REPORT 2018

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

- The gross profit was approximately HK\$14.3 million for the six months ended 30 September 2018, representing an increase from approximately HK\$9.0 million for the six months ended 30 September 2017. Such increase was mainly due to the increase in revenue.
- The profit attributable to owners of the Company decreased to approximately HK\$0.8 million for the six months ended 30 September 2018, as compared to approximately HK\$3.5 million recorded for the same period ended 30 September 2017. 2. GROUP REORGANISATION AND BASIS OF PREPARATION AND PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Prior to the Reorganisation, the entire equity interests of Talent Mark Development Limited ("TMD") and Talent Mart Construction Co., Limited ("TMC") were beneficially owned by two individuals, namely Mr. Ha and Mr. Ip collectively as the controlling shareholders (the "Controlling shareholders"). The Controlling Shareholders have been controlling TMD and TMC on a collective basis on decision making process over, including but not limited to, financial, management and operational matter of TMD and TMC and they have always been acting in concert.

The Reorganisation comprises the following steps:

- (i) Talent Prime was incorporated in the BVI with limited liability on 5 July 2017. Upon incorporation, 50 and 50 fully-paid ordinary shares with a par value of United States Dollar ("US") 1 each of Talent Prime were allotted and issued at par to Mr. Ha and Mr. Ip, respectively.
- (ii) China Talents was incorporated in the BVI with limited liability on 17 February 2017. Upon incorporation, 500 and 500 fully paid ordinary shares with a par value of US\$1 each of China Talents were allotted and issued at par to Mr. Ha and Mr. Ip, respectively. On 31 July 2017, China Talents further allotted and issued 100 fully paid ordinary shares to Talent Prime at a cash consideration of HK\$7,000,000. On 31 August 2017, upon the fulfillment of the completion criterion set out in the Subscription Agreement, Infinite Honor, an independent third party, obtained the equity interest in relation to 700 ordinary shares of China Talents, while the allotment and issuance of the respective shares was made on 24 October 2017.
- (iii) Talent Tren Construction Limited ("**Talent Tren**") was inactive and deregistered on 14 July 2017.

For the six months ended 30 September 2018

2. GROUP REORGANISATION AND BASIS OF PREPARATION AND PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

- (iv) The Company was incorporated in the Cayman Islands on 23 October 2017. On the date of incorporation, 100 ordinary shares, representing the entire issued share capital of the Company were allotted and issued at par and allotted to Talent Prime.
- (v) On 24 October 2017, China Talents acquired the entire equity interest of TMC from Mr. Ha and Mr. Ip in consideration of the allotment and issuance of 4,000 ordinary shares of China Talents, credited as fully paid, to Talent Prime. Upon completion, TMC became a wholly-owned subsidiary of China Talents.
- (vi) Prior to 16 August 2011, Mr. Ha holds one share in TMD. On 16 August 2011, Mr. Ha transferred his one share in TMD to Ms. Wang and TMD allotted and issued one share to Mr. Ip. On 20 June 2013, TMD allotted 2,099,999 ordinary shares to each of Mr. Ip and Ms. Wang (who held the shares as nominee for Mr. Ha), respectively. Pursuant to a confirmatory deed signed between Mr. Ha and Ms. Wang on 24 October 2017, Mr. Ha has beneficially owned 50% of the issued capital of TMD during the period from 16 August 2011 to 24 October 2017. On 24 October 2017, Ms. Wang transferred 2,100,000 ordinary shares (representing 50% of the issued capital of TMD) to Mr. Ha at a consideration of HK\$1. On the same date, China Talents acquired the entire equity interest of TMD from Mr. Ha and Mr. Ip in consideration of (i) transfer of 500 and 500 ordinary shares of China Talents held by Mr. Ha and Mr. Ip, respectively to Talent Prime and, (ii) allotment and issuance of 4,200 ordinary shares of China Talents to Talent Prime. Upon completion, TMD became a wholly-owned subsidiary of China Talents.
- (vii) On 21 September 2018, the Company acquired 10,000 ordinary shares of China Talents, representing the entire equity interest of China Talent, in consideration of which the Company allotted and issued 9,200 and 700 ordinary shares of the Company to Talent Prime and Infinite Honor, respectively. Upon completion of the transfer, China Talents became a wholly-owned subsidiary of the Company.

