FIRST QUARTERLY REPORT 2021

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "**Directors**") of Excalibur Global Financial Holdings Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

The background of the page is a collage of financial and business-related images. At the top, there is a candlestick chart with a white line graph overlaid. Below that, there are several stacks of coins. In the lower right, there is a globe with a glowing line passing through it. At the bottom, there is a bar chart with an upward-pointing arrow. The entire background is in shades of green and white, with a geometric pattern of white lines forming a large triangle on the right side.

# MANAGEMENT DISCUSSION AND ANALYSIS

## GENERAL

During the three months ended 31 March 2021 (the “**Period**”), the Company and its subsidiaries (collectively the “**Group**”) was principally engaged in brokerage business in futures and options products being traded in Hong Kong and overseas markets, together with the stock options and securities being traded in the Stock Exchange and margin financing business.

## OPERATION REVIEW

In the first quarter of 2021, the business performance has not yet recovered during the Coronavirus Disease 2019 (“**COVID-19**”) pandemic. Even though the situation of COVID-19 pandemic in Hong Kong became stable, the lack of new customer from the People’s Republic of China (the “**PRC**”) still highly affects the revenue and the active customer base of the Group. The Group has launched the remote certification service in this quarter which helps the potential customers in the PRC to complete the account opening procedure.

## FINANCIAL REVIEW

During the Period, the Group recorded a total revenue of approximately HK\$2.0 million, representing a decrease of approximately HK\$1.2 million from approximately HK\$3.2 million recorded in the three months ended 31 March 2020 (the “**Corresponding Period**”). Loss for the Period of approximately HK\$6.5 million was recorded, as compared to the loss of approximately HK\$4.7 million for the Corresponding Period.

Salaries and other benefits decreased by approximately HK\$1.9 million, or approximately 46.2% mainly due to the payment of the one-off bonus of HK\$2.0 million to the executive Directors of the Group in the Corresponding Period.

# MANAGEMENT DISCUSSION AND ANALYSIS

## (CONTINUED)

Other operating and administrative expenses increased by approximately HK\$2.4 million or approximately 52.2% compared to the Corresponding Period mainly due to the increase of marketing expense by approximately HK\$2.1 million incurred during the Period.

### OUTLOOK

The Government of the Hong Kong Special Administrative Region planned to lift the restriction for non-Hong Kong resident to enter into Hong Kong without being subject to 14-day quarantine. The management expected that the PRC customers could start to visit to Hong Kong to complete the account opening procedures and hence the customer base from the PRC will start to grow. The management believed that light has finally appeared at the end of the tunnel since the COVID-19 pandemic started in early 2020 and the financial performance will improve in remaining 2021.

The board of Directors (the “**Board**”) of the Company presents the unaudited condensed consolidated results of the Group for the three months ended 31 March 2021, together with the comparative unaudited figures for the corresponding period in 2020, as follows:
