INTERIM REPORT
2017

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

This report, for which the directors (the “Director(s)”) of MEIGU Technology Holdings Group Limited (the “Company”) collectively and individually accepts full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

RESULTS

The board of Directors (the “Board”) announces the unaudited results of the Company and its subsidiaries (the “Group”) for the three months and six months ended 30 June 2017, together with comparative figures for the same corresponding period in 2016 as follows:

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 30 June 2017

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands on 13 January 2016 as an exempted company with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. Its shares have been listed on the GEM of the Stock Exchange since 13 January 2017. The address of its registered office is Clifton House, 75 Fort Street, P.O. Box 1350 Grand Cayman KY1-1108, Cayman Islands and its principal place of business is 66 Oujiang Road, Haimen Economic Development Zone, Nantong City, the Jiangsu Province, the People's Republic of China (the "PRC").

The Company is an investment holding company and its subsidiaries are principally engaged in the research and development, production and sales of fibreglass reinforced plastic products in the PRC. During the six months ended 30 June 2017, the principal business was carried out through Nantong Meigu Composite Materials Company Limited ("Nantong Meigu"), which is an indirect wholly-owned subsidiary of the Company incorporated in the PRC.

2. BASIS OF PRESENTATION

Pursuant to a group reorganisation of the Company in connection with the listing of its shares on the Stock Exchange (the "Reorganisation"), the Company became the holding company of the companies now comprising the Group on 16 March 2016.

Details of the Reorganisation are set out in the paragraphs headed "Reorganisation" on pages 52 to 54 of the 2016 annual report of the Group. The Group is under the common control of the controlling shareholders of the Company prior to and after the Reorganisation. The Group comprising the Company and its subsidiaries resulting from the Reorganisation is regarded as a continuing entity.

The unaudited condensed consolidated results of the Group have been prepared using the principles of merger accounting under Hong Kong Accounting Guideline 5 "Merger Accounting for Common Control Combinations" as if the Company had always been the holding company of the Group and the current group structure had been in existence throughout the six months ended 30 June 2016.

3. BASIS OF PREPARATION AND ACCOUNTING POLICIES

The Group's unaudited consolidated results for the six months ended 30 June 2017 have been prepared in accordance with the applicable disclosure requirements set out in Chapter 18 of the GEM Listing Rules and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

The HKICPA has issued a number of amendments to the Hong Kong Financial Reporting Standards which are effective for the current accounting period of the Group. None of those developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Accordingly, no prior period adjustments are required.

The accounting policies adopted in preparing the unaudited consolidated results for the six months ended 30 June 2017 are consistent with those adopted in the financial statements of the Group for the year ended 31 December 2016.

The consolidated results of the Group for the six months ended 30 June 2017 are unaudited but have been reviewed by the audit committee of the Company.

4. REVENUE

The principal activities of the Group are research and development, production and sale of fiberglass reinforced plastic products in the PRC.

Revenue represents net invoiced value of goods sold, less value-added and sales taxes, returns and discounts, during the period.

	For the three months ended 30 June		For the six months ended 30 June	
	2017 RMB'000 (Unaudited)	2016 RMB'000 (Unaudited)	2017 RMB'000 (Unaudited)	2016 RMB'000 (Audited)

MANAGEMENT DISCUSSION AND ANALYSIS

The Group is an established and leading manufacturer in the PRC engaged in the research and development, production and sale of a variety of FRP products. The Group's major products consist of: (i) FRP Grating products; (ii) USCG Approved Phenolic Grating products; (iii) FRP Subway Evacuation Platform products; and (iv) Epoxy Wedge Strip products. A new product line, composite cross ties for use in railways has been developed and will be rolled out for commercial production in the second half year of 2017.

