CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the Directors collectively and individually accept full responsibility, includes particulars given in compliance with the GEM Listing Rules for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRLADY'S STATEMENT

Dear Shareholders,

On behalf of the Board, I am pleased to present the audited consolidated financial results of the Group for the year ended 31 December 2019.

For the year ended 31 December 2019, the Group recorded revenue of approximately RMB114.4 million, representing a decrease of approximately 14.6% as compared to approximately RMB133.9 million for the year ended 31 December 2018. Profit attributable to owners of the Company decreased by approximately 19.6% from approximately RMB20.7 million for the year ended 31 December 2018 to approximately RMB16.6 million for the year ended 31 December 2019.

In 2019, the global economy remained weak. As the banking sector in China tightened credit facilities and was imposed strict regulations thereon, risk appetite for investment was subdued in the country. This led to a slower growth of domestic investment and continued decrease in market demand, thus dragging down the textile industry with business confidence slumped in related industries. Coupled with the escalation of China-United States trade disputes, the tariff further imposed by the United States on China caused considerable negative influence on domestic export enterprises, hence the business environment for domestic enterprises continued to deteriorate and business operation became more difficult. Facing such difficulties and challenges, the Company kept optimizing its resource allocation and promptly responded to customers' demand, so as to consolidate market share with all efforts. The Company shall continue to proactively innovate, and is committed to exploring new products, new customers and new markets, with a view to promoting its sustainable and healthy development.

On behalf of the Board, I would like to express our sincere gratitude for the hard work of our staff, and the continuous and valuable support of the Group from all our Shareholders and stakeholders.

Yuan Yuan

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in R&D, manufacturing and sale of circular knitting machines. The Group derives its revenue mainly from the sales of circular knitting machines (i) domestically under the Group's own brands; and (ii) overseas either under the Group's own brands or the brands specified by trading companies purchasing on OEM basis.

For the year ended 31 December 2019, the Group recorded a turnover of approximately RMB114.4 million, representing a decrease of approximately 14.6% from approximately RMB133.9 million recorded for the year ended 31 December 2018. Profit attributable to owners of the Company for the year ended 31 December 2019 amounted to approximately RMB16.6 million, representing a decrease of approximately 19.6% as compared with the profit of approximately RMB20.7 million for the year ended 31 December 2018.

Computerisation is becoming popular among circular knitting machinery and computerised circular knitting machines generally attract higher average selling price over traditional ones. Over the years, the Group has been focusing on developing and upgrading its products with more advanced technologies. The sale of more advanced computerised double circular knitting machines increased by approximately 11.0% from approximately RMB27.5 million for the year ended 31 December 2018 to approximately RMB30.5 million for the year ended 31 December 2019. The sale of more advanced computerised single circular knitting machines decreased by approximately 20.0% from approximately RMB6.5 million for the year ended 31 December 2018 to approximately RMB5.2 million for the year ended 31 December 2019 due to the magnitude of decrease in overseas sales which was larger than the increase in domestic sales. Meanwhile, the sale of traditional double circular knitting machines dropped by approximately 40.8% from approximately RMB58.8 million for the year ended 31 December 2018 to approximately RMB34.8 million for the year ended 31 December 2019. The sale of traditional single circular knitting machines slightly rose by approximately 1.1% from approximately RMB39.3 million for the year ended 31 December 2018 to approximately RMB39.7 million for the year ended 31 December 2019.

During the year under review, the Group has continued to strengthen its R&D capabilities in order to respond to and anticipate changes in the market and enhance the Group's competitiveness within the circular knitting machinery industry. For the year ended 31 December 2019, the Group has registered seven utility model patents and has applied for seven utility model patents for its circular knitting machines in the PRC.

OUTLOOK

In 2019, the development trends of three major types of domestic knitting machinery varied. According to the economic performance report issued by China Textile Machinery Association, the overall sale performance of circular knitting machines (being the market in which the Group has been involved) was relatively stable with a slight fall from January to September in 2019. The sale performance of flat knitting machinery and warp knitting machinery (being the other two major types of knitting machinery which the Group has not involved in) were under greater downward pressure. In 2019, the operating income of large-scale domestic textile machinery enterprises declined. However, benefitted from active expansion in overseas market by domestic textile enterprises, exports of circular knitting machines increased slightly compared with the same period from January to September in 2018, with Vietnam, Bangladesh and South Korea performing better than other regions. Exports to Vietnam increased significantly compared with the same period of the previous year and were much higher than that of India, Bangladesh and Indonesia.

Following the market trend and leveraging on its business opportunities, the Group continued to expand its overseas market in 2019, including the Vietnam market. At the beginning of 2020, the unexpected outbreak of novel coronavirus (COVID-19) engaged China in the fight against the coronavirus disease, and domestic textile enterprises faced difficult business challenges. However, with the development of overseas market, the expectation of domestic textile machine enterprises for the forthcoming half year or full year is still relatively rational. The Group's production and sales are currently stable, and the Group will strive to improve its manufacturing capacity through technological innovation, so as to mitigate the negative impact of the epidemic.

FINANCIAL REVIEW

Revenue

The Group derives its revenue primarily from manufacturing and sales of circular knitting machines which can be classified into (i) single circular knitting machines; and (ii) double circular knitting machines. For the year ended 31 December 2019, the Group recorded revenue of approximately RMB114.4 million, representing a decrease of approximately 14.6% when compared with the previous year of approximately RMB133.9 million.

The sales of single circular knitting machines remained relatively stable while the sales of double circular knitting machines decreased by approximately 24.3% from approximately RMB86.3 million for the year ended 31 December 2018 to approximately RMB65.3 million for the year ended 31 December 2019. The fluctuation in the sales of double circular knitting machines was mainly attributable to (i) the constant change in the demand of the Group's customers for the year ended 31 December 2019, and (ii) the considerable decline in domestic market demand, notwithstanding the steady rise in overseas market demand for circular knitting machines.

Domestic sales decreased by approximately 36.9% from approximately RMB60.3 million for the year ended 31 December 2018 to approximately RMB38.1 million for the year ended 31 December 2019 due to a decline in domestic demand, especially for double circular knitting machines. Overseas sales increased by approximately 3.7% from approximately RMB73.6 million for the year ended 31 December 2018 to approximately RMB76.3 million for the year ended 31 December 2019. Amongst the overseas customers, India and Bangladesh remained as the major driving forces of overseas sales and sales to South Korea grew by approximately 26.1% from approximately RMB11.6 million to approximately RMB14.6 million for the year ended 31 December 2019 when compared with those for the year ended 31 December 2018. Sales to Vietnam reached approximately RMB14.1 million for the year ended 31 December 2019, whereas no sale was recorded in 2018.

The Group also derives revenue from the sales of parts of circular knitting machines and consumables. The sales from such operating segment increased by approximately 145.0% from approximately RMB1.7 million for the year ended 31 December 2018 to approximately RMB4.2 million for the year ended 31 December 2019. The significant increase was primarily due to the increased orders for replacement of parts and consumables such as stands, cylinders, Triangles, needles and parts for the Hearts which were mainly from the domestic customers of the Group. Domestic and overseas sales of parts of circular knitting machines and consumables grew from approximately RMB1.5 million and approximately RMB0.1 million for the year ended 31 December 2018 to approximately RMB3.4 million and approximately RMB0.8 million, representing a significant growth of 120.0% and 405.2%, respectively.

Cost of Goods Sold

The Group's cost of goods sold for the year ended 31 December 2019 was approximately RMB78.1 million, representing a decrease of approximately 12.7% from approximately RMB89.5 million in respect of the year ended 31 December 2018. Such decrease was primarily due to the decrease in revenue of the Group for the year ended 31 December 2019.

