

2018 INTERIM REPORT

中彩網通控股有限公司
China Netcom Technology Holdings Limited

(Incorporated in the Cayman Islands with limited liability)

(Stock Code: 8071)

CHARACTERISTICS OF GEM (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Main Board of the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of China Netcom Technology Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

This report will remain on the “Latest Company Announcements” page of the GEM website at www.hkgem.com for a minimum period of 7 days from the date of its publication and on the Company’s website at www.irasia.com/listco/hk/chinanetcom.

Notes:

1. BASIS OF PREPARATION AND IMPACT OF NEW HKFRSs AND HKASs

The unaudited consolidated financial statements have been prepared in accordance with the Hong Kong Accounting Standards (“**HKASs**”) 34 “Interim Financial Reporting”, other relevant HKASs and Interpretations (“**Ints**”) and Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and the applicable disclosure required by the GEM Listing Rules. It has been prepared under historical cost convention.

The unaudited consolidated financial statements have been prepared in accordance with the same accounting policies adopted in the annual financial statements for the year ended 31 December 2017, except for the adoption of the new and revised HKFRSs (which include individual HKFRSs, HKASs and Ints).

In the current interim period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting period beginning on 1 January 2018. The impact of the adoption of the new and revised HKFRSs are disclosed in note 2.

The Group has not applied the new and revised HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

The unaudited consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2017.

2. CHANGES IN ACCOUNTING POLICIES

The unaudited consolidated statement of profit or loss and other comprehensive income for the six months ended 30 June 2018 has been prepared in accordance with the same accounting policies adopted in the Group’s annual financial statements for the year ended 31 December 2017, except for the adoption of the new and revised HKFRSs (which include individual HKFRSs, HKASs and Ints) issued by the HKICPA that are relevant to the Group’s operations and effective for its accounting period beginning on 1 January 2018. The effect of the adoption of these new and revised HKFRSs in the current period has had no material impact on the Group’s financial performance and position of the current and prior periods except for the adoption of HKFRS 9 “Financial Instruments” and HKFRS 15 “Revenue from Contracts with Customers” as described in the paragraph below.

(a) HKFRS 9 “Financial Instruments”

The complete version of HKFRS 9 — Financial Instruments was issued in September 2014 which replaces the guidance in HKAS 39 — Financial Instruments: Recognition and Measurement that relates to the classification and measurement of financial instruments, impairment of financial assets and hedge accounting. HKFRS 9 is effective for annual periods beginning on or after January 1, 2018.

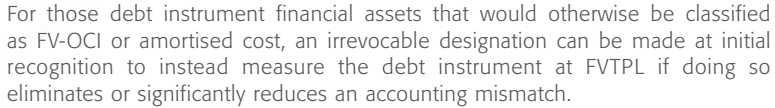

The key changes to the Group’s accounting policies and the expected impact resulting from the adoption of HKFRS 9 are described below.

Classification and measurement

The classification and measurement of financial assets will depend on how the assets are managed (the entity’s business model) and their contractual cash flow characteristics. These factors determine whether the financial assets are measured at amortised cost, fair value through other comprehensive income (“**FV-OCI**”) or fair value through profit or loss (“**FVTPL**”). The combined effect of the application of the business model and the contractual cash flow characteristics tests may result in some differences in the population of financial assets measured at amortised cost or fair value compared with HKAS 39.

The HKFRS 9 classification and measurement model requires that all debt instrument financial assets that do not meet a “solely payment of principal and interest” (“**SPPI**”) test, including those that contain embedded derivatives, be classified at initial recognition as FVTPL. The intent of the SPPI test is to ensure that debt instruments that contain non-basic lending features, such as conversion options and equity linked pay-outs, are measured at FVTPL. Subsequent measurement of instruments classified as FVTPL under HKFRS 9 operates in a similar manner to trading under HKAS 39.

