## Third Quarterly Report

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors (the “Directors”) of RMH Holdings Limited (the “Company”, together with its subsidiaries, the “Group”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

# NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

*For the nine months ended 30 September 2019*

## **1 GENERAL**

The Company was incorporated as an exempted company in the Cayman Islands with limited liability under Cayman Companies Law on 22 March 2017. Its registered office is at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The Company was registered with the Registrar of Companies in Hong Kong as a non-Hong Kong company under Part 16 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong) (the “Companies Ordinance”) on 25 May 2017 and the principal place of business of the Company in Hong Kong is at Room 5705, 57th Floor, The Center, 99 Queen’s Road Central, Hong Kong. The head office and principal place of business of the Company in Singapore is at #15-09 Paragon (Office Tower), 290 Orchard Road, Singapore 238859. The shares of the Company (the “Shares”) have been listed on GEM of the Stock Exchange with effect from 13 October 2017 (the “Listing”) by way of share offer (the “Share Offer”). The immediate and ultimate holding company of the Company is Brisk Success Holdings Limited (“Brisk Success”) which is a company incorporated in the British Virgin Islands.

## **2 BASIS OF PREPARATION OF THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

Pursuant to the reorganisation of the Company in connection with the Listing (the “Reorganisation”), the Company became the holding company of the companies now comprising the Group on 11 May 2017. The companies now comprising the Group were under the common control of the Company. Accordingly, these financial statements have been prepared by applying the principles of merger accounting as if the Reorganisation had been completed at the beginning of the earliest period presented. Details of the Reorganisation are set out in the section headed “History, Reorganisation and Development – Reorganisation” in the prospectus of the Company dated 29 September 2017 (the “Prospectus”).

The condensed consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRSs”) which include International Accounting Standards (“IASs”) and Interpretations promulgated by the International Accounting Standards Board and the disclosure requirements of the GEM Listing Rules and the Companies Ordinance.

The condensed consolidated statement of profit or loss and other comprehensive income and condensed consolidated statement of changes in equity the Group for the nine months ended 30 September 2019 are prepared as if the current group structure had been in existence throughout the nine months ended 30 September 2019 or since the date of incorporation where there is a shorter period.

The condensed consolidated financial statements are presented in Singapore Dollars (“S\$”) which is the same as the functional currency of the Company and its subsidiaries, and all values are rounded to the nearest thousands, unless otherwise stated.

### 3 **ADOPTION OF NEW AND REVISED STANDARDS**

All IFRSs effective for the accounting period commencing from 1 January 2019, together with the relevant transitional provisions, have been adopted by the Group in preparation of these condensed consolidated financial statements. The adoption of these new/ revised IFRSs has no material effect on the amounts reported for the current or prior period.

#### **New and amended IFRS Standards that are effective for the current period**

##### *Impact of application of IFRS 16 Leases*

In the current period, the Group has applied IFRS 16 Leases which is effective for an annual period that begins on or after 1 January 2019. IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use (“ROU”) asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

The Group applied the practical expedient to recognise amounts of ROU assets equal to its lease liabilities on 1 January 2019 and recognition exemptions for short-term leases and leases of low value items in accordance with the principles of IFRS 16.

Under IFRS 16, the Group recognised its existing operating lease arrangements where the Group is a lessee, as ROU assets with corresponding lease liabilities and measures lease liabilities by applying a single discount rate to the leases.

The nature of expenses related to those leases will change as the principles under IFRS 16 replaces the straight-line operating lease expense with net change in fair value of depreciation charge for ROU assets, and interest expense on lease liabilities.

### 4 **SIGNIFICANT ACCOUNTING POLICIES**

The condensed consolidated financial statements of the Group for the nine months ended 30 September 2019 have been prepared in accordance with the applicable disclosure requirements of the GEM Listing Rule, International Financial Reporting Standards (“IFRSs”) which include International Accounting Standards (“IASs”) and Interpretations promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance.

