DIRECTOR'S STATEMENT

董事報告書

On behalf of the board (the "Board") of directors of the Company, I hereby present the Group's results for 2021 to our shareholders.

Under the COVID-19 pandemic, protracted social distancing restrictions and cautious Hong Kong and Singapore media business posted constant challenges to our business. Nevertheless, we have strengthened our operational capabilities and overall competitiveness throughout the years for customer retention either in Hong Kong or Singapore. During the year, we grasped the opportunities in media services in Hong Kong and achieved a good performance. We believe the demand of the media business will stay strong in long term and our group is well positioned to capitalize the opportunity. Meanwhile, we devoted substantial effort in integrating sustainability practices into our daily operations to create value for our stakeholders.

Despite these turbulent times, we strive to continuously adapt and transform ourselves to the new norm under the COVID-19 pandemic. It has toughened our people to manage and overcome the challenges which have brought about a new set of challenges extensively. We are confident that we will be able to weather through this storm with resilience and determination.

Finally, on behalf of the Board, I would like to extend sincere gratitude to all shareholders, customers, suppliers and business partners for their continuing support, and also to members of the Board, the management, and employees who have been dedicating to the development of the Group, for their invaluable contributions.

Mr. Wang Tao
Executive Director

Hong Kong, 31 March 2022

本人謹此代表本公司董事會（「董事會」）向股東呈報本集團二零二一年的業績。

由於2019冠狀病毒病疫情反反覆覆，社交距離措施一再延長，香港及新加坡媒體業趨於謹慎，對我們的業務營運帶來重重挑戰。儘管如此，這幾年我們不斷加強營運能力及整體競爭力，盡力留住香港及新加坡的客戶。年內，我們把握香港媒體服務的機遇，並取得良好表現。我們認為，長遠而言，媒體業的需求將保持強勁，而本集團正蓄勢待發，時刻準備著把握機遇。與此同時，我們致力將可持續發展實踐融入日常營運，為持份者創造價值。

面對動盪的形勢，我們努力不斷調整及進行轉型，以適應疫情下的新常態。在應對及克復一系列新的挑戰及困難的過程中，我們的團隊變得愈加堅韌。我們有信心，憑藉這份堅忍不拔、頑強拚搏的精神，我們定能安然渡過這段艱難時期。

最後，本人謹代表董事會就全體股東、客戶、供應商及業務夥伴的長期支持向彼等表達衷心謝意，亦謹此衷心感謝致力於為本集團的發展做出寶貴貢獻的董事會成員、管理層及僱員。

執行董事
王濤先生

MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論及分析

RESULTS

For the year ended 31 December 2021, the Group are principally engaged in (i) travel media operations with provision of advertising services through the internet and travel magazines, event organizing services and magazine publication (“Travel Media Business”) (ii) provision of contents and advertising services in multiple well known financial magazines distributed in The People’s Republic of China (“PRC”) and provision of advertising services through the internet and others media channels (“Financial Magazine And Other Media Business”); (iii) investment in securities (“Securities Investment”); (iv) money lending (“Money Lending Business”); and (v) virtual reality business (“Virtual Reality Business”).

The Group’s total revenue increased by HK\$22.5 million or 54.6%, from HK\$41.2 million last year to HK\$63.7 million for the year ended 31 December 2021 primarily due to the revenue increase from Financial Magazine and Other Media Business.

Gross profit of the Group was HK\$27.2 million for the year ended 31 December 2021, representing an increase of HK\$6.2 million or 29.5% as compared with HK\$21 million in 2020. Gross profit margin for the year reached approximately 42.7% (2020: 51.0%), representing a decrease of 8.3% over the last year.

The Group recorded other income, gains and losses in the net gain amount of HK\$4.7 million during the year, compared with HK\$10.0 million net gain in the corresponding period of 2020, which was mainly due to an increase in loss on held for trading investments in 2021 and decrease of dividend income from financial assets at fair value through profit or loss by HK\$6.1 million or 81.3% from HK\$7.5 million last year to HK\$1.4 million for the year ended 31 December 2021.

The impairment approach in HKFRS 9 is based on expectations as opposed to incurred losses under the predecessor accounting standard. This means it is not necessary for a loss event to occur before credit losses are recognised. Instead, a loss allowance is recognised for expected credit losses and is remeasured at each reporting date for changes in those expected credit losses. HKFRS 9 is purposefully designed to be forward looking and reflect expectations of future credit events impacting loans and receivables on the statement of financial position. It is important when determining what ‘forward looking’ information should be used as it must reflect the forward-looking information that existed at the reporting date.

業績

截至二零二一年十二月三十一日止年度，本集團主要從事(i)透過互聯網及旅遊雜誌提供廣告宣傳服務、舉辦活動服務及出版雜誌之旅遊媒體業務(「旅遊媒體業務」)；(ii)向多家於中華人民共和國(「中國」)發行之知名財經雜誌提供內容及廣告宣傳服務以及透過互聯網及其他媒體渠道提供廣告服務(「財經雜誌及其他媒體業務」)；(iii)證券投資(「證券投資」)；(iv)放債(「放債業務」)；及(v)虛擬現實業務(「虛擬現實業務」)。

本集團截至二零二一年十二月三十一日止年度之總營業額由去年的41,200,000港元增加22,500,000港元或54.6%至63,700,000港元，乃主要由於財經雜誌及其他媒體業務營業額增加所致。

截至二零二一年十二月三十一日止年度，本集團之毛利為27,200,000港元，較二零二零年的21,000,000港元增加6,200,000港元或29.5%。本年度之毛利率約為42.7% (二零二零年：51.0%)，較去年減少8.3%。

於本年度，本集團錄得其他收入、收益及虧損為收益淨額4,700,000港元，而二零二零年同期為收益淨額10,000,000港元，此乃主要由於二零二一年持作買賣投資之虧損增加及按公允價值計入損益的金融資產的股息收入由去年的7,500,000港元減少6,100,000港元或81.3%至截至二零二一年十二月三十一日止年度的1,400,000港元。

香港財務報告準則第9號的減值方法乃基於預期，而非如先前會計準則基於實際產生之虧損。這意味著發生虧損事件不是確認信貸虧損的前置條件。相反，虧損撥備就預期信貸虧損確認，並於各報告日期就該等預期信貸虧損的變動予以重新計量。香港財務報告準則第9號乃特為前瞻性而設計，並反映對影響財務狀況表的貸款及應收款項的未來信貸事件的預期。該設計於釐定應採用何種「前瞻性」資料時至關重要，因為其必須反映於報告日期存在的前瞻性資料。

MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論及分析

At the reporting date, the COVID-19 pandemic was affecting all major economic and financial markets, resulting in many sectors facing challenges associated with the economic conditions. As the pandemic evolved, the management expected all entities to experience conditions often associated with a general economic downturn, including, but not limited to, financial market volatility and erosion, deteriorating credit, liquidity concerns, further increases in government intervention, increasing unemployment, broad declines in consumer discretionary spending, increasing inventory levels, reductions in production because of decreased demand, layoffs and other restructuring activities. Contingent on the continuation of these circumstances a potential broader economic downturn could result with a prolonged negative impact on the Group's financial results.

In determining the recoverability of the trade receivables, the management had from time to time during the financial period, communicated with the debtors about their financial condition.

Based on the Group's understanding from the foregoing communication and the results of its review on their respective financial information and after taking into account their repayment history and certain forward-looking factors specific to each of them, especially on the effect on the COVID-19, the Group recorded the reversal of impairment loss under expected credit loss model, net of approximately HK\$5.7 million (2020: HK\$20.7 million). Loss on impairment of financial assets mainly included loss on impairment on the accounts receivables in the sum of HK\$6.9 million (2020: HK\$19.5 million). The Group made full provision for impairment losses on accounts receivable when the borrowers with overdue payments for more than 12 months. The Directors considered that the amount of the impairment loss was fair and reasonable.

The selling and distribution costs increased by HK\$3.4 million to HK\$6.8 million during the year (2020: HK\$3.4 million), representing an increased of 100% against the year of 2020. The administrative expenses increased by approximately HK\$16.9 million to approximately HK\$52.4 million during the year (2020: HK\$35.5 million) representing an increased of 47.6% against the year of 2020.

As a result, the loss attributable to owners of the Company was HK\$22.1 million for the year ended 31 December 2021 as compared with a loss of HK\$23.6 million in 2020.

During the current year, the Group recognised government grants of approximately HK\$7.6 million (2020: HK\$4.5 million) in respect of COVID-19 related subsidies.