MANAGEMENT DISCUSSION AND ANALYSIS

Gross Profit and Gross Profit Margin

The Group's gross profit for the year ended 31 December 2019 was approximately RMB36.3 million, representing a decrease by approximately 18.3% when compared with its gross profit of approximately RMB44.5 million for the year ended 31 December 2018. This was primarily due to (i) the increase in cost of raw materials and production cost of circular knitting machines and (ii) the reduction in average unit price of certain popular models of circular knitting machines with an aim to boost sales volume.

The Group's gross profit margin decreased from approximately 33.2% for the year ended 31 December 2018 to approximately 31.8% for the year ended 31 December 2019. The increase in cost of raw materials and production cost of circular knitting machines and the reduction in average unit price of certain popular models of circular knitting machines primarily contributed to the decrease in gross profit margin for both single circular knitting machines and double circular knitting machines. In particular, the sales of double circular knitting machines which generate higher gross profit margin in general dropped by approximately 24.3% for the year ended 31 December 2019, compared to the same period in the previous year.

Other Income

The Group's other income consists of R&D subsidies and reward, rental income, interest income, scrap sales and foreign exchange gains. The Group's other income decreased by approximately 47.9% from approximately RMB3.3 million for the year ended 31 December 2018 to approximately RMB1.7 million for the year ended 31 December 2019. This was primarily due to the decrease in PRC subsidies and reward and scrap sales. The one-off incentive fees for the Listing of RMB2.0 million was received by the Group from the government of the Longhai City of the PRC for the year ended 31 December 2018, whereas no such incentive fee was recorded for the year ended 31 December 2019.

Selling Expenses

The Group's selling expenses mainly consist of travelling, entertainment and transportation expenses and sales staff salary. For the year ended 31 December 2019, the Group's selling expenses were approximately RMB2.2 million, representing a decrease of approximately 17.8% over the selling expenses of approximately RMB2.7 million for the year ended 31 December 2018. The decrease was primarily due to (i) the decrease in transportation expenses as a result of an increase of OEM customers which bore transportation costs for the year ended 31 December 2019; and (ii) the decrease in promotion expenses.

Administrative Expenses

The Group's administrative expenses mainly include (i) R&D expenses; (ii) employee salary and benefits expenses; (iii) listing expenses; and (iv) professional fees. The Group's administrative expenses for the year ended 31 December 2019 were approximately RMB13.6 million, representing a decrease of approximately 22.4% over the administrative expenses of approximately RMB17.5 million for the year ended 31 December 2018. The decrease was primarily attributable to the decrease in non-recurring listing expenses and training expenses.

Finance Costs

The Group's finance costs recorded an increase of approximately 12.7% from approximately RMB2.3 million for the year ended 31 December 2018 to RMB2.6 million for the year ended 31 December 2019. This was primarily due to the increase in bank borrowings of approximately RMB3.0 million which resulted in the rise of interest on bank borrowings.

Income Tax Expense

The Group's income tax expense for the year ended 31 December 2019 was approximately RMB3.0 million, representing a decrease of approximately 33.7% from approximately RMB4.6 million for the year ended 31 December 2018. Such decrease was primarily due to the decrease in revenue which resulted in the decrease in profits for the year ended 31 December 2019. The effective income tax rate of the Group, which equal to the income tax expense divided by profit before tax, were approximately 18.2% and 15.5% for the year ended 31 December 2018 and 31 December 2019 respectively. The decrease in the effective income tax rate for the year ended 31 December 2019 was primarily attributable to the decrease in assessable profits of Zhangzhou Kaixing and Zhangzhou Fukai and no assessable profits from Fujian Fufang.

Profit for the year attributable to owners of the Company

Profit attributable to owners of the Company for the year ended 31 December 2019 amounted to approximately RMB16.6 million, representing a decrease of approximately 19.6% as compared with the profit of approximately RMB20.7 million for the year ended 31 December 2018. The decrease was primarily attributable to the decrease in revenue and PRC subsidies and reward despite the substantial decrease in administrative expenses.

LIQUIDITY AND FINANCIAL RESOURCES

The Group's operations are financed mainly by a combination of cash generated from operations and bank borrowings. The Group recorded net current assets of approximately RMB117.4 million as at 31 December 2019 (2018: RMB98.7 million). Such increase was primarily attributable to the increase in bank and cash balances and the decrease in trade payables.

As at 31 December 2019, the Group's current assets amounted to approximately RMB185.9 million (31 December 2018: RMB176.8 million) of which approximately RMB11.6 million (31 December 2018: RMB14.1 million) was inventories; approximately RMB25.4 million was trade receivables (31 December 2018: RMB28.5 million); approximately RMB0.5 million was deposits, prepayments and other receivables (31 December 2018: RMB1.3 million); and approximately RMB148.3 million was bank and cash balances (31 December 2018: RMB133.0 million).

As at 31 December 2019, the Group's total borrowings amounted to approximately RMB48.9 million (2018: RMB45.9 million). The Group's borrowings only consist of bank loans of approximately RMB48.9 million (2018: RMB45.9 million) and are denominated in Renminbi. The bank loans are charged at fixed interest rates and repayable on demand or within one year.

The Group's gearing ratio as at 31 December 2018 and 2019, which was calculated by dividing the total debt by the total equity as at those dates, was approximately 37.1% and 34.9% respectively. The total debt includes all bank loans while the total equity includes the share capital and reserves of the Group. The decrease in the Group's gearing ratio as at 31 December 2019 was primarily attributable to increase in the Group's reserves from approximately RMB115.3 million as at 31 December 2018 to approximately RMB131.9 million as at 31 December 2019 due to the increase in retained profits.

CAPITAL STRUCTURE

The Shares were listed on GEM of the Stock Exchange on 4 January 2018. There has been no change in the capital structure of the Company since then. As at 31 December 2019, the capital structure of the Company comprised mainly of bank borrowings, issued share capital and reserves.

CHARGE ON GROUP ASSETS

As at 31 December 2019, the Group has pledged (i) property, plant and equipment with carrying amount of approximately RMB17.9 million (2018: RMB17.7 million); (ii) right-of-use assets (which are reclassified from prepaid land lease payments) with carrying amount of approximately RMB2.6 million (2018: RMB2.7 million which was recognised as prepaid land lease payments for the year ended 31 December 2018) as security for the Group's bank borrowings.

MATERIAL ACQUISITIONS AND DISPOSALS

The Group did not make any significant investments or material acquisitions and disposals of subsidiaries during the year ended 31 December 2019.

SIGNIFICANT INVESTMENTS HELD AND PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Company did not hold any significant investments as at 31 December 2019. Save as those plans disclosed in the Prospectus, the Company did not have other plans for material investments or capital assets during the year ended 31 December 2019.

CONTINGENT LIABILITIES

As at 31 December 2019, the Group did not have any significant contingent liabilities.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES

The Group's revenue and costs are primarily denominated in Renminbi. Some revenue and costs are denominated in other currencies. The Group currently does not have a foreign currency hedging policy. However, the Directors continuously monitor the related foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

HUMAN RESOURCES AND REMUNERATION POLICIES

As at 31 December 2019, the Group had a workforce of 91 (2018: 91) full-time employees. The remuneration of the Group's employees are determined depending on a number of factors, including their qualifications, function, experience, work performance and local market conditions. The Group regularly reviews its compensation and benefit policies to ensure that the remuneration package offered remains competitive and in line with relevant labour regulations. For the year ended 31 December 2019, the total employee benefit expenses of the Group (including salaries, bonuses, allowances and retirement benefit scheme contributions) was approximately RMB8.8 million (2018: RMB8.4 million).

Pursuant to relevant PRC laws and regulations, the Group is required to contribute to housing provident funds and social insurance funds (including pension, medical, unemployment, maternity and workplace injury insurance) for its employees. The Company has adopted a share option scheme on 11 December 2017 to enable the Company to grant options to, amongst others, the employees and directors of the Group.

