First Quarterly Report 2021/22

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of BOSA Technology Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM (the “GEM Listing Rules”) of the Stock Exchange for the purpose of giving information with regard to the Company and its subsidiaries (together, the “Group”). The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

MARKET OVERVIEW

Hong Kong saw its dire contraction of 9.0% on the year-on-year basis in the first half of 2020 when the COVID-19 pandemic dealt its heaviest blow to global and the city's local economic activities. With improved global economy followed by the rolling out of vaccination campaign in various countries and the vigorous anti pandemic measures taken by the global and the city's governments, the Hong Kong economic contraction narrowed down to 6.1% in the whole year of 2020 and saw noticeable growth of 7.1% in the second quarter of 2021. Considering the robust real GDP outturn in the first half of the year together with the receding pandemic, the Hong Kong government has revised its real GDP forecast of Hong Kong upwards to 5.5%–6.5% for the whole year of 2021.

However, the road to economic recovery is likely to be uneven. The risk of economic downturn related to the COVID-19 pandemic is still prominent. There has been a surge in Delta variant cases around the world. This highly contagious virus has already caused bounce back in the number of COVID-19 confirmed cases in a number of countries. The development of the China-US relationship and the geopolitical tensions between China and various countries also warrant attentions.

On the other hand, the tumbling US economy and the increase in US\$ money supply not only cause price fluctuations in the global commodities, but also drive its hedged currency, HK\$, significantly weaker than other currencies. The New Taiwan Dollar (“TW\$”) has appreciated approximately 5.7% in the year of 2020 and 1.4% in the first nine months of 2021. The pressure on the HK\$ to fall is very likely to continue in 2022 and further increase the costs of couplers purchased from Taiwan.

Furthermore, factors like the Chinese government's \$550 billion Yuan stimulus to revive its economy in 2020, mismatched balance of labour supply and demand in the steel manufacturing related industries and the prolonged interruptions on global transportations during the COVID-19 pandemic, are still working to the disadvantage on the steel prices. The Taiwan Steel Price Index (“TSPI”) has increased around 120% when comparing the prices on both 30 June 2021 and 30 September 2021 to the price on 30 June 2020. This huge price increment inevitably create pressure on suppliers of couplers to further raise their price to Bosa in 2022.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is principally engaged in providing mechanical splicing services to the reinforced concrete construction industry in Hong Kong. The Group's customers are primarily main contractors and subcontractors of various types of reinforced concrete construction projects in Hong Kong. Construction projects that the Group service can generally be categorised into public sector projects and private sector projects.

The Group will continue to cautiously monitor the business opportunities and continue to strengthen its competitiveness in the market to enhance the profitability of the Group and interests of the shareholders of the Company.

OUTLOOK

The overall construction business in Hong Kong is expected to remain steady in the short to medium term and the Hong Kong government is likely to provide stimulus to the local economy. Yet, the COVID-19 pandemic, the US-China relationship and the geopolitical tensions continue to pose uncertainties to the Hong Kong economy. The appreciation of TW\$ and the raise in steel price will also drive up the material cost and the gross margin may be eroded. The Group will monitor prudently the selling price to the customers and the purchases price of couplers from Taiwan to ensure the business of the Group maintaining a reasonable gross margin.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

Revenue

For the three months ended 30 September 2021 (the “Period”), all of the Group’s revenue was generated from services of processing and connecting reinforcing bars in Hong Kong. Accordingly, the Group has only one single operating segment and one geographical segment.

The Group’s revenue increased by approximately HK\$5.6 million or 25.7% from approximately HK\$21.6 million for the three months ended 30 September 2020 to approximately HK\$27.2 million for the Period, which was mainly attributable to increase in quantity of couplers sold during the Period and increase in number of new infrastructure projects for splicing system.

Cost of Sales

The Group’s cost of sales consists primarily of coupler supplies, direct labour costs, direct overheads (including electricity charged and depreciation charges), consumables and rental costs for workshops. Direct labour costs comprise of labour costs of workers at workshops and direct overhead comprise of overhead of workshops. Consumables comprise of machine parts, such as springs and screws for equipment repair and maintenance, remote controls and devices for equipment operations at workshops.

The Group’s cost of sales increased by approximately HK\$2.5 million or 18.6% from approximately HK\$13.7 million for the three months ended 30 September 2020 to approximately HK\$16.2 million for the Period, which was in line with the increase in revenue during the Period.

Gross Profit

The Group’s gross profit increased by approximately HK\$3.0 million or 37.8% from approximately HK\$8.0 million for the three months ended 30 September 2020 to approximately HK\$11.0 million for the Period, which was mainly due to reasons disclosed above.

MANAGEMENT DISCUSSION AND ANALYSIS

Other Income

The Group's other income decreased by approximately HK\$0.6 million or 31.9% from approximately HK\$1.9 million for the three months ended 30 September 2020 to approximately HK\$1.3 million for the Period, which was mainly attributable to (i) the increase in handling charges of approximately HK\$0.3 million from approximately HK\$0.6 million for the three months ended 30 September 2020 to approximately HK\$0.9 million for the Period but (ii) there is no more receipt of subsidy of under the Employment Support Scheme of the Hong Kong SAR Government during the Period (2020: HK\$1.1 million).

