2018 ANNUAL REPORT

# CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Winning Tower Group Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

# **CHAIRMAN'S STATEMENT**

Dear Shareholders,

On behalf of the board of directors and the management, I am excited to present you with the chairman's statement and the annual results of Winning Tower Group Holdings Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31 December 2018.

Since our successful listing on the GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 30 June 2017, we have paid much effort to strive for a better business performance. I am pleased to report to you all that the Group's result in 2018 showed a positive improvement and what we have paid is now being rewarded. In particular, our sales for raw, frozen and processed food products contributed approximately HK\$136 million revenue and registered a 2.3% increase compared with last year.

However, there are concerns that the negative effects of the trade war and the economic downturn in the PRC would spread to Hong Kong, adversely affecting the Group's business in 2019 or may be even longer. The management would closely monitor the business and fine tune our business strategy on a timely basis to mitigate the macroeconomic factors. Nonetheless, that does not mean that the Company would become absolutely conservative; for any business opportunities that we believe to be beneficial to the Company, we will still go for them.

Lastly, I would like to say thank you to all of you for your continuous support to the Company. Special appreciation goes to all the staff and management of the Group for their significant contributions over the past year. With your support and contributions, I strongly believe we can have a promising future.

Lai King Wah

Chairman

21 March 2019

#### **BUSINESS REVIEW**

Winning Tower Group Holdings Limited (the "Company") and its subsidiaries (collectively, the "Group") is principally engaged in processing and trading of raw, frozen and cooked food products and provision of transportation services in Hong Kong.

On 30 June 2017 (the "Listing Date"), the Company was successfully listed on the GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). 350,000,000 shares (or 25% of the total issued shares) were allotted and sold to the public at HK\$0.2 per share and a total of approximately HK\$39.9 million was successfully raised.

The Group will continue to develop by maintaining its customer base while exploring any new business opportunities and expanding its business capacity by increasing its refrigeration capacity.

#### **USE OF PROCEEDS**

From the Listing Date to 31 December 2018 (the "Review Period"), the net proceeds raised from listing as disclosed in the prospectus of the Company dated 19 June 2017 (the "Prospectus") have been applied as follows:

		In the process of interviewing candidates for the human resource manager

#### **RESULTS AND FINANCIAL REVIEW**

#### Revenue

For the year ended 31 December 2018, the Group recorded approximately HK\$136 million revenue as compared with last year's corresponding period of approximately HK\$133 million, representing an increase of approximately 2.3%. The increase was mainly due to the increase in sales order for raw, frozen and processed food products.

#### Cost of inventories consumed and loss before tax

For the year ended 31 December 2018, the Group's cost of inventories consumed and profit before tax from operations was approximately HK\$88.5 million and HK\$5.3 million respectively, while the cost of inventories consumed and loss before tax in last year's corresponding period was approximately HK\$89.0 million and approximately HK\$5.5 million respectively. The decrease in cost of inventories consumed was due to concentrate on high margin products while the turnaround from loss to profit before tax from operations was mainly due to the non-recurring listing expenses incurred for the listing on the GEM of the Company in 2017 did not incur in 2018 and the increase in revenue in 2018.

#### **RESULTS AND FINANCIAL REVIEW** (Continued)

#### **Employee benefit expenses**

For the year ended 31 December 2018, the Group's employee benefit expenses increased to approximately HK\$21.2 million from last year's corresponding period's approximately HK\$19.7 million which was attributable to increase in wages.

#### Income tax expense

For the year ended 31 December 2018, the Group's income tax expense was approximately HK\$1.2 million which was lower than last year's corresponding period's approximately HK\$1.5 million. The decrease in tax expense was due to the tax non-deductible expenses incurred last year did not incur in the current financial year.

#### Profit for the year

Based on the above reasons, for the year ended 31 December 2018, the Group recorded a net profit for the period of approximately HK\$3.6 million versus a net loss of approximately HK\$7.8 million of last year's corresponding period.

#### FINANCIAL KEY PERFORMANCE

The above financial data were chosen to present in this annual report as they represent a material financial impact on the financial statements of the Group for the current and/or the previous financial year, with that a change of which could affect the revenue and profit conspicuously. It is believed that by presenting the changes of these financial data can effectively explain the financial performance of the Group for the year ended 31 December 2018.

#### Liquidity and financial resources

As at 31 December 2018, the Group had net current assets of approximately HK\$37.8 million (2017: HK\$37.6 million), of which cash at bank consisted of approximately HK\$21.7 million (2017: approximately HK\$24.6 million). The decrease in cash was due to nearly all the proceeds raised in 2017 had been utilised. The Group had bank borrowings amounted to approximately HK\$27.4 million (2017: approximately HK\$24.3 million).

#### **Gearing ratio**

As at 31 December 2018, the Group's gearing ratio was approximately 19.1% (2017: 19.1%), which is calculated based on the Group's total interest-bearing debt of approximately HK\$27.4 million (2017: HK\$24.3 million) and the Group's total equity of approximately HK\$143.1 million (2017: HK\$127.0 million).

#### **Capital structure**

As at 31 December 2018, the Company had 1,400,000,000 issued shares at HK\$0.01 each. There has been no change in the Company's capital structure from 31 December 2017.

## FINANCIAL KEY PERFORMANCE (Continued)

### **Treasury policy**

The Group has adopted a prudent financial management approach towards its treasury policies and thus maintained a healthy liquidity position throughout the period. To manage liquidity risk, the management closely monitors the Group's liquidity position and maintains sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to settle the payables of the Group.

#### Charge of assets

As at 31 December 2018, the Group's leasehold land and buildings held for own use with a net carrying amount of approximately HK\$103.0 million (2017: HK\$92.8 million) have been pledged to secure banking facilities granted to the Group.

#### **Currency risk**

Save as disclosed above, as at 31 December 2018, no other persons had any interests or short positions in the shares or underlying shares of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) as recorded in the register required to be kept under section 336 of the SFO.

