## INTERIM REPORT 2020

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

Notes:

### 1. GENERAL AND BASIS OF PRESENTATION

The Company was incorporated in the Cayman Islands and continued in Bermuda with limited liability. The shares of the Company (the “**Shares**”) were listed on GEM of The Stock Exchange of Hong Kong Limited on 4 January 2002. The addresses of the registered office and principal place of business of the Company are disclosed in the Corporate Information of the annual report of the Company for the year ended 31 December 2019.

The condensed consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”). The functional currency of the Company is United States dollars (“**USD**”). As the Company is listed in Hong Kong, the Directors consider that it is appropriate to present the consolidated financial statements in HK\$.

The Company acts as an investment holding company.

The unaudited condensed consolidated financial statements for the Half-Year Period have been prepared in accordance with the applicable disclosure requirements of Chapter 18 of the GEM Listing Rules and with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”), and accounting principles generally accepted in Hong Kong.

### 2. PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated financial statements for the Half-Year Period have been prepared under the historical cost convention except for investment properties, which are measured at fair value. The accounting policies adopted are consistent with those followed in the preparation of the Group’s annual financial statements for the year ended 31 December 2019 (“**the 2019 Financial Statements**”).

### 3. REVENUE

#### *Sales of connectivity products*

Revenue represents the amounts received and receivable, net of discounts and returns, from the sales of connectivity products mainly for computers, computer peripheral products, multi-media consumable electronics products, communication products, automobile electronics accessories, wire harness and medical equipments and subcontracting service rendered during the period under review.

#### *Provision of comprehensive architectural services*

Where the outcome of a contract of comprehensive architectural services can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion that contract costs incurred for work performed to date relative to the estimated total contract costs. Variations in contract work, claims, and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

Where the outcome of a contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

4. SEGMENT INFORMATION

The Group determines its operating segments based on the reports regularly reviewed by the executive directors, who are the chief operating decision makers, for the purpose of allocating resources to segments and assessing their performance.

Segment information reported internally for the purposes of resources allocation and performance assessment is analysed based on the class of customers which is the same as information reported to the chief operating decision makers. The Group is currently engaged in the sales of connectivity products to two classes of customers, namely, original equipment manufacturer customers (“**OEM customers**”) and retail distributors, and provision of comprehensive architectural services (master-planning and architectural design). The Group’s operating segments under HKFRS 8 are as follows:

## 6. INCOME TAX EXPENSES

The amount mainly represents current tax expense on assessable profits arising in the PRC and is calculated at the rates prevailing in the PRC. Majority of the subsidiaries are subject to enterprise income tax in the PRC. The applicable enterprise income tax rate of the PRC is 25% in accordance with the relevant income tax law and regulations in the PRC for both periods, except for those subsidiaries described below.

Certain subsidiaries operating in the PRC fall within the Preferential Corporate Income Tax Catalogue in the specific zone. According to Cai Shui (2014) No.26, qualified companies in Qianhai Shenzhen-Hong Kong Modern Service Industry Cooperation Zone are granted for a reduced enterprise income tax rate of 15% during the period from 1 January 2014 to 31 December 2020.

Also, certain subsidiaries operating in the PRC were accredited as “Cultural Innovation Enterprise” by the local tax authorities and were registered with the local tax authorities to be eligible to the reduced 15% enterprise income tax rate for a period of four years from 2017 to 2020. As a result, the tax rate of 15% is used to calculate the amount of current taxation.

No provision for Hong Kong Profits Tax has been made in the condensed consolidated financial statements as there are no assessable profits for both periods.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

## 7. EARNINGS PER SHARE

The calculation of basic loss per share for the Second Quarter and Half-Year Period is based on the consolidated profit attributable to shareholders of approximately HK\$14,752,000 and HK\$6,311,000 respectively (consolidated profit attributable to shareholders for three months and six months ended 30 June 2019: approximately HK\$5,100,000 and HK\$5,545,000 respectively) and on the weighted average number of approximately 655,202,000 and 652,524,000 ordinary shares respectively (2019: 649,846,000 (re-presented) and 649,846,000 (re-presented) ordinary shares respectively) in issue.

No dilutive earnings per share has been presented for the Second Quarter and the Half-Year Period because there are no potential dilutive ordinary share in the respective periods.

Basic earnings per share for three months and six months ended 30 June 2019 are re-presented to reflect the bonus element of the placing of Shares during the period.

## 8. DIVIDEND

**9. PROPERTY, PLANT AND EQUIPMENT, AND INVESTMENT PROPERTIES**

During the Half-Year Period, the Group acquired property, plant and equipment at a total cost of approximately HK\$155,000 (six months ended 30 June 2019: approximately HK\$1,431,000). The investment properties were valued at HK\$14,750,000 on 31 December 2019 by Savills Valuation and Professional Services Limited, an independent qualified professional valuer.

