CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this annual report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this annual report.

This annual report, for which the directors (collectively the "Directors" and each the "Director") of i.century Holding Limited (the "Company", and together with its subsidiaries, the "Group", "we", "our" or "us") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this annual report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this annual report misleading.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of Directors (the "**Board**") of i.century Holding Limited (the "**Company**"), it is my pleasure to present the annual report of the Company and its subsidiaries (collectively referred to as the "**Group**") for the year ended 31 March 2022 (the "**Year**").

OVERVIEW

The COVID-19 pandemic continues to rage the world, it heavily impacted the global business environment, livelihood of people and causing a widespread global supply chain disruption.

During the Year, benefiting from the revenue spending, our sales performance recorded the highest ever incremental revenue of approximately HK\$170.6 million, which represents an increase of approximately 80.5% as compared to approximately HK\$94.5 million for the year ended 31 March 2021 (the "**Previous Year**" or "**2021**"). The Group's gross profit increased to approximately HK\$34.1 million in the Year from approximately HK\$16.4 million in the Previous Year.

The Group reported a profit attributable to owners of the Company of approximately HK\$19.2 million for the Year (Previous Year: loss of approximately HK\$16.7 million). Excluding a one-off gain on disposal of property, plant and equipment of approximately HK\$15.0 million, which was recorded as sales and leaseback transaction in the Year (Previous Year: nil), the Group still recorded a profit attributable to owners of the Company of approximately HK\$4.2 million (Previous Year: loss of approximately HK\$16.7 million).

CHAIRMAN'S STATEMENT

BUSINESS DEVELOPMENT

Seizing the opportunity to increase the market share in Australia, the Group set up a representative office in Melbourne, Australia in the beginning of 2021. The revenue generated from Australia achieved initial success and its revenue generated from Australia market represent 19.3% of the total revenue in the Previous Year to 22.7% of the total revenue in the Year.

PROSPECTS

Despite some countries has gradually reopening of borders with caution, the global economies are expected to continue to fluctuate due to COVID-19 pandemic and the global trade condition derived from the PRC-U.S. trade dispute are remain uncertain. During the Year, 46.3% of the total revenue were to the U.S. market (Previous Year: 55.7%) and there is a continuous downward trend. Therefore, we decided to put more resources in the Australia market.

The Group will continue to broaden income sources, control expense, reduce costs and boost efficiency in order to maximize return for the Group and the Shareholders as a whole in the long term.

APPRECIATION

I would like to take this opportunity to express sincere gratitude to our shareholders, customers and business partners for their unequivocal support and trust, as well as our management and staff for their unremitting efforts and contributions throughout the years.

MANAGEMENT DISCUSSION AND ANALYSIS

INTRODUCTION

The Group is an apparel supply chain management services provider and its services range from product development, sourcing and procurement of raw materials, production management and quality control to logistics arrangement. The Group's major customers comprise of apparel retail brands based predominately in the U.S., Europe and Australia, the products of which are marketed and sold under their own brands. The styles and functions of the products for the Group's key customers are generally casual lifestyle for the general consumers and outdoor performance for outdoor activities.

All the Group's products are manufactured in accordance with the specifications and requirements provided by the Group's customers. The Group proposes suggestions to the Group's customers regarding design and specification such as choices of raw materials, styling and pattern in order to meet the brand's requirements and budgets.

The Group's products were manufactured by our manufacturer suppliers or other manufacturers engaged by our trading company suppliers, which are located in the People's Republic of China ("PRC").

BUSINESS REVIEW

During the Year, the Group recorded revenue of approximately HK\$170.6 million, representing an increase of approximately 80.5% as compared to the amount of approximately HK\$94.5 million for the Previous Year. The increase in revenue of the Group was primarily attributable to gradual recovery of market demand due to the relative control of the Pandemic, the orders for the Group's business were back on track and hit a record high of revenue in the Year. The gross profit increased from approximately HK\$16.4 million for the Previous Year to approximately HK\$34.1 million for the Year. The gross profit margin increased from 17.4% for the Previous Year to 20.0% for the Year.

The Group's profit attributable to owners of the Company turned around to approximately HK\$19.2 million for the Year. Excluding a one-off gain from disposal of property, plant and equipment of approximately HK\$15.0 million which was recorded as sales and leaseback transaction in the Year, the Group still recorded a profit attributable to owners of approximately HK\$4.2 million as compared with a loss attributable to owners of the Company of HK\$16.7 million.

FINANCIAL REVIEW

Revenue

The Group's revenue derived from SCM Services was mainly derived from the sales of our key apparel products, such as jackets, woven shirts, pullovers, pants, shorts, T-shirts and other products, including dress, vests and accessories, such as face mask and bags, through the provision of apparel SCM services to our customers. For the Year, the Group recorded a revenue of approximately HK\$170.6 million, an increase of approximately 80.5% comparing with that of approximately HK\$94.5 million for the Previous Year.

The increase in the Group's revenue was attributable to easing off of the COVID-19, our customer from the major countries place more orders.

MANAGEMENT DISCUSSION AND ANALYSIS

The following table sets out a breakdown of the Group's revenue by product categories for the years ended 31 March 2022 and 2021:

Note: Other products include, for example, tank top, dress, vests and accessories such as face mask and bags.

MANAGEMENT DISCUSSION AND ANALYSIS

The selling price of each of the product categories depends primarily on, among other things, overhead expenses, purchase cost, as well as our expected profit margin. Accordingly, the selling price of our products may differ considerably in different purchase orders by different customers. Set out below are the average selling price per unit of finished product sold to our customers for each product category for the years ended 31 March 2022 and 2021:

Product category	For the year ended 31 March		
	2022 Average selling Price (Note 1) HK\$	2021 Average selling Price (Note 1) HK\$	Rate of change %
Jackets	181.5	205.4	(11.6)
Woven shirts	112.3	113.9	(1.4)
Pullover	106.5	71.1	49.8
Pants and shorts	98.3	106.2	(7.5)
T-shirts	68.6	58.2	17.9
Other products (Note 2)	55.7	75.1	(25.9)
Overall	100.7	105.6	(4.6)

Notes:

1. The average selling price represents the revenue for the year divided by the total sales quantities for the year.
2. Other products include, for example, dress, vests and accessories such as face mask and bags.

Cost of sales

Cost of sales primarily consists of cost of goods sold, raw materials and consumable used, freight and transportation, laboratory test and inspection fee, declaration and license charges and other charges. The cost of sales increased from HK\$78.1 million for the Previous Year to HK\$136.4 million for the Year, representing an increase of approximately 74.7%. Such increase was in line with the increase in total sales volume.

Gross profit and gross profit margin

The Group's gross profit increased by approximately HK\$17.7 million from approximately HK\$16.4 million for the Previous Year to approximately HK\$34.1 million for the Year. The gross profit margin increased from approximately 17.4% for the Previous Year to approximately 20.0% for the Year.

MANAGEMENT DISCUSSION AND ANALYSIS

Other income

Other income mainly consists of (i) bank interest income, (ii) government grants and (iii) sundry income. The Group's other income decreased by approximately 55.7% from approximately HK\$2.8 million for the Previous Year to approximately HK\$1.2 million for the Year. The significant decrease was mainly due to the Group recognised government grants of HK\$1.8 million in respect of the COVID-19 related subsidies which related to Employment Support Scheme provided by the Hong Kong government and no such income in the Year.

Other gain and losses

Other gain and losses consist of (i) net foreign exchange gains/(loss), (ii) impairment loss recognised/reversal of impairment loss in respect of trade receivables, (iii) written off of property, plant and equipment, (iv) bad debts recovered and (v) gain from sales and leaseback transaction. The Group recorded other losses from approximately HK\$1.2 million for the Previous Year to other gain of approximately HK\$14.1 million for the Year. The other gain was mainly attributable to the gain on disposal of property of approximately HK\$15.0 million, which was recorded as gain on sales and leaseback transaction.

Selling and distribution expenses

Selling and distribution expenses mainly consist of (i) marketing expenses and (ii) salaries and mandatory provident fund for merchandising staff. Selling and distribution expenses increased by approximately 7.7% from approximately HK\$7.3 million for the Previous Year to approximately HK\$7.8 million for the Year. The net increase in the Group's selling and distribution expenses was mainly attributable to the marketing expenses.

Administrative expenses

Administrative expenses primarily comprise (i) Directors' remuneration; (ii) staff costs and benefits for general and administrative staff; (iii) legal and professional fee, accountancy fee and compliance costs; (iv) entertainment expenses; and (v) rent and government rates.

Administrative expenses decreased to approximately HK\$22.0 million for the Year from approximately HK\$26.4 million for the Previous Year, representing a decrease of approximately 16.6%. Such decrease was mainly attributable to the decrease in staff salaries and legal and professional fee.

Finance costs

Finance costs mainly consist of (i) bank overdrafts, (ii) bank borrowings and (iii) lease liabilities.