#### **SHARE OPTION SCHEME**

The Company has a share option scheme (the "Share Option Scheme") which was approved and adopted by the shareholder of the Company by way of written resolution on 5 June 2017 which has a valid period of 10 years from the date of adoption of the Share Option Scheme (i.e., 5 June 2017, the "Adoption Date") to the tenth anniversary of the Adoption Date.

No share option has been granted under the Share Option Scheme since its adoption and as such, no options have been exercised, lapsed or cancelled as at 31 December 2018.

The following is a summary of the principal terms and conditions of the Share Option Scheme.

#### **Purpose**

The purpose of the Share Option Scheme is to provide incentives or rewards to participants for their contribution to the Group and/or to enable the Group to recruit and retain high-calibre employees and attract human resources that are valuable to the Group and any invested entity.

#### **Participants**

Subject to the Share Option Scheme and the GEM Listing Rules, the Board shall be entitled but shall not be bound at any time and from time to time within the scheme period to offer to grant to any participant as the Board may in its absolute discretion select, and subject to such conditions as the Board may think fit, an option to subscribe for such number of shares as the Board may determine at a price calculated in accordance with the Share Option Scheme.

Upon acceptance of the option, the Participant shall pay HK\$1.00 to the Company by way of consideration for the grant. The option will be offered for acceptance for a period of twenty-one days from the date on which the option is granted.

### **SHARE OPTION SCHEME** (Continued)

#### Maximum amount of shares

The total number of Shares which may be issued upon exercise of all Options (excluding for this purpose Options which have lapsed in accordance with the terms of the Share Option Scheme and any other schemes) to be granted under the Share Option Scheme and other schemes must not, in aggregate, exceed 10% of the Shares in issue. The Company may refresh the 10% limit by seeking prior approval from Shareholders in a general meeting. The total number of Shares which may be issued upon exercise of all Options after the limit as refreshed, in aggregate, must not exceed 10% of the Shares in issue at the date of such Shareholders' approval from the Shareholders. The Company may also grant Options beyond the 10% limit by seeking Shareholder approval in a general meeting, provided that the Grantee(s) of such Option(s) must be specifically identified before such approval is sought.

Notwithstanding the foregoing, the Company must not grant any Options if the number of Shares, which may be issued upon exercise of all outstanding Options granted and yet to be exercised under the Share Option Scheme and other schemes, exceeds 30% of the Shares in issue from time to time.

#### Maximum entitlement of each participant

No Participant shall be granted Options if exercised in full would result in the total number of Shares already issued under all the Options granted to him which have been exercised and issuable under all the Options granted to him which are for the time being subsisting and unexercised in any 12-month period would exceed 1% of the total number of Shares in issue, provided that if approved by Shareholders in general meeting with such Participant and his close associates (or his associates if such Participant is a connected person) abstaining from voting, the Company may make further grant of Options to such Participant (the "Further Grant") notwithstanding that the Further Grant would result in the total number of Shares already issued under all the Options granted to such Participant which have been exercised and issuable under all the Options granted to him which are for the time being subsisting and unexercised in any 12-month period exceed 1% of the total number of Shares in issue.

# **Time of Exercise of Option**

An Option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period to be determined by the Board absolutely, provided that such period shall not be more than ten years from the date upon which the Option is deemed to be granted and accepted in accordance with the Share Option Scheme. The Board may, at its discretion, determine the minimum period for which the Option has to be held before the Option can be exercised.

The amount payable on application or acceptance of the option and the period within which payments or calls must or may be made or loans for such purposes must be paid

The offer of a grant of share options may be accepted within 21 days from the date of the offer upon payment of a consideration of HK\$1 by the grantee.

## **SHARE OPTION SCHEME** (Continued)

#### **Price of Shares**

The subscription price in respect of Share under any particular Option shall be such price as determined by the Board in its absolute discretion at the time of the grant of the relevant Option but in any case the relevant subscription price shall not be less than the highest of (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date of the grant of the Option, which must be a trading day; (ii) the average closing price of the Shares as stated in the Stock Exchange's daily quotations sheet for the five trading days immediately preceding the date of the grant of the Option; and (iii) the nominal value of a Share.

For the purpose of determining the relevant subscription price where the Shares have been listed on the Stock Exchange for less than five trading days preceding the date of the grant of the Option, the issue price of the Shares shall be deemed to be the closing price of the Shares for any trading day falling within the five trading days period after the Listing Date (i.e., 30 June 2017).

#### The remaining life of the scheme

The Share Option Scheme will expire on 4 June 2027.

- (1) selection of Board members will be based on a range of diversity perspectives, which would include but not limited to gender, age, cultural and education background, professional experience, skills, knowledge and length of service; and
- (2) the Nomination Committee will monitor the implementation of the diversity policy from time to time to ensure the effectiveness of the diversity policy.

#### PROFESSIONAL DEVELOPMENT OF THE DIRECTORS

In compliance with the code provision A.6.5 of the Code, all Directors had participated in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. The Directors had provided the relevant record to the Company during the year. The Company is committed in arranging and funding suitable training to all Directors for their continuous professional development. Each Director is briefed and updated from time to time to ensure that he/she is fully aware of his/her responsibilities under the GEM Listing Rules and applicable legal and regulatory requirements and the governance policies of the Group. All the Directors also understand the importance of continuous professional development and are committed to participate in any suitable training to develop and refresh their knowledge and skills.

#### **RISK MANAGEMENT AND INTERNAL CONTROLS**

The Board has overall responsibility for the internal controls of the Company and for reviewing its effectiveness. The Board is committed to implementing an effective and sound internal control system to safeguard the interest of the shareholders and the Group's assets. The internal control system includes safeguard of the interest of shareholders and the Group's assets. The Board has delegated to management for the implementation of all relevant financial, operational, compliance controls and risk management function within a defined framework. During the year ended 31 December 2018, the Board has conducted a review of the system of internal control to ensure the effectiveness and adequacy of the system. The Board shall conduct such review at least once annually.

