NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1 GENERAL INFORMATION

Zhicheng Technology Group Ltd. was incorporated in the Cayman Islands on 23 June 2017 as an exempted company with limited liability. The address of its registered office is the offices of Sertus Incorporations (Cayman) Limited, Sertus Chambers, Governors Square, Suit # 5-204, 23 Lime Tree Bay Avenue, P.O. Box 2547 Grand Cayman, KY1-1104 Cayman Islands. The Company's shares were listed on GEM of the Stock Exchange on 20 April 2018.

The Company is an investment holding company and its principal subsidiaries are principally engaged in the provision of smart manufacturing solutions including sales of equipment and provision of relevant technical service in the People's Republic of China (the "**PRC**").

These financial statements are presented in Hong Kong dollar ("**HK$**"), unless otherwise stated, and have been approved for issue by the Board of the Company on 7 August 2019.

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated results of the Group for the three months ended 30 June 2019 have been prepared in accordance with applicable Hong Kong Financial Reporting Standards ("**HKFRS**") and the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622). The unaudited condensed consolidated financial statements have been prepared under the historical cost convention.

For the purpose of the accounting policies and method of computation adopted in preparing the unaudited condensed consolidated results for the three months ended 30 June 2019, the accounting policies adopted in this report are consistent with those adopted in the audited financial statements for the year ended 31 March 2019, except for a number of new standards and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants that are effective for the current accounting period of the Group. Except as disclosed below, none of these amendments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

The Group has not early adopted any new and revised HKFRSs that have been issued but are not yet effective.

2.1 New and amended standards adopted by the Group

The following new or revised standards became applicable for the current reporting period and the Group had to change its accounting policies as a result of adopting the following standards:

- HKFRS 16 Leases

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

2.2 Changes in accounting policies

HKFRS 16 was issued in January 2016. It will result in almost all leases being recognised on the balance sheet by lessees, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The Group has adopted HKFRS 16 retrospectively from 1 April 2019, but has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The reclassifications and the adjustments arising from the new and amended requirements with respect to lease accounting are therefore recognised in the opening statement of financial position on 1 April 2019.

(a) Adjustments recognised on adoption of HKFRS 16

Before the adoption of HKFRS 16, commitments under operating leases for future periods were not recognised by the Group as liabilities. Operating lease rental expenses were recognised in the consolidated statement of profit or loss over the lease period on a straight-line basis.

On adoption of HKFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of HKAS 17 Leases. As at 31 March 2019, the Group has only lease commitment no later than 1 year amounted to HK$214,000. Such lease can be exempted from the reporting obligation under HKFRS 16. The Group concluded that the impact on the financial statements of 1 April 2019 is not significant.

(b) Accounting policies adopted since 1 April 2019

The Group is currently a lease for certain offices and staff quarters. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Until the year ended 31 March 2019, the leases of the Group were classified as operating leases. Payments made under operating leases were recognised as an expense on a straight-line basis over the lease term.

From 1 April 2019 onwards, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

2.2 Changes in accounting policies *(Continued)*

(b) *Accounting policies adopted since 1 April 2019* *(Continued)*

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate;
- amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

The directors consider that the adoption of the new standard will not have material impact on the financial position and the financial performance of the Group as the Group only holds short-term leases of less than twelve months in a total lease commitment of HK$296,000 as at 30 June 2019, which can be exempted from the reporting obligation under HKFRS 16.

Current income tax

No income tax relating to components of other comprehensive income was charged for the three months ended 30 June 2019 (2018: same).

(a) Pursuant to the Corporate Income Tax Law of the PRC (the "**CIT Law**") and the Implementation Rules of the CIT Law in the PRC, the standard tax rate is 25% for the Group's subsidiaries and operations in the PRC. On 11 December 2017, Quick Tech Corporation Ltd., the Group's subsidiary incorporated in the PRC, was awarded the High and New Technology Enterprise which is effective for three years commencing on 1 January 2017 and is entitled to preferential income tax rate of 15% for these three years.

(b) Hong Kong Cheng Phong Technology Limited ("**Hong Kong Cheng Phong**"), Bow Chak Industry (HK) Limited ("**Bow Chak**") and MGW Swans Ltd. ("**MGW Swans**") are the Group's subsidiaries incorporated in Hong Kong and BVI. However, their principal businesses for the three months ended 30 June 2019 were carried out in the PRC (2018: same) and the related income was subject to PRC corporate income tax. Hong Kong Cheng Phong, Bow Chak and MGW Swans were approved by the PRC in-charge tax bureau to pay PRC income tax on a "deemed profit basis", according to which their taxable income was calculated at 15% of revenue for the three months ended 30 June 2019 (2018: same).