The condensed consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

## Financial assets

### *Classification of financial assets*

Debt instruments that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### **Impairment of financial assets**

The Group recognises a loss allowance for expected credit losses (“ECL”) on investments in debt instruments that are measured at amortised cost or at fair value through other comprehensive income. No impairment loss is recognised for investments in equity instruments. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 months ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12 months ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control of a product or service to a customer.

Deferred revenue represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Revenue recognition under IFRS 15 for each revenue stream of the Group are as follows:

Revenue from provision of consultation services ("Consultation Services") relate to contracts with patients in which our performance obligations are to provide consultation to the patients. Performance obligations for consultation services are generally satisfied over a period of less than one day.

Revenue from dispensing of medical skincare products ("Prescription and Dispensing Services") is recognised at point in time when the patient has obtained the control of the medication and skincare products when the dispensing is made and the patient has substantially obtained all the remaining benefits of these products.

Revenue from provision of medical skincare treatments of surgical and non-invasive/minimally invasive in nature ("Treatment Services") generally relate to contracts with patients in which our performance obligations are to provide the required treatment services to the patients. Performance obligations for treatment services are generally satisfied over a period of less than one day.

Revenue from provision of aesthetics and wellness services ("Aesthetic Services") generally relate to performance obligations to provide treatment services. Considerations are generally received and recognised as deferred revenue. Revenue from sale of medication and skincare products is recognised at the point in time at which physical possession of the medication and skincare products. As such, the patient has obtained control of the products and has the ability to direct the use and obtain substantially all of the remaining benefits from the products.

Revenue from other services ("Other Services") generally relate to laboratory test carried out as part of treatment procedures. Performance obligation for such services are generally satisfied at point in time when the relevant test has been completed.

## 5 REVENUE AND SEGMENT INFORMATION

The Group's operating activities are attributable to a single operating segment focusing on provision of dermatology treatment solutions, specialised in skin cancer, skin diseases and aesthetic procedures, to customers in Singapore. The major categories of the Group's operating activities include Consultation Services, Prescription and Dispensing Services, Treatment Services and Aesthetic Services. This operating segment has been identified on the basis of internal management reports prepared in accordance with accounting policies same as those of the Group as described in Note 4. Dr. Loh, Dr. Ee and Dr. Kwah, directors of the Company, have been identified as the chief operating decision makers ("CODM"). The CODM review the Group's revenue analysis by services and products in order to assess performance and allocate resources.

Other than revenue analysis, no operating results and other discrete financial information is available for the assessment of performance and allocation of resources. The CODM review the results of the Group as a whole to make decisions. Accordingly, other than entity-wide information, no analysis of this single operating segment is presented.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group is a leading specialist dermatological and surgical practice accredited by the Ministry of Health of Singapore in Singapore, providing accessible, comprehensive, quality and specialty care services for a variety of dermatological conditions affecting skin, hair and nails by utilising a wide range of advanced and sophisticated medical, surgical, laser and aesthetic treatments. The Group's private dermatology practice comprises primarily doctors, and trained personnel with specialised skill sets equipped to handle complex dermatological conditions. The Group provides an all-round treatment solution that is tailored to our patients' individual needs for the treatment of, among others, skin cancer, skin diseases such as eczema, psoriasis, acne, pigmentation, adverse drug reactions and warts. The Group also performs aesthetic treatments to enhance the overall appearance of patients.

The revenue of the Group decreased by approximately S\$7,000, or 0.1%, to approximately S\$5,426,000 as compared to the nine months ended 30 September 2018. The decrease in revenue was preliminarily due to a marginal decrease in the Treatment Services rendered mainly due to decrease in revenue from injection and intense pulse light procedures.

### BUSINESS OUTLOOK

Going forward, the Group intends to capitalise on business opportunities arising from the continued demand for dermatological and surgical services in Singapore, by seeking suitable and strategic locations to expand our growing business and to widen our customer pool.

