## **BUSINESS REVIEW**

We are a leading digital video technology solution and service company in the TV broadcasting industry in China. We provide a full range of solutions, services and products to TV broadcasters and other digital video content providers, to effectively assist and enhance digital video technology content in the upgrade and management works on the post-production segment. We have been at the forefront of digital video technology innovation in China. Our emphasis on developing a demand-driven and highly responsive R&D is particularly critical for us because of our focus on the solutions and services business, where the customers demand customized services. Our solutions, services and products businesses facilitate the processing, enhancement and management of digital video content at the post-production stage between the ingestion of raw content and the output of finished content.

We have established business relationship with most of the central- and provincial-level TV stations in China and with some of the provincial-level TV broadcasters in China for over 23 years. We have also served alternative broadcasting platforms, such as cable networks operators, internet media content providers and IPTV operators. In view of the sustained losses of the Group, while we will continue our existing principal business, we will conduct a review of our business activities for the purpose of formulating business plans and strategies for our future business development. We may explore other business opportunities and consider whether any asset disposal, asset acquisition, business rationalisation, business divestment, fund raising, restructuring of the existing business and/or business diversification will be appropriate in order to enhance our long-term growth potential.

## OUTLOOK

Our long-term objective is to become a leading integrated digital video technology, service and media company in China. To achieve this goal, we will continue to (a) gain market share by offering solutions based on the latest industry trends and expanding customer base; (b) create recurring and high margin revenue streams by further strengthening and developing our service business; (c) further develop and invest in innovative products and businesses; and (d) selectively pursue strategic investments and acquisitions.

## Gain market share by offering solutions based on the latest industry trends and expanding customer base

We expect that the next phase of system expansions and upgrades in the post-production market will be driven by (i) transition to a cloud computing platform for digital video content delivery; (ii) omnimedia convergence; (iii) continuing upgrades to high definition standard; and (iv) upgrades to a 4K ultra-high definition standard. We plan to capture the opportunities presented by these industry trends through:

- adding new functions to our customized solutions to meet the diverse and growing business requirements and technological sophistication of our customer base;
- assisting our existing customers in system expansions and upgrades to capture a larger portion of their incremental technological capital expenditures as new projects emerge; and
- leveraging existing customer relationships and cross-selling to departments within existing customers who do not currently use our products.

In addition, leveraging our core strengths in high-end post-production technology, we will seek to penetrate the mid-tier market of professional users by developing products that meet their demands.

## OUTLOOK (CONTINUED)

### Create recurring and high margin revenue streams by further strengthening and developing our service business

We plan to increase revenue streams generated from our service business, which represents recurring revenue, by focusing on high margin areas. To that end, we plan to transition our *CreaStudio* multi-camera recording and editing service from primarily recording and editing video footages for entertainment TV shows to jointly producing and operating entertainment media contents together with media rights holders using the footage captured by our *CreaStudio* systems, which we believe can generate consistent and high margin revenue. As part of the joint production, we plan to enter into agreements with the relevant media rights holders regarding the use of their media contents. We also strive to further enhance the quality and capabilities of our other services and to further develop new services that generate recurring and high profit margin.

#### Further develop and invest in innovative products and businesses

We plan to continue to develop and invest in innovative products and businesses by leveraging our core digital video technology. We intend to apply our key technologies to the platforms of telecom operators by strengthening the cooperation with telecom operators. In particular, we will seek cooperation with the first-tier telecom operator such as China Mobile and China Unicom.

### Selectively pursue strategic investments and acquisitions

We believe that the TV broadcasting post-production industry in China today is fragmented and ripe for consolidation. We intend to continue to actively explore strategic investment and acquisition opportunities to increase the depth and breadth of our portfolio of solutions, services and products in order to maintain our market leadership. The suitable opportunities we intend to pursue include:

- cutting-edge digital video technologies in international markets to further enhance our core technology, as well as technologies that will help us capture key industry trends, such as big data, cloud computing and 4K ultra-high definition standard;
- smaller domestic competitors with attractive niche customer base to further expand our customer reach; and
- investment opportunities in which we have a significant stake and are able to leverage our core technology.

