ANNUAL REPORT

2022

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of Lai Group Holding Company Limited (the "Company" and together with its subsidiaries, the "Group") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board of Directors (the "Board"), I would like to present our annual report for the year ended 31 March 2022.

REVIEW

The Group's revenue decreased by approximately 1.6% from approximately HK\$140.6 million for the year ended 31 March 2021 to approximately HK\$138.3 million for the year ended 31 March 2022.

The Group's gross profit increased by approximately HK\$0.8 million, by 2.7%, from approximately HK\$29.4 million for the year ended 31 March 2021 to approximately HK\$30.2 million for the year ended 31 March 2022. Gross profit margin increased from approximately 20.9% for the year ended 31 March 2021 to approximately 21.8% for the reporting year.

During the year ended 31 March 2022, the Group recorded the loss attributable to owners of the Company of approximately HK\$3.6 million, representing an increase in loss as compared with approximately HK\$1.5 million for the year ended 31 March 2021. The increase in loss was mainly due to the decrease in revenue generated from interior design and fit-out services for the first quarter of 2022 mainly owing to the outbreak of the fifth wave of COVID-19 in Hong Kong and the increase in administrative staff costs.

PROSPECT

Looking ahead to 2022, it is unavoidable that overall economy of Hong Kong in the short term will be affected by the persistent outbreak of COVID-19 pandemic. However, according to the latest Long-Term Housing Strategy Annual Report (2021), the Hong Kong Government continue to maintain the ratio of public housing to private housing in the next 10 years as 70/30. With such, the Company is of the view that there are strong demands in the local public and private housing markets and the continued growth of housing units will result in higher customer value spending on residential interior design services.

Although the Group is encountering market uncertainties arising from the impact of COVID-19 pandemic, it has strengthened its position in the interior design and fit-out services by reinforcing the brand promotion in the mainstream media and new media, which attracted a large number of new customers.

Despite the challenges in the future, the Group is optimistic about the prospects of the local interior design and fit-out services and will continue to enhance the customer experience and satisfaction through the recruitment of talents, the provision of training and the improvement of management skills, so that the Group will achieve sustainable business growth in the long run and create greater value for the shareholders.

BUSINESS REVIEW

The Group is principally engaged in the provision of interior design and fit-out services in Hong Kong. The Group offers a full suite of services including interior design provided by the Group's in-house design team, providing the Group's customers with creative and innovative designs that synergise with the latest market and design trends. In order to complete the projects, the Group relies on its subcontractors to implement the designs with high quality fittings and furnishings.

The Group's business can be classified into (i) residential interior design and fit-out services; and (ii) commercial interior design and fit-out services. The Group generated revenue of approximately HK\$138.3 million and approximately HK\$140.6 million, of which approximately HK\$135.3 million and approximately HK\$137.1 million, representing 97.8% and 97.5% of the Group's total revenue, were generated from residential interior design and fit-out services for the years ended 31 March 2022 and 2021, respectively. Approximately HK\$3.0 million and approximately HK\$3.5 million, representing approximately 2.2% and approximately 2.5% of the Group's total revenue, were generated from commercial interior design and fit-out services for the years ended 31 March 2022 and 2021, respectively.

For the year ended 31 March 2022, the Group recorded a net loss of approximately HK\$3.6 million as compared with approximately HK\$1.3 million for the same period in 2021. The Directors are of the view that the increase in net loss was primarily attributable to the decrease in revenue generated from interior design and fit-out services for the first quarter of 2022 mainly owing to the outbreak of the fifth wave of COVID-19 in Hong Kong and the increase in administrative staff costs.

OUTLOOK

Despite the impact of COVID-19 pandemic, the Company is of the view that the property prices in Hong Kong will continue to rise in the future mainly because of buoyant housing demand, a chronic shortage of land and housing supply, as well as a consistently low interest rate environment nowadays. In the meantime, property developers in Hong Kong continue to build small residential units as they are more affordable to the public.

The Company is of the view that the high property prices favors the business of the Group as home owners find it increasingly difficult to afford new homes and have to resort to renovating their existing property to improve their living environment. As such, the Company will continue to build upon its marketing and promotional strategy to increase the awareness of the Group's brand name in the renovation and interior fit-out market. In view of the possible increase in the market size, the Group continues to expand its business coverage throughout Hong Kong in order to improve its reach to more potential customers. This involves opening of more branches to serve more potential customers in areas previously not covered by the Group.

Looking forward, it is expected that the current year remains challenging due to the outbreak of COVID-19 as it has negatively affected and would continue to affect the economy of Hong Kong. Under the outbreak of COVID-19, many fitting-out works were forced to halt and as workers at the same site or unit were made to work separately to prevent infection from spreading, this in turn has also slowed down the work progress of our projects. While the industry was hard hit by the outbreak of COVID-19, some competitors have adopted a more competitive project pricing strategy and bear higher operating costs due to the project delays. In view of such poor business environment, the Board will remain cautious in expanding its business and will continue to control its operating costs, as well as monitoring the current market trend to anticipate any downturn or changes in the current property market.

FINANCIAL REVIEW

Revenue

The Group's revenue is primarily generated from the provision of interior design and fit-out services in Hong Kong which includes two main categories, namely (i) residential interior design and fit-out services; and (ii) commercial interior design and fit-out services. For the year ended 31 March 2022, the Group's revenue decreased by approximately 1.6% to approximately HK\$138.3 million (2021: approximately HK\$140.6 million). Such decrease was mainly due to the decrease in revenue generated from both residential and commercial interior design and fit-out services for the first quarter of 2022 mainly owing to the outbreak of the fifth wave of COVID-19 in Hong Kong.

| | Fo | or the year ende | ed 31 March | |
|--|----------|------------------|-------------|-------|
| Revenue by business nature | 2022 | | 2021 | |
| | HK\$'000 | % | HK\$'000 | % |
| Residential interior design and fit-out services | 135,298 | 97.8 | 137,100 | 97.5 |
| Commercial interior design and fit-out services | 3,029 | 2.2 | 3,515 | 2.5 |
| Total | 138,327 | 100.0 | 140,615 | 100.0 |

Direct costs

The Group's direct costs consist primarily of (i) materials; (ii) subcontracting charges; (iii) staff costs; and (iv) warranty expenses. The table below sets forth a breakdown of components of direct costs for the years ended 31 March 2022 and 2021:

| | For the year ended 31 March | | | |
|--|-----------------------------|-------|----------|-------|
| Components of direct costs | 2022 | | 2021 | |
| | HK\$'000 | % | HK\$'000 | % |
| Materials | 19,694 | 18.2 | 17,667 | 15.9 |
| Subcontracting charges | 81,429 | 75.3 | 85,584 | 77.0 |
| Staff costs | 7,012 | 6.5 | 6,818 | 6.1 |

| warranty expenses | (13) | 0.0 | 1,104 | 1.0 |
| Total | 108,122 | 100.0 | 111,173 | 100.0 |

The Group's direct costs decreased by approximately 2.7% from approximately HK\$111.2 million for the year ended 31 March 2021 to approximately HK\$108.1 million for the year ended 31 March 2022. Such decrease was mainly driven by the corresponding decrease in revenue.

Gross profit and gross profit margin

Gross profit represents revenue less direct costs. The Group's gross profit increased by approximately HK\$0.8 million, or approximately 2.6%, from approximately HK\$29.4 million for the year ended 31 March 2021 to approximately HK\$30.2 million for the year ended 31 March 2022. The Group's gross profit margin was approximately 21.8% for the year ended 31 March 2022, representing an increase of approximately 0.9 percentage points as compared to approximately 20.9% for the year ended 31 March 2021. The increase in gross profit was mainly due to the decrease in direct costs as mentioned above. The increase in gross profit margin was mainly due to the higher profit margin contributed by recent commenced projects.

Other income, other gains and losses, net

Other income, other gains and losses, net decreased from approximately HK\$1.8 million for the year ended 31 March 2021 to approximately HK\$1.3 million for the year ended 31 March 2022. Such decrease was primarily resulted from absence of the non-recurring government grants received by the Group in relation to the outbreak of COVID-19 of approximately HK\$1.8 million. Such decrease was partially offset by the referral income received by the Group of approximately 1.0 million for the year ended 31 March 2022.

Administrative and other operating expenses

The Group's administrative and other operating expenses for the year ended 31 March 2022 were approximately HK\$34.9 million, representing an increase of approximately 8.6% from approximately HK\$32.1 million for the year ended 31 March 2021. Such increase was mainly attributable to the increase in administrative staff costs.

Finance costs

Finance costs of the Group increased by approximately 32.5% from approximately HK\$154,000 for the year ended 31 March 2021 to approximately HK\$204,000 for the year ended 31 March 2022. The increase in finance costs was mainly attributable to the increase in interest on bank borrowing for the year ended 31 March 2022.

Income tax expense

The Group's income tax expense for the year ended 31 March 2022 was approximately HK\$63,000, representing a decrease of approximately 81.1% from approximately HK\$334,000 for the year ended 31 March 2021. The decrease was mainly due to the decrease in taxable profit for the year ended 31 March 2022.

Loss attributable to owners of the Company

As a result of the foregoing, the Group recorded a loss attributable to owners of the Company of approximately HK\$3.6 million and approximately HK\$1.5 million for the years ended 31 March 2022 and 2021, respectively.

BUSINESS OBJECTIVES AND STRATEGIES

The Group will endeavor to achieve the following business objectives:

USE OF NET PROCEEDS FROM LISTING

The net proceeds from the issue of new shares of the Company at the time of its listing on 12 April 2017 (the "**Listing Date**") through the share offer of 200,000,000 shares of HK\$0.01 each in the share capital of the Company at the price of HK\$0.26 per share, after deduction of the underwriting commission and actual expenses paid by the Group in connection thereto, were approximately HK\$34.8 million.

The below table sets out the proposed applications of the net proceeds from the Listing Date to 31 March 2022:

| | Planned use of | Actual use of | Unutilised |
|--|-----------------|-----------------|-----------------|
| | proceeds from | proceeds from | proceeds from |
| | Listing Date to | Listing Date to | Listing Date to |
| | 31 March 2022 | 31 March 2022 | 31 March 2022 |

| Strengthen sales and marketing efforts | 4.0 | 4.0 | _ |
| Recruiting high caliber talent and enhance internal training | | | |
| to support future growth | 4.7 | 4.7 | _ |
| Upgrading information systems | 1.9 | 1.2 | 0.7 |
| Development of fleet of vehicles | 2.6 | 2.6 | _ |
| General working capital | 1.8 | 1.8 | |
| Total | 34.8 | 14.3 | 20.5 |

For the expansion of market coverage in Hong Kong, the Company has yet to identify a suitable location that is worth acquiring in light of the continuously high property prices and potential downturn risk. The outbreak of COVID-19 has created even more market uncertainties. In any event, the Company is still on the lookout for suitable locations to purchase over the next 12 months and hopefully could utilise the remaining proceeds of approximately HK\$19.8 million to acquire locations during the financial year ending 31 March 2023.

For upgrading information systems, the Company has identified a suitable information system vendor and is currently in the progress of developing online system for project management. Therefore, the Company expects to utilise this unused portion of the proceeds of approximately HK\$0.7 million during the year ending 31 March 2023 to upgrade the information system.

As at 31 March 2022, the unutilised proceeds of approximately HK\$20.5 million have been placed as deposits into licensed banks in Hong Kong and are expected to be used according to the intentions previously disclosed in the prospectus of the Company dated 31 March 2017 (the "**Prospectus**"). Such amounts are expected to be fully utilised by 31 March 2023.

The business objectives, future plans and planned use of proceeds as stated in the Prospectus were based on the best estimation and assumption of future market conditions made by the Group at the time of preparing the Prospectus while the proceeds were applied based on the actual development of the Group's business and the industry.

CAPITAL STRUCTURE

The Company's shares were successfully listed on GEM on the Listing Date. There has been no change in the capital structure of the Group since then. The capital of the Group only comprises of ordinary shares.