The Group will apply the proceeds from the Listing in the manner consistent with the proposed applications of the proceeds set out in the section headed "Future Plans and Use of Proceeds" in the Prospectus. The implementation plans for business objectives and use of proceeds as stated in the Prospectus were based on the best estimation and assumption of future market conditions made by the Group at the time of preparing the Prospectus. The Group implemented its business objectives and applied the proceeds of the Listing based on the actual development of the Group's business and industry, as well as market conditions.

Note:

- The amount of the planned use of proceeds is calculated based on the mid-point of the indicative offer price range of the Shares as stated in the Prospectus.

PRINCIPAL RISKS AND UNCERTAINTIES

Below are principal risks and uncertainties that may have a material and adverse effect on the Group's business, financial conditions and results of operations and the Group's risk management measures:

1. The Group may not be able to maintain its historical growth rates or profit margins, and its results of operations may fluctuate significantly.

Building on its existing client base, the Group will continue to develop its overseas markets and seek new customers. In addition, the Group leverages on the expertise and experience of its senior management to deliver efficient operation and management, so as to reduce the risk of instability.

2. The Group's R&D may not be able to catch up with technological advancements.

The Group is in the process of establishing a new R&D center to improve its R&D capability. The Group will collaborate with higher education institutions to conduct R&D and offer staff training in order to maintain its R&D capability.

3. The Group's business depends on its ability to retain key personnel.

The Group maintains good relationship with its senior management and provides its staff with sufficient professional trainings. Staff remuneration and benefits are in line with the prevailing market rates and subject to regular review by the Group.

4. Labour shortages and increase in labour costs may have an adverse effect on the Group's business operations.

The Group will step up its publicity efforts to attract talents and recruit new employees through various channels. The Group is committed to cultivating junior employees with great potential to become more productive senior staff.

5. The Group may be unable to collect its trade receivables in a timely manner and have to record impairment losses.

The Group will adhere to contract terms strictly and recover its trade receivables within the periods as prescribed in the relevant contracts.

In addition, the Group's activities are exposed to a variety of financial risks including foreign currency risk, credit risk, liquidity risk and interest rate risk. Details of the financial risks of the Group for the year ended 31 December 2019 are set out in note 6 to the consolidated financial statements.

SHARE OPTION SCHEME

The Company operates the Share Option Scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Share Option Scheme include directors (including executive directors, non-executive directors and independent non-executive directors) and employees of any members of the Group, and any advisers, consultants, distributors, contractors, suppliers, agents, customers, business partners, joint venture partners, promoters and service providers of any members of the Group. The Share Option Scheme became effective on 11 December 2017 and, unless otherwise cancelled or amended, will remain in force for ten years from that date.

The total number of securities available for issue under the Share Option Scheme is 100,000,000 ordinary Shares, being 10% of the issued Shares as at the date of this report. The maximum number of share options currently permitted to be granted under the Share Option Scheme is an amount equivalent, upon their exercise, to 10% of the ordinary Shares in issue at any time. The maximum number of Shares issuable under share options granted to each eligible participant in the Share Option Scheme within any 12-month period is limited to 1% of the Shares in issue at any time. Any further grant of share options in excess of this limit is subject to Shareholders' approval at a general meeting.

Share options granted to a Director, chief executive or substantial Shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive Directors. In addition, any share options granted to a substantial Shareholder or an independent non-executive Director, or to any of their associates, in excess of 0.1% of the Shares in issue at any time or with an aggregate value (based on the Stock Exchange closing price of the Company's Shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to Shareholders' approval in advance at a general meeting.

The offer of a grant of share options may be accepted within five Business Days from the date of grant together with payment of a nominal consideration of HK\$1 in total by the grantee. The exercisable period of the share options granted is determinable and notified by the Directors, but shall not later than ten years from the date on which the share option is deemed to be granted and accepted in accordance with the Share Option Scheme.

The exercise price of share options is determinable by the Directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Shares on the date of offer of the share options; (ii) the average Stock Exchange closing price of the Shares for the five Business Days immediately preceding the date of offer; and (iii) the nominal value of the Shares.

Share options do not confer rights on the holders to dividends or to vote at general meetings.

The terms of the Share Option Scheme are in accordance with the provisions of Chapter 23 of the GEM Listing Rules. Details of the Share Option Scheme are set out in the paragraph headed "Share Option Scheme" in Appendix V to the Prospectus.

No share option has been granted since the adoption of the Share Option Scheme.

DIRECTORS' RIGHTS TO ACQUIRE SHARES AND DEBENTURES

The remuneration to key management personnel of the Group including Directors, as described in note 31 to the consolidated financial statements, are connected transactions exempt from the connected transaction requirements under Rule 20.71 and Rule 20.93 of the GEM Listing Rules.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained the prescribed public float under the GEM Listing Rules as at the date of this report.

COMPETING INTERESTS

During the year ended 31 December 2019, none of the Directors or the Controlling Shareholders or substantial Shareholders or their respective close associates (as defined in the GEM Listing Rules) is interested in any business which competes or may compete, either directly or indirectly, with the business of the Group nor any conflicts of interest which has or may have with the Group.

DEED OF NON-COMPETITION

Each of the Controlling Shareholders, namely Azure Wealth Limited, Ms. Zheng Yonghua and Ms. Yuan Yuan, entered into the Deed of Non-Competition, under which each of the Controlling Shareholders, among other things, irrevocably and unconditionally, jointly and severally, warrants and undertakes to the Company (for itself and as trustee for each of its subsidiaries) on competition related matters. Details of the Deed of Non-Competition are set out in the section headed "Relationship with Controlling Shareholders – Non-competition Undertaking" in the Prospectus. Each of the Controlling Shareholders has confirmed that none of them is engaged in, or interested in any business (other than the Group) which, directly or indirectly, competes or may compete with the business of the Group.

The independent non-executive Directors have also reviewed the status of compliance and written confirmation from each of the Controlling Shareholders, and confirmed that all the undertakings under the Deed of Non-Competition have been complied with by each of the Controlling Shareholders since the Listing Date and up to the date of this report.

TAX RELIEF AND EXEMPTION OF HOLDERS OF LISTED SECURITIES

The Company is not aware of any tax relief or exemption available to the Shareholders by reason of their holding of the Company's securities.

INTERESTS OF COMPLIANCE ADVISER

As notified by ECF, the Company's compliance adviser, save for (i) the participation of ECF as the sole sponsor in relation to the Listing; and (ii) the compliance adviser's agreement dated 19 December 2017 entered into between the Company and ECF, none of ECF or its directors, employees or close associates (as defined in the GEM Listing Rules) had any interest in the Group as at 31 December 2019, which is required to be notified to the Company pursuant to Rule 6A.32 of the GEM Listing Rules.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to operating our business with environmental consciousness to minimise environmental pollution and optimise resource efficiency. We establish the environmental management system to systematically control the environmental issues with practical mitigation measures in noise, air, wastewater and waste generation. Effective implementation such as in-house air pollution control devices, wastewater treatment facilities, noise abatement measures, recycling of useful materials and green office practices reduces our potential impact on the environment and ensures compliance of national laws and regulations, provisional governmental policies and industry practices. During the year, we did not identify any non-compliance with the applicable environmental laws and regulations that have significant impact on the Group.

KEY RELATIONSHIPS WITH ITS EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group strives to maintain a long-term relationship with its key stakeholders including employees, customers and suppliers:

Employees: The Group places high emphasis on our employees as they are the key to the company success. We strive to provide a harmonic workplace by treating all employees equally with no discrimination. To eliminate the occupational risks and hazards, the safety management system is implemented with appropriate safety measures and training. The Group also regularly reviews the remuneration package to retain the talent and provides development opportunities in enhancing their personal growth and working capability. In order to create a motivating and supportive culture, we organize various recreational activities for our employees to maintain the work-life balance.