於報告日期，2019冠狀病毒病疫情影響所有主要經濟及金融市場，導致許多行業面臨與經濟狀況相關之各種挑戰。隨著疫情不斷演變，管理層預期所有實體將面臨與整體經濟衰退相關的狀況，包括但不限於金融市場波動及衰退、信貸惡化、流動資金問題、政府干預進一步增加、失業率上升、消費者可支配支出普遍下降、存貨水平上升、需求減少導致生產收縮、裁員及其他重組活動。倘該等情況持續，潛在的更廣泛的經濟衰退可能會對本集團的財務業績造成長期負面影響。

於釐定貿易應收款項的可收回性時，管理層於本財政期間不時與債務人就其財務狀況進行溝通。

基於本集團對上述溝通的了解及其對彼等各自財務資料的審閱結果，並經考慮彼等各自的還款記錄及若干特定前瞻性因素，尤其是2019冠狀病毒病疫情帶來的影響，本集團於預期信貸虧損模式項下錄得減值虧損撥回淨額約5,700,000港元（二零二零年：20,700,000港元）。金融資產之減值虧損主要包括應收賬款減值虧損6,900,000港元（二零二零年：19,500,000港元）。本集團於借款人之付款逾期超過12個月時就應收賬款減值虧損悉數作出撥備。董事認為相關減值虧損金額屬公平合理。

於本年度，銷售及分銷成本增加3,400,000港元至6,800,000港元（二零二零年：3,400,000港元），較二零二零年增加100%。行政開支於年內增加約16,900,000港元至約52,400,000港元（二零二零年：35,500,000港元），較二零二零年增加47.6%。

因此，截至二零二一年十二月三十一日止年度，本公司持有人應佔虧損為22,100,000港元，而二零二零年虧損為23,600,000港元。

於本年度，本集團就2019冠狀病毒病疫情相關補貼確認政府補助約7,600,000港元（二零二零年：4,500,000港元）。

BUSINESS REVIEW

Industry Review

Market Overview

According to World Travel & Tourism Council (WTTC), the effect of COVID-19 pandemic has emphasised the importance and contribution of Travel & Tourism to the world economy. The ongoing restrictions to international travel has resulted in almost USD4.7 trillion losses in 2020 for the travel sector. Domestic visitor spending decreased by 45%, whilst international visitor spending fell by an unprecedented 69.4%.

In 2020, 62 million jobs were lost, leaving just 272 million employed across the travel sector globally. This affected the entire Travel & Tourism ecosystem, with small and medium sized enterprises (SMEs) being particularly affected. Earlier research indicated that if international travel resumed by June 2021, the 62 million jobs lost in 2020 could return before the end of 2022. However with international travel resumption nowhere in sight, the trend continued in 2021 with millions of Travel & Tourism jobs in the balance.

As the Travel and Tourism sector represents over 10 percent of global GDP, the recovery of the sector is more crucial than ever to world economy, and is very much dependant on an international coordinated response to the resumption of international travel. With recovery hampered by the lack of international coordination, travel restrictions and slower vaccination rates, the situation has prevented the Travel & Tourism sector to once again support the millions of livelihoods affected by the pandemic.

As a result, the event organizing services of the Group for the year was significantly impacted as it is very much dependant on clients from the travel sector.

Publishing

The publication of TTG e-Daily online newsletter and travel and financial magazine maintains a strong presence in the market place. Advertisement slots in our publications have been offered primarily as e-Ads on our digital platforms which partly explains the higher YOY revenue from digital/online platforms.

業務回顧

行業回顧

市場概覽

根據世界旅遊及旅行理事會(WTTC)資料，2019冠狀病毒病疫情效應凸現了旅遊行對世界經濟的重要性及貢獻。國際旅行持續受到限制，導致二零二零年全球旅遊業損失近4.7萬億美元。國內遊客消費下降45%，而國際遊客消費下降幅度更是達至前所未見的69.4%。

於二零二零年，全球旅遊業共裁減6,200萬個崗位，剩下2億7,200萬從業人員。這影響了整個旅遊業生態系統，尤其是中小型企业(中小企業)受到最大影響。早前研究顯示，倘國際旅行於二零二一年六月前恢復，二零二零年裁減的6,200萬個崗位有望於二零二二年底前恢復。然而，國際旅行恢復仍是遙遙無期，二零二一年旅遊業裁員潮不減，數百萬崗位岌岌可危。

由於旅遊業佔全球生產總值超過10%，其復甦對全球經濟而言比以往更為重要，而這在很大程度上取決於全球各國應對恢復國際旅行的協調方案。由於缺乏國際協調、旅行限制及疫苗接種率增速放緩，旅遊業復甦受阻，依然無力緩解疫情對以旅遊業為生的數百萬人生計的影響。

由於高度依賴旅遊業的客戶，本集團的活動舉辦服務於年內受到嚴重衝擊。

出版業務

TTG 電子報網上時事通訊以及旅遊與財經雜誌在市場上保持強勢地位。刊物中的廣告版位主要轉為在數字平台上投放的電子廣告，這亦是來自數字/線上平台的營業額同比增長的原因之一。

MANAGEMENT DISCUSSION AND ANALYSIS

管理層討論及分析

The Group's revenue mainly coming from print publications and online and digital platforms. During the COVID-19 pandemic, the Group discovered that more advertisers are shifting focus towards online and digital advertising the Group timely grasped the opportunities in media services during the year.

Outlook for 2022

The surge in COVID-19 cases towards the end of 2021 caused by the Omicron variant has continued to affect the market negatively in the short-term. However, medical reports indicate and suggest that the Omicron variant causes less severe illness than the earlier COVID-19 variants. In light of this, ground sentiment appears to be hopeful but recovery is still very much dependent on policies of individual countries.

The Greater China region, for example, has tightly controlled its borders in accordance with their zero COVID-19 case tolerance policy. This is unlike several other countries which have moved to-wards accepting and treating the virus as an endemic and therefore more open to allowing inter-national travel and tourism. For countries in the Asia-Pacific region whose GDP is significantly reliant on tourism receipts, the economic toll and internal demands are likely to prompt further easing of travel restrictions in the long term, as governments look towards sustainable economic recovery.

Regionally, recent retightening of borders due to the Omicron variant is likely to ease when the situation stabilises, especially in light of the aforementioned internal economic pressures within various countries. National Tourism Organisations (NTOs) from countries such as Malaysia, the Philippines, Thailand, and Singapore, among others, appear to be moving forward with promotional and marketing activities as travel resumption becomes imminent. The Group will leverage on this optimism and continue to push for revenue, with particular focus on the digital space in 2022.

本集團的營業額主要來自印刷刊物以及線上及數字平台。於2019冠狀病毒疫情期間，本集團發現更多廣告商將重心轉移至線上及數字廣告。本集團於年內已及時把握媒體服務的機遇。

二零二二年展望

由於出現傳染力極強的2019冠狀病毒變異株奧密克戎，二零二一年底感染病例激增，短期內將持續對市場產生負面影響。不過，醫療報告顯示，相較早期的2019冠狀病毒變異株，奧密克戎變異株導致的疾病嚴重程度較輕。有見及此，市場情緒較為樂觀，但復甦在很大程度上仍取決於各個國家的政策。

例如，大中華地區採取「零容忍」防疫政策，因而嚴格控制邊境。與此相對，多個其他國家已轉向接納2019冠狀病毒的存在並視其為一種流行病，因此更傾向於開放國際旅行及旅遊。就亞太區內國內生產總值主要依賴旅遊收入的國家而言，從長遠來看，由於政府尋求經濟可持續復甦，經濟損失及內部需求很可能會促使其進一步放寬旅行限制。

從區域來看，隨著形勢穩定，特別是考慮到上述多個國家內部的經濟壓力，近期因奧密克戎變異毒株而再度收緊的邊境政策有望放寬。鑒於恢復旅遊已是迫在眉睫，馬來西亞、菲律賓、泰國及新加坡等國家的國家旅遊組織似乎已著手進行推廣宣傳活動。於二零二二年，本集團將利用此樂觀情緒，繼續努力創造收益，並重點關注於數字領域的發展。

Travel Media Business

For the year ended 31 December 2021, the Travel Media Business recorded a revenue of HK\$15 million, decreased by 32.4% or HK\$7.2 million as compared with that of HK\$22.2 million in 2020. This amount represented 23.5% of the Group's total revenue for the year under review.

The business recorded a segment gain of HK\$2.5 million this year, representing an increase of HK\$6.5 million with that a segment loss of HK\$4 million in last year. The increase was mainly due to the government grant of approximately HK\$7.6 million.