For debt instrument financial assets that meet the SPPI test, classification at initial recognition will be determined based on the business model under which these instruments are managed. Debt instruments that are managed on a “held for trading” or “fair value” basis will be classified as FVTPL. Debt instruments that are managed on a “hold to collect and for sale” basis will be classified as FV-OCI for debt. Debt instruments that are managed on a “hold to collect” basis will be classified as amortised cost. Subsequent measurement of instruments classified at FV-OCI and amortised cost classifications under HKFRS 9 operate in a similar manner to available for sale (“**AFS**”) for debt securities and loans and receivables, respectively, under existing HKAS 39, except for the impairment provisions which are discussed below.

For those debt instrument financial assets that would otherwise be classified as FV-OCI or amortised cost, an irrevocable designation can be made at initial recognition to instead measure the debt instrument at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

All equity instrument financial assets are required to be classified at initial recognition as FVTPL unless an irrevocable designation is made to classify the instrument as FV-OCI for equities. Unlike AFS for equity securities under HKAS 39, the FV-OCI for equities category results in all realised and unrealised gains and losses being recognised in OCI with no recycling to profit and loss. Only dividends will continue to be recognised in profit and loss.

The classification and measurement of financial liabilities remain essentially unchanged from the current HKAS 39 requirements, except that changes in fair value of liabilities designated at fair value through profit or loss attributable to changes in own credit risk are to be presented in OCI, rather than profit and loss.

Derivatives will continue to be measured at FVTPL under HKFRS 9.

Impairment

The new impairment guidance sets out an expected credit loss (“**ECL**”) model applicable to all debt instrument financial assets classified as amortised cost or FV-OCI. In addition, the ECL model applies to financial guarantees that are not measured at FVTPL.

Expected Credit Loss Methodology

The application of ECL will change the Group’s credit loss methodology and models. ECL allowances represent credit losses that reflect an unbiased and probability-weighted amount which is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. ECL allowances will be measured at amounts equal to either: (i) 12-month ECL; or (ii) lifetime ECL for those financial instruments which have experienced a significant increase in credit risk since initial recognition or when there is objective evidence of impairment.

(b) HKFRS 15 “Revenue from Contracts with Customers”

HKFRS 15 “Revenue from Contracts with Customers” replaces the previous revenue standard HKAS 18 “Revenue” and HKAS 11 “Construction Contracts” and related interpretations. The standard is effective for annual period beginning on or after 1 January 2018 and earlier application is permitted. The Group has first time adopted HKFRS 15 for the six months ended 30 June 2018 and has elected to apply HKFRS 15 retrospectively to each prior reporting period.

HKFRS 15 establishes a comprehensive framework for determining when to recognise revenue and how much revenue to recognise through a 5-step approach. The core principle is that a company should recognise revenue to depict the transfer of promised goods or services to customer in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. It moves away from a revenue recognition model based on an “earnings processes” to an “asset-liability” approach based on transfer of control. HKFRS 15 provides specific guidance on capitalisation of contract cost and license arrangements. It also includes a cohesive set of disclosure requirements about the nature, timing and uncertainty of revenue and cash flows arising from the entity’s contracts with customers.

The Group’s revenue recognition accounting policy under HKFRS 15 is as follows:

Revenue recognition

Revenue is recognised when good or service is provided to the customer. Depending on the terms of the contract and the laws that apply to the contract, good or service may be provided over time or at a point in time. Good or service is provided over time if the Group’s performance meets any one of the following criteria:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If good or service transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains the good or service.

The progress towards complete satisfaction of the performance obligation is measured based on one of the following methods that best depicts the Group’s performance in satisfying the performance obligation:

- direct measurements of the value transferred by the Group to the customer; or
- the Group’s efforts or inputs to the satisfaction of the performance obligation.

If a contract involves multiple good or service, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Where these are not directly observable, they are estimated based on expected cost plus margin.

A receivable is recorded when the Group has an unconditional right to consideration. A right to consideration is unconditional if only the passage of time is required before payment of that consideration is due.