On 13 January 2017, the shares of the Company (the "Shares") were successfully listed on the GEM of the Stock Exchange which marked a significant milestone for the Group. In addition, the net proceeds amounting to approximately HK\$16.5 million from placing of 100,000,000 Shares will be applied in the enhancement of the existing production process and purchase of new production equipment, further development of new products and expansion of research and development capabilities. At the same time, this additional financing channel will provide strong financial support to the sustainable development of the Group.

Looking ahead, despite the slowdown of the PRC's macro-economic conditions, it is expected that the FRP Grating products market in the PRC will continue to develop, but in a slower pace. In spite of such, given that the market acceptance of the USCG Approved Phenolic Grating products and FRP Subway Evacuation Platform products in the PRC is growing, it is expected that the market scale will further expand at a compound annual growth rate ("CAGR") of 15.5% from 2015 to 2019. The application of Epoxy Wedge Strip products in wind turbine blades is a relatively new concept in the PRC with growing acceptance among customers and hence it is estimated that the application will continue to grow at a CAGR of 17.7% from 2015 to 2019. The Group will continue to expand customer base and enhance product recognition by improving production technique and developing new products, so as to exercise more effective cost control and strengthen the competitiveness of the Group. Meanwhile, the Group will recruit more talents to fulfil its development needs to support and expand its business.

Financial Review

The Group posted a consolidated revenue of approximately RMB31.1 million for the six months ended 30 June 2017, representing an increase of approximately RMB3.2 million or 11.5% as compared to the corresponding six months in 2016. The increase in revenue was primarily driven by the increase in sales revenue generated from sales of FRP Subway Evacuation Platform products and Epoxy Wedge Strip products.

Details of the Group's revenue and gross profit margin by product categories are as follows:

	For the six months ended 30 June 2017		For the six months ended 30 June 2016	
	Sales revenue RMB'000	Gross profit margin %	Sales revenue RMB'000	Gross profit margin %
FRP Grating products	19,935	33.6	21,531	32.8
USCG Approved Phenolic Grating products	4,813	39.2	4,886	37.5
FRP Subway Evacuation Platform products	1,713	29.0	67	22.4
Epoxy Wedge Strip products	4,634	43.0	1,397	44.0
	31,095	35.6	27,881	34.2

For the six months ended 30 June 2017, sales of FRP Grating products remained the largest contributor to the Group's revenue and it accounted for approximately 64.1% (6 months ended 30 June 2016: 77.2%) of the total revenue. FRP Grating products were mainly sold to corporate customers in the PRC who generally are end-users of such products, as well as distributors in the United States of America ("U.S.") and the United Kingdom ("U.K.") who generally buy the products on per purchase order basis with no distribution arrangement. Revenue derived from sales of FRP Grating products reduced by approximately 7.4% from approximately RMB21.5 million for the six months ended 30 June 2016 to approximately RMB19.9 million for the six months ended 30 June 2017. This was mainly attributable to the reduction in sales to one of the major customers in the U.S.. There was no notable fluctuation in the gross profit margin on comparison between the two periods.

USCG Approved Phenolic Grating products were generally sold to shipbuilders and offshore oilfields construction companies in the PRC. Revenue generated from sales of USCG Approved Phenolic Grating products has only reduced slightly by 1.5% from approximately RMB4.9 million for the six months ended 30 June 2016 to approximately RMB4.8 million for the six months ended 30 June 2017. The gross profit margin increased by 1.7% from 37.5% for the six months ended 30 June 2016 to 39.2% for the six months ended 30 June 2017. This was primarily due to the increased level of complexity in the cutting technique which allows an increase in the average selling price of this product category. In addition, there has also been a reduction in the purchase cost for one of the common raw materials for all the FRP products. Both of these two factors have contributed to the increase in gross profit margin of this product category.

