1. GENERAL AND BASIS OF PREPARATION

Hyfusin Group Holdings Limited (the "Company") was incorporated in the Cayman Islands as an exempted company and registered in the Cayman Islands with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as amended, supplemented or otherwise modified from time to time) of the Cayman Islands on 5 July 2017. The shares of the Company (the "Shares") have been listed on GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 19 July 2018 (the "Listing"). Its registered office is located at PO Box 1350, Clifton House, 75 Fort Street, Grand Cayman KY1-1108, Cayman Islands and principal place of business is located at Unit Nos. 4–8, 2/F, Aberdeen Marina Tower, 8 Shum Wan Road, Aberdeen, Hong Kong.

The Company is an investment holding company and its subsidiaries (the "Group") are principally engaged in manufacturing and sale of candle products. Its parent and ultimate holding company is AVW International Limited ("AVW"), a private company incorporated in the British Virgin Islands (the "BVI"). Its ultimate controlling shareholders are Mr. Wong Man Chit and Mr. Wong Wai Chit, who are brothers and act in concert over AVW and the companies now comprising the Group (the "Controlling Shareholders").

The functional currency of the Company and its subsidiaries is United States Dollar ("US\$") while the presentation currency of the consolidated financial statements is Hong Kong dollars ("HK\$") as the directors of the Company (the "Directors") consider that HK\$ is preferable in presenting the operating results and financial position of the Group, which is more beneficial to the users of the consolidated financial statements.

The unaudited condensed consolidated financial statements of the Group have been prepared in accordance with the Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong, the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622) and the GEM Listing Rules.

The condensed consolidated financial statements of the Group have been prepared under the historical cost basis, except for certain financial instrument which have been measured at fair values.

For the three months ended 31 March 2019

2. PRINCIPAL ACCOUNTING POLICIES

Application of new and amendments to HKFRSs

The principal accounting policies used in the condensed consolidated financial statements for the three months ended 31 March 2019 are the same as those followed in the preparation of the Group's annual report for the year ended 31 December 2018, except for the following new and amendments to HKFRSs issued by the HKICPA that are adopted for the first time for the current accounting period of the Group:

HKFRS 16	Leases ¹
HK(IFRIC) - Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle

The adoption of these new and amendments to HKFRSs has had no material effect on the amounts reported in the condensed consolidated financial statements and/or disclosures set out in the condensed consolidated financial statements. The Group has not early adopted any new HKFRSs that have been issued but are not yet effective.

For the three months ended 31 March 2019

HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 Leases and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. In addition, HKFRS 16 requires sales and leaseback transactions to be determined based on the requirements of HKFRS 15 as to whether the transfer of the relevant asset should be accounted as a sale. HKFRS 16 also includes requirements relating to subleases and lease modifications.

Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group, upfront prepaid lease payments will continue to be presented as investing or operating cash flows in accordance with the nature as appropriate.

Under HKAS 17, the Group has already recognised an asset and a related finance lease liability for finance lease arrangement and prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

For the three months ended 31 March 2019

Other than certain requirements which are also applicable to lessor, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

The application of new requirements may result in changes in measurement, presentation and disclosure as indicated above. The Group intends to elect the practical expedient to apply HKFRS 16 to contracts that were previously identified as leases applying HKAS 17 and HK (IFRIC)-Int 4 Determining whether an Arrangement contains a Lease and not apply this standard to contracts that were not previously identified as containing a lease applying HKAS 17 and HK (IFRIC)-Int 4. Therefore, the Group will not reassess whether the contracts are, or contain a lease which already existed prior to the date of initial application. Furthermore, the Group elects the modified retrospective approach for the application of HKFRS 16 as lessee and will recognise the cumulative effect of initial application to opening retained earnings without restating comparative information.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group principally engages in the manufacturing and sale of candle products with headquarters in Hong Kong and operations in Vietnam. The Group mainly manufactures and sells daily-use candles, scented candles, decorative candles and other products such as diffusers. Our major customers are mostly U.S. and U.K. department store operators and buying agents.

The Group mainly manufactures our candle products based on the requirements and specifications from our customers. The Group would also assess the design and specifications and put forward our suggestions to our customers. The Group offer a wide variety of services to our customers ranging from product design, raw material selection and procurement, provision of sample candle before mass production, laboratory testing to recommendation to improve the product quality.

According to an industry overview report prepared by Frost & Sullivan International Limited (the "F&S Report"), an independent market research and consulting firm, we ranked the third, the fourth and the fourth among the candle manufacturers in Vietnam in terms of estimated export value, estimated revenue and estimated production capacity in 2017, respectively. According to the F&S Report, the import value and share of candle products in U.S. and U.K. from Vietnam expected to reach approximately US\$195.6 million and approximately US\$15.6 million, respectively.

