# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW AND OUTLOOK

We are a leading digital video technology solution and service company in the TV broadcasting industry in China. We provide a full range of solutions, services and products to TV broadcasters and other digital video content providers, to effectively assist and enhance digital video technology content in the upgrade and management works on the post-production segment. We have been at the forefront of digital video technology innovation in China. Our emphasis on developing a demand-driven and highly responsive R&D is particularly critical for us because of our focus on the solutions and services business, where the customers demand customized services. Our solutions, services and products businesses facilitate the processing, enhancement and management of digital video content at the post-production stage between the ingestion of raw content and the output of finished content.

We have established business relationship with most of the central- and provincial-level TV stations in China and with some of the provincial-level TV broadcasters in China for over 24 years. We have also served alternative broadcasting platforms, such as cable networks operators, internet media content providers and IPTV operators. In view of the sustained losses of the Group, while we will continue our existing principal business, we will conduct a review of our business activities for the purpose of formulating business plans and strategies for our future business development. We may explore other business opportunities and consider whether any asset disposal, asset acquisition, business rationalisation, business divestment, fund raising, restructuring of the existing business and/or business diversification will be appropriate in order to enhance our long-term growth potential.

The outbreak of COVID-19 since January 2020 has severely affected the economic activities and operating environment in the PRC. In particular, the imposition of travel restrictions by the PRC government and the suspension of businesses in the PRC have reduced the Group's sales and marketing activities and hindered the seeking of potential customers and the negotiation of new projects. It is expected that the overall business environment in the PRC will be challenging in the year of 2020. In order to cope with these challenges, the Group's management will closely monitor the market conditions in the PRC, actively formulate alternative business plans and adjust its business strategies in a timely manner.

## FINANCIAL REVIEW

We recorded a total revenue of RMB131.4 million for the six months ended 30 June 2020 (the "2020 Interim Period"), representing an increase of 9.7% from RMB119.7 million for the six months ended 30 June 2019 (the "2019 Interim Period"). We recorded a loss of RMB29.5 million for the 2020 Interim Period as compared to RMB39.8 million for the 2019 Interim Period, primarily due to the decrease in the proportion of the sales of products and services which were of a higher profit margin and the increase in the proportion of the sales of solutions which were of a lower profit margin.

Our cost of sales increased by 14.0% to RMB101.8 million for the 2020 Interim Period as compared to RMB89.3 million for the 2019 Interim Period. Our gross profit margin decreased from 25.4% for the 2019 Interim Period to 22.5% for the 2020 Interim Period. Such a decrease was mainly attributable to the increase in the proportion of the sales of solutions which were of a lower profit margin and the amortisation of research and development expenses.

# MANAGEMENT DISCUSSION AND ANALYSIS

## ANALYSIS ON INTERIM CONDENSED CONSOLIDATED STATEMENTS OF COMPREHENSIVE INCOME ITEMS

### Revenue

We derived revenue primarily from (i) sale of solutions, (ii) provision of services and (iii) sale of products. Our revenue increased by 9.7% to RMB131.4 million for the 2020 Interim Period from RMB119.7 million for the 2019 Interim Period. The increase in revenue was mainly attributable to the commencement of upgrading of the 4K ultra-high definition equipment of certain major customers.

### Cost of Sales

Our cost of sales increased by 14.0% to RMB101.8 million for the 2020 Interim Period from RMB89.3 million for the 2019 Interim Period as a result of the increase in revenue.

### Gross Profit and Gross Profit Margin

Our gross profit represents revenue less cost of sales. Our gross profit decreased by 2.8% to RMB29.6 million for the 2020 Interim Period from RMB30.4 million for the 2019 Interim Period, primarily due to the decrease in the proportion of the sales of products and services which were of a higher profit margin and increase in the proportion of the sales of solutions which were of a lower profit margin. Our gross profit margin decreased to 22.5% for the 2020 Interim Period from 25.4% for the 2019 Interim Period.

### Other Income

Our other income increased by 8.6% to RMB14.7 million for the 2020 Interim Period from RMB13.5 million for the 2019 Interim Period as a result of the increase in government subsidies.

### Selling and Marketing Expenses

Our selling and marketing expenses decreased by 18.7% to RMB21.2 million for the 2020 Interim Period from RMB26.1 million for 2019 Interim Period, primarily due to the decrease in the costs relating to the sales and marketing staff.

### Administrative Expenses

Our administrative expenses decreased by 29.6% to RMB13.4 million for the 2020 Interim Period from RMB19.1 million for the 2019 Interim Period, primarily due to the decrease in labour costs.

