ANNUAL REPORT  
**2021**

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors (the “**Directors**” or individually a “**Director**”) of China Saftower International Holding Group Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company and its subsidiaries (collectively referred to as the “**Group**”, “**We**”, “**our**” or “**us**”). The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

# CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of Directors (the “**Board**”) of China Saftower International Holding Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”, “**we**” or “**us**”), I am pleased to present the annual results of our Group for the year ended 31 December 2021.

The year 2021 has been full of challenges. The long-lasting outbreak of the pandemic negatively affected the vitality of economy. To certain extent, our Group also suffered from the temporarily lock down of cities, increment of logistic cost and disruption to the supply chain. Globally, the tension of international geopolitics and the Russian-Ukrainian War lead to the fluctuation of commodities which affected our cost of sales.

Facing the challenges, the management of the Group will seek for opportunity from the crisis. We will lead our team to overcome all the difficulties and tackle all potential risks and we shall take a positive mind to adapt the new-normal economy. During the year 2021, we acquired 70% equity shares of Yaan Baosheng Metal Material Co., Ltd. which is engaged in processing of aluminum cast-rolled coil and aluminum plate manufacturing of foil. We believe the acquisition will benefit our upstream aluminium processing activity, which is expected to be a prosperity sector in the PRC.

Finally, I would like to express appreciation to my team for the hard effort during the tough situation in 2021. Also, I wish all stakeholders of the Group being a good health and good prospects in 2022!

On behalf of the Board

**Dang Fei**

*Chairman and Executive Director*

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

The Group is a regional manufacturer and supplier of wires and cables, with integrated production facilities situated in Chengdu and Guangyuan of Sichuan Province, the PRC. The Group's products can be broadly classified into four categories: (i) finished wires and cables; (ii) semi-finished wires; (iii) aluminium products; and (iv) other products, which comprise cable accessories. The Group's portfolio of finished wires and cable products comprises classic and special products. Apart from finished wires and cables, the Group also produce semi-finished wires comprising aluminium rods and bare copper wires to maximise the Group's market exposure and enlarge its market share.

During the year ended 31 December 2021 (the “**Year**”) under review, the Group continued to engage in the manufacturing and sales of wires and cables and continued to serve a large number of customers, they are mainly power companies, manufacturing enterprises, construction and renovation companies as well as trading companies which purchase products from the Group for onward sale on their own accounts.

Since the outbreak of COVID-19 pandemic (the “**Pandemic**”) in early 2020, the business environment in China has been adversely affected. The Group recorded a loss of approximately RMB26.5 million for the year ended 31 December 2021, as compared with the net profit of approximately RMB2.8 million recorded by the Group for the year ended 31 December 2020. For the details of the fluctuation of financial figures, please refer to the section headed “Financial Review” below.

On 10 July 2020 (the “**Listing Date**”), the shares of the Company (the “**Share(s)**”) were successfully listed on GEM of the Stock Exchange (the “**Listing**”). For further details of our Group's business objectives, strategies and implementation plans, please refer to the section headed “Future Plans and Use of Proceeds” in the prospectus of the Company dated 24 June 2020 (the “**Prospectus**”) and the paragraph headed “Use of Net Proceeds from the Listing” under “Management Discussion and Analysis” section in this report.

## FUTURE PROSPECTS

On 17 June 2021, the Group has successfully allotted and issued 120,000,000 shares under general mandate to Mr. Fu Chuanrong as subscriber, who was an independent third party to the Company, with net proceeds of approximately HK\$8.9 million. The proceeds has been used to acquire 70% of the equity interest in 雅安寶盛金屬材料有限公司 (Yaan Baosheng Metal Material Company Limited\*) (“**Yaan Baosheng**”), which engages in processing of aluminum cast-rolled coil and aluminum plate manufacturing of foil. Its products mainly include aluminum strip, preroll coating, diamond plate, presensitised alloy plate and thick foil coil, etc. (the “**Acquisition**”).

The Directors believe that the Acquisition will enable the Group to expand upstream business, provide a more stable source of raw materials in terms of quantity and price and reduce the production cost and increase the profit margin of the Group in the long run.

For details, please refer to the announcements of the Company dated 27 May 2021 and 17 June 2021.

Benefiting from the Western Development Strategy (《西部大開發戰略》), Sichuan Province has long been acting an important role in the economic development of Southwest China. The development of multiple industries such as power generation, infrastructure construction, communication and petrochemical has created a strong demand for wire and cable products. The Guangyuan government has enacted policies for actively developing aluminium industry. The Company is closely monitoring the process and will seize the opportunity arising out of the government policy to drive the Company's growth. Meanwhile, our Group is looking for business opportunities to expand our influence in Southwest China and reduce regional concentration which may include expansion into other segments within aluminium industry as well as geographical expansion that may add value to our operation. The Group is evaluating various opportunities and will notify investors and shareholders according to relevant rules and regulations once any of these opportunities are materialised.

## FINANCIAL REVIEW

### Revenue

The follow table sets forth the breakdown of our revenue derived from our major operating subsidiaries by key product types after elimination of intra-group transactions during the review periods:

For the year ended 31 December	Revenue		Gross profit (loss)		Gross profit (loss) margin	
	2021 RMB'000 (unaudited)	2020 RMB'000 (unaudited)	2021 RMB'000 (unaudited)	2020 RMB'000 (unaudited)	2021 %	2020 %
Classic finished wires and cables						
Copper wires and cables	39,159	41,805	1,216	5,873	3.1	14.0
Aluminium wires and cables	100,990	176,417	4,327	15,497	4.3	8.8
Special finished wires and cables						
Copper wires and cables	—	4,909	—	1,381	—	28.1
Aluminium wires and cables	53,618	54,317	6,871	8,226	12.8	15.1
Semi-finished wires						
Bare copper wires	146,547	116,942	1,284	1,812	0.9	1.5
Aluminium rods	44,687	121,014	131	3,581	0.3	3.0
Cast-rolled coil	159,180	—	(7,798)	—	(4.9)	—
Aluminium products	—	2,230	—	2	—	0.1
Others	208	525	25	84	12.0	16.0
	<b>544,389</b>	518,159	<b>6,056</b>	36,456	<b>1.1</b>	7.0

During the year ended 31 December 2021, the Group generated its revenue mainly from the manufacturing and sales of wires and cables, sales of aluminium products and cast-rolled coil in the PRC. The Group recorded a turnover of approximately RMB544.4 million for the year ended 31 December 2021, representing an increase of approximately 5.1% as compared with that in 2020. The increase in revenue was mainly due to contribution from our new product, cast-rolled coil, of approximately RMB159.2 million from our new subsidiary, Yaan Baosheng.

### Cost of sales

During the year ended 31 December 2021, the cost of sales at the Group mainly consists of (i) raw materials costs, (ii) aluminium products costs, and (iii) finished products from sub-contractors and depreciation and overhead. Cost of sales increased from RMB481.7 million for the year ended 31 December 2020 to RMB538.3 million for the year ended 31 December 2021, representing an increase of RMB56.6 million, or 11.8%. The increase of cost of sales was due to the continuous inflation in the average copper and aluminium prices in the market for the year ended 31 December 2021.

### Gross profit and gross profit margin

For the year ended 31 December 2020 and 2021, our gross profit amounted to RMB36.5 million and RMB6.1 million, respectively, with a gross profit margin of 7.0% and 1.1%, respectively. The decrease in gross profit margin during the Year under review was mainly due to (i) the inflation of materials mentioned above and (ii) gross loss of approximately RMB7.8 million is recorded from the new product, cast-rolled coil, for the year ended 31 December 2021.

### Other income and gains

Other income and gains increased from approximately RMB8.2 million for the year ended 31 December 2020 to approximately RMB15.0 million for the year ended 31 December 2021. The increase is mainly due to the increase of the government grants of approximately RMB4.8 million in relation to the support of the Group's operations, purchase of plant and machinery, the reward of the employment of disabled people in the PRC and enjoying a value-added tax subsidy of 30% on products and labour services for comprehensive utilization of resources.

### Selling and distribution expenses

The Group's selling and distribution expenses mainly consist of (i) transportation expenses, (ii) staff wages and benefits, and (iii) entertainment and travel expenses.

Selling and distribution expenses of the Group decreased by RMB1.5 million or 25.1% for the year ended 31 December 2021, which was due to the reduction of travel activities of the sales team under the Pandemic.

### Administrative and other expenses

The Group's administrative and other expenses mainly consist of (i) staff wages and benefits, (ii) depreciation of property, plant and equipment, (iii) legal and professional fees, and (iv) entertainment and travelling expenses.

Administrative and other expenses of the Group increased from RMB18.6 million for the year ended 31 December 2020 to RMB29.7 million for the year ended 31 December 2021, representing an increase of RMB11.2 million, or 60.0%. The increase was mainly due to (i) one-off mediation cost of approximately RMB3.8 million; (ii) the increase in professional fees of approximately RMB2.5 million after the Listing; and (iii) the increase of staff cost of approximately RMB2.9 million.

### Finance costs

Finance costs of the Group had increased from approximately RMB9.4 million for the year ended 31 December 2020 to approximately RMB11.7 million for the year ended 31 December 2021. The increase in amount was mainly attributable to the increase in the average utilisation of borrowings during the year ended 31 December 2021.

### Income tax credit

The Group is subject to income tax on an individual legal entity basis on profits arising in or derived from the tax jurisdictions in which companies comprising the Group domicile or operate. The Group's income tax credit increased by approximately RMB4.0 million from approximately RMB0.1 million for the year ended 31 December 2020 to approximately RMB4.1 million for the year ended 31 December 2021. The increase in income tax credit was due to the recognition of more credit from deferred tax derived from tax loss during the year ended 31 December 2021.