LIQUIDITY AND FINANCIAL RESOURCES

The Group has funded the liquidity and capital requirements principally from cash generated from operations and bank loan.

As at 31 March 2022, the Group had total debts, comprising bank borrowing and lease liabilities, of approximately HK\$5.1 million which was denominated in Hong Kong Dollars (2021: approximately HK\$5.3 million). The Group's lease arrangement was for the acquisition of a motor vehicle to support its operations which has been completed during the year ended 31 March 2022.

As at 31 March 2022, the Group had approximately HK\$57.7 million in cash and bank balance (2021: approximately HK\$58.9 million). The Directors believe that the Group is in a healthy financial position to expand its core business and to achieve its business objectives.

GEARING RATIO

As at 31 March 2022, the gearing ratio of the Group was approximately 13.3% (2021: approximately 12.4%). Gearing ratio is calculated as total interest-bearing liabilities and lease liabilities divided by total equity.

CHARGE ON GROUP ASSETS

As at 31 March 2021, the Group has pledged its motor vehicle with carrying amount amounted to approximately HK\$0.4 million, under the lease agreement. The lease arrangement has been completed during the year ended 31 March 2022.

SIGNIFICANT INVESTMENTS HELD, MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES, AND PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

On 31 March 2022, the Group acquired 25% equity interest of New Base Enterprises Limited ("**New Base**") from Lui Tun Yun, the non-controlling shareholder of New Base, at a consideration of HK\$25. This resulted in an increase in the Group's equity interest in New Base from 75% to 100%.

Save as disclosed herein, there was no significant investment held, material acquisition and disposal of subsidiaries and affiliated companies by the Company during the year ended 31 March 2022. There was no other plan for material investments or capital assets as at 31 March 2022.

FOREIGN EXCHANGE EXPOSURE

Foreign currency risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Most of the Group's business operations were conducted in Hong Kong. The transactions, monetary assets and liabilities of the Group were mainly denominated in Hong Kong dollars. As such, the Directors are of the view that the Group did not have significant exposure to foreign exchange risk. The Group currently does not have a foreign currency hedging policy.

TREASURY POLICIES

The Directors will continue to follow a prudent policy in managing the Group's bank balances and maintain a strong and healthy liquidity to ensure that the Group is well placed to take advantage of future growth opportunities.

CONTINGENT LIABILITIES

The Group did not have any material contingent liabilities as at 31 March 2022 (2021: Nil).

COMMITMENTS

As at 31 March 2022, the Group had HK\$5.0 million of capital commitment in relation to the unpaid registered capital of a subsidiary (2021: approximately HK\$5.0 million).

SEGMENT INFORMATION

The Group principally operates in one business segment, which is providing interior design and fit-out services in Hong Kong.

FINAL DIVIDENDS

The Directors do not recommend the payment of final dividend for the year ended 31 March 2022 (2021: Nil).

INFORMATION ON EMPLOYEES

As at 31 March 2022, the Group had 38 employees working in Hong Kong (2021: 41). Employees are remunerated based on their qualifications, position and performance. The remuneration offered to employees generally includes salaries, allowances and discretionary bonus. Various types of trainings were provided to the employees. The total staff cost (including remuneration of Directors and mandatory provident funds contributions) for the year ended 31 March 2022 amounted to approximately HK\$17.2 million (2021: approximately HK\$15.9 million).

PRINCIPAL RISKS AND UNCERTAINTIES

Interest rate risk

Interest rate risk is insignificant because the Group does not have any significant interest-bearing assets except for bank balances, in which the management is expected that the interest rates of bank balances will not change significantly. The Group is not exposed to significant cash flow interest rate risk arising from the Group's borrowings as finance lease are at fixed interest rates and bank borrowing is at Hong Kong Dollars Best Lending Rate minus 2.25% quoted by a bank in Hong Kong. The Group does not use any derivative financial instruments to hedge risk exposure against changes in interest rates.

Credit risk

The credit risk of the Group mainly arises from contract assets, trade and other receivables, amounts due from related companies and bank balances. The carrying amounts, where applicable, of each class of these assets represent the Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations as at the reporting dates. The Group's credit risk of bank balances is limited because the counterparties are banks with sound credit ratings assigned by international credit-rating agencies. In respect of trade and other receivables and contract assets, individual and/or collective credit evaluations are performed on the Group's customers and counterparties. Monitoring procedures have been implemented to ensure that follow-up action will be taken to recover overdue debts. The Group performs impairment assessment under the expected credit loss model under HKFRS 9 on its financial assets and contract assets. In this regard, management considers that the Group's credit risk is significantly reduced.

Liquidity risk

The Group has maintained a policy to monitor current and expected liquidity requirements regularly to ensure that the Group can maintain sufficient reserve of cash to meet liquidity requirements in both long and short terms as well as maintaining sufficient financial resources to fund operations.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group has implemented environmental protection measures, including procedures and programmes related to wastewater discharge management, noise control, resources and energy use control, environmental protection enhancement and sustainable development, internal environmental examination and evaluation, environmental emergency response and impact control. The Group also commits to the principle and practice of recycling and reducing. To protect the environment, the Group implements green office practices such as re-deployment of office furniture as far as possible, to encourage use of recycled paper for printing and copying, double-sided printing and copying, to reduce energy consumption by switching off idle lightings, air conditioning and electrical appliances. The Group's operations were in compliance in all material respects with current applicable environmental protection laws and regulations in the Hong Kong during the year ended 31 March 2022.

For details of environmental, social and governance performance of the Group, please refer to the Environmental, Social and Governance report.

COMPLIANCE WITH THE RELEVANT LAWS AND REGULATIONS

As far as the Board is aware, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Group. During the year ended 31 March 2022, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

RELATIONSHIP WITH SUPPLIERS, CUSTOMERS AND OTHER STAKEHOLDERS

The Group understands the importance of maintaining a good relationship with its suppliers, customers and other stakeholders to meet its immediate and long-term goals. During the year ended 31 March 2022, there was no significant dispute between the Group and its suppliers, customers and/or stakeholders.

EVENTS AFTER THE REPORTING PERIOD

Asian Alliance (HK) CPA Limited was appointed as the auditors of the Company on 7 April 2022 to fill the casual vacancy following the resignation of HLB Hodgson Impey Cheng Limited on 7 April 2022. Details of the change of auditors were set out in the announcement of the Company dated 7 April 2022.

Save as disclosed in this annual report, there is no other important event affecting the Group since 31 March 2022 and up to the date of this annual report.

INTRODUCTION

Lai Group Holding Company Limited (the "Company"), together with its subsidiaries (the "Group") is principally engaged in provision of interior design and fit-out services in Hong Kong. The Group offers a full suite of services including interior design provided by the Group's in-house design team, providing the Group's customers with creative and innovative designs that synergise with the latest market and design trends. In order to complete the projects, the Group relies on its sub-contractors to implement the designs with high quality fittings and furnishings. This Environmental, Social and Governance report (the "ESG Report") discloses the Group's measures and performance on sustainable development topics in a transparent and open manner, in order to enhance stakeholders' confidence and understanding on the Group.

The ESG Report describes the environmental, social and governance ("ESG") activities, challenges and measures taken by the Group during the year ended 31 March 2022 (the "Reporting Period" or "2022") as well as the comparative data for 31 March 2021 ("2021").

REPORTING SCOPE

The senior management of the Group has discussed and identified the reporting scope of the ESG Report based on the materiality principle and considering the Group's core business and main revenue source. The ESG Report covers the ESG performance of the Group's key business and operational activities of residential interior design and fit-out services, and commercial interior design and fit-out services, generating all of the Group's revenue. Locations include headquarters, branches and project sites in Hong Kong. The ESG key performance indicator ("**KPIs**") data are gathered only from the operations under the Group's direct operational control.

REPORTING FRAMEWORK

The ESG Report is prepared in accordance with the Environmental, Social and Governance Reporting Guide (the "ESG Reporting Guide") as set out in Appendix 20 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The ESG Report provides an overview of the ESG performance of the Group. The information in the ESG Report is derived from the Group's official documents and statistics, as well as the integration and summary of monitoring, management and operational information provided by the Group.

Information relating to the corporate governance practices of the Group has been set out in the Corporate Governance Report of this annual report.

During the preparation of the ESG Report, the Group attaches great importance to materiality, quantitative and consistency, and has applied these reporting principles which are set out in the ESG Reporting Guide:

Materiality: Materiality assessment was conducted to identify material issues, thereby adopting the confirmed material issues as the focus for the preparation of this ESG Report. The materiality of issues was reviewed and confirmed by the Board of Directors (the "**Board**") and the designated personnel from various businesses and functional departments. Please refer to the sections headed "Stakeholder Engagement" and "Materiality Assessment" for further details.

Quantitative: The standards and methodologies used in the calculation of relevant data in the ESG Report, as well as the applicable assumptions were disclosed. The KPIs were supplemented by explanatory notes to establish benchmarks where feasible.

Consistency: The statistical methodologies applied to this ESG Report were substantially consistent with the previous year, and explanations were provided regarding data with changes in the scope of disclosure and calculation methodologies. If there are any changes that may affect comparison with previous reports, the Group will add comments to the corresponding content of this ESG Report.

BOARD STATEMENT

The Board is pleased to present the ESG Report of the Group, which reviewed the Group's ESG initiatives, plans, performance, as well as its sustainable development in respect of environmental protection, labour practices, business operations, supply chain management, and other issues. As a responsible corporate, the Group views ESG commitments as part of its responsibilities and is committed to incorporating ESG considerations into its decision-making process.

ESG Governance Structure

The Group conducts a top-down management approach to manage its ESG issues. The Board supports the Group's commitments to fulfilling its ESG responsibilities, with the overall responsibility for the Group's ESG strategy and reporting, as well as overseeing and managing its ESG issues. The Board reviews and confirms the Group's ESG risks and opportunities, performance, goals and targets, progress made against ESG goals and targets, management approach, strategy, priorities of the Group's material ESG issues, and policies regularly with the assistance of the Group's designated personnel from the business and functional departments. The Board also ensures the effectiveness of ESG risk management and internal control mechanism.

The Group has assigned employees from various businesses and functional departments (the "Designated Personnel") to systematically manage ESG issues and facilitate the Board's oversight of ESG issues. The Designated Personnel are responsible for overseeing and reviewing the Group's ESG policies and performance; monitoring and managing ESG risks and opportunities, and the effectiveness of the ESG management systems; identifying and prioritising the Group's ESG issues; and collecting relevant information on ESG aspects for the preparation of the ESG reports. Besides, they propose and recommend to the Board on the Group's ESG strategies, priorities, goals and targets. They periodically report to the Board, assist in identifying and assessing the Group's ESG risks and opportunities, and evaluating the implementation and effectiveness of the internal control mechanism. They also examine and evaluate the Group's performance in different aspects such as environment, labour practices, and other ESG issues.