For the six months ended 30 September 2018

2. GROUP REORGANISATION AND BASIS OF PREPARATION AND PRESENTATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

Upon the completion of the above steps, Talent Prime became the ultimate holding company of the Company which is not forming part of the Group. The Company became a holding company of the companies now comprising the Group on 21 September 2018. The Group comprising the Company and its subsidiaries resulting from the Reorganisation is regarded as a continuing entity. Since TMC and TMD were under common control by the Controlling Shareholders, the equity transfer of these companies as stated above, except for the subscription of interest of China Talents by Infinite Honor as stated in note (ii), have been accounted for as a business combination involving entries under common control using the principles of merger accounting in accordance with Accounting Guideline 5 "Merger Accounting for Common Control Combinations" issued by the HKICPA as if the transfers had been completed on 1 April 2017. Accordingly, the condensed consolidated financial statements of the entities comprising the Group for the six months ended 30 September 2017 and 2018 have been prepared as if the Company had always been the holding company of the Group.

The combined statements of profit or loss and other comprehensive income, combined statements of changes in equity and combined statements of cash flows for the six months ended 30 September 2017 and 2018 have been prepared to present the results, changes in equity and cash flows of the companies now comprising the Group, as if the group structure upon the completion of the Reorganisation had been in existence throughout the six months ended 30 September 2017 and 2018, or since their dates of incorporation, where there is a shorter period.

The combined statements of financial position of the Group as at 31 March 2018 and 30 September 2018 have been prepared to present the assets and liabilities of the companies now comprising the Group as if the current group structure upon completion of the Reorganisation had been in existence at those dates, taking into account the respective dates of incorporation, where applicable.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis.

Other than described as below and changes in accounting policies resulting from application of new and amendments to Hong Kong Financial Reporting Standards ("HKFRSs"), the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 September 2018 are the same as those followed in the preparation of the Group's annual financial information for the year ended 31 March 2018 as stated in the accountant's report included in the prospectus dated 29 September 2018.

Application of new and amendments to HKFRSs

In the current interim period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 April 2018 for the preparation of the Group's condensed consolidated financial statements:

HKFRS 9 Financial Instruments

HKFRS 15 Revenue from Contracts with Customers and the related

Amendments

HK(IFRIC) — Int 22 Foreign Currency Transactions and Advance Consideration Amendments to HKFRS 2 Classification and Measurement of Share-based Payment

Transactions

Amendments to HKFRS 4 Applying HKFRS 9 Financial Instruments with HKFRS

4 Insurance Contracts

Amendments to HKAS 28 As part of the Annual Improvements to HKFRSs

2014-2016 Cycle

The new and amendments to HKFRSs have been applied in accordance with the relevant transition provisions in the respective standards and amendments which results in changes in accounting policies, amounts reported and/or disclosures as described below.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers

The Group has applied HKFRS 15 for the first time in the current interim period. HKFRS 15 superseded HKAS 18 Revenue, HKAS 11 Construction Contracts and the related interpretations.

The Group has applied HKFRS 15 retrospectively with the cumulative effect of initially applying this Standard recognised at the date of initial application, 1 April 2018. Any difference at the date of initial application is recognised in the opening retained profits, or other components of equity, as appropriate and comparative information has not been restated. Furthermore, in accordance with the transition provisions in HKFRS 15, the Group has elected to apply the Standard retrospectively only to contracts that are not completed at 1 April 2018. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 18 *Revenue*, HKAS 11 *Construction Contracts* and related interpretations.

3.1.1 Key changes in accounting policies resulting from application of HKFRS 15

HKFRS 15 introduces a 5-step approach when recognising revenue:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations
 in the contract
- Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers (continued)

3.1.1 Key changes in accounting policies resulting from application of HKFRS 15 (continued)

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good and service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers (continued)

3.1.1 Key changes in accounting policies resulting from application of HKFRS 15 (continued)

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards compete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Contract assets and contract liabilities

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers (continued)

3.1.2 Summary of effects arising from initial application of HKFRS 15

The application of HKFRS 15 has no impact to the timing and amounts of revenue recognised for civil engineering construction works of roads and highway related infrastructures and repair and maintenance works for structures of roads and highways in current and prior interim period. The transition of HKFRS 15 has no impact on retained profits at 1 April 2018.

