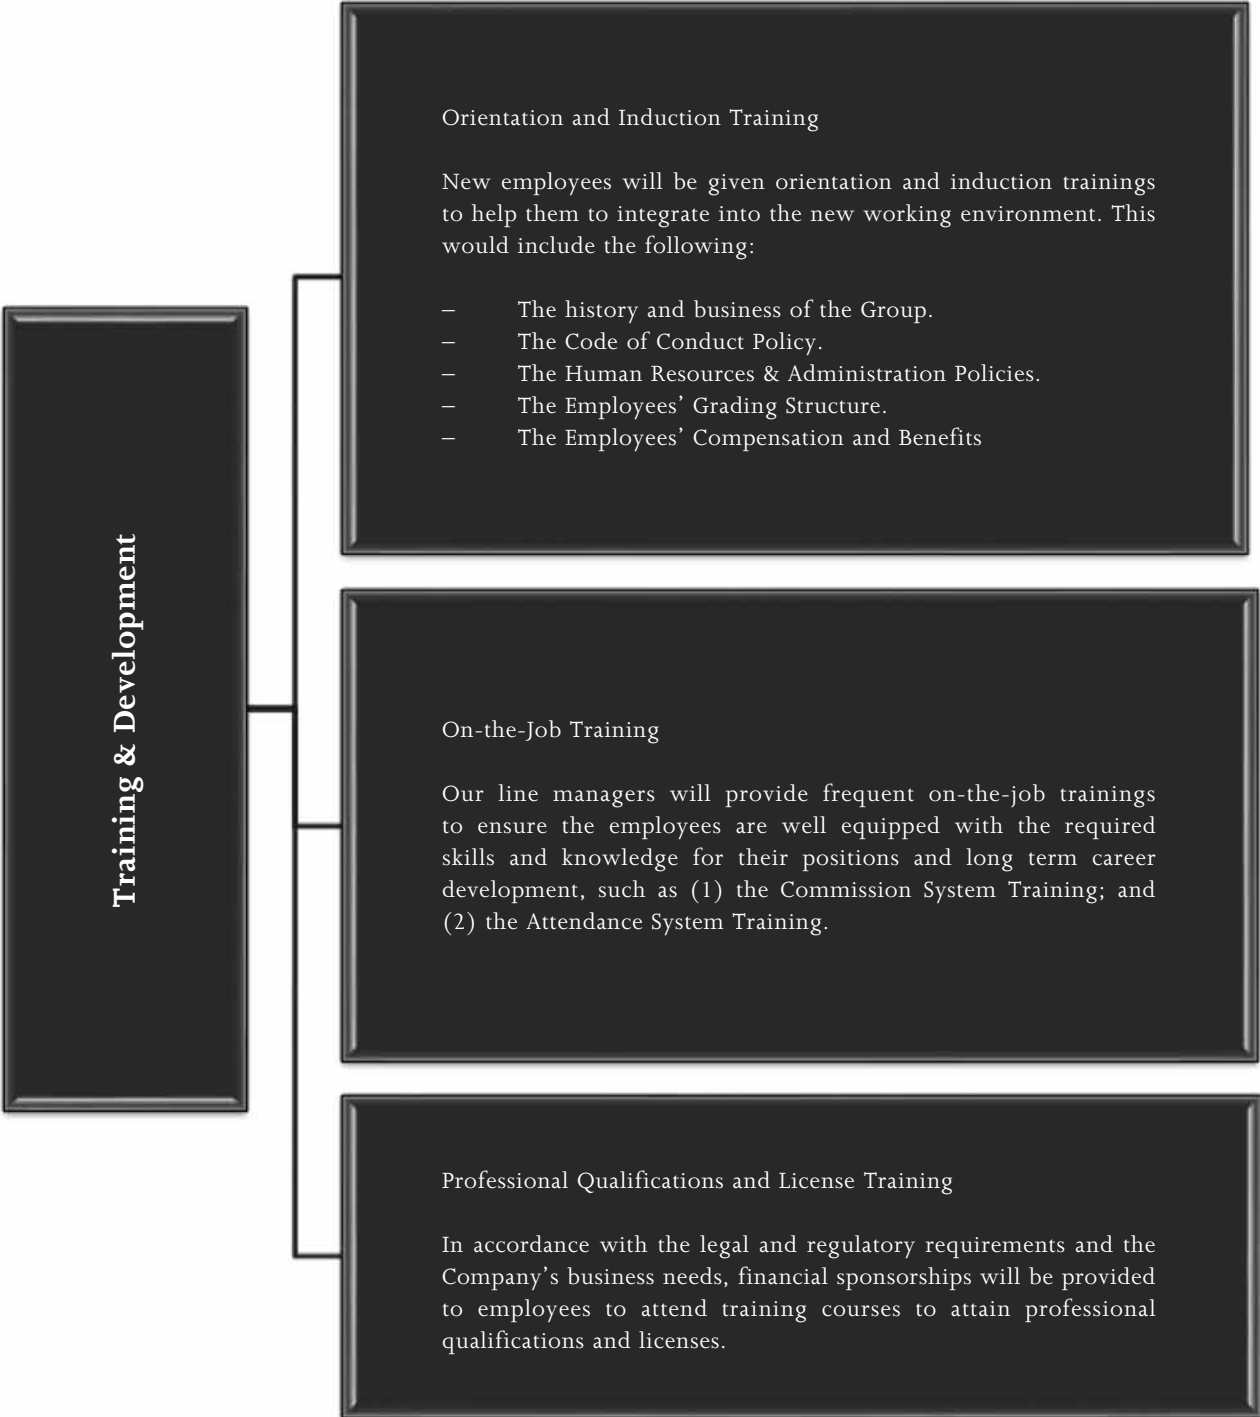

Currently, we are planning to implement the following new measures:

During the reporting year, there was no work-related injury or fatality.

Our initiatives: Training

We recognize that having a team of professional and capable employees is pivotal to the long term growth of the Company. Strategic training plans are devised each year to identify the needs of different operations and training courses/activities are tailored to suit employees of different levels and job functions. Generally:

Training & Development (continued...)

Training Activities for Career Development

It is important for employees to gain skills and knowledge to supplement their on-the-job daily learning experience as their careers develop. Based upon the needs that are identified for the career development, which are consistent with the employees' aspirations and the needs of the business, our line managers will make nomination for the employees to attend appropriate courses, seminars, executive sharing or talks.

On 8 July 2016, "Executive Sharing – Leadership and Empowerment" seminar was held from 9:30 a.m. to 12:30 p.m. and attended by 6 Management Trainees ("MT") of our MT Program. We have invited one of the top executives in the luxury retail industry to share her experience on people management and how she tackled various problems at work.

"Interpersonal & Communication Skill" trainings were held from 9:30 a.m. to 5:30 p.m. on 24 September and 21 October 2016 respectively, and attended by MT and nominated young managers to learn how to communicate effectively with different people and managing emotions at the workplace.

"Public Speaking & Presentation Skill" trainings were held from 9:30 a.m. to 5:30 p.m. on 25 and 26 November 2016 respectively, and attended by MT and nominated employees to learn how to present ideas in clear, concise and credible way to audience in the workplace.

Environmental, Social and Governance Report

Details of specific trainings are as follows:

1. **MT Program**

- (a) The MT Program was first introduced and established in 2012 to guide and support the career path of talented fresh graduates. It is aimed to develop and grow young talents with strong potentials to fill the pipeline of future leaders in different business streams in the Group.
- (b) The MT Program is a three-year structured and comprehensive rotation program with coaching and guidance from the management executives. Throughout the three-year rotation program, training courses and public examination sponsorships to attain Chartered Institute of Management Accountants (CIMA Qualifications) are also provided.
- (c) Upon successful completion of the three-year rotation program, MTs will be placed in selected business units/functions, taking into consideration of their professional knowledge, competencies, career objectives and interests, as well as the business needs and manpower planning.
- (d) Since 2012, we have mentored 28 fresh graduates. 9 of them have completed the MT Program and are placed in their selected business units.

2. **Continuous Professional Trainings (“CPT”)**

- (a) In accordance with the Securities and Futures Commissions (“SFC”) CPT training requirements, each SFC licence representatives must fulfill at least 5 CPT points annually. To ensure compliance, the licence representatives are required to attend trainings, either through internal or external providers.
- (b) As part of the CPT, all our employees are also required to fulfill the SFC Anti-Money Laundering (“AML”) training requirement. Each employee must attend at least one AML training per year.

Apart from trainings, we also encourage personal development and recognize the long term benefits it can offer. The Company gives very serious consideration to internal candidates when filling up a vacancy and would fill positions by selection of suitably qualified people who have the capability to further develop.

We also strive to provide development opportunities for our employees under fair consideration. During the year end performance review process, our line managers will discuss and review with the employees of their contributions and their career development plans. Based on the appraisals, we are able to determine suitable career developments for our employees.

Our initiatives: Labour Standards

In line with our Recruitment Policy, we do not employ child or forced labour. Moreover, in order to prevent child and forced labour, we have in place all checking mechanisms to ensure that all applicants are of legal age to work, including the following:

1. All applicants are required to fill in application forms stating, inter alia, age and date of birth; and
2. All applicants are required to bring their original identity cards and recent passport photos for checking during interviews.

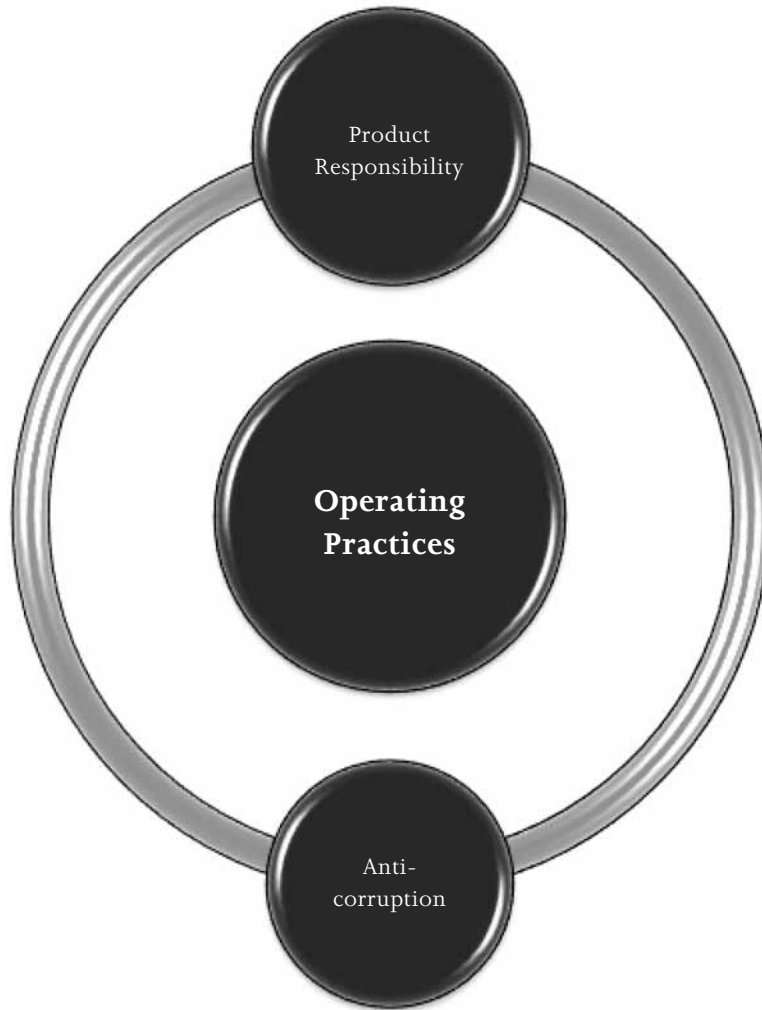

During the reporting year, there is no incidence of non-compliance with any regulation governing our labour practices.

