FIRST QUARTERLY REPORT 2020

# CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

The Company is an investment holding company. The Group is principally engaged in the provision of catering services (including the provision of food and services).

The functional currency of the Company is Hong Kong dollars ("HK\$").

#### 2. BASIS OF PRESENTATION OF THE FINANCIAL INFORMATION

The unaudited condensed consolidated financial information of the Group for the three months ended 30 June 2019 and 2020 is presented as if the Company had always been the holding company of the Group.

The unaudited condensed consolidated first quarterly results have not been reviewed by the Company's auditor.

#### 3. BASIS OF PREPARATION

This unaudited condensed consolidated financial information for the three months ended 30 June 2020 (the "Financial Information") have been prepared in accordance with HKFRSs, Hong Kong Accounting Standards and Interpretations issued by the HKICPA and the disclosure requirements of the Companies Ordinance (Cap. 622 of the Laws of Hong Kong). Besides, the Financial Information include applicable disclosures required by the GEM Listing Rules. The Financial Information have been prepared under the historical cost convention and are presented in HK\$ and all values are rounded to the nearest thousand except when otherwise indicated.

The preparation of the Financial Information requires the Company's management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of income and expenses. Actual results may differ from these estimates.

In preparing the Financial Information, the significant judgments made by the Company's management in applying the Group's accounting policies and the key sources of estimation uncertainty are the same as those that applied to the Group's audited consolidated financial statements for the year ended 31 March 2020.

In preparing the Financial Information, the directors of the Company have given careful consideration to the future liquidity of the Group in light of the fact that the Group's current liabilities exceeded its current assets by HK\$52,596,000 as at 30 June 2020, the Group's total liabilities exceeded its total assets by HK\$61,526,000 as of that date.

In view of such circumstances, which indicate the existence of uncertainties that may cast doubt about the Group's ability to continue as a going concern and therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business, the directors of the Company have given careful consideration to the future liquidity and performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial resources to continue as a going concern. Certain measures have been taken to mitigate the liquidity pressure and to improve the Group's financial position which include, but are not limited to, the following:

- (a) The Group will continue to seek for investors for the placing as stated in the Company's announcement on 26 June 2020 (the "Placing"), in which the Group expects to receive HK\$28,800,000 (before expenses) for the Group to repay its existing debt and for future operation.
- (b) Mr. Chuk Stanley, the largest shareholder of the Company, has committed to provide continuous financial support to the Group as is necessary to enable the Group to meet its financial obligations as they fall due.
- (c) The Group will negotiate with bond holders to extend the maturity date of bonds.
- (d) The Group will also continue actively seek other alternative financing, including borrowings and disposal of assets or business, to finance the settlement of its existing financial obligations and future operating and capital expenditures.

The directors of the Company, has taken into account the abovementioned plans and measures, consider that the Group would have sufficient working capital to finance its operations and to meet its financial obligations as and when they fall due within the next twelve months from the date of the Financial Information. Accordingly, the directors of the Company are of the opinion that it is appropriate to prepare the Financial Information for the period ended 30 June 2020 on a going concern basis of accounting.

However, the appropriateness of the going concern basis of accounting is dependent on the assumption that (i) the management of the Group will be able to achieve its plans and measures as described above; (ii) the Group is able to obtain continuous external financial support; (iii) the Group will be able to improve its business operations; and (iv) the Group is able to generate sufficient cash flow and implement exercises to control costs. Should the going concern basis of accounting become inappropriate, adjustments might have to be made to reflect the situation that assets may need to be realised at the amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in the Financial Information.

#### 4. APPLICATION OF HONG KONG FINANCIAL REPORTING STANDARDS

The Group has applied all new and revised HKFRSs issued by the HKICPA that are mandatory effective during the current period and relevant to its operations. The application of such new and amended standards and interpretations does not have material impact on the Financial Information reported and does not result in substantial change to the Group's accounting policies.

#### 5. REVENUE

Revenue represents the fair value of amounts received and receivable from restaurant operations for services provided and food served and net of discount, and membership fee income from external customers for privileged services in the Group's restaurants during the respective periods. # MANAGEMENT DISCUSSION AND ANALYSIS

### **BUSINESS REVIEW**

The Group is a Hong Kong based restaurant group that offers Sichuanese and Cantonese, fusion vegetarian and Japanese cuisines under the "San Xi Lou (三希樓)", "Pure Veggie House (心齋)", "Man Jiang Hong (滿江紅)" and "Ronin (浪人)" brands, respectively. The Group's revenue for the three months ended 30 June 2020 was primarily derived from catering income through its restaurants. In order to minimize the unsatisfactory performance on the operation and financial performance of the restaurant under the "Ronin" brand, the Company disposed the restaurant by end of June 2020 such that the Group can focus its available financial resources on the development of its other existing restaurants and businesses.