Financial Magazine And Other Media Business

PROSPECT

Looking back at the Sino-US trade disputes over the past year, even though China and the US had signed the phase one trade agreement, the outlook for international trade is still clouded by remaining uncertainties. Coupled with the plight brought about by the outbreak of COVID-19 across the world in 2021, the global economy and consumer sentiment has been affected, and the operating environment will remain difficult.

In view of the uncertainty as to when the COVID-19 pandemic might come to an end, the business environment in the first half of 2022 will continue to remain challenging for the Group. Above all, while the various countries and the global population is actively fighting against the COVID-19 epidemic, it is uncertain how it will impact the global economy in the near future. In response, the Group will continue to sharpen its strategies and monitor the external environment and internal resources carefully to meet the Group's business development.

Our travel media business has been affected seriously and the operating environment will remain difficult. We will remain highly alert about the impact of the epidemic on our operations and take any necessary measures to mitigate the impact.

前景

回顧過去一年的中美貿易爭端，儘管中國與美國已簽署第一階段貿易協議，惟國際貿易的前景仍被其他不確定性所籠罩。加上二零二一年世界各地爆發2019冠狀病毒病帶來的困境，全球經濟及消費者情緒已經受到影響，經營環境仍然困難重重。

鑒於2019冠狀病毒病疫情何時結束仍是未知之數，對本集團而言二零二二年上半年的經營環境仍將充滿挑戰。最重要的是，儘管各個國家及全球人民都在積極應對2019冠狀病毒病疫情，但仍無法確定疫情在不久將來會對全球經濟造成何等影響。為應對該等挑戰，本集團將繼續優化策略及監察外部環境及內部資源以滿足本集團的業務發展。

我們的旅遊媒體業務受到嚴重影響，經營環境仍然艱難。對於疫情對我們營運的影響，我們仍將保持高度警惕，並採取必要措施減輕影響。

Being the Travel Media Business recorded a decrease of revenue by approximately 71.1% to approximately HK\$22.2 million for the year ended of 2020 from approximately HK\$76.8 million for the year ended of 2019. Indeed, COVID-19 pandemic was not going away any time soon and with the expected prolonged tough time ahead, the Company implemented further cost cutting measures to conserve cash flow as well as introduce non-traditional and new sources of revenue. Accordingly, impairment on goodwill allocated to Travel Media Business of approximately HK\$31.2 million (2019: HK\$ Nil) was recognised during the year ended of 2020.

SHARE-BASED PAYMENT TRANSACTIONS

The Group issues equity-settled share-based payments to certain employees (including directors). Equity-settled share based payments are measured at the fair value (excluding the effect of non market-based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straighted-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non market-based vesting conditions.

During the period ended 31 December 2021, share options were granted by the Company to its directors and employees, details of which are as follows:

	Number of share options	Date of grant	Exercise period	Exercise price per share	Fair value per option at grant date
	授出的購股權數目	授出日期	行使期	每股行使價 HK\$ 港元	每份購股權於授出日期的公允值 HK\$ 港元

		二零二一年四月九日	二零二一年四月九日至二零二三年四月八日		

In accordance with the terms of the Scheme, the options granted vested at the date of grant.

The fair value of the share options was estimated to be HK\$1,277,064, which was determined using the binomial option pricing model. Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions (including the probability of meeting market conditions attached to the option), and behavioural considerations. Expected volatility is based on the historical share price volatility over the past one year. The variances and assumptions used in computing the fair value of the share options are based on the directors' best estimate. The value of an option varies with different variables of certain subjective assumptions.

股份支付交易

截至二零二一年十二月三十一日止年度,本公司向董事及僱員授出購股權,詳情如下:

董事		
Employees	0.087	0.03071
僱員		
	0.082	0.0331

根據計劃條款,授出的購股權於授出日期歸屬。

購股權之公允值估計約為1,277,064港元,乃採用二項式期權定價模式予以釐定。倘有關,該模式所用之預期年限已根據管理層對非可轉讓性,行使限制(包括符合購股權所附市場條件之可能性)及行為因素之影響作出估計後予以調整。預期波幅乃根據往年股價波幅釐定。計量購股權公允值所用可變因素及假設乃根據董事之最佳估計。購股權之價值隨若干主觀假設各類變動因素而變動。

環境、社會及管治報告

Energy Use

The Group drives to reduce the energy use of both office operations and event activities. As an eco-friendly measure, we have installed energy-saving equipment and devices where feasible. During the Reporting Period, the total energy consumption was approximately 52.3 MWh-equivalent (2020: 56.7 MWh-equivalent, 2019: 61.3 MWh-equivalent); and the energy intensity was 1.16 MWh-equivalent per employee (2020: 1.21 MWh-equivalent per employee).

Although energy use is not one of the material ESG topics, the Group will continue to monitor the energy consumption and improve efficiency in all operations.

Water Use

Owing to the business and operation nature, the Group only consumes freshwater for general office and daily uses, and all its supplies are from the city's central water supply network. There was no water sourcing issue during the Reporting Period. Although the total volume of water consumption is insignificant, the Group still has policies and guidelines encouraging our employees to adopt good practices for water-saving as freshwater is one of the most valuable natural resources on the planet today. During the Reporting Period, the total water consumption was approximately 5 cubic meters ("m³") (2020: 32 m³), which is 84% less than 2020; and the water intensity was 0.11 m³ per employee (2020: 0.24 m³ per employee).

能源使用

本集團致力減少辦公室營運及展會活動的能源使用。作為一項有益生態環境的措施，我們已於可行情況下安裝節能設備及裝置。於報告期間，能源消耗總量約為52.3兆瓦時等值（二零二零年：56.7兆瓦時等值，二零一九年：61.3兆瓦時等值）；能源密度為每名僱員1.16兆瓦時等值（二零二零年：每名僱員1.21兆瓦時等值）。

雖然能源使用並非本集團的重大ESG議題之一，但本集團將繼續監察我們的能源消耗及提高業務營運各方面的能源利用效率。

水資源使用

鑒於業務及營運性質，本集團僅消耗作一般辦公及日常用途的淡水，而所有用水均來自城市中央供水系統。於報告期間，本集團並無求取適用水源的問題。儘管總用水量極低，但本集團仍制定了政策及指引鼓勵僱員養成節約用水的良好習慣，因為如今淡水乃地球上最寶貴的自然資源之一。於報告期間，總用水量約為5立方米（二零二零年：32立方米），較二零二零年減少84%；用水密度為每名僱員0.11立方米（二零二零年：每名僱員0.24立方米）。

In the Reporting Period, the total GHG emissions were 25.2 tonnes of CO₂-equivalent (2020: 33.9 tonnes of CO₂-equivalent, 2019: 65.3 tonnes of CO₂-e). Since there was no business travel due to COVID-19 during the Reporting Period, the scope 3 emissions reduced significantly. The Scope 3 emissions in 2021 included the greenhouse gases emitted from the paper waste disposed at landfills, and water and sewage processing only. For details, please refer to the table below.

溫室氣體排放

本集團溫室氣體排放的主要來源包括車輛燃料燃燒產生的直接排放（「範圍1」）、購用電力的間接排放（「範圍2」）及其他間接排放（「範圍3」）。於報告期間，溫室氣體排放總量為25.2噸二氧化碳當量（二零二零年：33.9噸二氧化碳當量，二零一九年：65.3噸二氧化碳當量）。由於2019冠狀病毒病疫情，報告期間並無商務旅行，故範圍3排放大幅減少。二零二一年的範圍3排放僅包括棄置於堆填區的廢紙以及水及污水處理所排放的溫室氣體。詳情請參閱下表。

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

環境、社會及管治報告

As GHG emissions are the key cause of climate change, the Group shall continue to monitor the carbon footprint of our operations and identify possible areas for mitigating our impacts on the environment.

Waste Generation

The Group's operations and activities do not generate any hazardous waste; whereas an insignificant amount of non-hazardous waste such as living and office wastes are produced from the offices. In the Reporting Period, a total of less than 0.01 tonne of non-hazardous waste was produced (2020: 0.72 tonne), and the waste has been sent to landfills. We shall continue to keep track of the amount of waste produced from our operations.

The Environment and Natural Resources

As a corporate citizen, the Group understands and respects that we have a responsibility to the environment. The Environmental Policies and Guidelines are implemented with an aim to minimize the impact on the environment and natural resources. Due to the business nature, the impacts of the activities on the environment and natural resources are not material for disclosure.