(c) The statutory Hong Kong profits tax rate is 16.5%.

Hong Kong Cheng Phong and Bow Chak are Hong Kong incorporated companies and are obligated to file their profits tax returns to Hong Kong Inland Revenue Department. In their tax filing for prior years, Hong Kong Cheng Phong and Bow Chak have reported their income as onshore sourced and taxable under Hong Kong profits tax and paid Hong Kong profits tax though they have also paid the PRC corporate income tax as mentioned by Note (b) above. After reviewing the companies' operations, Hong Kong Cheng Phong and Bow Chak plan to report their income derived during the year as offshore sourced and not subject to Hong Kong profits tax. However, the offshore claim will be subject to review and agreement of the Hong Kong Inland Revenue Department and cannot be ascertained at the date of these consolidated financial statements. Thus, Hong Kong Cheng Phong and Bow Chak have trued up their profits tax provision according to 16.5% profits tax rate in Hong Kong.

Hong Kong Zhi Phong has made its profits tax provision according to 16.5% profits tax rate in Hong Kong for the three months ended 30 June 2019.

(d) The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of Cayman Islands and accordingly, is exempted from Cayman Islands income tax.

The Company has not made provision for Hong Kong profits tax in Hong Kong because the Company has no any taxable profits in Hong Kong for the three months ended 30 June 2019.

The Company's subsidiaries in BVI were incorporated under the International Business Companies Act of the British Virgin Islands and accordingly, are exempted from British Virgin Islands income tax.

For the three months ended 30 June 2019, the Group recorded revenue of approximately HK$4.3 million, representing an increase of 168.9% comparing with that of approximately HK$1.6 million for the three months ended 30 June 2018. Set out below is the revenue breakdown of the Group for the three months ended 30 June 2019 and the three months ended 30 June 2018:

	Three months ended 30 June			
	2019		2018	
	Revenue	**% of revenue**	Revenue	% of revenue

Precision machining solutions	**–**	**–**	938	59.3
All solutions	**4,252**	**100**	1,581	100.0

Precision 3D testing solutions: Revenue from precision 3D testing solutions increased by 561.3% to HK$4.3 million for the three months ended 30 June 2019 from HK$0.6 million for the three months ended 30 June 2018. This increase was mainly due to an increase in the contract value of the corresponding precision 3D testing solutions carried out by the Group. For the three months ended 30 June 2019, the Group's revenue was derived from 2 projects, one of which was a project relating to providing equipment modules with a relatively high identifiable revenue, and the other was a project relating to providing technical services. For the three months ended 30 June 2018, the Group carried out 2 projects that were all related to providing technical services with a relatively low identifiable revenue.

Precision machining solutions: The decrease in revenue from precision machining solutions was mainly due to the fact that the Group did not carry out any precision machining solutions for the three months ended 30 June 2019. For the three months ended 30 June 2018, the Group carried out 1 precision machining solutions project.

MANAGEMENT DISCUSSION AND ANALYSIS

Cost of sales

Cost of sales increased by 40.7% to HK$1.6 million for the three months ended 30 June 2019 from HK$1.1 million for the three months ended 30 June 2018, mainly due to the fact that the cost of sales was mainly derived from 1 precision 3D testing solutions project which used imported modules during this period, with a relatively high contract value, and its equipment cost was relatively high accordingly. For the three months ended 30 June 2018, the cost of sales was mainly derived from 1 precision machining solutions project which used indigenous modules, with a relatively low contract value, and its equipment cost was relatively low accordingly.

Gross profit and gross profit margin

Gross profit increased by 484.5% to HK$2.7 million for the three months ended 30 June 2019 from HK$0.5 million for the three months ended 30 June 2018. Its gross profit margin increased to 62.8% for the three months ended 30 June 2019 from 28.9% for the three months ended 30 June 2018, mainly due to the fact that all projects carried out by the Group were precision 3D testing solutions projects with a high gross profit margin for the three months ended 30 June 2019. For the three months ended 30 June 2018, the Group carried our 1 precision machining solutions project which used indigenous modules, with a relatively low gross profit margin, and thus pulled down the overall gross profit margin.

Selling and marketing expenses

Selling and marketing expenses increased by 44.8% to HK$1.2 million for the three months ended 30 June 2019 from HK$0.8 million for the three months ended 30 June 2018. This increase was mainly due to an increase of HK$0.3 million in marketing expenses resulted from enhancing its marketing efforts by the Group, and an increase of HK$0.1 million in staff costs as the Group expanded its sales and marketing team.