OPERATING PRACTICES

Basic Stance

We are not in a sourcing and supply of goods/products business and therefore supply chain management is not relevant to us.

Due to the nature of our businesses, there are 2 cores aspects of our operating practices.

Environmental, Social and Governance Report

Our initiatives: Product Responsibility

In general, the Company provides the following types of investment activities:

1. Dealings and advising in securities; and
2. Assets management.

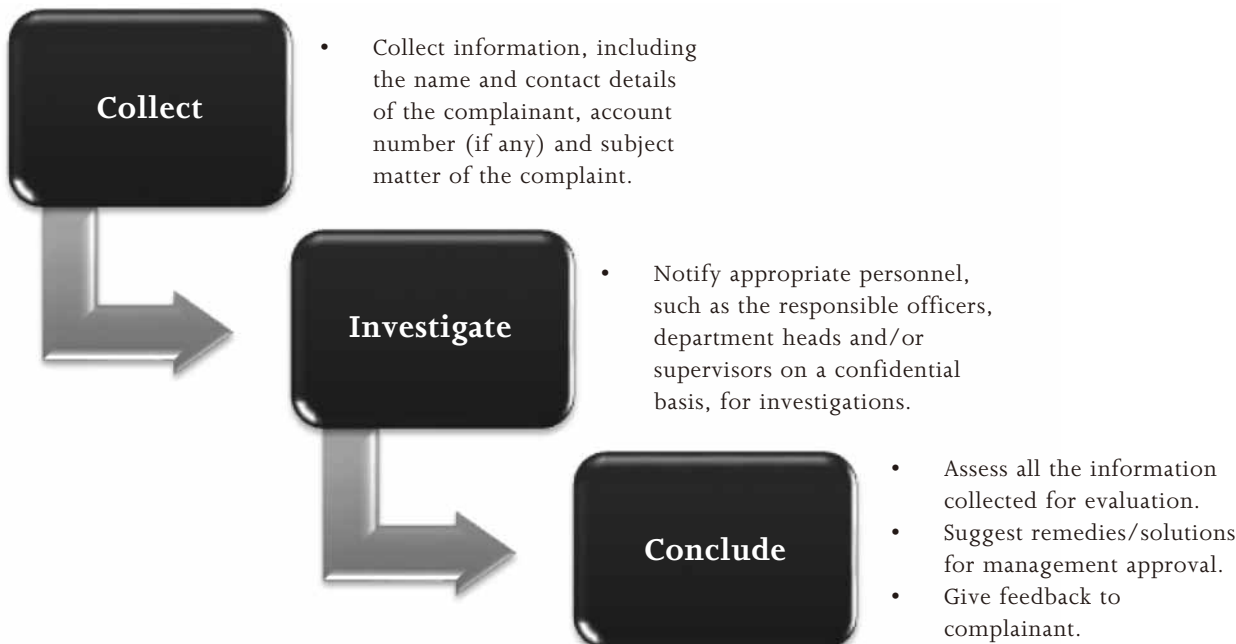

In view of the nature of our operations, we need to maintain a close monitor on the aforesaid investment activities in accordance with the standard guidelines and codes issued by SFC, including the Code of Conduct for Persons Licensed by or Registered with the SFC, Guideline on AML & Counter Terrorist Financing, Fit and Proper Guidelines, Guidelines on Competence, Licensing Information Booklet and Guidelines on Continuous Professional Training.

Moreover, as an investment company, protecting our clients' data and their privacy is also one of our top priorities. We have comprehensive policy and practices on data protection, privacy and advertising marketing. All our clients' personal data are collected in accordance with our clients' written consents during account openings. They are stored in our South China Back Office system controlled by our Credit Department. Such personal data would not be destroyed or used for any marketing purposes unless we have written consents from our clients to do so.

To safeguard and maintain our product responsibility, our Legal and Compliance Department reviews and maintains a range of client communication channels in order to collect client feedback and handle complaints efficiently:

1. By e-mail via the electronic mailing facilities on the website of Sctrade.com;
2. By facsimile to our Legal and Compliance Department; and
3. By letter to our Legal and Compliance Department.

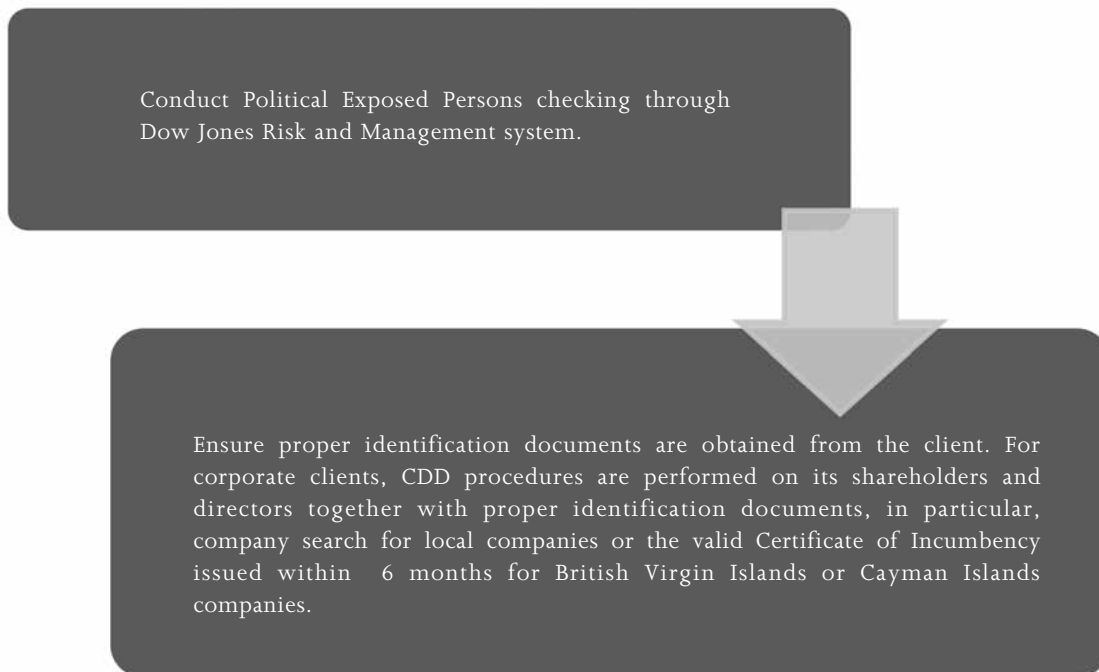

All complaints were handled directly in strict confidence by our Complaint Officer and supervised by our Director, Legal and Compliance. A simple illustration of our complaint handling process is as follows:

Our initiatives: Anti-corruption

We strive to uphold the highest standard of business ethics and integrity. We set a tone of zero-tolerance on any form of corruption or malpractice such as bribery, money laundering, extortion and fraud. This is reflected in:

1. Our Policies, Guidelines and Manuals
 - (a) We have enforced comprehensive list of policies, guidelines and manuals on prevention of bribery and AML such as our Compliance Manual, AML Manual and Code of Conduct.
 - (b) In particular, our Code of Conduct strongly prohibits any advantages offered/received in connection with our business transactions.
2. Our Account Opening Procedures
 - (a) Before a client's account is approved for trading, the relevant business units will pass the client's particulars to our Credit Department and Legal and Compliance Department for Customer Due Diligence ("CDD") to identify potential AML risks. A simple illustration of the CDD process is as follows:

- (b) In case of unusual findings from Dow Jones Risk and Management system, the Credit Department would seek advice from the Legal and Compliance Department. Exceptions can be granted for such client once the Legal and Compliance Department is satisfied that the AML risks can be mitigated after thorough internal investigations and upon approval from the senior management of the Company.

Environmental, Social and Governance Report

3. Our Whistle Blowing Procedures

- (a) Any suggestion or complaint from employees and other external stakeholders regarding any form of corruption or malpractice are welcomed through our hotline, email or mail, which would be handled by our Legal and Compliance Department. The process is similar to our complaint handling process.
- (b) Incidents or suspected incidents of corruption and malpractice are immediately investigated by our Legal and Compliance Department and will be reported to the Director, Legal and Compliance or the appointed responsible person. The whole process would be scrutinised by our Compliance Department as and when appropriate.

4. In-house Talks/Seminars

On a regular basis, we have conducted tailor-made talks/seminars to create awareness amongst our employees on the importance of maintaining high standard of business ethics and integrity. In particular, we have invited the Independent Commission Against Corruption (ICAC) to give a talk on “Honesty and Professionalism – The Key to Success (誠信和專業－成功的關鍵)” which was successfully held on 5 December 2016 at the Duke of Windsor Social Service Building, Wanchai.

COMMUNITY

Basic Stance

As a responsible corporate citizen, we are committed to giving back to the community through donations and various corporate social initiatives. Likewise, we encourage our employees to care, help and contribute to individuals in need.

Our Initiatives

Our slogan ‘攜手, 同心’ literally means to hold our hands and care for the community. It represents our core value to care and help those in need.

In order to support our community services, the Volunteer Team Committee was formed in January 2016 to plan and deliver community events. All employees from various departments and business units are encouraged to join the volunteer team.

The volunteer team and their families have participated in different community events organised by the Volunteer Team Committee, focusing on the elderly, underprivileged and family services, including but not limited to:

1. Charity chocolate sales

On 6 December 2015, the volunteer team helped S.K.H. St. Christopher’s Home to set up a stall in the Causeway Bay MTR station and sell chocolates to the public.

2. Yearly visits to the St. Mary’s Elderly Home

On 5 March 2016, the volunteer team visited the elderly at St. Mary’s Elderly Home. This is the second visit made by the volunteer team. We highly encourage the volunteer team to understand and respect the elderly.

3. The signature “Jessica Run” fund raising event

“旭茉 JESSICA Run” is a charity run event organized by 《JESSICA》 and “JESSICA Foundation” since 2007. We aimed to bring family members together through this charity run, as well as to raise funds for those need help from the society. Over the past years, more than 6,500 enthusiastic runners and family members participated. All funds raised were donated to “JESSICA Foundation”, “Early Psychosis Foundation” and other beneficiaries to support their activities.

