## MANAGEMENT DISCUSSION AND ANALYSIS

The Group's operations, financial performance and condition were affected by the outbreak of the COVID-19 (the "Pandemic") during the six-month period ended 30 September 2021. Since June 2019, consumers' sentiment became sluggish and the demand for dining and catering was affected in the midst of widespread social movements across the territory. The financial performance of the Group was further worsened by the Pandemic. The Pandemic severely diminished the demand for dining and catering. In response to the Pandemic, the Hong Kong government imposed certain anti-pandemic measures and consumers generally preferred to stay home, avoid dining out and maintain social distancing. Accordingly, the service capability of the restaurants operated by the Group was reduced and the number of customers visiting the Group's restaurants has decreased. In order to cope with the difficulties faced by the Group, the management of the Group adopted cost control measures and periodically evaluated our business strategies. As a result, the Group's revenue gradually recovered from the negative impacts of the Pandemic to our existing restaurants. As at the date of this interim report, the development of the Pandemic remains uncertain. In response to the uncertainty in the Hong Kong economy and in particular the catering industry, the Group will take conservative and prudent business strategies in order to support daily business operations and to cope with the economic uncertainty in the near future, as well as identifying and exploring other business opportunities to achieve stable return.

The Group has obtained a money lenders licence in Hong Kong under the Money Lenders Ordinance (Chapter 163 of Laws of Hong Kong). In view of the uncertainty in the Hong Kong economy, the Group may carry out the money lending business, which will be funded by the Group's internal resources, if the Group sees fit. During the six-month period ended 30 September 2021, the Group has not yet commenced the money lending business.

The casual dining food catering services has been and will continue to be the core business of the Group.

### Gross profit and gross profit margin

The Group's gross profit, which is equal to revenue minus cost of inventories sold, for the six-month period ended 30 September 2021 was approximately HK\$17.9 million, representing an increase of approximately 3.5% from approximately HK\$17.3 million for the six-month period ended 30 September 2020. The relatively high and stable gross profit margin for the restaurants operating for the six-month periods ended 30 September 2020 and 2021 were attributable to the centralisation of purchases in bulk orders and the discounts through the centralised warehouse services from a services provider to the Group.

### CONTINGENT LIABILITIES

Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities, which are denominated in a currency that is not the functional currency of the Group.

The Group is not exposed to foreign exchange risk in respect of HK\$ against the USD as long as this currency is pegged.

Since the transactions and monetary assets denominated in RMB are minimal for the six-month periods ended 30 September 2020 and 2021, the Group considers that there was no significant foreign exchange risk in respect of RMB for both periods.

At 30 September 2020 and 2021, the Group’s maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

## MANAGEMENT DISCUSSION AND ANALYSIS

### PRINCIPAL RISKS AND UNCERTAINTIES

The following are the principal risks and uncertainties faced by the Group, which may materially and adversely affect its business, financial condition or results of operations:

1. The Group's revenue derived from restaurants in Hong Kong may experience fluctuations from period to period due to seasonality and other factors.
2. All of the Group's revenue was derived from the restaurants in urban area in Hong Kong during the period under review, therefore the Group's operation may be affected by any future development in urban area of Hong Kong.
3. During the six-month period ended 30 September 2021, the Group generated all of our revenue in Hong Kong. If Hong Kong experiences any adverse economic condition due to events beyond our control, such as natural disasters, contagious disease outbreaks, terrorist attacks, a local economic downturn, mass civil disobedience movements or if the local authorities place additional restrictions or burdens on us or on our industry in general, our overall business and results of operations may be materially and adversely affected. Recently, the Group's revenue decreased due to (i) the outbreak of the Pandemic; and (ii) the recent social unrest in Hong Kong arising from the protests.

Cost of inventories sold, staff costs and property rentals and related expenses contributed the majority of the Group's operating cost. The following factors are uncertain and may affect the cost control measures of our Group:

1. The Group's business depends on reliable sources of large quantities of food ingredients such as vegetable and meat. The price of food ingredients may continue to rise or fluctuate.
2. Minimum wage requirements in Hong Kong was raised from HK\$34.5 per hour to HK\$37.5 per hour with effect from 1 May 2019, and may further increase and affect our staff costs in the future.
3. At 30 September 2021, the Group licensed or leased all the properties for its restaurants operating in the urban area of Hong Kong. Therefore, the Group is exposed to risks relating to the commercial real estate rental market, including unpredictable and potentially high occupancy costs.

### FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Saved as disclosed in this report, the Group did not have other plans for material investments and capital assets at 30 September 2021.

## MANAGEMENT DISCUSSION AND ANALYSIS

### PROSPECT

Our strategic objective is to continue to strengthen our position in operating restaurants in the urban area of Hong Kong, and strategically looking for opportunities to introduce popular restaurant brands to the urban area of Hong Kong through franchising or other cooperative arrangements.

However, due to the adverse impact of the internal and external environment such as economic recession and the Pandemic, we decided to take conservative and prudent business strategies in order to support daily business operations and to cope with the economic uncertainty in the near future. In view of these uncertainties and the existing market conditions, we will focus on maintaining sufficient general working capital to support the daily business operation of the Group, and also will carefully look at the business trends as well to determine if there is a strong entrepreneurial environment for us to lean on. We shall thus remain conservative and prudent towards its profitability in the coming months and will continue to manage the Group's expenditure and keep monitoring and searching for market opportunities for our expansion plan in order to improve financial performance.

Looking ahead, we will endeavour to strengthen the development of its existing businesses and to provide steady return as well as growth prospects for the Shareholders.

### CORPORATE GOVERNANCE PRACTICE

The shares of the Company (the "**Shares**") have been successfully listed on the GEM of the Stock Exchange on 8 August 2016 (the "**Listing Date**"). The Board recognized that the transparency and accountability are important to a listed company. Therefore, the Company is committed to maintaining high standards of corporate government in order to uphold the transparency of the Group and safeguard interests of the Shareholders.

The Company has adopted the Corporate Governance Code (the "**CG Code**") as set out in Appendix 15 to the GEM Listing Rules. In the opinion of the Board, the Company has complied with the CG Code for the six-month period ended 30 September 2021, except for the deviations of Code Provisions A.2.1.

### CHAIRMAN AND CHIEF EXECUTIVE

Paragraph A.2.1 of the CG Code stipulates that the roles of Chairman and Chief Executive Officer should be separate and should not be performed by the same individual. Mr. Wong Man Wai is the Chairman and the Chief Executive Officer of the Company. Considering that Mr. Wong Man Wai has been operating and managing the Group since 2004, the Board believes that it is in the best interest of the Group to have Mr. Wong Man Wai taking up both roles for effective management and business development. Therefore, the Board considers that the deviation from paragraph A.2.1 of the Code is appropriate in such circumstance.