STAKEHOLDER ENGAGEMENT

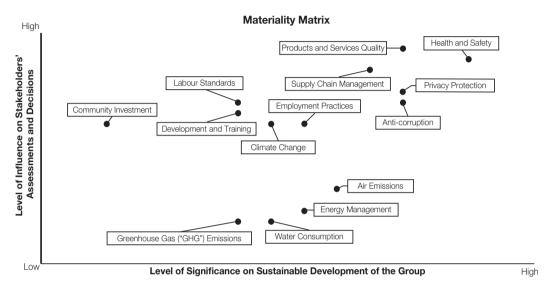

The Group values its stakeholders and their feedback regarding its businesses and ESG aspects. Stakeholders of the Group refer to groups and individuals materially influencing or affected by the Group's business. They include shareholders and investors, clients, employees, sub-contractors, government and suppliers. To understand and address the key concerns of different stakeholders, the Group has been maintaining close communication with them. Stakeholders' expectations have been taken into consideration by utilising diversified engagement channels as shown below:

| Stakeholders | Interests and concerns | Engagement channels |
|----------------------------|--|---|
| Shareholders and investors | Return on investment Financial performance Corporate strategy and governance Risk mitigation and management Regulatory compliance | Annual general meeting Financial reports Corporate websites Announcements, notices of meetings, circulars |
| Clients | Robust project management Full compliance with regulations High quality products and services Protect customers' right Sustainability performance of operations | Hotline for after-sale service Corporate websites Regular meetings and communication Customer satisfaction survey Financial reports |
| Employees | Compensation and benefits Occupational health and safety Career development opportunities Corporate culture and wellbeing Employees' compensation and benefits | Leisure activities and increase cohesion In-house training programmes Performance reviews and appraisals Means for employees to express opinions (e.g. opinion form and suggestion box) Regular meeting and management communication (e.g. email and telephone) |
| Sub-contractors | Effective project management Occupational health and safety Ethical business practices Fair and open tendering Sub-contractors assessment criteria Payment schedule | Annual health, safety and environment seminars Regular progress meetings Audits and assessments Training sessions |
| Government | Laws and regulatory complianceProper tax payment | On-site inspections Work reports preparation and submission for approval Financial reports |
| Suppliers | Long-term partnership Sustainable supply chain Fair and open tendering Ethical business practices Supplier assessment criteria | Procurement processesAudits and assessmentsSupplier management meetings and events |

The Group endeavours to actively listen to and collaborate with its stakeholders to ensure that their opinions can be voiced out through proper communication channels. In the long run, the stakeholders' contribution will aid the Group in improving the performance of potentially overlooked ESG topics and ensure the continued success of the Group's business in the competitive market.

Materiality Assessment

Stakeholder engagement and communications are crucial in understanding the expectations and priorities of the Group's stakeholders. The Group's management and employees have assisted in identifying the material ESG issues of the Group based on the Group's business, the ESG Reporting Guide and industry standards. Apart from regular communication channels, the Group has also designed a materiality assessment survey to collect opinions from internal and external stakeholders so that the Group can better assess the materiality of various ESG issues. The results of the materiality assessment survey are confirmed by the Board and are plotted on the materiality matrix.

During the Reporting Period, the Group confirmed that it has established appropriate and effective management policies and internal control systems for ESG issues and confirmed that the disclosed contents are in compliance with the requirements of the ESG Reporting Guide.

ENVIRONMENTAL PROTECTION

Environmental protection and sustainable development rely on concerted efforts from all industries and society. The Group strives to integrate environmental sustainability into its business operations and is committed to managing its emissions and seeking practical means to reduce its impact on the environment. To enhance decarbonisation and address stakeholders' concern as reflected by the identified material ESG issues, the Group has set environmental targets related to GHG emissions, waste management, water consumption and energy use. The targets were approved by the Board and the progress will be reviewed by the Designated Personnel. The Group continues to work on environmental protection and minimises its carbon footprint by reviewing the effectiveness of its environmental protection measures regularly, in order to achieve long-term sustainability of the environment and community where it operates.

Apart from implementing an environmental management system in accordance with ISO 14001 requirements, the Group has also formulated related environmental policies such as the Emission Policy and the Use of Resources Policy to promote sustainability within the Group's business. The Group constantly integrates the principles of emission reduction and resource efficiency into the Group's environmental management approaches by implementing measures that promote energy efficiency, wastes reduction, and other green initiatives. The Group is also committed to educating its employees in raising their awareness of environmental protection in order to comply with relevant environmental laws and regulations. Within the Group's policy framework, the Group continually looks for opportunities to pursue environmentally-friendly initiatives and enhance the Group's environmental performance by reducing energy consumption and the use of other resources.

During the Reporting Period, the Group was not aware of any material non-compliance with the environmental laws and regulations, including but not limited to the Air Pollution Control Ordinance, the Noise Control Ordinance, and the Waste Disposal Ordinance of Hong Kong that would have a significant impact on the Group.

Air Emissions

During the Group's operations, the petrol consumed by company vehicles generate the emissions of nitrogen oxides (" $\mathbf{NO_x}$ "), sulphur oxides (" $\mathbf{SO_x}$ ") and particulate matter (" \mathbf{PM} "). Generally, the amounts of air emissions in 2022 remains at a reasonably low level, similar to the incurred volume in 2021.

Summary of the Group's air emissions performance:

| Types of air emissions | Unit | 2022 | 2021 |
|------------------------|--------|--------|--------|
| NO _x | tonnes | 0.07 | 0.06 |
| SO _x | tonnes | 0.0001 | 0.0001 |
| PM | tonnes | 0.01 | 0.01 |

Although the Group does not generate a significant amount of air emissions directly during its operations, the Group has still established measures relating to the reduction of air emissions, which include:

- Avoid peak hour traffic;
- Encourage the use of public transport;
- · Utilise the vehicles effectively by carpooling with different staff; and
- Monitor the monthly usage of all vehicles through the establishment of a comprehensive data collection system to maintain the usage efficiency at a prominent level.

GHG Emissions

The Group's GHG emissions are comprised of direct emissions (scope 1), energy indirect emissions (scope 2) and other indirect emissions (scope 3). The Group emphasises on reducing GHG emissions, that contributes to achieving carbon neutral and combatting climate change. Therefore, the Group has set target to reduce its GHG emission intensity (kgCO $_2$ e/square foot) by 5% by the year ended 31 March 2026 ("**2026**"), compared with the baseline year of 2022. The Group has implemented a series of measure in order to reach the target set. The relevant measures are mentioned in this section as below.

Scope 1 - Direct emissions

Direct GHG emissions of the Group were principally resulting from petrol consumed by company vehicles. The Group has actively adopted various measures, which are described in the section headed "Air Emissions" under aspect A1.

Scope 2 - Energy indirect emissions

Energy indirect GHG emissions of the Group were principally resulting from electricity consumed at the rented headquarters and branch offices.

The Group has adopted several electricity conservation measures to control and reduce electricity consumption. The Group not only encourages the use of appliances with energy efficiency labels, but also encourages its employees to switch off all idling appliances and unnecessary lightings upon leaving the offices. The Group has also posted reminders near switches and electrical appliances to remind employees to reduce electricity consumption. Other electricity conservation measures are described in the section headed "Energy Management" under aspect A2.

Scope 3 - Other indirect emissions

Other indirect GHG emissions of the Group were principally generated from the electricity used for fresh water processing and wastewater processing by the Water Services Department and Drainage Services Department. The Group has actively adopted various water conservation measures, which are described in the section headed "Water Consumption".

The GHG emissions in 2022 has decreased by approximately 5.63% compared to 2021. The decrease was mainly resulted from the reduction of operation activities, partly owing to the continuity of COVID-19 pandemic.

Summary of the Group's GHG emissions performance:

| Indicators¹ | Unit | 2022 | 2021 |
|--|--|--------------|-------|
| Scope 1 – Direct GHG emissions – Petrol consumed by company vehicles | tCO ₂ e | 21.41 | 23.66 |
| Total Direct GHG emissions | tCO ₂ e | 21.41 | 23.66 |
| Scope 2 – Energy indirect GHG emissions – Purchased electricity | tCO ₂ e | 51.86 | 53.93 |
| Scope 3 – Other indirect GHG emissions – Fresh water and wastewater processing | tCO ₂ e | 0.19 | 0.25 |
| Total Indirect GHG emissions | tCO ₂ e | 52.05 | 54.18 |
| Total GHG emissions | tCOe | 73.46 | 77.84 |
| Intensity of total GHG emissions | tCO e/million revenue (HK\$)² | 0.53 | 0.55 |
| | tCO ₂ e/project ³ | 0.19 | 0.15 |
| | tCO ₂ e/square foot (kgCO ₂ e/square foot) ⁴ | 0.02 (19.33) | N/A |

Note(s):

- 1. GHG emissions data is presented in terms of carbon dioxide equivalent and is based on, but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "How to prepare an ESG report Appendix 2: Reporting Guidance on Environmental KPIs" issued by the Stock Exchange, "Annual Report 2019/20" issued by the Water Supplies Department, "Sustainability Report 2020/21" issued by the Drainage Services Department, the "Global Warming Potential Values" from the IPCC Fifth Assessment Report, 2015 (AR5), the "Sustainability Report 2021" published by HK Electric Investments Limited and the "Sustainability Report 2021" published by CLP Power Hong Kong Limited.
- 2. For the year ended 31 March 2022, the Group recorded a revenue of approximately HK\$138.3 million (as at 31 March 2021: approximately HK\$140.6 million). This data is used for calculating other intensity data.
- 3. For the year ended 31 March 2022, the Group recorded the total number of projects of 390 (as at 31 March 2021: 519). This data is used for calculating other intensity data.
- 4. For the year ended 31 March 2022, the Group recorded the total floor area of approximately 3,800 square feet. The relevant figure has been disclosed from 2022 onwards. This data is used for calculating other intensity data.

Waste Management

Hazardous waste

Due to the business nature, the Group does not generate material amount of hazardous waste during its operations. Although the Group did not generate hazardous waste during the Reporting Period, it has established guidelines to govern the management and disposal of hazardous waste. In case there is any hazardous waste produced, to comply with the relevant environmental rules and regulations, the Group must engage a qualified chemical waste collector to handle such waste.

Non-hazardous waste

The Group's non-hazardous waste is mainly comprised of the mixed construction and demolition ("**C&D**") waste, which is produced during the operation of the Group's fit-out services, and the general waste and paper used in office. To facilitate the waste reduction from sources, the Group has set target to reduce the non-hazardous waste intensity (kg/square foot) by 5% by 2026, compared with the baseline year of 2022.

To properly dispose of the waste produced, the mixed C&D materials are sent to three strategic landfills by the government authorised logistic service provider trucks.

In offices, the Group promotes the reduction of paper and stationery usage by adopting the following initiatives and assumes the responsibility for the overall waste management:

- Encourage double-sided printing;
- Extend stationery life cycle by reusing envelopes and refilling pens;
- Utilise electronic communication where applicable; and
- Use reusable products instead of one-off office supplies whenever possible.

The non-hazardous waste disposal in 2022 has slightly decreased by approximately 0.66% compared to 2021. The decrease was mainly due to the reduction of operational activities, partly owing to the continuity of COVID-19 pandemic. Approximately 0.27 tonnes of general waste and approximately 0.25 tonnes of paper waste were recycled during 2022.

Summary of the Group's non-hazardous waste disposal performance:

| Non-hazardous waste | Unit | 2022 | 2021 |
|------------------------------------|---|--------------|--------|
| Mixed C&D waste | tonnes | 118.45 | 120.00 |
| General waste ⁵ | tonnes | 0.80 | N/A |
| Paper | tonnes | 0.76 | 0.81 |
| Total non-hazardous waste disposal | tonnes | 120.01 | 120.81 |
| Intensity of total non-hazardous | tonnes/million revenue (HK\$) | 0.87 | 0.86 |
| waste disposal | tonnes/project | 0.31 | 0.23 |
| | tonnes/square foot (kg/square foot)⁵ | 0.03 (31.58) | N/A |

Note(s):

5. The relevant figure has been disclosed from 2022 onwards.

Wastewater Discharge

Wastewater can be generated and discharged at the Group's headquarters, branches and project sites. Since the Group did not have the direct operational control of the fit-outting works at project sites, the information on wastewater discharge data was therefore not available. The wastewater discharged by the offices of the Group was discharged into the public sewerage system, therefore the amount of water consumed by the Group is considered as the amount of sewage discharged. The corresponding water conservation measures are described in the section headed "Water Consumption".

Use of Resources

As the Group focuses on the provision of interior design and fit-out services in Hong Kong, the Group does not consume significant amount of water and energy at the headquarters, branch offices and project sites. Nevertheless, the Group encourages its employees to use their best endeavours to reduce the use of resources, with a view to contributing to the community and the environment. The Group will keep monitoring the potential environmental impacts in its business operations.