### Share-Based Compensation Expense

We did not record any share-based compensation expense for the 2020 Interim Period as compared to RMB1.8 million for the 2019 Interim Period, since all share options granted under the share option scheme were fully vested in 2019.

### Research and Development Expenses

## REPORT OF THE DIRECTORS

### SHARE AWARD SCHEME

On 20 March 2017, the Company adopted the Share Award Scheme to recognize and reward the contribution of certain selected participants to the growth and development of the Group. The Share Award Scheme does not constitute a share option scheme or an arrangement analogous to a share option scheme for the purpose of Chapter 23 of the GEM Listing Rules. The shares under the Share Award Scheme will be acquired by a trustee by way of subscription of new shares (whether pursuant to general mandate or specific mandate granted by the shareholders or otherwise) and/or purchase of shares from the market out of cash contributed by the Group and be held on trust for the participants until such awarded shares are vested in the relevant selected participants in accordance with the provisions of the Share Award Scheme. The administrator of the Share Award Scheme, may from time to time, at their absolute discretion, select any participant for participation in the Share Award Scheme as a selected participant.

The Company has appointed The Core Trust Company Limited as the trustee (the “Trustee”). The Trustee is an independent third party of the Company and is acting for a wide scope of participants under the Share Award Scheme.

Unless early terminated by the Board, the Share Award Scheme shall be valid and effective for a term of 10 years commencing on the adoption date of the Share Award Scheme, provided that no contribution to the trust fund will be made by the Company on or after the 10th anniversary date of the adoption date of the Share Award Scheme.

The maximum number of shares which may be allocated and awarded to a selected participant under the Share Award Scheme in any 12-month period shall not exceed 1% of the issued share capital of the Company immediately preceding such allocation and award.

Vesting of the shares will be conditional on the selected participant remaining a participant at all times from after the relevant dates of the fulfillment of the performance targets (if any) specified by the Board and on the vesting date until and on each of the relevant vesting dates and his/her execution of the relevant documents to effect the transfer from the Trustee, unless otherwise determined by the Board.

On 30 August 2017, 12,000,000 awarded shares were issued by the Company to the Trustee under the Share Award Scheme. The 12,000,000 awarded shares shall vest in the grantees subject to the vesting scale under the grant letter.

During the 2020 Interim Period, the Company neither issued new shares nor arranged any funds to be paid to the Trustee for purchasing of shares of the Company from the market.

### COMPETING BUSINESSES

For the 2020 Interim Period, none of the Directors or the controlling shareholders of the Company and their respective associates (as defined under the GEM listing Rules) had any interest in a business that competes or may compete with the business of the Group, or had any other conflict of interest with the Group.

## REPORT OF THE DIRECTORS

### COMPLIANCE WITH CORPORATE GOVERNANCE PRACTICES

The Company has adopted the code provisions as set out in the Corporate Governance Code (the “Corporate Governance Code”) as contained in Appendix 15 of the GEM Listing Rules as its corporate governance practices.

Mr. Zheng Fushuang (“Mr. Zheng”) was appointed as the chief executive officer of the Company (the “CEO”) with effect from 3 April 2018 and is currently serving as both the chairman of the Company (the “Chairman”) and the CEO. Such practice deviates from code provision A.2.1 of the Corporate Governance Code. The Board believes that vesting the roles of both the Chairman and the CEO in the same person can facilitate the execution of the Group’s business strategies and boost the effectiveness of its operation. The Board is comprised of three executive Directors and three independent non-executive Directors, which is appropriately structured to ensure that there is a balance of power to provide sufficient checks to protect the interests of the Company and its shareholders. Therefore, the Board considers that the deviation from the code provision A.2.1 of the Corporate Governance Code is appropriate in such circumstance.

Saved as disclosed above, in the opinion of the Directors, the Company had complied with all the code provisions set out in the Corporate Governance Code from 1 January 2020 and up to the date of this report.

### CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding Directors’ securities transactions on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. The Company has made specific enquiries with all the Directors, who confirmed their compliance with the required standard of dealings and the code of conduct regarding Directors’ securities transactions during the 2020 Interim Period and up to the date of this report. No incident of non-compliance was noted by the Company during this period.

### AUDIT COMMITTEE AND REVIEW OF INTERIM RESULTS

The Company has established an audit committee with written terms of reference in compliance with the GEM Listing Rules on 23 May 2016. The primary duties of the audit committee are to review and supervise the financial reporting process and internal control systems of the Group, and to oversee the audit process and the audits of the financial statements of the Group.