The following adjustments were made to the amounts recognised in the condensed consolidated statement of financial position at 1 April 2018. Line items that were not affected by the changes have not been included.

3.1 Impacts and changes in accounting policies of application on HKFRS 15 Revenue from Contracts with Customers (continued)

3.1.2 Summary of effects arising from initial application of HKFRS 15 (continued)

The application of HKFRS 15 has no impact to the condensed consolidated statement of profit or loss and other comprehensive income, net cash flow from/(used in) operating, investing and financing activities on the condensed consolidated statement of cash flows for the current interim period.

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments

In the current period, the Group has applied HKFRS 9 Financial Instruments and the related consequential amendments to other HKFRSs. HKFRS 9 introduces new requirements for 1) the classification and measurement of financial assets and financial liabilities, 2) expected credit losses ("ECL") for financial assets and contract assets and 3) general hedge accounting.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments

The Group has applied HKFRS 9 in accordance with the transition provisions set out in HKFRS 9, i.e. applied the classification and measurement requirements (including impairment) retrospectively to instruments that have not been derecognised as at 1 April 2018 (date of initial application) and has not applied the requirements to instruments that have already been derecognised as at 1 April 2018. The difference between carrying amounts as at 31 March 2018 and the carrying amounts as at 1 April 2018 are recognised in the opening retained profits and other components of equity, without restating comparative information.

Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 39 Financial Instruments: Recognition and Measurement.

3.2.1 Key changes in accounting policies resulting from application of **HKFRS 9**

Classification and measurement of financial assets

Trade receivables arising from contracts with customers are initially measured in accordance with HKFRS 15.

All recognised financial assets that are within the scope of HKFRS 9 are subsequently measured at amortised cost or fair value, including unquoted equity investments measured at cost less impairment under HKAS 39.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments (continued)

3.2.1 Key changes in accounting policies resulting from application of HKFRS 9 (continued)

Classification and measurement of financial assets (continued)

Debt instruments that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All of the Group's financial assets are subsequently measured at amortised cost.

Impairment under ECL model

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including trade receivables, retention receivables, other receivables, contract assets, amounts due from directors, amount due from a joint venture, bank balances and cash). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments (continued)

3.2.1 Key changes in accounting policies resulting from application of HKFRS 9 (continued)

Impairment under ECL model (continued)

The Group always recognises lifetime ECL for trade receivables, retention receivables and contract assets. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments (continued)

3.2.1 Key changes in accounting policies resulting from application of HKFRS 9 (continued)

Significant increase in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

For the six months ended 30 September 2018

3. PRINCIPAL ACCOUNTING POLICIES (continued)

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments (continued)

3.2.1 Key changes in accounting policies resulting from application of HKFRS 9 (continued)

Significant increase in credit risk (continued)

Despite the aforegoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) it has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group considers that default has occurred when the instrument is 180 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information.

3.2 Impacts and changes in accounting policies of application on HKFRS 9 Financial Instruments and the related amendments (continued)

3.2.1 Key changes in accounting policies resulting from application of HKFRS 9 (continued)

Measurement and recognition of ECL (continued)

Generally, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables, retention receivables, contract assets and amount due from a joint venture where the corresponding adjustment is recognised through a loss allowance account.

As at 1 April 2018, the directors of the Company reviewed and assessed the Group's existing financial assets and contract assets for impairment using reasonable and supportable information that is available without undue cost or effort in accordance with the requirements of HKFRS 9. The results of the assessment and the impact thereof are detailed in Note 3.2.2.

3.2.2 Summary of effects arising from initial application of HKFRS 9

As at 1 April 2018, no additional credit loss allowance has been recognised against accumulated profits.

Except as described above, the application of other amendments to HKFRSs in the current interim period has had no material effect on the amounts reported and/or disclosures set out in these condensed consolidated financial statements

The increase in our gross profit and gross profit margin was primarily due to (i) the increase in revenue and (ii) the Group recorded a decrease in total sub-contracting fees as the Group undertook a higher proportion of works orders by itself.

Other income

The Group recorded other income of HK\$20,000 during the six months ended 30 September 2018 (six months ended 30 September 2017: HK\$257,000).