## SHARE AWARD SCHEME

On 20 March 2017, the Company adopted the Share Award Scheme to recognize and reward the contribution of certain selected participants to the growth and development of the Group. The Share Award Scheme does not constitute a share option scheme or an arrangement analogous to a share option scheme for the purpose of Chapter 23 of the GEM Listing Rules. The shares under the Share Award Scheme will be acquired by a trustee by way of subscription of new shares (whether pursuant to general mandate or specific mandate granted by the shareholders or otherwise) and/or purchase of shares from the market out of cash contributed by the Group and be held on trust for the participants until such awarded shares are vested in the relevant selected participants in accordance with the provisions of the Share Award Scheme. The administrator of the Share Award Scheme, may from time to time, at their absolute discretion, select any participant for participation in the Share Award Scheme as a selected participant.

The Company has appointed The Core Trust Company Limited as the trustee (the "**Trustee**"). The Trustee is an independent third party of the Company and is acting for a wide scope of participants under the Share Award Scheme.

Unless early terminated by the Board, the Share Award Scheme shall be valid and effective for a term of 10 years commencing on the adoption date of the Share Award Scheme, provided that no contribution to the trust fund will be made by the Company on or after the 10th anniversary date of the adoption date of the Share Award Scheme.

The maximum number of shares which may be allocated and awarded to a selected participant under the Share Award Scheme in any 12-month period shall not exceed 1% of the issued share capital of the Company immediately preceding such allocation and award.

Vesting of the Shares will be conditional on the selected participant remaining a participant at all times from after the relevant dates of the fulfillment of the performance targets (if any) specified by the Board and on the vesting date until and on each of the relevant vesting dates and his/her execution of the relevant documents to effect the transfer from the Trustee, unless otherwise determined by the Board.

On 30 August 2017, 12,000,000 awarded shares were issued by the Company to the Trustee under the Share Award Scheme. The 12,000,000 awarded shares shall vest in the grantees subject to the vesting scale under the grant letter.

During the six months ended 30 June 2019, the Company neither issued new shares nor arranged any funds to be paid to the Trustee for purchasing of shares of the Company from the market.

## **COMPETING BUSINESSES**

For the 2019 Interim Period, none of the Directors or controlling shareholders of the Company and their respective associates (as defined under the GEM listing Rules) had any interest in a business that competes or may compete with the business of the Group, or had any other conflict of interest with the Group.

## COMPLIANCE WITH CORPORATE GOVERNANCE PRACTICES

The Company has adopted the code provisions as set out in the Corporate Governance Code and Corporate Governance Report (the "**Corporate Governance Code**") as contained in Appendix 15 of the GEM Listing Rules as its corporate governance practices.

Mr. Zheng Fushuang ("**Mr. Zheng**") was appointed as the chief executive officer of the Company (the "**CEO**") with effect from 3 April 2018 and is currently serving as both the Chairman and the CEO of the Company. Such practice deviates from code provision A.2.1 of the Corporate Governance Code. The Board believes that vesting the roles of both the Chairman and the CEO in the same person can facilitate the execution of the Group's business strategies and boost the effectiveness of its operation. The Board is comprised of three executive Directors and three independent non-executive Directors, which is appropriately structured to ensure that there is a balance of power to provide sufficient checks to protect the interests of the Company and its shareholders. Therefore, the Board considers that the deviation from the code provision A.2.1 of the Corporate Governance Code is appropriate in such circumstance.

Saved as disclosed above, in the opinion of the Directors, the Company had complied with all the code provisions set out in the Corporate Governance Code from 1 January 2019 and up to the date of this report.

## CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding Directors' securities transactions on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. The Company has made specific enquiries with all the Directors, who confirmed their compliance with the required standard of dealings and the code of conduct regarding Directors' securities transactions during the 2019 Interim Period and up to the date of this report. No incident of non-compliance was noted by the Company during this period.

## AUDIT COMMITTEE AND REVIEW OF INTERIM RESULTS

The Company has established an audit committee with written terms of reference in compliance with the GEM Listing Rules on 23 May 2016. The primary duties of the audit committee are to review and supervise the financial reporting process and internal control systems of the Group, and oversee the audit process and the audits of the financial statements of the Group.