The Group's finance costs decreased by approximately HK\$0.2 million, or approximately 23.5%, from approximately HK\$1.0 million for the Previous Year to approximately HK\$0.8 million for the Year. The decrease was mainly due to the decrease in bank overdrafts.

Income tax credit

Income tax credit of the Group for the Previous Year amounted approximately HK\$33,000 as compared approximately HK\$370,000 for the Year. The increase in income tax credit mainly derived from increase in deferred tax charge for disposal of property, plant and equipment, which was recorded as gain on sales and leaseback transaction.

MANAGEMENT DISCUSSION AND ANALYSIS

Profit/(Loss) attributable to owners of the Company

For the Year, the Group recorded a profit attributable to owners of the Company of HK\$19.2 million, as compared with the loss attributable to owners of the Company of HK\$16.7 million for the Previous Year. Such profit was mainly attributable to the (i) increase in revenue and gross profit and (ii) one-off profit from disposal of property, plant and equipment; which was recorded as gain on sales and leaseback transaction as discuss above.

Dividend

The Board does not recommend the payment of final dividend for the Year.

LIQUIDITY, FINANCIAL RESOURCES AND GEARING RATIO

During the Year, the Group's operations were generally financed through internally generated cash flows, borrowings from banks and the Net Proceeds. As at 31 March 2022 and 2021, the Group had net current assets of approximately HK\$36.9 million and HK\$11.6 million respectively, including cash and bank balances of approximately HK\$27.2 million and HK\$10.3 million, respectively. The pledged bank deposits of approximately HK\$9.0 million as at 31 March 2022 and 2021. The Group's current ratio increased from approximately 1.3 times as at 31 March 2021 to approximately 2.0 times as at 31 March 2022. Such increase was mainly due to increase in cash and bank balances as at 31 March 2022 result from the disposal of property, plant and equipment.

Gearing ratio is calculated based on the total debts (include lease liabilities, bank overdrafts and bank borrowings) divided by total equity at the respective reporting date. As at 31 March 2022 and 2021, the Group's gearing ratio was approximately 36.1% and 136.1%, respectively. The Group principally relied on bank borrowings as the source of funding to operate its business and prudently maintained the gearing position at a reasonable level.

TREASURY POLICIES

The Group has adopted a prudent financial management approach towards its treasury policies and thus able to maintain a healthy liquidity position throughout the Year. The Group strives to reduce exposure to credit risk by performing ongoing credit assessments and evaluations of the financial status of its customers. To manage liquidity risk, the Board closely monitors the Group's liquidity position to ensure that the liquidity structure of the Group's assets, liabilities and other commitments can meet its funding requirements from time to time.

CAPITAL STRUCTURE

Since the Listing on 16 April 2018 (the "**Listing Date**"), there has been no change in the capital structure of the Company. The share capital of the Group only comprises ordinary shares.

As at 31 March 2022, the Company's issued share capital was HK\$4.0 million and the number of issued ordinary shares was 400,000,000 of HK\$0.01 each. Details of the Group's share capital are set out in note 30 to the consolidated financial statements in this annual report.

MANAGEMENT DISCUSSION AND ANALYSIS

PLEDGE OF ASSETS

As at 31 March 2022, a property owned by a related company and bank deposits of approximately HK\$9.0 million was pledged to secure a bank loan.

As at 31 March 2021, apart from the bank deposits pledged to secure overdraft facilities granted to the Group, A buildings of the Group with a carrying value of approximately HK\$6.5 million were pledged to secure bank loans.

Save as discussed, the Group did not have any charges on its assets.

SIGNIFICANT INVESTMENTS

The Group did not hold any significant investments during the Year (2021: nil).

MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

On 21 July 2021, Majestic City International Limited ("**Vendor**"), an indirect wholly-owned subsidiary of the Company, Wayland Property Investments Limited ("**Purchaser**") and Centaline Property Agency Limited ("**Property Agent**") entered into preliminary sale and purchase agreement, pursuant to which the Vendor conditionally agreed to sell and the Purchaser conditionally agreed to purchase Factory No. 12 and 13, 2/F., Elite Industrial Centre, No. 883 Cheung Sha Wan Road, Kowloon, Hong Kong ("**Properties**") for a consideration of HK\$22.6 million. The transaction was completed on 8 October 2021. Upon the completion, the Vendor and the Purchaser will enter into the tenancy agreement, whereby the Vendor will leaseback the Properties, together with the two units adjacent to the Properties for the Group's use for a term of 18 months commencing from the date of completion at a monthly fee of HK\$100,000 (rents and rates and management fees inclusion). Further details of the disposal is set out in the Company's announcement dated 10 September 2021.

Apart for the disposal of Properties, there was no other material acquisition or disposal of subsidiaries and affiliated companies during the Year.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as disclosed in the prospectus of the Company dated 29 March 2018 (the "**Prospectus**") and acquisition of new property mentioned in the "Change in Use of Proceeds " of this annual report, the Group did not have any plan for material investments and capital assets as at 31 March 2022.

CAPITAL COMMITMENTS

As at 31 March 2022, the Group did not have any significant capital commitments (2021: nil).

CONTINGENT LIABILITIES

As at 31 March 2022, the Group did not have material contingent liabilities (2021: nil).

MANAGEMENT DISCUSSION AND ANALYSIS

FOREIGN EXCHANGE EXPOSURE

The Group operates in Hong Kong with majority of the transactions being settled in Hong Kong dollars (“**HK\$**”), United States dollars (“**US\$**”) and Renminbi (“**RMB**”). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities, which are denominated in a currency that is not the functional currency of the Group.

The Group is not exposed to foreign exchange risk in respect of HK\$ against the US\$ as long as this currency is pegged.

The Group currently does not have a foreign currency hedging policy in respect of assets and liabilities denominated in foreign currency. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure, if necessary.

EMPLOYEES AND REMUNERATION POLICIES

As at 31 March 2022, the Group employed a total of 43 employees (31 March 2021: 54). The Group’s staff costs mainly included Directors’ emoluments, salaries, other staff benefits and contributions to retirement schemes. For the years ended 31 March 2022 and 2021, the Group’s total staff costs (including Directors’ emoluments) amounted to approximately HK\$20.0 million and HK\$23.7 million, respectively. Remuneration is determined with reference to market terms and the performance, qualification, experience, position and seniority of individual employee.

The remuneration committee will review and determine the remuneration and compensation packages of the Directors with reference to their experience, responsibilities, workload, time devoted to the Group and performance of the Group.

References are made to (i) the prospectus of i.century Holding Limited (the “**Company**” together with its subsidiaries, the “**Group**”) dated 29 March 2018 (the “**Prospectus**”) in relation to the listing (the “**Listing**”) of shares by the Company on the GEM of the Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) by way of share offer; (ii) the annual report for the year ended 31 March 2019 published on 28 June 2019 (the “**2019 Annual Report**”); (iii) the interim report of the Company for the six months ended 30 September 2019 published on 12 November 2019; (iv) the annual report of the Company for the year ended 31 March 2020 published on 29 June 2020 (the “**2020 Annual Report**”); (v) the supplemental announcement of the Company dated 24 August 2020 (the “**First Supplemental Announcement**”), (vi) the interim report of the Company for the six months ended 30 September 2020 published on 13 November 2020, (vii) the supplemental announcements of the Company 8 February 2021 (the “**Second Supplemental Announcement**”), (viii) the annual report of the Company for the year ended 31 March 2021 published on 30 June 2021 (the “**2021 Annual Report**”), and (ix) the interim report of the Company for the six months ended 30 September 2021 published on 12 November 2021 in which the utilization of the net proceeds from the Listing up to 31 March 2022 was disclosed. Unless otherwise defined, capitalised terms used in this paragraph headed “USE OF PROCEEDS” and the sub-paragraphs below have the same meanings as those defined in the Prospectus.