The fair value was determined using direct comparison approach assuming sales of the properties in their respective existing state and by making reference to comparable sales evidences as available on the market. There has been no change from the valuation technique used in the prior year.

The Directors consider that the fair value of the investment properties as at 30 June 2020 was not significantly different from their carrying value as at 31 December 2019.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Business Review

The Group is engaging in design, manufacture and sale of connectivity products mainly for computers, computer peripheral products, multi-media consumable electronic products, communication products, automobile electronics accessories, wire harness and medical equipment (the “**Electronics Business**”). The Group is one of the leading VGA cables manufacturers in the world. To diversify the Group’s business and seek new exponential growth, the Group is also engaging in master-planning and architectural design business (the “**Architectural Design Business**”) which involves master-planning work, general design work and architectural schematic design work.

### Financial Review

#### Revenue

##### *The Electronics Business*

During the Half-Year Period, the outbreak of the COVID-19 pandemic globally has imposed adverse impact on the consumer demand for electronic products globally and the Group’s production capacity and efficiencies in the PRC. The Directors believe that these are the main factors that will affect the Electronics Business of the Group in the future. To the extent manageable, the Group has used its best endeavours to fulfill its committed sales orders, remain in close contacts and liaison with its customers to closely follow up the delivery schedules and upcoming sales orders.

The Electronics Business contributed revenue of approximately HK\$142.1 million to the Group during the Half-Year Period (corresponding period in 2019: approximately HK\$145.1 million), representing a decrease of approximately 2.0%.

The Group will continue to assess the impact of COVID-19 on the Group’s business operations and will take appropriate measures as and when necessary.

##### *The Architectural Design Business*

The revenue recognised from this business segment was growing satisfactorily since the introduction of this business in the third quarter of 2017. Due to the outbreak of COVID-19 over the Half-Year Period, some of our design projects in the PRC were suspended and hence adversely affect this business segments. This business segment contributed revenue of approximately HK\$14.6 million during the Half-Year Period (corresponding period in 2019: approximately HK\$33.7 million ), decreased significantly by approximately 56.5%.

Having considered the unfavourable and uncertain economic situations, the Directors keep a very conservative view as to the results of the Group in the coming quarters and the Company will pay close attention to the market condition and the development of the outbreak of the COVID-19.

**Gross profit**

The Group recorded a gross profit of approximately HK\$31,115,000 for the Half-Year Period, representing an increase of approximately 15.5% as compared to approximately HK\$26,941,000 as recorded in the last corresponding period. The gross profit margin increased from approximately 15.1% for the six months ended 30 June 2019 to approximately 19.9% for the Half-Year Period as the Group had launched some higher value-added products and actively discussing the sales of such products at a mutually beneficial price and sales volume in order to minimise any possible negative impact on its business under to the outbreak of the COVID-19.

**Other income**

The Group earned other income of approximately HK\$1,887,000 during the Half-Year Period (corresponding period in 2019: approximately HK\$2,473,000), representing a decrease of approximately 23.7%.

**Selling and distribution expenses**

The selling and distribution expenses were approximately HK\$3,277,000 during the Half-Year Period (corresponding period in 2019: approximately HK\$5,079,000). The decrease in these expenses matched with the drop of revenue.

**Administrative expenses**

The administrative expenses were approximately HK\$22,289,000 during the Half-Year Period (corresponding period in 2019: approximately HK\$17,715,000), representing an increase of approximately 25.8% which was mainly caused by the additional costs incurred under the outbreak of COVID-19.

**Finance costs**

The Group did not incur any finance costs for both periods ended 30 June 2020 and 2019.

**Net Profit**

The Group reported a net profit attributable to owners of the Company for the Half-Year Period of approximately HK\$6,311,000 (corresponding period in 2019: approximately HK\$5,545,000), increased by approximately 13.8%.

**Earnings per share**

The basic earnings per share for the Half-Year Period was approximately HK0.97 cents (corresponding period in 2019: approximately HK0.85 cents (re-presented)).

**Liquidity and financial resources**

As at 30 June 2020, the Group's net current assets, cash and bank balances and shareholders' funds amounted to approximately HK\$69.6 million, HK\$56.3 million and HK\$141.6 million (31 December 2019: approximately HK\$54.9 million, HK\$79.9 million and HK\$129.7 million) respectively. The current ratio, expressed as current assets over current liabilities, was maintained at the level of approximately 1.54 (31 December 2019: approximately 1.43).

**Capital Structure**

On 3 June 2020, the Company entered into a placing agreement with a placing agent pursuant to which the placing agent placed 64,000,000 placing shares at the placing price of HK\$0.1 per placing share to certain independent placees. The net proceeds from the subscription, net of related issued costs and expenses, will be used for general working capital of the Group.

The share capital of the Company was then increased from HK\$6,400,000 to HK\$7,040,000.

Save as mentioned above, the Company did not run any capital exercise during the Half-Year Period.