Climate Change

In the recent years, climate change is the major environmental problem affecting both Singapore and Hong Kong. There are physical and transition risks caused by climate change. Average global temperature and sea levels are expected to rise if carbon emissions from human activities continue to grow unchecked, and the frequency and intensity of the extreme weather events are likely to increase. Extreme weather events can lead to changes in rainfall patterns, resulting in more severe rainfall or typhoons. The Group will review the existing measures to ensure the safety of its employees during extreme weather. Besides, changes in laws and regulations due to climate change may also have impacts on the business operation.

The Group recognizes that the emission of greenhouse gases is one of the factors leading to climate change. Although there are no industrial or commercial processes in the daily operation, the Group will still promote a green lifestyle among the employees and strive to reduce the use of vehicles and electricity. The Group will do its part to reduce emissions while ensuring that it continues to grow and prosper.

由於溫室氣體排放是造成氣候變化的主要原因，本集團將繼續監察我們業務營運的碳足跡，並識別可能有助於減輕我們對環境影響的領域。

廢棄物產生量

本集團的業務營運及活動並不產生任何有害廢棄物；而辦公室日常營運中則產生少量無害廢棄物，如生活及辦公廢棄物。於報告期間，我們共產生低於0.01噸（二零二零年：0.72噸）無害廢棄物，且廢棄物已送往堆填區。我們將繼續追蹤業務營運所產生的廢物量。

環境及自然資源

作為企業公民，本集團深明並遵守我們對環境的責任。我們實施環境政策及指引，務求盡量減少我們對環境及自然資源的影響。因業務性質使然，我們的經營活動對環境及自然資源的影響並不屬重大事項，故並無作出披露。

氣候變化

近年來，氣候變化是影響新加坡及香港的主要環境問題。氣候變化帶來實體及轉型風險。若人類活動產生的碳排放持續不斷增加，預期全球平均溫度及海平面將會上升，而極端天氣事件的頻率及強度亦可能增加。極端天氣事件可能導致降雨模式的變化，引致更嚴重的降雨或颱風。本集團將檢討現有措施，以確保其僱員於極端天氣時的安全。此外，氣候變化導致的法律法規變動亦可能對業務營運造成影響。

本集團深知溫室氣體排放是導致氣候變化的因素之一。儘管日常營運中並無工業或商業環節，本集團仍將向僱員推廣綠色生活方式，並致力減少汽車及電力的使用。在確保持續增長及蓬勃發展的同時，本集團亦將竭盡所能減少排放。

Supply Chain Management

The Group has formulated a Purchase Policy on the principle that the purchases are not only for fulfilling the business needs but also integrate social responsibility into purchasing decisions. All of the suppliers will undergo the following reviewing processes:

- Quotation comparison and review of supplier's offering in relation to procurement needs as well as track record;
- Outlining of expectations and requirements with documentation in a formal contract/agreement;
- Confirmation of vendor through mutual acknowledgement of the agreement;
- Feedback-loop process during duration of service between users and the vendor;
- Internal review of vendor satisfaction; and
- Sharing of internal review with vendor for the discussion of next steps (either continue the contract with vendor, Confirmation of vendor subject to select deliverables or Termination of vendor).

Apart from assessing its suppliers on quality, cost, service and delivery time, the Group also assesses whether potential suppliers of goods and services have demonstrated that they also commit to environmental and social responsibilities. The environmental and social risk assessment for suppliers would be conducted in a periodical basis based on the news announcement, ongoing quality or work delivered. Areas, such as their policies on the use of recycled or natural materials and forbidding child and forced labour employment, are the Group's concerns in selecting our suppliers.

- 就內部檢討結果與供應商進行溝通，討論後續步驟（繼續與賣方履行合約、與供應商確認挑選所交付的產品或終止與供應商合作）。

除就質素、成本、服務及付運時間對供應商進行評估外，本集團亦會評估商品及服務的潛在供應商是否展示其亦勇於承擔環境及社會責任。我們定期根據新聞公告、一慣的質量表現及所交付的工作等方面對供應商進行環境及社會風險評估。於選擇供應商時，其有關使用循環或天然材料、禁止僱用童工及強迫勞動等方面的政策，是本集團關注的重點。

In addition, cost-saving and efficiency in logistics management and goods travel are the Group's guiding criteria affecting our decisions. The Group has continued to adopt a decentralized procurement approach at the operational level which is required to follow the above policy and guiding criteria as strictly as possible. Subsidiaries are given full autonomy in sourcing suppliers based on their local business needs. The Group strives to procure sustainable materials from local suppliers whenever possible as a part of its effort to promote a low-carbon operation.

The Group also continues to source our supplies from local suppliers to support local economic development and ensure the effectiveness of supply. RISK MANAGEMENT AND INTERNAL CONTROL

The Board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, ensuring that the Group establishes and maintains appropriate and effective risk management and internal control systems and reviewing their effectiveness. The systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Group maintains an effective internal control and risk management system. The Company has engaged an independent consultant performed the internal audit reviews for the Group. The Independent consultant has recommended an internal audit plan to the management of the Company and the Board, and assisted the Company to review the internal control system on certain selected processes for the year ended 31 December 2021. The management of the Company agreed on the findings and adopted the recommendations accordingly.

The Board reviews the risk management and internal controls annually and has through the Audit Committee and with the assistance of the management, independent consultant and external auditors, conducted a review of, and is satisfied with the effectiveness and adequacy of the risk management and internal control systems for the year ended 31 December 2021 as well as the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting and financial reporting function.

No internal audit team has been set up during the year since it is not cost effective in view of the small and simple size and structure of the Group. However, the Board will continue to review the need for one annually.

The Group adopted a risk management framework which comprises the following processes:

- Identify significant risk in the Group's operation environment and evaluate the impacts of those risks on the Group's business;
- Develop necessary measures to manage those risks; and
- Monitor and review the effectiveness of such measures.

風險管理及內部監控

董事會負責評估及確定本公司實現其策略目標時願意承擔的風險性質及範圍，確保本集團建立及維持妥當有效的風險管理及內部監控系統並檢討其有效性。該等系統旨在管理而非消除未能達成業務目標的風險，並僅可就重大失實陳述或損失提供合理而非絕對之保證。

本集團已實施一套有效之內部監控及風險管理制度。本公司已委聘獨立顧問，對本集團進行內部審核檢討。獨立顧問已向本公司管理層及董事會建議一份內部審核計劃，並協助本公司檢討於截至二零二一年十二月三十一日止年度若干選定程序之內部監控制度。本公司管理層認同有關調查結果，並相應地採納建議。

董事會每年檢討風險管理及內部監控，已透過審核委員會與管理層，在獨立顧問及外部核數師的協助下對於截至二零二一年十二月三十一日止年度的風險管理及內部監控系統的有效及充足程度，以及本公司會計及財務匯報職能的資源，員工資歷及經驗，培訓課程以及預算的充足程度作出檢討並表示滿意。

由於本集團的規模較小且架構簡單，設立內部審核團隊並不符合成本效益，故於本年度並無設立內部審核團隊。然而，董事會將繼續每年檢討設立內部審核團隊的必要性。

本集團採納風險管理框架，當中包括以下流程：

- 識別本集團經營環境之重大風險，評估該等風險對本集團業務之影響；
- 制定必要之措施，以管理該等風險；及
- 監控及檢討該等措施是否有效。

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. Impairment assessment on accounts receivable, loans receivables and other receivables 應收賬款、應收貸款及其他應收款項之減值評估

As at 31 December 2021, the net carrying amounts of accounts receivable, loans receivables and other receivables amounted to approximately HK\$30,587,000, HK\$8,913,000 and HK\$38,837,000 respectively.

於二零二一年十二月三十一日，應收賬款、應收貸款及其他應收款項之賬面淨值分別約為30,587,000港元、8,913,000港元及38,837,000港元。

Management judgment is required in assessing and determining the recoverability of accounts, loans and other receivables and adequacy of allowance made using the expected credit losses ('ECL') model under HKFRS 9 "Financial Instruments".

於評估及釐定應收賬款、應收貸款及其他應收款項的可收回性及使用香港財務報告準則第9號「金融工具」項下的預期信貸虧損（「預期信貸虧損」）模式作出的撥備是否充足時，管理層須作出判斷。

We had identified loss allowance for ECL on accounts receivables, loans receivables and other receivables as a key audit matter because the assessment of the recoverability of accounts, loans and other receivables and recognition of loss allowance are inherently subjective and requires significant management judgment, which increases the risk of error or potential management bias.