FRP Subway Evacuation Platform Products were sold to main contractors who are principally engaged in railway construction works in the PRC. Revenue derived from sales of FRP Subway Evacuation Platform Products increased drastically by over 2,000% from approximately RMB67,000 for the six months ended 30 June 2016 to approximately RMB1.7 million for the six months ended 30 June 2017. The extremely low level of sales in the six months ended 30 June 2016 was mainly because of the delay in the progress of railway construction projects undertaken by the customers whereas the resumption of the railway construction projects during the six months ended 30 June 2017 accounts for the substantial increase in sales of this product category. The gross profit margin increased by 6.6% from 22.4% for the six months ended 30 June 2016 to 29.0% for the six months ended 30 June 2017. This was primarily due to the fact that the increase in sales and production volume had lowered the fixed costs of production per unit.

Epoxy Wedge Strip products were developed and launched in 2014 which targeted manufacturers of wind turbine blades in the PRC. The revenue derived from sales of Epoxy Wedge Strip products increased substantially by approximately RMB3.2 million or 231.7% from approximately RMB1.4 million for the six months ended 30 June 2016 to approximately RMB4.6 million for the six months ended 30 June 2017. This drastic increase was mainly due to the fact that some new domestic customers placing orders for such products were only secured in July 2016 and hence the sales revenue generated during the six months ended 30 June 2016 was very low compared to that of the six months ended 30 June 2017. The gross profit margin reduced by only 1% from 44.0% for the six months ended 30 June 2016 to 43.0% for the six months ended 30 June 2017. This is largely attributable to the difference in shapes, weight and dimensions of the product which cause the fluctuation of its gross profit margin.

Details of the average selling price and the sales volume by product categories are as follows:

	For the six months ended 30 June 2017		For the six months ended 30 June 2016	
	Average selling price per unit	Volume	Average selling price per unit	Volume
	RMB		RMB	
FRP Grating products (m ²)	272.2	73,243	271.3	79,363
USCG Approved Phenolic Grating products (m ²)	578.2	8,325	536.5	9,106
FRP Subway Evacuation Platform products (m ²)	349.6	4,900	854.7	78
Epoxy Wedge Strip products (m)	48.7	95,159	15.0	92,845

The average selling price of the FRP Grating products per square metre ("m²") increased slightly by 0.33% from RMB271.3 per m² for the six months ended 30 June 2016 to RMB272.2 per m² for the six months ended 30 June 2017, with a reduction in sales volume of 7.7% on comparison between the two periods. The increase in average selling price was mainly due to normal fluctuation in prices of different FRP Grating products and the variation in the composition of higher priced FRP Grating products sold.

The average selling price of the USCG Approved Phenolic Grating products per m² increased by 7.8% from RMB536.5 per m² for the six months ended 30 June 2016 to RMB578.2 per m² for the six months ended 30 June 2017, with a reduction in sales volume of 8.6% on comparison between the two periods. The increase in average selling price was mainly due to the increased level of complexity in the cutting technique which allows an increase in the average selling price of this product category.

The average selling price of the FRP Subway Evacuation Platform products per m² reduced by 59.1% from RMB854.7 per m² for the six months ended 30 June 2016 to RMB349.6 per m² for the six months ended 30 June 2017, with a substantial increase in sales volume of over 60 times on comparison between the two periods. The reduction in average selling price was mainly due to the difference in specification for the same product type, which allowed the Group to charge a higher average selling price in the six months ended 30 June 2016.

The average selling price of the Epoxy Wedge Strip products per metre (“m”) increased substantially by over 220% from RMB15.0 per m for the six months ended 30 June 2016 to RMB48.7 per m for the six months ended 30 June 2017, with an increase in sales volume of 2.5% on comparison between the two periods. This drastic increase in average selling price was mainly due to the substantial increase in sale of product items with different shape, weight and dimensions which procured higher average selling price.