MANAGEMENT DISCUSSION AND ANALYSIS

Planned Use of Proceeds

The actual amount of the net proceeds from the Share Offer (after deducting underwriting commission and other relevant expenses) was approximately HK\$31.0 million (the “**Net Proceeds**”). As disclosed in the Prospectus, the Net Proceeds would be applied to (1) setting up representative offices in the U.S. and France; (2) establishing a quality control office in the PRC; (3) repaying bank borrowings and (4) being used as general working capital. As at 31 January 2021, the Group has utilized approximately HK\$15.5 million of the Net Proceeds as follows:

Intended use of Net Proceeds	Planned use of Net Proceeds as stated in the Prospectus (adjusted on a pro rata basis based on the actual net proceeds) HK\$'000	Actual use of Net Proceeds as at 31 January 2021 HK\$'000	Unutilised Net Proceeds as at 31 January 2021 HK\$'000

General working capital	1,900	1,900	–
	30,980	15,529	15,451

Note: The unutilised Net Proceeds are deposited to a licensed bank in Hong Kong

MANAGEMENT DISCUSSION AND ANALYSIS

Change in Use of Proceeds

As disclosed in the Second Supplemental Announcement, the unutilised Net Proceeds amounted to approximately HK\$15.45 million as at 31 January 2021. Please refer to the Second Supplemental Announcement for the reasons of the change in use of proceeds at the first time. It was planned these HK\$15.45 million unutilised Net Proceeds would be fully utilised by 31 March 2022. However, the continuation of the global outbreak of COVID-19 together with the ongoing trade tension between China and the U.S. have changed the investment environment and the industrial landscape significantly. As at 31 May 2022, there were still approximately HK\$11.7 million unutilised Net Proceeds (the “**Unutilised Net Proceeds**”). For the reasons and benefit further explained below, the Directors have resolved to change the use of the Unutilized Net Proceeds for (i) expansion of existing representative office in Melbourne, Australia, (ii) setting up representative office in France, and (iii) acquisition of new property for office premises in Hong Kong (the “**Changed Use**”). Particularly, the breakdown of the Unutilized Net Proceeds will be applied as follows:

Intended use of Net Proceeds	Planned use of Net Proceeds as stated in the Prospectus (adjusted on a pro rata basis based on the actual net proceeds)	Actual use of Net Proceeds as at 31 January 2021	Unutilised Net Proceeds as At 31 January 2021	Change of use of proceeds as announced in the Second Supplemental Announcement	Unutilised Net Proceeds as At 31 March 2022	Unutilised Net Proceeds as At 31 May 2022	Changed Use of the Unutilised Net Proceeds	Revised timeline for the Changed Use

MANAGEMENT DISCUSSION AND ANALYSIS

Reasons for and Benefits of the Further Change in Use of Proceeds

Setting up representative offices in the U.S., France and Australia

(1) The U.S. Market

As disclosed in the 2019 Annual Report, the 2020 Annual Report and 2021 Annual Report, the Group has faced high degree of uncertainty in terms of global trade condition derived from the PRC-U.S. trade dispute over the past few years and the COVID-19 global pandemic. Furthermore, the U.S. Government imposed extra tariff on certain products of the Company exporting to the U.S. following the trade disputes between China and the U.S. As such, the costs for doing business in the U.S. increased.

The Board is of the view that the U.S market is no long as attractive as in the past and it will be in the best interest of the Company and the Shareholders as whole to diversify the resources of the Company to other areas.

In light of the above, the Board is of the view that (i) the Company will not put resources in the U.S. market by using the Net Proceeds, and (ii) the Company should re-allocate part of the Net Proceeds (a) for the continuation of setting up the representative office in France, and (b) for the acquisition of new property for office premises in Hong Kong. The Board currently expects the Unutilised Net Proceeds will be utilised by 31 March 2023.

(2) France Market

The continuing outbreak of the COVID-19 has been severely affecting our business operation in Europe, which has also been kept delaying the process of our investment and expansion plan in France. Due to the decreased business needs of the Group from the European markets, the Group was required to slow down the expansion in France in the last financial year. However, the trading activities have recently been resumed in the European markets following the ease of the COVID-19. The Board is of the view that the Company should keep expanding its presence in the European markets, where the France representative office will also attract businesses from the other European countries, such as customers from the U.K.

The Board re-allocated HK\$0.55 million for the continuation of setting up and supporting the representative office in France. It is expected the unutilised Net Proceeds for the France representative office will be utilised by 31 March 2023. The above expected timeline is based on the Board's best estimation and would be subject to revision based on future development of market condition.

MANAGEMENT DISCUSSION AND ANALYSIS

(3) The Australia Market

The continuing outbreak of the COVID-19 has been affecting our business operation in Australia. The Company has been working on the brand-building in the Australia market, which may lead to higher profit margin to the Company. However, the COVID-19 outbreak also created a global supply disruption. The Company had to delay the schedule for launching new products in Australia. Consequently, the expansion plan in Australia was slower than the originally expected and there was still a sum of approximately HK\$1.46 million unutilised Net Proceeds as at 31 May 2022. For the avoidance of doubt, there is no change in relation to the amount of Net Proceeds to be applied for the expansion of existing representative office in Melbourne, Australia as disclosed in the Second Supplemental Announcement. The change is only about the timeline in utilising the relevant Net Proceeds. It is expected the unutilised Net Proceeds will be fully utilised by 31 March 2023, subject to the development of pandemic and the supply chain situation.

However, the Board takes the view that the Australia market has a good prospect in the future. Despite the effects of pandemic and supply chain disruption, our Australia market had generated revenue of approximately HK\$17,635,000, HK\$18,276,000 and HK\$38,641,000 for the years ended 31 March 2020, 31 March 2021 and 31 March 2022 respectively amid the difficult business environment.

Acquisition of new property for office premises in Hong Kong

The current tenancy of the office of the Company located at Unit 212-215, 2/F., Elite Industrial Centre, No. 883 Cheung Sha Wan Road, Lai Chi Kok, Kowloon Hong Kong will expire in April 2023. The Company has entered into a new tenancy agreement, and the new office will be also located at Cheung Sha Wan. After entering into the tenancy agreement, the Board is of the view that the new tenancy may not provide sufficient space for storage and/or show room purposes. In line with the current expansion plan of the Company, the Board has resolved to re-allocate approximately HK\$9.68 million for the acquisition of a new property for office use. The new property is expected to be used in conjunction with the new office offered by the new tenancy agreement to be commenced in or about the next year. Currently, it is expected that the gross area of the new property to be acquired should be over 1,000 square feet. Considering the property price located at Cheung Sha Wan, it is contemplated that the actual purchase price of the property should be higher than HK\$9.68 million, and any shortfall of the purchase price shall be paid by way of internal resources and/or mortgage loan. The Company is still short-listing the potential office property to be acquired, however, it is expected that the property will be acquired by the Company on or before 31 March 2023.

As at the date hereof, no definitive agreement has been entered into by the Company in relation to the acquisition of the new property. The Company shall make all necessary announcements and/or seek Shareholders' approval (if any) for the compliance of the GEM Listing Rules.

Having carefully considered the current business environment and development needs of the Group, the Board considers that the Changed Use is in line with the business strategies of the Group and will not materially adversely affect the financial position or operation of the Group and is in the best interest of the Company and the Shareholders as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS

The Board will continue to adopt a cautious approach and continuously assess the plans for use of the Unutilised Net Proceeds, and may further revise or amend such plans where necessary to respond to the changing market conditions. Save as disclosed, there are no other changes in the use of the Net Proceeds as set out in the Prospectus, the First Supplemental Announcement and the Second Supplemental Announcement.

MANAGEMENT DISCUSSION AND ANALYSIS

FUTURE PROSPECTS

Looking ahead, the Group will face the uncertainty by geopolitical conflicts leading to spark a surge in oil price and by the increasing interest rate hikes, and the material and logistics costs were escalating accordingly. Also, affected by the pandemic of COVID-19, most manufacturing facilities were locked down or suffered from shortage of workers. It was expected that the gross margin will be eroded. The Group would take extra caution and measures to control the raising costs.

While the inflation has gradually emerged, global economic recovery will be more difficult because of the tightened monetary policy and worsened geo-political risks. The Group will continue to adopt and maintain a conservative strategy to capture attractive market opportunities when they arise but with prudent risk management and control approach.

The Group will continue to strengthen its capability in apparel products with sustainability concept and of active wear, not just limited to casual lifestyles; to explore customers in existing markets and expand into different markets; to identify and executive business strategy like own brand building, online sales platform, etc. for bringing long term benefits to the shareholders.

CORPORATE GOVERNANCE REPORT

The Board recognises that transparency and accountability are important to a listed company. Since its Listing, the Company is committed to establishing and maintaining good corporate governance policy and procedures. The Directors believe that good corporate governance provides a framework that is essential for effective management, successful business growth and a healthy corporate culture and in return is beneficial to the Company's shareholders as a whole.

CORPORATE GOVERNANCE PRACTICES

The Board has adopted and complied with the Corporate Governance Code (the "**CG Code**") as set out in Appendix 15 to the GEM Listing Rules. During the Year, the Board is of the opinion that the Company has complied with all the code provisions of the CG Code, except the deviation stipulated below:

Code Provision A.2.1

Pursuant to code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separated and should not be performed by the same individual. During the Year, Mr. Leung was the chairman and the chief executive officer of the Company. Our Directors consider that vesting both the roles of chairman of the Board and chief executive officer of our Company in Mr. Leung will provide a strong and consistent leadership to our Group. In view of Mr. Leung's extensive experience in the industry, personal profile and critical role in our Group and our historical development, we consider that it is beneficial to the business prospects of our Group that Mr. Leung continues to act as both our chairman and our chief executive officer.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules (the "**Model Code**"). The Company had also made specific enquiry to each of the Directors and all Directors confirmed that they have complied with the required standards set out in the Model Code regarding Directors' securities transactions and the Company was not aware of any non-compliance with the Model Code by the Directors during the Year.