我們已將應收賬款、應收貸款及其他應收款項的預期信貸虧損的虧損撥備識別為關鍵審計事項，原因為評估應收賬款、應收貸款及其他應收款項的可收回性及確認虧損撥備本質上具有主觀性，並需要管理層作出重大判斷，從而增加錯誤或潛在管理層偏見的風險。

How our audit addressed the key audit matter 我們的審計如何處理關鍵審計事項

Our procedures in relation to management's impairment assessment on accounts receivable, loans receivables and other receivables included:

對於管理層就應收賬款、應收貸款及其他應收款項進行之減值評估，我們履行的程序包括：

- We discussed with management and independent external valuer engaged by the Company in relation to the methodology, basis and assumptions used to see whether the methodology and assumptions used were reasonable and appropriate;
- 我們與管理層及貴公司委聘的獨立外部估值師討論所用的方法、基準及假設，以確定所用方法及假設是否合理及適當；
- We checked, on a sample basis, for the accuracy, appropriateness and reliance of the input data used; and
- 我們抽樣檢查所用輸入數據的準確性、適當性及可靠性；及

For the purpose of the impairment assessment of property, plant and equipment, right-of-use assets and goodwill the Group appointed an independent external valuer to assess the recoverable amount of the CGUs at the end of the reporting period.

就物業、機器及設備、使用權資產及商譽之減值評估而言，貴集團委任獨立外部估值師評估報告期末現金產生單位之可收回金額。

We had identified impairment assessment of property, plant and equipment, right-of-use assets and goodwill as a key audit matter because the balance was material and significant management judgement was required to determine the key assumptions including estimated future income, operating margins and discount rate, etc.

我們已將物業、機器及設備、使用權資產及商譽之減值評估識別為關鍵審計事項，原因為其結餘屬重大，且釐定關鍵假設（包括估計未來收入、經營利潤率及貼現率等）需要管理層作出重大判斷。

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of user taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- 識別和評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險，設計及執行審計程序以應對該等風險，以及取得充足和適當的審計憑證，作為我們意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述，或凌駕於內部控制之上，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於因錯誤而導致的重大錯誤陳述的風險。
- 了解與審計相關的內部控制，以設計適當的審計程序，但目的並非對貴集團內部控制的效能發表意見。
- 評價董事所採用會計政策的恰當性及所作出會計估計和相關披露資料的合理性。

核數師就審計綜合財務報表須承擔的責任

我們的目標，是對整體綜合財務報表是否存在由於欺詐或錯誤而導致的重大錯誤陳述取得合理保證，並根據委聘的協定條款僅向閣下（作為整體）出具載有我們意見的核數師報告，除此以外，我們的報告不作其他用途。我們不會就本報告的內容向任何其他人士負上或承擔任何責任。合理保證是高水平的保證，但不能保證按照《香港審計準則》進行的審計在某一重大錯誤陳述存在時總能發現。錯誤陳述可以由欺詐或錯誤引起，倘合理預期彼等個別或匯總起來可能影響該等綜合財務報表使用者所作出的經濟決策，則有關的錯誤陳述可被視作重大。

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

From the matters communicated with those charge with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – Continued

(b) New and amendments to HKFRSs in issue but not yet effective: – Continued

- ¹ Effective for annual periods beginning on or after 1 April 2021.
- ² Effective for annual periods beginning on or after 1 January 2022.
- ³ Effective for annual periods beginning on or after 1 January 2023.
- ⁴ Effective for annual periods beginning on or after a date to be determined

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

(i) Amendment to HKFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021

The amendment introduces a new practical expedient for lessees to elect not to assess whether a Covid-19-related rent concession is a lease modification. The practical expedient only applies to rent concessions occurring as a direct consequence of the Covid-19 that meets all of the following conditions:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- there is no substantive change to other terms and conditions of the lease.

2. 應用新訂香港財務報告準則（「香港財務報告準則」）及修訂本—續

(b) 已頒佈但尚未生效之新訂香港財務報告準則及修訂本—續

- ¹ 於二零二一年四月一日或之後開始的年度期間生效。
- ² 於二零二二年一月一日或之後開始的年度期間生效。
- ³ 於二零二三年一月一日或之後開始的年度期間生效。
- ⁴ 於待定日期或之後開始的年度期間生效。

除下文所述之新訂香港財務報告準則及修訂本外，董事預期應用所有其他新訂香港財務報告準則及修訂本於可見將來將不會對綜合財務報表造成重大影響。

(i) 香港財務報告準則第16號之修訂本「二零二一年六月三十日後之2019冠狀病毒病疫情相關租金減免」

該修訂本為承租人引入新的可行權宜方法，可選擇不評估2019冠狀病毒病疫情相關租金減免是否為租賃修訂。該可行權宜方法僅適用於滿足以下所有條件的2019冠狀病毒病直接引致之租金減免：

- 租賃付款的變動使租賃代價有所修改，而經修改的代價與緊接變動前租賃代價大致相同，或少於緊接變動前租賃代價；
- 租賃付款的任何減少僅影響原到期日為二零二二年六月三十日或之前的付款；及
- 租賃的其他條款及條件並無實質變動。

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – Continued

(b) New and amendments to HKFRSs in issue but not yet effective: – Continued

(i) Amendment to HKFRS 16 Covid-19-Related Rent Concessions beyond 30 June 2021 – Continued

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 Leases if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

The application is not expected to have impact on the Group’s financial position and performance as the Group does not intend to apply the practical expedient.

(ii) Amendments to HKFRS 3 Reference to the Conceptual Framework

The amendments:

- update a reference in HKFRS 3 Business Combinations so that it refers to the Conceptual Framework for Financial Reporting 2018 issued in June 2018 (the “Conceptual Framework”) instead of Framework for the Preparation and Presentation of Financial Statements (replaced by the Conceptual Framework for Financial Reporting 2010 issued in October 2010);

2. 應用新訂香港財務報告準則（「香港財務報告準則」）及修訂本－續

(b) 已頒佈但尚未生效之新訂香港財務報告準則及修訂本－續

(i) 香港財務報告準則第16號之修訂本「二零二一年六月三十日後之2019冠狀病毒病疫情相關租金減免」－續

應用可行權宜方法將租金減免導致的租賃付款變動入賬的承租人將以同一方式將應用香港財務報告準則第16號「租賃」的變動入賬（倘變動並非租賃修訂）。租賃付款的寬免或豁免作為可變租賃付款入賬。相關租賃負債經調整以反映寬免或豁免的金額，並於該事件發生期間於損益確認相應調整。

由於本集團無意應用該可行權宜方法，故預期應用該修訂本不會對本集團的財務狀況及表現產生影響。

(ii) 香港財務報告準則第3號之修訂本「概念框架引用」

該修訂本：

- 更新了香港財務報告準則第3號業務合併內的一項引用，從而使其引用二零一八年六月頒佈的二零一八年財務報告概念框架（「概念框架」），而非編製及呈列財務報告的框架（被二零一零年十月頒佈的二零一零年財務報告概念框架取代）；

(ii) Amendments to HKFRS 3 Reference to the Conceptual Framework – Continued

- add a requirement that, for transactions and other events within the scope of HKAS 37 Provisions, Contingent Liabilities and Contingent Assets or HK(IFRIC)-Int 21 Levies, an acquirer applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination; and
- add an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

The Group will apply the amendments prospectively to business combinations for which the date of acquisition is on or after the beginning of the first annual period beginning on or after 1 January 2022.

- 增加一項明確聲明，表明收購方不會確認於業務合併中收購的或然資產。

(iii) Amendments to HKFRS 10 and HKAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments to HKFRS 10 Consolidated Financial Statements and HKAS 28 Investments in Associates and Joint Ventures deal with situations where there is a sale or contribution of assets between an investor and its associate or joint venture. Specifically, the amendments state that gains or losses resulting from the loss of control of a subsidiary that does not contain a business in a transaction with an associate or a joint venture that is accounted for using the equity method, are recognised in the parent’s profit or loss only to the extent of the unrelated investors’ interests in that associate or joint venture. Similarly, gains and losses resulting from the remeasurement of investments retained in any former subsidiary (that has become an associate or a joint venture that is accounted for using the equity method) to fair value are recognised in the former parent’s profit or loss only to the extent of the unrelated investors’ interests in the new associate or joint venture.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

(iv) Amendments to HKAS 1 Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)

The amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period. Specifically, the amendments clarify that:
 - (i) the classification should not be affected by management intentions or expectations to settle the liability within 12 months; and
 - (ii) if the right is conditional on the compliance with covenants, the right exists if the conditions are met at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarify that if a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity’s own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 Financial Instruments: Presentation.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES – Continued

(a) Basis of preparation of consolidated financial statements – Continued

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

All amounts are presented in Hong Kong dollar thousands (“HK\$’000”) in these consolidated financial statements, unless otherwise stated.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