Marking the 10th anniversary this year 2016, we partnered with Youth Square on 3 April 2016 to raise funds for the Early Psychosis Foundation, the Society for Abandoned Animals etc. We have attracted many enthusiastic runners and family members to participate in the event.

4. Donation of second hand goods to the underprivileged

From 5 September to 21 October 2016, collection points at various locations in our offices were set up to collect second-hand goods. We had successfully collected various second-hand goods such as clothes, toys and books. These items were donated to the Holy Carpenter Church on 29 October 2016 for the underprivileged living in the Kowloon City district area.

Environmental, Social and Governance Report

As mentioned earlier, in recognition of our continuous contribution to the community, we were awarded the 'Caring Company Logo' by the Hong Kong Council of Social Services.

In the future, we will continue to take part in community services, implement corporate social responsibility and play an important role in supporting and helping the Hong Kong community.

TO THE MEMBERS OF SOUTH CHINA ASSETS HOLDINGS LIMITED

南華資產控股有限公司

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of South China Assets Holdings Limited (the “Company”) and its subsidiaries (herein referred to as the “Group”) set out on pages 59 to 136, which comprise the consolidated statement of financial position as at 31 December 2016, the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report

KEY AUDIT MATTERS *(Continued)*

Assessment of net realisable value of properties under development

Refer to note 3.13, 4(a)(iii) and 19 to the consolidated financial statements.

The Group has properties under development with carrying value of approximately HK\$101,422,000 as at 31 December 2016. The valuation of properties under development is based on lower of cost and net realisable value. The calculations of the net realisable value are based on assumptions relating to future market developments and future changes in costs and price.

Because these estimates related to terms which vary periodically, the estimation uncertainty relating to the valuation of properties under development is significant.

OUR RESPONSE:

Our procedures in relation to the management's assessment of net realisable value of properties under development included:

- Reviewing the calculations of the properties under development's net realisable value and assessing the reasonableness and consistency of the assumptions used by management;
- Verifying management's assumptions around the possibilities for future property development are consistent with underlying documentation which include the plans and decisions of government bodies;
- Testing the appropriateness of the management's assumptions concerning the development of sales prices to comparable sites; and
- Assessing the future costs based on underlying documentation and reasonableness.

KEY AUDIT MATTERS *(Continued)*

Assessment of fair value of redeemable convertible preference shares ("RCPSs")

Refer to note 3.11, 3.18, 4(b), 17 and 36(g)(ii) to the consolidated financial statements.

The Group's available-for-sale ("AFS") financial assets with a carrying amount of approximately HK\$425,622,000, represented the RCPSs issued by a related company. The Group's financial liabilities in respect of the redemption option ("FL Redemption Option") embedded in the RCPSs with a carrying amount of approximately HK\$11,529,000, represented the embedded derivative related to the RCPSs issued by the related company classified as derivative financial liabilities. The embedded derivative has economic characteristics and risks not closely related to the host contract.

The amount of AFS financial assets and FL Redemption Option upon the RCPSs are derived from fair value measurement. The fair value measurement is supported by valuations that require a significant degree of management judgment on valuation assumptions.

OUR RESPONSE:

Our procedures in relation to management's fair value assessment of RCPSs included:

- Assessing the valuation methodology of fair value calculation on the RCPSs provided by the Group's independent professional valuer;
- Corroborating and reviewing the key assumptions and critical judgements used in the valuation;
- Reconciling the input data of the valuation provided by the Group's independent professional valuer to its supporting evidence; and
- Assessing the scope, expertise and independence of the independent professional valuer appointed by the Group.

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(Continued)*

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

1. GENERAL INFORMATION

South China Assets Holdings Limited (the “Company”) was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law (2001 Second Revision) of the Cayman Islands. The address of its registered office is P.O. Box 31119, Grand Pavilion, Hibiscus Way, 802 West Bay Road, Grand Cayman KY1-1205, Cayman Islands and its principal place of business is 28th Floor, Bank of China Tower, 1 Garden Road, Central, Hong Kong. The Company’s shares are listed on The Growth Enterprise Market (the “GEM”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The principal activity of the Company is investment holding. The principal activities of the Company’s subsidiaries are set out in note 41 to the consolidated financial statements. The Company and its subsidiaries are together defined to as the “Group” hereafter.

The consolidated financial statements on pages 59 to 136 have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). The consolidated financial statements also include the disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”).

The consolidated financial statements are presented in Hong Kong Dollars (“HK\$”), which is also the functional currency of the Company and all values are rounded to the nearest thousand (“HK\$’000”) unless otherwise stated.

The consolidated financial statements for the year ended 31 December 2016 were approved and authorised for issue by the board of directors on 16 March 2017.

2. ADOPTION OF HKFRSs

(a) Adoption of new or revised HKFRSs

In the current year, the Group has applied for the first time the following new or revised HKFRSs which are relevant to and effective for the Group’s consolidated financial statements for the annual period beginning on 1 January 2016:

HKFRSs (Amendments)	Annual Improvements to HKFRSs 2012–2014 Cycle
Amendments to HKAS 1	Disclosure Initiative
Amendments to HKAS 16 and HKAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to HKAS 27	Equity Method in Separate Financial Statement

The adoption of the above amendments had no material impact on the Group’s consolidated financial statements.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

2. ADOPTION OF HKFRSs (Continued)

(b) New or revised HKFRSs that have been issued but are not yet effective

The following new or revised HKFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group. The Group's current intention is to apply these changes on the date they become effective.

Amendments to HKAS 7	Disclosure Initiative ¹
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses ¹
Amendments to HKFRS 2	Classification and Measurement of Share-Based Payment Transactions ²
HKFRS 9 (2014)	Financial Instruments ²
HKFRS 15	Revenue from Contracts with Customers ²
Amendments to HKFRS 15	Revenue from Contracts with Customers (Clarifications to HKFRS 15) ²
HKFRS 16	Leases ³

¹ Effective for annual periods beginning on or after 1 January 2017

² Effective for annual periods beginning on or after 1 January 2018

³ Effective for annual periods beginning on or after 1 January 2019

The directors anticipate that all of the pronouncements will be adopted in the Group's accounting policy for the first period beginning after the effective date of the pronouncements. Information on new or revised HKFRSs that are expected to have impact on the Group's accounting policies is provided below. The directors are currently assessing the impact of other new or revised HKFRSs upon initial application but are not yet in a position to state whether they would have material financial impact on the Group's financial position or performance.

Amendments to HKAS 7 – Disclosure Initiative

The amendments introduce an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities.

Amendments to HKAS 12 – Recognition of Deferred Tax Assets for Unrealised Losses

The amendments relate to the recognition of deferred tax assets and clarify some of the necessary considerations, including how to account for deferred tax assets related to debt instruments measured of fair value.

Amendments to HKFRS 2 – Classification and Measurement of Share-Based Payment Transactions

The amendments provide requirements on the accounting for the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; share-based payment transactions with a net settlement feature for withholding tax obligations; and a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

2. ADOPTION OF HKFRSs (*Continued*)

(b) New or revised HKFRSs that have been issued but are not yet effective (*Continued*)

HKFRS 9 – Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at fair value through other comprehensive income if the objective of the entity's business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at fair value through other comprehensive income. All other debt and equity instruments are measured at fair value through profit or loss.

HKFRS 9 includes a new expected loss impairment model for all financial assets not measured at fair value through profit or loss replacing the incurred loss model in HKAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities designated at fair value through profit or loss, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

HKFRS 15 – Revenue from Contracts with Customers

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. HKFRS 15 supersedes existing revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and related interpretations.

HKFRS 15 requires the application of a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

HKFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under HKFRSs. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

2. ADOPTION OF HKFRSs (*Continued*)

(b) New or revised HKFRSs that have been issued but are not yet effective (*Continued*)

Amendments HKFRS 15 – Revenue from Contracts with Customers (Clarifications to HKFRS 15)

The amendments to HKFRS 15 included clarifications on identification of performance obligations; application of principal versus agent; licenses of intellectual property; and transition requirements.

HKFRS 16 – Leases

HKFRS 16, which upon the effective date will supersede HKAS 17 “Leases” and related interpretations, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under HKFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, HKAS 17.

In respect of the lessor accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group is not yet in a position to state whether these new pronouncements will result in substantial changes to the Group’s accounting policies and financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation

The significant accounting policies that have been used in the preparation of consolidated financial statements are summarised below. These policies have been consistently applied to all the years presented unless otherwise stated. The adoption of new or revised HKFRSs and the impacts on the Group's consolidated financial statements, if any, are disclosed in note 2.

The consolidated financial statements have been prepared on the historical cost basis except for available-for-sale financial assets, financial assets at fair value through profit or loss and financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company which are measured at fair values as explained in the accounting policies below.

It should be noted that accounting estimates and assumptions are used in preparation of consolidated financial statements. Although these estimates are based on management's best knowledge and judgement of current events and actions, actual results may ultimately differ from those estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

3.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective dates of acquisition or up to the effective dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Acquisition of subsidiaries or businesses is accounted for using acquisition method. The cost of an acquisition is measured at the aggregate of the acquisition-date fair value of assets transferred, liabilities incurred and equity interests issued by the Group, as the acquirer. The identifiable assets acquired and liabilities assumed are principally measured at acquisition-date fair value. The Group's previously held equity interest in the acquiree is re-measured at acquisition-date fair value and the resulting gains or losses are recognised in profit or loss. The Group may elect, on a transaction-by-transaction basis, to measure non-controlling interest that represents a present ownership interest in the subsidiary either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other non-controlling interests are measured at fair value unless another measurement basis is required by HKFRSs. Acquisition-related costs incurred are expensed unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

3.2 Basis of consolidation *(Continued)*

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

3.3 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and rendering of services and the use by others of the Group's assets yielding interests and dividends, net of rebates and discounts. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised as follows:

- Interest income from loans receivable is recognised on a time-proportion basis using the effective interest method by applying the rate discounting the estimated future cash receipts over the expected life of the financial instrument to the net carrying amount of financial assets.
- Bank interest income is recognised on a time-proportion basis using the effective interest method.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

3.4 Foreign currency translation

In the individual financial statements of the consolidated entities, foreign currency transactions are translated into the functional currency of the individual entity using the exchange rates prevailing at the dates of the transactions. At reporting date, monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the reporting date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the reporting date retranslation of monetary assets and liabilities are recognised in profit or loss.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined and the exchange gain or loss so arising are reported as part of the fair value gain or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

In the consolidated financial statements, all individual financial statements of foreign operations, originally presented in a currency different from the Group's presentation currency have been converted into HK\$. Assets and liabilities have been translated into HK\$ at the closing rates at the reporting date. Income and expenses have been converted into HK\$ at the exchange rates ruling at the transaction dates, or at the average rates over the reporting period provided that the exchange rates do not fluctuate significantly. Any differences arising from this procedure have been recognised in other comprehensive income and accumulated separated in the exchange reserve in equity.