The Group is exploring to further grow by capturing opportunities from markets with substantial growth potential such as Hong Kong and the People's Republic of China (the "PRC"). Our Directors believe that Singapore is a country in relatively close proximity to Hong Kong and the PRC and can attract more patients from Hong Kong and the PRC (even as part of a business trip or holiday) to readily access treatments on a more confidential basis, with no language barriers and away from the prying eyes of the public, family and friends. Furthermore, as set out in the section headed "Industry Overview" in the Prospectus, we are the only private clinic (excluding public hospitals) in Southeast Asia to perform Mohs surgery. We relied on the word of mouth from Hong Kong and the PRC expatriates living in Singapore for attracting these customers in the past.

Besides, by clinics expansion, we continue to attract and train our trained therapists to become more involved in various aspects of patients' experience at our clinics from aesthetic and skincare product counselling to certain non-invasive treatments under supervision of our resident Doctors.

## FINANCIAL REVIEW

### Revenue

The Group's overall revenue amounted to approximately S\$5,426,000 for the nine months ended 30 September 2019, representing a decrease of approximately S\$7,000 or 0.1% as compared with the revenue of S\$5,433,000 for the nine months ended 30 September 2018.

The Group provides an all-round treatment solution that is tailored to the patients' individual needs in the field of dermatology. These are achieved through the provision of personalised services, including Consultation Services, Prescription and Dispensing Services, Aesthetic Services and Treatment Services. The decrease in revenue for the nine months ended 30 September 2019 was mainly attributable to decrease in Treatment Services rendered. The following table sets forth a breakdown of our revenue for the periods indicated:

	Nine months ended 30 September			
	2019 S\$'000 (Unaudited)	%	2018 S\$'000 (Unaudited)	%
<b>Revenue</b>				
Consultation Services	1,425	26.3	1,378	25.4
Prescription and Dispensing Services	1,545	28.5	1,561	28.7
Treatment Services	1,930	35.5	2,145	39.5
Aesthetic Services	83	1.5	-	0.0
Other Services	443	8.2	349	6.4
	<b>5,426</b>	<b>100.0</b>	5,433	100.0

Revenue generated from Consultation Services increased by S\$47,000 from S\$1,378,000 to S\$1,425,000 for the nine months ended 30 September 2018 and 2019 respectively. With an increase in the number of patient visits for Consultation Services from 13,478 to 14,001 for the nine months ended 30 September 2018 and 2019 respectively, the Group recorded a 3.8% increase in the total number of patient visits for the nine months ended 30 September 2019.

Revenue generated from Prescription and Dispensing Services decreased by S\$16,000 from S\$1,561,000 to S\$1,545,000 for the nine months ended 30 September 2018 and 2019 respectively. The decrease was a result of a marginal decrease in the revenue from patients who purchased DS brand skincare products, or prescription medication without doctor's consultation.

Revenue generated from Treatment Services decreased by S\$215,000 from S\$2,145,000 to S\$1,930,000 for the nine months ended 30 September in 2018 and 2019 respectively. Revenue from Treatment Services was predominantly decreased in revenue from injection and intense pulse light procedures.

Revenue generated from Aesthetic Services is pertaining to customers are able to exercise their contractual rights in relation to the prepaid treatment packages at their discretion, the amount was presented as current liabilities in the condensed consolidated statement of financial position.

### **Consumables and medical supplies used**

Our consumables and medical supplies used amounted to S\$855,000 and S\$839,000 for the nine months ended 30 September 2018 and 2019 respectively. The decrease was in line with the decrease in revenue generated from Prescription and Dispensing Services. These comprised costs of treatment consumables, skincare products and medications were necessary for the provision of our services at our clinics.

Our cost of consumables and medical supplies was predominantly driven by the amounts of medication and consumables we used and our procurement costs. The amount of medication and consumables we used was primarily driven by the number of patient visits, the number and complexity of treatments and other dermatological and surgical services provided.

## Other operating income

Other operating income for the nine months ended 30 September 2019 and 2018 represented primarily interest income and government grants which comprised cash pay-out from Inland Revenue Authority of Singapore (“IRAS”) in relation to support businesses embarking on transformation efforts and encourage sharing of productivity gains with workers until year 2020. Other operating income increased by approximately S\$344,000 or 505.9% from approximately S\$68,000 for the nine months ended 30 September 2018 to approximately S\$412,000 for the nine months ended 30 September 2019. The increase was due to the increase in interest income related to bank balances.