### (Loss)/profit for the year

As a result of the foregoing, the Group recorded a loss attributable to the owners of the Company amounted to approximately RMB25.2 million, as compared to the profit attributable to owners of the Company of approximately RMB1.9 million in the corresponding period in 2020. The Directors consider that the increase in net loss was mainly attributable to (1) the decrease in gross profit of approximately RMB30.4 million and the decrease in gross profit margin due to the increase in the cost of raw materials; (2) the increase of allowance for expected credit loss on trade and other receivables of approximately RMB2.9 million; (3) the increase of impairment losses on property, plant and machinery of approximately RMB2.6 million; and (4) the increase of staff cost of approximately RMB2.9 million for the year ended 31 December 2021 as compared to the corresponding period in 2020. The net loss margin for the year is approximately 4.9% as compared to the net profit margin of approximately 0.5% for the year ended 31 December 2020.

## MANAGEMENT DISCUSSION AND ANALYSIS

### DIVIDEND

The Directors resolved not to recommend the payment of any final dividend for the year ended 31 December 2021.

### LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group financed its operations primarily through a combination of cash generated from its operations, borrowings and equity from shareholder. The Group's principal uses of cash have been, and are expected to continue to be, payment for procurement of raw materials and inventories, purchase of property, plant and equipment and repayment of borrowings and interest. As at 31 December 2021, the Group had cash and cash equivalents of approximately RMB6.7 million and (31 December 2020: RMB12.1 million).

As at 31 December 2021, the total equity attributable to equity holders of the Company amounted to approximately RMB133.3 million (31 December 2020: approximately RMB151.0 million).

Gearing ratio is calculated based on the total loans and borrowings (including amounts due to a shareholder and non-controlling interest) divided by total equity as at the year-end date and expressed as a percentage. The gearing ratio of the Group as at 31 December 2021 was 112.0% (31 December 2020: 57.8%). During the year ended 31 December 2021, the Group did not employ any financial instrument for hedging purpose and did not enter into any hedging transactions.

### CHARGES ON GROUP'S ASSETS

As at 31 December 2021, the following assets was pledged to secure the Group's bank and other borrowings:

- (a) Buildings with an aggregate net carrying amount of approximately RMB46,685,000 as at 31 December 2021 (31 December 2020: RMB48,650,000);
- (b) Land use rights with an aggregate net carrying amount of approximately RMB6,460,000 as at 31 December 2021 (31 December 2020: RMB6,647,000);
- (c) Plant and machinery with an aggregate net carrying amount of approximately RMB23,523,000 as at 31 December 2021 (31 December 2020: RMB3,418,000); and
- (d) Trade receivables of RMB nil as at 31 December 2021 (31 December 2020: RMB20,965,000).

### CAPITAL COMMITMENT

The Group had capital commitments of approximately RMB686,000 as at 31 December 2021 (31 December 2020: nil).

### CONTINGENT LIABILITIES

The Group had no material contingent liabilities as at 31 December 2021.

### PRINCIPAL RISKS AND UNCERTAINTIES

The following are the principal risks and uncertainties faced by the Group, which may materially and adversely affect the Group's business, financial condition or results of operations:

- (i) The Group's business and operation may be seriously affected by the Pandemic or public health incident, which may cause lockdown and suspension of work in the PRC.
- (ii) The Group's operations could be materially affected by the volatility in the prices of our major raw materials and we may not be able to secure our principal raw materials on commercially acceptable terms, or at all.
- (iii) The Group's revenue is mainly derived from sales to customers without long-term contracts, and the demand for the Group's products is significantly dependent on our customers' business and the performance of their respective industry or market.
- (iv) The PRC preferential tax treatment and government subsidies the Group currently enjoy may be unfavourably changed or discontinued.
- (v) The Group is exposed to the credit risk of our customers and operate in a relatively thin margin.

For other risks and uncertainties facing the Group, please refer to the section headed "Risks Factors" in the Prospectus.

### FUNDING AND TREASURY AND FOREIGN EXCHANGE RISK

The Group adopts a provident funding and treasury policy. The Group has no significant foreign currency risk as its business transactions, majority of its recognised assets and liabilities are principally denominated in RMB, its functional currency. The Group did not have any hedge instruments nor enter into any hedging transactions to hedge against other foreign currency transactions during the year ended 31 December 2021. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure shared the needs arise.

### SEGMENT INFORMATION

The Group principally operates in one business segment, which is manufacturing and sale of wires and cables and manufacturing and sale of aluminum products in the PRC.

## MANAGEMENT DISCUSSION AND ANALYSIS

### EMPLOYEES AND REMUNERATION POLICIES

As at 31 December 2021, the Group employed a total of 221 full-time employees (31 December 2020: 212 full-time employees). Total employee benefit expenses for the year ended 31 December 2021 and the year ended 31 December 2020 were approximately RMB12.2 million and approximately RMB10.9 million respectively. The remuneration package for the Group's employees includes salaries, commission, bonus and allowances. Remuneration is determined with reference to market term and the performance, qualification and experience of individual employee, which would be received by the Group regularly. The Group would provide induction trainings to new employees and regular trainings to existing employees to update their knowledge and skills.

### SIGNIFICANT INVESTMENT HELD, MATERIAL ACQUISITION OR DISPOSAL OF SUBSIDIARIES AND AFFILIATED COMPANIES AND PLANS FOR MATERIAL INVESTMENT OR CAPITAL ASSETS

On 27 May 2021, the Group acquired 70% of the equity interest in 雅安寶盛金屬材料有限公司 (Yaan Baosheng Metal Material Company Limited) (the “**Acquisition**”). For further information in relation to the acquisition, please refer to the announcements of the Company dated 27 May 2021 and 17 June 2021.

Save for the Acquisition, there was no significant investment held, material acquisition or disposal of subsidiaries and affiliated companies during the year ended 31 December 2021, and there was no plan for material investment or capital assets as at the date of this report.

### USE OF NET PROCEEDS FROM THE LISTING

The net proceeds (the “**Net Proceeds**”) from the Listing, after deducting listing-related expenses, were approximately HK\$20.6 million (equivalent to approximately RMB18.6 million). The Net Proceeds raised by the Group have been fully utilised during the year ended 31 December 2021 in the manner below:

	Approximately percentage of the total amount	Amount of net proceeds allocated HK\$'000	Amount utilised up to 31 December 2021 HK\$'000	Amount unutilised up to 31 December 2021

As at 31 December 2021, the entire amount of the net proceeds from the subscription was fully utilised in the manner as disclosed in the announcement of the Company dated 27 May 2021.

# CORPORATE GOVERNANCE REPORT

The Company and the board of directors of the Company (the “**Board**”) recognise the importance of good corporate governance in management and internal control procedures so as to achieve accountability.

The Group’s corporate governance practices are based on the principles and the code provisions in the Corporate Governance Code (the “**CG Code**”) as set out in the Appendix 15 to the GEM Listing Rules. The references to the paragraph number of the CG code in this report have adopted the amendments to the CG Code which were effective on 1 January 2022. During the year ended 31 December 2021 and up to the date of this report, the Company has complied with all the applicable code provisions of the CG Code contained in Appendix 15 to the GEM Listing Rules except for code provision C.2.1 of the CG Code which requires the separation of the roles of chief executive officer and the chairman by different individuals.

## MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted rules 5.48 to 5.67 of the GEM Listing Rules as the code of conduct regarding securities transactions by the Directors in respect of the shares of the Company (the “**Model Code**”). The Company has made specific enquiries to all the Directors, all of the Directors have confirmed that they have fully complied with the required standard of dealings set out in the Code of Conduct since the Listing Date and up to the date of this report. No incident of non-compliance was noted by the Company since the Listing Date and up to the date of this report.

## CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Under code provision C.2.1, the role of the Chairman and chief executive officer of the Company should be separate by different individuals. Currently, Mr. Dang Fei is the chairman and the chief executive officer of the Company. The Board is of the view that Mr. Dang Fei is carrying out both roles can bring strong and consistent leadership for the Group and at the opinion that such arrangement will be beneficial to the Company and its business.

The Board will continue to review and consider splitting the roles of chairman and chief executive officer of the Company at a time when it is appropriate and suitable by taking into account the circumstances of the Group as a whole. The Directors are aware that the Company is expected to comply with the CG Code. Save as disclosed above, the Company will continue to comply with the CG Code to protect the best interests of the shareholders of the Company.

From the Listing Date to the date of this report (both dates inclusive), the Board comprised four executive Directors, namely Mr. Dang Fei, Mr. Wang Xiaozhong, Ms. Luo Xi and Mr. Luo Qiang, one non-executive Director, namely Mr. Wang Haichen and three independent non-executive Directors (as set out under the paragraph headed “Independence of independent non-executive Directors” of this report).

The overall management of the Company’s business is vested in the Board which assumes the responsibility for leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. All the Directors should make decisions objectively in the interests of the Company. The day-to-day management, administration and operation of the Company are delegated to the executive Directors and senior management (“**Senior Management**”). The delegated functions and work tasks are periodically reviewed. The Board has the full support from the executive Directors and the Senior Management of the Company to discharge its responsibilities.

Directors and Senior Management are set out in the section headed with “Directors and Senior Management” of this report. Save as disclosed under the paragraph headed “Chairman and Chief Executive Officer” and in the section headed “Directors and Senior Management” of this report, each of the Board members has no financial, business, family or other material or relevant relationships with each other.

## INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Board has met the requirements of rules 5.05 and 5.05A of the GEM Listing Rules of having a minimum of three independent non-executive Directors (representing at least one-third of the Board) with two of them possessing appropriate professional qualifications.

The Company has received confirmations of independence from Dr. Zuo Xinzhang, Mr. Chan Oi Fat and Ms. Hu Xiaomin, being all the independent non-executive Directors, in accordance with rule 5.09 of the GEM Listing Rules. The Board has assessed their independence and concluded that all independent non-executive Directors are independent.

## TERM OF APPOINTMENT OF INDEPENDENT NON-EXECUTIVE DIRECTORS

All independent non-executive Directors are appointed for a term of three years.

Each of such appointments is subject to the rotation and retirement provisions in the articles of association of the Company (the “**Articles of Association**”).