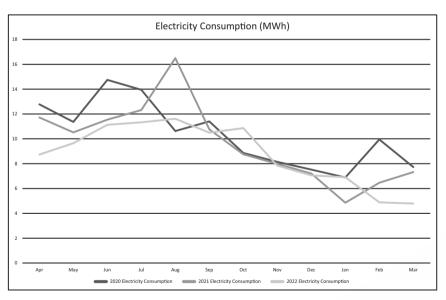

Energy Management

The Group aims to minimise the environmental impacts that resulted from its operations by identifying energy reduction goals and adopting appropriate measures. During the Reporting Period, the Group has set target to reduce the total energy consumption intensity (kWh/square foot) by 5% by 2026, compared with the baseline year of 2022. The Group has adopted the following energy-saving measures to encourage all the employees to pursue the target set:

- Purchase equipment and machinery with high energy efficiency on the replacement of old equipment;
- Encourage the use of products with energy efficiency labels;
- Replace traditional fluorescent tubes with energy efficient LED light strips;
- Switch off all idling appliances and unnecessary lightings upon leaving the office;
- Conduct regular maintenance on air-cooling technologies; and
- Actively adopt vehicle emission reduction measures, which are described in the section headed "Air Emissions".

The major types of energy used in the operations is electricity. In order to monitor the electricity consumption and identify energy saving opportunities, the Group measures and records the electricity consumption level from time to time. The monthly electricity consumption in Milliwatt-hour (MWh) is shown below:

The electricity consumption in 2022 has decreased by approximately 9.32% compared to 2021. The decrease was mainly due to the reduction of operational activities, partly owing to the continuity of COVID-19 pandemic.

Summary of the Group's energy consumption⁶ performance:

| Types of energy | Unit ⁷ | 2022 | 2021 |
|---|---|--------------|--------|
| Direct energy consumption – Petrol consumed by company vehicles | MWh | 77.96 | 86.14 |
| Indirect energy consumption – Purchased electricity ⁶ | MWh | 105.31 | 115.96 |
| Total energy consumption | MWh | 183.27 | 202.10 |
| Intensity of total energy consumption | MWh/million revenue (HK\$) | 1.33 | 1.44 |
| | MWh/project | 0.47 | 0.39 |
| | MWh/square foot (kWh/square foot) ⁸ | 0.05 (48.23) | N/A |

Note(s):

- 6. The electricity consumption data only includes the Group's headquarters and branches. Since the Group was not responsible for the electricity bill of the fitting-out works at project sites, the relevant electricity consumption data was therefore not available.
- 7. The unit conversion method of energy consumption data is formulated based on the "Energy Statistics Manual" issued by International Energy Agency.
- 8. The relevant figure has been disclosed from 2022 onwards.

Water Consumption

Water was used at headquarters, branch offices and project sites. Although the Group does not consume a significant amount of water during its operations, the Group has set target to reduce the total water consumption intensity (cubic metres/square foot) by 5% by 2026, compared with the baseline year of 2022. To facilitate the water saving initiative, the Group encourages all employees to develop the habit of conscious water conservation. The Group has been enhancing its water conservation promotion such as posting water saving reminders, and guiding employees to consume water reasonably. The employees' water conservation awareness has been increased with the aforementioned water saving measures.

Due to the geographical location of the Group's operation and the Group's business nature, the Group did not encounter any problem in sourcing water that is fit for purpose.

The water consumption in 2022 has decreased by approximately 23.37% compared to 2021. The decrease was mainly due to the reduction of operational activities, partly owing to the continuity of COVID-19 pandemic. The Group will continue to monitor the figures closely and prevent any unnecessary water usage.

Summary of the Group's water consumption performance:

| | Unit | 2022 | 2021 |
|---|---|--------|--------|
| Total water consumption ⁹ Intensity of total water consumption | cubic metres cubic metres/million revenue | 305.00 | 398.00 |
| | (HK\$) | 2.21 | 2.83 |
| | cubic metres/project | 0.78 | 0.77 |
| | cubic metres/square foot10 | 0.08 | N/A |

Note(s):

- 9. The water consumption data only includes the Group's headquarters and branches. Since the Group was not responsible for the water bill of the fit-out works at project sites, the relevant water consumption data was therefore not available.
- 10. The relevant figure has been disclosed from 2022 onwards.

Use of Packaging Material

Due to the Group's business nature, the use of packaging material is not considered to be a material ESG issue of the Group.

The Environment and Natural Resources

The Group has set up an environmental system management task force as part of its effort to develop an environmental management system that supports sustainable development, and the Design Information Centre of Smart Will Engineering Limited, one of the Group's subsidiaries, has obtained ISO 14001 certification for its environmental management system.

Through the implementation of ISO 14001 certified environmental management system and the establishment of the Environment and Natural Resources Policy, the Group has given careful consideration to minimise all significant impacts on the environment resources.

Noise Pollution

The Group's fitting-out works may cause noise nuisance to the surrounding neighbourhood. In order to ensure that noise levels at the project sites are in line with the statutory requirement prescribed in relevant regulations, the Group carries out the works under non-restricted hours to minimise the effect of emanated noise or vibration from its works towards the surroundings.

Climate Change

The Group recognises the importance of identification of significant climate-related issues and mitigation of the related risks, therefore, the Group is committed to managing the potential climate-related risks which may impact the Group's business activities. The Group has established the Environment and Natural Resources Policy in identifying and mitigating the climate-related risks. During the Reporting Period, the Group has conducted a climate change assessment to identify and mitigate the potential risks that may arise from its business operations. These risks mainly stem from the following dimensions:

Physical Risks

The increase in frequency and severity of extreme weather such as typhoons, storms and heavy rains can disrupt the Group's operations by damaging the power grid and communication infrastructures, hindering and injuring its employees when they are at work, or in commute. These could result in temporary, permanent or partial halt of the Group's business operations, which exposes the Group to risks associated with non-performance and delayed performance. The extreme weather may also interrupt the supply chain of materials for fit-out works due to the delay of materials transportation or disturbance of the the materials manufacturing.

To better manage the above mentioned physical risks, the Group has evaluated the possible extreme weather events that could influence the Group's business operations and has develop extreme weather contingency plans, including personnel allocation, emergency response arrangements and business restoration sequence and schedule. The Group's Employee Handbook has clearly stated the response plan if there is typhoon or heavy rain for its employees to follow. When extreme weather events occurred or possibly happened, the senior management will react according to the plan and timely communicate with employees about the work arrangement to ensure staff safety and operation continuity. The Group will also from time to time review its response plan which sets out appropriate solutions for employees to follow, so the employees will know how to response if any of the essential work arrangement becomes unavailable due to extreme weather events.

Transition Risks

Policy and Legal Risks

There are more stringent climate legislations and regulations to support global vision for decarbonisation. For example, the Stock Exchange has required the listed companies to enhance the climate-related disclosures in their ESG reports. Stricter environmental laws and regulations may expose enterprises to higher risks of claims and lawsuits. Corporate reputation may also decline due to failure to meet the compliance requirements for climate change. The Group's related capital investment and compliance costs thus increase.

In response to policy and legal risks as well as reputation risks, the Group regularly monitors existing and emerging trends, policies and regulations relevant to climate change and ensures that the senior management is aware of the changes in policies or legislation so as to avoid unnecessary costs or non-compliance fines incurred and to reduce reputation risks resulting from delayed responses.

Market Risks and Opportunities

With the global vision of decarbonisation, as well as the advocation of "Net Zero", there are increasing number of investors and customers who are aware of climate-related issues. If the Group fails to implement effective measures to manage climate-related risks, the attractiveness of the Group to investors and customers may reduce. On the other hand, the Company can attract more investors and customers if it provides more environmentally-friendly fit-out services.

To cope with the potential risk of disinvestment and shift of consumption, the Group intends to maintain a high transparency in ESG reporting and its related activities in order to establish trust and confidence between its relationship with investors and customers. The Group also sets targets in different environmental aspects, including GHG emissions, waste management, water consumption, and energy use to reduce its environmental impact to minimise the carbon footprint of the Group's business operations. The Group also reviews the progress towards these targets and the effectiveness of its environmental policies and measures, to ensure the Group's development is aligned with the global trend of climate change mitigation and adaptation. Meanwhile, the Group will explore more possibility in providing greener fit-out services, in regards to the material use and design of its fit-out works. The Group tends to conduct a more environmentally friendly procurement, engaging suppliers with lower carbon footprint. The details will be mentioned in the section headed "Supply Chain Management" under aspect B5.

SOCIAL

Employment Practices

The Group reckons that employees are the most valuable assets and also the cornerstone for sustaining corporate development. Therefore, the Group adheres to a people-oriented principle, respects and protects the legitimate rights and interests of every employee. Relevant employment policies of the Group have been formally documented in the Employee Handbook, covering compensation and dismissal, recruitment and promotion, working hours, appraisal, training, benefits, etc. The policies and employment process are reviewed on a regular basis to ensure the continuous improvement of the Group's employment standards.

As at 31 March 2022, the Group had a total of 38 (2021: 41) employees, for which all of them were in Hong Kong. The breakdown of employees by gender, age group, employment type and employee category is as follows:

| Number of employee | Unit | 2022 | 2021 |
|-------------------------|--------|------|------|
| By gender | | | |
| Male | people | 23 | 26 |
| Female | people | 15 | 15 |
| By age group | | | |
| Below 30 | people | 33 | 23 |
| 30-50 | people | 4 | 12 |
| Over 50 | people | 1 | 6 |
| By employment type | | | |
| Full-time | people | 37 | 40 |
| Contract/Short-term | people | 1 | 1 |
| By employee category | | | |
| Senior management level | people | 1 | 1 |
| Middle management level | people | 9 | 9 |
| General staff | people | 28 | 31 |
| By geographical region | | | |
| Hong Kong, China | people | 38 | 41 |

During the Reporting Period, the Group was not aware of any material non-compliance with employment-related laws and regulations, including but not limited to the Employment Ordinance, the Mandatory Provident Fund Schemes Ordinance and the Minimum Wage Ordinance of Hong Kong that would have a significant impact on the Group.

Remuneration and Benefits

The Group has established a fair, reasonable and competitive remuneration system to attract and retain quality talents. The Group's basis to determine one's remuneration includes job-related skills, qualifications, experiences, capability, work performances, and prevailing market remuneration rate. Staff performance reviews are conducted regularly to assess performance of each employee so as to decide the salary adjustments. Employees' remuneration packages are composed of basic salary, incentive bonus, mandatory provident fund, and other fringe benefits. Remuneration packages are reviewed periodically.

The Group protects the rights of staff by providing the statutory holidays and paid annual leave according to relevant labour laws and regulations. The Group also arranges the employees' working hours based on statutory working hour standards while employees are also entitled to paid leaves, sick leaves, maternity leaves and paternity leaves in accordance with relevant laws and regulations.

Moreover, the Group strives to establish harmonious labour relationships and create a relaxing working environment. The Group promotes a positive and healthy lifestyle and strives to lift the spirit of workforce through various activities, including organising the birthday parties, sports games, barbeque and other outing events. These recreational activities are dedicated to promoting harmony and unity among employees by enhancing their mutual understanding and trust.

With the above benefits and welfare, the Group's turnover rate in 2022 was 12.66%¹¹ (2021: 24.39%¹²). Employee turnover rate by gender and age group is as follows:

| Employee turnover rate | Unit | 2022 ¹³ | 202114 |
|------------------------|------|---------------------------|--------|
| By gender | | | |
| Male | % | 16.33 | 19.23 |
| Female | % | 6.67 | 33.33 |
| By age group | | | |
| Below 30 | % | 17.86 | 30.43 |
| 30-50 | % | _ | 25.00 |
| Over 50 | % | _ | _ |
| By geographical region | | | |
| Hong Kong, China | % | 12.66 | 24.39 |

Note(s):

- 11. The Group has enhanced its data collection mechanism and calculated the total employee turnover rate, by dividing the number of employees leaving employment during 2022 by the average number of employees at the beginning and the end of 2022.
- 12. The total employee turnover rate during 2021 is calculated by dividing the number of employees leaving employment during 2021 by the number of employees at the end of 2021.
- 13. The turnover rate by category during 2022 is calculated by dividing the number of employees in the specified category leaving employment during 2022 by the average number of employees in the specified category at the beginning and the end of 2022.
- 14. The turnover rate by category during 2021 is calculated by dividing the number of employees in the specified category leaving employment during 2021 by the number of employees in the specified category at the end of 2021.