DISCLOSURE OF INSIDER INFORMATION

The Group acknowledges its responsibilities under the Securities and Futures Ordinance (the “SFO”) and the GEM Listing Rules and the overriding principle that inside information should be announced immediately when it is the subject of a decision. The procedures and internal controls for the handling and dissemination of inside information are as follows:

- the Group conducts its affairs with close regard to the disclosure requirement under the GEM Listing Rules as well as the “Guidelines on Disclosure of Inside Information” published by the Securities and Futures Commission of Hong Kong in June 2012;
- the Group has formulated inside information policies and disclosed its policies on fair disclosure by pursuing broad, non-exclusive distribution of information to the public through channels such as financial reporting, public announcements and its website;
- the Group has strictly prohibited unauthorized use of confidential or inside information; and
- the Group regularly reminds the Directors and employees about due compliance with all policies regarding the inside information, as well as keeps them apprised of the latest regulatory updates.

RESPONSIBILITIES OF THE BOARD

The overall management of the Company's business is vested in the Board, which assumes the responsibility for leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. All the Directors should make decisions objectively in the interests of the Company. The Board has the full support from the executive Directors and the senior management of the Company in discharging its responsibilities.

The day-to-day management, administration and operation of the Company are delegated to the executive Directors and the senior management of the Company. The delegated functions and tasks are periodically reviewed by the Board. Approval has to be obtained from the Board prior to any significant transactions entered into by any of the executive Directors and the senior management. The Board also assumes the responsibilities of maintaining a high standard of corporate governance including, among others, developing and reviewing the Company's policies and practices on corporate governance, reviewing and monitoring the Company's policies and practices on compliance with legal and regulatory requirements, and reviewing the Company's compliance with the CG Code. All Directors including the INEDs, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for efficient and effective delivery of the Board functions. The Board had also delegated various responsibilities to the three board committees of the Company (the "**Board Committees**").

CONTINUOUS PROFESSIONAL DEVELOPMENT

To assist the Directors' continuous professional development, the Company recommends the Directors to attend relevant seminars to develop and refresh their knowledge and skills. The Directors also participate in continuous professional development programmes such as external seminars organised by qualified professionals, to develop and refresh their knowledge and skills in relation to their contribution to the Board. All the Directors understand the importance of continuous professional development and are committed to participate any suitable training to develop and refresh their knowledge and skills.

BOARD COMMITTEES

The Board established three Board Committees, namely the Audit Committee, the Remuneration Committee and the Nomination Committee to oversee specific aspects of the Group's affairs and help it in the execution of its responsibilities. Each of the Board Committees have specific written terms of reference which clearly outline the committees' authority and duties and require the Board Committees to report back on their decisions or recommendations to the Board. All Board Committees are provided with sufficient resources to discharge their duties, including access to management or professional advice if considered necessary.

AUDIT COMMITTEE

The Company has established the Audit Committee on 20 March 2018 with written terms of reference in compliance with paragraph C.3.3 of the CG Code. The Audit Committee consists of three INEDs, namely Ms. Cheung, Mr. Lau and Mr. Lee. Mr. Lau has been appointed as the chairman of the Audit Committee and is the INED with the appropriate professional qualifications.

The primary duties of the Audit Committee are to review and supervise the Group's financial reporting process, to nominate and monitor the Company's external auditors, and to oversee the risk management and internal control procedures of the Company.

CORPORATE GOVERNANCE REPORT

For the Year, 5 meetings of the Audit Committee meetings were held, to review the Management and external auditor the accounting principles and practices adopted by the Group and discussed auditing, internal controls, and financial reporting matters, including the following:

- review and discuss of the quarterly, interim and annual financial statements, results announcements and reports, the related accounting principles and practices adopted by the Group and the relevant audit findings;
- the recommendation to the Board for the proposal for re-appointment of the external auditor of the Company and approval of the remuneration and terms of engagement of the external auditor; and
- review of Company's continuing connected transactions for the year ended 31 March 2022 pursuant to the GEM Listing Rules;
- the review of the risk management and internal control systems of the Group; and
- perform other duties assigned by the Board.

The attendance of each member for the Audit Committee meetings is set out on page 26 of this annual report.

REMUNERATION COMMITTEE

The Company established the Remuneration Committee on 20 March 2018 with written terms of reference in compliance with paragraph B.1.2 of the CG Code. The Remuneration Committee currently consists of three members, namely Ms. Cheung, Mr. Lau and Mr. Lee. Mr. Lee has been appointed as the chairman of the Remuneration Committee.

The primary duties of the Remuneration Committee are to make recommendations to the Board on the overall remuneration policy and structure relating to all Directors and senior management of the Company, and to ensure that none of the Directors determine their own remuneration.

For the Year, one meeting of the Remuneration Committee meetings were held to review and subsequently to approve the remuneration package of the executive Directors and senior management.

The attendance of each member for the Remuneration Committee meetings is set out on page 26 of this annual report.

CORPORATE GOVERNANCE REPORT

REMUNERATION OF SENIOR MANAGEMENT

The annual remuneration of the members of the senior management by brand for the Year is as follows:

Remuneration Brands	No. of Individuals
HK\$nil to HK\$1,000,000	2
HK\$1,000,001 to HK2,500,000	1
	3

Details of the amount of Directors remuneration for the Year are set out in note 13 to the consolidated financial statements.

NOMINATION COMMITTEE

The Company established the Nomination Committee on 20 March 2018 with written terms of reference in compliance with paragraph A.5.2 of the CG Code. The Nomination Committee currently consists of four members, namely Mr. Leung, Ms. Cheung, Mr. Lau and Mr. Lee. Mr. Leung has been appointed as the chairman of the Nomination Committee.

The primary duties of the Nomination Committee are to review the structure, size and composition of the Board annually, to identify individuals suitably qualified to become members of the Board, to assess the independence of the INEDs, and to make recommendations to the Board on relevant matters relating to appointments of Directors.

For the Year, one meeting was held and has, inter alia, reviewed the structure, size and composition of the Board, assessed the independent of INEDs and considered the Directors to retire and re-appoint at the forthcoming AGM.

The attendance of each member of the Nomination Committee is set out on page 26 of this annual report.

NOMINATION POLICY

The Company's policy for nomination of directors in the summary of work performed by the Nomination Committee is as follows.

Selection criteria

In evaluating and selecting any candidate for directorship to the Board, the following criteria should be considered:

- (a) character and integrity;
- (b) qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company's business and corporate strategy;
- (c) diversity aspects under the Company's board diversity policy and any measurable objectives adopted by the Nomination Committee for achieving diversity of the Board;
- (d) for INEDs, whether the candidate would be considered independent with reference to the independence guidelines set out in the Listing Rules;
- (e) willingness and ability to devote adequate time to discharge duties as a member of the Board and/or Board committee(s) of the Company; and
- (f) such other perspectives that are appropriate to the Company's business and succession plan and where applicable may be adopted and/or amended by the Board and/or Nomination Committee from time to time for nomination of directors and succession planning.

Procedures for appointment of new Directors

- (i) if the Board determines that an additional or replacement Director is required, it will deploy multiple channels for identifying suitable director candidates, including referrals from Directors, shareholders, management, advisors of the Company and external executive search firms.
- (ii) upon compilation and interview of the list of potential candidates, the relevant Nomination Committee will shortlist candidates for consideration by the Nomination Committee/Board based on the selection criteria and such other factors that it considers appropriate. The Board has the final authority on determining suitable director candidate for appointment.
- (iii) any shareholder of the Company who wishes to nominate a person to stand for election as a Director at a general meeting must lodge with the Company Secretary of the Company within the lodgement period specified in the relevant shareholder circular (a) a written nomination of the candidate, (b) written confirmation from such nominated candidate of his willingness to stand for election, and (c) biographical details of such nominated candidate as required under the GEM Listing Rules. Particulars of the candidate so proposed will be sent to all shareholders for information by a supplementary circular.

CORPORATE GOVERNANCE REPORT

Procedures for re-appointment of Directors

- (i) where a retiring Director, being eligible, offers himself for re-election, the Board shall consider and, if consider appropriate, recommend such retiring Director to stand for re-election at a general meeting. A circular containing the requisite information on such retiring Director will be sent to shareholders prior to a general meeting in accordance with the Listing Rules.

BOARD DIVERSITY POLICY

The Company adopted a board diversity policy (the “**Board Diversity Policy**”) from the Listing Date. The Company recognised and embraced the benefits of having a diverse Board to the quality of its performance. The Board Diversity Policy aims to set out the approach to achieve diversity on the Board. In designing the Board’s composition, Board diversity has been considered from a number of measurable aspects including but not limited to gender, age, ethnicity, religious and philosophical belief, disability, nationality, cultural and educational background, sexual orientation, family status knowledge, length of services or any other factor the Board may consider relevant and applicable from time to time. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regards for the benefits of diversity on the Board. In forming its perspective on diversity, the Company will also take into account factors based on its our business model and specific needs from time to time.

