Third Quarterly Report 2021

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Orange Tour Cultural Holding Limited (the "Company", together with its subsidiaries, the "Group") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. ## MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW AND OUTLOOK

The Group is a marketing services company headquartered in Yixing of the PRC with a principal focus on the provision of (i) event management services; and (ii) design and production services. Commenced its business under its predecessor, the Group has accumulated over 14 years of experience in the provision of marketing services. Over the years, the Group has developed well-established relationships with customers from governmental and commercial sectors in the PRC.

The Group recorded a net profit of approximately RMB1.4 million for the nine months ended 30 September 2021 as compared with a net loss of approximately RMB3.6 million for the nine months ended 30 September 2020. The increase in the net profit was primarily attributable to the increase in revenue for the nine months ended 30 September 2021 as comparing with the same period in 2020, which resulted from the increase of demand and contract value for new contracts during the period under the gradual recovery of the general economy in the PRC.

The China economy continued to recover gradually in the third quarter during 2021. However, the economic recovery was still uneven among different industries. With travel restrictions remaining in place and various public health emergency policies remaining imposed, certain sectors such as marketing and media industry continues to be challenging under the haze brought by the novel coronavirus (COVID-19) epidemic (the "Epidemic"). Under this background, the Group was still facing difficulties of unceasing delay or cancellation of the schedules and a slump in the demand for the services. Moreover, market players have continued to operate with a reduced marketing budget and spend cautiously throughout the year. For the incoming future, the Group expects the operating result will determine by the pace of economic recovery in the PRC. If the effects of the pandemic were somewhat dissipated, the Group believes the market demand would bounce back and business activities would gradually recover. Meanwhile, the Directors will continue to assess the impact of the Epidemic on the Group's operation and financial performance and closely monitor the Group's exposure to the risks and uncertainties in connection with the Epidemic. The Group will take appropriate measures as and when necessary.
