Interim 2017 Report

(incorporated in the Cayman Islands with limited liability) Stock Code: 8133

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review and prospects

The Group is principally engaged in the manufacturing of metal casting parts and components in the PRC. The products of the Group can be categorized into four main categories: (a) pump components; (b) valve components; (c) filter components; and (d) food machinery components, which are made of stainless steel, carbon steel, bronze and/or grey iron. Our largest market is Germany. We also have customers from the PRC, Hong Kong and the United States.

During the reporting period, the global economic environment remain challenging but the Group is positive about the prospects of the metal casting industry and will continue to focus on its core business. Resources will be reserved for the purpose of increasing the production capacity in the Qiuchang Foundry, enhancing the marketing effort to attract new customers and strengthen the quality control system to maintain the strong customer relationship with existing customers. Meanwhile, the Group will also explore other potential investment opportunities in order to diversify the Group's business and create new source of revenue to the Group.

On 29 March 2017, the Group entered into a cooperation framework agreement (the "Agreement") with Guo Shi Assets Investment Management Co., Limited. The cooperation will foster a partnership on distributed power generation, combining the strengths of both parties and premised on the principle of mutual benefits, while leveraging their strategic resources (the "Cooperation"). However, the Agreement is only an agreement of intention with the purpose of setting out the cooperative plans between the parties to facilitate further and more detailed negotiations. As at the date of this report, no definitive cooperation agreement in relation to the Cooperation has been entered into by the Group. As such, the Cooperation as stated in the Agreement may or may not proceed.

The Group will continue to adopt a positive yet prudent approach in its business strategies aiming to enhance the Group's profitability and the shareholders' value in the long run.

Financial Review

Revenue

For the six months ended 30 June 2017, total revenue of the Group decreased by about 28% to approximately HK\$21.34 million as compared with the corresponding period in 2016. The decrease in total revenue was mainly due to (i) the increase in competition and (ii) the decrease in sales volume which was affected by the 2017 Chinese New Year's Holidays of the PRC subsidiary which falls between mid-January 2017 and mid-February 2017. The factory output in January and February 2017 was lower than the corresponding period in 2016.

Cost of sales and gross profit

The key components of the Group's cost of sales comprised principally the (i) raw materials used for production of metal casting parts and components, (ii) direct labour costs and (iii) manufacturing overheads such as depreciation for plant and equipment, consumables, utilities, maintenance costs and indirect labour costs. For the six months ended 30 June 2017, the cost of sales of the Group decreased by about 28% to approximately HK\$16.11 million as compared with the corresponding period in 2016. Such decrease was mainly due to the decrease in sales volume.

The gross profit of the Group decreased from HK\$7.30 million, for the six months ended 30 June 2016 to HK\$5.23 million for the six months ended 30 June 2017. The gross profit margin for the period remained constant at around 25%.

Selling and distribution expenses

The Group's selling and distribution expenses for the six months ended 30 June 2017 amounted to approximately HK\$1.47 million, representing an approximately 13% decrease as compared with the corresponding period in 2016 of approximately HK\$1.68 million. Selling and distribution expenses comprised mainly packaging, delivery, customs, agency cost and insurance cost incurred in relation to the sales. The decrease for the period was mainly due to the decrease of transportation costs for consignment sales.

Administrative expenses

The Group's administrative expenses for the six months ended 30 June 2017 amounted to approximately HK\$6.39 million. Administrative expenses primarily consist of salaries and benefit payments paid to directors and staff, exchange loss, audit fee and legal and professional fees to ensure on going compliance with relevant rules and regulations. The administrative expenses remained at the similar level during the period. The decrease for the period was mainly affected by the depreciation of Renminbi.

Finance costs

Finance costs mainly represent the interest on bank borrowing. The decrease for the six months ended 30 June 2017 was mainly due to the decrease in the bank borrowings outstanding during the period as compared with the corresponding period in 2016.

Loss for the period

Loss attributable to owners of the Company for the six months ended 30 June 2017 amounted to approximately HK\$3.00 million (six months ended 30 June 2016: Loss of approximately HK\$1.61 million). This was mainly attributable to (i) the decrease in sales of the Group's products during the period and (ii) the share of loss from an associate which was acquired by the Group on 27 September 2016. As at 30 June 2017, the associate has not yet commenced its operation.

Liquidity and financial resources

The Group's principal sources of funds are used to finance working capital, and the growth and expansion of the Group's operations and sales network. The Group's principal sources of funds are cash generated from operations and bank borrowings.