Administrative Expenses

The Group's administrative expenses increased by approximately HK\$0.4 million or 9.8% from approximately HK\$4.2 million for the three months ended 30 September 2020 to approximately HK\$4.6 million for the Period, which was mainly attributable to the increase in directors' remunerations.

Profit for the Year

The Group recorded a profit of approximately HK\$5.9 million for the Period, representing an increase of approximately HK\$1.2 million or 25.2% over the corresponding period of the previous year.

Liquidity and Financial Resources

The Group practiced prudent financial management and maintained a strong and sound financial position during the three months ended 30 September 2021. As at 30 September 2021, the Group had bank balances of approximately HK\$87.8 million (30 June 2021: approximately HK\$72.5 million) and the current ratio (current assets divided by current liabilities) of the Group was 4.2 times as at 30 September 2021 (30 June 2021: 4.1 times). The Group's gearing ratio, representing total borrowings divided by total equity, was Nil as at 30 September 2021 (2020: Nil). In view of the Group's current level of cash and bank balances, funds generated internally from operations, the Board is confident that the Group will have sufficient resources to meet its financial needs for its operations.

MANAGEMENT DISCUSSION AND ANALYSIS

Foreign Exchange Exposure

The Group purchased all of the couplers used in business operations from Taiwan. These purchases were denominated in TWD. The Group expects to continue to make coupler purchases in Taiwan in the near future. Accordingly, fluctuations in TWD against HK\$ may result in exchange losses or gains and affect the results of operations.

The management considered that the Group has sufficient foreign exchange to meet its foreign exchange liabilities as they become due, which will be funded by our cash generated for operating activities. The Group has not entered into any agreement to hedge exchange rate exposure relating to TWD and will continue to monitor its foreign exchange exposure. The Group will consider hedging significant foreign currency exposure should the need arises and no derivative financial instruments were held by the Group as at 30 September 2021 for speculative purposes.

Contingent Liabilities

As at 30 September 2021, the Group was involved in a litigation related to claims of defamation and malicious falsehood against a subsidiary of the Company for alleging that plaintiff's coupler system infringes the patent of BOSA R&D. Having considered merits and the possible damages of the said legal proceedings as advised by the legal counsel of the Group, the directors of the Company are of the view that no provision for contingent liabilities is required to be made as at 30 September 2020 and 2021 in this regard.

Dividend

The board of directors (the "Board") does not recommend the payment of dividend in respect for the Period (for the three months ended 30 September 2020: Nil).

Pledge of Assets

The Group's obligations under finance leases were secured by the lessor's charge over the leased assets. As at 30 September 2021, the Group had secured and unguaranteed obligations under finance leases of approximately HK\$602,000 (as at 30 June 2021: approximately HK\$646,000), which were secured by motor vehicles of the Group.

MANAGEMENT DISCUSSION AND ANALYSIS

Save as disclosed above, the Group did not have pledged assets as at 30 September 2021 (as at 30 June 2021: Nil).

Capital Structure

The Company was incorporated in Cayman Islands and registered as an exempted company with limited liability under the Cayman Companies Law on 24 October 2016. Its shares were listed on GEM of the Stock Exchange on 12 July 2018. The Company's capital comprises ordinary shares and capital reserves. The Group finances its working capital, capital expenditures and other liquidity requirements through a combination its cash and cash equivalents and cash flows generated from operations.

Future Plans for Material Investment and Capital Assets

The Group did not have any other plans for material investment and capital assets as at 30 September 2021 save for the acquisition of a parcel of land to open new workshop in Hong Kong. Details of the implementation plan were set out in the Prospectus under the section "Future Plans and Use of Proceeds".

Significant Investments Held, Acquisitions and Disposals

There were no significant investments held, acquisitions or disposals of subsidiaries, associates, joint venture and affiliated companies by the Group during the Period.

The Group did not have any other plans for significant investments, acquisitions or disposals of subsidiaries, associates, joint venture and affiliated companies as at 30 September 2021.

Use of Listing Proceeds

The Company's shares were listed on GEM of the Stock Exchange on 12 July 2018 for which the Company issued 200,000,000 new shares at HK\$0.30 per share. The net listing proceeds received by the Company, after deducting underwriting fees and other related expenses, are approximately HK\$37.8 million. These proceeds are intended to be applied in the manner as described in the section headed "Future Plans and Use of Proceeds" in the Prospectus. The future plan and scheduled use of proceeds as disclosed in the Prospectus were based on the best estimation of future market conditions made by the

MANAGEMENT DISCUSSION AND ANALYSIS

Group at the time of preparing the Prospectus, while the proceeds were applied with consideration of the actual development of business and market. As at the date of this report, the Group does not anticipate any material change to the plan as to the use of listing proceeds. All unused net proceeds have been placed as interest bearing short-term demand deposits with licensed bank in Hong Kong. Barring any unforeseen circumstances, the remaining proceeds will be utilised by 31 December 2022.