3. 綜合財務報表之編製基準及主要會計政策 – 續

(a) 綜合財務報表之編製基準 – 續

如下文會計政策所述，除於各報告期末按公允值計量的若干金融工具外，綜合財務報表乃按歷史成本基準編製。

歷史成本一般根據就交換貨品及服務而給予之代價之公允值為基準計算。

除另有說明外，該等綜合財務報表全部金額以千港元（「千港元」）呈列。

公允值為於計量日市場參與者於有秩序交易中出售資產可收取或轉讓負債須支付的價格，而不論該價格是否可使用其他估值方法直接可觀察或估計。於估計資產或負債的公允值時，本集團會考慮市場參與者於計量日對資產或負債定價時所考慮的資產或負債的特點。綜合財務報表中作計量及／或披露用途的公允值乃按此基準釐定，惟香港財務報告準則第2號「以股份為基礎的付款」範疇內以股份為基礎的付款交易、根據香港財務報告準則第16號入賬的租賃交易以及某種程度上與公允值相似但並非公允值的計量（如香港會計準則第2號「存貨」中的可變現淨值或香港會計準則第36號「資產減值」中的使用價值）除外。

(a) Basis of preparation of consolidated financial statements – Continued

A fair value measurement of a non-financial assets takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial instruments which are transacted at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES – Continued

(b) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

(b) 綜合基準

綜合財務報表包括本公司以及本公司及其附屬公司所控制之實體的財務報表。倘屬以下情況，則本公司取得控制權：

- 本公司對被投資方掌握權力；
- 本公司因參與被投資方的業務而獲得或有權獲得可變回報；及
- 本公司有能力行使其權力而影響其回報。

倘有事實及情況顯示上列三項控制權要素中的一項或多項出現變化，本集團將重新評估其是否對被投資方擁有控制權。

當本集團獲得附屬公司的控制權時，即開始對其綜合入賬，而當本公司失去附屬公司的控制權時，即不再對其綜合入賬。具體而言，年內收購或出售附屬公司的收入及開支，從本集團獲得附屬公司控制權之日起計，直至本集團不再擁有附屬公司控制權之日止，列入綜合損益及其他全面收益表內。

溢利或虧損及每個其他全面收益項目，均歸屬於本公司持有人及非控股權益。附屬公司的全面收益總額歸屬於本公司持有人及非控股權益，即使此舉造成非控股權益產生虧絀餘額。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES – Continued

(b) Basis of consolidation – Continued

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

(c) Goodwill

Goodwill arising on acquisitions prior to 1 January 2005

Goodwill arising on an acquisition of net assets and operations of another entity for which the acquisition date is before 1 January 2005 represents the excess of the cost of acquisition over the Group's interest in the fair value of the identifiable assets and liabilities of the relevant acquiree at the date of acquisition.

Goodwill arising on acquisitions prior to 1 January 2001 continues to be held in reserves, and will be transferred to the retained earnings at the time when the business to which the goodwill relates is disposed of or when a cash-generated unit ("CGU") to which the goodwill relates becomes impaired.

For previously capitalised goodwill arising on acquisitions of new assets and operations of another entity after 1 January 2001, the Group has discontinued amortisation from 1 January 2005 onwards, and such goodwill is tested for impairment annually, and whenever there is an indication that the CGU unit to which the goodwill relates may be impaired (see the accounting policy below).

附屬公司的非控股權益應與本集團之權益分開列示，有關權益乃指其持有者有權攤佔相關附屬公司清算時之淨資產的比例份額的所有者權益。

(c) 商譽

於二零零五年一月一日以前收購所產生之商譽

收購日期於二零零五年一月一日以前收購另一實體之資產淨值及業務經營所產生之商譽乃指收購成本超逾本集團於收購當日應佔相關被收購公司可識別資產及負債公允值之權益之差額。

於二零零一年一月一日之前因收購所產生之商譽將繼續保留在儲備，並將於與該商譽有關之業務被出售或於與該商譽有關之現金產生單位（「現金產生單位」）出現減值時計入保留盈利內。

於二零零一年一月一日之後因收購另一實體之新資產及業務經營所產生並原先已資本化之商譽，本集團自二零零五年一月一日起不再繼續攤銷該等商譽，有關商譽於每年及當與該等商譽有關之現金產生單位有可能出現減值之跡象時進行減值測試（見下文會計政策）。

(c) Goodwill – Continued

Goodwill arising on acquisition on or after 1 January 2005

Goodwill arising on acquisition on or after 1 January 2005 was recognised as an asset and initially measured at cost, being the excess of the cost of the acquisition over the Group's interest in the recognised amounts of the identifiable assets, liabilities and contingent liabilities recognised. If, after assessment, the Group's interest in the recognised amounts of the acquiree's identifiable assets, liabilities and contingent liabilities exceeded the cost of the acquisition, the excess was recognised immediately in profit or loss.

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's CGUs (or group of CGUs) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU (or group of CGUs) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of CGUs).

3. 綜合財務報表之編製基準及主要會計政策－續

(c) 商譽－續

於二零零五年一月一日或之後收購所產生之商譽

於二零零五年一月一日或之後進行之收購產生之商譽乃確認為資產並按成本初步計量（即收購之成本高於本集團於已確認可識別資產、負債及或然負債之已確認金額所佔權益之部份）。於評估後，倘本集團於被收購公司之可識別資產、負債及或然負債之已確認金額所佔權益高於收購之成本，則該高出數額即時於損益內確認。

購買業務所產生的商譽應按在業務購買日確定的成本減累計減值虧損（如有）計量。

為進行減值測試，商譽應分配到本集團預計能從企業合併協同效應中收益的每一現金產生單位（或現金產生單位組別），而該單位或單位組別指為內部管理而監控商譽的最低層級且不超過經營分類。

獲分配商譽的現金產生單位（或現金產生單位組別）會每年進行減值測試，但如果跡象顯示該現金產生單位可能會發生減值，則會更頻繁地進行減值測試。對報告期間內因收購產生的商譽，在該報告期末之前對分配該商譽的現金產生單位（或現金產生單位組別）進行減值測試。如果現金產生單位（或現金產生單位組別）的可收回金額低於其賬面值，減值虧損會首先沖減分配到該單位的商譽的賬面值，然後根據該單位每一資產的賬面值的比例將減值虧損分攤到該單位的其他資產。

Goodwill arising on acquisition on or after 1 January 2005 – Continued

On disposal of the relevant CGU or any of the CGU within the group of CGUs, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the CGU (or a CGU within a group of CGUs), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the CGU) disposed of and the portion of the CGU (or the group of CGUs) retained.

(d) Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items. Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The estimated useful lives are as follows:

Leasehold improvement	Shorter of remaining lease term or 3-5 years
Furniture and fixture	5 years
Office equipment	5 years
Computer equipment and software	3 years
Motor vehicles	5 years

傢俬及裝置	五年
辦公設備	五年
電腦設備及軟件	三年

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(e) Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application of HKFRS 16 or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases of office equipment that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

- the amount of the initial measurement of the lease liability;

- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

(f) Impairment of property, plant and equipment and right-of-use assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the CGU to which the asset belongs.

In addition, the Group assesses whether there is indication that corporate assets may be impaired. If such indication exists, corporate assets are also allocated to individual CGUs, when a reasonable and consistent basis of allocation can be identified, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a CGU) for which the estimates of future cash flows have not been adjusted.

(f) 物業、機器及設備以及使用權資產（商譽除外）減值

於報告期末，本集團檢討其物業、機器及設備以及使用權資產的賬面值，以釐定是否有任何跡象顯示該等資產已出現減值虧損。倘存在任何有關跡象，則估計相關資產的可收回金額，以釐定減值虧損（如有）的程度。

物業、機器及設備以及使用權資產的可收回金額乃個別估計。倘無法個別估計可收回金額，則本集團會估計該資產所屬現金產生單位之可收回金額。

此外，本集團評估是否有跡象表明企業資產可能減值。倘存在有關跡象，於可以識別合理一致的分配基準時，企業資產亦會分配至個別現金產生單位，否則會分配至可識別合理一致分配基準的最小現金產生單位組別。

可收回金額為公允值減出售成本與使用價值之較高者。在評估使用價值時，估計未來現金流量會採用稅前貼現率貼現至其現值，該稅前貼現率應反映對貨幣時間價值的當前市場評估及該資產（或現金產生單位）特有的風險（未針對該風險調整估計未來現金流量）。

(f) Impairment of property, plant and equipment and right-of-use assets other than goodwill – Continued

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGU, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(g) Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognized and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for account receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss (“FVTPL”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income which are derived from the Group’s ordinary course of business are presented as revenue.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at PVFPL. A financial asset is held for sales if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the “other income and other net (losses)/gains” line item.

