First Quarterly Report

2021

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the "**Directors**" or individually a "**Director**") of Janco Holdings Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company and its subsidiaries (collectively referred to as the "**Group**", "**we**", "**our**" or "**us**"). The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

We are a well established freight forwarding and logistics one-stop service provider founded and based in Hong Kong. Freight forwarding services form our core business. We purchase cargo space from airlines, shipping liners, other freight forwarders or GSAs and either sell it to direct shippers or on-sell it to other freight forwarders who act on behalf of their shipper customers. A majority of our customers are direct shipper customers. We offer air freight and ocean freight services and a majority of air and sea cargo space we sell are for goods exporting from Hong Kong to various destinations in Asia such as Bangladesh, Vietnam, Sri Lanka, Cambodia and Thailand.

On top of our core freight forwarding services, we strategically offer ancillary logistics services primarily at our warehouses in response to the rising demand from our customers who require customised value-added logistics services. The ancillary logistics services we offer include warehousing, repacking, labelling, palletising and local delivery within Hong Kong. We integrate our ancillary logistics services into our core freight forwarding services to strategically create a distinct corporate identity among our shipper customers.

During the period, we are expanding our e-commerce and fulfillment services for cross border e-commerce traffic from overseas as well as outbound traffic from China to worldwide.

Our competitive strengths are key factors contributing to our success to date. The Directors believe that the competitive strengths as set out under the section headed “Business” in the prospectus of the Company dated 30 September 2016 will continue to enhance our presence and increase our market share in the freight forwarding and logistics industries.

FUTURE PLANS

In the future, we will continue to expand our e-commerce and fulfillment business. In addition, we are also seeking opportunities to expand our logistics business in Asia by locating different warehouses.

Expecting significant growth in e-commerce revenue in the future, we are constantly improving our selection of solutions to our customers. Our intention is to become a major logistics service provider across the region. We are also enhancing our capability and strengthening our last mile delivery transit time as well as simplifying our e-commerce process to increase our efficiency. We will also continue to capture the growing opportunities arising from cross border e-commerce traffic from overseas as well as outbound traffic from China to worldwide.

FINANCIAL REVIEW

Revenue

Revenue of the Group increased by approximately 23.3% from approximately HK\$105.5 million for the three months ended 31 March 2020 to approximately HK\$130.1 million for the three months ended 31 March 2021. The increase in revenue for the three months ended 31 March 2021 was due to the increase in revenue generated from air freight forwarding services by approximately HK\$2.9 million, increase in revenue generated from ocean freight forwarding services by approximately HK\$7.3 million and increase in revenue generated from e-commerce fulfillment services by approximately HK\$17.2 million, which was partially offset by decrease in revenue generated from ancillary logistics services by approximately HK\$1.2 million and decrease in revenue generated from e-commerce trading services by approximately HK\$1.6 million for the three months ended 31 March 2021.

Revenue from air freight forwarding services increased for the three months ended 31 March 2021. It was mainly due to the increase in shipment volume under the orders placed by both of our existing and new customers during the three months ended 31 March 2021.

Revenue from sea freight forwarding services increased for the three months ended 31 March 2021. It was mainly due to the shipment volume back to normal which in the same period of 2020 was significantly dropped due to COVID-19.

The increase in revenue from e-commerce fulfillment services was mainly contributed by the increase in orders placed by new customers and our existing customers during the three months ended 31 March 2021.

Cost of sales and gross profit

Cost of sales increased by approximately 15.0% from approximately HK\$96.0 million for the three months ended 31 March 2020 to approximately HK\$110.4 million for the three months ended 31 March 2021. The increase in cost of sales was mainly attributable to the increase in ocean freight costs of approximately HK\$7.6 million, and increase in e-commerce fulfillment services costs of approximately HK\$12.1 million, which was partially offset by the decrease in warehouse direct costs of approximately HK\$6.2 million for the three months ended 31 March 2021.

Gross profit increased by approximately 104.2% from approximately HK\$9.6 million for the three months ended 31 March 2020 to approximately HK\$19.6 million for the three months ended 31 March 2021. Gross profit margin increased from approximately 9.1% for the three months ended 31 March 2020 to approximately 15.1% for the three months ended 31 March 2021.

The increase in gross profit and gross profit margin was mainly attributable to the increase in e-commerce courier services income which outweighed the increase in e-commerce courier services costs and the decrease in warehouse direct costs which outweighed the decrease in logistics service income.

Administrative expenses

Administrative expenses increased by approximately 2.5% from approximately HK\$12.0 million for the three months ended 31 March 2020 to approximately HK\$12.3 million for the three months ended 31 March 2021. The increase in administrative expenses was mainly due to the increase in our depreciation expenses, legal and professional fees for the three months ended 31 March 2021.

Income tax credit/(expense)

Income tax expense represented the provision of Hong Kong profits tax calculated at 16.5% of the estimated assessable profits during the three months ended 31 March 2020 and 2021, respectively.

Profit/(loss) attributable to owners

The Group recorded a profit attributable to owners of the Company of approximately HK\$5.4 million for the three months ended 31 March 2021 as compared to the loss attributable to owners of the Company of approximately HK\$3.1 million for the three months ended 31 March 2020. The increase in profit attributable to owners was mainly due to the increase in gross profit margin for our e-commerce fulfillment and logistics business for the three months ended 31 March 2021.