Goodwill and fair value adjustments arising on the acquisition of a foreign operation on or after 1 January 2005 have been treated as assets and liabilities of the foreign operation and translated into HK\$ at the closing rates. Goodwill arising on the acquisitions of foreign operations before 1 January 2005 is translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

On disposal of a foreign operation, the cumulative exchange differences recognised in the exchange reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

3.5 Borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.6 Goodwill

Goodwill represents the excess of the consideration transferred and the amount recognised for non-controlling interests over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. The consideration transferred is measured at the aggregate of fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit to which goodwill has been allocated is tested for impairment annually (note 3.9).

Any excess of the Group's interest in net fair value of acquirer's identifiable assets, liabilities and contingent liabilities over the consideration transferred is recognised immediately in profit or loss.

On subsequent disposal of a subsidiary, the attributable amount of goodwill capitalised is included in the determination of the amount of gain or loss on disposal.

3.7 Segment reporting

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the management for their decisions about resources allocation to the Group's business components and for their review of the performance of those components. The business components in the internal financial information reported to the management are determined following the Group's major product and service lines.

The Group has identified two reportable segments:

- (a) "Property development" segment which is engaged in property development business in the People's Republic of China ("PRC"); and
- (b) "Financial services" segment which is engaged in provision of investment advisory and asset management services and money lending business

Each of these operating segments is managed separately as each of the product and service line requires different resources as well as marketing approaches. All inter-segment transfers, if any, are carried out at arm's length prices.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.8 Property, plant and equipment

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and impairment losses (note 3.9). The cost of an asset comprises its purchase price and the costs directly attributable to the acquisition of items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other costs, such as repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Depreciation on property, plant and equipment is provided using the straight-line method to write off the cost less their residual values over their estimated useful lives, as follows:

Leasehold improvement	3 years or over the lease term, whichever is shorter
Furniture and office equipment	4 to 5 years
Motor vehicles	5 years

The assets' residual values, depreciation methods and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period.

The gain or loss arising on the disposal of an item of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

3.9 Impairment of non-financial assets

Goodwill, property, plant and equipment and interests in subsidiaries are subject to impairment testing.

Goodwill is tested for impairment at least annually, irrespective of whether there is any indication that they are impaired. All other assets are tested for impairment whenever there are indications that the asset's carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's carrying amount exceeds its recoverable amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs to sell, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a cash generating unit). As a result, some assets are tested individually for impairment and some are tested at cash generating unit level. Goodwill in particular is allocated to those cash generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which the goodwill is monitored for internal management purpose.

Impairment losses recognised for cash generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the cash generating unit, except that the carrying value of an asset will not be reduced below its individual fair value less cost to sell, or value in use, if determinable.

An impairment loss on goodwill is not reversed in subsequent periods including impairment losses recognised in an interim period. In respect of other assets, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.10 Leases

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

OPERATING LEASE CHARGES AS THE LESSEE

Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases. Where the Group has the right to use of assets held under operating leases, payments made under the leases are charged to profit or loss on a straight-line basis over the lease terms except where an alternative basis is more representative of the time pattern of benefits to be derived from the leased assets. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made, over the term of lease. Contingent rental are charged to profit or loss in the accounting period in which they are incurred.

Leasehold interests in land represent up-front payments to acquire the land use rights. Certain leasehold interests in land are included in properties under development (note 3.13).

3.11 Financial assets

The Group's financial assets are classified as loans and receivables, financial assets at fair value through profit or loss and available-for-sale financial assets. Management determines the classification of its financial assets at initial recognition, depending on the purpose for which the financial assets were acquired and where allowed and appropriate, re-evaluates this designation at every reporting date.

All financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the instrument. Regular way purchases of financial assets are recognised on trade date. When financial assets are recognised initially, they are measured at fair value plus, in the case of investments not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets.

Derecognition of financial assets occurs when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKAS 39.

LOANS AND RECEIVABLES

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest method, less any impairment losses. Amortised cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction cost.

The effective interest method is a method of calculating the amortised cost of the financial instruments and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instruments, or where appropriate, a shorter period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.11 Financial assets (Continued)

FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets at fair value through profit or loss are mainly financial assets held for trading and they may be designated upon initial recognition as at fair value through profit or loss. They are classified as held for trading if they are acquired for the purpose of selling in the near term, or it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit-taking. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value, with changes in fair value recognised in profit or loss in the period in which they arise. Fair value is determined by reference to active market transactions or using a valuation technique where no active market exists.

AVAILABLE-FOR-SALE FINANCIAL ASSETS

These assets are non-derivative financial assets that are designated as available-for-sale or are not included in other categories of financial assets. Subsequent to initial recognition, these assets are carried at fair value with changes in fair value recognised in other comprehensive income, except for impairment losses and foreign exchange gains and losses on monetary instruments, which are recognised in profit or loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses.

IMPAIRMENT LOSS ON FINANCIAL ASSETS

At each reporting date, financial assets are reviewed to assess whether there is objective evidence of impairment. If any such evidence exists, impairment loss is determined and recognised based on the classification of the financial asset. Objective evidence of impairment of individual financial assets includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- granting concession to a debtor because of debtor's financial difficulty; and
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation.

If any such evidence exists, the impairment loss is measured and recognised as follows:

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.11 Financial assets (Continued)

LOANS AND RECEIVABLES

For the loans and receivables carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment for impairment.

The amount of any impairment identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced either directly or through the use of an allowance account and the loss is recognised in profit or loss of the period in which the impairment occurs. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in subsequent period, the amount of the estimated impairment loss increase or decrease because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. When the Group is satisfied that recovery of loans receivable is remote, the amount considered irrecoverable is written off against loans receivable directly and any amounts held in the allowance account in respect of that receivable are reversed. If a write-off is later recovered, the recovery is credited to profit or loss.

AVAILABLE-FOR-SALE FINANCIAL ASSETS

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the asset is impaired, an amount is removed from equity and recognised in profit or loss as an impairment loss. That amount is measured as the difference between the asset's acquisition cost (net of any principal repayment and amortisation) and current fair value, less any impairment loss on that asset previously recognised in profit or loss.

Any impairment losses on available-for-sale debt investments are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investment, any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.12 Accounting for income tax

Income tax comprises current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates appropriate to the expected manner in which the carrying amount of the asset or liability is realised or settled and that have been enacted or substantively enacted at the end of reporting period.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income or when they relate to items recognised directly in equity in which case the taxes are also recognised directly in equity.

Current tax assets and current tax liabilities are presented in net if, and only if,

- (a) the Group has the legally enforceable right to set off the recognised amounts; and
- (b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Group presents deferred tax assets and deferred tax liabilities in net if, and only if,

- (a) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - (i) the same taxable entity; or
 - (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.13 Properties under development

Properties held under development for future sale in the ordinary course of business are included in current assets and comprise certain land held under operating lease (note 3.10), capitalised depreciation of certain property, plant and equipment (note 3.8), borrowing costs capitalised (note 3.5) and aggregate cost of development, materials and constructions, wages, other direct expenses and an appropriate portion of overheads.

Properties under development are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated selling expenses.

On completion, the properties are transferred to properties held for sale.

Properties under development are classified as current assets unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

3.14 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand.

3.15 Share capital and share premium

Ordinary shares are classified as equity. Share capital is determined using the nominal value of shares that have been issued.

Share premium includes any premiums received on the issuance of share over the par value. Any transaction costs associated with the issuing of shares are deducted from the share premium (net of any related income tax benefit) to the extent that they are incremental costs directly attributable to the equity transaction.

3.16 Pension obligations and employee benefits

DEFINED CONTRIBUTION PLAN

Pensions to employees are provided through a defined contribution plan.

A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. The Group has no legal or constructive obligations to pay further contributions after payment of the fixed contribution.

The contributions recognised in respect of defined contribution plans are expensed as they fall due. Liabilities and assets may be recognised if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.16 Pension obligations and employee benefits (Continued)

DEFINED CONTRIBUTION PLAN (Continued)

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance, for all of its employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees’ basic salaries and are charged to profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group’s subsidiaries which operate in the PRC are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of its payroll costs to the central pension scheme. The Scheme is responsible for the entire pension obligations payable to the retired employees and the obligation of the Group under these plans is limited to the fixed percentage contribution payable. Contributions under the Scheme are recognised as an expense in profit or loss as employees rendered services during the year.

SHORT-TERM EMPLOYEE BENEFITS

Short term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short term employee benefits are recognised in the year when the employees render the related service.

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

Non-accumulating compensated absences such as sick leave and maternity leave are not recognised until the time of leave.

3.17 Share-based employee compensation

SHARE OPTION SCHEME

The Group operates equity settled share-based compensation plan for remuneration of its employees.

All employee services received in exchange for the grant of any share-based compensation are measured at their fair values. These are indirectly determined by reference to the share options awarded. Their value is appraised at the grant date and excludes the impact of any non-market vesting conditions.

Upon exercise of share options, the amount previously recognised in employee compensation reserve and the proceeds received net of any directly attributable transaction costs up to the nominal value of the share issued are reallocated to share capital with any excess being recorded as share premium. When the share options are lapsed, forfeited or still not exercised at the expiry date, the amount previously recognised in employee compensation reserve will be transferred to retained profits.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

3.17 Share-based employee compensation *(Continued)*

SHARE AWARD SCHEME *(Continued)*

The Group operates a share award plan which allows it to issue equity-settled share-based payments to selected employees.

For the award granted to the employees, the fair value of the employee services received in exchange for the grant of the share award is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the share awards granted. At each reporting date, the Group revises its estimates of the number of share awards that are expected to vest. It recognises the impact of the revision of original estimates, if any, in profit or loss, with a corresponding adjustment to equity. The share award plan also allows the Group to issue other shares to selected employees, the fair value of the awards granted and measured as the Group's liability at the end of each reporting period, taking into account the terms and conditions on which the other shares are awarded.

All share-based compensation is recognised as an expense in profit or loss unless it qualifies for recognition as asset. If vesting periods or other vesting conditions apply, the expense is recognised over the vest period, based on the best available estimate of the number of share options expected to vest. Non-market vesting conditions are included in assumptions about the number of share options that are expected to become exercisable. Estimates are subsequently revised, if there is any indication that the number of share options expected to vest differs from previous estimates. No adjustment to expense recognised in prior periods is made if fewer share options ultimately are exercised than originally vested.

3.18 Financial liabilities

The Group's financial liabilities are classified as financial liabilities at fair value through profit or loss and financial liabilities at amortised cost. Management determines the classification of its financial liabilities at initial recognition depending on the purpose for which the financial liabilities were incurred.

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities at fair value through profit or loss are initially measured at fair value and financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amount is recognised in profit or loss.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

3.18 Financial liabilities *(Continued)*

FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in profit or loss.

Where a contract contains one or more embedded derivatives, the entire hybrid contract may be designated as a financial liability at fair value through profit or loss, except where the embedded derivative does not significantly modify the cash flows or it is clear that separation of the embedded derivative is prohibited.