The audit committee comprises three independent non-executive Directors, namely, Ms. Cao Qian, Dr. Li Wanshou and Mr. Frank Christiaens, and is chaired by Ms. Cao Qian.

The audit committee has reviewed the unaudited interim financial statements for the 2019 Interim Period and is of the opinion that (i) the unaudited financial statements of the Group for the 2019 Interim Period comply with the applicable accounting standards and the GEM Listing Rules; and (ii) adequate disclosures have been made in such unaudited financial statements.

# **REPORT OF THE DIRECTORS**

# 1. GENERAL INFORMATION

China Digital Video Holdings Limited (the "**Company**") was incorporated in the Cayman Islands on 8 January 2007 as an exempted company with limited liability under the Companies Law (as consolidated and revised) of the Cayman Islands. The Company's shares were listed on the GEM of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") since 27 June 2016 (the "**Listing**").

The Company is an investment holding company and its subsidiaries (collectively, the "**Group**") are principally engaged in research, development and sales of video-related and broadcasting equipment and software and provision of related technical services (the "**Business**") in the People's Republic of China (the "**PRC**").

# 2. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2019 (the "Interim Financial Information") has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange, including compliance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (the "IASB"). The Interim Financial Information was authorised for issue by the Company's board of directors (the "Board") on 8 August 2019.

The Interim Financial Information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the annual report for the year ended 31 December 2018.

The Interim Financial Information is presented in Renminbi ("RMB"), unless otherwise stated.

The Group has not early adopted any other standard or amendment that has been issued but is not yet effective. The accounting policies and methods of computation used in the preparation of the Interim Financial Information are consistent with those used in the annual financial statements for the year ended 31 December 2018 except for the adoption of the amendments to International Financial Reporting Standards ("**IFRSs**") that have become effective for accounting period beginning on 1 January 2019.

The Group has applied all the new and amended to standards, which are mandatory for the financial year beginning 1 January 2019. The adoption had no material impact on how the results and financial position for the current and prior periods have been prepared and presented, except the new IFRS as described below:

FOR THE SIX MONTHS ENDED 30 JUNE 2019

## 2. BASIS OF PREPARATION - continued

### 2.1 Impacts and changes in significant accounting policies

### IFRS 16 "Leases"

IFRS 16 "Leases" replaced IAS 17 and three related interpretations. The Group has adopted IFRS 16 retrospectively from 1 January 2019, but has not restated comparative for the year ended 31 December 2018, as permitted under the specific transitional provisions of IFRS 16.

## The Group as a leasee

For any new contracts entered into on or after 1 January 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an identified asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition, the Group assesses whether the contract meets three key evaluations which are whether:

- the contracts contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group;
- the Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract; and
- the Group has the right to direct the use of the identified asset throughout the period of use. The Group assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

For contracts that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Group is a lessee, the Group elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

## Measurement and recognition of leases as a lessee

At lease commencement date, the Group recognizes a right-of-use asset and a lease liability on the condensed consolidated statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the underlying asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any lease incentives received).

Depreciation of the right-of-use assets is recognized on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term unless the Group is reasonably certain to obtain ownership at the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicator exists.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2019

# 2. BASIS OF PREPARATION - continued

## 2.1 Impacts and changes in significant accounting policies - continued

## IFRS 16 "Leases" - continued

## The Group as a leasee - continued

## Measurement and recognition of leases as a lessee - continued

At lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable payments based on an index or rate, and amounts expected to be payable under a residual value guarantee. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payment of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

Subsequent to initial measurement, the liability will be reduced for lease payments made and increased for interest cost on the lease liability. It is remeasured to reflect any reassessment or lease modification, or if there are changes in in-substance fixed payments. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

When the lease is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these leases are recognised as an expense in profit or loss on a straight-line basis over the lease term. Short-term leases are leases with a lease term of 12 month or less. As at 1 January 2019, the Group's future minimum lease payments are all payable within one year or of low-value assets. Accordingly, the Group has used the practical expedients of short-term lease to recognise the rental expenses over the lease term and thus the adoption of IFRS 16 does not have material impact to the Group's condensed interim financial statements on the initial adoption.

# 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Interim Financial Information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the Interim Financial Information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2018.