The following is a description of the accounting policies for the principal revenue streams of the Group:

(i) Credit referral and service fee

The Group engages primarily in operating an online consumer finance marketplace by providing an online platform which matches borrowers with investors. The Group determined that it is not the legal lender and legal borrower in the loan origination and repayment process. Therefore, the Group does not record loans receivable and payable arising from the loans between investors and borrowers on its marketplace.

The total consideration received from borrowers generally includes the services fees for facilitating loan origination and for providing ongoing monthly services (mainly covering cash processing services and collection services), and also includes contribution to the quality assurance fund, which provides a protection mechanism to investors who subscribe to these loans.

The total consideration from borrowers is first allocated to the quality assurance fund payable at fair value which meets the definition of a financial guarantee under HKFRS 9, and the remaining amount is then allocated to credit referral service and ongoing monthly services. The Group generally collects the entire amount relating to credit referral and ongoing monthly services as one combined fee.

The Group considers the credit referral services and ongoing monthly services as distinct performance obligations. Although the Group does not sell these services separately, the Group determined that both deliverables have standalone value. However, the Group does not provide these services separately, and the third-party evidence of selling price does not exist either, as public information is not available regarding the amount of fees that competitors charge for these services. As a result, the Group uses the expected-cost-plus-a-margin approach to determine its best estimate standalone selling prices of the different performance obligations as the basis for allocation. The total service fee allocated to credit referral is recognised as revenue upon execution of loan agreements between investors and borrowers. The service fees allocated to post-origination services are deferred and recognised over the period of the loan on a straight-line method, which approximates the pattern of when the underlying services are performed. When the cash received is different from the revenue recognised, a "Contract Asset" or "Contract Liability" shall be recognised in the consolidated statement of financial position.

(ii) Sale of goods

Revenue is recognised when the Group transfers a good to a customer and the customer obtains control of that asset. The customer obtains control of an asset when the significant risks and rewards of ownership of the asset have been transferred to the customer.

(iii) Impacts of adoption of HKFRS 15

The adoption of HKFRS 15 has no impact on the Group's consolidated financial statements for the six months ended 30 June 2017 and as at 31 December 2017.

The impacts of adopting HKFRS 15 on the Group's unaudited consolidated financial statements for the current period are as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

Financial Technology Services Business

The Group has restarted the financial technology services business in the beginning of March 2018, and it showed a robust growth momentum. As at 30 June 2018, the accumulated borrowings for the business amounted to approximately RMB170 million. More than 85,000 transactions in total were reached, and had generated a revenue of approximately HK\$7,735,000 for the six months ended 30 June 2018 (six months ended 30 June 2017: Nil).

Apartment Leasing Business

The Group jointly established 武漢伍浩物業管理有限責任公司 (transliterated as Wuhan Wuhao Property Management Company Limited) (“**Wuhan Wuhao**”) with an independent third party and commenced apartment leasing business at the end of March 2018. As of 30 June 2018, the Group has secured the agency rights of 154 apartments (with 549 rooms in total) and successfully procured the leasing of 264 rooms thereof, which generated a revenue of approximately HK\$437,000 for the six months ended 30 June 2018 (six months ended 30 June 2017: Nil).

Smart Wearable Device Business

The Group is still continuously developing and upgrading the functions of the next generation smart glasses and smart fitness watches. For the six months ended 30 June 2018, the Group has sold 221 pairs of smart glasses and 15,068 smart fitness watches, which generated revenue of approximately HK\$208,000 and HK\$2,466,000 (six months ended 30 June 2017: approximately HK\$2,461,000 and Nil), respectively.