Financial liabilities may be designated upon initial recognition as at fair value through profit or loss if the following criteria are met: (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the liabilities or recognising gains or losses on them on a different basis; (ii) the liabilities are part of a group of financial liabilities which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) the financial liability contains an embedded derivative that would need to be separately recorded.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, with changes in fair value recognised in profit or loss in the period in which they arise.

OTHER FINANCIAL LIABILITIES

Subsequent to initial recognition, other financial liabilities are measured at amortised cost, using the effective interest method. All interest related charges are recognised in accordance with the Group's accounting policy for borrowing costs (note 3.5).

3.19 Provisions and contingent liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.19 Provisions and contingent liabilities (Continued)

When it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future uncertain events not wholly within the control of the Group are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Contingent liabilities are recognised in the course of the allocation of purchase price to the assets and liabilities acquired in a business combination. They are initially measured at fair value at the date of acquisition and subsequently measured at the higher of the amount that would be recognised in a comparable provision as described above and the amount initially recognised less any accumulated amortisation, if appropriate.

3.20 Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions apply:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a);

(b) An entity is related to the Group if any of the following conditions apply: *(Continued)*

- (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity); or
- (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Group makes estimates and assumptions concerning the future. Such estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. The resulting accounting estimates will, by definition, rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

(a) Critical judgements in applying accounting policies

(i) DEPRECIATION

The Group depreciates the property, plant and equipment on a straight-line basis over the estimated useful lives, starting from the date on which the assets are available for use, in accordance with accounting policy stated in note 3.8. The estimated useful lives reflect the directors' estimate of the periods that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment.

(ii) ESTIMATED IMPAIRMENT OF GOODWILL

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy stated in note 3.9. The recoverable amounts of cash generating units have been determined based on value-in-use calculations. These calculations require the use of estimates about future cash flows and discount rates. In the process of estimating expected future cash flows management makes assumptions about future revenues and profits. These assumptions relate to future events and circumstances. The actual results may vary and may cause a material adjustment to the carrying amount of goodwill within the next financial year. Determining the appropriate discount rate involves estimating the appropriate adjustment for market risk and for asset specific risk factors.

(iii) PROVISION OF IMPAIRMENT OF PROPERTIES UNDER DEVELOPMENT

The Group reviews the estimation of net realisable value of the properties under development at the end of each reporting period, and makes provision for impairment loss, if any. These estimates are based on the management's monitoring of the development progress, and the market conditions which may affect the future cost and the sales price. It could change as a result of changes in market conditions or internal factors of the Group. Such changes will have impact on the net realisable value of the properties under development and the provision for impairment in the period, and therefore the Group need to reassess these estimates at the end of each reporting period.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

(b) Key sources of estimation uncertainty

In addition to information disclosed elsewhere in these consolidated financial statements, other key sources of estimation uncertainty that have a significant risk of resulting a material adjustment to the carrying amounts of assets and liabilities within the next financial year are as follows:

FAIR VALUE MEASUREMENT

A number of assets and liabilities included in the Group's consolidated financial statements require measurement at, and/or disclosure of, fair value.

The fair value measurement of the Group's financial assets and financial liabilities utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the 'fair value hierarchy'):

- Level 1: unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: observable direct and indirect inputs other than quoted prices included within Level 1; and
- Level 3: unobservable inputs are inputs for which market data are not available.

The classification of an item into the different levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfer of items between levels is recognised in the period they occur.

The Group measures a number of items at fair value:

- Financial assets at fair value through profit or loss (note 20)
- Available-for-sale financial assets (note 17)
- Financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company (note 17)

For more detailed information in relation to the fair value measurement of the items above, please refer to the applicable notes.

5. REVENUE

There was no revenue recorded for the Group's property development projects for the years ended 31 December 2016 and 2015. Since the Group's property development projects are still in development stage, the Group will resume and recognise revenue upon the projects' completion and sale.

During the year, the Group has recorded interest income from loans receivable for financial services related business.

As at 31 December 2016, the Group has estimated unused tax losses of approximately HK\$109,851,000 (2015: HK\$87,421,000) which were available for offset against future profits. No deferred tax asset has been recognised in respect of the estimated tax losses due to the unpredictability of future profit streams. The amount of estimated tax losses that have no expiry date is approximately HK\$105,953,000 (2015: HK\$82,865,000) and the remaining tax losses of approximately HK\$3,898,000 (2015: HK\$4,556,000) are subject to expiry period of five years.

11. DIVIDEND

As published in the circular of the Company dated 31 August 2016 (the “Circular”) and the joint announcement of the Company and South China Holdings Company Limited (“SCHC”) dated 29 July 2016 (the “Joint Announcement”), the Board resolved to declare a special dividend by distribution of 2,235,406,996 redeemable convertible preference shares (“Distribution CPSs”) currently held by Crystal Hub Limited, a wholly-owned subsidiary of the Company, to shareholders. Such distribution has been approved in the extraordinary general meeting dated 19 September 2016 and the settlement of dividends has been made to respective shareholders on 3 October 2016. Upon the approval of the distribution in species, the fair value of the Distribution CPSs was approximately HK\$1,754,618,000. The Group recognised fair value change of dividend payable of approximately HK\$176,429,000 in equity from the date of approval to the date of distribution. Details of the transaction are disclosed in the Circular and in the Joint Announcement.

Save for such special dividend, no interim dividend was paid during the year (2015: Nil). The Board does not recommend the payment of a final dividend for the year ended 31 December 2016 (2015: Nil).

12. (LOSS)/EARNINGS PER SHARE ATTRIBUTABLE TO EQUITY HOLDERS OF THE COMPANY

The calculation of the basic (loss)/earnings per share attributable to equity holders of the Company is based on the following data:

	2016 HK\$'000	2015 HK\$'000
(Loss)/profit for the year attributable to equity holders of the Company, used in the basic (loss)/earnings per share calculation	(292,580)	48,062
Weighted average number of ordinary shares in issue during the year	11,178,498,344	11,178,498,344
Less: Weighted average number of shares held for share award scheme	(169,747,424)	(174,104,663)
Weighted average number of ordinary shares used in the basic (loss)/earnings per share calculation	11,008,750,920	11,004,393,681

Diluted (loss)/earnings per share for the years ended 31 December 2016 and 2015 are the same as the basic (loss)/earnings per share. No share option was granted during the years ended 31 December 2016 and 2015. The Company's share options have no dilution effect for the years ended 31 December 2016 and 2015 because the exercise price of the Company's share options were higher than the average market price of the share for the years.

16. GOODWILL

The net carrying amount of goodwill is analysed as follows:

	2016 HK\$'000	2015 HK\$'000
At 1 January		
Gross and net carrying amount	16,986	355,326
For the year ended		
Net carrying amount at the beginning of year	16,986	355,326
Disposal of subsidiaries (note 38)	–	(338,000)
Exchange realignment	(779)	(340)
Net carrying amount at the end of year	16,207	16,986
At 31 December		
Gross and net carrying amount	16,207	16,986

The carrying amount of goodwill, net of any impairment loss, is allocated to the cash generating units of property development.

The recoverable amount for the cash generating units was determined based on the value-in-use calculations, covering a detailed four-year budget plan which represents the business cycle and strategy plan of the Group's property development segment and discount rate of 7% (2015: 6%) estimated by the management.

The key assumption has been determined based on past performance and expectations for the market development after taking into consideration published market forecast and research. The discount rate used is pre-tax rate and reflects specific risks relating to the relevant segment.

Apart from the considerations described in determining the value-in-use of the cash generating units above, the Group's management is not currently aware of any other probable changes that would necessitate changes in its key estimates. However, the key estimates are particularly sensitive to the market development.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

17. AVAILABLE-FOR-SALE FINANCIAL ASSETS AND FINANCIAL LIABILITIES IN RESPECT OF REDEMPTION OPTION EMBEDDED IN REDEEMABLE CONVERTIBLE PREFERENCE SHARES OF A RELATED COMPANY

Available-for-sale financial assets represented the redeemable convertible preference shares issued by a related company which listed on the Main Board of the Stock Exchange and was designated as available-for-sale financial assets by the Group.

Financial liabilities in respect of redemption option embedded in redeemable convertible preference shares represented the embedded derivative related to the redeemable convertible preference shares issued by a related company classified as derivative financial liabilities. The embedded derivative has economic characteristics and risks not closely related to the host contract.

The fair values of the host equity instrument element and redeemable option element as at 31 December 2016, are determined by the directors of the Company with reference to the valuation carried out at that date by BMI Appraisals Limited, an independent qualified professional valuer not connected to the Group.

The movement of the carrying amounts of the host equity instrument element and redeemable option element for the year, is as follows:

	Host equity instrument element	Redeemable option element
	HK\$'000	HK\$'000
Net carrying amount at 1 January 2015	1,510,435	(119,094)

Redeemed during the year	(62,467)	604
Change in fair value		
– credited to equity	(622,265)	–
– charged to profit or loss	–	14,888
Distributed in species (note 11)	(1,605,431)	27,242
Net carrying amount at year end	425,622	(11,529)

Pursuant to the extraordinary general meeting held on 23 December 2016 by the related company, the related company had proposed bonus issue and allotment of bonus shares to its shareholders and its holders of redeemable convertible preference shares issued on 7 October 2015, on the basis of 1 bonus share (the “Bonus Share(s)”) for every 4 shares. Accordingly, 212,405,565 bonus shares offered by the related company were received by the Company on 9 January 2017, while the number of redeemable convertible preference shares held by the Company remained unchanged.

18. LOANS RECEIVABLE

The Group's loans receivable arose from the money lending business acquired during the year. Loans receivable bear interest determined on case by case basis and have credit periods mutually agreed between the contractual parties.

	2016 HK\$'000	2015 HK\$'000
Loans receivable	15,284	15,521
Less: provision for impairment losses	(5,292)	(1,403)
	9,992	14,118
Less: Non-current portion	(3,820)	(4,474)
Current portion	6,172	9,644

The loans receivable relate to a diversified portfolio of customers and there is no significant concentration of credit risk.

The loans receivable at the end of the reporting period are analysed by the remaining period to the contractual maturity date as follows:

	2016 HK\$'000	2015 HK\$'000
Repayable:		
On demand	282	190
Within 3 months	1,852	3,180
3 months to 1 year	4,038	6,274
1 to 5 years	3,820	4,474
	9,992	14,118

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

18. LOANS RECEIVABLE (Continued)

Movements in the provision for impairment of loans receivable are as follows:

	2016 HK\$'000	2015 HK\$'000
At 1 January	1,403	–
Acquisition of subsidiaries	–	941
Impairment losses recognised (note 8)	3,889	462
At 31 December	5,292	1,403
Recovery of loans receivable written off in previous years (note 8)	362	33

Included in the above impairment of loans receivable is a provision for individually impaired loans receivable of approximately HK\$5,212,000 (2015: HK\$1,131,000) and collectively impaired loans receivable of approximately HK\$80,000 (2015: HK\$272,000) as at 31 December 2016 with carrying amounts before provision of approximately HK\$9,692,000 (2015: HK\$5,798,000) and HK\$5,592,000 (2015: HK\$9,723,000), respectively. The individually impaired loans receivable relate to customers that were in default or delinquency in payments or entered bankruptcy or other financing reorganisation and only a portion of the receivables is expected to be recovered.