#### **INTERNAL AUDIT**

The Group has an Internal Audit ("IA") function, which is comprised of professional staff with relevant expertise (such as certified public accountant). The IA function is independent of the Group's daily operation and carries out appraisal of the risk management and internal control systems by conducting interviews, walkthroughs and tests of operating effectiveness. An IA plan has been approved by the Board. According to the established plan, review of the risk management and internal control systems is conducted annually and the results are reported to the Board via Audit Committee afterwards. This could ensure the internal control system is effective.

The Board is responsible for the risk management and internal control systems of the Group and ensuring review of the effectiveness of these systems has been conducted annually. Several areas have been considered during the Board's reviews, which include but not limited to (i) the changes in the nature and extent of significant risks since the last annual review, and the Group's ability to respond to changes in its business and the external environment (ii) the scope and quality of management's ongoing monitoring of risks and of the internal control systems.

The Board, through its reviews and the reviews made by IA function and Audit Committee, concluded that the risk management and internal control systems were effective and adequate. Such systems, however, are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. It is also considered that the resources, staff qualifications and experience of relevant staff were adequate and the training programs and budget provided were sufficient.

#### **COMPANY SECRETARY**

The Board had appointed Mr. Tsang Hing Bun ("Mr. Tsang") as the company secretary (the "Company Secretary") and an authorized representative of the Company on 5 June 2017. From 1 August 2018, Mr. Tsang ceased to be an employee of the Company as required under code provision F.1.1 of the CG Code, the Company has assigned Mr. Lai Ho Yin Eldon, the executive Director, as the contact person with Mr. Tsang. Hence, all Directors are still considered to have access to the advice and services of the Company Secretary in light of the above arrangement in accordance with code provision F.1.4 of the CG Code. Having in place a mechanism that Mr. Tsang will be informed of the Group's development promptly without material delay and with his expertise and experience, the Board is confident that having Mr. Tsang as the Company Secretary is beneficial to the Group's compliance with the relevant board procedures, applicable laws, rules and regulations. For the Reporting Period, Mr. Tsang has duly complied with the relevant professional training requirement under Rule 5.15 of the Listing Rules.

# THE SHAREHOLDERS' RIGHTS TO CONVENE AN EXTRAORDINARY GENERAL MEETING ("EGM")

Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition sent to the Company's registered office in Cayman Islands and its principal place of business in Hong Kong, for the attention of the Company Secretary, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If the Directors do not within 21 days from the date of the deposit of such requisition proceed duly to convene a special general meeting, the requisitionists themselves or any of them representing more than one half of the total voting rights of all of them may convene the special general meeting in the same manner, as nearly as possible, as that in which meetings may be convened by the Directors, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Directors to convene such a meeting shall be reimbursed to them by the Company.

The written requisition must state the purposes of the general meeting, signed by the Shareholders concerned and may consist of several documents in like form, each signed by one or more of those Shareholders.

If the requisition is in order, the Company Secretary will ask the Board to convene an EGM by serving sufficient notice in accordance with the statutory requirements to all the registered Members. On the contrary, if the requisition is invalid, the Shareholders will be advised of this outcome and accordingly, an EGM will not be convened as requested.

The notice period to be given to all the registered Members for consideration of the proposal raised by the shareholders concerned at EGM varies according to the nature of the proposal, as follows:

- at least twenty-one clear days' and not less than ten clear business days' notice in writing if the proposal constitutes a special resolution of the Company, which cannot be amended other than a mere clerical amendment to correct a patent error; and
- at least fourteen clear days' and not less than ten clear business days' notice in writing if the proposal constitutes an ordinary resolution of the Company.

#### Procedures for putting forward proposals at a general meeting

All questions submitted to a meeting shall be decided by a simple majority of votes except where a greater majority is required by the Bye-Laws or by the statutes of Bermuda. In the event of an equality of votes whether on a show of hands or on a poll, the chairman of the meeting shall be entitled to a second or casting vote.

#### **COMMUNICATIONS WITH SHAREHOLDERS AND INVESTORS**

Shareholders are one of our key stakeholders. The Board and senior management recognise their responsibilities to represent the interests and create long-term sustainable value for the shareholders.

The Company communicates to its shareholders through announcements and annual and interim reports published in its website http://www.wtgl.hk. # **ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT**

#### **SCOPE**

This is the second Environmental, Social and Governance ("ESG") Report issued by Winning Tower Group Holdings Limited (the "Company"), together with its subsidiaries, hereafter the "Group", reporting on its ESG performance, with disclosure reference made to the ESG Reporting Guide as described in Appendix 20 of the Listing Rules and Guidance set out by the Stock Exchange of Hong Kong Limited.

This ESG report covers the Group's overall performance in two subject areas, namely, Environmental and Social of the business operations (primarily supplying processed raw and cooked food products) in Hong Kong from 1 January 2018 to 31 December 2018, unless otherwise stated.

#### STAKEHOLDER ENGAGEMENT AND MATERIALITY

The Group and key stakeholders have been involved in regular discussions and reviews on various areas of concern and identified aspects that we need to pay attention to for potential future business development and be prepared for such challenges.

#### STAKEHOLDERS' FEEDBACK

The Group values stakeholders' suggestions and feedback with respect to our environmental, social and governance approach and performance. In order to efficiently share and obtain such suggestions, we collect such information via emails and interested stakeholders can contact us via email at info@winningtower.hk.

### THE GROUP'S COMMITMENT ON ESG

During our reporting period, our core businesses include wholesale and retail food trading, as well as processing raw and cooked food products. The Group mainly supplies processed raw and cooked food products to catering customers in Hong Kong. Our customers can save cost by reducing their kitchen staff and kitchen area. In the production area, the products of our Group need to be stored in refrigerated or freezer conditions. Our Group selects refrigerated equipment with high efficiency and reliability so as to ensure food safety. The major machinery or equipment used in our food processing activities are HACCP and GMP designed, and that our food processing activities follow strict food safety policies. When choosing trucks to purchase for our logistics operations, the Group takes into consideration fuel efficiency and reliability so that their fuel consumption and pollution emission can be reduced.