Lottery Business

As disclosed in the Company's announcements dated 16 January and 13 April 2018, respectively, the Directors have made changes in the business strategy in relation to the Group's lottery business in the PRC to focus on Shandong instead of Shenzhen and Chongqing. Pursuant to the respective agreements entered into by 深圳高榮財智科技有限公司 (transliterated as Shenzhen Gaorong Caizhi Technology Company Limited ("**Shenzhen Gaorong**")) with each of Shandong Province Sports Lottery Management Centre and an independent third party, Shenzhen Gaorong is responsible for providing relevant technical services and is entitled to collect a particular percentage of the revenue from the sales network. As of the end of June 2018, the Group has submitted the applications for the establishment of a total of 1,503 sales points in various cities in Shandong and 943 of which have been approved. For the six months ended 30 June 2018, the Group's lottery business generated a revenue of approximately HK\$456,000 (six months ended 30 June 2017: approximately HK\$86,000).

Sports Training Business

The Group operates the Hui So Hung Table Tennis Training Centre in Hong Kong to provide table tennis training services to students with different ages and levels. The Group's sports training business maintained a stable operation during the first half year. Revenue for the six months ended 30 June 2018 has reached approximately HK\$1,117,000 (six months ended 30 June 2017: approximately HK\$1,164,000) which was slightly less than the corresponding period in 2017 due to normal business fluctuation.

Financial Review

For the six months ended 30 June 2018, the Group recorded an unaudited revenue of approximately HK\$12,419,000 (six months ended 30 June 2017: approximately HK\$3,711,000), representing an increase of approximately 235% as compared with that for the corresponding period in 2017. During the six months ended 30 June 2018, the revenue of the Group was mainly derived from (i) financial technology services business; (ii) apartment leasing business; (iii) smart wearable device business; (iv) lottery business; and (v) sports training business. The Company first recorded revenue generated from apartment leasing business in April 2018. For the six months ended 30 June 2018, the unaudited loss attributable to owners of the Company was approximately HK\$4,034,000 (six months ended 30 June 2017: approximately HK\$12,855,000), representing a decrease of approximately 69% as compared with that for the corresponding period in 2017, which was mainly attributable to the profitable results from the Group's financial technology services business segment and a reduction in central administration costs.

Liquidity and gearing ratio

As at 30 June 2018, the Group recorded total assets of approximately HK\$72,035,000 (31 December 2017: approximately HK\$70,500,000), total liabilities of approximately HK\$32,533,000 (31 December 2017: approximately HK\$63,124,000) and cash and bank balances (excluding pledged bank deposit) of approximately HK\$27,088,000 (31 December 2017: approximately HK\$59,173,000).

As at 30 June 2018, the gearing ratio of the Group was approximately 33% (31 December 2017: approximately 671%), based on the total borrowings of approximately HK\$13,003,000 (31 December 2017: approximately HK\$49,516,000) and the total equity of approximately HK\$39,502,000 (31 December 2017: HK\$7,376,000). Total borrowings solely represent the outstanding amount of the Company's convertible bonds. The exercise of the conversion right attached to the Company's convertible bonds in January 2018 has largely increased the Group's total equity and also reduced the Group's total borrowings, hence the gearing ratio of the Group has dropped significantly.

Capital structure

The capital structure of the Group mainly consists of convertible bonds and equity attributable to equity shareholders of the Group comprising of issued share capital and reserves. The convertible bonds carry zero coupon and will mature on 26 August 2020. As at 30 June 2018, the Company's total number of issued ordinary shares of HK\$0.005 each ("**Shares**") was 4,671,035,048 (31 December 2017: 4,629,368,382 Shares).

Convertible bonds

On 24 January 2018, the Company received a conversion notice from Mr. Leung Ngai Man ("**Mr. Leung**") to exercise the conversion rights attached to the outstanding convertible bonds in the principal amount of HK\$50,000,000. 41,666,666 Shares, representing approximately 0.9% of the issued Shares as at 24 January 2018 and approximately 0.89% of the enlarged issued Shares immediately after the conversion, were allotted and issued to Mr. Leung on 26 January 2018 at the conversion price of HK\$1.2 per Share.

Charges on the Group's assets

As at 30 June 2018, the Group did not have any charges on its assets (31 December 2017: Nil).