The ageing analysis of the loans receivable that are neither individually nor collectively considered to be impaired is as follows:

	2016 HK\$'000	2015 HK\$'000
Neither past due nor impaired	9,710	13,928
1–90 days past due	126	132
91–180 days past due	156	58
	9,992	14,118

Loans receivable that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

As at 31 December 2016, the Group does not hold any collateral nor other credit enhancement over these balances in general. As at 31 December 2015, except for the carrying amount of loans receivable of approximately HK\$778,000, the Group does not hold any collateral or other credit enhancement over these balances in general.

Notes:

- (i) One of the Group's property projects was under legal proceedings with certain land bureaus in Shenyang, the PRC (collectively referred as the "Shenyang Bureau"), and the Group has been negotiating for compensation and related reliefs (the "Claims") as the Shenyang Bureau has not fulfilled the agreed demolition work on the site. The related property construction plan has been terminated and therefore, corresponding properties under development with carrying amount of approximately HK\$27,763,000 has been transferred to other receivables. Subsequent to the reporting date, on 2 March 2017, the Supreme People's Court of the PRC has ruled in favor of the Group's Claims in the legal proceedings.
- (ii) During the year ended 31 December 2015, the Group has assessed development status for the Group's property projects in the PRC (the "PRC Projects"), and considered that one of the PRC Projects recorded shortfall upon its carrying amount with the recoverable amount in the properties under development (the "Shortfall"). As at 31 December 2015, such Shortfall of approximately HK\$13,930,000, in the opinion of the directors, is unlikely to be recovered and impaired accordingly.

20. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets at fair value through profit or loss as at 31 December 2016 and 2015 represented the listed equity securities. Fair value of the listed equity securities has been determined by reference to their quoted bid prices at the reporting date in an active market.

Notes to Consolidated Financial Statements
For the year ended 31 December 2016

21. DEPOSITS PAID, PREPAYMENTS AND OTHER RECEIVABLES

	2016 HK\$'000	2015 HK\$'000
Deposits paid for land use rights in the PRC	280,781	300,578
Prepayments	2,078	2,409
Other receivables and deposits paid	47,836	24,618
	330,695	327,605
Less: Non-current portion	–	(208)
Current portion	330,695	327,397

During the year, the Group assessed and concluded that the other receivable with carrying amount of approximately HK\$1,689,000 is unlikely to be recovered and impaired accordingly.

Except for above-mentioned, the remaining other receivables were neither past due nor impaired and their carrying amounts approximate to their fair values.

22. CASH AND BANK BALANCES

Cash at banks earns interest at the floating rates based on the daily bank deposit rates.

As at 31 December 2016, the Group had cash and bank balances denominated in Renminbi (“RMB”) of approximately HK\$2,504,000 (2015: HK\$1,847,000) deposited with the banks in the PRC. RMB is not freely convertible into foreign currencies. Under the PRC Foreign Exchange Control Regulations and Administration of Settlement, Sales and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for foreign currencies through banks that are authorised to conduct foreign exchange business.

The fair values of the cash at banks are not materially different from their carrying amounts because of the short maturity period on their inception.

23. TRADE PAYABLES

The credit terms of trade payables vary according to the terms agreed with different suppliers. Ageing analysis of trade payables as at the reporting dates, based on the invoice dates, is as follows:

	2016 HK\$'000	2015 HK\$'000
Over 180 days	1,564	1,674

The balances are short term in nature and hence, the directors consider that the carrying amounts of trade payables are approximate to their fair values.

Notes to Consolidated Financial Statements
For the year ended 31 December 2016

24. OTHER PAYABLES, ACCRUED EXPENSES AND RECEIPTS IN ADVANCE

	2016 HK\$'000	2015 HK\$'000
Other payables	2,949	1,941
Accrued expenses (note)	136,491	113,051
Receipts in advance	15,302	16,381
	154,742	131,373

Note:

As at 31 December 2016, accrued expenses included accrued interest expenses on the loans from shareholders of approximately HK\$134,838,000 (2015: HK\$112,296,000) in respect of the loans made available to the Group. The other payables were unsecured, non-interest bearing and repayable on demand.

25. INTEREST-BEARING BANK BORROWING

	2016 HK\$'000	2015 HK\$'000
Current		
Bank loan due for repayment which contain a repayment on demand clause – unsecured and guaranteed	11,000	7,000

The bank loan bears interest at floating rate of 2.5% per annum above the HIBOR, and is guaranteed by a related company. The Group's banking facilities are amounting to HK\$15,000,000, of which HK\$11,000,000 (2015: HK\$7,000,000) have been utilised as at 31 December 2016.

26. LOANS FROM SHAREHOLDERS AND A RELATED COMPANY

As at 31 December 2016 and 2015, loans from shareholders are unsecured and bear interest at floating rate with reference to the prime lending rate as established from time to time by The Hongkong and Shanghai Banking Corporation Limited, except for the loans from shareholders amounted to HK\$7,000,000 (2015: HK\$7,000,000) which are interest free.

As at 31 December 2016, no repayment on the loans from shareholders is required whether in part or in full on or before 31 December 2017. As at 31 December 2015, no repayment on the loans from shareholders is required whether in part or in full on or before 31 December 2016. The directors of the Company consider that the fair values of the loans are not materially different from their carrying amounts as at 31 December 2016 and 2015.

As at 31 December 2016 and 2015, loan from a related company is unsecured and bears interest at floating rate with reference to the prime lending rate as established from time to time by The Hongkong and Shanghai Banking Corporation Limited. It is classified as current liability as the related loan agreement contains a clause that provides the lender with an unconditional right to demand repayable at any time. The directors of the Company consider that the fair value of the loan is not materially different from its carrying amount as at 31 December 2016 and 2015.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

27. AMOUNTS DUE FROM/(TO) RELATED COMPANIES

The balances as at 31 December 2016 were unsecured, interest free and repayable on demand.

As at 31 December 2016, the amount due from a related party, in which key management personnel of the Company is the major shareholder, represents receivable of approximately HK\$112,000. The maximum amount due from the related party during the year amounted to approximately HK\$112,000.

As at 31 December 2015, the balance of HK\$28,777,000 represented the amounts payable to related companies in relation to the disposal of subsidiaries, as set out in note 38. The balance as at 31 December 2015 was unsecured and interest free, repayable within two months from the date on which the completion accounts of the Disposal Groups (as below-mentioned in note 38) are delivered to the Purchasers (as below-mentioned in note 38). The balance has been fully settled during the year.

29. SHARE OPTION SCHEME

The 2012 Share option scheme (the "2012 Scheme")

The Company's 2012 Scheme was approved by shareholders of the Company and became effective on 8 May 2012.

Particulars of the 2012 Scheme as required under the GEM Listing Rules are set out below:

(A) SUMMARY OF THE 2012 SCHEME

(i) Purpose of the 2012 Scheme

The purpose of the 2012 Scheme is to provide incentives or rewards to the Employees (as defined in sub-section headed "Participants of the 2012 Scheme" below) and other person(s) for their contribution to the Group and to enable the Group to attract and retain employees of appropriate qualifications and with necessary experience to work for the Group and any entity in which any member of the Group holds any equity interest.

29. SHARE OPTION SCHEME (Continued)

The 2012 Share option scheme (the "2012 Scheme") (Continued)

(A) SUMMARY OF THE 2012 SCHEME (Continued)

(ii) Participants of the 2012 Scheme

The board of directors of the Company (the "Board") or a duly authorised committee thereof, may, at its discretion, grant options to any full time or part time employee (including any executive and non-executive director or proposed executive and non-executive director) of the Group (the "Employees"), business partner, agent, consultant, contractor, representative of any member of the Group, invested entity, client or supplier, advisor, any other group or classes of participants and shareholder who have contributed to the Group (collectively the "Participants"), to subscribe for shares of HK\$0.01 each in the share capital of the Company ("Shares") in accordance with the provisions of the 2012 Scheme.

(iii) Total number of Shares available for issue under the 2012 Scheme

The total number of Shares available for issue under the share options, which may be granted under the 2012 Scheme shall not exceed 1,117,849,834 Shares, being 10% of the total number of Shares in issue as at the date of passing the resolution to adopt the 2012 Scheme.

(iv) Maximum entitlement of each participant

No Participants shall be granted an option if total number of Shares issued and to be issued upon exercise of the options granted and to be granted (including both exercised, cancelled and outstanding options) in any 12-month period up to and including the date of grant to such participant would exceed in aggregate 1% of the Shares for the time being in issue unless the proposed grant has been approved by the shareholders of the Company in general meeting with the proposed grantee and his associates (as defined in the GEM Listing Rules) abstaining from voting.

(v) Period within which the Shares must be taken up under an option

An option may be exercised in accordance with the terms of the 2012 Scheme at any time during a period as the Board may determine which shall not be more than ten years from the date of grant of the option subject to the provisions of early termination thereof and the Board may provide restrictions on the exercise of an option during the period an option may be exercised.

29. SHARE OPTION SCHEME *(Continued)*

The 2012 Share option scheme (the “2012 Scheme”) (Continued)

(A) SUMMARY OF THE 2012 SCHEME *(Continued)*

- (vi) Minimum period, if any, for which an option must be held before it can be exercised

At the time of granting an option, the Board may, at its discretion, specify the minimum period(s), if any, for which an option must be held before it can be exercised.

- (vii) Amount payable upon acceptance of the option and the period within which the payment must be made

HK\$1.00 shall be paid within 28 days from the date of offer of the option.

- (viii) Basis of determining the exercise price of the option

The exercise price for Shares under the 2012 Scheme shall be a price determined by the Board, but in any case will not be less than the highest of:

- (1) the closing price of the Shares as stated in the Stock Exchange’s daily quotations sheet on the date of the offer, which must be a trading day;
- (2) the average closing price of the Shares as stated in the Stock Exchange’s daily quotations sheets for the five trading days immediately preceding the date of the offer; or
- (3) the nominal value of a Share.

- (ix) Remaining life of the 2012 Scheme

Subject to early termination of the 2012 Scheme pursuant to the terms thereof, the 2012 Scheme shall be valid and effective for a period of 10 years commencing from the date on which the 2012 Scheme becomes effective, i.e. 8 May 2012 and ending on 7 May 2022.

During the year, the Company did not grant any share options under the 2012 Scheme (2015: Nil).