Impairment of financial assets subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including accounts and other receivables, loan receivables, and bank balances) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at the end of each reporting period to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the end of the reporting period. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the end of the reporting period as well as the forecast of future conditions.

The Group always recognises lifetime ECL for accounts receivables without significant financing component. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Company measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognizes lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

全期預期信貸虧損指於相關工具預計年內所有可能違約事件產生的預期信貸虧損。相反，12個月預期信貸虧損（「12個月預期信貸虧損」）指預計於報告期末後12個月內可能發生的違約事件產生的部分全期預期信貸虧損。評估乃根據本集團過往信貸虧損經驗作出，並就債務人特定因素、一般經濟狀況以及對於報告期末之當時狀況及未來狀況預測的評估作調整。

就所有其他工具而言，本公司計量虧損撥備等於12個月預期信貸虧損，除非當信貸風險自初始確認以來顯著上升，在此情況下本集團確認全期預期信貸虧損。評估是否應確認全期預期信貸虧損乃根據自初始確認以來發生違約的可能性或風險顯著上升。

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the end of the reporting period with the risk of a default occurring on the financial instrument as at the date of initial recognition.

In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- (a) an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- (b) significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- (c) existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- (d) an actual or expected significant deterioration in the operating results of the debtor; or

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of accounts receivable, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade and bills receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

(v) 預期信貸虧損的計量及確認
預期信貸虧損的計量為違約概率、違約損失率（即違約損失程度）及違約風險的函數。違約概率及違約損失率乃基於歷史數據及前瞻性資料評估。預期信貸虧損的預估乃無偏概率加權平均金額，以發生違約的風險為權重確定。本集團使用可行權宜方法，運用撥備矩陣估計貿易應收款項及應收票據的預期信貸虧損，當中考慮過往信貸虧損經驗，並就無需付出過多成本或努力即可獲得的前瞻性資料作出調整。

一般而言，預期信貸虧損按本集團根據合約應收的所有合約現金流量與本集團預計收取的所有現金流量的差額估計，並按初始確認時釐定的實際利率貼現。

Lifetime ECL for certain accounts receivable and loan receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of accounts receivable and loan receivables where the corresponding adjustment is recognized through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Perpetual instruments, which include no contractual obligation for the Group to deliver cash or other financial assets or the Group has the sole discretion to defer payment of distribution and redemption of principal amount indefinitely are classified as equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at amortised cost

Financial liabilities including accounts payables, accruals and other payables, bond payable and lease liabilities are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

(h) Revenue from contracts with customers

The Group recognises revenue when a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service that is distinct or a series of distinct goods or services that are substantially the same. Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

(h) Revenue from contracts with customers – Continued

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Principal versus agent

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent). The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer. The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share option reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share option reserve. For share options that vest immediately at the date of grant, the fair value of the share options is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be retained in the share options reserve.

(j) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before taxation because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

(j) 稅項

所得稅開支指當期應付稅項及遞延稅項之總和。

當期應付稅項乃按本年度應課稅溢利計算。應課稅溢利與除稅前虧損不同，乃由於前者不包括在其他年度應課稅或可扣稅收入或開支，亦不包括不能課稅及扣稅之項目。本集團之當期稅項負債乃按報告期末已實行或實質上已實行之稅率計算。

遞延稅項乃就綜合財務報表之資產及負債的賬面值與計算應課稅溢利時所用相應稅基之間的暫時差額確認。通常會就所有應課稅暫時差額確認遞延稅項負債。於有可能動用應課稅溢利抵銷可抵扣暫時差額時，會就可抵扣暫時差額確認遞延稅項資產。倘暫時差額因初步確認交易中之資產及負債而產生，且不應課稅溢利及會計溢利，則不會確認遞延稅項資產及負債。

(j) Taxation – Continued

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity respectively.

遞延稅項資產之賬面值會於各報告期末進行檢討，並於不再可能會有足夠應課稅溢利收回全部或部分資產時作出調減。

遞延稅項資產及負債乃根據報告期末已實行或實質上已實行之稅率（及稅法），按預期適用於償付負債或變現資產期間之稅率計算。

遞延稅項負債及資產之計量反映按照本集團所預期之方式於報告期末收回或清償其資產及負債之賬面值之稅務後果。

In assessing any uncertainty over income tax treatments, the Group considers whether it is probable that the relevant tax authority will accept the uncertain tax treatment used, or proposed to be used by individual group entities in their income tax filings. If it is probable, the current and deferred taxes are determined consistently with the tax treatment in the income tax filings. If it is not probable that the relevant taxation authority will accept an uncertain tax treatment, the effect of each uncertainty is reflected by using either the most likely amount or the expected value.

(k) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

(l) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

存貨按成本與可變現淨值兩者中的較低者入賬。存貨成本按加權平均法釐定。可變現淨值指存貨的估計售價減所有估計完工成本及銷售所需成本。進行銷售所需的成本包括銷售直接應佔的增量成本及本集團進行銷售必須產生的非增量成本。

(m) Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income, in which cases, the exchange differences are also recognized directly in other comprehensive income.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognized in other comprehensive income and accumulated in equity under the heading of exchange reserve.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income and accumulated separately in equity in the translation reserve.

(n) Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

(o) Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income and other net gain”.

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and they are not recognized in the consolidated financial statements. The Group assesses continually the development of contingent assets. If it has become virtually certain that an inflow of economic benefits will arise, the Group recognizes the asset and the related income in the consolidated financial statements in the reporting period in which the change occurs.

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognized in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognized in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

(g) 或然負債

或然資產

或然資產源自可能為本集團帶來經濟利益流入的計劃外或其他意外事件，其不會於綜合財務報表中確認。本集團持續評估或然資產的進展。倘實際上可確定將會產生經濟利益流入，則本集團於出現變動的報告期間於綜合財務報表確認資產及相關收入。

或然負債

或然負債指因過往事件而產生的現有責任，但由於不大可能需要流出包含經濟利益的資源以履行責任，或責任的金額無法充分可靠地計量，故不予確認。

倘本集團對一項責任負有共同及個別責任，則預期由其他方履行的部分責任會被視為或然負債，但不會於綜合財務報表確認。

本集團持續評估以釐定是否有可能導致包含經濟利益的資源流出。倘先前作為或然負債處理的項目可能導致未來須流出經濟利益，則於可能性發生變動的報告期間於綜合財務報表確認撥備，惟在極端罕見的情況下無法作出可靠估計則除外。

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES – Continued

(g) Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(g) 分部報告

經營分部及於財務報表內呈報的各分部項目的金額乃源自定期提供予本集團最高級行政管理人員以就本集團各業務線及地理區域進行資源分配及表現評估的財務資料。

就財務報告而言，個別重大的經營分部並不予以合併入賬，除非該等分部具有相似經濟特性，且在產品及服務性質、生產程序性質、客戶類別或種類、用以分銷產品或提供服務的方式及監管環境的性質方面相似，則另當別論。個別不重大的經營分部如符合以上大部份條件，則可予以合併入賬。

4. 重大會計判斷及估計不確定性之主要來源

於應用附註3所述之本集團會計政策時，董事須就不能輕易從其他來源得出之資產及負債賬面值作出判斷、估計及假設。估計及相關假設乃根據過往經驗及其他被認為相關之因素作出。實際結果可能與該等估計不同。

上述估計及相關假設持續予以檢討。倘會計估計之修訂僅對估計修訂之期間構成影響，則有關修訂於此期間確認，或倘有關修訂對當前期間及未來期間均構成影響，該修訂會於當前期間及未來期間確認。

4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – Continued

Estimated impairment of goodwill and goodwill reserve

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the cash generating unit (or group of CGUs) to which goodwill has been allocated, which is the higher of the value in use or fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the CGU (or a group of CGUs) and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash flows or upward revision of discount rate, a material impairment loss or further impairment loss may arise. Furthermore, the estimated cash flows and discount rate are subject to higher degree of estimation uncertainties in the current year due to uncertainty on how the Covid-19 pandemic may progress and evolve and volatility in financial markets, including potential disruptions of the Group's operations.

Provision of ECL for accounts, loan and other receivables

Accounts, loan and other receivables with significant balances and credit-impaired are assessed for ECL individually. In addition, the Group uses practical expedient in estimating ECL on accounts, loan and other receivables which are not assessed individually using a provision matrix. The provision rates are based on aging of debtors/others as groupings of various debtors taking into consideration the Group's historical default rates and forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. Due to greater financial uncertainty triggered by the Covid-19 pandemic, the Group has increased the expected loss rates in the current year as there is higher risk that a prolonged pandemic could led to increased credit default rates.