Measurable objectives

Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, religious and philosophical belief, disability, nationality, sexual orientation, family status, ethnicity, professional experience, skills, knowledge and length of services or any other factor the Board may consider relevant and applicable from time to time. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

Implementation and monitoring

The Nomination Committee reviewed the Board’s composition under diversified perspectives, and monitored the implementation of the Board Diversity Policy annually.

The Nomination Committee of the Board has reviewed the Board Diversity Policy to ensure its effectiveness and considered that the Group achieved the Board Diversity Policy during the Year.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE FUNCTIONS

No corporate governance committee has been established and the Board is responsible for performing the corporate governance functions which include, but are not limited to:

- developing and reviewing the Company's policies and practices on corporate governance and making recommendations to the Board;
- reviewing and monitoring the training and continuous professional development of the Directors and senior management;
- reviewing and monitoring the Company's policies and practices on compliance with legal and regulatory requirements;
- developing, reviewing and monitoring the code of conduct and compliance manual (if any) applicable to employees and the Directors; and
- reviewing the Company's compliance with the CG Code and disclosure in the Corporate Governance Report.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

All Directors are appointed for a specific term. Upon expiry of the existing term, the Company has entered into a director's service agreement with each of the executive Directors, namely Mr. Leung and Ms. Tam, for a term of three years.

Each of the INEDs has accepted an appointment with the Company for an initial term of three years. After expiry, the INEDs entered into an agreement for one year together with automatically renewable successive term until terminated by either party giving at least one month written notice.

All the Directors, including INEDs, are subject to retirement by rotation and eligible for re-election in accordance with the Articles. At each annual general meeting (the "**AGM**"), one-third of the Directors for the time being (or if their number is not three or a multiple of three, then the number nearest to but not less than one-third) will retire from office by rotation provided that every Director will be subject to retirement at the AGM at least once every three years. A retiring Director will be eligible for re-election and will continue to act as a Director throughout the meeting at which he retires. The Directors to retire by rotation will include (so far as necessary to ascertain the number of Directors to retire by rotation) any Director who wishes to retire and not to offer himself for re-election. Any further Directors so to retire shall be those who have been the longest in office since their last re-election or appointment and so that as between persons who became or were last re-elected Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot.

Any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of the Shareholders after his/her appointment and shall be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following AGM and shall then be eligible for re-election.

CORPORATE GOVERNANCE REPORT

ACCOUNTABILITY AND AUDIT*Financial reporting*

The Directors acknowledge their responsibilities for preparing the consolidated financial statements of the Group that give a true and fair view of the state of affairs of the Group. The Directors aim to present a balanced and understandable assessment of the Group's position and prospects with timely publication of the consolidated financial statements of the Group. As at 31 March 2022, the Board was not aware of any material uncertainties relating to events or conditions that might cast significant doubt on the Group's ability to continue as a going concern.

The responsibility of the external auditor is to form an independent opinion, based on their audit, on those consolidated financial statements prepared by the Board and to report their opinion to the shareholders of the Company. The statements by external auditors, HLB Hodgson Impey Cheng Limited, about their reporting responsibility on the consolidated financial statement of the Group are set out in the section headed "Independent Auditors' Report" in this annual report.

Independent auditors' remuneration

The remuneration paid to external auditors in respect of the Year is set out below:

Type of services	Amount HK\$'000
Audit services	500
Non-audit services	68
Total	568

Internal control and risk management

The Board had the overall responsibility for the establishment, maintenance and review of the Group's internal control system to safeguard shareholders' investments and the assets of the Group. The internal control system of the Group aims to facilitate effective and efficient operation which in turn minimizes the risks to which the Group is exposed. The system can only provide reasonable but not absolute assurance against misstatements or losses.

The Group recognises that good risk management is essential for the long-term development on the Group's business. Management is responsible for establishing, implementing, reviewing and evaluation a sound and effective internal control system underpinning the risk management framework. All employees of the Group are committed to implement the risk management framework into the daily operation.

CORPORATE GOVERNANCE REPORT

The Group does not have an internal audit function as the Board has reviewed the effectiveness of the internal control system of the Company and is currently of the view that there is no immediate need to set up an internal audit function within the Group in light of the size, nature and complexity of the Group's business. The situation will be reviewed from time to time. The Group had engaged an external consulting firm as the Group's internal control adviser, Infinity Concept Ripple Limited (the "**Internal Control Adviser**"), to conduct independent internal control review for the Year.

Such review is conducted annually and cycles reviewed are under a rotation basis. The scope of review was previously determined and approved by the Board. The Internal Control Adviser has reported findings and areas for improvement to the Audit Committee and management. The Board and Audit Committee are of the view that there are no material internal control defeats noted. All recommendations from the Internal Control Adviser are properly followed up by the Group to ensure that they are implemented within a reasonable period of time. The Board therefore considered that the risk management and internal control systems are effective and adequate.

COMPANY SECRETARY

Mr. Kwok was appointed as the company secretary of the Company on 26 September 2017. The biographical details are set out under the section headed "Biographical Details of Directors and Senior Management" of this report. During the Year, Mr. Kwok had undertaken more than 15 hours of relevant professional training.

COMPLIANCE OFFICER

Mr. Leung is the compliance officer of the Company. Please refer to his biographical details as set out on in the section headed "Biographical Details of Directors and Senior Management" of this report.

SHAREHOLDERS' RIGHT

As one of the measures to safeguard shareholders' interest and rights, separate resolutions can be proposed at the shareholders' meetings on each substantial issue, including the election of individual directors, for shareholders' consideration and voting. All resolutions put forward at shareholders' meeting will be voted by poll pursuant to the GEM Listing Rules and the poll results will be posted on the website of the Stock Exchange and the Company's website after the relevant shareholders' meeting.

Procedures for shareholders to convene an extraordinary general meeting ("EGM")

The following procedures for shareholders to convene an EGM are subject to the Articles (as amended from time to time), and the applicable legislation and regulation, in particular the GEM Listing Rules (as amended from time to time):

- (a) any one or more shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid-up capital of the Company having the right of voting at general meetings of the Company (the "**Eligible Shareholder(s)**") shall at all times have the right, by written requisition to the Board or the Company Secretary of the Company ("**Company Secretary**"), to require an EGM to be called by the Board for the transaction of any business specified in such requisition, including making proposals or moving a resolution at the EGM.

CORPORATE GOVERNANCE REPORT

- (b) eligible Shareholders who wish to convene an EGM for the purpose of making proposals or moving a resolution at EGM must deposit a written requisition (the “**Requisition**”) signed by the Eligible Shareholder(s) concerned at the principal place of business of the Company in Hong Kong at Units 212-215, 2/F Elite Industrial Centre, No. 883 Cheung Sha Wan Road, Lai Chi Kok, Kowloon, Hong Kong for the attention of the Board and/or the Company Secretary.
- (c) the Requisition must state clearly the name of the Eligible Shareholder(s) concerned, his/her/their shareholding in the Company, the reason(s) to convene an EGM and the proposed agenda. Together with a deposit of a sum of money reasonably sufficient to meet the Company’s expenses in serving the notice of the resolution and circulating the statement submitted by the shareholders concerned in accordance with the statutory requirements to all the registered shareholders.
- (d) the Requisition will be verified with the Hong Kong branch share registrar and transfer office of the Company and upon their confirmation that the Requisition is proper and in order, the Board will convene an EGM by serving sufficient notice in accordance with the requirements under the Articles to all the registered Shareholders. On the contrary, if the Requisition has been verified as not in order or the Eligible Shareholders concerned have been failed to deposit sufficient money to meet the Company’s expenses for the said purposes, the Eligible Shareholder(s) concerned will be advised of this outcome and accordingly, the Board will not call for an EGM.
- (e) if within 21 days of the deposit of the Requisition, the Board fails to proceed to convene such EGM, the Eligible Shareholder(s) himself/herself/themselves may do so, and all reasonable expenses incurred by the Eligible Shareholder(s) concerned as a result of the failure of the Board shall be reimbursed to the Eligible Shareholder(s) concerned by the Company.

Procedures for putting forward proposals at shareholders’ meetings

There are no provisions allowing shareholders to move new resolutions at the general meetings under the Companies Law (Revised) of Cayman Islands. However, pursuant to the Articles, shareholders who wish to make proposals or move a resolution may, however, convene an EGM in accordance with the “Procedures for Shareholders to convene an EGM” set out above.

Procedures for shareholders to send enquires to the Board

Shareholders may send their enquiries and concerns to the Board and or Company Secretary by addressing them to the principle place of business of the Company in Hong Kong at Units 212-215, 2/F Elite Industrial Centre, No. 883 Cheung Sha Wan Road, Lai Chi Kok, Kowloon, Hong Kong by post for the attention of the Board and/or the Company Secretary.

INVESTOR RELATIONS

The Company had adopted a shareholder communication policy with the objective of providing the shareholders of the Company with information about the Company and enabling them to engage actively with the Company and exercise their rights as shareholders in an informed manner.