Recruitment, Promotion, and Dismissal

The Group adheres to the principles of openness and fairness to adopt a robust recruitment process based on merit selection against the job criteria applied. Job applicants are assessed based on their suitability for the positions and potential to fulfil the Group's current and future needs, regardless of their race, gender, religion, physical disability, marital status, sexual orientation, etc.

The Group offers promotion and development opportunities for outperforming employees through an open and fair assessment system to explore employees' capabilities. Performance reviews are conducted regularly and employees are provided with the opportunity to openly discuss with their supervisors regarding their performance and career development. The results of performance reviews are reflected in the employees' salary reviews and promotion considerations.

Besides, the Group does not tolerate the dismissal of employees under any unreasonable basis. All termination of the employment contract would be based on reasonable and lawful grounds supported by internal policies of the Group.

Equal Opportunities, Diversity and Anti-discrimination

The Group is committed to creating and maintaining an inclusive and collaborative workplace culture. Furthermore, the Group is dedicated to providing equal opportunities in all aspects of employment and protecting its employees from discrimination, physical or verbal harassment based on their gender, age, religion, disability, ethnicity, political stance, marital status, etc. As the Group is principally engaged in fitting-out works in Hong Kong, manual work is generally required in most positions. Hence, the ratio of the number of male to female employees is approximately 1.53:1 in 2022 (2021: 1.73:1). However, the Group treats all employees equally.

Health and Safety

The Group recognises safety and health at work as an integral part of its business performance. The Group is committed to establishing a healthy, safe and stable working environment and has established the Occupational Health and Safety ("**OHS**") Manual which is prepared in accordance with OHSAS 18001 in order to manage the health and safety risks of its operations.

The Group strictly requires employees to comply with the Safety Policy and guidelines in the OHS Management System which is included in the Employee Handbook for on-site construction teams and employees working in offices, both of which clearly specify work flows, all kinds of safety measures and guidance as well as employees' responsibilities for their health and safety at the Group's workplace.

Every employees will receive the "site specific induction training" when they commence work in the workplace. Thereafter, they are given refresher talks at intervals of six months depending on the amount of changes to the site condition. The Group also provides tool-box talks, aiming to heighten employee awareness of workplace hazards and Occupational Safety and Health Administration ("OSHA") regulations.

Daily operations are inspected by relevant department assigned by the Group, against the established risk assessment program that consists of a number of sequential steps such as risk identification, analysis, evaluation, treatment, monitoring and reviewing based on the existing controls and recommendations, in order to reduce those risks which are not deemed to be under acceptable limits. Any non-compliance will also be identified and rectified on a timely basis.

In response to the outbreak of COVID-19 pandemic, the Group has implemented the following measures to strengthen the health and safety precautionary measures in both the Group's headquarters, branch offices and project sites to ensure the health of its employees:

- Require employee to wear surgical masks when entering the office, branches and project sites;
- Provide disinfection alcohol and spray to employees;
- Provide leaves for employees who are vaccinated; and
- Provide information related COVID-19.

During the Reporting Period, the Group was not aware of any material non-compliance with health and safety related laws and regulations, including but not limited to the Occupational Safety and Health Ordinance of Hong Kong that would have a significant impact on the Group.

Every case of injury or death is required to be reported to the Group. In the past three years (including the Reporting Period), there was no death or permanent disability case noted. However, the Group had 1 reported accident due to work-related injury with 2 work-related injuries, which results in 14 days of lost days. The accident was assessed individually under the internal guideline procedures. It was properly handled and the employees were reasonably compensated.

Development and Trainings

The Group recognises the importance of skilled and professionally trained employees to its business growth and future success. Therefore, the Group encourages them to participate in job-related training and courses. During the Reporting Period, the Group has formulated quality management and environment management training programs to update the Group's staff with the latest requirement of ISO 9001 and ISO 14001, in order to maintain the highest standard of professionalism by the Group's employees. These two programs include quality assurance training in production process, inspection assurance of materials received from supplier, health and safety precautions in using production equipment and machinery as well as customer relationship management.

For new employees, a formal induction together with a tour of the workplace are provided to them on the first day of employment. The aim is to welcome the new employees and familiarise them with the Group's culture. An introduction of Employee Handbook is also provided to ensure that new employees are aware of relevant policies and the Code of Conduct. Moreover, experienced employees act as mentors to guide new employees. The Group believes such arrangements are the best practice to facilitate communication, create team spirit, improve technical skills and managerial capability of the employees, and encourage the learning and further development of employees at all levels.

The Group will continue to intensify its efforts to promote staff training programs since the Group believes that by means of offering comprehensive training opportunities, it could help providing the necessary protection for talent reserves for corporate development. The Group annually evaluates the training needs of its employees to ensure that employees are offered with suitable and appropriate training according to their job nature and position.

During the Reporting Period, the Group had approximately 79.07%¹⁵ (2021: 87.80%) of the employees trained. The average training hours was approximately 25.30¹⁶ (2021: 28.60) per employee. Breakdown of employees trained, percentage of employees trained, and average training hours by gender and employee category are as follows:

Labour Standards

The Group always respects and strictly complies with all applicable laws and local regulations in the place where it operates. Child and forced labour are strictly prohibited during recruitment. To avoid illegal employment of child labour and underage workers, the Group has also developed rigorous and systematic measures for approval and selection. Personal data are collected during the recruitment process to assist the selection of suitable candidates and to verify candidates' identities. The Human Resources Department also ensures that identity documents are carefully verified. To prevent forced labour, working hours are specified in the Employee Handbook. If violations are involved, they will be dealt with in the light of circumstances.

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations related to the prevention of child labour and forced labour, including but not limited to the Hong Kong Employment Ordinance that would have a significant impact on the Group.

Supply Chain Management

The Group highly values its relationship with its suppliers and subcontractors and regards them as important business partners. The Group has formulated the Procurement of Goods and Services Policy to standardise the procurement process and govern the engagement of suppliers and subcontractors. Suppliers and subcontractors are chosen subjecting to screening and evaluation procedures, based on the criteria including but not limited to overall capabilities, quality and price, assets position, nature of business, reputation in the industry, quality of products, goods delivery, environmental and social performance, and compliance with law and regulations. The Group also carries out regular assessment based on the aforementioned criteria. Every supplier and subcontractor are reviewed at least once every year or after completion of their contracts. In case of major non-performance of an approved supplier or subcontractor, the Group will review its suitability to remain on the approved list. The Group maintains a long-term strategic relationship with its suppliers and subcontractor based on the results from the assessment.

During the Reporting Period, the Group had 108 (2021:101) suppliers, all of them are evaluated and engaged according to the Group's procurement practice as mentioned above.

As customers are becoming more concerned about environmental issues and stressing the importance of using environmentally friendly materials, the Group monitors the suppliers' and subcontractors' business procedures through field visit and investigation (if appropriate) to reduce its social and environmental risks along the supply chain. The investigation reviews the production capacity, technology level, quality assurance capabilities, supply capacity, safety and environment management qualifications if needed. Only suppliers which have fully complied with regulatory requirements are eligible for the supplier selection by the Group. Meanwhile, all suppliers and subcontractors must sign the Supplier Code of Conduct to ensure that the suppliers and subcontractors comply with the relevant laws and relation, and their environmental and social performance achieve the Group's standard. Any non-compliance with the relevant environmental and social rules and regulations discovered on a supplier or subcontractor will be promptly reported to the Group's management. Corrective action plan will be carried out by the management to remediate the identified risks in a timely manner.

To promote environmentally preferable products and services when selecting the suppliers and subcontractors, the Group communicates with suppliers and subcontractors frequently about the availability in providing environmentally preferable products or services, and products or services that meet certain green standard and specification. The Group provides initiative to suppliers and subcontractors by privatising suppliers and subcontractors who can provide environmentally friendly products and services in tendering. The selection of suppliers and subcontractors is determined regarding to the criteria mentioned, assessment and evaluation on the suppliers' performance, and their green practices. The Group will continue to act as a corporate citizen in communicating and stressing those environmental issues to its suppliers and subcontractors.

Product Responsibility

The Group is committed to providing high-quality services and guarantees that the quality of the Group's projects is in line with quality standards and sustainability requirements. The Group has always been focusing on quality control and customer satisfaction in project construction since its incorporation. The Group also pursues to meet higher standard all the time.

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations concerning advertising, labelling and privacy matters relating to products and services provided and methods of redress, including but not limited to the Personal Data (Privacy) Ordinance of Hong Kong that would have a significant impact on the Group. Moreover, the disclosures on the number of products sold or shipped subject to recalls for safety and health reasons were not applicable due to the Group's business nature.

Products and Services Quality

The Group recognises the importance of achieving and maintaining high service and product quality standard to the sustainable growth of the Group.

To maintain high product quality, the Group attaches great importance to quality management. The Group has obtained the certificate of ISO 9001:2015 Quality Management System on interior design and fit-out services. The Group conducts on-site quality checks and inspections at various stages of the fit-out services. Besides, to ensure the quality of the supplied materials and products, the Group requires suppliers and sub-contractors to provide a product quality certification regularly.

The Group treasures the customer's perception to the Group's services, and considers it as an important essence of the Group's performance. The Group employs different methods, to explore the customers' expectation and obtain their feedback.

The Group's designers collect all the information of customers' requirements and expectations at the preliminary meeting for the interior design development and associated works. The project designer closely communicates with the customers at the project design and site work stage and responds effectively to the customers for their subsequent instructions, in order to meet the customer requirements effectively.

The Group also sets up a customer service ("**CS**") section with assigned staff to take care of the potential, existing and excustomers. The CS section is an independent section which is headed by the director of the Group, who has adequate authority to make decision for problem solving. The duties of CS section cover the enquiry of potential customer, complaint of third parties, such as neighbours of the project site and customer survey for existing and completed projects.

In addition, the Group has set up a communication networking platform to build up connection with customers and the public to gather all the enquiry and customer views. Useful information can be broadcasted to any interested parties in relation to the interior design and contracting work updates.

Furthermore, the Group has established the hotline and email enquiry facilities at the website, which are manned by trained CS staff. Apart from taking care of the existing customers, the CS staff also handle the enquiry or call-in from interested parties. In addition, the CS staff carry out survey with customers to collect their opinion to the Group's service, and the extent of their satisfaction regarding to the performance. The collected information is recorded and analysed, to seek for improvement opportunity.

Whenever there is any complaint from customers, the Group takes it as a learning lesson and an opportunity to demonstrate the responsibility and commitment to quality service. Moreover, the Group takes a fair attitude to both the complaining party and internal staff. Investigation is initiated by the senior management for the cause of the complaint. Administrative manager shall then determine the legitimacy of the complaint, and proceed with the appropriate follow up action. The Group aims at rectifying all the shortfalls and turning the customer's disappointment into satisfaction by handling customer's complaint properly. During the Reporting Period, the Group received 2 complaints (2021: 2 complaints) on employees' attitude from the customers. The Group has already investigated the complaints and provided relevant training to employees in order to improve the service quality.

Privacy Protection

The Group recognises that the protection of confidential information is the key to its success, therefore protecting confidential data and customers' privacy always remains the priority of the Group. All employees must follow the obligations as stated in the Company Information Disclosure Policy as well as the Information Security, Trade Secrets and the Confidential Information Policy, and do not disclose any information, documents or materials comprising any data and information relating to corporate business activities which may come within their knowledge or possession during the term, in the course of their employment and after the end of their employment without the consent of the Group. All confidential data relating to the Group's business and customers' information are securely protected and only used for internal purposes.