4. 重大會計判斷及估計不確定性之主要來源 – 續

商譽之估計減值及商譽儲備

釐定商譽是否減值須估計獲分配商譽的現金產生單位(或現金產生單位組別)的可收回金額,即使用價值與公允值減出售成本兩者中的較高者。計算使用價值時,本集團須估計現金產生單位(或現金產生單位組別)預期產生的未來現金流量及適當的貼現率以計算現值。倘實際未來現金流量少於預期,或事實及情況變動導致未來現金流量下調或貼現率上調,則可能產生重大減值虧損或進一步減值虧損。此外,由於2019冠狀病毒病疫情的發展及演變存在不確定性以及金融市場的波動(包括本集團營運的潛在中斷),所估計的現金流量及貼現率於本年度受到較高程度的估計不確定性影響。

應收賬款、應收貸款及其他應收款項之預期信貸虧損撥備

結餘重大且出現信貸減值的應收賬款、應收貸款及其他應收款項會個別評估預期信貸虧損。此外,本集團使用實際權宜方法估計並非單獨使用撥備矩陣評估的應收賬款、應收貸款及其他應收款項的預期信貸虧損。撥備率乃基於應收賬款/不同應收賬款組別的賬齡,並經考慮本集團過往違約率及毋須花費不必要成本及精力即可獲得的合理可靠前瞻性資料。於各報告日期,本集團會重新評估過往觀察到的違約率,並考慮前瞻性資料的變動。

預期信貸虧損撥備對估計的變動較為敏感。由於2019冠狀病毒病疫情引發的更大財務不確定性,疫情持續導致信貸違約率增加的風險較高,本集團已增加本年度的預期虧損率。

(i) Market risk

Currency risk

The Group's business transaction, assets and liabilities are denominated in RMB and SGD and the functional currency of the Group is HK\$. Considering the fact that most of the Group's transactions are denominated in its functional currency except for sales denominated in US\$, the Group's exposure to foreign currency risk arises from sales denominated in US\$.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

		Liabilities		Assets	
		負債	資產	負債	資產
		2021	2020	2021	2020

RMB	人民幣	896	-	33,092	-
SGD	新加坡元	2,570	8,082	10,216	40,093

Sensitivity analysis

Since HK\$ is pegged to US\$, there is no significant exposure expected on US\$ transactions and balances whilst the currency peg remains in place.

敏感度分析

Sensitivity analysis – Continued

The sensitivity analysis below has been determined based on the exposure to a 5% (2020: 5%) increase and decrease in HK\$ against SGD and RMB: 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding amounts of Singapore and PRC subsidiaries' HK\$ denominated monetary items and adjusts their translation at the end of reporting period for a 5% change in foreign currency rates. For a 5% strengthening of HK\$ against SGD and RMB, the post-tax loss for the year ended 31 December 2021 would be decreased by approximately HK\$270,000 and HK\$36,000 respect (2020: HK\$598,000 and HK\$Nil). For a 5% weakening of the HK\$ against SGD and RMB, there would be an equal and opposite impact on the profit and other comprehensive income.

Interest rate risk

The Group has no significant interest-bearing financial assets and liabilities with a floating interest rate as at 31 December 2021 and 2020.

Other price risk

The Group is exposed to equity price risk through its investments in equity securities and P-Funds measured at FVTPL. The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on equity instruments quoted in the Stock Exchange.

敏感度分析－續

以下敏感度分析基於港元兌新加坡元及人民幣匯率上升及下降5%（二零二零年：5%）的風險承擔作釐定。5%為向管理層要員申報內部外匯風險時採用之敏感度比率，並代表管理層對外幣匯率合理可能變動之評估。敏感度分析僅包括新加坡及中國附屬公司以港元計值貨幣項目之未平倉金額，及於報告期末就外幣匯率5%的變動進行換算調整。如港元兌新加坡元及人民幣上漲5%，則截至二零二一年十二月三十一日止年度的稅後虧損將減少約270,000港元及36,000港元（二零二零年：598,000港元及零港元）。倘港元兌新加坡元及人民幣下跌5%，則會對溢利及其他全面收入產生同額相反影響。

利率風險

於二零二一年及二零二零年十二月三十一日，本集團並無以浮動利率計息的重大金融資產及負債。

其他價格風險

本集團因其於按公允值計入損益計量的之股本證券及私募基金的投資而面臨股本價格風險。管理層透過管理具有不同風險的投資組合管理此風險。本集團的股本價格風險主要集中於在聯交所報價的股本工具。

(i) Market risk – Continued

Other price risk – Continued

The sensitivity analysis have been determined based on the exposure to equity price risk at the reporting date. A 5% increase or decrease is used as it represents management's assessment of the possible change in price of equity securities.

If the prices of the respective equity securities that are indexed to equity prices had been 5% higher/lower, the Group's post-tax loss for the year ended 31 December 2021 would increase/decrease by HK\$1,108,000 (2020: HK\$835,000) as a result of the changes in fair value of equity securities held for trading.

If the prices of the respective equity instruments had been 5% (2020: 5%) higher/lower, the post-tax loss for the year ended 31 December 2021 would increase/decrease by approximately HK\$177,000 (2020: increase/decrease by HK\$1,985,000) as a result of the changes in P-funds.

(ii) Credit risk and impairment assessment

Credit risk refers to the risk that Group's counterparties default on their contractual obligations resulting in a financial loss to the Group. The Group's credit risk exposures are primarily attributable to accounts and other receivables, loan receivables, and bank balances.

The Group's exposure to credit risk arising from cash and bank balances is limited because the counterparties are large banks have low credit risk.

(i) 市場風險－續

其他價格風險－續

敏感度分析基於報告日期面臨的股本價格風險釐定。由於上升及下降5%代表管理層對股本證券價格可能出現之變動所作的評估，因此予以採用。

倘與股本價格掛鈎的各股本證券的價格上升／下降5%，則本集團截至二零二一年十二月三十一日止年度的稅後虧損將由於持作買賣股本證券的公允值變動而增加／減少約1,108,000港元（二零二零年：835,000港元）。

倘相關股本工具的價格上升／下降5%（二零二零年：5%），則截至二零二一年十二月三十一日止年度的稅後虧損將因私募基金變動而增加／減少約177,000港元（二零二零年：增加／減少1,985,000港元）。

(ii) 信貸風險及減值評估

信貸風險指因本集團對手方違反其合約責任而導致本集團出現財務虧損的風險。本集團的信貸風險主要歸因於應收賬款及其他應收款項、應收貸款及銀行結餘。

本集團面對現金及銀行結餘所產生的信貸風險有限，此乃由於對手方為大型銀行，信貸風險低。

本集團應用香港財務報告準則第9號簡易方法計量預期信貸虧損，該簡易方法對所有應收賬款採用全期預期信貸虧損撥備。為了計量預期信貸虧損，已按共同信貸風險特徵及逾期天數對應收賬款進行分組。下表提供有關本集團於二零二一年及二零二零年十二月三十一日面對的信貸風險和應收賬款的預期信貸虧損資料：

預期虧損率乃根據債務人預計年期的過往觀察所得的違約率估計，並就無需付出過多成本或努力即可獲得的前瞻性資料作出調整。

應收貸款及利息

倘本金及／或利息還款逾期超過3個月，則管理層認為所有應收貸款屬呆賬。根據管理層的評估，於截至二零二一年十二月三十一日止年度確認虧損撥備約695,000港元(二零二零年：1,392,000港元)。

Bank balances

The credit risk on bank balances is limited because the counterparties are banks with high credit ratings.

The Group does not provide any guarantees which would expose the Group to credit risk.

Deposits and other receivables

For deposits and other receivables, the directors make periodic individual assessment on the recoverability of deposits and other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors believe that there is no significant increase in credit risk of these amounts since initial recognition and the Group provide impairment based on 12 months ECL. 銀行結餘

由於為對手方為信貸評級較高的銀行，故銀行結餘的信貸風險有限。

本集團並無提供任何可能使本集團面臨信貸風險的擔保。

按金及其他應收款項

就按金及其他應收款項而言，董事根據過往結算記錄、過往經驗以及合理且可靠的前瞻性定量及定性資料，定期對按金及其他應收款項的可收回性進行個別評估。董事認為，自初始確認以來，該等款項的信貸風險並無顯著增加，故本集團根據12個月預期信貸虧損計提減值。根據管理層的評估，截至二零二一年十二月三十一日止年度確認減值虧損約542,000港元（二零二零年：38,000港元）。