CORPORATE GOVERNANCE REPORT

The Company had established a range of communication channels between itself and its shareholders, and investors. These include answering questions through the annual general meeting, the publication of annual, interim and quarterly reports, notices, announcements and circulars, the Company's website at www.icenturyholding.com and meetings with investors and shareholders. News update of the Group's business are also available on the Company's website.

Share registration matters shall be handled for the shareholders by the Company's share registrar, Link Market Services (Hong Kong) Pty Limited at Suite 1601, 16/F., Central Tower, 28 Queen's Road Central, Hong Kong.

DIVIDEND POLICY

Pursuant to the amended CG Code, the Company should have a dividend policy and disclose such policy in its annual report. The Company has adopted a dividend policy (the "**Dividend Policy**"), and the summary of which is set out below:

- (a) In deciding whether to propose a dividend and in determining the dividend amount, the Board shall take into account, inter alia:
 - (i) the general financial condition of the Group;
 - (ii) capital and debt level of the Group;
 - (iii) future cash requirements and availability for business operations, business strategies and future development needs;
 - (iv) the contractual restrictions on the payment of dividends by the Company to its shareholders;
 - (v) the general market conditions; and
 - (vi) any other factors that the Board considers appropriate.
- (b) The payment of the dividend by the Company is also subject to any restrictions under the Companies Law of the Cayman Islands and the Articles of Association of the Company.
- (c) The Board endeavours to strike a balance between the Shareholders' interests and prudent capital management with a sustainable Dividend Policy.

(Incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of i.century Holding Limited (the "**Company**") and its subsidiaries (collectively referred to as the "**Group**") set out on pages 52 to 117, which comprise the consolidated statement of financial position as at 31 March 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2022 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants (the "**HKICPA**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("**HKSAs**") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "**Code**"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

INDEPENDENT AUDITORS' REPORT

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><i>Allowance for expected credit losses of trade receivables</i> <i>Refer to note 21 to the consolidated financial statements.</i></p> <p>The Group had trade receivables with gross carrying amount of approximately HK\$21,216,000 and allowance for expected credit losses of approximately HK\$2,352,000.</p> <p>In general, the trade receivable credit terms granted by the Group to the customers up to 90 days. Management performed periodic assessment on the recoverability of the trade receivables and the sufficiency of allowance for expected credit losses based on information including credit profile of different customers, aging of the trade receivables, historical settlement records, subsequent settlement status, expected timing and amount of realisation of outstanding balances, and on-going trading relationships with the relevant customers. Management also considered forward-looking information that may impact the customers' ability to repay the outstanding balances in order to estimate the expected credit losses.</p> <p>We focused on this area due to the allowance for expected credit losses of trade receivables under the expected credit losses model involved the use of significant management judgements and estimates.</p>	<p>Our procedures in relation to management's allowance for expected credit losses assessment of trade receivables including but not limited to:</p> <ul style="list-style-type: none"> – obtaining an understanding and evaluating the key controls that the Group has implemented to manage and monitor its credit risk; – checking, on a sample basis, the aging profile of the trade receivables as at 31 March 2022 to the underlying financial records and post year-end settlements to bank receipts; – inquiring of management for the status of each of the material trade receivables past due as at year end and corroborating explanations from management with supporting evidence, such as performing public search of credit profile of selected customers, understanding on-going business relationship with the customers based on trade records, checking historical and subsequent settlement records of and other correspondence with the customers; and – assessing the appropriateness of the expected credit loss provisioning methodology, examining the key data inputs on a sample basis to assess their accuracy and completeness, and challenging the assumptions, including both historical and forward-looking information, used to determine the expected credit losses. <p>We found that the management judgement and estimates used to assess the recoverability of the trade receivables and determine the impairment provision to be supportable by available evidence.</p>

INDEPENDENT AUDITORS' REPORT

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee are responsible for overseeing the Group's financial reporting process.

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

INDEPENDENT AUDITORS' REPORT

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

INDEPENDENT AUDITORS' REPORT

AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditors' report is Yu Chi Fat.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

1. GENERAL INFORMATION

The Company was incorporated in the Cayman Islands under the Companies Law as an exempted company with limited liability. The registered office of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands and principal place of business in Hong Kong is Units 212-215, 2/F, Elite Industrial Centre, No. 883 Cheung Sha Wan Road, Lai Chi Kok, Kowloon, Hong Kong. The Company's immediate holding company and ultimate holding company is Giant Treasure Development Limited ("**Giant Treasure**"), a company incorporated in the British Virgin Islands (the "**BVI**") and controlled by Mr. Leung Kwok Hung Wilson ("**Mr. Leung**") and Ms. Tam Shuk Fan ("**Ms. Tam**") (the "**Controlling Shareholders**").

The Company is an investment holding company and its subsidiaries principally engaged in provision of apparel supply chain management ("**SCM**") services.

The shares of the Company (the "**Shares**") have been listed on GEM of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") on 16 April 2018.

The consolidated financial statements are presented in Hong Kong dollar ("**HK\$**"), which is the functional currency of the Company and its principal subsidiaries and all values are rounded to the nearest thousands (HK\$'000), except when otherwise stated.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("**HKFRSs**")

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") for the first time, which are mandatorily effective for the annual periods beginning on or after 1 April 2021 for the preparation of the consolidated financial statements:

Amendment to HKFRS 16	Covid-19-Related Rent Concessions
Amendments to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021
Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16	Interest Rate Benchmark Reform – Phase 2

In addition, the Group applied the agenda decision of the IFRS Interpretations Committee (the "**Committee**") of the International Accounting Standards Board issued in June 2021 which clarified the costs an entity should include as "estimated costs necessary to make the sale" when determining the net realisable value of inventories.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSS”) (continued)***Amendments to HKFRSSs that are mandatorily effective for the current year (continued)***

Except as described below, the application of the amendments to HKFRSSs in the current year has had no material impact on the Group’s financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

The Group has applied the amendments for the first time in the current year. The amendments relate to changes in the basis for determining the contractual cash flows of financial assets, financial liabilities and lease liabilities as a result of interest rate benchmark reform, specific hedge accounting requirements and the related disclosure requirements applying HKFRS 7 *Financial Instruments: Disclosures*.

As at 1 April 2021, the Group has bank overdraft amounting to HK\$22,106,000, the interests of which are indexed to benchmark rates that will or may be subject to interest rate benchmark reform.

The amendments have had no impact on the consolidated financial statements as none of the relevant contracts has been transitioned to the relevant replacement rates during the year. The Group will apply the practical expedient in relation to the changes in contractual cash flows resulting from the interest rate benchmark reform for borrowings measured at amortised cost. Additional disclosures as required by HKFRS 7 are set out in note 6.

New and amendments to HKFRSSs in issue but not effective

The Group has not early applied the following new and amendments to HKFRSSs that have been issued but are not yet effective:

HKFRS 17	Insurance Contracts and the related Amendments ²
Amendment to HKFRS 3	Reference to the Conceptual Framework ¹
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020) ²
Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies ²
Amendment to HKAS 8	Definition of Accounting Estimates ²
Amendments to HKAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction ²
Amendments to HKAS 16	Property, Plant and Equipment-Proceeds before Intended Use ¹
Amendments to HKAS 37	Onerous Contracts-Cost of Fulfilling a Contract ¹
Amendments to HKFRSSs	Annual Improvements to HKFRSSs 2018-2020 ¹

¹ Effective for annual periods beginning on or after 1 January 2022.

² Effective for annual periods beginning on or after 1 January 2023.

³ Effective for annual periods beginning on or after a date to be determined.

The directors of the Company anticipate that the application of all new and amendments to HKFRSSs will have no material impact on the consolidated financial statements in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange (“**GEM Listing Rules**”) and by the Hong Kong Companies Ordinance.

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

Property, plant and equipment

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)*Property, plant and equipment (continued)*

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Buildings	Over the lease term
Furniture and fixtures	20%
Leasehold improvements	20%
Computers	20-30%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment of property, plant and equipment and right-of-use assets

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss (if any).

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit (the “CGU”) to which the asset belongs.

In testing a CGU for impairment, corporate assets are allocated to the relevant CGU when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of CGU for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the CGU or group of CGUs to which the corporate asset belongs, and is compared with the carrying amount of the relevant CGU or group of CGUs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of property, plant and equipment and right-of-use assets (continued)

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount. In allocating the impairment loss, the impairment loss is allocated to the assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or CGU) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets

The Group performs impairment assessment under expected credit loss (“ECL”) model on financial assets (including trade receivables, other deposits paid and other receivables, amounts due from related companies, pledged bank deposits and bank balances) which are subject to impairment assessment under HKFRS 9 *Financial Instruments*. The amount of ECL is updated at the end of each reporting period to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL (“12m ECL”) represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the end of the reporting period. Assessment are done based on the Group’s historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the end of the reporting period as well as the forecast of future conditions.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

The Group always recognise lifetime ECL for trade receivables without significant financing component. The ECL on these assets are assessed individually for trade receivables and collectively for corporate customers using a provision matrix with past due status grouping.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the end of the reporting period with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; or
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Significant increase in credit risk (continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full.