Material investments, material acquisition or disposal of subsidiary, associates or joint ventures

On 21 March 2018, 杭州仁分信息科技有限公司 (transliterated as Hangzhou Safen Information Technology Company Limited ("**Hangzhou Safen**")), an indirect wholly-owned subsidiary of the Company, entered into an agreement with Liu Jiping (劉繼平) ("**Mr. Liu**"), an independent third party, for the formation of Wuhan Wu hao. Wuhan Wu hao commenced apartment leasing business at the end of March 2018. Hangzhou Safen and Mr. Liu will make a capital contribution to Wuhan Wu hao in a total of RMB12,000,000 (equivalent to approximately HK\$14,849,831). Wuhan Wu hao is owned by Hangzhou Safen and Mr. Liu as to 55% and 45%, respectively. Please refer to the announcement of the Company dated 21 March 2018 for details.

Capital investment and future plans for material investment or capital asset purchase

During the six months ended 30 June 2018, the Group paid approximately HK\$7,003,000 (six months ended 30 June 2017: Nil) for the purchase of property, plant and equipment. Save as disclosed in this report, the Group had no specific plan for material investment or acquisition of capital assets during the six months ended 30 June 2018.

Exposure to fluctuation in exchange rates

The Group's sales and purchases were mostly denominated in Hong Kong Dollars ("**HK\$**") and Renminbi ("**RMB**").

RMB is not a freely convertible currency. Future exchange rates of RMB could vary significantly from the current or historical exchange rates as a result of controls that could be imposed by the PRC government. The exchange rates may also be affected by economic developments and political changes domestically and internationally, and the demand and supply of RMB. The appreciation or devaluation of RMB against HK\$ may have impact on the operation results of the Group.

The Group monitors its foreign currency risks and will consider hedging significant currency exposures should the need arises. No hedging transaction has been entered into by the Group during the six months ended 30 June 2018 (six months ended 30 June 2017: Nil).

Contingent liabilities

As at 30 June 2018, the Group had no significant contingent liabilities (31 December 2017: Nil).

Segmental information

Please refer to note 4 to the financial statements for the segmental information of the Group.

Prospects

The management of the Group believes that with the implementation of new laws and regulations in the PRC, the development of the fintech industry will be more regulated and healthy, and the Group's financial technology services business will also achieve a stable development in the long run. The management of the Group also believes that as apartment leasing industry in the PRC has developed rapidly in recent years, carrying out the apartment leasing business would bring greater contribution to the Group's operating revenue and profitability, which is conducive to the continuous improvement of the Group's earning position.

Employee information

As at 30 June 2018, the Group had a total of 76 (31 December 2017: 42) employees.

The salaries and benefits of the Group's employees are kept at a competitive level and employees are rewarded on a performance-related basis within the general framework of the Group's salary and bonus system, which is reviewed annually.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Board is committed to maintaining high standards of corporate governance in order to uphold the transparency of the Group and safeguard interests of the shareholders of the Company (the **"Shareholders"**).

During the period under review from 1 January 2018 to 30 June 2018, the Company complied with all the code provisions in the Corporate Governance Code and Corporate Governance Report (the **"CG Code"**) as set out in Appendix 15 to the GEM Listing Rules except for the following:

Chairman and Chief Executive Officer

Code provision A.2.1 of the CG Code stipulates that the role of chairman and chief executive should be separate and should not be performed by the same individual.

Currently, the role of the chairman of the Board is performed by Mr. Sun. Mr. Sun has been engaging in Internet and financial technology business development for years. The Board believes that by virtue of the practical experience of Mr. Sun in mobile Internet and financial technology, Mr. Sun is able to provide the Company with strong and consistent leadership, facilitates effective and efficient planning, implementation of business decisions and strategies, and ensures the generation of benefits to the Shareholders.

Although the appointment of the chief executive officer of the Company remains outstanding, the overall management of the Company was performed by Mr. Sun and Mr. Zhao Ke, their respective areas of profession spearheaded the Group's overall development and business strategies.

The Company is still looking for a suitable candidate to fill the vacancy of the chief executive officer in order to comply with the CG Code.