Customers: With the well-established quality management system, the Group provides satisfying products to our customers. We examine our products thoroughly in the entire production cycle to ensure the conformity of our quality control and assurance requirements. Active identification of the improvement areas drives us to provide products with excellent quality and enhanced safety precaution measures. Customer satisfaction survey is also conducted regularly so that the Group can listen to the valuable opinions from our customers and seek room for improvement.

Suppliers: To ensure the performance of our suppliers is aligned with our high-quality standard and maintain a stable supply chain, we have set up the procurement management system in selecting our suppliers. A holistic assessment approach is adopted to evaluate the product quality, services, delivery time and price, and periodic performance review is carried out to ensure their compliance. Confidentiality of the business information is another essential element in maintaining our relationship, therefore our suppliers are requested to sign on the agreement in preventing the confidential information from unauthorized disclosure.

For more details, please refer to the separate "Environmental, Social and Governance Report" which will be published within three months after the publication of this annual report.

COMPLIANCE WITH LAWS AND REGULATIONS

Compliance procedures are in place to ensure adherence to applicable laws, rules and regulations, in particular those which have significant impact on the Group. The Board reviews and monitors the Group's policies and practices on compliance with legal and regulatory requirements on a regular basis. Any changes in the applicable laws, rules and regulations are brought to the attention of relevant employees and relevant operation units from time to time.

As at 31 December 2019 and up to the date of this annual report, to the best of the Company's knowledge, information and belief, having made all reasonable enquiries, the Group has complied with the requirements under the GEM Listing Rules, SFO and the Companies Law. Details of the Company's compliance with the code provisions under the CG Code are set out in the Corporate Governance Report of this annual report.

CORPORATE GOVERNANCE

Details of the principal corporate governance practices as adopted by the Company are set out in the section headed "Corporate Governance Report" on pages 26 to 36 of this annual report.

EVENTS AFTER THE REPORTING PERIOD

The coronavirus outbreak since early 2020 has brought about additional uncertainties in the Group's operating environment. The Group has assessed the overall impact of the situation on its operation. The epidemic may cause the risk of delivery delay of the Group's products for overseas customers due to prolonged customs clearance.

The Group will closely monitor the impact of the developments on the Group's businesses and its domestic and overseas market. In addition, the Group will maintain close contact with its customers and suppliers to evaluate the impact on their operations.

INDEPENDENT AUDITORS

The Company was incorporated in the Cayman Islands with limited liability on 28 July 2016 and RSM Hong Kong were appointed as the first auditors of the Company. A resolution for the re-appointment of RSM Hong Kong as auditors of the Company will be proposed at the forthcoming annual general meeting.

The Board oversees the overall management and administration of the business and operations of the Group. The Board is primarily responsible for overall development, strategic planning, reviewing and monitoring the business performance, approving the financial statements and annual budgets, overseeing the internal control and risk management systems as well as supervising the management of the Group.

The Board may delegate any of its powers, authorities and discretions to any committees, consisting of such Director(s) and other person(s) as the Board thinks fit, and the Board may, from time to time, revoke such delegation or revoke the appointment of and discharge any such committees either wholly or in part, and either as to persons or purposes. Any committee so formed shall, in the exercise of the powers, authorities and discretions so delegated, conform to any regulations which may be imposed on it by the Board.

Regular meetings of the Board will be held to deliberate the strategic planning of the Company, including significant acquisitions and disposals, review and approve annual budgets, review the performance of business and approve the public release of periodic financial results. Directors are also provided with access to independent professional advice in carrying out their obligations as Directors as and when required, at the expenses of the Company.

Appointment and Re-election of Directors

Each executive Director has entered into a service contract with the Company for a term of three years and each independent non-executive Director has entered into a letter of appointment with the Company for a term of one year. Each Director is subject to retirement by rotation at least once every three years but is eligible for re-election at annual general meetings in accordance with the Articles.

The Articles have specified that any Directors appointed during the year to fill a casual vacancy are subject to re-election by Shareholders at the first general meeting of the Company after such appointments, and any Directors appointed by the Board as an addition to the Board during the year shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

None of the Directors proposed for re-election at the forthcoming annual general meeting has a service contract or letter of appointment with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

Independent Non-executive Directors

During the Relevant Period, the Board at all times met the requirements of the GEM Listing Rules relating to the appointment of at least three independent non-executive Directors, representing at least one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his independence in accordance with the independence guidelines set out in Rule 5.09 of the GEM Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

Corporate Governance Functions

The Board as a whole is responsible for performing the corporate governance functions set out in code provision D.3.1 of the CG Code, namely:

- (i) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board where appropriate;
- (ii) to review and monitor the training and continuous professional development of Directors and senior management;
- (iii) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;
- (iv) to develop, review and monitor the code of conduct and compliance manual (including in relation to securities trading) applicable to employees and Directors; and
- (v) to review the Company's compliance with the CG Code and disclosure in the corporate governance report contained in the Company's annual reports.

Continuous Professional Development of Directors

During the year ended 31 December 2019, the Directors have participated in continuous professional development as well as reading related materials in respect of the roles and responsibilities of directors of a listed company and corporate governance. They also received from the Company from time to time updates on laws, rules and regulations which may be relevant to their roles, duties and functions as directors of a listed company. Particulars of participation by the Directors are set out as follows:

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The Directors recognise the importance of good corporate governance in management and internal procedures so as to achieve effective accountability. During the year under review, the Company has complied with the code provisions as set out in the CG Code, except for the deviation from code provision A.2.1 of the CG Code. Ms. Yuan Yuan is currently performing the roles of chairlady of the Board and chief executive officer of the Company. Under code provision A.2.1 of the CG Code, the roles of chairman and chief executive officer should not be performed by the same individual. Taking into account of Ms. Yuan's working experiences in the manufacturing and trading industry, the Board considered that the roles of chairman and chief executive officer being performed by Ms. Yuan enables more effective and efficient overall business planning, decision making and implementation thereof by the Group. In order to maintain good corporate governance and comply with such code provision, the Board will regularly review the need to appoint different individuals to perform the roles of chairman and chief executive officer separately.

BOARD COMMITTEES

In order to assist the Board in discharging its duties in a more efficient manner, the Board has established, with written terms of reference, three Board committees, namely the Audit Committee, Remuneration Committee and Nomination Committee, to oversee particular aspects of the Company's affairs. The Board committees are provided with sufficient resources to discharge their duties. The written terms of reference for each Board committee are in compliance with the GEM Listing Rules and they are posted on the websites of the Stock Exchange and the Company.

Audit Committee

The Company established the Audit Committee on 11 December 2017 in compliance with Rule 5.28 of the GEM Listing Rules. Written terms of reference in compliance with Rule 5.29 of the GEM Listing Rules and code provision C.3.3 of the CG Code have been adopted. The primary duties of the Audit Committee are to make recommendations to the Board on appointment, re-appointment and removal of the external auditor; and review the financial reporting process, the financial controls, and the internal control and risk management systems of the Company.

The Audit Committee consists of three independent non-executive Directors, being Mr. Shum Shing Kei, Dr. Hu Xudong and Dr. Mu Zhirong. Mr. Shum Shing Kei is the chairman of the Audit Committee.

The Audit Committee held four meetings during the year ended 31 December 2019 and its members' attendance records are disclosed on page 32 in this CG Report.