Administrative expenses

Administrative expenses decreased by 24.3% to HK$3.4 million for the three months ended 30 June 2019 from HK$4.5 million for the three months ended 30 June 2018. The decrease was mainly due to the fact that the travel expenses and other preparatory expenses incurred for the preparation of the shares of the Company listing on GEM for the three months ended 30 June 2018 were not required to be expensed during the period.

Income tax expense

The Company had an income tax credit of HK$71,000 for the three months ended 30 June 2019. Income tax expense included the PRC income tax of Hong Kong Cheng Phong, Bow Chak and MGW Swans, calculated on a deemed profit basis. The calculation of effective tax rate was not applicable as the Group had recorded a loss before income tax of approximately HK$1.8 million.

Loss

The Company recorded a loss of HK$1.8 million for the three months ended 30 June 2019 compared to a loss of HK$4.1 million for the three months ended 30 June 2018, mainly due to an increase in income and a decrease in administrative expenses.

MANAGEMENT DISCUSSION AND ANALYSIS

Borrowings

As at 30 June 2019, the Group did not have any bank borrowings and other interest-bearing borrowings.

Contingent Liabilities

As at 30 June 2019, the Group did not have any significant contingent liabilities.

	HK$'000

As at 30 June 2019, the Group did not have any pledge on its assets.

Exchange Rate Risk Exposure

For the operating entities of the Group that are incorporated in Hong Kong and the British Virgin Islands, their functional currencies are United States dollars ("**US$**"). As certain trade and other receivables, bank balances, trade and other payables of overseas entities are denominated in Hong Kong dollars or Euro ("**EUR**"), currencies other than the functional currencies of the entities may cause the foreign exchange risk. Under the Linked Exchange Rate System in Hong Kong, HK$ is pegged to US$, the Board considers that there is no significant foreign exchange risk with respect to HK$. Therefore, the foreign exchange risk mainly arises from the monetary assets and liabilities denominated in EUR, which the Board considers as not significant to the Group.

The Group has not entered into forward exchange contract to hedge its exposure to foreign exchange risk.

SIGNIFICANT INVESTMENTS HELD

As at 30 June 2019, the Group did not hold any significant investments.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

During the three months ended 30 June 2019, the Group did not have any material acquisitions and disposals of subsidiaries and affiliated companies.

EMPLOYEES AND EMOLUMENT POLICIES

As at 30 June 2019, the Group had a total of 28 (2018: 23) employees, including executive directors of the companies of the Group. The Group values employees because they are pivotal to our success. To recruit, develop and retain talented employees, the Group has provided its employees competitive remuneration packages, including internal promotion opportunities and performance-based bonus. The remuneration committee of the Company shall make recommendation to its Board on the overall remuneration policy and structure relating to all Directors and senior management; review remuneration proposals of the management with reference to its Board's corporate goals and objectives; and ensure none of its Directors or any of their associates determine their own remuneration.

PRINCIPAL RISKS AND UNCERTAINTIES

Business risk

The principal business of the Group is to provide smart manufacturing solutions to its customers on a project basis. As there are no long term contractual arrangements with its customers, no assurance that the Group will continue to secure new contracts or maintain or increase its current level of business activities with existing or future customers in the future. Therefore, the Group is increasing its sales and marketing efforts, expanding its sales teams and administrative teams, sales points and sales coverage, aiming to continuously get new tenders, secure contracts from more customers and increase market share.

The Group's major customers are high-end equipment manufacturers in the aviation, aerospace, shipbuilding, ground transportation vehicles and electronics industries. The market for smart manufacturing solutions is characterised by rapidly changing technologies and evolving developments. The success of its business is dependent upon its ability to continuously develop, in a timely manner, new technological applications through research and development and introduce new solution designs to cater its customers' requirements. Therefore, the Group intends to increase its research and development efforts, establish its own research and development centres, recruit more technical staff, so as to hold its edges and competitiveness in terms of technology.

Credit risk

Credit risk mainly arises from cash and cash equivalents, restricted cash, trade receivables and other receivables. The carrying amount of these balances in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to its financial assets. The Group has a credit policy in place and the exposure to these credit risks are monitored on an ongoing basis.

Liquidity risk

To manage the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the operations and mitigate the effects of fluctuations in cash flows. The Group expects to fund its future cash flow needs through internally generated cash flows from operation and other channels.