As a listed company, members of the board of directors of our Company commit to achieving profit targets, making efficient use of resources, leading the Group's development with social responsibility and creating a better future for our society.

# **ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT**

#### A. ENVIRONMENTAL

#### A1. Emissions

The Group's core businesses include wholesale and retail food trading and processing raw and cooked food products, in the course of our operations, we produce emissions mainly from the use of water, electricity and fuel consumption of our logistics trucks. The Group regularly monitors our business operations and scrutinizes our consumption data such that we can minimize environmental pollution and impacts to the environment. Each of our workshops and offices comply with applicable laws and regulations. The Group will systematically retire trucks which are relatively not environmentally friendly. When selecting a new truck, we would consider its fuel efficiency and environmental impact, in order to reduce pollutants as well as greenhouse gas emissions.

#### A1.1 The types of emissions and respective emissions data.

During the reporting period our truck fleet's annual consumption of fuel was 49,036L.

#### **OPINION**

We have audited the consolidated financial statements of Winning Tower Group Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 46 to 115, which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

#### **KEY AUDIT MATTERS** (Continued)

#### How our audit addressed the key audit matter

#### Fair value measurement of leasehold land and buildings

As at 31 December 2018, the Group had leasehold land and buildings of HK\$120,500,000 (collectively "Properties") which are measured at fair value. The measurement of fair value of the Properties requires management's significant judgements and estimates. Management appointed professional valuers to assess the valuation of the Properties and determined the fair value with reference to the valuation carried out by the external valuers.

The accounting judgements and estimates and disclosures are included in note 3 "Significant accounting judgements and estimates" and note 14 "Property, plant and equipment" to the financial statements.

We reviewed the competency, capability and objectivity of the external valuers appointed by management. We assessed the related data and assumptions being adopted, including unobservable inputs and other estimates, by comparing key valuation parameters including the saleable unit rate per square foot with market information. We also involved our internal valuation specialists to assist us in reviewing the valuation methodologies applied and key valuation parameters adopted in the valuation. We further assessed the disclosures related to the assumptions used in determining the fair value.

#### OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chan Kam Yee.

#### 1. CORPORATE INFORMATION

The Company is an exempted company with limited liability incorporated in the Cayman Islands under the Companies Law of the Cayman Islands. The address of the Company's registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The principal place of business of the Company is located at Flat 3, 8/F, Riley House, 88 Lei Muk Road, Kwai Chung, New Territories, Hong Kong.

The principal activity of the Company is investment holding. The Group is principally engaged in the processing and trading of raw, frozen and cooked food products and the provision of transportation services. In the opinion of the directors, the ultimate holding company of the Company is Keyview Ventures Limited ("Keyview Ventures"), a company incorporated in the British Virgin Islands with limited liability.

#### Information about subsidiaries

Particulars of the Company's subsidiaries as at 31 December 2018 are as follows:

#### 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for leasehold land and buildings held for the Group's own use classified as property, plant and equipment, which have been measured at fair value. These financial statements are presented in Hong Kong dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2018. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

31 December 2018

#### 2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

#### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

Amendments to HKFRS 2 Classification and Measurement of Share-based Payment

**Transactions** 

Amendments to HKFRS 4 Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance

Contracts

HKFRS 9 Financial Instruments

HKFRS 15 Revenue from Contracts with Customers

Amendments to HKFRS 15 Clarifications to HKFRS 15 Revenue from Contracts with Customers

Amendments to HKAS 40 Transfers of Investment Property

HK(IFRIC)-Int 22 Foreign Currency Transactions and Advance Consideration

Annual Improvements Amendments to HKFRS 1 and HKAS 28

2014–2016 Cycle

Other than as explained below, the adoption of the above new and revised standards has had no significant financial effect on these financial statements.

(a) Amendments to HKFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding a certain amount in order to meet an employee's tax obligation associated with the share-based payment; and accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. The amendments clarify that the approach used to account for vesting conditions when measuring equity-settled share-based payments also applies to cash-settled share-based payments. The amendments introduce an exception so that a share-based payment transaction with net share settlement features for withholding a certain amount in order to meet the employee's tax obligation is classified in its entirety as an equity-settled share-based payment transaction when certain conditions are met. Furthermore, the amendments clarify that if the terms and conditions of a cash-settled share-based payment transaction are modified, with the result that it becomes an equity-settled share-based payment transaction, the transaction is accounted for as an equity-settled transaction from the date of the modification. The amendments have had no impact on the financial position or performance of the Group as the Group does not have any cashsettled share-based payment transactions and has no share-based payment transactions with net settlement features for withholding tax.

#### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(b) HKFRS 9 Financial Instruments replaces HKAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement, impairment and hedge accounting.

The Group has recognised the transition adjustments against the applicable opening balances at 1 January 2018. Therefore, the comparative information was not restated and continues to be reported under HKAS 39. The following information sets out the impacts of adopting HKFRS 9 on the statement of financial position, including the effect of replacing HKAS 39's incurred credit loss calculations with HKFRS 9's expected credit losses ("ECLs").

A reconciliation between the carrying amounts under HKAS 39 and the balances reported under HKFRS 9 as at 1 January 2018 is as follows:

	HKAS 39			HKFRS 9

#### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(c) HKFRS 15 and its amendments replace HKAS 11 *Construction Contracts,* HKAS 18 *Revenue* and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. HKFRS 15 establishes a new five-step model to account for revenue arising from contracts with customers. Under HKFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in HKFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The disclosures are included in notes 3 and 5 to the financial statements. As a result of the application of HKFRS 15, the Group has changed the accounting policy with respect to revenue recognition in note 2.4 to the financial statements.