## BOARD COMMITTEES

The Board has established three committees, namely the audit committee (the “**Audit Committee**”), remuneration committee (the “**Remuneration Committee**”) and nomination committee (the “**Nomination Committee**”) (collectively, the “**Board Committees**”). Each committee has its own written terms of reference and is responsible to make recommendations to the Board. All of the Board Committees are allocated with sufficient resources to discharge their duties.

### Audit committee

The Company established the Audit Committee with written terms of reference in compliance with Rule 5.29 of the GEM Listing Rules and paragraph D.3.3 of the CG Code pursuant to a resolution of our Directors passed on 10 June 2020. The primary duties of the Audit Committee are, among others, to make recommendation to our Board on the appointment, reappointment and removal of external auditor, monitor integrity of our financial statements, review significant financial reporting judgements contained in them, oversee our financial reporting, internal control, risk management systems and audit process and perform other duties and responsibilities assigned by our Board.

At present, Audit Committee comprises of the Company of Mr. Chan Oi Fat, Dr. Zuo Xinzhang and Ms. Hu Xiaomin, all being our independent non-executive Directors. Mr. Chan Oi Fat is the chairperson of our audit committee.

During the year ended 31 December 2021, the Audit Committee had held four meetings. A summary of the work performed by the Audit Committee is listed below:

- reviewed the Group’s annual financial statements for the year ended 31 December 2020, quarterly financial statements for the three months ended 31 March 2021 and the nine months ended 30 September 2021 and interim financial statements for the six months ended 30 June 2021, the related result announcements, documents and other matters or issues raised by the external auditor of the Company;
- reviewed the terms of engagement of the external auditor of the Company (including the annual audit plan, scope of work and fee payable to external auditor);
- recommended to the Board, for the approval by shareholders, of the re-appointment of the external auditor; and

## CORPORATE GOVERNANCE REPORT

- discussed and confirmed with the management the effectiveness of the Group's financial reporting process, risk management and internal control systems covering all material controls, including financial, operational and compliance controls. In particular, the review has considered the adequacy of resources, qualifications and experience of staff of the Company's accounting, internal audit and financial reporting functions, and their training programmes and budget.

The Company's annual results and annual report for the year ended 31 December 2021 have been reviewed by the Audit Committee, which opined that applicable accounting standards and requirements have been complied with and that adequate disclosures have been made.

### Remuneration committee

The Company established the Remuneration Committee on 10 June 2020 with written terms of reference in compliance with Rule 5.35 of the GEM Listing Rules and paragraph E.1.2 of the CG Code. The primary duties of our Remuneration Committee are, among others, to review and approve the management's remuneration proposals, make recommendations to our Board on the remuneration package of our Directors and senior management and ensure none of our Directors or their associates is involved in deciding their own remuneration.

At present, our Remuneration Committee comprises Ms. Hu Xiaomin, Dr. Zuo Xinzhang and Mr. Chan Oi Fat, all being our independent non-executive Directors. Ms. Hu Xiaomin is the chairperson of our remuneration committee.

Attendance of each Remuneration Committee member in Remuneration Committee meeting is set out under the paragraph headed "Board meetings and general meetings" of this report.

During the year ended 31 December 2021, Remuneration Committee has assessed the performance of executive Directors and reviewed the remuneration and compensation package of the Directors and Senior Management with reference to, among other things, the market level of salaries paid by comparable companies, the respective responsibilities of the Directors and the Senior Management and the performance of the Group, and approved that the remuneration and compensation package remained unchanged, and the proposal to pay performance bonus to certain Directors based on the performance of the Group in 2021.

Details of the Directors' remuneration are set out in note 11 to the consolidated financial statements.

### REMUNERATION OF SENIOR MANAGEMENT

Pursuant to code provision E.1.5 of the CG Code, the remuneration paid to the members of the Senior Management by band for the year ended 31 December 2021 is set out below:

<b>Remuneration band (RMB)</b>	<b>Number of person(s)</b>
Nil to 1,000,000	7
1,000,001 to 1,500,000	—
1,500,001 to 2,000,000	—
2,000,001 to 2,500,000	—

### Nomination committee

The Company established the Nomination Committee on 10 June 2020 with written terms of reference in compliance with paragraph B.3.1 of the CG Code. The primary duties of the Nomination Committee are, among others, to review the structure, size, composition and diversity of our Board, and select or make recommendations on the selection of individuals nominated for directorships.

At present, the Nomination Committee comprises Mr. Dang Fei, Dr. Zuo Xinzhang, Mr. Chan Oi Fat and Ms. Hu Xiaomin. Mr. Dang Fei is the chairperson of our nomination committee.

Attendance of each Nomination Committee member in Nomination Committee meeting is set out under the paragraph headed “Board meetings and general meetings” of this report.

### Nomination policy

During the year ended 31 December 2021, the Nomination Committee held a meeting, considered and recommended the nomination policy to the Board. The Board thus approved and adopted the nomination policy, which establishes written guidelines to the Nomination Committee to identify individuals suitably qualified to become Board members and make recommendations to the Board on the selection of individuals nominated for directorships with reference to the formulated criteria. The Board is ultimately responsible for selection and appointment of new Directors.

The Board, through the delegation of its authority to the Nomination Committee, has used its best efforts to ensure that Directors appointed to the Board possess the relevant background, experience and knowledge in business, finance and management skills critical to the Group’s business to enable the Board to make sound and well considered decisions. Collectively, they have competencies in areas which are relevant and valuable to the Group.

### Nomination Criteria

In evaluating and selecting any candidate for the directorship, the following criteria should be considered:

- (i) the candidate’s character and integrity;
- (ii) the candidate’s qualifications including professional qualifications, skills, knowledge and experience, and diversity aspects under the Board Diversity Policy (as defined below) that are relevant to the Company’s business and corporate strategy;
- (iii) any measurable objectives adopted for achieving diversity on the Board;
- (iv) for independent non-executive Directors, whether the candidate would be considered independent with reference to the independence guidelines set out in the GEM Listing Rules;
- (v) any potential contributions the candidate can bring to the Board in terms of qualifications, skills, experience, independence and gender diversity;
- (vi) willingness and ability of the candidate to devote adequate time to discharge duties as a member of the Board and/or Board committee(s) of the Company; and
- (vii) such other perspectives that are appropriate to the Company’s business and succession plan and where applicable may be adopted and/or amended by the Board and/or the Nomination Committee from time to time for nomination of directors and succession planning.

### Nomination Procedures

The Board has put in place the following director nomination procedures:

#### (a) **Appointment of New and Replacement Directors**

- (i) If the Board determines that an additional or replacement Director is required, it will deploy multiple channels for identifying suitable director candidates, including referral from Directors, shareholders, management, advisors of the Company and external executive search firms.
- (ii) Upon compilation and interview of the list of potential candidates, the relevant Nomination Committee will shortlist candidates for consideration by the Nomination Committee/Board based on the selection criteria and such other factors that it considers appropriate. The Board has the final authority on determining suitable director candidate for appointment.

#### (b) **Re-election of Director at General Meeting**

Retiring Directors are eligible for nomination by the Board to stand for re-election at the general meeting according to the Articles of Association of the Company.

The Nomination Committee and the Board should review the overall contribution, participation and performance of the retiring Director and the Board should then make recommendation to the Shareholders in respect of the proposed re-election of Director at the general meeting.

## COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

Except for the deviation from provision C.2.1 of the CG Code, our corporate governance practices are expected to comply with the CG Code. Provision C.2.1 of the CG Code stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual.

Mr. Dang Fei has been managing our Group's business and overall strategic planning since its establishment. Our Directors believe that the vesting of the roles of chairman of our Board and chief executive officer in Mr. Dang Fei is beneficial to the business operations and management of our Group as it provides a strong and consistent leadership to our Group and that the current management has been effective in the development of our Group and implementation of business strategies under the leadership of Mr. Dang Fei. In allowing the two roles to be vested in the same person, our Directors believe both positions require in-depth knowledge and considerable experience of our Group's business and Mr. Dang Fei is the most suitable person to occupy both positions for effective management of our Group. Accordingly, our Company has not segregated the roles of the chairman of our Board and chief executive officer as required by Code Provision C.2.1 of the CG Code.

### Board Diversity Policy

We have adopted a board diversity policy (the "**Board Diversity Policy**") on 10 June 2020 pursuant to the requirement of the CG Code, which sets out the approach of which our Board could achieve a higher level of diversity. We recognise the benefits of having a diversified Board. In summary, our Board Diversity sets out that when considering the nomination and appointment of a Director, with the assistance of our nomination committee, our Board would consider a number of factors, including but not limited to the skills, knowledge, professional experience and qualifications, cultural and educational background, age, gender and diversity of perspective that the candidate is expected to bring to our Board and what would be the candidate's potential contributions, in order to better serve the needs and development of our Company. Our Board Diversity Policy also seeks to attract, retain and motivate our Directors and other staff from the widest pool of available talent. All Board appointments will be based on meritocracy and candidates will be considered against objective criteria, having due regard to the benefits of diversity on our Board.

During the year ended 31 December 2021, the Nomination Committee reviewed the Board Diversity Policy and reviewed the independence of each of the independent non-executive Directors.

## BOARD MEETINGS AND GENERAL MEETING

Pursuant to code provision C.5.1 of the CG Code, the Board meets regularly and Board meetings would be held at least four times a year. Additional meetings would be arranged if and when required. Board members are provided with all agenda and adequate information for their review within reasonable time before the meetings. After each meeting, draft minutes are circulated to all Directors for comments before confirmation. Minutes of Board meetings and meetings of board committees are kept by the company secretary and are available for inspection by the Directors at all times. Each Director is entitled to seek independent professional advice in appropriate circumstances at the expense of the Company. Directors may participate either in person or through electronic means of communications. Directors are free to contribute and share their views at meetings and major decisions will only be taken after deliberation at Board meetings. Directors who are considered to have conflict of interests or material interests in the proposed transactions or issues to be discussed will not be counted in the quorum of meeting and will abstain from voting on the relevant resolutions.