Summary of work during the year ended 31 December 2019:

- reviewed the quarterly, interim and annual financial results of the Group
- reviewed the financial reporting and internal control matters of the Group
- approved the external auditor's audit engagement letter and fee, and statutory audit plan
- reviewed the external auditor's independence
- recommended to the Board on the re-appointment of the external auditor

The audited annual results and the adopted accounting policies and practices of the Group for the year ended 31 December 2019 have been reviewed by the Audit Committee at a meeting held on 31 March 2020 and the Audit Committee is of the opinion that the preparation of such results complied with applicable accounting standards, the GEM Listing Rules and other applicable legal requirements, and that adequate disclosures have been made in respect thereof.

Nomination Committee

The Company established the Nomination Committee on 11 December 2017. Written terms of reference in compliance with code provision A.5.2 of the CG Code have been adopted. The primary duties of the Nomination Committee are to review the structure, size and composition (including skills, knowledge, length of service and breadth of expertise) of the Board and make recommendations to the Board on any proposed changes to the Board to complement the Company's corporate strategy; identify individuals suitably qualified as potential Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships; assess the independence of independent non-executive Directors; and make recommendations to the Board on appointment or re-appointment of Directors and succession planning of Directors, in particular that of the chairman and the chief executive.

The Nomination Committee consists of three Directors (including two independent non-executive Directors), being Ms. Yuan Yuan, Dr. Mu Zhirong and Mr. Shum Shing Kei. Ms. Yuan Yuan is the chairlady of the Nomination Committee.

The Board recognises the importance of its diversity in supporting the attainment of the Company's strategic objectives and sustainable development, and adopted on 11 December 2017 a Board diversity policy (the "**Diversity Policy**"). As a summary of the Diversity Policy, selection of candidates has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board members' appointments will be based on meritocracy, and will be considered against objective criteria, having due regard for the benefits of diversity on the Board. The ultimate decision of Board members' appointment will be based on merit and contribution that the selected candidates will bring to the Board.

The Nomination Committee held one meeting during the year ended 31 December 2019 and its members' attendance records are disclosed on page 32 in this CG Report.

Summary of work during the year ended 31 December 2019:

- reviewed the independence of the independent non-executive Directors
- considered the qualifications of the retiring Directors standing for election at the annual general meeting of the Company held in 2019
- reviewed the structure, size and composition of the Board and reviewed the Diversity Policy

The Nomination Committee held a meeting on 31 March 2020 to review, among others, the structure, size and composition of the Board and the Diversity Policy. In identifying and selecting suitable candidates for directorships, the Nomination Committee would consider the candidate's character, qualifications, experience, independence and other relevant criteria necessary to complement the Company's corporate strategy and achieve Board diversity, where appropriate, before making recommendations to the Board. Having reviewed the composition of the Board, the Nomination Committee considered that there is an appropriate balance of Board diversity.

Remuneration Committee

The Company established the Remuneration Committee on 11 December 2017 in compliance with Rule 5.34 of the GEM Listing Rules. Written terms of reference in compliance with Rule 5.35 of the GEM Listing Rules and code provision B.1.2 of the CG Code have been adopted. The primary duties of the Remuneration Committee are to make recommendations to the Board on the remuneration policy and the structure relating to all Directors and senior management of the Group; review the remuneration packages of the Directors and senior management of the Group; and ensure none of the Directors determine their own remuneration.

The Remuneration Committee consists of three Directors (including two independent non-executive Directors), being Dr. Mu Zhirong, Mr. Shum Shing Kei and Ms. Yuan Yuan. Dr. Mu Zhirong is the chairman of the Remuneration Committee.

The Remuneration Committee held one meeting during the year ended 31 December 2019 and its members' attendance records are disclosed on page 32 in this CG Report.

Summary of work during the year ended 31 December 2019:

- reviewed the remuneration of the Directors and senior management of the Group

The Remuneration Committee held a meeting on 31 March 2020 to review the remuneration of the Directors and senior management of the Group. No Director and any of his/her associates was involved in deciding his/her own remuneration.

Pursuant to code provision B.1.5 of the CG Code, details of the remuneration of the senior management (other than Directors) by bands for the year ended 31 December 2019 is as follows:

	Number of employees
Not exceeding HK\$500,000	2

Board meetings and attendance record of Directors

Code provision A.1.1 of the CG Code states that at least four regular Board meetings should be held each year at approximately quarterly intervals with active participation of a majority of Directors, either in person or through other electronic means of communication.

The Board held four regular meetings during the year ended 31 December 2019.

During the year ended 31 December 2019, the Board reviewed, among others, the effectiveness of the Group's risk management and internal control systems, the Directors' compliance with the Model Code, and the Company's compliance with the CG Code and disclosure in this corporate governance report.

The attendance record of each Director at the Board meetings, Board committee meetings and general meeting held during the year ended 31 December 2019 is set out in the table below:

COMPANY SECRETARY

Ms. Huen Lai Chun (“**Ms. Huen**”), the company secretary of the Company, was appointed on 31 December 2018 and has undertaken no less than 15 hours of relevant professional training to update her skills and knowledge during the year ended 31 December 2019. Ms. Huen does not act as an individual employee of the Company, but as an external service provider in respect of her appointment as the company secretary of the Company. Pursuant to code provision F.1.1. of the CG Code, an issuer can engage an external service provider as its company secretary, provided that the issuer should disclose the identity of a person with sufficient seniority at the issuer whom the external provider can contact. The Company has assigned Ms. Yuan Yuan, the chairlady of the Board and chief executive officer of the Company, as the contact person with Ms. Huen. Information in relation to the performance, financial position and other major developments and affairs of the Group are speedily delivered to Ms. Huen through the assigned contact person.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules.

Specific enquiry has been made with all Directors and all Directors have confirmed that they have complied with the Model Code throughout the Relevant Period. During the Relevant Period, the Company is not aware of any incident of non-compliance of the Model Code by the Directors.

DIRECTORS’ AND AUDITORS’ RESPONSIBILITY FOR ACCOUNTS

The Directors acknowledge their responsibilities for the preparation of consolidated financial statements of the Group for the year ended 31 December 2019 under applicable statutory and regulatory requirements, which give a true and fair view of the state of affairs, profit or loss and cash flows of the Group on a going concern basis.

Statements of Directors’ responsibilities for preparing the consolidated financial statements of the Group and external auditors’ responsibilities for the audit of the consolidated financial statements of the Group for the year ended 31 December 2019 are set out in the “Independent Auditor’s Report” contained in this annual report.

Services rendered	Fees paid/ payable (RMB)
Audit services	
– Statutory audit services	682,500
Non-audit services	
– Review of interim results	370,000
	1,052,500

RISK MANAGEMENT AND INTERNAL CONTROL

The Group's internal control system has a key role in the identification and management of risks that are significant to the achievement of its business objectives. The Group has adopted risk management policies and procedures that the Directors believe are appropriate for the Group's business operations in order to identify different types of risks; assess such identified risks; formulate risk management strategies; monitor and manage identified risks; and execute responses to identified risks.

The identification and assessment of the risks involve a five-stage procedure which includes establishing the concept of risk management in the Group, assessing the Group's risk profile on various types of risks, determining the Group's goals on risk management, identifying and analysing the risks, and designing the counter-measure on risks.

The Group's effective internal control measures include the establishment of:

- (1) a delegation system – setting out the job responsibilities, scopes, requirements and limits of delegated parties;
- (2) a reporting system – setting out the reporting mechanism;
- (3) an authorisation system – setting out the approval process, conditions, limits, necessary documents, and the authorised departments and personnel with their responsibilities;
- (4) an accountability system – setting out the authorities, obligations and responsibilities of each relevant departments, units and personnel with a clear reward and punishment system;
- (5) an internal audit system, integrating all internal control requirements, methods, standards and flow – setting out the audit targets, content, methodologies, and the relevant departments responsible for the audit works;

- (6) an evaluation and appraisal system, linking the wages and performance evaluation of different subsidiaries of the Group with their risk management performance;
- (7) a warning system of material risks and contingency response mechanism – setting out clearly the responsible personnel and processes to ensure all contingencies can be handled promptly;
- (8) a mechanism to seek external legal advice to prevent legal risks – leading by the management with the support from the Group’s legal counsel and involvement of all employees; and
- (9) a control mechanism on the checks and balances of various positions – setting out segregation of duties and authorities, including approval authority, business development, accounting, treasury, asset management and auditing functions.