The F&S Report also mentioned that as the economy in the U.S. and other developed countries continue to recover, the consumption of mid-to-high end candle products is expected to increase. The candle market also has an increasing preference over candle products which are scented and with colour additives. With the preference for candle products with scent and coloured additives for use in rooms and households, increasing demand for scented and decorative candle products has provided the impetus for the whole market.

The analysis of product segment of the Group for the three months ended 31 March 2019 is set out in Note 3 to the condensed consolidated financial statements, where the sales of scented candles has increased approximately HK\$12.4 million or 70.0% as compared with the same period in 2018 that reflects the trend of preference for candle products with scent and coloured additives is increasing recently in the U.S. market.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

In order to catch up the rapid growth of candle products especially in the U.S. market, the Group cooperated with a U.S. market consultant company after the Listing, for the boost of sales by introducing some sales representatives through their network in candle field in the U.S. market.

The U.S. market consultant company helped in analysis and identifying recent developments of our competitors within the U.S. market, introducing sales representatives in candle industry in the U.S. market, introducing a designer to accelerate the negotiation between the Group and the sales representatives for the potential orders and cooperation and coordinating the communication among each other with the synergy effect.

During the year of 2018, the Group entered into the contracts with sales representatives for the sales incentive to sales representatives for the orders from customers introduced by them.

Based on our well established long-term relationships with our customers and with support from our experienced management team in the industry, we are confidence on capitalising further business opportunities and growth.

FINANCIAL REVIEW

Revenue

Revenue for the three months ended 31 March 2019 amounted to approximately HK\$51.3 million, representing an increase of approximately HK\$11.2 million or 27.9% as compared with that of approximately HK\$40.1 million for the same period in 2018.

The increase in revenue was the result from new orders from customers in U.S. introduced by the sales representatives in which mainly increase in sales of scented candles, and partially offset by the decrease in sales of decorative candles and daily-use candles.

Gross profit and gross profit margin

Gross profit for the three months ended 31 March 2019 amounted to approximately HK\$13.3 million, representing an increase of approximately HK\$6.5 million or 95.6% as compared with that of approximately HK\$6.8 million for the same period in 2018.

The gross profit margin increased to approximately 25.9% for the three months ended 31 March 2019 as compared with that of 17.0% for the same period in 2018. The increase was mainly due to the increase in sales of scented candles as well as the increase in gross profit margin of scented candles from 12.2% for the three months ended 31 March 2018 to 28.3% for the three months ended 31 March 2019.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Other income, gains or losses

Other income for the three months ended 31 March 2019 were approximately HK\$177,000, representing an increase of approximately HK\$147,000 or 490% as compared to approximately HK\$30,000 for the same period in 2018. The increase in other income was mainly due to an increase in bank interest income from short-term bank deposits.

Other gains for the three months ended 31 March 2019 amounted to approximately HK\$90,000, representing a decrease of loss of approximately HK\$113,000 or 491.3% as compared with the loss of approximately HK\$23,000 for the same period in 2018. The decrease was mainly due to the exchange gain generated from inter-bank fund transfer.

Selling and distribution expenses

Selling and distribution expenses for the three months ended 31 March 2019 amounted to approximately HK\$4.2 million, representing an increase of approximately HK\$2.9 million or 223.1% as compared with that of approximately HK\$1.3 million for the same period in 2018.

The increase was mainly due to (i) increase in transportation and declarations expenses of approximately HK\$195,000 which was in line with the increase in sales; and (ii) increase in marketing and promotion cost of approximately HK\$2.4 million which include the commission to sales representatives for introducing new orders from customers in U.S. for approximately HK\$0.7 million and the consultation service fee of approximately HK\$1.5 million in relation to U.S. market consultation which is beneficial to our business growth.

Administration expenses

Administration expenses for the three months ended 31 March 2019 amounted to approximately HK\$9.2 million, representing an increase of approximately HK\$2.6 million or 39.4% as compared with that of approximately HK\$6.6 million for the same period in 2018.

The increase was mainly due to the increase in salaries and allowance of approximately HK\$1.3 million caused by increase in number of administrative and finance personnel; and increased in professional fee including audit fee, compliance advisory fee, insurance fee, legal advisory fee and printing fee of approximately HK\$702,000.

Finance costs

The increase was mainly due to the increase in using bank borrowings to cope with revenue growth and the interest expenses on lease liabilities.

The Group's net loss after excluding non-recurring listing expenses would be approximately HK\$0.5 million, representing a decrease of loss of approximately HK\$0.9 million or 64.3% as compared with that of approximately HK\$1.4 million for the same period in 2018. Such decrease was the combined effect of (i) increase in gross profit of approximately HK\$6.5 million; and (ii) increase in other income, gains or losses for HK\$0.3 million; and offset by (a) the increase in administrative expenses for HK\$2.6 million; (b) increase in selling and distribution expenses for HK\$2.9 million; and (c) increase in finance costs for HK\$0.1 million.