The Board is regularly provided with brief reports containing balanced and comprehensive evaluation on the Group's performance, status and prospects to keep it abreast of the Group's affairs and to facilitate the Directors' performance of their obligations under the relevant requirements of the GEM Listing Rules.

### Directors' attendance records at meetings of the Board and the Board Committees and general meeting

### Dividend policy

The Company has on 10 June 2020 adopted a dividend policy (the "Dividend Policy") in compliance with F.1.1 of the CG Code, which establishes an appropriate procedure on declaring and recommending the dividend payment of the Company. Summary of the Dividend Policy is set out below:

## CORPORATE GOVERNANCE REPORT

- (i) the Dividend Policy aims to set out the principles and guidelines that the Company intends to apply in relation to the declaration, payment or distribution of its net profits as dividends to the shareholders of the Company and also take into account the following factors of the Group when considering the declaration and payment of dividends:
- financial results;
  - cash flow situation;
  - balance of distributable reserves;
  - business conditions and strategies;
  - future operations and earnings;
  - capital requirements and expenditure plans;
  - interests of shareholders;
  - any restrictions on the payment of dividends; and
  - any other factors that the Board may consider relevant;
- (ii) depending on the financial conditions of the Company and the Group and the conditions and factors as set out above, dividends may be proposed and/or declared by the Board for a financial year or period:
- interim dividend;
  - final dividend;
  - special dividend; and
  - any distribution of net profits that the Board may deem appropriate;
- (iii) any final dividend for a financial year will be subject to shareholders' approval;
- (iv) the Company may declare and pay dividends by way of cash or scrip or by other means that the Board considers appropriate; and
- (v) any dividend unclaimed shall be forfeited and shall revert to the Company in accordance with the Company's Articles of Association.

The Board will review the Dividend Policy as appropriate from time to time.

### TRAINING AND CONTINUING DEVELOPMENT FOR DIRECTORS

For the year ended 31 December 2021, all Directors had participated in continuous professional development with respect to directors' duties, relevant programmes and seminars or had perused reading materials and updated information in relation to business and industrial development and are aware of the requirement under code provision C.1.4 of the CG Code regarding continuous professional development. The Directors had provided the relevant training records to the Company.

The Company is committed to arranging and funding suitable training to all Directors for their continuous professional development. Each Director is briefed and updated from time to time to ensure that he/she is fully aware of his/her roles, functions, duties and responsibilities under the GEM Listing Rules and applicable legal and regulatory requirements and the governance policies of the Group.

## COMPLIANCE ADVISER

In accordance with rule 6A.19 of the GEM Listing Rules, the Company has appointed Alliance Capital Partners Limited as its compliance adviser (the “**Compliance Adviser**”). Pursuant to rule 6A.23 of the GEM Listing Rules, the Company will consult with and seek advice from the Compliance Adviser on a timely basis in the following circumstances:

- (i) before the publication of any regulatory announcement, circular or financial report;
- (ii) where a transaction, which might be a notifiable or connected transaction, is contemplated including share issues and share repurchases;
- (iii) where the Company proposes to use the proceeds from the share offer of the Company in a manner different from that detailed in the Prospectus dated 24 June 2020 or where the business activities, developments or results deviate from any forecast, estimate, or other information in the Prospectus; and
- (iv) where the Stock Exchange makes an inquiry regarding unusual movements in the price or trading volume of the Company’s shares, the possible development of a false market in its shares, or any other matters pursuant to rule 17.11 of the GEM Listing Rules.

The term of appointment of the Compliance Adviser complies with rule 18.03 of the GEM Listing Rules. Except for the compliance adviser agreement and a financial adviser agreement entered into between the Company and the Compliance Adviser, neither the Compliance Adviser nor its directors, employees or close associates had any interests in relation to the Company which is required to be notified to the Company pursuant to rule 6A.32 of the GEM Listing Rules.

## COMPANY SECRETARY

Company Secretary supports the Board by ensuring good information flow within the Board and that the Board policy and procedures are followed. The Company Secretary is responsible for advising the Board on corporate governance matters and facilitating induction and professional development of the Directors. All Directors have access to the advice and services of the Company Secretary to ensure that the Board procedures and all applicable laws, rules and regulations are followed.

Mr. Woo Yuen Ping aged 36, was appointed as the Company Secretary of the Company on 22 May 2019. He has complied with all requirements relating to qualifications, experiences and training under the GEM Listing Rules. ## SHARE OPTION SCHEME

The Company conditionally adopted a share option scheme (the "**Share Option Scheme**") on 10 June 2020 (the "**Effective Date**"), which will continue to be valid for 10 years. Under the Share Option Scheme, the Board may, at their absolute discretion, at any time within a period of ten years commencing from the Effective Date offer to grant to any eligible persons (as defined herein below), including employees, directors, consultants, suppliers, customers and shareholders of any member of the Group, options to subscribe for Shares.

The principal terms of the Share Option Scheme are summarised as follows:

1. The purpose of the Share Option Scheme is to enable our Group to grant options to the eligible participants as incentives or rewards for their contribution to our Group and/or to enable our Group to recruit and retain high-calibre employees and attract human resources that are valuable to our Group or any entity in which any member of our Group holds any equity interest (the "**Invested Entity**").
2. Our Directors shall, in accordance with the provisions of the Share Option Scheme and the GEM Listing Rules, be entitled but shall not be bound at any time within a period of 10 years commencing from the date of the adoption of the Share Option Scheme to make an offer to any of the following classes:
  - (i) any employee (whether full time or part time, including our Directors (including any non-executive Director and independent non-executive Director)) of our Company, any of our subsidiaries (within the meaning of the Companies Ordinance) or any Invested Entity (an "**Eligible Employee**");
  - (ii) any supplier of goods or services to any member of our Group or any Invested Entity;
  - (iii) any customer of any member of our Group or any Invested Entity;
  - (iv) any person or entity that provides research, development or other technological support to any member of our Group or any Invested Entity;
  - (v) any shareholder of any member of our Group or any Invested Entity or any holder of any securities issued by any member of our Group or any Invested Entity;
  - (vi) any adviser (professional or otherwise), consultant, individual or entity who in the opinion of our Directors has contributed or will contribute to the growth and development of our Group; and
  - (vii) any other group or classes of participants who have contributed or may contribute by way of joint venture, business alliance or other business arrangement to the development and growth of our Group.

## DIRECTORS' REPORT

3. The total number of Shares which may be allotted and issued upon exercise of all options to be granted under the Share Option Scheme and any other share option scheme of our Group must not in aggregate exceed 10% of the total number of Shares of the total number of Shares in issue on the Listing Date. As at the date of this annual report, the number of issued shares of the Company is 920,000,000 shares and the total number of shares to be issued under the Share Option Scheme is 80,000,000 shares, representing less than 10% of the issued share capital of the Company, if all the option under the Share Option Scheme have been granted to and duly exercised by Eligible Person. The maximum entitlement each Participant shall have shall be subject to the requirements under the GEM Listing Rules.
4. An offer under the Share Option Scheme may remain open for acceptance by the eligible participants concerned (and by no other person) for a period of up to 21 days from the date, which must be a business day, on which the offer is made. An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period to be determined and notified by our Directors to the grantee thereof, and in the absence of such determination, from the date of acceptance of the offer of such option to the earlier of (i) the date on which such option lapses under the relevant provisions of the Share Option Scheme; and (ii) the date falling 10 years from the offer date of that option.
5. The subscription price in respect of any option shall, subject to any adjustments made pursuant to paragraph(s) below, be at the discretion of our Directors, provided that it shall not be less than the highest of:
  - (i) the closing price of our Shares as stated in the Stock Exchange's daily quotations sheet for trade in one or more board lots of our Shares on the offer date;
  - (ii) the average closing price of our Shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the offer date; and
  - (iii) the nominal value of a Share.
6. Shares to be allotted and issued upon the exercise of an option will be subject to all the provisions of the Articles for the time being in force and will rank equally in all respects with the then existing fully paid Shares in issue on the date on which the option is duly exercised.
7. If the grantee is an Eligible Employee and in the event of his ceasing to be an Eligible Employee for any reason other than his death, ill-health or retirement in accordance with his contract of employment or the termination of his employment on the grounds that he has been guilty of persistent or serious misconduct, or has committed any act of bankruptcy or has become insolvent or has made any arrangement or composition with his creditors generally, or has been convicted of any criminal offence (other than an offence which in the opinion of our Directors does not bring the grantee or our Group into disrepute), such option (to the extent not already exercised) shall lapse automatically and shall not in any event be exercisable on or after the date of cessation to be an Eligible Employee.
8. Subject to the provisions in the Share Option Scheme and the GEM Listing Rules, any option granted but not exercised may not be cancelled except with the prior written consent of the relevant grantee and the approval of our Directors.

9. Our Company by an ordinary resolution in general meeting may at any time terminate the operation of the Share Option Scheme and in such event no further options will be offered but in all other respects the provision of the Share Option Scheme shall remain in force to the extent necessary to give effect to the exercise of any options (to the extent not already exercised) granted prior to such termination shall continue to be valid and exercisable in accordance with the Share Option Scheme.
10. An option shall be personal to the grantee and shall not be transferable or assignable, and no grantee shall in any way sell, transfer, charge, mortgage, encumber or otherwise dispose of or create any interest whatsoever in favour of any third party over or in relation to any option or enter into any agreement so to do. Any breach of the foregoing by a grantee shall entitle our Company to cancel any option granted to such grantee to the extent not already exercised.

## TO THE SHAREHOLDERS OF CHINA SAFTOWER INTERNATIONAL HOLDING GROUP LIMITED

(incorporated in Cayman Islands with limited liability)

### OPINION

We have audited the consolidated financial statements of China Saftower International Holding Group Limited (the “**Company**”) and its subsidiaries (together the “**Group**”) set out on pages 44 to 119, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s “Code of Ethics for Professional Accountants” (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Impairment assessment of trade receivables**

As at 31 December 2021, the Group's gross trade receivables amounted to RMB220.0 million, against which a loss allowance of RMB5.5 million was recorded.