Details of the Group’s sale revenue by geographical area are as follows:

	For the six months ended 30 June	
	2017	2016
	RMB’000	RMB’000
PRC	19,644	14,693
U.S.	4,885	7,330
U.K.	5,087	4,553
Others	1,479	1,305
	<hr/>	<hr/>
Total	31,095	27,881
	<hr/> <hr/>	<hr/> <hr/>

Sales in the PRC market increased by 33.7% from approximately RMB14.7 million for the six months ended 30 June 2016 to approximately RMB19.6 million for the six months ended 30 June 2017, mainly because of the increase in the number of new domestic customers during the six months ended 30 June 2017.

Sales to the U.S. market decreased by 33.4% from approximately RMB7.3 million for the six months ended 30 June 2016 to approximately RMB4.9 million for the six months ended 30 June 2017, mainly because of the decrease in sales to one of the major customers in the U.S.

Sales to the U.K. market increased by 11.7% from approximately RMB4.6 million for the six months ended 30 June 2016 to approximately RMB5.1 million for the six months ended 30 June 2017, mainly because of certain new customers secured in the six months ended 30 June 2017.

Sales to the other locations increased by 13.3% from approximately RMB1.3 million for the six months ended 30 June 2016 to approximately RMB1.5 million for the six months ended 30 June 2017, mainly because of new customers acquired in Korea and Uruguay.

Selling and distribution costs

The selling and distribution costs increased by approximately RMB610,000, a 23.3% increase to approximately RMB3.2 million for the six months ended 30 June 2017 from approximately RMB2.6 million for the six months ended 30 June 2016. The increase was mainly attributed to the increase in staff costs and exhibition fees.

Administrative expenses

The administrative expenses increased by approximately RMB402,000, a 6.2% increase to approximately RMB6.8 million for the six months ended 30 June 2017 from approximately RMB6.4 million for the six months ended 30 June 2016. The increase was mainly attributed to the increase in research and development expenses, staff costs and legal and professional fees.

Finance costs

Finance costs decreased by approximately RMB63,000 to approximately RMB525,000 for the six months ended 30 June 2017 from approximately RMB588,000 for the six months ended 30 June 2016. The decrease was mainly due to the general reduction in the bank interest rates during the six months ended 30 June 2017.

Loss for the period

Loss for the six months ended 30 June 2017 amounting to approximately RMB471,000 was mainly attributable to the once-off listing related expenses of approximately RMB1.9 million for the public relation activities, publication of prospectus and other expenses incidental to the listing of the Company's shares on the GEM of the Stock Exchange.

Liquidity and financial resources

As at 30 June 2017, the Group held total assets of approximately RMB83.4 million (31 December 2016: approximately RMB70.0 million), including cash and cash equivalents of approximately RMB16.8 million (31 December 2016: approximately RMB3.9 million).

As at 30 June 2017, the Group had total liabilities of approximately RMB37.4 million (31 December 2016: approximately RMB48.2 million) which mainly comprise of bank borrowings amounting to approximately RMB20 million (31 December 2016: approximately RMB20 million).

As at 30 June 2017, the gearing ratio, expressed as a percentage of net debt (bank borrowings less cash and cash equivalents) over total capital employed (net debt plus total equity attributable to owners of the Company) was about 6.5% (31 December 2016: 42.5%). This significant reduction was mainly attributable to the strengthening of the Company's capital base resulting from the placing of the Company's shares as discussed in the section "Capital Structure" below.

Capital Structure

On 12 January 2017, the Company issued 100,000,000 new Shares of HK\$0.01 each by way of placing at the placing price of HK\$0.35 per share (the "Placing"), and 299,999,250 new Shares by way of capitalisation of an aggregate amount of approximately RMB2,714,000 (equivalent to HK\$2,999,992) out of the share premium account of the Company, in connection with the initial listing of the Company's Shares on the GEM of the Stock Exchange on 13 January 2017.

Total equity attributable to equity holders of the Company increased by approximately 111.1% from RMB21,814,000 as at 31 December 2016 to RMB46,043,000 as at 30 June 2017 as a result of the Placing.

Contingent liabilities

As at 30 June 2017, the Group had no contingent liabilities (31 December 2016: Nil).

