Interim Report 2019

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and midsized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

1. GENERAL INFORMATION

eBroker Group Limited (the "Company") was incorporated in the Cayman Islands with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands on 23 May 2016. The Company's shares are listed on the GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 19 February 2019.

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements for the six months ended 30 June 2019 have been prepared in accordance with the Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). These unaudited condensed consolidated financial statements comply with the accounting principles generally accepted in Hong Kong and the Rules Governing the Listing of Securities on GEM ("GEM Listing Rules").

The unaudited condensed consolidated financial statements for the six months ended 30 June 2019 should be read in conjunction with the audited consolidated financial statements for the year ended 31 December 2018 and the notes thereto (the "2018 Audited Consolidated Financial Statements"). The significant accounting policies adopted in the preparation of the unaudited condensed consolidated financial statements are consistent with those followed in the preparation of the 2018 Audited Consolidated Financial Statements except for the new and revised standards, amendments and interpretations issued by the HKICPA that are adopted for the first time for the current period's financial statements. It should be noted that accounting estimates and assumptions were adopted in the preparation of the unaudited condensed consolidated financial statements. Although the estimates are based on the management's best knowledge of and judgement on the present events and actions, the actual results may eventually differ from those estimates.

For the six months ended 30 June 2019

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

Certain new and revised Hong Kong Financial Reporting Standard ("HKFRSs") have been issued. HKFRSs comprise Hong Kong Financial Reporting Standards ("HKFRS"); Hong Kong Accounting Standards ("HKAS"); and Interpretations. Except as described below for the HKFRS 16, the Directors considered that the adoption of other new HKFRSs which are effective for the accounting periods beginning on 1 January 2019 will not have any material impact on the preparation and presentation of the results and financial conditions of the current period and previous periods. For the HKFRSs that are not yet effective nor have not been early adopted, the Group is in the process of making as assessment of the potential impact of the newly issued HKFRSs.

HKFRS 16 replaces HKAS 17 Leases and related interpretations and has been effective for annual period beginning on or after 1 January 2019. The Group has applied the simplified transition approach and has not restated comparative amounts for the period prior to first adoption.

Under HKFRS 16, the Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognised and measured a liability at the present value of the future minimum lease payments and recognised a corresponding right-of-use assets for these leases previously classified as operating leases applying HKAS 17. The finance costs on the lease liability and depreciation on the right-of-use asset were recognised in profit or loss. The Group elected, on a lease-by-lease basis, to measure that right-of-use assets at amounts equal to the lease liabilities, adjusted by the amounts of any prepaid or accrued lease payments relating to these leases recognised in the statement of financial position immediately before the date of initial application.

The Group derives its revenue primarily from the provision of financial technology solutions which can be classified into (i) front office solution service; (ii) back office solution service; (iii) installation and customization services; (iv) managed cloud service and (v) other services income. For the six months ended 30 June 2019, the Group recorded revenue of approximately HK\$23.6 million, representing a decrease of approximately 13.2% as compared with the previous year of approximately HK\$27.2 million. The installation and customization services decreased by approximately 39.5% from approximately HK\$3.8 million for the six months ended 30 June 2018 to approximately HK\$2.3 million for the six months ended 30 June 2019 due to the recognition of setup charges for Two Factor Authentication solution in second quarter of 2018. This was primarily due to the decrease in front office solution and installation and customisation services income of approximately HK\$3.6 million for the six months ended 30 June 2019.

Other Income

The Group's other income consists of management fee received from a joint venture and interest income on bank deposits. The Group's other income increased slightly to approximately HK\$212,000 from approximately HK\$47,000 for the six months ended 30 June 2018 due to an increase in interest income of approximately HK\$141,000, which was mainly due to an increase in bank balance as a result of the proceeds from the listing.

Income Tax Expense

The Group's income tax expense for the six months ended 30 June 2019 was approximately HK\$0.5 million, representing a decrease of approximately 64.3% from approximately HK\$1.4 million for the six months ended 30 June 2018.