Management measures the loss allowance on trade receivables at an amount equal to lifetime expected credit loss (ECLs) based on expected loss rates for each category of trade receivables. The expected loss rates take into account the ageing of trade receivable balances, the repayment history of the Group's customers of different risk characteristics, current market conditions, customer-specific conditions, and forward-looking information.

Such assessment involves significant management judgement and estimation. We identified the loss allowance on trade receivables as a key audit matter because determining the level of the loss allowance requires the exercise of significant management judgement which is inherently subjective.

Refer to summary of significant accounting policies in Note 4.8(ii), critical accounting judgements and key sources of estimation in Note 5(iv) and disclosures of trade receivables in Note 21 and Note 42(a) to the consolidated financial statements.

**Our responses:**

Our procedures in relation to the management's impairment assessment of trade receivables included:

- reviewing and assessing the Group's accounting policy for estimating of ECLs on trade receivables;
- discussing with management for the recoverability of significant trade receivables that are past due as at year end and corroborating explanations from management with supporting evidences, such as understanding on-going business relationship with the customers based on trade records and checking customers' settlement records; and
- evaluating management's calculation of loss allowance by reviewing the inputs and information used by management in the ECLs models, including testing the accuracy of the trade receivables ageing report, evaluating whether the expected loss rates applied with historical credit loss rates appropriately adjusted in accordance with current economic conditions and forward-looking information.

**OTHER INFORMATION IN THE ANNUAL REPORT**

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

## INDEPENDENT AUDITOR'S REPORT

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

### **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The directors of the Company do not anticipate the application of these new or amended HKFRSs in future will have any significant impact on the Group’s financial statements.

## 3. BASIS OF PREPARATION

### (a) Statement of compliance

The consolidated financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards (“**HKASs**”) and Interpretations (hereinafter collectively referred to as the “**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of Stock Exchange.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 3. BASIS OF PREPARATION (CONTINUED)

### (b) Basis of measurement and going concern assumption

The consolidated financial statements have been prepared under the historical cost basis.

During the year ended 31 December 2021, the Group incurred a net loss of approximately RMB26,523,000, the net cash used in operating activities was approximately RMB28,223,000. These conditions may cast significant doubt about the Group's ability to continue as a going concern. Nevertheless, these consolidated financial statements were prepared based on the assumption that the Group is able to operate as a going concern and the directors of the Company are of the view that the Group will have sufficient working capital to finance its operations and meet its financial obligations as and when they fall due based on a cash flow forecast covering a period from 1 January 2022 to 31 March 2023 after taking account of the following events and measures:

- (i) The directors have been endeavouring to improve the Group's operating cash flows through implementing various cost control measures;
- (ii) The Group has been actively negotiating with the lending banks and the other loan lenders for the renewal of banking facilities and other loans upon maturity amounting to approximately RMB129,900,000 out of the current borrowings amounting to approximately RMB166,658,000 as at 31 December 2021. These borrowings were either pledged by the Group's property, plant and equipment and right-of-use assets. Given the good track records with the relevant financial institutions and the availability of sufficient assets as collaterals, the directors are of the opinion that the Group will successfully renew the existing interest-bearing borrowings upon maturity;
- (iii) Subsequent to the year ended 31 December 2021, the Group has further obtained credit loan facilities of HKD49,000,000 (equivalent to approximately RMB40,180,000) from a money lender in Hong Kong which will be secured by certain assets provided by a shareholder of the Company after drawing of loans. With this additional credit facility, the Group has a total unutilised credit facility of approximately RMB52,672,000 for its working capital at date for issue of these consolidated financial statements.

The directors also performed a sensitivity analysis on certain key parameter, i.e. revenue by considering any possible negative impact on the effectiveness of its measures to improve profitability. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

## **3. BASIS OF PREPARATION (CONTINUED)**

### **(c) Functional and presentation currencies**

The Company's functional currency is Hong Kong dollar. As the Group's operations are principally conducted in the PRC, the consolidated financial statements have been presented in Chinese Renminbi ("RMB"). All financial information presented in RMB has been rounded to the nearest thousand ("RMB'000"), unless otherwise stated.

## **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

### **4.1 Business combination and basis of consolidation**

The consolidated financial statements comprise the financial statements of the Group. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the dates of acquisition or up to the dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive processes and whether the acquired set has the ability to produce outputs.

The cost of an acquisition is measured at the aggregate of the acquisition-date fair value of assets transferred, liabilities incurred and equity interests issued by the Group, as the acquirer. The identifiable assets acquired and liabilities assumed are principally measured at acquisition-date fair value. The Group's previously held equity interest in the acquiree is re-measured at acquisition-date fair value and the resulting gains or losses are recognised in profit or loss. The Group may elect, on a transaction-by-transaction basis, to measure the non-controlling interests that represent present ownership interests in the subsidiary either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other non-controlling interests are measured at fair value unless another measurement basis is required by HKFRSs. Acquisition-related costs incurred are expensed unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.1 Business combination and basis of consolidation (Continued)

Any contingent consideration to be transferred by the acquirer is recognised at acquisition-date fair value. Subsequent adjustments to consideration are recognised against goodwill only to the extent that they arise from new information obtained within the measurement period (a maximum of 12 months from the acquisition date) about the fair value at the acquisition date. All other subsequent adjustments to contingent consideration classified as an asset or a liability are recognised in profit or loss.

Subsequent to acquisition, the carrying amount of non-controlling interests that represent present ownership interests in the subsidiary is the amount of those interests at initial recognition plus such non-controlling interest's share of subsequent changes in equity. Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to such non-controlling interests even if this results in those non-controlling interests having a deficit balance.

Changes in the Group's interests in a subsidiary that do not result in a loss of control of the subsidiary are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, the gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for on the same basis as would be required if the relevant assets or liabilities were disposed of.

### 4.2 Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: (1) power over the investee, (2) exposure, or rights, to variable returns from the investee, and (3) the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statements of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivables.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

*For the year ended 31 December 2021*

## **4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

### **4.3 Non-controlling interests**

Non-controlling interests in a subsidiary relate to the equity in the subsidiary which is not attributable directly or indirectly to the owners of the parent. This is shown separately in the consolidated statements of profit or loss and other comprehensive income, the consolidated statements of financial position and the consolidated statements of changes in equity.

Non-controlling interests in the acquiree that are a present ownership interest and entitle its holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value, of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis.

### **4.4 Goodwill**

Goodwill represents the excess of the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree over the fair value of the identifiable assets and liabilities measured as at the acquisition date.

Where the fair value of identifiable assets and liabilities exceed the aggregate of the fair value of consideration paid, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of the acquirer's previously held equity interest in the acquiree, the excess is recognised in profit or loss on the acquisition date, after re-assessment.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the combination. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, by comparing its carrying amount with its recoverable amount (see note 4.15), and whenever there is an indication that the unit may be impaired.

For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is first allocated to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit on a pro-rata basis on the carrying amount of each asset in the unit. However, the loss allocated to each asset will not reduce the individual asset's carrying amount to below its fair value less cost of disposal (if measurable) or its value in use (if determinable), whichever is the higher. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.5 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Property, plant and equipment are depreciated so as to write off their cost net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The useful lives are as follows:

Buildings	30 years
Plant and machinery	10–30 years
Furniture and fixtures	3–5 years
Computer and office equipment	3–10 years
Motor vehicles	5–10 years

Construction in progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as borrowing costs capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to the appropriate class of property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on disposal.

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.6 Leases

#### ***The Group as lessor***

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the leased assets to the lessee. All other leases are classified as operating leases.

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on the straight-line basis over the lease term.

Any changes in the scope of the consideration for a lease that was not part of the original terms and conditions of the lease are accounted for as lease modifications. The Group accounts for a modification to an operating lease as a new lease from the effective date of the modification, recognising the remaining lease payments as income on either a straight-line basis or another systematic basis over the remaining lease term.

#### ***The Group as lessee***

All leases are required to be capitalised in the consolidated statement of financial position as right-of-use assets and lease liabilities, but accounting policy choices exist for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets and leases for which at the commencement date have a lease term of less than 12 months. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

#### ***Right-of-use asset***

The right-of-use asset is recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Except for right-of-use asset that meets the definition of an investment property or a class of property, plant and equipment to which the Group applies the revaluation model, the Group measures the right-of-use assets applying a cost model. Under the cost model, the Group measures the right-to-use at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability. For right-of-use asset that meets the definition of an investment property, they are carried at fair value and for right-of-use asset that meets the definition of a leasehold land and buildings held for own use, they are carried at depreciated cost.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.6 Leases (Continued)

#### **Right-of-use asset (Continued)**

Other than the above right-of-use assets, the Group also has leased an office under tenancy agreements which the Group exercises its judgement and determines that it is a separate class of asset apart from the leasehold land and buildings which is held for own use. As a result, the right-of-use asset arising from the properties under tenancy agreements are carried at depreciated cost.

The Group applies HKAS 36 to determine whether the right-of-use asset is impaired and accounts for any identified impairment loss.

#### **Lease liability**

The lease liability is recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

The following payments for the right-to-use the underlying asset during the lease term that are not paid at the commencement date of the lease are considered to be lease payments: (i) fixed lease payments less any lease incentives receivable; (ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at commencement date; (iii) amounts expected to be payable by the lessee under residual value guarantees; (iv) exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and (v) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Subsequent to the commencement date, the Group measures the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications, e.g., a change in future lease payments arising from change in an index or rate, a change in the lease term, a change in the in-substance fixed lease payments or a change in assessment to purchase the underlying asset.

### 4.7 Intangible assets (other than goodwill)

#### **(i) Intangible assets acquired separately**

Intangible assets acquired separately are initially recognised at cost. The cost of intangible assets acquired in a business combination is its fair value at the date of acquisition. Subsequently, intangible assets with indefinite useful lives are carried at cost less any accumulated impairment losses. Intangible assets with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses.