(B) DETAILS OF SHARE OPTIONS GRANTED OR OUTSTANDING (Continued)

Notes: (Continued)

- (v) The fair values of share options granted under the 2012 Scheme on 1 October 2013, 15 January 2014, 28 April 2014 and 7 May 2014 and measured at the respective date of grant was approximately HK\$44,289,000, HK\$1,118,000, HK\$848,000 and HK\$400,000 respectively. The following significant assumptions were used to derive the fair values, using the Black-Scholes option pricing model:

Date of grant	1 Oct 2013	15 Jan 2014	28 Apr 2014	7 May 2014
Expected volatility	54.276%	53.559%	52.875%	52.836%

Risk free interest rate	2.049%	2.306%	2.164%	2.040%
Expected dividend yield	Nil	Nil	Nil	Nil

The expected volatility is based on the historical volatility of the Company’s share price, adjusted for any expected changes to future volatility based on publicly available information. The expected life used in the model has been adjusted based on management’s best estimate.

- (vi) During the year, employee compensation expense of HK\$7,052,000 has been recognised in profit or loss (2015: HK\$7,818,000) with a corresponding credit in employee compensation reserve. No liabilities were recognised due to share-based payment transactions.
- (vii) Share options and weighted average exercise prices are as follows for the reporting period presented:

	2016		2015	
	Number	Weighted average exercise price HK\$	Number	Weighted average exercise price HK\$
Balance at 1 January	251,528,000	0.188	267,472,000	0.188

Balance at 31 December	251,528,000	0.188	251,528,000	0.188

The options outstanding at 31 December 2016 and 2015 had exercise prices of HK\$0.188 and a weighted average remaining contractual life of 6 years and 7 years, respectively.

30. SHARE AWARD SCHEME

A share award scheme (the “Share Award Scheme”) was adopted by the Board of the Company on 18 March 2011 (the “Adoption Date”). The specific objectives of the Share Award Scheme are to recognise the contributions by certain employees of the Group and to give incentive to them in order to retain them for the continual operation and development of the Group, and to attract suitable personnel for the development of the Group.

The Board may, from time to time, at its sole discretion select any employee (the “Selected Employee”) of any member of the Group for participation in the Share Award Scheme and determine the number of awarded shares to be awarded to the Selected Employees by taking into consideration matters including the general financial condition of the Group and the rank and performance of the relevant Selected Employee.

The Company shall settle a sum of up to and not exceeding HK\$50,000,000 for the purpose of purchase of such number of shares and/or other shares (as the case maybe) to be awarded by the Board to the Selected Employee(s) under the Share Award Scheme.

The Share Award Scheme shall be valid and effective for a term of 15 years commencing on the Adoption Date provided that no further settlement of the amount to the Trust Fund shall be made on or after 10th anniversary date of the Adoption Date.

Details of the Share Award Scheme are set out in the Company’s announcements dated 18 March 2011, 5 November 2013 and 7 December 2014.

In accordance with the Share Award Scheme, the Awards shall be released subject to the vesting periods ranged from 18 months to 33 months from the date of grant of the awards.

Awards granted, vested and forfeited of the Company’s shares during the year ended 31 December 2016 are as follows:

Name or category of participant	Date of grant	Balance as at 01/01/2016	Awards granted during the year	Aggregate Awards vested during the year	Aggregate Awards forfeited during the year	Balance as at 31/12/2016

Total		3,456,000	928,000	(4,384,000)	-	-

There were 656,000 share awards granted during the year ended 31 December 2016. The fair value of the share awards granted of the Company's shares under the Share Award Scheme during the year ended 31 December 2016 is approximately HK\$48,000 and measured at the date of grant. Fair value of an award at the grant date is determined by reference to the market price immediately available before the grant date. The share-based payment expenses for the Company's shares are recognised in profit or loss according to the vesting periods are approximately HK\$48,000 (2015: HK\$167,000) for the year ended 31 December 2016. 656,000 (2015: 4,384,000) shares were released under the Share Award Scheme for the year ended 31 December 2016. No shares were being forfeited during the year ended 31 December 2016 (2015: Nil).

No award was granted, vested and forfeited of the other shares during the year ended 31 December 2016.

Awards vested and forfeited of the other shares during the year ended 31 December 2015 are as follows:

Name or category of participant	Date of grant	Balance as at 01/01/2015	Shares subdivided during the year	Aggregate Awards vested during the year	Aggregate Awards forfeited during the year	Balance as at 31/12/2015
Employees in aggregate	28/01/2013	640,000	640,000	(1,280,000)	-	-
Total		640,000	640,000	(1,280,000)	-	-

No expenses (2015: HK\$425,000) for the other shares are recognised in profit or loss for the year ended 31 December 2016. No (2015: 1,280,000) other shares were being released under the Share Award Scheme for the year ended 31 December 2016. No other shares were being forfeited during the year ended 31 December 2016 and 2015.

31. RESERVES

The amount of the Group's reserves and the movements therein for the current and previous years are presented in the consolidated statement of changes in equity on pages 63 to 64.

(b) The Group's banking facilities of HK\$15,000,000 (2015: HK\$15,000,000) (note 25) were guaranteed by a related company and a counter guarantee was provided in return by the Company to the related company in relation to aforementioned banking facilities (the "Counter Guarantee"), pursuant to a deed of undertaking which is one of the terms agreed in the disposal transaction as detailed in note 38. The Counter Guarantee provided by the Company to the related Company, constitute continuing connected transactions as defined in Chapter 20 of the GEM Listing Rule.

(c) Details of the balances with related parties at the reporting date are included in notes 26 and 27 to the consolidated financial statements.

The above transactions were conducted in accordance with the terms mutually agreed between the Group and the related companies controlled by the directors.

(d) Compensation of key management personnel of the Group

Details of their remuneration are disclosed in notes 13 and 14 to the consolidated financial statements.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to a variety of financial risks which result from both its operating and investing activities. The Group does not have written risk management policies and guidelines. However, the Group's management meets periodically to analyse and formulate strategies to manage the Group's exposure to market risk, credit risk and liquidity risk. The Group's exposure to these risks is kept to a minimum. The Group has not used any derivatives or other instruments for hedging purpose.

The Group's financial assets include available-for-sale financial assets, financial assets at fair value through profit or loss, loans and other receivables, amount due from a related company and cash and bank balances. The Group's financial liabilities include trade and other payables, loans from a related company and shareholders, amounts due to related companies, interest-bearing bank borrowing, loan payable and financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company.

(a) Foreign currency risk

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group has foreign currency exposures. Such exposures arise from the balance of assets and liabilities in currencies other than the functional currency of the Group's entities. The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date that are considered significant by the directors are stated as follows:

	As at 31 December	
	2016 HK\$'000	2015 HK\$'000
Assets:		
RMB	15,552	17,787
Liabilities:		
RMB	(3,620)	(3,820)
Net exposure to foreign currency risk	11,932	13,967

The Group's policy requires the management monitors foreign exchange exposure by closely monitoring the movement of foreign currency rate and may enter into foreign currency options or forward contract, when and where appropriate.

The sensitivity analysis of the Group's exposure to foreign currency risk at the end of the year has been determined based on the assumed percentage changes in foreign currency exchange rates taking place at the beginning of the year and held constant throughout the years.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(a) Foreign currency risk (Continued)

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the next annual reporting date. Results of the analysis as presented in the below table represent an aggregation of the effects on each of the group entities' profit or loss and equity in regards to a 5% depreciation in their functional currencies against the foreign currencies. The analysis is performed on the same basis for 2015.

	Effect on profit or loss and equity	
	2016 HK\$'000	2015 HK\$'000
RMB	597	698

The same percentage appreciation in the functional currencies of the Group's entities against the respective foreign currencies would have the same magnitude on the Group's profit or loss and equity but of opposite effect.

(b) Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of changes in market interest rates. As the Group has no significant interest-bearing assets other than cash and bank balances, the income and operating cash flows are substantially independent of changes in market interest rates.

The Group's interest rate risk arises from interest-bearing bank borrowing, loans from shareholders and a related company which bore floating interest. These borrowings carry at variable rates expose the Group to cash flow interest rate risk.

The Group's objective is to manage its interest rate risk, working within an agreed framework, to ensure that there are no undue exposures to significant interest rate movements.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(b) Interest rate risk (Continued)

SENSITIVITY ANALYSIS

The following table demonstrates the sensitivity of the Group's profit or loss and equity at the reporting date to a reasonably possible change in interest rate, with all other variables held constant.

	Increase in interest rate %	Effect on profit or loss and equity HK\$'000
2016	0.5	(2,180)
2015	0.5	(181)

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of reporting period. The assumed changes in interest rates are considered to be reasonably possible changes on observation of current market conditions and represent management's assessment of a reasonably possible change in interest rates over the next twelve month period. The analysis is performed on the same basis for 2015.

The same percentage decrease in interest rate would have the same magnitude on the Group's profit or loss and equity but of opposite effect, on the basis that all variables remain constant. The assumed changes have no impact on the Group's other components of equity.

(c) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instruments and cause a financial loss to the Group.

The Group's policy is to deal only with creditworthy counterparties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, the Group continuously monitors the recoverability of amounts due from customers and other counterparties, assess impairment of the receivable either individually or by group, and incorporates this information into its credit risk controls and the Group's exposure to bad debts is not significant. Where available at reasonable cost, external reports on customers and other counterparties are obtained and used.

In respect of other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics at the reporting dates. The credit risk for liquid funds is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(d) Liquidity risk

Liquidity risk related to the risk that the Group will not be able to meet its obligation associated with its financial liabilities. The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash-outflows due in day-to-day business. Liquidity needs are monitored on a day-to-day basis. Long-term liquidity needs for a 360-day lookout period are identified monthly.

The Group maintains mainly cash to meet its liquidity requirements for up to 30-day periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

As at the reporting dates, the Group's financial liabilities have contractual maturities based on contractual undiscounted cash flows are summarised below:

	Less than 1 year or on demand HK\$'000	Over 1 year HK\$'000	Total undiscounted cash flow HK\$'000	Carrying amount HK\$'000

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(f) Equity price risk

Equity price risk is the risk that the fair values or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than changes in interest rates and foreign exchange rates).

The Group was exposed to equity price risk arising from individual equity investments classified as financial assets at fair value through profit or loss, available-for-sale financial assets and derivative financial instrument at the end of the reporting period. The Group's listed investments and the underlying shares of derivative financial instruments are listed on the Stock Exchange and are valued at quoted market prices at the end of the reporting period.

SENSITIVITY ANALYSIS

At 31 December 2016, it is estimated that a general increase of 5% of the price of the financial assets at fair value through profit or loss and the underlying share price of the available-for-sale financial assets and derivative financial instrument, with all other variables held constant, would increase the Group's loss for the year and decrease the Group's retained earnings by approximately HK\$9,505,000 and increase of other component of equity by approximately HK\$15,584,000.

A decrease of 5% of the price of the financial assets at fair value through profit or loss and the underlying share price of the available-for-sale financial assets and derivative financial liabilities, with all other variables held constant, would increase the Group's loss for the year and decrease the Group's retained earnings by approximately HK\$340,000 and decrease of other component of equity by approximately HK\$15,137,000.