The audit committee comprises three independent non-executive Directors, namely, Ms. Cao Qian, Dr. Li Wanshou and Mr. Frank Christiaens, and is chaired by Ms. Cao Qian.

The audit committee has reviewed the unaudited interim financial statements for the 2020 Interim Period and is of the opinion that (i) the unaudited financial statements of the Group for the 2020 Interim Period comply with the applicable accounting standards and the GEM Listing Rules; and (ii) adequate disclosure has been made in such unaudited financial statements.

The Company’s shares were listed on the GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 27 June 2016 (the “Listing”).

The Company is an investment holding company and its subsidiaries (collectively, the “Group”) are principally engaged in research, development and sales of video-related and broadcasting equipment and software and provision of related technical services in the People’s Republic of China (the “PRC”).

## 2. BASIS OF PREPARATION

This unaudited condensed consolidated interim financial information for the six months ended 30 June 2020 (the “Interim Financial Information”) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange, including compliance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting” issued by the International Accounting Standards Board (the “IASB”). The Interim Financial Information was authorised for issue by the Company’s board of directors (the “Board”) on 7 August 2020.

The Interim Financial Information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the annual report for the year ended 31 December 2019.

The Interim Financial Information is presented in Renminbi (“RMB”), unless otherwise stated.

The Group has not early adopted any other standard or amendment that has been issued but is not yet effective. ## NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

FOR THE SIX MONTHS ENDED 30 JUNE 2020

### 3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Interim Financial Information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing the Interim Financial Information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2019.

### 4. REVENUE AND SEGMENT INFORMATION

The Group's operating activities are attributable to a single reportable and operating segment focusing primarily on the research, development and sales of video-related and broadcasting equipment and software and provision of related technical services in the PRC. This operating segment has been identified on the basis of internal management reports reviewed by the chief operating decision-makers (the "CODM"), being the executive directors of the Group. The CODM mainly reviews revenue derived from sale of products, solutions and services, which are measured in accordance with the Group's accounting policies. However, other than revenue information, no operating results and other discrete financial information is available for the assessment of performance of the respective type of revenue. The CODM reviews the overall results of the Group as a whole to make decisions about resources allocation. Accordingly, no segment information is presented. An analysis of the Group's revenue is as follows:

### 18. SHARE-BASED COMPENSATION TRANSACTIONS – *continued*

#### (a) The 2010 Share Option Plan – *continued*

The maximum number of ordinary shares of the Company to be issued (from time to time) upon exercise of all outstanding options granted and yet to be exercised under the 2010 Share Option Plan must not in aggregate exceed 26,000,000 (subject to adjustment, such as bonus issue, extraordinary cash dividends, share splits, reverse share splits, recapitalisation, reorganisations, mergers, consolidations, combinations occurring after the date of grant of options). The aggregate number of outstanding ordinary shares of the Company as of the Effective Date is 80,000,000 ordinary shares of US\$0.00001 each.

The period within which the options must be exercised will be specified by the Company at the time of grant and not to exceed 10 years. At the time of grant of the options, the Company may specify a minimum period for which an option must be held before the option can be exercised in whole or in part.

The Option Price shall be payable in cash or by the sale by the participant to the Company, and the repurchase by the Company, for an aggregate consideration of US\$1.00, of ordinary shares of the Company held by the participant having an aggregate fair market value at the time the option is exercised equal to the Option Price.

### 18. SHARE-BASED COMPENSATION TRANSACTIONS – *continued*

#### (a) The 2010 Share Option Plan – *continued*

On 1 January 2011, 26,000,000 options were granted by the Company for nil consideration with estimated fair value of approximately US\$3,129,000 (approximately RMB20,720,000) (note). Each option gives the holder the right to subscribe for one ordinary share in the Company at an exercise price of US\$1.16 per share. The share options are valid for a period of 10 years from 1 January 2011. Included in the 26,000,000 options, (i) 25,700,000 options are subject to a vesting scale in which 30%, 30%, 20% and 20% of options granted shall vest on 1 January 2012, 1 January 2013, 1 January 2014 and 1 January 2015 respectively; and (ii) 300,000 options are subject to a vesting scale in which 1/3, 1/3 and 1/3 of the options granted shall vest on 1 January 2012, 1 January 2013 and 1 January 2014 respectively. All options granted are exercisable from 1 January 2012 to 31 December 2021.

Note: As detailed above, as the participant can choose the method of settlement, the Company is considered to have issued a compound financial instrument, an instrument with a debt component (to the extent that the participant has a right to demand cash) and an equity component (to the extent that the counterparty has a right to demand settlement in equity instruments by giving up their right to cash). However, as the exercise price of the options of US\$1.16 per share is higher than the agreed repurchase price of US\$1.00 per share, the Group considered the debt component is of no value in respect of all the share options granted, thus the fair value of the equity component was approximately US\$3,129,000 (approximately RMB20,720,000) at the date of grant.