The Group has adopted HKFRS 15 using the modified retrospective method of adoption. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group has elected to apply the standard to contracts that are not completed as at 1 January 2018.

#### Sale of goods with variable consideration

Some contracts for the sale of goods provide customers with a right of return and volume rebates. Before adopting HKFRS 15, the Group recognised revenue from the sale of goods measured at the fair value of the consideration received or receivable, net of returns and volume rebates. If revenue could not be reliably measured, the Group deferred the recognition of revenue until the uncertainty was resolved. Under HKFRS 15, rights of return and volume rebates give rise to variable consideration which is determined using the expected value method or the most likely amount method.

#### Rights of return

For a contract that provides a customer with a right to return the goods within a specified period, the Group previously estimated expected returns based on the average historical return rate. Before the adoption of HKFRS 15, the amount of revenue related to the expected returns was deferred and recognised as deferred revenue which was included in other payables and accruals in the statement of financial position with a corresponding adjustment to cost of sales. The initial carrying amount of goods expected to be returned was included in inventories.

The Group recognised a right-of-return asset which is included in prepayments, deposits and other receivables and is measured at the former carrying amount of the goods to be returned less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. In addition, a refund liability was recognised based on the amount that the Group expects to return to the customers using the expected value method. Upon the adoption of HKFRS 15, the Group had no significant impact on the right of return as at 1 January 2018.

31 December 2018

#### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(c) (Continued)

Sale of goods with variable consideration (Continued)

Volume rebates

Before the adoption of HKFRS 15, the Group estimated the expected volume rebates using the probability-weighted average amount of rebates approach and included an allowance for rebates in other payables and accruals.

Upon the adoption of HKFRS 15, the Group has applied either the most likely amount method or the expected value method for the estimation of the variable consideration for expected volume rebates which are recorded as refund liabilities included in other payables and accruals in the statement of financial position. Accordingly, the Group reclassified HK\$562,000 and HK\$509,000 from other payables and accruals to refund liabilities for the expected future rebates as at 1 January 2018 and 31 December 2018, respectively.

## 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

# 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

HKFRS 16 replaces HKAS 17 Leases, HK(IFRIC)-Int 4 Determining whether an Arrangement contains a Lease, HK(SIC)-Int 15 Operating Leases — Incentives and HK(SIC)-Int 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise assets and liabilities for most leases. The standard includes two elective recognition exemptions for lessees — leases of low-value assets and short-term leases. At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses unless the right-of-use asset meets the definition of investment property in HKAS 40, or relates to a class of property, plant and equipment to which the revaluation model is applied. The lease liability is subsequently increased to reflect the interest on the lease liability and reduced for the lease payments. Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will also be required to remeasure the lease liability upon the occurrence of certain events, such as change in the lease term and change in future lease payments resulting from a change in an index or rate used to determine those payments. Lessees will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting under HKFRS 16 is substantially unchanged from the accounting under HKAS 17. Lessors will continue to classify all leases using the same classification principle as in HKAS 17 and distinguish between operating leases and finance leases. HKFRS 16 requires lessees and lessors to make more extensive disclosures than under HKAS 17. Lessees can choose to apply the standard using either a full retrospective or a modified retrospective approach. The Group will adopt HKFRS 16 from 1 January 2019. The Group plans to adopt the transitional provisions in HKFRS 16 to recognise the cumulative effect of initial adoption as an adjustment to the opening balance of retained profits at 1 January 2019 and will not restate the comparatives. In addition, the Group plans to apply the new requirements to contracts that were previously identified as leases applying HKAS 17 and measure the lease liability at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate at the date of initial application.

The right-of-use asset will be measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before the date of initial application. The Group plans to use the exemptions allowed by the standard on lease contracts whose lease terms end within 12 months as of the date of initial application. During 2018, the Group has performed a detailed assessment on the impact of adoption of HKFRS 16. The Group has estimated that right-of-use assets of HK\$2,073,000 and lease liabilities of HK\$2,073,000 will be recognised at 1 January 2019.

31 December 2018

# 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

HK(IFRIC)-Int 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of HKAS 12 (often referred to as "uncertain tax positions"). The interpretation does not apply to taxes or levies outside the scope of HKAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. The interpretation is to be applied retrospectively, either fully retrospectively without the use of hindsight or retrospectively with the cumulative effect of application as an adjustment to the opening equity at the date of initial application, without the restatement of comparative information. The Group expects to adopt the interpretation from 1 January 2019. The interpretation is not expected to have any significant impact on the Group's financial statements.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Business combinations and goodwill**

Business combinations other than those under common control are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value, which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or a liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Business combinations and goodwill** (Continued)

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### Fair value measurement

The Group measures its land and buildings at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Fair value measurement (Continued)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

#### **Related parties**

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the statement of profit or loss. Any subsequent revaluation surplus is credited to the statement of profit or loss to the extent of the deficit previously charged. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold land and buildings

Over the shorter of lease terms or useful lives

Leasehold improvements 14% to 25% Furniture and fixtures 14% to 25% Machinery and equipment 14% to 25%

Motor vehicles 25%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases are charged to the statement of profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms. When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

# Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018)

*Initial recognition and measurement* 

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition (applicable from 1 January 2018)" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and other financial assets (policies under HKFRS 9 applicable from 1 January 2018) (Continued)

*Initial recognition and measurement* (Continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

The Group measures financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

## Investments and other financial assets (policies under HKAS 39 applicable before 1 January 2018)

Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and other financial assets (policies under HKAS 39 applicable before 1 January 2018) (Continued)

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income in the statement of profit or loss. The loss arising from impairment is recognised in the statement of profit or loss in finance costs for loans and in other operating expenses for receivables.