## Other direct costs

Other direct costs were mainly attributable to laboratory charges, which were fees charged by laboratories engaged by us for providing blood, urine and other testing services for our patients.

We generally outsource medical tests such as blood testing, urine testing, and other testing services where we believe that there is insufficient demand to warrant the necessary investment for the development of the expertise and the in-house infrastructure. Therefore, we have subcontracted such testing services to external service providers and incurred laboratory charges for the provision of such testing services.

## Employee benefits expense

	Nine months ended 30 September	
	2019	2018
	S\$'000	S\$'000
	(Unaudited)	(Unaudited)
Directors' remunerations	638	617
Other staff costs:		
– Salaries, bonus and other benefits	771	466
– Contributions to retirement benefits scheme	95	68
Employee benefits expense	1,504	1,151

Employee benefits expense relate to Directors' remuneration, salaries, bonus and other benefits for other professional staff such as trained therapists, clinic executives and other administrative staff, contributions to retirement benefits scheme. The increase was largely due to additional staff headcounts of aesthetic clinic and "Family and Skin" clinic. We have recruited two General Practitioners in "Family and Skin" clinic.

Our total staff count for employees (including part time staff), excluding our directors, as at the nine months end of the respective financial period is as follow:

	Nine months ended 30 September	
	2019	2018
Total staff count	<b>30</b>	21

### Depreciation of plant and equipment

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised on a straight-line basis over the estimated useful lives of each part of an item of plant and equipment. Our depreciation expenses primarily comprised:

- (a) professional equipment, mainly our medical equipment such as dermatological laser equipment used at our clinics;
- (b) computer and office equipment at our various premises used for our operations;
- (c) leasehold improvements in relation to the leased premises for our operations.

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate at the end of the reporting period. Our medical equipment and office equipment are generally depreciated over three to five years, which we considered as reasonable for the useful lives for assets of such nature.

## Depreciation of right-of-use assets

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

## Other operating expenses

The Group's other operating expenses comprised rental and property upkeep, administrative fees, professional and consulting fees, net foreign currency exchange loss and other expenses.

The other operating expenses increased by approximately S\$119,000 or 8.6% from approximately S\$1,381,000 for the nine months ended 30 September 2018 to approximately S\$1,500,000 for the nine months ended 30 September 2019.

	Nine months ended 30 September	
	2019 S\$'000 (Unaudited)	2018 S\$'000 (Unaudited)
Rental and property upkeep	–	323
Administrative fees	225	233
Professional and consulting fees	755	485
Audit fees	114	113
Net foreign currency exchange loss	186	90
Other expenses	220	137
<b>Other operating expenses</b>	<b>1,500</b>	<b>1,381</b>

The decrease in rental and property upkeep for the nine months ended 30 September 2019 was due to application of IFRS 16 Leases, which replaces the straight line operating lease expense with net change in fair value of depreciation charge for right-of-use assets, and interest expense on lease liabilities.

The increase in professional and consulting fees for approximately S\$270,000 was related to the professional fee payable to medical practitioners.

The increase in net foreign currency exchange loss was mainly attributable to the weakening of Hong Kong dollars against Singapore dollars.

The other expenses comprised primarily card charges, clinic supplies, repairs and maintenance, insurance and other miscellaneous expenses. The increase of other expenses was mainly due to non-recurring marketing and advertising expenses to create market awareness for the new aesthetic clinic.

### ***Finance costs***

The Group did not have any bank borrowings, or interest-bearing liabilities for the nine months ended 30 September 2019 and 2018.

The finance costs were attributable to interest expense on lease liabilities under IFRS 16.

### ***Income tax expense***

Income tax expense was approximately S\$210,000 for the nine months ended 30 September 2019 and approximately S\$285,000 for the nine months ended 30 September 2018. The decrease was mainly attributable to the decrease in profit before taxation.