On 1 October 2015, 2,935,000 options were granted by the Company to the key employees of the Group under the 2010 Share Option Plan with estimated total fair value of approximately US\$3,000,000 (equivalent to approximately RMB19,195,000). The exercise price of the share options granted is US\$0.00001 per share. The share options are valid for a period of 10 years from 1 October 2015. Included in the 2,935,000 options, 1,435,000 options granted will vest on the 1 October 2016, and the remaining 1,500,000 options are subject to a vesting scale in which 40%, 30% and 30% of options granted shall vest on 1 October 2016, 1 October 2017 and 1 October 2019 respectively. The options granted are exercisable from 1 October 2016 to 31 December 2021.

The Company has adjusted, pursuant to the authority granted to the board of director under the 2010 Share Option Plan, the total number of shares subject to options granted under the 2010 Share Option Plan to 77,893,000 as a result the capitalization issue completed on 27 June 2016. Upon completion of such grant and adjustment, no further options will be granted under the 2010 Share Option Plan.

Pursuant to an ordinary resolution passed at the annual general meeting of the Company held on 18 May 2017, the Company adopted a share option scheme to attract, retain and motivate employees, Directors and other participants, and to provide a means of compensation through the grant of options for their contribution to the growth and profits of the Group, and to allow them to participate in the future growth and profitability of the Group (the “2017 Share Option Scheme”). The participants of the 2017 Share Option Scheme are any executive, non-executive or independent non-executive directors or any employees (whether full-time or part-time) of the Company, or any of its subsidiaries or associated companies or any other person whom the Board considers, in its sole discretion, has contributed or will contribute to the Group.

The 2017 Share Option Scheme is valid and effective for a period of ten years from 24 May 2017.

The Company may seek approval by its shareholders in general meeting for refreshing the Mandate Limit of Option Scheme under the 2017 Share Option Scheme. However, the total number of shares which may be issued upon exercise of all options to be granted under the 2017 Share Option Scheme and any other schemes of the Company under the limit as “refreshed” must not exceed 10% of the relevant class of the shares in issue as at the date of passing the relevant resolution to refresh such limit. Options previously granted under the 2017 Share Option Scheme and any other schemes (including those outstanding, cancelled, lapsed in accordance with the 2017 Share Option Scheme or any other schemes or exercised options) will not be counted for the purpose of calculating the Mandate Limit of Option Scheme as “refreshed”. The Company may seek separate approval by its shareholders in general meeting for granting options beyond the Mandate Limit of Option Scheme provided the options in excess of the Mandate Limit of Option Scheme are granted only to eligible participants of the 2017 Share Option Scheme specifically identified by the Company before such approval is sought.

Unless approved by the shareholders, the total number of shares issued and to be issued upon exercise of the options granted to each eligible participant of the 2017 Share Option Scheme (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the relevant class of the shares in issue.

### 21. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The following table presents financial instruments measured at fair value in the condensed consolidated statement of financial position in accordance with the fair value hierarchy. The hierarchy groups financial instruments into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial instruments. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the financial instrument is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.

### 21. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS – *continued*

The financial instruments measured at fair value in the condensed consolidated statement of financial position on a recurring basis are grouped into the fair value hierarchy as follows:

	(Unaudited) As at 30 June 2020 Level 3 RMB'000	(Audited) As at 31 December 2019 Level 3 RMB'000
Financial asset at fair value through profit or loss		
– Unlisted equity investments	4,935	4,935

For the six months ended 30 June 2020 and year ended 31 December 2019, there were no transfers amongst level 1, level 2 and level 3 in the fair value hierarchy.

The information about the fair value of unlisted equity investments categorised under Level 3 fair value hierarchy are described below:

	Valuation technique	Unobservable input	Range (median)	
			As at 30 June 2020	As at 31 December 2019
– Unlisted equity investments (note)	Market approach and net assets approach	Discount of lack of marketability	15.8%	15.8%

Note:

With the assistance of independent professional valuer, the fair value of unlisted equity investments is determined using the market approach and net assets adjusted for lack of marketability discount. An increase in the discount for lack of marketability would decrease the fair value of the equity investments.

In the opinion of the directors, the fair value change on the unlisted equity investments is considered to be insignificant for the six months ended 30 June 2020 because there is no significant change in the financial projections of the investments, unobservable input and assumptions.