# Derecognition of financial assets (policies under HKFRS 9 applicable from 1 January 2018 and policies under HKAS 39 applicable before 1 January 2018)

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (policies under HKFRS 9 applicable from 1 January 2018)

The Group recognises an allowance for ECLs for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

#### General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# Impairment of financial assets (policies under HKFRS 9 applicable from 1 January 2018) (Continued)

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

# Impairment of financial assets (policies under HKAS 39 applicable before 1 January 2018)

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

31 December 2018

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (policies under HKAS 39 applicable before 1 January 2018) (Continued)

Financial assets carried at amortised cost (Continued)

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other operating expenses in the statement of profit or loss.

## Financial liabilities (policies under HKFRS 9 applicable from 1 January 2018 and HKAS 39 applicable before 1 January 2018)

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings and payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial liabilities (policies under HKFRS 9 applicable from 1 January 2018 and HKAS 39 applicable before 1 January 2018)

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

# Offsetting of financial instruments (policies under HKFRS 9 applicable from 1 January 2018 and HKAS 39 applicable before 1 January 2018)

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is based on the estimated selling prices less any estimated costs to be incurred to completion and disposal.

### Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of each reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Income tax**

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Income tax** (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred taxes assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### Revenue recognition (applicable from 1 January 2018)

### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (applicable from 1 January 2018) (Continued)

#### (a) Sale of goods

Revenue from the sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

Some contracts for the sale of goods provide customers with rights of return and volume rebates. The rights of return and volume rebates give rise to variable consideration.

### (i) Rights of return

For contracts which provide a customer with a right to return the goods within a specified period, the expected value method is used to estimate the goods that will not be returned because this method best predicts the amount of variable consideration to which the Group will be entitled. The requirements in HKFRS 15 on constraining estimates of variable consideration are applied in order to determine the amount of variable consideration that can be included in the transaction price. For goods that are expected to be returned, instead of revenue, a refund liability is recognised. A right-of-return asset (and the corresponding adjustment to cost of sales) is also recognised for the right to recover products from a customer.

#### (ii) Volume rebates

Retrospective volume rebates may be provided to certain customers once the quantity of products purchased during the period exceeds a threshold specified in the contract. Rebates are offset against amounts payable by the customer. To estimate the variable consideration for the expected future rebates, the most likely amount method is used for contracts with a single-volume threshold and the expected value method for contracts with more than one volume threshold. The selected method that best predicts the amount of variable consideration is primarily driven by the number of volume thresholds contained in the contract. The requirements on constraining estimates of variable consideration are applied and a refund liability for the expected future rebates is recognised.

#### (b) Provision of transportation services

Revenue from the provision of transportation services is recognised over the scheduled period when the transportation services are rendered.

#### Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Revenue recognition (applicable before 1 January 2018)

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) from the rendering of services, when the relevant services have been rendered; and
- (c) interest income, on an accrual basis using the effective interest rate method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

### Right-of-return assets (applicable from 1 January 2018)

A right-of-return asset represents the Group's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the goods to be returned, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Group updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned goods.

#### Refund liabilities (applicable from 1 January 2018)

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Group ultimately expects it will have to return to the customer. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

### **Share-based payments**

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("Equity-Settled Transactions").

The cost of Equity-Settled Transactions with employees for grants after 7 November 2002 is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Share-based payments** (Continued)

The cost of Equity-Settled Transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for Equity-Settled Transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

31 December 2018

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Employee benefits**

Pension scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Contributions are made based on a percentage of these employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

### **Borrowing costs**

All borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **Dividends**

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

### Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Foreign currencies (Continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### **Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

#### Revenue from contracts with customers

Determining the method to estimate variable consideration and assessing the constraint for the sale of goods

Certain contracts for the sale of goods include a right of return and volume rebates that give rise to variable consideration. In estimating the variable consideration, the Group is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Group determined that the expected value method is the appropriate method to use in estimating the variable consideration for the sale of goods with rights of return, given the large number of customer contracts that have similar characteristics. In estimating the variable consideration for the goods with volume rebates, the Group determined that using a combination of the most likely amount method and the expected value method is appropriate. The selected method that better predicts the amount of variable consideration related to volume rebates is primarily driven by the number of volume thresholds contained in the contract. The most likely amount method is used for those contracts with a single volume threshold, while the expected value method is used for contracts with more than one volume threshold.

# 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

### Judgements (Continued)

Revenue from contracts with customers (Continued)

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Measurement of fair value of leasehold land and buildings

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

- (a) reference to independent valuation;
- (b) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences; and
- (c) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the dates of the transactions that occurred at those prices.

Further details, including the key assumptions used for fair value measurement, are given in note 14 to the financial statements.

Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by product type and customer type).

# 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

### **Estimation uncertainty** (Continued)

Provision for expected credit losses on trade receivables (Continued)

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 17 to the financial statements.

#### *Impairment of goodwill*

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. Further details are given in note 15 to the financial statements.

### Impairment of non-financial assets (other than goodwill)

The Group has to exercise judgement in determining whether an asset is impaired or the event previously causing the asset impairment no longer exists, particularly in assessing: (a) whether an event has occurred that may affect the asset value or such event affecting the asset value has not been in existence; (b) whether the carrying value of an asset can be supported by the net present value of future cash flows which are estimated based upon the continued use of the asset or derecognition; and (c) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management to determine the level of impairment, including the discount rates or the growth rate assumptions in the cash flow projection could materially affect the net present value used in the impairment test.

#### Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business less estimated selling expenses. These estimates are based on the current market condition and the historical experience of selling products of a similar nature. It could change significantly as a result of changes in customer taste or competitor actions. Management reassesses these estimates at each reporting date.

### 4. SEGMENT INFORMATION

The Group is principally engaged in the processing and trading of raw, frozen and cooked food products and the provision of transportation services. For management purpose, the Group operates in one business unit based on its products and the nature of production, sales and distribution processes, and has one reportable operating segment which is processing and trading of food products.

Since all of the Group's revenue from external customers are conducted and non-current assets are located in Hong Kong, no further analysis on the geographical information thereof is presented.