Intellectual Property Protection

The Group protects intellectual property rights and regards it as an area of substantial importance. The Group would take active steps to protect its trademarks and other intellectual property rights by completing necessary filing and registration. For any new trademark to be licensed, the Group shall take all appropriate actions to register and protect trademarks in the jurisdictions in which its operations are carried out.

Anti-corruption

The Group is committed to maintaining the integrity of its corporate culture. The Group's Anti-Corruption Policy, Employee Conflict of Interest Management Policy and the Code of Conduct stipulated in the Employee Handbook have outlined the standard of behaviours on anti-corruption, handling of conflict of interest and data privacy and confidentiality that employees shall abide by in its business dealings. The relevant policies and Code of Conduct provides a clear definition of the provision and acceptance of interests, such as gifts and souvenirs, and ways to deal with conflicts of interest. Directors and employees are required to make a declaration to the management through the reporting channels when actual or potential conflict of interest arises. Employees cannot receive any gifts from any external parties (i.e. customers, suppliers, contractors, etc.) unless approval is obtained from the management.

The Group has established Whistleblowing Policy to encourage employees to raise concerns about possible improprieties in matters of financial reporting, compliance, and other malpractices at the earliest opportunity. If any employee reasonably believes and in good faith that malpractice exists in the workplace, he/she should report immediately to the Company's senior management. All reports are treated confidentially and every effort is made not to reveal the employee's identity. The Group is entitled to terminate the employment contract with any employee who is bribed with money, gifts or commission, etc., and reserves the right to take further legal actions against such person.

To ensure that all employees can perform their duties with high ethical standards and professionalism, the Group has arranged internal and external anti-corruption and corporate governance training and encouraged employees to actively learn about the latest development and future trends of global anti-money laundering, and the impact of corruption. During the Reporting Period, the Group's directors and staff had received a total of approximately 8 hours and 272 hours of anti-corruption training respectively.

During the Reporting Period, the Group was not aware of any material non-compliance with laws and regulations related to anticorruption and money laundering, including but not limited the Prevention of Bribery Ordinance and the Anti-Money Laundering and Counter Terrorist Financing Ordinance of Hong Kong that would have a significant impact on the Group. Moreover, there was no concluded legal case regarding corrupt practices brought against the Group or its employees.

Community Investment

The Group devotes to the community in order to show the love and care to people in need and encourages the employees to participate in in-house or external community activities. The Group has formulated the Community Investment Policy, and are committed to being an active member of the community by supporting and participating in various charitable community activities, including serving the disadvantaged and protecting the environment.

The Group has established a voluntary team to offer free maintenance/repairing service for the household and peoples in need, particularly the elderly, children and handicapped. The team consists of 20 people, with participation of interior designers, skillful workers of different fields, such as carpentry, wood works, painting, plastering, etc.

In addition, the Group always encourages the employees to participate in blood donation and organ donation, and regularly organises company-wise campaigns for such activities including, joining the Organ Donation Promotion Charter with Department of Health and becoming the partner and signatory of the charter.

Moreover, the Group gathers all the used furniture from customers prior to commencement of fitting-out works where most of them are still maintained at a good condition. A designated team notes the basic information of these furniture and post them to the Facebook page of the Group. Whenever there is someone in need, the Group will distribute them for free.

However, the Group has devoted significant resources to maintain its business operations and most of the voluntary activities were limited due to the pandemic, therefore, suspended most of its philanthropic activities. The Group will focus more on social participation and community investment as mentioned when the pandemic eases and continue to explore other means to contribute more to the environment and strive to create a healthy and sustainable society.

The Directors present their report and the audited consolidated financial statements of the Group for the year ended 31 March 2022.

PRINCIPAL ACTIVITIES

The Company is an investment holding company, and its subsidiaries are principally engaged in the provision of interior design and fit-out services in Hong Kong. The Group offers a full suite of services including interior design provided by the Group's inhouse design team, whom provides the Group's customers with creative and innovative designs that synergise with the latest market and design trends, to high quality fittings and furnishings and the implementation of the Group's designs performed by the subcontractors that the Group relies on to complete the projects. Details of the principal activities of the principal subsidiaries of the Company are set out in Note 34 to the consolidated financial statements.

FINANCIAL SUMMARY

A summary of the results and assets and liabilities of the Group for the past five financial years is set out on page 63 of the annual report.

DIVIDEND POLICY

The Board adopted a dividend policy (the "**Dividend Policy**") on 28 December 2018. According to the Dividend Policy, in deciding whether to propose any dividend payout, the Board shall also take into account, inter alia: –

- the Group's actual and expected financial performance;
- shareholders' interests;
- retained earnings and distributable reserves of the Company and each of the other members of the Group;
- the level of the Group's debts to equity ratio, return on equity and financial covenants to which the Group is subject;
- possible effects on the Group's creditworthiness;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the Group's expected working capital requirements and future expansion plans;
- liquidity position and future commitments at the time of declaration of dividend;
- taxation considerations;
- statutory and regulatory restrictions;
- general business conditions and strategies;
- general economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
- other factors that the Board deems appropriate.

Pursuant to the Dividend Policy, the declaration and payment of dividends shall remain to be determined at the discretion of the Board and subject to all applicable requirements (including without limitation restrictions on dividend declaration and payment) under the Companies Ordinance (Chapter 622 of the Laws of Hong Kong) and the memorandum and articles of association of the Company. Except for interim dividend, any dividends declared by the Company must be approved by an ordinary resolution of shareholders at the general meeting and must not exceed the amount recommended by the Board. The Board may from time to time pay to the shareholders such interim dividends as appear to the Directors to be justified by the profits of the Company available for distribution.

The Company will continually review the Dividend Policy and reserves the right in its sole and absolute discretion to update, amend and/or modify the Dividend Policy at any time, and this Dividend Policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and/or in no way obligate the Company to declare a dividend at any time or from time to time.

RESULTS AND DIVIDENDS

Results of the Group for the year ended 31 March 2022 are set out in the consolidated financial statements from pages 68 to 72 of this report. The Directors do not recommend the payment of final dividend for the year ended 31 March 2022.

CLOSURE OF THE REGISTER OF MEMBERS

The forthcoming annual general meeting is scheduled to be held on Wednesday, 24 August 2022 (the "**AGM**"). For determining the entitlement to attend and vote at the AGM, the register of members of the Company will be closed from Friday, 19 August 2022 to Wednesday, 24 August 2022, both days inclusive, during which no transfer of shares of the Company will be registered. In order to attend and vote at the AGM, all share transfer documents accompanied by the relevant share certificates must be lodged with the share registrar of the Company in Hong Kong, Tricor Investor Services Limited at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong, for registration not later than 4:30 p.m. on Thursday, 18 August 2022.

BUSINESS REVIEW

A review of the business of the Group during the year ended 31 March 2022 and a discussion of the Group's future business development and a description of principal risks and uncertainties facing the Company are set out in the sections headed "Chairman's Statement" and "Management Discussion and Analysis" of this annual report. An analysis of the Group's performance during the year ended 31 March 2022 using financial key performance indicators is set out in the Group's five-year Financial Summary on page 63 of this annual report.

PROPERTY, PLANT AND EQUIPMENT

Details of movements in the property, plant and equipment of the Group during the year ended 31 March 2022 are set out in Note 14A to the consolidated financial statements.

DONATION

Charitable donations made by the Group during the year ended 31 March 2022 amounted to approximately HK\$853,000 (2021: approximately HK\$73,000).

SHARE CAPITAL

Details of the movements in the share capital of the Company during the year ended 31 March 2022 are set out in Note 26 to the consolidated financial statements.

SHARE OPTION SCHEME

The Share Option Scheme was conditionally adopted pursuant to the written resolution of the then sole shareholder of the Company passed on 24 March 2017.

The purpose of the Share Option Scheme is to enable the Company to grant options to selected participants as incentives or rewards for their contribution to it. The Directors consider the Share Option Scheme, with its broadened basis of participation, will enable the Group to reward the employees, the Directors and other selected participants for their contributions to the Group. This will be in accordance with Chapter 23 of the GEM Listing Rules and other relevant rules and regulations.

The subscription price of a share in respect of any particular option granted under the Share Option Scheme shall be a price solely determined by the Board and notified to a participant and shall be at least the higher of: (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option, which must be a business day; (ii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (iii) the nominal value of a share on the date of grant of the option.

The maximum number of shares issuable upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company as from the adoption date (excluding, for this purpose, the shares issuable upon exercise of options which have been granted but which have lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Company) must not in aggregate exceed 10% of all the shares in issue as at the Listing Date. Therefore, it is expected that the Company may grant options in respect of up to 80,000,000 shares (or such numbers of shares as shall result from a sub-division or a consolidation of such 80,000,000 shares from time to time) to the participants under the Share Option Scheme.

The 10% limit as mentioned above may be refreshed at any time by obtaining approval of the shareholders in general meeting provided that the total number of shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Company must not exceed 10% of the shares in issue as at the date of approval of the refreshed limit. Options previously granted under the Share Option Scheme and any other share option schemes of the Company (including those outstanding, cancelled or lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Company) will not be counted for the purpose of calculating the refreshed 10% limit. A circular must be sent to the shareholders containing the information as required under the GEM Listing Rules in this regard.

The Company may seek separate approval of the shareholders in general meeting for granting options beyond the 10% limit provided the options in excess of the 10% limit are granted only to grantees specifically identified by the Company before such approval is sought. In such event, the Company must send a circular to the shareholders containing a generic description of such grantees, the number and terms of such options to be granted and the purpose of granting options to them with an explanation as to how the terms of the options will serve such purpose, such other information required under the GEM Listing Rules.

The aggregate number of the shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company must not exceed 30% of the shares in issue from time to time. No options may be granted under the Share Option Scheme or any other share option schemes of the Company if this will result in such 30% limit being exceeded.

The total number of shares issued and to be issued upon exercise of options granted to any participant (including both exercised and outstanding options) under the Share Option Scheme or any other share option scheme of the Company, in any 12-month period up to the date of grant shall not exceed 1% of the shares in issue. Any further grant of options in excess of such limit must be separately approved by shareholders in general meeting with such grantee and his associates abstaining from voting. In such event, the Company must send a circular to the shareholders containing the identity of the grantee, the number and terms of the options to be granted (and options previously granted to such grantee), and all other information required under the GEM Listing Rules. The number and terms (including the subscription price) of the options to be granted must be fixed before the approval of the shareholders and the date of the Board meeting proposing such further grant should be taken as the date of grant for the purpose of calculating the subscription price.

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

The Share Option Scheme is valid and effective for a period of ten years from 24 March 2017, after which no further options will be granted or offered.

Save as disclosed in Note 29 to the consolidated financial statements, for the year ended 31 March 2022, no share option was granted, exercised, expired or lapsed and there is no outstanding share option under the Share Option Scheme.

PRE-EMPTIVE RIGHTS

There is no provision of pre-emptive rights under the Company's memorandum and articles of association or the laws of the Cayman Islands which obliges the Company to offer new shares on a pro rata basis to existing shareholders.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities during the year ended 31 March 2022.

EQUITY-LINKED AGREEMENTS

Save as disclosed in this annual report, there was no equity-linked agreement entered into by the Company during the year ended 31 March 2022.

PUBLIC FLOAT

Based on the information publicly available to the Company and to the best knowledge of the Directors, throughout the year ended 31 March 2022 and as at the latest practicable date prior to the issue of this report, the Company maintained sufficient public float of 25% in the issued share capital of the Company pursuant to the GEM Listing Rules.

RESERVES

Details of movements in the reserves of the Company and the Group during the year ended 31 March 2022 are set out in Note 33(a) to the consolidated financial statements and in the consolidated statement of changes in equity on page 71.

