THIRD QUARTERLY REPORT

For the nine months ended 30 June 2020

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements of the Group have been prepared in accordance with the Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**"), accounting principles generally accepted in Hong Kong, the disclosure requirements of the Hong Kong Companies Ordinance (Cap. 622) and the GEM Listing Rules.

3. APPLICATION OF NEW AND AMENDMENTS TO HKFRS

The Group has adopted HKFRS 16 Leases from 1 October 2019. The Group has applied HKFRS 16 using the simplified transition approach and has not restated comparatives for the 2018 reporting period as permitted under the specific transition provisions in the standard.

At adoption of HKFRS 16, the Group recognized lease liabilities in relation to leases which had previously been classified as "operating leases" under the principles of HKAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 October 2019.

All right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the consolidated balance sheet immediately before the adoption of the HKFRS 16. As a result of the adoption of HKFRS 16, as of 1 October 2019, the Group recognized a right-of-use assets of approximately HK\$3.2 million in non-current assets, and a lease liability of approximately HK\$1.2 million and approximately HK\$2 million in other payables and accruals and non-current liabilities, respectively.

In applying HKFRS 16 for the first time, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- the accounting for certain operating leases with a remaining lease term of less than 12 months as of 1 October 2019 as short-term leases;
- the exclusion of initial direct costs for the measurement of the right-of-use assets at the date of initial application.

Upon adoption of HKFRS 16, principal elements of lease payments and related interest portion have been classified within financing activities.