Exposure to fluctuations in exchange rates and related hedges

The Group is exposed to foreign exchange risk primarily through sales which give rise to receivables and cash balances that are denominated in US dollars, which is attributable to sales transactions entered into by the Group with overseas customers. The Group has adopted the following measures to mitigate the exposure to foreign exchange risk:

- (i) the accounting and finance department would closely monitor the movement of relevant exchange rates to ensure that the net exposure is kept to an acceptable level;
- (ii) quotations provided to our overseas customers are generally valid for one to three months only;
- (iii) in the event that the relevant exchange rates fluctuate more than 5.0%, the Director and senior management would be notified such that appropriate actions could be carried out in a timely manner to address any foreign exchange risks;
- (iv) if the fluctuation in the relevant exchange rates exceeds 8.0% for more than two months, the pricing policy would be adjusted accordingly to reflect such change; and
- (v) the Directors would regularly review the analysis prepared by the accounting and finance department and assess whether there is any material and adverse impact on the Group's financial performance and whether any hedging or derivative financial instruments should be entered into for managing the foreign exchange risk exposures.

In addition to the above, the Group is generally able to pass on the cost arising from exchange rate fluctuations to the customers by adjusting the pricing. Hence, it is considered that the Group's exposure to foreign exchange risk is limited and it is not necessary to adopt any hedging strategy.

Charge on Group Assets

As at 30 June 2017, the Group had the following charges on its assets:

- (i) the leasehold land held for own use under operating lease with a carrying value of RMB1,493,000 as at 30 June 2017 (31 December 2016: RMB1,512,000) and the buildings with a carrying value of RMB9,017,000 as at 30 June 2017 (31 December 2016: RMB9,335,000) were pledged for a bank borrowing RMB10,000,000;
- (ii) An aggregate amount of RMB2,373,000 (31 December 2016: RMB513,000) was placed in a bank account and pledged in favour of customers in relation to some sales transactions.

Material Acquisition and Disposal

There was no acquisition and disposal of subsidiaries and associated company by the Group during the six months ended 30 June 2017.

Employees, Remuneration policies

As at 30 June 2017, the Group had 148 employees (31 December 2016: 124). The total staff costs including Directors' remuneration for the six months ended 30 June 2017 were approximately RMB5.7 million (six months ended 30 June 2016: approximately RMB5.0 million). Remuneration is determined based on each employee's qualifications, position and seniority. In addition to a basic salary, year-end discretionary bonuses were offered with reference to our Group's performance as well as individual's performance to attract and retain appropriate and suitable personnel to serve the Group. Furthermore, the Group offers other staff benefits like provision of retirement benefits, various types of trainings and sponsorship of training courses. The Group also adopts an annual review system to assess the performance of staff, which forms the basis of decisions with respect to salary rises and promotions.

BUSINESS OBJECTIVES AND IMPLEMENTATION PLAN

As the Company's Shares were listed on 13 January 2017, the Group was at its first half year of implementing its business objectives and strategies during the six months ended 30 June 2017. An analysis comparing the business objectives set out in the prospectus of the Company dated 29 December 2016 with the Group's actual implementation progress during the six months ended 30 June 2017 is as follows:

Business objective	Planned use of proceeds (HK\$'000)	Actual use of proceeds (HK\$'000)

– Deployment of funds to accommodate the working capital needs, in particular relating to the upcoming production of the new FRP crosstie products	1,100	1,100
	<u>6,500</u>	<u>3,683</u>

Notes:

- (1) Due to the rescheduling of the production plan for the cable scaffold of the FRP Subway Evacuation Platform products, acquisition of hydraulic presses will be deferred to the second half year of 2017.
- (2) During the six months ended 30 June 2017, there was only one additional research and development staff hired in May 2017. The Group will continue to seek for suitable employees with appropriate calibre in the second half year of 2017 so as to enhance the research and development capabilities.