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Financial instruments (continued)

Financial assets (continued)

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over 2 years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience, adjusted for forward looking information that is available without undue cost or effort.

Measurement and recognition of ECL (continued)

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for certain trade receivables are considered on a collective basis taking into consideration past due information and relevant credit information such as forward-looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables where the corresponding adjustment is recognised through a loss allowance account.

Derecognition of financial assets

The Group derecognises a financial asset measured at amortised cost only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial instruments (continued)

Financial liabilities and equity

Classification as debts or equity

Debts and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities at amortised cost

Financial liabilities (including trade and bills payables, other payables and accruals, lease liabilities, bank overdrafts and borrowings) are subsequently measured at amortised cost, using the effective interest method.

Derecognition/modification of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Except for changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform in which the Group applies the practical expedient, when the contractual terms of a financial liability are modified, the Group assess whether the revised terms result in a substantial modification from original terms taking into account all relevant facts and circumstances including qualitative factors. If qualitative assessment is not conclusive, the Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received, and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. Accordingly, such modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10 per cent.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial liabilities and equity (continued)

Derecognition/modification of financial liabilities (continued)

For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term. Any adjustment to the carrying amount of the financial liability is recognised in profit or loss at the date of modification.

Changes in the basis for determining the contractual cash flows as a result of interest rate benchmark reform

For changes in the basis for determining the contractual cash flows of a financial asset or financial liability to which the amortised cost measurement applies as a result of interest rate benchmark reform, the Group applies the practical expedient to account for these changes by updating the effective interest rate, such change in effective interest rate normally has no significant effect on the carrying amount of the relevant financial asset or financial liability.

A change in the basis for determining the contractual cash flows is required by interest rate benchmark reform if and only if, both these conditions are met:

- the change is necessary as a direct consequence of interest rate benchmark reform; and
- the new basis for determining the contractual cash flows is economically equivalent to the previous basis (i.e. the basis immediately preceding the change).

For other changes made to a financial asset or financial liability in addition to changes to the basis for determining the contractual cash flows required by interest rate benchmark reform, the Group first applies the practical expedient to the changes required by interest rate benchmark reform by updating the effective interest rate. The Group then applies the applicable requirements in HKFRS 9 on modification of a financial asset or a financial liability (see accounting policy above) to the additional changes to which the practical expedient does not apply.

Bank balance and cash

In the consolidated statement of cash flows, cash and cash equivalents includes cash at bank and on hand, pledged deposits with banks with original maturity of three months or less and bank overdrafts.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'loss before tax' as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investment in a subsidiary, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investment is only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amounts of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation (continued)

Deferred tax (continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 *Income Taxes* requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are not recognised due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

Employee benefits

Retirement benefit obligations

Payment to Mandatory Provident Fund Scheme (the “**MPF Scheme**”) is recognised as an expense when employees have rendered service entitling them to the contributions. The Group operates a MPF Scheme under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF Scheme is a defined contribution scheme, the assets of which are held in separate trustee-administered funds.

Under the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees’ relevant income, with the employers’ contributions subject to a cap of monthly relevant income of HK\$30,000. The Group’s contributions to the scheme are expensed as incurred and vested in accordance with the scheme’s vesting scales. Where employees leave the scheme prior to the full vesting of the employer’s contributions, the amount of forfeited contributions is used to reduce the contributions payable by the Group.

The retirement benefits scheme contributions arising from the MPF Scheme charged to profit or loss represent contributions paid or payable to the funds by the Group at rates specified in the rules of the schemes.

The employees employed by the Group’s subsidiaries in the People’s Republic of China (the “**PRC**”) are members of state-managed retirement benefit schemes operated by the government of the PRC. The subsidiaries are required to contribute a specific percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits schemes operated by the government of the PRC is to make the specified contributions under the schemes.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from contract with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- the Group’s performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group’s unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group’s obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue from contract with customers (continued)

Sales of goods – apparel SCM services

The Group manufactures and sells a wide range of key apparel products to a number of owners or agents of global reputable brands. Sales are recognised when control of the products has transferred, being when the products are delivered to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery occurs when the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Revenue from sales is based on the price specified in the sales order and is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a credit term up to 90 days, which is consistent with market practice.

As receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Provision

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Contingent assets and contingent liabilities

Contingent assets

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and they are not recognised in the consolidated financial statements. The Group assesses continually the development of contingent assets. If it has become virtually certain that an inflow of economic benefits will arise, the Group recognises the asset and the related income in the consolidated financial statements in the reporting period in which the change occurs.

Contingent liabilities

A contingent liability is a present obligation arising from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Where the Group is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability and it is not recognised in the consolidated financial statements.

The Group assesses continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in the consolidated financial statements in the reporting period in which the change in probability occurs, except in the extremely rare circumstances where no reliable estimate can be made.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified on or after the date of initial application or arising from business combination, the Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group applies practical expedient not to separate non-lease components from lease component, and instead account for the lease component and any associated non-lease components as a single lease component.

Leases (continued)

The Group as a lessee (continued)

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exception to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straightline basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Leases (continued)

The Group as a lessee (continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In the calculation of the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review, in which cases the related lease liability is remeasured by discounting the revised lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item in the consolidated statement of financial position.

Leases (continued)

The Group as a lessee (continued)

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset.

When the modified contract contains one or more additional lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component. The associated non-lease components are included in the respective lease components.

Covid-19-related rent concessions

In relation to rent concessions that occurred as a direct consequence of the Covid-19 pandemic, the Group has elected to apply the practical expedient not to assess whether the change is a lease modification if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- there is no substantive change to other terms and conditions of the lease.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases (continued)

The Group as a lessee (continued)

Covid-19-related rent concessions (continued)

A lessee applying the practical expedient accounts for changes in lease payments resulting from rent concessions the same way it would account for the changes applying HKFRS 16 if the changes are not a lease modification. Forgiveness or waiver of lease payments are accounted for as variable lease payments. The related lease liabilities are adjusted to reflect the amounts forgiven or waived with a corresponding adjustment recognised in the profit or loss in the period in which the event occurs.

Sale and leaseback transactions

The Group applies the requirements of HKFRS 15 to assess whether sale and leaseback transaction constitutes a sale by the Group.

The Group as a seller-lessee

For a transfer that satisfies the requirements as a sale, the Group as a seller-lessee measures the right-of-use asset arising from the leaseback at the proportion of the previous carrying amount of the asset and recognises any gain or loss that relates to the rights transferred to the buyer-lessor only.

Dividend distribution

Dividend distribution to the shareholder is recognised as a liability in the Group's consolidated financial statements in the period in which the dividend is approved by shareholders of the Company.

3. BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

Related parties

A party is considered to be related to the Group if:

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) the entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

A related party transaction is a transfer of resources, services or obligation between the Group and a related party, regardless of whether a price is charged.

Close family members of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3 to the consolidated financial statements, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Allowance for ECL for trade receivables

Trade receivables with significant balances and credit-impaired are assessed for ECL individually.

In addition, the Group uses practical expedient in estimating ECL on trade receivables which are not assessed individually using a provision matrix. The provision rates are based on aging of debtors as groupings of various debtors taking into consideration the Group's historical default rates and forward-looking information that is reasonable and supportable available without undue costs or effort. At every reporting date, the historical observed default rates are reassessed and changes in the forward-looking information are considered.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in note 6 to the consolidated financial statements.

5. CAPITAL MANAGEMENT

The Group manages its capital to ensure that entities will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior years.

The capital structure of the Group consists of total borrowings and equity attributable to owners of the Company, comprising share capital, reserves and accumulated losses as disclosed in the consolidated financial statements.

The directors review the capital structure regularly. The Group considers the cost of capital and the risks associated with each class of capital, and balance its overall capital structure through the payment of dividends and injection of capital.

The gearing ratio at the end of each reporting period was as follows:

	2022 HK\$'000	2021 HK\$'000
Total debts (note)	13,908	26,376
Equity attributable to owners of the Company	38,580	19,383
Gearing ratio	36.1%	136.1%

Note: Total debts include lease liabilities, bank overdrafts and bank borrowings in notes 19 (b) and 29 to the consolidated financial statements respectively.

6. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENT (continued)

The management monitor and manage the financial risks relating to the operations of the Group through internal risks reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Group's major financial instruments include trade receivables, other deposits paid and other receivables, amounts due from related companies, pledged bank deposits and bank balances, trade and bills payables, other payables and accruals, amount due to a related company, lease liabilities and borrowings. Details of these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

(i) Foreign exchange risk

The Group major operates in Hong Kong with majority of the transactions being settled in HK\$, United States dollar ("**US\$**") and Renminbi ("**RMB**"). Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities, which are denominated in a currency that is not the functional currency of the Group.