The Board is responsible for the Group’s risk management and internal control systems, and overseeing and reviewing the effectiveness of the Group’s risk management and internal control systems. The Board, with the assistance of the Audit Committee, will review the effectiveness and adequacy of the risk management and internal control systems of the Group at least annually.

The Group has established an internal audit department to assist the Board in overseeing internal audit function of the Group. The internal audit department carries out ongoing monitoring of the risk management and internal control systems of the Group, and identifies material deficiencies in the design and implementation of risk management and internal controls for improvement.

The Audit Committee has reviewed the internal control review report issued by the internal audit department and the Group’s risk management and internal control systems in respect of the year ended 31 December 2019 and considered that they are effective and adequate. The Board has assessed the effectiveness of the Group’s internal control systems for the year ended 31 December 2019 by considering the internal control review report and reviews performed by the Audit Committee and concurred the same view of the Audit Committee.

Handling and Dissemination of Inside Information

With respect to the handling and dissemination of inside information, the Company is aware of the relevant obligations under the SFO and the GEM Listing Rules. The Group adopts and implements an information disclosure policy and procedures in order to protect inside information from unauthorised and inaccurate disclosure.

The Board strictly prohibits unauthorised use of confidential or inside information. Any inside information and any information which may potentially constitute inside information is promptly identified, assessed and escalated to the chairlady of the Board and the chief financial officer of the Company to decide the need for disclosure. The Audit Committee regularly reviews and assesses the effectiveness of the information disclosure policy and procedures and makes recommendations to the Board where appropriate.

SHAREHOLDERS' RIGHTS

The general meetings of the Company provide a forum for the Shareholders to exchange views directly with the Board. Subject to the provisions of the applicable laws in the Cayman Islands and the rules and regulations of the Stock Exchange, an annual general meeting of the Company is held each year at the venue as determined by the Board. Each general meeting, other than an annual general meeting, is called an extraordinary general meeting (the “EGM”).

Right and Procedures to Convene EGMs

Pursuant to Article 64 of the Articles, the Board may, whenever it thinks fit, convene an EGM. Any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company having the right of voting at general meetings of the Company shall have the right, by written requisition to the Board or the company secretary of the Company, to request an EGM to be called by the Board for the transaction of any business specified in such requisition. Such meeting shall be held within two months after the deposit of such requisition. The requisition must be deposited at the registered office or the head office of the Company.

If the Board fails to proceed to convene such EGM within 21 days of such deposit, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to requisitionist(s) by the Company.

Putting Forward Enquiries to the Board

For putting forward any enquiries to the Board, Shareholders may send written enquiries to the Company for the attention of the Board or the company secretary of the Company. The Company will not normally deal with verbal or anonymous enquiries.

Contact Details

Shareholders may send their enquiries or requests as mentioned above to the following addresses:

Head Office Address: Xiawei Village, Fugong Town, Longhai City, Fujian Province, PRC
Hong Kong Address: Room 1204, 12/F, C C Wu Building, 302-308 Hennessy Road, Wan Chai, Hong Kong
Telephone: +86 (0) 596-6841968
Fax: +86 (0) 596-6841969

For the avoidance of doubt, Shareholder(s) must deposit and send the original duly signed written requisition, notice or statement, or enquiry to the registered office of the Company or above addresses (as the case may be) and provide their full name, contact details and identification in order to give effect thereto. Shareholders' information may be disclosed as required by law.

COMMUNICATION WITH SHAREHOLDERS AND INVESTORS

The Company considers that effective communication with Shareholders is essential for enhancing investor relations and investors' understanding of the Group's business performance and strategies. The Company endeavours to maintain an on-going dialogue with Shareholders, in particular, through annual general meetings and other general meetings. At the annual general meetings of the Company, Directors (or their delegates as appropriate) are available to meet Shareholders and answer their enquiries.

The Company maintains a website at www.kx-machine.com as a communication platform with the Shareholders and investors, where the financial information and other relevant information of the Company are available for public access.

Right to Put Forward Proposals at General Meetings

There are no provisions allowing Shareholders to propose new resolutions at the general meetings of the Company under the Companies Law. Subject to the provisions of the Articles, eligible Shareholders who wish to move a resolution may by means of requisition convene an EGM following the procedures set out above.

INVESTOR RELATIONS

The Company establishes different communication channels with investors to update them with the latest business development and financial performance, including the publication of quarterly, interim and annual reports, and the publish and posting of notices, announcements and circulars on the websites of the Stock Exchange and the Company, in order to maintain a high level of transparency.

CONSTITUTIONAL DOCUMENTS

Pursuant to Rule 17.102 of the GEM Listing Rules, the Company has published its memorandum of association and the Articles on the websites of the Stock Exchange and the Company. Since the Listing, no amendments have been made to the constitutional documents of the Company.

TO THE SHAREHOLDERS OF CHINA FUTEX HOLDINGS LIMITED

(Incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of China Futex Holdings Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 41 to 84 which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The key audit matter we identified is:

Key Audit Matter	How our audit addressed the Key Audit Matter
<p>Revenue Recognition</p> <p>The Group's revenue of approximately RMB114.4 million for the year was derived from the sales of circular knitting machines, their parts and consumables. The revenue was recognised when control over a product is transferred to the customers, at the amount of promised consideration, to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. There is a risk of improper revenue recognition, particularly with regard to cut-off at the year end date.</p>	<p>Our audit procedures included, amongst others, assessing the design and operating effectiveness of the controls over revenue recognition. We performed tests of control and tests of details on a sampling basis, including checking approval of sale transactions, sales contracts, and delivery and shipping documents. We also assessed the sales of goods taking place before and after year-end to determine whether the revenue was recognised in proper period.</p>

OTHER INFORMATION

The directors are responsible for the Other Information. The Other Information comprises all of the information in the Company's 2019 annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the Other Information, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee assists the directors in discharging their responsibility for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Tam Shing Yu.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2019

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands with limited liability. The address of its registered office is P.O. Box 1350, Clifton House, 75 Fort Street, Grand Cayman KY1-1108, Cayman Islands. The address of its principal place of business is Xiawei Village, Fugong Town, Longhai City, Fujian Province, the People's Republic of China (the "PRC"). The Company's shares are listed on GEM of the Stock Exchange.

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 19 to the consolidated financial statements.

2. BASIS OF PREPARATION

These consolidated financial statements have been prepared in accordance with all applicable International Financial Reporting Standards ("IFRSs") issued by the International Accounting Standards Board (the "IASB"). IFRSs comprise International Financial Reporting Standards ("IFRS"); International Accounting Standards ("IAS"); and Interpretations. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on GEM of the Stock Exchange and with the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622). Significant accounting policies adopted by the Group are disclosed below.

The IASB has issued certain new and revised IFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

(a) Application of new and revised IFRSs

The IASB has issued a new IFRS, IFRS 16 Leases, and a number of amendments to IFRSs that are first effective for the current accounting period of the Group.

Except for IFRS 16, none of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

For the Year Ended 31 December 2019

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

(a) Application of new and revised IFRSs (Continued)

IFRS 16 Leases

IFRS 16 supersedes IAS 17 Leases, and the related interpretations, IFRIC 4 Determining whether an Arrangement Contains a Lease, SIC 15 Operating Leases-Incentives and SIC 27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 introduced a single accounting model for lessees, which requires a lessee to recognise a right-of-use asset and a lease liability for all leases, except for leases that have a lease term of 12 months or less and leases of low-value assets.

Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have an impact for leases where the Group is the lessor. The lessor accounting requirements are brought forward from IAS 17 substantially unchanged.

IFRS 16 also introduces additional qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

The Group has initially applied IFRS 16 as from 1 January 2019. The Group has elected to use the modified retrospective approach and has therefore recognised the cumulative effect of initial application as an adjustment to the opening balance of equity at 1 January 2019. Comparative information has not been restated and continues to be reported under IAS 17.

Further details of the nature and effect of the changes to previous accounting policies and the transition options applied are set out below:

(a) *New definition of a lease*

The change in the definition of a lease mainly relates to the concept of control. IFRS 16 defines a lease on the basis of whether a customer controls the use of an identified asset for a period of time, which may be determined by a defined amount of use. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

The Group applies the new definition of a lease in IFRS 16 only to contracts that were entered into or changed on or after 1 January 2019. For contracts entered into before 1 January 2019, the Group has used the transitional practical expedient to grandfather the previous assessment of which existing arrangements are or contain leases. Accordingly, contracts that were previously assessed as leases under IAS 17 continue to be accounted for as leases under IFRS 16 and contracts previously assessed as non-lease service arrangements continue to be accounted for as executory contracts.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

(a) Application of new and revised IFRSs (Continued)

IFRS 16 Leases (Continued)

(b) Lessee accounting and transitional impact

IFRS 16 eliminates the requirement for a lessee to classify leases as either operating leases or finance leases, as was previously required by IAS 17. Instead, the Group is required to capitalise all leases when it is the lessee, including leases previously classified as operating leases under IAS 17, other than those short-term leases and leases of low-value assets which are exempt.

The following table summaries the impacts of the adoption of IFRS 16 on the Group's consolidated statement of financial position:

Line items in the consolidated statement of financial position impacted by the adoption of IFRS 16	Note	Effects of adoption of IFRS 16		
		Carrying amount as at 31 December 2018 RMB'000	Re-classification RMB'000	Carrying amount as at 1 January 2019 RMB'000
Assets				
Right-of-use assets		–	2,667	2,667
Prepaid land lease payments	(i)	2,667	(2,667)	–

Note:

(i) Upfront payments for leasehold lands in the PRC own used properties were classified as prepaid land lease payments as at 31 December 2018. Upon application of IFRS 16, the prepaid land lease payments amounting to RMB2,667,000 were classified to right-of-use assets.

(c) Impact of the financial results and cash flows of the Group

After the initial recognition of right-of-use assets as at 1 January 2019, the Group as a lessee is required to recognise the depreciation of the right-of-use assets on a straight-line basis over the lease term in the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2019. There was no impact on the reported profit from operations in the Group's consolidated statement of profit or loss, as compared to the results of IAS 17 has been applied during the year.

In the statement of cash flows, the cash flows are unaffected and the adjustment of amortisation of prepaid land lease payments was now presented in depreciation of right-of-use assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

3. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

(b) New and revised IFRSs in issue but not yet effective

The Group has not early applied new and revised IFRSs that have been issued but are not yet effective for the financial year beginning 1 January 2019. These new and revised IFRSs include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to IFRS 3 Definition of a Business	1 January 2020
Amendments to IAS 1 and IAS 8 Definition of Material	1 January 2020
Amendments to IFRS 9, IAS 39 and IFRS 7 Interest Rate Benchmark Reform	1 January 2020

The Group is in the process of making an assessment of what the impact of these amendments and new standards is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 5.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties. A potential voting right is considered only if the holder has the practical ability to exercise that right.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) Consolidation (continued)

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill and any accumulated foreign currency translation reserve relating to that subsidiary.

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, unless the investments are classified as held for sale (or included in a disposal group that is classified as held for sale).

(b) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Renminbi ("RMB"), which is the Company's presentation and functional currency.

(ii) Transactions and balances in each entity's financial statements

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

When a gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is recognised in other comprehensive income. When a gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Foreign currency translation (continued)

(iii) Translation on consolidation

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities are recognised in other comprehensive income and accumulated in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are reclassified to consolidated profit or loss as part of the gain or loss on disposal.

(c) Property, plant and equipment

Property, plant and equipment, including buildings, held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(c) Property, plant and equipment (continued)

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The principal useful lives are as follows:

Buildings	20 years
Plant and machinery	10 years
Motor vehicles	5 years
Office equipment and others	5 years

The residual values, useful lives and depreciation methods are reviewed and adjusted, if appropriate, at the end of each reporting period.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(d) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

(i) The Group as a lessee

Policy applicable from 1 January 2019

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

Policy prior from 1 January 2019

Leases that do not substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (net of an incentives received from the lessor) are recognised as an expense on a straight-line basis over the lease term.

Prepaid land lease payments are stated at cost and subsequently amortised on the straight-line basis over the remaining term of the lease.

(ii) The Group as a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to the ownership of an underlying assets to the lessee. If this is not the case, the lease is classified as an operating lease.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(g) Contract assets and contract liabilities

Contract asset is recognised when the Group recognises revenue before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses (“ECLs”) in accordance with the policy set out in note 4(v) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when the Group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVPTL are recognised immediately in profit or loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(i) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Debt investments held by the Group are classified into amortised cost if the investment is held for the collection of contractual cash flows which represent solely payments of principal and interest. Interest income from the investment is calculated using the effective interest method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(j) Trade and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset.

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses.

(k) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. Cash and cash equivalents are assessed for ECLs.

(l) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under IFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

(m) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(n) Trade and other payables

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(o) Equity instruments

An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(p) Revenue and other income

Revenue is recognised when control over a product is transferred to the customer, at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Revenue from the sale of circular knitting machines is recognised when control of the goods has transferred, being when the goods have been shipped to the customer's specific location (delivery). Following delivery, the customer has the primary responsibility when on using the machine and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or fair value through other comprehensive income (recycling) that are not credit-impaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset.

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivables. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are earned.

(q) Employee benefits

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(q) Employee benefits (Continued)

(ii) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

(iii) Termination benefits

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

(r) Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

(s) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

(t) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(t) Taxation (Continued)

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(u) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the cash-generating unit to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the cash-generating unit.

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(u) Impairment of non-financial assets (Continued)

Value in use is the present value of the estimated future cash flows of the asset/cash-generating unit. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset/cash-generating unit whose impairment is being measured.

Impairment losses for cash-generating units are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the cash-generating unit. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment.

(v) Impairment of financial assets and contract assets

The Group recognises a loss allowance for ECLs on trade receivables and contract assets. The amount of ECLs is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECLs for trade receivables and contract assets. The ECLs on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECLs when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Lifetime ECLs represents the ECLs that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represents the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Impairment of financial assets and contract assets (Continued)

Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) The financial instrument has a low risk of default,
- (ii) The debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and
- (iii) Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Impairment of financial assets and contract assets (Continued)

Significant increase in credit risk (Continued)

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(v) Impairment of financial assets and contract assets (Continued)

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over two years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECLs

The measurement of ECLs is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECLs are estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECLs in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECLs are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECLs at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at fair value through other comprehensive income ("FVTOCI"), for which the loss allowance is recognised in other comprehensive income and accumulated in the investment revaluation reserve, and does not reduce the carrying amount of the financial asset in the statement of financial position.

(w) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(w) Provisions and contingent liabilities (Continued)

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(x) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period are adjusting events and are reflected in the consolidated financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) Property, plant and equipment and depreciation

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned.

The carrying amount of property, plant and equipment as at 31 December 2019 was RMB20,269,000 (2018: RMB22,334,000).