Comparison Between Business Objectives and Actual Business Progress

The below table sets out the proposed applications of the net proceeds as set out in the Prospectus and the unutilized amount as at 30 September 2021:

MANAGEMENT DISCUSSION AND ANALYSIS

As at date of this report, the remaining amount of approximately HK\$36.4 million were expected to be utilized in the same manner as disclosed in the Prospectus based on the flowing timeline:

Acquire a parcel of land to open a new workshop

As at date of this report, approximately HK\$35.3 million allocated for acquiring a parcel of land to open a new workshop has not been utilized by the Group, which was planned to be completed during the period from 1 July 2018 to 31 December 2018 as set forth in the Prospectus. In light of the uncertainty and potential adverse impact on the local economy and residential industry caused by the social unrest associated with the anti-extradition bill protests and the unforeseeable ending of the COVID-19 pandemic, the long lasting China and US political tension and high increment in land price after the listing, the Group has adopted a more cautious approach in evaluating a suitable parcel of land. Apart from the selection criteria as set forth in the Prospectus, the Group needs to take into consideration investment return, profitability of acquisition in the latest market condition, synergy effect with the Group and challenges and expenses that could arise from integrating with the acquisition of a parcel of land. The Board considers that the delay had no material adverse impact on the business operation and financial position of the Group.

Since Listing, the management of the Group has established a location selection committee and were in the course of identifying a potential parcel of land for opening a new workshop. As the acquisition of a parcel of land to open a new workshop was considered a crucial factor in determining the long-term growth and future success, the Group will require more time to identify suitable potential workshop location based on the factors identified above, and it is expected that the unutilized net proceeds will be fully utilized on or before 31 December 2022.

Placing resources into research and development

According to the Prospectus, the planned use of net proceeds (as adjusted on a pro rata basis based on the actual net proceeds raised) for spending on research and development by 31 December 2018 is approximately HK\$2.4 million. The actual use of the net proceeds up to 30 September 2021 is approximately HK\$1.3 million. The actual used amount was less than the planned use amount primarily because (i) there was a delay in opening a new workshop as mentioned above; and (ii) the Group has taken a longer time to assess and implement the research and development plan in a proper manner.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group will continue to seek for suitable research and development opportunities with a view of enhancing the quality and cost-effectiveness of our existing mechanical splicing services, and reducing overhead costs and servicing time. It is expected that the unutilized net proceeds for research and development will be fully utilized on or before 31 December 2022.

The expected timeline for the full deployment of the unutilised proceeds disclosed above is based on the best estimation from the Board with the latest information and market condition as at the date of this report. The Board confirms that there is no material change in the business nature of the Group as set out in the Prospectus and the Group considers that the delay in the use of proceeds does not have any material adverse impact on the operation of the Group. However, due to the adverse impacts of the outbreak of COVID-19 on worldwide economies, the Board will continue to closely monitor the situation and evaluate the effects on the timeline to deploy the unutilised proceeds and keep shareholders and potential investors informed if there are any material changes.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

1. CORPORATE INFORMATION

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of the Cayman Islands. The Company's shares have been listed on GEM of the Stock Exchange with effect from 12 July 2018.

The Company is an investment holding company and its subsidiaries are principally engaged in provision of mechanical splicing services to the reinforced concrete construction industry in Hong Kong.

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated first quarterly financial statements have been prepared in accordance with the accounting principles generally accepted in Hong Kong which include Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the applicable disclosure requirements of GEM Listing Rules.

These unaudited condensed consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements of the Group for the year ended 30 June 2021.

Except as described below, the accounting policies and methods of computation used in the preparation of the unaudited condensed consolidated financial statements are consistent with those adopted in preparing the annual audited consolidated financial statements for the year ended 30 June 2021.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES (continued)

In the current period, the Group has applied the following new or revised Hong Kong Financial Reporting Standards (“new HKFRSs”) issued by the HKICPA which are or have become effective.

HKFRS 16	Leases
HK(IFRIC)-Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015–2017 Cycle

Except for the new and amendments to HKFRS mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 Leases and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. In addition, HKFRS 16 requires sales and leaseback transactions to be determined based on the requirements of HKFRS 15 as to whether the transfer of the relevant asset should be accounted as a sale, HKFRS 16 also includes requirements relating to subleases and lease modifications.

Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES (continued)

HKFRS 16 Leases (continued)

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents operating lease payments as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows.

Under HKAS 17, the Group has already recognised an asset and a related finance lease liability for finance lease arrangement where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

In contrast to lessee accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

3. REVENUE

Revenue represents the fair value of amounts received and receivable for the services provided and net of discount during the Period. The Group's operations and revenue is solely derived from provision of mechanical splicing services in Hong Kong during the Period. Accordingly, the Group has only one single operating segment and no further analysis of this single segment is presented.