The amortisation expense is recognised in profit or loss and included in administrative expenses. The useful lives and amortisation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The amortisation expense is recognised on a straight-line basis over their useful lives as follows:

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.7 Intangible assets (other than goodwill) (Continued)

#### (i) *Intangible assets acquired separately (Continued)*

The management of the Group considers the expected usage of the computer software by the Group, technological obsolescence and other factors to justify the useful lives of the computer software.

#### (ii) *Internally generated intangible assets (research and development costs)*

Expenditure on internally developed products is capitalised if it can be demonstrated that:

- a. it is technically feasible to develop the product for it to be sold;
- b. adequate resources are available to complete the development;
- c. there is an intention to complete and sell the product;
- d. the Group is able to sell the product; and
- e. sale of the product will generate future economic benefits; and expenditure on the project can be measured reliably.

Capitalised development costs are amortised over the periods the Group expects to benefit from selling the products developed. The amortisation expense is recognised in profit or loss and included in cost of sales.

Development expenditure not satisfying the above criteria and expenditure on the research phase of internal projects are recognised in profit or loss as incurred.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.7 Intangible assets (other than goodwill) (Continued)

#### (iii) *Subsequent expenditure*

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

#### (iv) *Derecognition of intangible assets*

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### (v) *Impairment of intangible assets*

Intangible assets with finite lives are tested for impairment when there is an indication that an asset may be impaired. Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, irrespective of whether there is any indication that they may be impaired. Intangible assets are tested for impairment by comparing their carrying amounts with their recoverable amounts (see Note 4.15).

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount.

An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at revalued amount, in which case the impairment loss is treated as revaluation decrease to the extent of its revaluation surplus.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.8 Financial instruments

#### (i) **Financial assets**

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss (“**FVTPL**”), transaction costs that are directly attributable to its acquisition or issue. Trade receivables without a significant financing component are initially measured at the transaction price.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

#### Debt instruments

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. There is one measurement category into which the Group classifies its debt instruments:

**Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest rate method. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain on derecognition is recognised in profit or loss.

**Fair value through profit or loss (“**FVTPL**”):** Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at FVTPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at FVTOCI, as described above, debt instruments may be designated at FVTPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.8 Financial instruments (Continued)

#### (ii) Impairment loss on financial assets

The Group recognises loss allowances for expected credit loss (“ECL”) on trade receivables and financial assets measured at amortised cost. ECLs are measured on either of the following bases:

- (1) 12-month ECLs: these are the ECLs that result from possible default events within the 12 months after the reporting date: and
- (2) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets’ original effective interest rate.

The Group measures loss allowances for trade receivables using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group’s historical credit loss experience, adjusted for forward- looking factors specific to the debtors and the economic environment.

For other debt financial assets, ECLs are based on lifetime ECLs except when there has not been a significant increase in credit risk since initial recognition, in which case the allowance will be based on the 12-month ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group’s historical experience and informed credit assessment and including forward-looking information.

The Group rebutted the presumption of a financial asset has increased credit risk significantly if it is more than 30 days past due based on the customers’ past payment history and current ability of making payments. The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 180 days past due.

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.8 Financial instruments (Continued)

#### (ii) Impairment loss on financial assets (Continued)

The Group rebutted the presumption of default under ECL model for a financial asset over 90 days past due based on the customers' past payment history and current ability of making payments. The Group considers that default has occurred when a financial asset is more than 1 year past due. Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

The Group considers a financial asset to be credit-impaired when: (1) significant financial difficulty of the debtor; (2) a breach of contract, such as a default or 180 days past due event; (3) the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise; (4) it is probable that the debtor will enter bankruptcy or other financial reorganisation; (5) the disappearance of an active market for that financial asset because of financial difficulties; or (6) the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets, interest income is calculated based on the gross carrying amount.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.8 Financial instruments (Continued)

#### (iii) Financial liabilities

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at amortised cost are initially measured at fair value, net of directly attributable costs incurred.

#### *Financial liabilities at amortised cost*

Financial liabilities at amortised cost including trade and other payables, borrowings, amount due to a shareholder, and lease liabilities are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

#### (iv) Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

#### (v) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

#### (vi) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. A financial guarantee contract issued by the Group and not designated as at FVTPL is recognised initially at its fair value less transaction costs that are directly attributable to the issue of the financial guarantee contract. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount of the loss allowance, being the ECL provision measured in accordance with the accounting policy set out in note 4.8 (ii); and (ii) the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the principles of HKFRS 15.

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.8 Financial instruments (Continued)

#### (vii) Derecognition

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKFRS 9.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

Where the Group issues its own equity instruments to a creditor to settle a financial liability in whole or in part as a result of renegotiating the terms of that liability, the equity instruments issued are the consideration paid and are recognised initially and measured at their fair value on the date the financial liability or part thereof is extinguished. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments are measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability or part thereof extinguished and the consideration paid is recognised in profit or loss for the year.

### 4.9 Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

### 4.10 Revenue recognition

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding those amounts collected on behalf of third parties. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts.

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or services.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.10 Revenue recognition (Continued)

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception.

Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method.

For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

#### (i) Sales of wires and cables

Customers obtain control of the wires and cables when the goods are delivered to and have been accepted. Revenue is thus recognised upon when the customers accepted the wires and cables. There is generally only one performance obligation. Invoices are usually payable within 90 days.

#### (ii) Sales of aluminium products

Customers obtain control of the aluminium products when the goods are delivered to and have been accepted. Revenue is thus recognised upon when the customers accepted the aluminium products. There is generally only one performance obligation. Invoices are usually payable within 5 days.

#### (iii) Warranties

The Group normally provides warranty services from 1 to 2 years to its customers regarding the sales of wires and cables. The customers do not have an option to purchase warranty separately. The Group accounts for warranty in accordance with HKAS 37 "Provisions, Contingent Liabilities and Contingent Assets" unless the warranty provides the customer with a service in addition to the assurance that the product complies with agreed-upon specification (i.e. service-type warranties).

#### (iv) Other income

Rental income under operating leases is recognised on a straight-line basis over the term of the relevant lease.

Interest income is accrued on a time basis on the principal outstanding at the applicable interest rate.

Dividend income is recognised when the right to receive the dividend is established.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.10 Revenue recognition (Continued)

#### **Contract assets and liabilities**

A contract asset represents the Group's right to consideration in exchange for services that the Group has transferred to a customer that is not yet unconditional. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

#### **Contract costs**

The Group recognises an asset from the costs incurred to fulfil a contract when those costs meet all of the following criteria:

- (a) the costs relate directly to a contract or to an anticipated contract that the entity can specifically identify;
- (b) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligation in the future; and
- (c) the costs are expected to be recovered.

The asset recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the cost relate. The asset is subject to impairment review.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.11 Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects any uncertainty related to income tax.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill not deductible for tax purposes and initial recognition of assets and liabilities that are not part of the business combination which affect neither accounting nor taxable profits, taxable temporary differences arising on investments in subsidiaries, associates and joint ventures where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised, provided that the deductible temporary differences are not arises from initial recognition of assets and liabilities in a transaction other than in a business combination that affects neither taxable profit nor the accounting profit. Deferred tax is measured at the tax rates appropriate to the expected manner in which the carrying amount of the asset or liability is realised or settled and that have been enacted or substantively enacted at the end of reporting period and reflects any uncertainty related to income tax.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income tax levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income or when they relate to items recognised directly in equity in which case the taxes are also recognised directly in equity.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.12 Cash and cash equivalents

For the purpose of the consolidated statements of financial position, cash and cash equivalents comprise cash on hand and at banks, which are not restricted as to use.

For the purpose of the consolidated statements of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, and form an integral part of the Group's cash management.

### 4.13 Foreign currency

Transactions entered into by group entities in currencies other than the currency of the primary economic environment in which they operate (the “**functional currency**”) are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income, in which case, the exchange differences are also recognised in other comprehensive income.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. RMB) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as foreign exchange reserve (attributed to non-controlling interests as appropriate). Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as foreign exchange reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign exchange reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation on or after 1 January 2005 are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of reporting period. Exchange differences arising are recognised in the foreign exchange reserve.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.14 Employee benefits

#### (i) Short term employee benefits

Short term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the annual reporting period in which the employees render the related service. Short term employee benefits are recognised in the year when the employees render the related service.

#### (ii) Defined contribution retirement plan

Contributions to defined contribution retirement plans are recognised as an expense in profit or loss when the services are rendered by the employees. Pursuant to the relevant labour rules and regulations in the Mainland China, employees of the Group in the Mainland China participated in the central pension scheme (“**Scheme**”), which is a defined contribution plan administered by the Mainland China government, whereby the Group is required to make contributions to the Scheme based on certain percentages of the eligible employees’ salaries. The local government authorities are responsible for the entire pension obligations payable to the retired employees. Contributions made to the Scheme vest immediately.

### 4.15 Impairment of assets (other than financial assets)

At the end of each reporting period, the Group reviews the carrying amounts of the following assets to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- prepayments;
- right-of-use assets;
- intangible assets;
- investments in a subsidiary; and
- Goodwill

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the impairment loss is treated as a revaluation decrease under that HKFRS.

For the year ended 31 December 2021

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.15 Impairment of assets (other than financial assets) (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the reversal of the impairment loss is treated as a revaluation increase under that HKFRS.

Value in use is based on the estimated future cash flows expected to be derived from the asset or the cash-generating unit (“CGU”), discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. A CGU is the smallest identifiable group of assets that generate cash flows that are largely independent of the cash flows from other assets or groups of assets.

