- The Group does not recommend the payment of any dividend for the Relevant Period.

#### **BUSINESS REVIEW**

Despite by the growth of the Group's business in Taiwan, and its entry into the Malaysia and Singapore markets, both of which have started to contribute to the Group's revenue, such growth in revenue was partially offset by the decline of revenue derived from Hong Kong, the Group has recorded approximately 6.7% increase in revenue to approximately HK\$13,064,000 (2017: approximately HK\$12,242,000) for the Relevant Period.

Gross profit (after reversal of JAG points i.e. the points which the Group distributes to its clients to reward them to participate in the Group's advertising campaigns) increased by approximately 11.2% to approximately HK\$8,776,000 while gross profit margin increased to approximately 67.2%, which was caused by (i) reduced cost of sales after the Group's entry into new markets; and (ii) a better mix of different services. Mainly due to expansion of work force and professional fees, the Group recorded a profit for the Relevant Period of approximately HK\$2,062,000 (2017: loss of approximately HK\$5,811,000).

The Group principally engages in the provision of online advertising services, which consist of social viral service, engager service and mass blogging service. Its business primarily operates in Hong Kong, Taiwan, Malaysia and Singapore. The Group's services are delivered via its self-developed platforms, which allow clients to match their advertising campaigns or contents with the Group's relevant members based on their demographic details and behaviours, such as consumption patterns of certain products and services and brand preferences.

#### By geographical market

During the Relevant Period, approximately 47.2% of the Group's revenue (2017: approximately 54.8%) was generated from clients in Hong Kong, while approximately 42.3% (2017: approximately 43.3%) was generated from clients in Taiwan. Malaysia and Singapore (new markets) are picking up to contribute approximately 10.5% of the revenue to the Group (2017: approximately 1.8%).

#### Hong Kong

During the Relevant Period, the business environment continued to be fluctuating. Revenue decreased from approximately HK\$6,713,000 for the Previous Period to approximately HK\$6,170,000 for the Relevant Period, representing approximately a decline of approximately 8.1%. In view of the changing behaviours and preferences of internet users, the Group is adjusting the service mix to meet clients' needs.

#### Taiwan

During the Relevant Period, the operating environment in Taiwan continued to be challenging, mainly attributable to the changing behaviours of internet users. The Group is dealing with the change with a shift of focus on service type. Notwithstanding the various challenges encountered, the revenue for the Relevant Period in Taiwan increased to approximately HK\$5,520,000 (2017: approximately HK\$5,303,000).

#### Other Markets

The Group entered the Malaysia market in 2017. During the Relevant Period, the Group expanded efforts to enhance membership development by organizing a member competition event to reward members with the most JAG Points earned during the promotion period. With such strong support in member development, we have surpassed the 100,000-member plateau in less than two years of operation in Malaysia, reaching 102,987 members as at 30 September 2018. The Group also entered the Singapore market in late 2017, following its entry into the Malaysia market. During the Relevant Period, the Group continued efforts to strengthen member recruitment and client development in Singapore. As a result, revenue in other markets for the Relevant Period increased to approximately HK\$1,374,000 from approximately HK\$226,000 in the Previous Period.

#### PROSPECTS

More corporations are reallocating their resources from traditional to online advertising services, and such a shift will probably accelerate competition in the online advertising industry, and raise the awareness the importance of investing in such services. Despite the intensive competition in the industry, the Group remains confident in its ability to differentiate itself in the market owing to various competitive advantages, including its strong base of members covering four geographic markets and its history of serving a wide spectrum of reputable clients in various industries. Leveraging good relations with media agencies, the Group can also expect great opportunities such as being recommended to media agencies' extensive client base, which will ensure stable and continuous requests for services. The Group's self-developed platforms growth. Looking ahead, the Group will continue to enhance membership development by organizing events for our members, improve the user interface and functionality of its mobile applications and websites, expand client network, continue to build its presence in the Malaysia and Singapore markets and drive new services to cater for the changing behaviours of internet users.

To accomplish these objectives, the Group will also recruit more talents, especially for the business development segment, to strengthen its workforce. This will enable the Group to better cater for the everchanging needs of various industries, as well as those of existing and potential clients. In addition, the Group will consider new opportunities, such as sponsoring advertising-related awards to reach out to more potential clients so as to enhance the Group's overall profitability. Furthermore, the Group will focus on enriching its member base from different segments such as age group, interest and lifestyle to enhance the diversity of the Group's membership base and thereby attract more clients.

With years of experience, well-established reputation, and a first-mover advantage, the Group will leverage such strengths to reinforce its leading industry position. At the same time, by further developing these attributes, the Group will remain true to its vision of becoming the preferred online marketing partner for advertising agencies and brand owners in realising their pursuits.