## 4. REVENUE AND SEGMENT INFORMATION

The Group's operating activities are attributable to a single reportable and operating segment focusing primarily on the research, development and sales of video-related and broadcasting equipment and software and provision of related technical services in the PRC. This operating segment has been identified on the basis of internal management reports reviewed by the chief operating decision-makers (the "**CODM**"), being the executive directors of the Group. The CODM mainly reviews revenue derived from sale of products, solutions and services, which are measured in accordance with the Group's accounting policies. However, other than revenue information, no operating results and other discrete financial information is available for the assessment of performance of the respective type of revenue. The CODM reviews the overall results of the Group as a whole to make decisions about resources allocation. Accordingly, no segment information is presented. An analysis of the Group's revenue is as follows:

### 14. TRADE AND OTHER RECEIVABLES – continued

### (a) Trade and bills receivables

Invoices issued to customers are in accordance with the payment terms stipulated in the contracts and payable on issuance. Deposits are normally required upon signing of the contract. For customers with good credit history and selected large television stations in the PRC with sound financial standing, its settlement may be longer than 180 days after issuance of invoices. Ageing analysis based on invoiced date of the trade and bills receivables and net of ECL allowance at the respective reporting dates is as follows:

The Group applies the simplified approach to provide for ECL prescribed by IFRS 9, which permits the use of the lifetime ECL provision for all trade receivables. To measure the ECL, trade receivables have been grouped based on shared credit risk characteristics and the ageing.

The Group did not hold any collateral as security or other credit enhancements over the impaired trade receivables, whether determined on an individual or collective basis.

#### Deposit for guarantee certificate

|   | 54,321      | 77,761      |

The contract assets represent the Group's entitlement to the consideration which was conditional on achieving the payment milestones. The Group's solution sales contracts include payment schedules which generally require contract instalment over the contract period once certain specified milestones are reached. The Group also agrees to a one to two years retention period for 5% to 10% of the solution sales contract value. This amount is included in contract assets until the end of retention period as the Group's entitlement to this final payment is conditional on the Group's satisfactory work.

### **15.2 Contract liabilities**

Contract liabilities of the Group mainly arise from the advance payments made by customers while the underlying products or services are yet to be provided.

### 18. SHARE-BASED COMPENSATION TRANSACTIONS – continued

### (a) The 2010 Share Option Plan – continued

On 1 January 2011, 26,000,000 options were granted by the Company for nil consideration with estimated fair value of approximately US\$3,129,000 (approximately RMB20,720,000) (note). Each option gives the holder the right to subscribe for one ordinary share in the Company at an exercise price of US\$1.16 per share. The share options are valid for a period of 10 years from 1 January 2011. Included in the 26,000,000 options, (i) 25,700,000 options are subject to a vesting scale in which 30%, 30%, 20% and 20% of options granted shall vest on 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015 respectively; and (ii) 300,000 options are subject to a vesting scale in which 1/3, 1/3 and 1/3 of the options granted shall vest on 1 January 2013 and 1 January 2014 respectively. All options granted are exercisable from 1 January 2012 to 31 December 2021.

Note: As detailed above, as the participant can choose the method of settlement, the Company is considered to have issued a compound financial instrument, an instrument with a debt component (to the extent that the participant has a right to demand cash) and an equity component (to the extent that the counterparty has a right to demand settlement in equity instruments by giving up their right to cash). However, as the exercise price of the options of US\$1.16 per share is higher than the agreed repurchase price of US\$1.00 per share, the Group considered the debt component is of no value in respect of all the share options granted, thus the fair value of the equity component was approximately US\$3,129,000 (approximately RMB20,720,000) at the date of grant.

On 1 October 2015, 2,935,000 options were granted by the Company to the key employees of the Group under the 2010 Share Option Plan with estimated total fair value of approximately US\$3,000,000 (equivalent to approximately RMB19,195,000). The exercise price of the share options granted is US\$0.00001 per share. The share options are valid for a period of 10 years from 1 October 2015. Included in the 2,935,000 options, 1,435,000 options granted will vest on the 1 October 2016, and the remaining 1,500,000 options are subject to a vesting scale in which 40%, 30% and 30% of options granted shall vest on 1 October 2016, 1 October 2017 and 1 October 2018 respectively. The options granted are exercisable from 1 October 2016 to 31 December 2021.