### 5. **REVENUE** (Continued)

Information about the Group's performance obligations is summarised below:

### Sale of goods

The Group sells goods to wholesalers and individual retailers. The performance obligation is satisfied upon delivery of the products and payment is generally due within 30 to 60 days from delivery. Some contracts provide customers with a right of return and volume rebates which give rise to variable consideration subject to constraint.

### **Provision of transportation services**

The performance obligation is satisfied over time as services are rendered and payment is generally due within 30 to 60 days from the date of billing.

### 14. PROPERTY, PLANT AND EQUIPMENT (Continued)

At 31 December 2018, the Group's land and buildings in Hong Kong were revalued based on valuation performed by AVISTA Valuation Advisory Limited, independent professionally qualified valuers, at HK\$120,500,000 (2017: HK\$108,520,000). Valuation were based on comparable market transactions and evidence and considered adjustments to reflect differences in transaction timing, location and tenure. Revaluation surplus of HK\$15,102,000 (2017: HK\$14,114,000) resulting from the above revaluation was credited to the asset revaluation reserve.

Had such leasehold land and buildings been carried at historical cost less accumulated depreciation, their carrying amounts would have been approximately HK\$56,514,000 (2017: HK\$58,497,000).

Each year, the Group appoints an external valuer to be responsible for the external valuations of the Group's properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. The Group discusses with the valuer on the valuation assumptions and valuation results when the valuation is performed for financial reporting.

There has been no change from the valuation technique used in prior years. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The fair values of the Group's land and buildings as at 31 December 2018 and 2017 were estimated by using significant unobservable inputs and the fair value measurement was categorised under Level 3.

During the year, there were no transfers of fair value measurements between Level 1 and Level 2 and no transfers into or out of Level 3 (2017: Nil).

Reconciliation of fair value measurements categorised within Level 3 of the fair value hierarchy:

	2018	2017

### 14. PROPERTY, PLANT AND EQUIPMENT (Continued)

Below is a summary of the valuation technique used and the key input to the valuation of properties:

Class of properties	Valuation technique	Significant unobservable input	Range of unob	servable input
		Y Y	2018	2017
Hong Kong  — Land and buildings  — Industrial  — Level 3	Market comparable method	Saleable unit rate per square foot*	HK\$4,715 to HK\$4,771	HK\$4,255 to HK\$4,286

<sup>\*</sup> The higher the saleable unit rate per square foot, the higher the value.

At 31 December 2018, the Group's leasehold land and buildings held for own use with a net carrying amount of approximately HK\$103,000,000 (2017: HK\$92,760,000) were pledged to secure banking facilities granted to the Group (note 23).

### 15. GOODWILL

Goodwill acquired through business combinations had been allocated to the transportation services cash-generating unit ("Transportation services CGU") at HK\$185,000 and to the internet sales and trading of food products cash-generating unit ("Internet sales and trading of food products CGU") at HK\$2,117,000.

### 15. GOODWILL (Continued)

### Impairment testing of goodwill

The recoverable amounts of the cash-generating units have been determined based on a value-in-use calculation using cash flow projections based on financial budgets covering a five-year period with growth rates approved by senior management, which is based on the management's expectation for market development.

The discount rates for the following cash-generating units applied to the cash flow projections are as follows:

	2018	2017
Transportation services CGU	10.8%	12.5%
Internet sales and trading of food products CGU	12.1%–12.6%	14.6%–15.4%

Key assumptions were used in the value in use calculation of the cash-generating units for the years ended 31 December 2018 and 2017. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted gross margins — The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the markets, adjusted for expected efficiency improvement, and expected market development.

Discount rates — The discount rates used are before tax.

The values assigned to key assumptions are consistent with external information sources.

The directors of the Company have considered the impact of the possible changes in key assumptions (budgeted gross margins and discount rates) used, and conducted sensitivity analysis on the cash-generating units' carrying values for impairment testing during the years ended 31 December 2018 and 2017. In the opinion of the directors of the Company, any reasonably possible changes in the key assumptions on which the recoverable amount is based would not cause the cash-generating unit's carrying amount to exceed its recoverable amount.

	19,850	18,264

The Group's trading terms with its customers are mainly on credit. The credit period is generally one month, extending up to two months for major customers. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables to minimise the credit risk. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

At 31 December 2018, the Group had certain concentrations of credit risk that might arise from the exposure to the Group's total trade receivables as follows.

	2018	2017
Three largest customers	62%	76%
Largest customer	29%	36%

Particulars of the amounts due from related companies included in trade receivables are as follows:

### Impairment under HKFRS 9 for the year ended 31 December 2018

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

As at 31 December 2018

	Past o	Past due	
		Less than	
	Current	1 months	Total
Expected credit loss rate	0.06%	1.38%	
Gross carrying amount (HK\$'000)	16,577	3,329	19,906

### 17. TRADE RECEIVABLES (Continued)

Impairment under HKAS 39 for the year ended 31 December 2017

The ageing analysis of the trade receivables as at 31 December 2017 that were not considered to be impaired under HKAS 39 is as follows:

	2017
	HK\$'000
Neither past due nor impaired	17,587
Less than 1 month past due	676
1 to 3 months past due	1
	18,264

Receivables that were neither past due nor impaired related to a number of customers for whom there was no recent history of default.

Receivables that were past due but not impaired related to a number of customers that had a good track record with the Group. Based on past experience, the directors of the Company were of the opinion that no provision for impairment under HKAS 39 was necessary in respect of these balances as there had not been a significant change in credit quality and the balances were still considered fully recoverable.

### 18. PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	2018	2017
	HK\$'000	HK\$'000
Prepayments	2,534	4,277

		(4.1)
	3,170	4,790
Less: Non-current portion	_	(2,394)
	3,170	2,396

Deposits and other receivables mainly represent deposits to suppliers and other receivables. Where applicable, an impairment analysis is performed at each reporting date by considering the probability of default of comparable companies with published credit ratings. In the situation where no comparable companies with credit ratings can be identified, expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. As at 31 December 2018, the Group estimated the loss rate of these balances was minimal and no impairment in respect of these balances was made.