The assumed changes in market prices represent management's assessment of a reasonably possible change in market prices over the next twelve month period. The analysis is performed on the same basis for 2015.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(g) Fair value measurements recognised in the consolidated statement of financial position

(i) FINANCIAL INSTRUMENTS NOT MEASURED AT FAIR VALUE

The fair values of the Group's financial assets and financial liabilities not measured at fair value approximate their carrying amounts as at 31 December 2016 and 2015 because of the immediate or short-term maturity.

(ii) FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE

HKFRS 13 introduced a three-level hierarchy for fair value measurement disclosures and additional disclosures about the relative reliability of fair value measurements.

The hierarchy groups financial assets and financial liabilities into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial assets and financial liabilities. The fair value hierarchy has the following levels:

- Level 1: unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: observable direct and indirect inputs other than quoted prices included within Level 1; and
- Level 3: unobservable inputs are inputs for which market data are not available.

The financial assets and financial liabilities measured at fair value in the consolidated statement of financial position are grouped into the fair value hierarchy as follows:

	At 31 December 2016			Total HK\$'000
	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	
Assets				
Financial assets at fair value through profit or loss				
– Equity securities of listed company	38,260	–	–	38,260
Available-for-sale financial assets				
– Redeemable convertible preference shares of a related company	–	–	425,622	425,622
Liabilities				
Financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company	–	–	(11,529)	(11,529)
Net fair values	38,260	–	414,093	452,353

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(g) Fair value measurements recognised in the consolidated statement of financial position (Continued)

(ii) FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE (Continued)

	At 31 December 2015			Total HK\$'000
	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	
Assets				
Financial assets at fair value through profit or loss				
– Equity securities of listed company	6,217	–	–	6,217
Available-for-sale financial assets				
– Redeemable convertible preference shares of a related company	–	–	2,715,785	2,715,785
Liabilities				
Financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company	–	–	(54,263)	(54,263)
Net fair values	6,217	–	2,661,522	2,667,739

There have been no transfers between different levels during the year ended 31 December 2016.

The level in the fair value hierarchy within which the financial assets and financial liabilities are categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting periods.

Information about level 1 fair value measurements

For the financial assets at fair value through profit or loss, the equity securities are shares of listed company and are denominated in HK\$. Fair values have been determined by reference to their quoted bid prices at the reporting date.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(g) Fair value measurements recognised in the consolidated statement of financial position (Continued)

(ii) FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE (Continued)

Information about level 3 fair value measurements

Both the available-for-sale financial assets and the financial liabilities in respect of redemption option embedded in redeemable convertible preference shares of a related company are denominated in HK\$. Their fair values are determined using Binomial Option Pricing Model and the significant unobservable input used in the fair value measurement is the expected volatility. The fair value measurement is positively correlated to the expected volatility.

As at 31 December 2016, it is estimated that with all other variables held constant, an increase in the expected volatility by 5% would have increased the Group's other component of equity by approximately HK\$1,833,000 while a decrease in the expected volatility by 5% would have decreased the Group's other component of equity by approximately HK\$2,044,000 for host equity instrument classified as available-for-sale financial assets. For the redemption option embedded in redeemable convertible preference shares of a related company classified as derivative financial liabilities, it is estimated that with all other variables held constant, an increase in the expected volatility by 5% would have increased the Group's loss for the year by approximately HK\$1,174,000 while a decrease in the expected volatility by 5% would have decreased the Group's loss for the year by approximately HK\$1,039,000.

Significant inputs as follow:

Underlying stock price	HK\$0.395 per share
Conversion price	HK\$0.4 per share
Risk-free rate	1.901%
Expected volatility	69.742%
Expected dividend yield	0.757%

37. BUSINESS COMBINATIONS IN PRIOR YEAR

- (a) On 30 September 2015, the Group acquired the entire equity interest in South China Asset Management Limited (“SC Asset Management”) from a related company of the Company at a consideration of approximately HK\$5.6 million. SC Asset Management is principally engaged in the provision of investment advisory and asset management services. The acquisition enabled the Group to diversify into the financial services related business.

The fair values of identifiable assets of SC Asset Management at the date of acquisition were:

	HK\$'000
Prepayments	93
Cash and bank balances	5,525
<hr/>	
Total consideration	5,618
<hr/>	
Satisfied by:	
Cash consideration	5,618
<hr/>	
Cash flow	
Cash payment	5,618
Cash and bank balances acquired	(5,525)
<hr/>	
Net cash outflow arising from acquisition	93
<hr/>	

The acquisition-related costs were not material, and have been expensed and are included in administrative expenses.

No revenue has been contributed to the Group’s revenue since acquisition. Since the acquisition date, SC Asset Management has recorded net loss of approximately HK\$1,000 to the Group’s profit or loss during the year ended 31 December 2015. If the acquisition has occurred on 1 January 2015, the Group’s profit for the year ended 31 December 2015 would have been approximately HK\$20,394,000. This pro forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2015, nor is it intended to be a projection of future performance.

The transaction constituted connected transaction as defined in Chapter 20 of the GEM Listing Rule.

Notes to Consolidated Financial Statements

37. BUSINESS COMBINATIONS IN PRIOR YEAR (Continued)

- (b) On 25 November 2015, the Group acquired the entire equity interest in South China Financial Credits Limited (“SC Financial Credits”) from a related company of the Company at a consideration of approximately HK\$20.6 million. The principal activity of SC Financial Credits is money lending. The acquisition enabled the Group to diversify into the financial services related business.

The fair value of identifiable assets and liabilities of SC Financial Credits at the date of acquisition were:

	HK\$'000
Property, plant and equipment (note 15)	50
Deposits and prepayments	218
Loans receivable	11,892
Cash and bank balances	15,571
Interest-bearing bank borrowing	(7,000)
Other payables and accrual expenses	(176)
<hr/>	
Net assets attributed to the Group acquired	20,555
<hr/>	
Cash consideration	20,555
<hr/>	
Cash flow	
Cash payment	20,555
Cash and bank balances acquired	(15,571)
<hr/>	
Net cash outflow arising from acquisition	4,984
<hr/>	

The fair value of loans receivable amounted to approximately HK\$11,892,000. In the opinion of the directors, no receivable is expected to be uncollectable.

The acquisition-related costs were not material, and have been expensed and are included in administrative expenses.

Since the acquisition date, SC Financial Credits has contributed revenue of approximately HK\$556,000 and a loss of approximately HK\$202,000 to the Group's revenue and profit or loss during the year ended 31 December 2015, respectively. If the acquisition was occurred on 1 January 2015, the Group's revenue and profit for the year ended 31 December 2015 would have been approximately HK\$2,929,000 and HK\$18,607,000 respectively. This pro forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2015, nor is it intended to be a projection of future performance.

The transaction constituted connected transaction as defined in Chapter 20 of the GEM Listing Rule.

38. DISPOSAL OF SUBSIDIARIES IN PRIOR YEAR

Pursuant to the sale shares agreement and the sale debts agreement (collectively referred to as the “Agreements”) dated 16 June 2015 entered into between Crystal Hub, an indirect wholly-owned subsidiary of the Company, and (i) Perennial Success Limited and (ii) Profit Runner Investments Limited (collectively referred to as the “Purchasers”), both are indirect wholly-owned subsidiaries of SCHC, a related company of the Company. Crystal Hub had agreed to sell and the Purchasers had agreed to purchase the entire equity interests in Elite Empire and Bigwin, together with their subsidiaries (collectively the “Disposal Groups”) at a total consideration of not exceeding HK\$1,654.1 million (to be adjusted pursuant to the Agreements) upon and subject to the terms and conditions of the Agreements set out there in (collectively the “Disposal”).

The Disposal was completed on 7 October 2015 (the “Disposal Date”). The consideration of the Disposal at the Disposal Date amounted to approximately HK\$1,782.8 million, with reference to the fair value of redeemable convertible preference shares received, which has been adjusted to pursuant to the terms and condition of the Agreements, and the Group recognised a gain on disposal of subsidiaries of approximately HK\$13,756,000. The transaction constituted connected transaction as defined in Chapter 20 of the GEM Listing Rule.

Please refer to the joint announcements of the Company and SCHC and circular of the Company issued on 16 June 2015, 30 September 2015 and 7 October 2015 for details of the Disposal.

Under the Agreements, the Purchasers shall procure SCHC to execute the deed of undertaking to undertake to grant guarantees in favour of the prospective lenders of any member of the Group at the request of the Company (“Guarantee”) and Crystal Hub shall procure the Company to indemnify SCHC against all guaranteed sum. Upon SCHC being notified of any claim pursuant to a Guarantee, the Company shall forthwith on demand pay to SCHC the amount of such claim.

38. DISPOSAL OF SUBSIDIARIES IN PRIOR YEAR (Continued)

Notes:

- (a) In determining the amount of gain or loss on disposal, the Group has assessed the attributable amount of goodwill of the Disposal Groups of approximately HK\$338,000,000, which have been included in the fair value of identifiable assets and liabilities.
- (b) Pursuant to the Agreements, Crystal Hub shall make good to any shortfall in net assets and excess in net liabilities for the Disposal Groups at the Disposal Date, and the differences between the amounts of the relevant Sale Debts when compared to its corresponding amounts (collectively the "Difference") so informed by Crystal Hub and the amounts of same as recorded in the completion accounts of the Disposal Groups in cash on a dollar-for-dollar basis. As such, a sum of approximately HK\$28,777,000 (note 27) was resulted, which was derived from the basis or calculation of the Difference, and was payable by Crystal Hub within two months from the date on which the completion accounts of Disposal Groups are delivered to the Purchasers. Such payable was fully settled by Crystal Hub during the year.

The Difference as referred to in the preceding paragraph largely reflects the effect of the movements of the exchange rate of RMB from 31 March 2015, the reporting period end date of the consolidated financial statements of the Disposal Groups which served as a basis of determination of the sale shares consideration, to the Disposal Date and, hence the resulting decrease in exchange reserves of the Disposal Groups.

An analysis of net inflow of cash and bank balances in respect of the Disposal is as follows:

39. CAPITAL MANAGEMENT

The Group's capital management objectives are to ensure the Group's ability to continue as a going concern and to provide an adequate return to shareholders by pricing goods and services commensurately with the level of risk.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities. The Group currently does not adopt any formal dividend policy.

Notes to Consolidated Financial Statements

For the year ended 31 December 2016

39. CAPITAL MANAGEMENT (Continued)

The Group sets the amount of equity capital in proportion to its overall financing structure. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

Two of the subsidiaries of the Group are regulated by the Securities and Futures Commission (the “SFC”) and are required to comply with certain minimum capital requirements according to the rules of the SFC. The Group has established a compliance department which is operated by experienced compliance officers and is monitored by management. The principal roles of the compliance department are to monitor the daily financial status and to review internal control of the Group regularly to ensure the Group’s regulated subsidiaries are in compliance with related regulations.

The capital-to-overall financing ratio at reporting dates was as follows:

	2016 HK\$’000	2015 HK\$’000
Capital		
Total equity	233,318	2,484,300