The Company has adjusted, pursuant to the authority granted to the board of director under the 2010 Share Option Plan, the total number of shares subject to options granted under the 2010 Share Option Plan to 77,893,000 as a result the capitalization issue completed on 27 June 2016. Upon completion of such grant and adjustment, no further options will be granted under the 2010 Share Option Plan.

#### (b) Share Option Scheme adopted by the Company in 2017

Pursuant to an ordinary resolution passed at the annual general meeting of the Company held on 18 May 2017, the Company adopted a share option scheme to attract, retain and motivate employees, Directors and other participants, and to provide a means of compensation through the grant of options for their contribution to the growth and profits of the Group, and to allow them to participate in the future growth and profitability of the Group (the "**2017 Share Option Scheme**"). The participants of the 2017 Share Option Scheme are any executive, non-executive or independent non-executive directors or any employees (whether full-time or part-time) of the Company, or any of its subsidiaries or associated companies or any other person whom the Board considers, in its sole discretion, has contributed or will contribute to the Group.

The 2017 Share Option Scheme is valid and effective for a period of ten years from 24 May 2017.

The maximum number of shares which may be issued upon exercise of all options to be granted at any time under the 2017 Share Option Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the relevant class of the shares in issue as at the date of adoption (the "**Mandate Limit of Option Scheme**"). Options lapsed in accordance with the terms of the 2017 Option Scheme will not be counted for the purpose of calculating the Mandate Limit of Option Scheme.

The Company may seek approval by its shareholders in general meeting for refreshing the Mandate Limit of Option Scheme under the 2017 Share Option Scheme. However, the total number of shares which may be issued upon exercise of all options to be granted under the 2017 Share Option Scheme and any other schemes of the Company under the limit as "refreshed" must not exceed 10% of the relevant class of the shares in issue as at the date of passing the relevant resolution to refresh such limit. Options previously granted under the 2017 Share Option Scheme and any other schemes (including those outstanding, cancelled, lapsed in accordance with the 2017 Share Option Scheme or any other schemes or exercised options) will not be counted for the purpose of calculating the Mandate Limit of Option Scheme as "refreshed". The Company may seek separate approval by its shareholders in general meeting for granting options beyond the Mandate Limit of Option Scheme provided the options in excess of the Mandate Limit of Option Scheme are granted only to eligible participants of the 2017 Share Option Scheme specifically identified by the Company before such approval is sought.

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under, the 2017 Share Option Scheme and any other schemes of the Company must not exceed 30% of the relevant class of the shares in issue from time to time. No options may be granted under the 2017 Share Option Scheme or any other schemes of the Company if this will result in this limit being exceeded.

# NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2019

## 21. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The following table presents financial instruments measured at fair value in the condensed consolidated statement of financial position in accordance with the fair value hierarchy. The hierarchy groups financial instruments into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial instruments. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;

- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the financial instrument is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.

The financial instruments measured at fair value in the condensed consolidated statement of financial position on a recurring basis are grouped into the fair value hierarchy as follows:

|  | (Unaudited) | (Audited)   |
|--|-------------|-------------|
|  | As at       | As at       |
|  | 30 June     | 31 December |
|  | 2019        | 2018        |
|  | Level 3     | Level 3     |
|  | RMB'000     | RMB'000     |
| Financial asset at fair value through profit or loss |             |             |
| Unlisted equity investments                          | 9,868       | 9,868       |

The information about the fair value of unlisted equity investments categorised under Level 3 fair value hierarchy are described below:

|                             | Valuation<br>technique                        | Unobservable<br>input                   | Range (weighted average) |                              |

|                             |   |   | As at<br>30 June<br>2019 | As at<br>31 December<br>2018 |
| Unlisted equity investments | Market approach<br>and net assets<br>approach | Discount of<br>lack of<br>marketability | 15.8%                    | 15.8%                        |

For the six months ended 30 June 2019 and years ended 31 December 2018, there were no transfers amongst level 1, level 2 and level 3 in the fair value hierarchy. In the opinion of the directors, the fair value change on the unlisted equity investments is considered to be insignificant for the six months ended 30 June 2019 because there is no significant change in the financial projections of the investment, unobservable input and assumptions.