DISTRIBUTABLE RESERVES OF THE COMPANY

The Company's reserve available for distribution to shareholders comprised contribution surplus and retained profit, if any. The Company had no reserves available for distribution as at 31 March 2022.

MAJOR CUSTOMERS AND SUPPLIERS

During the year ended 31 March 2022, revenue generated from the Group's five largest customers accounted for approximately 14% of the total revenue for the year and revenue generated from the largest customer included therein amounted to approximately 6%. Subcontracting charges and materials costs incurred from the Group's five largest subcontractors and suppliers accounted for approximately 59% of the total sub-contracting charges and material costs for the year and the subcontracting charges and materials costs incurred from the largest subcontractor included therein amounted to approximately 24%.

None of the Directors of the Company, or any of their close associates or shareholders (which, to the best knowledge of the Directors, own more than 5% of the Company's issued share capital), had any beneficial interest in the Group's five largest customers, subcontractors or suppliers.

DIRECTORS

The Directors of the Company during the year and up to the date of this report were:

Executive Directors

Dr. Chan Lai Sin *(Chairman)* Ms. Wan Pui Chi

Independent Non-Executive Directors

Ms. Lui Lai Chun Dr. Chung Siu Kuen Dr. Chu Kwan Siu Candace

In accordance with the Company's memorandum and articles of association, at each annual general meeting one-third of the Directors for the time being shall retire from office by rotation provided that every Director shall be subject to retirement by rotation at least once every three years. Such retiring Directors may, being eligible, offer themselves for re-election at the annual general meeting. All Directors appointed by the Board to fill a casual vacancy shall hold office until the first general meeting of Shareholders after their appointment and be subject to re-election at such meeting and all Directors appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting and shall then be eligible for re-election.

Accordingly, Ms. Wan, an executive Director, and Ms. Lui, Dr. Chung and Dr. Chu, the independent non-executive Directors, shall retire at the forthcoming annual general meeting and, all being eligible, will offer themselves for re-election at the said meeting.

DIRECTORS' AND SENIOR MANAGEMENT'S BIOGRAPHIES

Biographical details of the Directors of the Company and the senior management of the Group are set out on pages 41 to 43 of this annual report.

DIRECTORS' SERVICE CONTRACTS

None of the Directors proposed for re-election at the forthcoming annual general meeting has an unexpired service contract with the Company and/or any of its subsidiaries, which is not determinable by the employing company within one year without payment of compensation, other than statutory compensation.

CONTROLLING SHAREHOLDERS' INTERESTS IN CONTRACTS

Neither the Company nor any of its subsidiaries had entered into any contract of significance with the Company's controlling shareholders or their subsidiaries, or any contract of significance for the provision of services to the Company or any of its subsidiaries by the Company's controlling shareholders or their subsidiaries, during the year ended 31 March 2022.

| Mr. Sun Xincai | Beneficial owner | 44,000,000 | 5.50% |

Note: Ms. Wong Ting Nuen ("Ms. Wong") is the spouse of Dr. Chan. Ms. Wong is deemed, or taken to be, interested in the same number of shares in which Dr. Chan is interested for the purpose of the SFO.

Save as disclosed above, as at 31 March 2022, there was no person or corporation, other than the Directors and chief executives of the Company whose interests are set out in the paragraph headed "Directors' and chief executives' interests and short positions in shares, underlying shares and debentures" above, had any interest or a short position in the shares or underlying shares of the Company which would be required to be disclosed to the Company and the Stock Exchange under the provisions of Division 2 and 3 of Part XV of the SFO, or which were recorded in the register required to be kept by the Company under Section 336 of the SFO, or who were directly or indirectly, to be interested in 5% or more of the nominal value of any class of share capital carrying rights to rate in all circumstances at general meeting of the Company or any other member of the Group.

PERMITTED INDEMNITY PROVISION

Every Director shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities incurred or sustained by him as a Director of the Company in defending any proceedings, whether civil or criminal, in which judgment is given in his favour, or in which he is acquitted.

COMPETITION AND CONFLICT OF INTERESTS

None of the Directors or substantial shareholders of the Company or any of their respective associates (as defined in the GEM Listing Rules), engaged in any businesses that compete or may compete with the business of the Group or has any other conflicts of interests with the Group for the year ended 31 March 2022.

Non-Competition Undertaking

In order to avoid any possible future competition between the Group and the controlling shareholders, namely Dr. Chan and Chun Wah (each a "Covenantor" and collectively the "Covenantors") have entered into the deed of non-competition (the "Deed of Non-competition") with the Company (for itself and for the benefit of each other member of the Group) on 24 March 2017. Pursuant to the Deed of Non-competition, each of the Covenantors has irrevocably and unconditionally undertaken to the Company (for itself and as trustee for its subsidiaries) that, during the period that the Deed of Non-competition remains effective, he/it shall not, and shall procure that his/its associates (other than any member of the Group) not to develop, acquire, invest in, participate in, carry on or be engaged, concerned or interested or otherwise be involved, whether directly or indirectly, in any business in competition with or likely to be in competition with the existing business activity of any member of the Group.

Each of the Covenantors further undertakes that if any of he/it or his/its close associates other than any member of the Group is offered or becomes aware of any business opportunity which may compete with the business of the Group, he/it shall (and he/it shall procure his/her/its associates to) notify the Group in writing and the Group shall have a right of first refusal to take up such business opportunity. The Group shall, within 6 months after receipt of the written notice (or such longer period if the Group is required to complete any approval procedures as set out under the GEM Listing Rules from time to time), notify the Covenantor(s) whether the Group will exercise the right of first refusal or not.

The Group shall only exercise the right of first refusal upon the approval of all the independent non-executive Directors (who do not have any interest in such opportunity). The relevant Covenantor(s) and the other conflicting Directors (if any) shall abstain from participating in and voting at and shall not be counted as quorum at all meetings of the Board where there is a conflict of interest or potential conflict of interest including but not limited to the relevant meeting of the independent non-executive Directors for considering whether or not to exercise the right of first refusal.

During the year ended 31 March 2022, the Company had not received any information in writing from any of the controlling shareholders namely, Dr. Chan and Chun Wah (the "Controlling Shareholders") in respect of any new business opportunity which competed or might compete with the existing and future business of the Group which were offered to or came to be the knowledge of the Controlling Shareholders or their associates (other than any member of the Group), and the Company has received an annual written confirmation from each Controlling Shareholder of the Company in respect of him/it and his/its associates in compliance with the Deed of Non-competition. The independent non-executive Directors have also reviewed and were satisfied that each of the Controlling Shareholders of the Company had complied with the Deed of Non-competition.

EMOLUMENTS OF DIRECTORS AND FIVE HIGHEST PAID INDIVIDUALS

CODE ON CORPORATE GOVERNANCE PRACTICES

The Board considers good corporate governance as a key element in managing the business and affairs of the Group. The management of the Group periodically reviews and proposes amendments to its corporate governance practices for compliance with the Corporate Governance Code (the "**CG Code**") as set out in Appendix 15 of the GEM Listing Rules. In the opinion of the Board, the Company has complied with the CG Code. Details of the Group's corporate governance practices adopted by the Board are set out in the Corporate Governance Report on pages 53 to 62 of this annual report.

INTERESTS OF THE COMPLIANCE ADVISER

As confirmed by the Group's compliance adviser, Frontpage Capital Limited (the "Compliance Adviser"), save as the compliance adviser agreement entered into between the Company and the Compliance Adviser, none of the Compliance Adviser or its directors, employees or associates (as defined under the GEM Listing Rules) had any interest in the Group or in the share capital of any member of the Group which is required to be notified to the Company pursuant to Rule 6A.32 of the GEM Listing Rules.

INDEPENDENCE OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the independent non-executive Directors an annual written confirmation of his/her independence pursuant to Rule 5.09 of the GEM Listing Rules and the Company considers all the independent non-executive Directors to be independent.

INDEPENDENT AUDITORS

Asian Alliance (HK) CPA Limited was appointed as the auditors of the Company on 7 April 2022 to fill the casual vacancy following the resignation of HLB Hodgson Impey Cheng Limited on 7 April 2022. Details of the change of auditors were set out in the announcement of the Company dated 7 April 2022.

The consolidated financial statements of the Company for the year ended 31 March 2022 were audited by Asian Alliance (HK) CPA Limited. A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint Asian Alliance (HK) CPA Limited as the auditors of the Company. Save as disclosed above, the Company has not changed its external auditors in any of the preceding three years.

On behalf of the Board **Chan Lai Sin**Chairman and Executive Director

Hong Kong 22 June 2022

CORPORATE GOVERNANCE PRACTICES

We are committed to achieving and maintaining high standards of corporate governance, as the Board believes that good and effective corporate governance practices are key to obtaining and maintaining the trust of the shareholders of the Company and other stakeholders, and are essential for encouraging accountability and transparency so as to sustain the success of the Group and to promote the interests of its shareholders of the Company.

Accordingly, the Company has adopted sound corporate governance principles that emphasise a quality Board, effective internal control, stringent disclosure practices, transparency and accountability to all stakeholders.

The Company has applied the principles and code provisions ("**Code Provisions**") in the CG Code set out in Appendix 15 to the GEM Listing Rules. In the opinion of the Board, the Company has fully complied with the CG Code throughout the year.

DIRECTORS' SECURITIES TRANSACTIONS

The Company adopted the required standard of dealings set out in rules 5.48 to 5.68 of the GEM Listing Rules as the code of conduct regarding Directors' securities transactions in securities of the Company (the "Code of Conduct"). Based on specific enquiry with the Directors, all Directors confirmed that they had fully complied with the required standard of dealings and there was no event of non-compliance throughout the year.

DIRECTORS' RESPONSIBILITIES

The Board takes the responsibility to oversee all major matters of the Company, including but not limited to formulating and approving the overall strategies and business performance of the Company, monitoring the financial performance and internal control as well as overseeing the risk management system of the Company and monitoring the performance of senior executives. The Board is also responsible for performing the corporate governance duties including the development and reviewing the Company's policies and practices on corporate governance.

Liability insurance for Directors and senior management officers of the Company was maintained by the Company with coverage for any legal liabilities which may arise in the course of performing their duties.

DELEGATION BY THE BOARD

Daily operation and managing of the business of the Group, inter alia, the implementation of strategies are delegated to the executive Directors along with other senior executives. They report periodically to the Board their work and business decisions.

Board Composition

The composition of the Board as at the date of this report is set out as follows:

Executive Directors

Dr. Chan Lai Sin *(Chairman)* Ms. Wan Pui Chi

Accordingly, Ms. Wan, an executive Director, and Ms. Lui, Dr. Chung and Dr. Chu, the independent non-executive Directors, shall retire at the forthcoming annual general meeting to be held on Wednesday, 24 August 2022.

At the forthcoming annual general meeting of the Company, ordinary resolution will be put forward to the shareholders of the Company in relation to the proposed re-election of Ms. Wan as an executive Director and Ms. Lui, Dr. Chung and Dr. Chu as the independent non-executive Directors.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The roles of chairman and chief executive officer are separate and not performed by the same individual to avoid power being concentrated in any one individual. Dr. Chan was the chairman of the Board throughout the year. Mr. Siu is the chief executive officer of the Company.

TERM OF OFFICE OF NON-EXECUTIVE DIRECTORS

Each of the non-executive Directors has entered into a service contract with the Company for a term of three years, which may be terminated by not less than three months' notice served by either party on the other, and is subject to termination provisions therein and provisions on retirement by rotation of Directors as set out in the memorandum and the articles of association of the Company.

DIRECTORS' TRAINING AND PROFESSIONAL DEVELOPMENT

The Group acknowledges the importance of adequate and ample continuing professional development for the Directors for a sound and effective internal control system and corporate governance. In this regard, the Group has always encouraged the Directors to attend relevant training courses to receive the latest news and knowledge regarding corporate governance.