(b) Impairment of trade receivables

The management of the Group estimates the amount of impairment loss for ECLs on trade receivables based on the credit risk of trade receivables. The amount of the impairment loss based on ECLs model is measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

As at 31 December 2019, the carrying amount of trade receivables was RMB25,446,000 and no allowance was made (2018: RMB28,453,000 and no allowance was made).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2019

5. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(c) Allowance for slow-moving inventories

Allowance for slow-moving inventories is made based on the ageing and estimated net realisable value of inventories. The assessment of the allowance amount involves judgement and estimates. Where the actual outcome in future is different from the original estimate, such difference will impact the carrying value of inventories and allowance charge/write-back in the period in which such estimate has been changed.

No allowance for slow-moving inventories was made for the years ended 31 December 2019 and 2018.

6. KEY SOURCES OF ESTIMATION UNCERTAINTY

The Group's activities expose it to a variety of financial risks: foreign currency risk, credit risk, liquidity risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

Most of the Group's business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities, but the Group has certain exposure to foreign currency risk as it has direct sales to overseas markets, which are denominated in United States dollars ("US\$"). The Group has foreign currency exposure in respect of such direct overseas sales. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

At 31 December 2019, if the RMB had weakened 5 per cent against the US\$ with all other variables held constant, consolidated profit after tax for the year would have been RMB94,000 (2018: RMB163,000) higher, arising mainly as a result of the foreign exchange gain on trade receivables and bank balances denominated in US\$. If the RMB had strengthened 5 per cent against US\$ with all other variables held constant, consolidated profit after tax for the year would have been RMB94,000 (2018: RMB163,000) lower, arising mainly as a result of the foreign exchange loss on trade receivables and bank deposits denominated in US\$.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group's exposure to credit risk arising from cash and cash equivalents because the counterparties are banks and financial institutions with high credit-rating assigned by international credit-rating agencies, for which the Group considers to have low credit risk.

6. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(b) Credit risk (Continued)

Trade receivables

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 to 365 days from the date of billing. Normally, the Group does not obtain collateral from customers.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which are calculated using a provision matrix. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not further distinguished between the Group's different customer bases. The Group's exposure to credit risk and ECLs for trade receivables as at 31 December 2019 are estimated as immaterial as the trade receivable were neither past due nor has recent history of default.

Expected loss rates are based on actual loss experience over the past 2 years. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

(c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity analysis based on contractual undiscounted cash flows of the Group's non-derivative financial liabilities is as follows:

	Less than 1 year RMB'000	Between 1 and 2 years RMB'000	Between 2 and 5 years RMB'000	Over 5 years RMB'000	Total RMB'000

6. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

(d) Interest rate risk

The Group's bank loans bear interests at fixed interest rates and therefore are subject to fair value interest rate risks.

The Group's exposure to interest-rate risk arises from its bank deposits. These deposits bear interests at variable rates varied with the then prevailing market condition.

At 31 December 2019, if interest rates had been 75 basis points lower/higher with all other variables held constant, consolidated profit after tax for the year would have been RMB835,000 (2018: RMB748,000) lower/higher, arising mainly as a result of lower/higher interest income on bank deposits.

(e) Categories of financial instruments at 31 December

9. SEGMENT INFORMATION

The Group has three operating segments as follows:

- Single circular knitting machine – manufacture and sales of single circular knitting machines
- Double circular knitting machine – manufacture and sales of double circular knitting machines
- Others – manufacture and sales of parts of circular knitting machines and sales of consumables

The accounting policies of the operating segments are the same as those described in note 4 to the consolidated financial statements. Segment profits or losses do not include corporate income and expenses. Segment assets do not include property, plant and equipment, rights-of-use assets/prepaid land lease payments, deposits, prepayments and other receivables and bank and cash balances.

Income tax has been recognised in profit or loss as follows:

	2019 RMB'000	2018 RMB'000
Current tax – PRC		
Provision for the year	3,474	4,985
Over-provision in prior year	(430)	(395)
	3,044	4,590

Tax charge on profits assessable elsewhere have been calculated at the rates of tax prevailing in the countries in which the Group operates, based on existing legislation, interpretation and practices in respect thereof.

Under the two-tiered profits tax regime, profits tax rate for the first HK\$2 million of assessable profits of qualifying corporations established in Hong Kong will be lowered to 8.25%, and profits above that amount will be subject to the tax rate of 16.5%. On 26 February 2020, the Financial Secretary of the Government of Hong Kong Special Administrative Region proposed to reduce profits tax for the year of assessment 2019/2020 by 100%, subject to a ceiling of HK\$20,000.

No provision for Hong Kong Profits Tax is required since the Group has no assessable profit for the year (2018: Nil).

Under the Law of Enterprise Income Tax of the PRC (the “EIT Law”) and Implementation Regulations of the EIT Law, the tax rate of the PRC subsidiaries is 25% except for Fujian Fufang, Zhangzhou Fukai and Zhangzhou Kaixing.

Fujian Fufang and Zhangzhou Fukai were recognised as “Small and Thin Profit Enterprise” during the year under relevant enterprise income tax rules and regulations. 25% of its assessable profits is subject to a preferential enterprise income tax rate at 20% for the year ended 31 December 2019 (2018: Zhangzhou Fukai, 50% of its assessable profits is subject to a preferential enterprise income tax rate at 20%). Zhangzhou Kaixing was granted the status of “High and New Technology Enterprise” and entitled to a preferential enterprise income tax rate at 15% for three years commencing from the year ended 31 December 2015. It was further extended for three more years commencing from the year ended 31 December 2018.

Pursuant to the EIT Law, the subsidiaries incorporated in the PRC is required to withhold 10% PRC enterprise income tax when they distributes dividends to their non-PRC resident enterprise shareholders.

11. INCOME TAX EXPENSE (CONTINUED)

As at 31 December 2019, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries for which deferred tax liabilities have not been recognised is approximately RMB9,683,000 (2018: RMB7,765,000). No liability has been recognised in respect of these differences because the Group is in a position to control the timing reversal of the temporary differences and it is probable that such differences will not reverse in foreseeable future.

The reconciliation between the income tax expense and the product of profit before tax multiplied by the PRC Enterprise Income Tax rate is as follows:

	2019 RMB'000	2018 RMB'000
Profit before tax	19,658	25,257
Taxation at the applicable PRC Enterprise Income Tax rate of 25% (2018: 25%)	4,915	6,314

24. SHARE CAPITAL (CONTINUED)

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maximise the return to the shareholders through the optimisation of the debt and equity balance.

The Group reviews the capital structure frequently by considering the cost of capital and the risks associated with each class of capital. The Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debts, redemption of existing debts or selling assets to reduce debts.

The Group monitors capital on the basis of the debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Total debts comprise bank loans. Adjusted capital comprises all components of equity (i.e. share capital, share premium, retained profits and other reserves). As at the end of the reporting period, the Group has debt outstanding of RMB48,925,000 (2018: RMB45,900,000) and the debt-to-adjusted capital has not been disclosed as the Group has net cash in both years.

The Group receives a report from the share registrars monthly on substantial share interests showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the year.

26. RESERVES

(a) Group

The amounts of the Group's reserves and movements therein are presented in the consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity.

(b) Nature and purpose of reserves

(i) Share premium

Under the Companies Law of the Cayman Islands, the funds in the share premium account of the Company are distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

(ii) Capital reserve

Capital reserve comprises difference between the total amount of registered capital and the amount of the contributions from the owners of a subsidiary.

(iii) Statutory surplus reserve

The statutory surplus reserve, which is non-distributable, is appropriated from the profit after taxation of the Group's PRC subsidiaries under the applicable laws and regulations in the PRC.