### 4.16 Borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### 4.17 Provision and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which it is probable will result in an outflow of economic benefits that can be reliably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### 4.18 Related parties

- (a) A person or a close member of that person’s family is related to the Group if that person:
  - (i) has control or joint control of the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of key management personnel of the Group or the Company’s parent.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.18 Related parties (Continued)

- b) An entity is related to the Group if any of the following conditions apply:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 4.19 Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets (including property, plant and equipment) are recognised as deferred income in the consolidated statements of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable and are recognised as other revenue, rather than reducing the related expense.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

### 4.20 Segment reporting

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors of the Group, being the chief operating decision maker (“**CODM**”) for their decisions about resources allocation to the Group’s business components and for their review of the performance of those components. The business components reported to the CODM are determined based on the Group’s major products and service lines stated in Note 6.

The measurement policies the Group uses for reporting segment results under HKFRS 8 are the same as those used in its financial statements prepared under HKFRSs, except interest income, unallocated financial costs, and unallocated corporate expenses, which are not directly attributable to the business activities of any operating segment, are not included in arriving at the operating results of the operating segment.

## 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 4, the director are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### Key sources of estimation uncertainty

In addition to information disclosed elsewhere in these financial statements, other key sources of estimation uncertainty, that have a significant risk of resulting a material adjustment to the carrying amounts of assets and liabilities and reported amounts of revenue and expenses within the next financial year, are discussed below.

#### (i) **Estimated useful lives of property, plant and equipment and intangible assets**

In determining the useful lives of property, plant and equipment and intangible assets, the Group has to consider various factors, such as expected usage of the asset, expected physical wear and tear, the care and maintenance of the asset, and legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way. Depreciation and amortisation charge are revised if the estimated useful lives of items of property, plant and equipment and intangible assets are different from the previous estimation. Estimated useful life is reviewed, at the end of the financial year, based on changes in circumstances.

#### (ii) **Impairment of non-financial assets**

The Group assesses at the end of each financial year whether there is an indication that an asset may be impaired. If any such indication exists, the Group makes an estimate of the recoverable amount of the asset. This requires an estimation of the value-in-use of the CGU to which the asset is allocated. Estimating the value-in-use requires the Group to make an estimate of the expected future cash flows from CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows. A change in the estimated future cash flows and/or the discount rate applied will result in an adjustment to the estimated impairment provision previously made.

#### (iii) **Assessment of the net realisable value of inventories**

Inventories are stated at the lower of cost and net realisable value. Management carries out an assessment to determine if there are inventories that have to be written down to net realisable value as at the end of the reporting period. Management estimates the net realisable value of inventories based on the latest market prices and current market conditions.

For the year ended 31 December 2021

## 5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

### Key sources of estimation uncertainty (Continued)

#### (iv) *Impairment of trade and other receivables*

Management determines the provision for the trade receivables based on the ECLs which uses a lifetime expected loss allowance for all trade receivables. Management also determines the provision for the other receivables based on the ECLs which use either 12-month or lifetime ECLs depending whether the credit risk has increased significantly since initial recognition or being credit-impaired for all other receivables. The loss allowance for financial assets are based on assumptions about risk of default and expected loss rate. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which may impact the debtors' ability to repay the outstanding balances in order to estimate the ECLs for the impairment assessment.

#### (v) *Income taxes and deferred tax*

The Group is subject to income taxes in the PRC. Significant judgement is required in determining the provision for income taxes. Transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provision in the period in which such determination is made.

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that future taxable profits would be available against which the losses and other deductible temporary differences could be utilised. Significant management judgement is required to determine the amount of deferred tax assets that could be recognised, based on the likely timing and extent of future taxable profits together with future tax planning strategies.

## 6. SEGMENT INFORMATION

### (a) **Operating segments**

During the year, the Group was principally engaged in manufacturing and sale of wires and cables and manufacturing and sale of aluminium products in the PRC. Information reported to the Group's CODM, for the purpose of resources allocation and performance assessment, focuses on the operating results of the Group as a whole. The Group's resources are integrated and as a result, no discrete operating segment financial information is available. For management purpose, the Group has only one operating segment which is the manufacturing and sale of wires and cables and manufacturing and sale of aluminium products. Accordingly, no operating segment information is presented.

### (b) **Geographic information**

The Group's revenue was all derived from customers based in the PRC and all the Group's non-current assets are located in the PRC. Therefore, no geographical segment reporting is presented.

Income tax credit	<b>(4,124)</b>	(124)

No Hong Kong profits tax was provided as the Group has no estimated assessable profit in Hong Kong during the years ended 31 December 2021 and 31 December 2020.

Provision for EIT in the PRC is calculated based on a statutory tax rate of 25% of the estimated assessable profits as determined in accordance with the income tax laws and regulations applicable to the operating subsidiaries in the PRC except certain subsidiaries are entitled to preferential tax rate of 15% in the PRC as mentioned below.

Sichuan Saftower Industry Company Limited was approved as High and New Technology Enterprise by the PRC government, and accordingly, it was subject to a preferential EIT tax rate of 15% during the years ended 31 December 2021 and 31 December 2020.

Guangyuan Tongchuang New Materials Company Limited is subject to 10% income tax concession due to the preferential tax policy of the development of the western region of the PRC fulfilled for the year ended 31 December 2021 and 31 December 2020. According to “Circular on Issues Concerning Relevant Tax Policies in Deepening the Implementation of the Western Development Strategy” (《關於深入實施西部大開發戰略有關稅收政策問題的通知》) (Cai Shui [2011] No. 58) (財稅[2011]58號), from 1 January 2011 to 31 December 2020, EIT imposed upon any enterprises established in western region of the PRC which are engaging in the encouraged industries shall be subject to a reduced rate at 15%.

Income tax credit	<b>(4,124)</b>	(124)

Deferred tax liabilities have not been established for the withholding tax that would be payable on the undistributed earnings of subsidiaries of RMB38,733,000 as at 31 December 2021 (2020: RMB57,959,000) as the Group is in a position to control the dividend policies of subsidiaries and it is probable that such amount will be reinvested in the foreseeable future.

## 13. DIVIDENDS

No dividend has been paid or declared by the Company during the year of 2021, nor has any dividend been proposed since the end of the year ended 31 December 2021 (2020: Nil).

## 14. (LOSS)/EARNINGS PER SHARE

The basic (loss)/earnings per share attributable to owners of the Company for the year is calculated based on the loss attributable to owners of the Company of approximately RMB25,224,000 (2020: profit attributable to owners of the Company of approximately RMB1,895,000), and the weighted average number of ordinary shares of 865,006,000 in issue (2020: 695,342,000 shares of the Company in issue, which represents the number of ordinary shares of the Company immediately after the Reorganisation and the capitalisation issue as if these ordinary shares issued under the Reorganisation had been issued on 1 January 2019 but excluding any shares issued pursuant to the share offer). The Company did not have any potential dilutive shares for the years ended 31 December 2021 and 2020. Accordingly, the diluted earnings per share are the same as the basic earnings per share.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

### 15. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Based on an outlook of the development progress of 廣元同創新材料有限公司 (Guangyuan Tongchuang New Materials Company Limited)\* (“**Guangyuan Tongchuang**”), management carried out an impairment test on the Group’s property, plant and equipment as at 31 December 2021, with carry amount of RMB26,044,000 (2020: RMB19,044,000).

The recoverable amount of the assets has been determined based on a value in use calculation. The calculation uses cash flow projection based on the approved business plan of Guangyuan Tongchuang, which reflects cash flow from manufacturing, processing and sales of wires and cables less estimated costs, discounted at a pre-tax discount rate of 14%. One of the key assumptions of the cash flow projection is the annual growth rate in revenue which is based on the potential orders negotiated before year. The discount rate used reflects specific risks relating to the wires and cables business.

As a result of the above assessment, impairment loss was recognised for the Group’s property, plant and equipment amounted to RMB2,637,000 for the year ended 31 December 2021 (2020: nil).

As at 31 December 2021, the Group’s buildings with an aggregate net carrying amount of approximately RMB46,685,000 (2020: RMB48,650,000) were pledged as securities for the bank and other borrowings as set out in Note 29.

As at 31 December 2021, the Group’s plant and machinery with an aggregate net carrying amount of approximately RMB23,523,000 (2020: RMB707,000) were pledged as securities for the bank and other borrowings as set out in Note 29.

As at 31 December 2021, the Group’s plant and machinery with an aggregate net carrying amount of approximately RMB7,877,000 (2020: RMB7,785,000) were held under sale and leaseback liabilities as set out in Note 29.

Cost		
At 1 January	—	—
Acquisition of a subsidiary (Note 37)	597	—
At 31 December	597	—

For the purpose of impairment testing, goodwill is allocated to the CGU identified as follows:

- 雅安寶盛金屬材料有限公司 (Yaan Baosheng Metal Material Co., Ltd.)\* (“**Yaan Baosheng**”)

The recoverable amounts of CGU have been determined based on value-in-use calculations using pre-tax cash flow projections, which is based on financial budgets approved by management.

Assumptions were used in the value-in-use calculations of CGU As at 31 December 2021. The following describes each key assumption on which management has based its 5 years cash flow projections to undertake impairment testing of goodwill.

	2021
Pre-tax discount rates	17.92%
Growth rates used to extrapolate cash flows beyond the forecast period	3.00%

The discount rates used are pre-tax and reflect specific risk relating to the relevant units.

The discount rate is the expected return of the Group’s assets that reflects current market assessments of the time value of money and the specific risk associated with the CGU, after taking into account the weighted average cost of equity and debt.

This growth rate is based on the relevant industry growth forecast and does not exceed the average long term growth rate for the relevant industry.

Other key assumptions for the value-in-use calculations related to the estimation of cash inflows/outflows include budgeted sales and gross margins, and overhead costs, such estimation is based on the CGU’s past performance and management’s expectations for the market development.

The Group performed its annual impairment test with a valuation performed by an independent qualified professional valuer as at 31 December 2021 as no circumstance indicated that the carrying value may be impaired.

## 33. RESERVES (CONTINUED)

The following describes the nature and purpose of each reserve within owners' equity.