### ***Profit for the period***

Due to the combined effect of the aforesaid factors, we recorded the profit of approximately S\$693,000 for the nine months ended 30 September 2019, representing a decrease of approximately S\$936,000 as compared with the profit of approximately S\$1,629,000 for the nine months ended 30 September 2018.

## CORPORATE GOVERNANCE AND OTHER INFORMATION

### DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES OF THE COMPANY OR ITS ASSOCIATED CORPORATIONS

As at 30 September 2019, the interests and short positions of our Directors and chief executive of our Company in the Shares, underlying Shares and debentures of our Company or its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")) which, once the Shares are listed on the Stock Exchange, will have to be notified to our Company and the Stock Exchange under Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they are taken or deemed to have under such provisions of the SFO) or which will be required, pursuant to section 352 of the SFO, to be entered in the register as referred to therein, or pursuant to Rules 5.46 to 5.67 of the GEM Listing Rules relating to securities transactions by our Directors to be notified to our Company and the Stock Exchange, were as follows:

Name of Director	Capacity/ nature of interest	Number of shares interested	Percentage of interest in our Company

## **CORPORATE GOVERNANCE PRACTICES**

The Board recognises the importance of achieving the highest standard of corporate governance consistent with the needs and requirements of its businesses and the best interest of all of its stakeholders and is fully committed to doing so. The Board believes that high standards of corporate governance provide a framework and solid foundation for the Group to manage business risks, enhance transparency, achieve high standard of accountability and protect stakeholders' interests. Therefore, the Board has reviewed and will continue to review and improve the Company's corporate governance practices from time to time.

The Company has adopted the principles and the code provisions set out in the Corporate Governance Code (the "CG Code") contained in Appendix 15 to the GEM Listing Rules as its own code of corporate governance. The Company had complied with all the applicable code provisions of the CG Code during nine months ended 30 September 2019.

## **SHARE OPTION SCHEME**

The Company has adopted a share option scheme (the “Share Option Scheme”) on 22 September 2017. During the period from 22 September 2017 to the date of this report, no share option was granted by the Company.

## **PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY**

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company’s listed securities during the nine months ended 30 September 2019.

## **DIRECTORS’ RIGHTS TO ACQUIRE SHARES OR DEBENTURES**

At no time during the nine months ended 30 September 2019 were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Directors or their respective spouses or children under 18 years of age, or were any such rights exercised by them, or was the Company, its holding company, or any of its subsidiaries and fellow subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

## **COMPLIANCE OF CODE OF CONDUCT FOR DIRECTORS’ SECURITIES TRANSACTIONS**

The Company has adopted a code of conduct regarding securities transactions by directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Having made specific enquiry of all Directors, all the Directors confirmed that they had complied with the required standard of dealings and the code of conduct regarding securities transactions by directors adopted by the Company throughout the nine months ended 30 September 2019.

## **COMPLIANCE OF NON-COMPETITION UNDERTAKING**

As disclosed in the Prospectus pursuant to the non-competition undertakings set out in the deed of non-competition dated 22 September 2017, each of our controlling Shareholders, namely, Dr. Loh, Dr. Ee and Dr. Kwah (collectively referred to as the “Controlling Shareholders”), have undertaken to the Company (for itself and on behalf of its subsidiaries) that, amongst other things, each of them is not or will not, and will procure each of their respective close associates not to, directly or indirectly, carry on, participate in, be engaged, interested directly or indirectly, either for their own account or in conjunction with or on behalf of or for any other person in any business in competition with or similar to or is likely to be in competition with the business of the Group upon the Listing of the Company. Particulars of which are set out in the section headed “Relationship with Controlling Shareholders — Independence from Controlling Shareholders — Non-Competition Undertaking” of the Prospectus.

The independent non-executive Directors have reviewed the implementation of the deed of non-competition and are of the view that the Controlling Shareholders had complied with their undertakings given under the deed of non-competition for the nine months ended 30 September 2019.

## **COMPETING INTERESTS**