For the three months ended 30 June 2020, the Group recorded a decrease in revenue of approximately HK\$20.0 million, representing a decrease of approximately 58.4%, from approximately HK\$34.2 million for the three months ended 30 June 2019 to approximately HK\$14.2 million for the three months ended 30 June 2020. Such decrease was mainly due to the recent outbreak of the coronavirus (COVID-19) pandemic (the "Pandemic"). To avoid the spread of the Pandemic, the Hong Kong government has executed several policies which have led to the decline of both local customers and tourists, seriously the consumers' spending sentiment over the entire catering industry.

On 13 February 2018 (the "Listing Date"), the Shares were successfully listed on GEM by way of Share Offer. After deducting all the relevant commissions and expenses borne by the Company, there was approximately HK\$42.3 million of net proceeds from the Share Offer. The Group will utilise such net proceeds in accordance with the business strategies as set out in the Company's prospectus (the "Prospectus") dated 31 January 2018 and our announcement dated 9 October 2018 regarding the change of use of proceeds.

### **FUTURE PROSPECTS**

The Shares were successfully listed on GEM on 13 February 2018 (the "Listing"). The Board considers that the Company's public listing status on the Stock Exchange allows the Company to access the capital market for corporate finance activities, which assists the Company in its future business development, enhances the Group's corporate profile and recognition, strengthens the Group's competitiveness and will lead to an increase in revenue.

The outbreak of COVID-19 in Hong Kong and various countries around the globe has affected many businesses to different extent. Food and Beverage is one the industries that encountered the most difficult impact.

To cope with this, the management has put much efforts on tightening the control over the procurement of the raw materials and other costs incurred in our operations. The effects from the measures begin to be reflected in the decreasing trend over various costs. The management also actively negotiates with the suppliers, landlords and other business partners to sort out feasible measures to overcome this tough time. The turning from loss to profit position reflects that the measures are effective and the Group would continue to improve the performance and financial position of our operations.

The Group estimates that the degree of COVID-19 impact would be dependent on the outcome of various preventive measures and the duration of the epidemic. The Group is closely monitoring the market development and continuously evaluating the financial impact of the COVID-19 situation on the Group's operational and financial performance. Given the unpredictability of future development of COVID-19, the impacts to the Group could not be reasonably and accurately estimated at this stage. However, the Group will continue to take actions to control costs and drive efficiency to maintain our profitability and competitiveness in the market.

The Group has disposed one restaurant during the three months ended 30 June 2020 and subsequently three other under-performed restaurants were disposed in July 2020. The Group is also actively seeking for opportunities in capital raising like placing new shares in order to improve the Group's cash flow status and relieve liabilities burden.

The Company's corporate governance practices are based on principles and code provisions in the Corporate Governance Code and Corporate Governance Report as set out in Appendix 15 to the GEM Listing Rules (the "Corporate Governance Code"). Save as disclosed below, the Group has complied with the code provisions of the Corporate Governance Code:

Code provision A.2.1 of the Corporate Governance Code provides that the role of chairman and chief executive should be separate and should not be performed by the same individual. Mr. Stanley Chuk is the chairman and the chief executive officer of the Company. In view of Mr. Stanley Chuk being a founder of the Group and has been operating and managing the main operating subsidiaries of the Company, the Board believes that it is in the best interest of the Group to have Mr. Stanley Chuk take up both roles for effective operational management and strategic business development. Further, the Board believes that both positions require in- depth knowledge and considerable experience of the Group's business and Mr. Stanley Chuk is the most suitable person to occupy both positions for the Group and facilitating the implementation and execution of the Group's business strategy as disclosed in the Prospectus. Therefore, the Directors consider that the deviation from code provision A.2.1 of the Corporate Governance Code is appropriate, and Mr. Stanley Chuk being the chairman and the chief executive officer can preserve and enhance the philosophies of the Group, preserve the leadership direction of the Group, and allow an efficient discharge of the executive functions of the chief executive as the decision maker. The Directors also believe that a balance of power and authority is adequately ensured by the operations of the Board which comprises individuals with diverse professional backgrounds and experiences including three independent non-executive Directors. The Board shall nevertheless review the structure from time to time in light of prevailing circumstances.