### 24. **DEFERRED TAX** (Continued)

The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2018	2017
	HK\$'000	HK\$'000
Deferred tax liabilities recognised in the consolidated statement of financial position	11,737	8,772
Deferred tax assets recognised in the consolidated statement of financial position	(388)	_
	11,349	8,772

As at 31 December 2018, the Group has tax losses arising in Hong Kong of approximately HK\$3,340,000 (2017: HK\$2,197,000) that are available indefinitely for offsetting against its future taxable profits. Deferred tax assets in respect of tax losses arising in Hong Kong of approximately HK\$1,903,000 (2017: HK\$1,938,000) have not been recognised as it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

#### 25. SHARE CAPITAL

The share capital balance as at 31 December 2018 in the consolidated statement of financial position represented the issued share capital of the Company. Details of the authorised and issued and fully paid share capital of the Company are summarised as follows:

(the "Share Offer") (note e)	280,000,000	2,800
At 31 December 2017, 1 January 2018 and 31 December 2018	1,400,000,000	14,000

#### Notes:

- Upon incorporation on 3 January 2017, the Company had authorised share capital of HK\$380,000 divided into 38,000,000 ordinary shares of HK\$0.01 each. On the same day, one ordinary share was issued, allotted and credited as fully paid to the Company's initial subscriber, which was subsequently transferred to Keyview Ventures, the ultimate holding company of the Company.
- On 10 February 2017, as part of the Group reorganisation ("Reorganisation"), the Company allotted and issued in aggregate 28,429 shares credited as fully paid to Keyview Ventures in consideration of the controlling shareholders of the Group transferring in aggregate 28,429,000 ordinary "A" shares in Winning Tower Group, a company incorporated in Hong Kong with limited liability and an indirect wholly-owned subsidiary, (representing the entire issued share capital of Winning Tower Group) to Bliss View, a company incorporated in the British Virgin Islands with limited liability and a direct wholly-owned subsidiary of the Company, for a total consideration of HK\$68,963,000. Differences of HK\$36,733,000 between the nominal amount of shares issued by the Company of HK\$68,963,000 and the share capital of Winning Tower Group of HK\$32,230,000 were debited to merger reserve.
- On 5 June 2017, Keyview Ventures resolved to increase the authorised share capital of the Company from HK\$380,000 to HK\$100,000,000 by the creation of additional 9,962,000,000 ordinary shares, each carrying the same rights as the ordinary shares then in issue in all respects.
- In connection with the Reorganisation and pursuant to a resolution passed in a meeting of the directors of the Company on 5 June 2017, the issue of 1,119,971,570 ordinary shares has been made upon capitalisation of part of the amount standing to the credit of the share premium of HK\$11,200,000.
- In connection with the Share Offer, an aggregate of 280,000,000 new ordinary shares of the Company of HK\$0.01 each were issued at a price of HK\$0.2 per share for a total cash consideration, before share issue costs, of HK\$56,000,000. Further details of the Share Offer are also set out in the Prospectus and in an announcement of the Company dated 19 June 2017.

All the shares which were issued by the Company during the period rank pari passu with other shares of the Company in all aspects.

#### 32. SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants for their contribution to the Group and/to enable the Group to recruit and retain high-calibre employees and attract human resources that are valuable to the Group. Eligible participants of the Scheme include the Company's directors, including independent non-executive directors, other employees of the Group, suppliers of goods or services to the Group, customers of the Group, the Company's shareholders, and any non-controlling shareholder in the Company's subsidiaries. The Scheme became effective on 5 June 2017 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

31 December 2018

### 32. SHARE OPTION SCHEME (Continued)

The offer of a grant of share options may be accepted within 21 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and such period shall not be more than ten years from the date of offer of the share options and the directors may at its discretion determine the minimum period for which the share options have to be held before the exercise of the share option.

The exercise price of share options is determinable by the directors, but may not be less than the higher of (i) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of the grant of the share option, which must be a trading day; (ii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of the grant of the share option; and (iii) the nominal value of a share.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

No share options had been granted by the Company under the Scheme during the year ended 31 December 2018. There were no outstanding share options under the Scheme as at 31 December 2018.

### 34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise cash and cash equivalents and interest-bearing bank borrowings. The Group has various other financial assets and liabilities such as trade receivables, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, and balances with related companies, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. The board of directors review and agree policies for managing each of these risks and they are summarised below.

#### Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing bank borrowings with a floating interest rate. In order to manage the cash flow interest rate risk, the Group will repay the corresponding borrowings when it has surplus funds.

At 31 December 2018, if the interest rates on bank borrowings had been 100 basis points higher/lower, which was considered reasonably possible by management, with all other variables held constant, the profit before tax for the year would have been decreased/increased by approximately HK\$274,000 (2017: HK\$243,000) as a result of higher/lower interest expenses on bank borrowings.

#### Credit risk

Receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

# 34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### Maximum exposure and year-end staging as at 31 December 2018

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2018. For listed debt investments, the Group also monitors them by using external credit ratings. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

Cash and bank balances	21,668	_	_	_	21,668
	23,011	_	_	19,850	42,861

#### Maximum exposure as at 31 December 2017

The credit risk of the Group's financial assets, which comprise trade receivables, other receivables, due from related companies and cash and bank balances, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis.

### Liquidity risk

In order to manage liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The Group regularly reviews its major funding positions to ensure it has adequate financial resources in meeting its financial obligations.

### **Capital management**

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise the shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, return capital to the shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2018 and 2017.

31 December 2018

# 34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

### **Capital management** (Continued)

The Group monitors capital using a gearing ratio, which is interest-bearing debts divided by capital. Debts include interest-bearing bank borrowings. Capital represents total equity of the Group. The gearing ratios as at the end of the reporting period was as follows:

	2018 HK\$'000	2017 HK\$'000
Interest-bearing bank borrowings and total debts	27,360	24,256