<b>Reserves</b>	<b>Description and purpose</b>
Share premium	Share premium is the excess of the proceeds received over the nominal value of the shares of the Company issued at a premium, less the amount of expenses incurred in connection with the issue of the shares.
Capital reserves	The aggregate paid-up capital of the subsidiaries comprising the Group.
Statutory reserves	In accordance with the Company Law of the PRC and the stipulated provisions of the articles of association of subsidiaries with limited liabilities in the PRC, appropriation of net profits (after offsetting accumulated losses from prior years) should be made by these companies to their respective statutory surplus reserve funds and discretionary reserve funds before distributions are made to the owners. The percentage of appropriation to statutory surplus reserve funds is 10%. The amount to be transferred to discretionary reserve fund is determined by the equity owners of these companies. When the balance of the statutory surplus reserve fund reaches 50% of the registered capital, such transfer needs not to be made. Both statutory surplus reserve fund and discretionary reserves fund can be capitalised as capital of an enterprise, provided that the remaining statutory surplus reserve fund shall not be less than 25% of the registered capital.
Foreign exchange reserve	Gains/losses arising on retranslating the net assets of foreign operation into presentation currency
Retained earnings/(accumulated losses)	Cumulative net gains and losses recognised in profit or loss.

### **37. ACQUISITION OF A SUBSIDIARY (CONTINUED)**

- (i) The fair value of other receivables amounted to approximately RMB44,784,000. The gross amount of these other receivables is approximately RMB44,784,000. None of these receivables have been impaired and it is expected that the full contractual amounts can be collected.
- (ii) The goodwill of HK\$597,000, which is not deductible for tax purposes, comprises the acquired workforce and the value of expected synergies arising from the combination of the acquired business with the existing operations of the Group.
- (iii) The acquisition-related costs of approximately RMB30,000 have been expensed and are included in administrative expenses.
- (iv) Since the acquisition date, Yaan Baosheng has contributed approximately RMB159,180,000 and RMB572,000 to the Group's revenue and loss. If the acquisition had occurred on 1 January 2021, Group revenue and loss would have been approximately RMB159,180,000 and RMB3,091,000 respectively. This pro forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 January 2021, nor is it intended to be a projection of future performance.

## 42. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to credit risk, market risks (including foreign currency risk and interest rates risk) and liquidity risk arising in the ordinary course of business. The Group's overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

The directors of the Company are responsible for setting the objectives and underlying principles of financial risk management for the Group. The Group's management then establishes the detailed policies such as risk identification and measurement, exposure limits and hedging strategies, in accordance with the objectives and underlying principles approved by the board of directors.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risk. If necessary, market risk exposures are measured using sensitivity analysis indicated below.

### (a) Credit risk and impairment assessment

The Group's credit risk is primarily attributable to trade receivables, deposits and other receivables and cash and cash equivalents. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

#### ***Trade receivables arising from contracts with customers***

In respect of trade receivables, individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customers as well as pertaining to the economic environment in which the customers operate. Ongoing credit evaluation is performed on the financial condition of trade customers. Normally, the Group does not obtain collateral from customers except a customer, who was granted a credit period of 365 days in respect of sale of aluminium and copper cables and has business relationship with the Group since 2015. The customer pledged the assets in favour of the Group. During the year ended 31 December 2021, the pledged collateral was released and the credit period granted was resumed to be 90 days. Therefore, the management of the Group is of the opinion that the Group does not have significant credit risk exposure of the customers.

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECLs, which is calculated using a provision matrix. Expected loss rates are based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which may impact the customers' ability to repay the outstanding balances in order to estimate the ECLs for the impairment assessment.

For the year ended 31 December 2021

## 42. FINANCIAL RISK MANAGEMENT (CONTINUED)

### (a) Credit risk and impairment assessment (Continued)

#### **Trade receivables arising from contracts with customers (Continued)**

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer or customers having similar characteristics. At the end of reporting period, 46.0% (2020: 50.3%) of the total trade receivables were due from the Group's five largest customers, and 23.8% (2020: 29.1%) of total trade receivables were due from the Group's largest customer respectively.

The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The Group defines counterparties as having similar characteristics if they are related entities.

#### **Deposits and other receivables**

As at 31 December 2021 and 31 December 2020, the management of the Group takes into account the historical default experience and forward-looking information, as appropriate, for example the Group considers the consistently low historical default rates of counterparties and concludes that credit risk inherent in the Group's outstanding deposits and other receivables is insignificant. The Group has assessed the ECLs for deposits and other receivables under the 12-month ECL method and recognised allowance for ECLs on other receivables of RMB40,000 (2020: reversal of ECLs on other receivables of RMB63,000) during the year ended 31 December 2021.

The rates of ECLs for deposits and other receivables of 12-month ECL assessment range from 0.07% to 1.23% as at 31 December 2021 (2020: 0.06% to 3.14%).

#### **Amounts due from shareholders**

The management of the Group considers the probability of default is negligible in view of the latest repayment history of the shareholders and no loss allowance was recognised during the year ended 31 December 2021 (2020: Nil).

#### **Cash and cash equivalents**

The management of the Group considers the probability of default is negligible as the deposits are placed in banks having good reputation and no loss allowance was recognised during the year ended 31 December 2021 (2020: Nil).

#### **Guarantees**

The Group's policy is to provide financial guarantees only to liabilities arising from wholly-owned subsidiaries.

The maximum exposure of the Group in respect of the intra-group financial guarantee as at 31 December 2021 is representing the total banking facility attributable from drawdown by the relevant subsidiaries of RMB81.3 million (2020: RMB69.7 million). At the reporting date, the Group does not consider it probable that a claim will be made against the Group entity under the intra-group financial guarantee.

### 42. FINANCIAL RISK MANAGEMENT (CONTINUED)

#### (b) Foreign currency risk

The Group has no significant foreign currency risk as its business transactions, majority of its recognised assets and liabilities are principally denominated in RMB, its functional currency. Accordingly, sensitivity analysis has not been disclosed. The Group currently does not have any hedge instruments to hedge against other foreign currency transactions.

#### (c) Interest rate risk

The Group's interest-rate risk mainly arises from borrowings and lease liabilities as disclosed in Notes 29 and 31. Borrowings were issued at floating rate and at fixed rates which expose the Group to cash flow interest risk and fair value interest-rate risk respectively. The Group has not used any financial instruments to hedge potential fluctuations in interest rates.

The following table details the interest rate profile of the Group's borrowings and lease liabilities at the end of the reporting period.

	2021		2020	
	Effective interest rate %	Carrying amount RMB'000	Effective interest rate %	Carrying amount RMB'000
<b>Fixed rate liabilities:</b>				
Borrowing	3.45%–23.76%	148,017	5.22%–17.10%	78,879
Lease liabilities	4.75%–12.53%	2,598	4.99%–5.36%	1,306
<b>Variable rate liabilities:</b>				
Borrowings	4.05%–5.85%	20,100	4.15%–5.62%	21,500

The sensitivity analysis below has been determined based on the exposure to interest rates for variable-rate borrowings and bank deposits. The analysis is prepared assuming that the amount of liabilities outstanding at the end of reporting period were outstanding for the whole year. 100 basis points increase or decrease represent management's assessment of the reasonably possible change in interest rates of borrowings and bank deposits.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent interest rate risk as the exposures at the end of reporting period do not reflect the exposures during the year.

If interest rates on borrowings and bank deposits had been 100 basis points higher/lower and all other variables were held constant, the potential effect on the Group's post-tax profit for the years are as follows:

	2021 RMB'000	2020 RMB'000
Increase/(decrease) in profit for the year		
— as a result of increase in interest rate	(101)	(71)
— as a result of decrease in interest rate	101	71

### (d) Liquidity risk

In the management of liquidity risk, the Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants in order to maintain sufficient reserve of cash and adequate committed lines of funding from major banks, if necessary, to meet its liquidity requirements in the short and long term.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities at the end of reporting period. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

For bank borrowings and lease liabilities which contain a repayment on demand clause which can be exercised at the banks' sole discretion, the analysis shows the cash outflow based on the earliest period in which the Group can be required to pay, that is if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other non-derivative financial liabilities are based on the agreed repayment dates. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rates at the end of the year.

	Carrying amount RMB'000	Total contractual undiscounted cash flow RMB'000	Within one year or on demand RMB'000	More than one year but less than 2 years RMB'000	More than 2 years but less than 5 years RMB'000

### (e) Fair value measurement

The fair value of forward contracts classified as financial assets at fair value through profit or loss traded on active liquid markets is determined with reference to quoted market prices in the recognised future exchange at the end of reporting period. A market is regarded as active and liquid if the quoted market prices are readily and regularly available from a recognised future exchange, broker or regulatory agency, which represent actual and regularly occurring market transactions on an arm's length basis. As at 31 December 2021, the equity securities investment is included in Level 1 of the fair value measurement hierarchy (see below for definition);

HKFRS 7 "Financial Instruments: Disclosure" requires the disclosure of financial instruments that are measured at fair value categorised by level of the following fair value measurement hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs for the asset or liability that are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial instruments that are measured at fair value as at 31 December 2021:

	31 December 2021			
	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000	Total RMB'000
<b>Financial assets at fair value through profit or loss</b>				
Forward contracts	1,200	–	–	1,200

As at 31 December 2020, no financial instruments classified as fair value through profit or loss.

### 43. CAPITAL MANAGEMENT

The Group's objective of managing capital is to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debts.

The capital structure of the Group consists of debts, which includes amount due to a shareholder, borrowings and lease liabilities, cash and cash equivalents and total equity, comprising share capital and reserves. The Group's risk management reviews the capital structure on a semi-annual basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

The net debt to equity ratio at the end of the reporting period is as follows:

	2021 RMB'000	2020 RMB'000
Borrowings	168,117	100,379
Lease liabilities	2,598	1,306
Amount due to a shareholder	7,865	160
Amount due to non-controlling interest	1,800	—
Less: Cash and cash equivalents	(6,668)	(12,073)
Net debt	173,712	89,772
Total equity	161,091	176,144
Net debt to equity ratio	108%	51%