The Group is not exposed to foreign exchange risk in respect of HK\$ against the US\$ as long as this currency is pegged.

No sensitivity analysis is presented since the Group's exposure to RMB are insignificant because the carrying amounts denominated in RMB are insignificant.

The Group currently does not have a foreign currency hedging policy in respect of assets and liabilities denominated in foreign currency. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENT (continued)

Market risk (Continued)

(ii) Fair value and cash flow interest rate risk

The Group's interest rate risk arises from other receivables, pledged bank deposits, bank balances, bills payables, lease liabilities, bank borrowings and bank overdrafts. Borrowings obtained at variable rates expose the Group to cash flow interest rate risk. The Group is exposed to fair value interest rate risk in relation to other receivables, pledge bank deposits and lease liabilities (see notes 22, 24 and 19 (b) for details). The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balance, bills payables and bank overdrafts (see notes 25, 26 and 29 for details). The Group aims at keeping borrowings at variable rates. The Group manages its interest rate exposures by assessing the potential impact arising from any interest rate movements based on interest rate level and outlook. The management will review the proportion of borrowings in fixed and floating rates and ensure they are within reasonable range.

A fundamental reform of major interest rate benchmarks is being undertaken globally, including the replacement of some interbank offered rates ("IBORs") with alternative nearly risk-free rates. Details of the impacts on the Group's risk management strategy arising from the interest rate benchmark reform and the progress towards implementation of alternative benchmark interest rates are set out under "interest rate benchmark reform" in this note.

The Group regularly reviews and monitors the floating interest rate borrowings in order to manage its interest rate risk. Management does not anticipate significant impact on interest-bearing assets resulted from the changes in interest rates because the interest rates of bank balances are not expected to change significantly.

If there would be a general increase/decrease in the market interest rates by 50 basis points (2021: 50 basis points), with all other variables held constant, the Group's pre-tax profit would have increased/decreased by approximately HK\$81,000 (2021: pre-tax loss would have increased/decreased by approximately HK\$88,000) for the year ended 31 March 2022. The sensitivity analysis above has been determined assuming that the change in market interest rates had occurred at the end of the reporting period and had applied the exposure to interest rate risk to those financial instruments in existence at those dates. The estimated 50 basis points increase or decrease represents management's assessment of a reasonably possible change in market interest rates over the period until the next reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENT (continued)

Credit risk

The credit risk of the Group mainly arises from trade receivables, other deposits paid and other receivables, amounts due from related companies, pledged bank deposits and bank balances and cash.

Other deposits paid and other receivables

The management of the Group makes periodic collective assessment as well as individual assessment on the recoverability of other deposits paid and other receivables based on historical settlement records, past experience, and also available reasonable and supportive forward-looking information under ECL model. The management of the Group believes that there is no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. The Group recognised impairment loss of approximately HK\$75,000 (2021: HK\$272,000) in respect of other deposits paid and other receivables for the year ended 31 March 2022. The expected credit loss rate for other deposits and other receivables is approximately 4% (2021: 2%).

Amount due from related companies

The directors continuously monitor the credit quality and financial positions of the counterparties and the level of exposure of related companies to ensure that the follow-up action is taken to recover the debts. In this regard, the directors consider that the Group's credit risk on amounts due from related companies is significantly reduced. In addition, the Group performs impairment assessment under ECL model on balances individually. The management of the Group believes that there is no significant increase in credit risk of these amounts since initial recognition and the Group provided impairment based on 12m ECL. The Group assessed the ECL for these amounts are insignificant and thus no loss allowance is recognised.

Pledged bank deposits and bank balances

Management considers the Group has limited credit risk with its bank which are leading and reputable and bank are assessed as having low credit risk. The Group assessed 12m ECL for pledged bank deposits and bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12m ECL on pledged bank deposits and bank balances are considered to be insignificant and therefore no loss allowance was recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

6. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENT (continued)

Credit risk (Continued)

Trade receivables

The Group has implemented a credit policy for its trade customers and credit terms given vary according to the length of business relationship with the customers, reputation and payment history. In order to minimise the credit risk, management of the Group reviews the recoverable amount of each individual debt at the end of the reporting period that adequate impairment losses are made for irrecoverable amounts. In addition, the Group performs impairment assessment under ECL model on trade receivables based on provision matrix as appropriate. In the regard, the management of the Group considers that the Group's credit risk is significantly reduced.

As part of the Group's credit risk management, the Group uses provision matrix to assess the impairment for its customers because the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on past due status is not distinguished between the Group's different customer bases.

The Group has concentration of credit risk as 36% (2021: 18%) and 86% (2021: 70%) of the total trade receivables was due from the Group's largest debtor and the five largest debtors respectively.

Liquidity risk

Cash flow is managed at group level by the management. The Group manages liquidity risk by maintaining adequate cash and cash equivalents, monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and financial liabilities.

The following table shows the details of the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date, on which the Group can be required to pay. The maturity dates for non-derivative financial liabilities are based on the agreed repayment dates.

The following table summarises the maturity analysis of bank borrowings with repayable on demand clause based on agreed scheduled repayments set out in the loan agreements. The amount includes interest payments computed using contractual rates. Taking into account the Group's financial position, the directors do not consider that it is probable that the bank will exercise its discretion to immediate repayment. The directors believe that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

Interest rate benchmark reform

As listed in note 29 to the consolidated financial statements, several of the Group's HIBOR bank loans may be subject to the interest rate benchmark reform. The Group is closely monitoring the market and managing the transition to new benchmark interest rates, including announcements made by the relevant IBOR regulators.

HIBOR

While the Hong Kong Dollar Overnight Index Average (“**HONIA**”) has been identified as an alternative to HIBOR, there is no plan to discontinue HIBOR. The multi-rate approach has been adopted in Hong Kong, whereby HIBOR and HONIA will co-exist.

Fair value of financial instruments

The carrying amounts of the Group's financial assets and financial liabilities carried at amortised cost were not materially different from their fair values at 31 March 2022 and 2021.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

7. SEGMENT INFORMATION

The Group is principally engaged in sales of apparel products with the provision of apparel SCM services to customers.

HKFRS 8 *Operating Segments* requires operating segments to be identified on the basis of internal reporting about components of the Group that are regularly reviewed by the chief operating decision-maker in order to allocate resources to segments and to assess the performance. The information reported to the directors, who are the chief operating decision-makers, for the purpose of resource allocation and assessment of performance does not contain discrete operating segment financial information and the directors reviewed the financial results of the Group as a whole. Therefore, no further information about the operating segment is presented.

Information about major customers

Revenue from customers during the reporting period individually contributing over 10% of the Group's revenue is as follows:

	2022 HK\$'000	2021 HK\$'000
Customer A	N/A ¹	16,808
Customer B	N/A ¹	13,520

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

15. INCOME TAX CREDIT

	2022 HK\$'000	2021 HK\$'000
Current tax – Hong Kong Profits Tax – Charge for the year	–	9
Current tax – Overseas taxation – Charge for the year	–	–
Deferred tax (note 31) – Credit for the year	– (370)	9 (42)
	(370)	(33)

Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million.

The directors considered the amount involved upon implementation of the two-tiered profits tax rates regime as insignificant to the consolidated financial statements. Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

Under the Law of the PRC on Enterprise Income Tax (the “EIT Law”) and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiary is 25%.

No PRC Enterprise Income Tax had been made as the Group had no assessable profit for the years ended 31 March 2022 and 2021.

Taxation of other overseas subsidiary is calculated at the applicable rate prevailing in the jurisdictions in which the subsidiary operates.

No provision for Hong Kong Profits Tax had been made as the Group has sufficient tax losses brought forward to set off against assessable profits for the years ended 31 March 2022 and 2021.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2022

37. RETIREMENT BENEFITS SCHEMES

The Group operates the MPF Scheme under rules and regulations of the Mandatory Provident Fund Schemes Ordinance for all its employees in Hong Kong. All employees of the Group in Hong Kong are required to join the MPF Scheme. The Group has chosen to follow the minimum statutory contribution requirement of 5% of eligible employees' monthly relevant income but limited to the mandatory cap of HK\$30,000. The contributions are charged to profit or loss as incurred. The assets of the MPF Scheme are held separately from those of the Group in an independently administrative fund.

The employees of the Group's subsidiary in the PRC are members of state-managed retirement benefit schemes operated by the government of the PRC. The subsidiary is required to contribute a specific percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits schemes operated by the government of the PRC is made the specified contributions under the schemes. The contributions are charged to profit or loss as incurred.

During the years ended 31 March 2022 and 2021, the Group had no forfeited contributions under the MPF Scheme and the retirement benefits scheme utilised to reduce the existing levels of contributions. As at 31 March 2022 and 2021, there was no forfeited contribution under the MPF Scheme and retirement benefits scheme which may be used by the Group to reduce the contribution payable in the future years.