During the year ended 31 March 2022, the Company has provided and all Directors have attended at least one training course on the updates of the GEM Listing Rules concerning good corporate governance practices. The Company will, if necessary, provide timely and regular trainings to the Directors to ensure that they keep abreast with the current requirements under the GEM Listing Rules.

BOARD COMMITTEES

The Board has established three Board committees, namely, the Remuneration Committee, the Nomination Committee and the Audit Committee, for overseeing particular aspects of the Company's affairs. All Board committees have been established with defined written terms of reference, which are posted on the Stock Exchange's website at www.hkexnews.hk and the Company's website at www.dic.hk. All the Board committees should report to the Board on their decisions or recommendations made.

The practices, procedures and arrangements in conducting meetings of Board committees follow in line with, so far as practicable, those of the Board meetings set out above.

All Board committees are provided with sufficient resources to perform their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstance, at the Company's expense.

The Board is responsible for performing the corporate governance duties set out in the CG Code which included developing and reviewing the Company's policies and practices on corporate governance, training and continuous professional development of Directors, and reviewing the Company's compliance with the code provision in the CG Code and disclosures in this report.

REMUNERATION COMMITTEE

The Remuneration Committee was established on 24 March 2017. The chairman of the Remuneration Committee is Ms. Lui, an independent non-executive Director, and other members includes Dr. Chan, the chairman and an executive Director, Dr. Chung, and Dr. Chu, the independent non-executive Directors. The written terms of reference of the Remuneration Committee are posted on the Stock Exchange's website and the Company's website.

The Remuneration Committee has been charged with the responsibility of making recommendations to the Board on the appropriated policy and structures for all aspects of Directors' and senior management's remuneration. The Remuneration Committee considers factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, employment conditions elsewhere in the Group and desirability of performance-based remuneration. The Remuneration Committee held two meetings to review the remuneration packages and emoluments of Directors and senior management and considered that they are fair and reasonable during the year ended 31 March 2022; and to review the remuneration packages and emoluments of the newly appointed Directors during the year ended 31 March 2022. No Director or any of his or her associates is involved in deciding his or her own remuneration.

NOMINATION COMMITTEE

The Nomination Committee was established on 24 March 2017. The chairman of the Nomination Committee is Dr. Chu, an independent non-executive Director, and other members included Dr. Chan, the chairman and an executive Director, Dr. Chung and Ms. Lui, the independent non-executive Directors. The written terms of reference of the Nomination Committee are posted on the Stock Exchange's website and on the Company's website.

The primary duties of the Nomination Committee are to review and assess the composition of the Board and the independence of the independent non-executive Directors and makes recommendations to the Board on appointment of new Directors of the Company. In recommending candidates for appointment to the Board, the Nomination Committee considers candidates on merit against objective criteria and with due regards to the benefits of diversity on the Board.

In designing the Board's composition, Board diversity has been considered from a number of perspectives, including but not limited to gender, age, cultural and educational background, industry experience, technical and professional skills and/or qualifications, knowledge, length of services and time to be devoted as a Director. The Company will also take into account factors relating to its own business model and specific needs from time to time. The ultimate decision is based on merit and contribution that the selected candidates will bring to the Board.

During the year ended 31 March 2022, the Nomination Committee held one meeting to review and recommend the re-election of the Directors; and to review and recommend the appointment of Dr. Chung and Dr. Chu as the independent non-executive Directors.

NOMINATION POLICY

The Board adopted a nomination policy (the "**Nomination Policy**") on 28 December 2018. A summary of the Nomination Policy, together with the measurable objectives set for implementing the Nomination Policy, and the progress made towards achieving those objectives are disclosed as below.

Summary of the Nomination Policy

The Nomination Policy aims to set out the approach to guide the Nomination Committee in relation to the selection, appointment and re-appointment of the Directors of the Company. This also ensure that the Board has a balance of skills, experience, knowledge and diversity of perspectives appropriate to the requirements of the Company's business.

- (f) The Board will have the final authority on determining the selection of nominees and all appointment of Directors will be confirmed by the filing of the consent to act as Director of the relevant Director (or any other similar filings requiring the relevant Director to acknowledge or accept the appointment as Director, as the case may be) to be filed with the Companies Registry of Hong Kong.

Monitoring and Reporting

The Nomination Committee will assess and report annually, in the corporate governance report, on the composition of the Board, and launch a formal process to monitor the implementation of the Nomination Policy as appropriate.

Review of Nomination Policy

The Nomination Committee will launch a formal process to review this Nomination Policy periodically to ensure that it is transparent and fair, remains relevant to the Company's needs and reflects the current regulatory requirements and good corporate governance practice. The Nomination Committee will discuss any revisions that may be required and recommend any such revisions to the Board for consideration and approval.

Disclosure of Nomination Policy

A summary of the Nomination Policy including the nomination procedures and the process and Criteria adopted by the Nomination Committee to select and recommend candidates for directorship during the year will be disclosed in the annual corporate governance report. In the circular to shareholders for proposing a candidate as an independent non-executive Director, it should also set out:

- the process used for identifying the candidate and why the Board believes the candidate should be elected and the reason why it considers the candidate to be independent;
- if the proposed independent non-executive Director will be holding their seventh (or more) listed company directorship, the reason the board believes the candidate would still be able to devote sufficient time to the Board;
- the perspectives, skills and experience that the candidate can bring to the Board; and
- how the candidate can contribute to the diversity of the Board.

Extraordinary general meeting may be convened by the Board on requisition of shareholders holding not less than one-tenth of the paid up capital of the Company or by such shareholders who made the requisition (the "Requisitionists") (as the case may be) pursuant to article 64 of the memorandum and articles of association of the Company. Such requisition must state the object of business to be transacted at the meeting and must be signed by the Requisitionists and deposited at the registered office of the Company or the Company's principal place of business in Hong Kong. Shareholders should follow the requirements and procedures as set out in such article for convening an extraordinary general meeting. Shareholders may put forward proposals with general meeting of the Company by sending the same to the Company at the principal office of the Company in Hong Kong.

For putting forward any enquiries to the Board, shareholders may send written enquiries to the Company. Shareholders may send their enquiries or requests in respect of their rights to the Company's principal place of business in Hong Kong.

INTERNAL CONTROLS AND RISK ASSESSMENT

The Directors acknowledge that they have overall responsibility for overseeing the Company's internal control, financial control and risk management system and shall monitor its effectiveness on an ongoing basis. A review of the effectiveness of the risk management and internal control systems has been conducted by the Board at least annually.

Aiming to provide reasonable assurance against material errors, losses or fraud, the Company has established a set of risk management procedures which comprised the following steps:

- Identify risks: Identify major and significant risks that could affect the achievement of goals of the Group;
- Risk assessment: Assess and evaluate the identified risk according to its likely impact and the likelihood of occurrence;
 and
- Risk mitigation: Develop effective control activities to mitigate the risks.

Risk identification and assessment is performed or updated annually, and the results of risk assessment, evaluation and mitigation of each functions or operation are documented in the Risk Registry to communicate to the Board and management for reviews.

The Group's risk management and internal control systems are, however, designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

A review on the internal control systems of the Company, including financial, operational and compliance controls and risk management functions has been carried out by an independent consultancy company with staff in possession of relevant expertise to conduct an independent review.

The Audit Committee reviewed the internal control review report issued by the independent consultancy company and the Company's risk management and internal control systems in respect of the year ended 31 March 2022 and considered that they are effective and adequate. The Board assessed the effectiveness of internal control systems by considering the internal control review report and reviews performed by the Audit Committee and concurred the same.

The Group has yet to establish its internal audit function during the year ended 31 March 2022 as required under Code Provision D.2.5. The Audit Committee and Board, has considered the internal control review report prepared by an independent consultancy company and communications with the Company's external auditors in respect of any material control deficiencies identified during the course of the consolidated financial statement audit to form the basis to review the adequacy and effectiveness of the Group's risk management and internal control systems. The Audit Committee and the Board will continue to review the need for an internal audit function on an annual basis.

There is currently no internal audit function within the Group. The Directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs. Nevertheless, the Directors will continue to review at least annually the need for an internal audit function.

DISCLOSURE OF INSIDE INFORMATION

The Group has in place a policy on disclosure of inside information which sets out the procedures and internal controls for handling and dissemination of inside information.

The policy provides guidelines to the Directors, officers and all relevant employees of the Group to ensure proper safeguards exist to prevent the Company from breaching the statutory disclosure requirements. It also includes appropriate internal control and reporting systems to identify and assess potential inside information.

Key procedures in place include:

- Define the requirements of periodic financial and operational reporting to the Board and the Company Secretary to enable them to assess inside information and make timely disclosures, if necessary;
- Controls the access to inside information by employees on a need-to-know basis, and safeguarding the confidentiality of the inside information before it is properly disclosed to public; and
- Procedures of communicating with the Group's stakeholders, including shareholders, investors, analysts, etc. in ways
 which are in compliance with the GEM Listing Rules.

The Group has also established and implemented procedures to handle enquiries from external parties related to the market rumours and other Group's affairs.

To avoid uneven dissemination of inside information, the dissemination of inside information of the Company shall be conducted by publishing the relevant information on the Hong Kong Exchanges and Clearing Limited's website and the Company's website.

COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS

The Company has adopted shareholders communication policy with objective of ensuring that the shareholders and potential investors are provided with ready, equal and timely access to balanced and understandable information about the Company.

The Company has established several channels to communicate with the shareholders as follows:

- (i) corporate communications such as annual reports, quarterly reports, interim reports and circulars are issued printed form and are available on the Stock Exchange's website at www.hkexnews.hk and the Company's website at www.dic.hk;
- (ii) periodic announcements are made through the Stock Exchange and published on the respective websites of the Stock Exchange and the Company;
- (iii) corporate information is made available on the Company's website;
- (iv) annual and extraordinary general meetings provide a forum for the shareholders to make comments and exchange views with the Directors and senior management; and
- (v) the Hong Kong share registrar of the Company serves the shareholders in respect of share registration, dividend payment and related matters.

The Company keeps on promoting investor relations and enhancing communication with the existing shareholders and potential investors. It welcomes suggestions from investors, stakeholders and the public. Enquires to the Board or the Company may be sent by post to the Company's principal place of business in Hong Kong.

During the year, there was no change in the Company's memorandum and articles of association.

TO THE SHAREHOLDERS OF LAI GROUP HOLDING COMPANY LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Lai Group Holding Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 68 to 126, which comprise the consolidated statement of financial position as at 31 March 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("**HKFRSs**") issued by the Hong Kong Institute of Certified Public Accountants (the "**HKICPA**") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Recognition of revenue and costs from construction contracts and contract assets

Refer to details in Notes 5 and 17 and the accounting policies in Note 3 to the consolidated financial statements.

We identified recognition of revenue and costs from construction contracts and contract assets as a key audit matter as significant management's estimations and judgements are involved in the determination of the outcome of construction contracts and the progress towards completion of construction works.

Our audit procedures in relation to recognition of revenue and costs from construction contracts and contract assets mainly included:

- Reviewing the contract sum and budgeted costs to respective signed contracts and budgets prepared by management.
- Obtaining an understanding from management about how the budgets were prepared and respective progress towards completion of construction works were determined.
- Evaluating the reasonableness of progress towards completion of construction works by obtaining and reviewing invoices issued by suppliers and subcontractors.
- Testing the actual costs incurred on construction works.
- Assessing the reliability of the budgets by comparing the actual outcome against management's estimation of completed contracts on a sample basis.
- Assessing the appropriateness and accuracy of the disclosures made in the consolidated financial statements.

OTHER MATTER

The consolidated financial statements of the Group for the year ended 31 March 2021 were audited by another auditor who expressed an unmodified opinion on those statements on 23 June 2021.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

Amendments to HKFRSs that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") for the first time, which are mandatorily effective for the annual periods beginning on or after 1 April 2021 for the preparation of the consolidated financial statements:

Amendment to HKFRS 16

Amendment to HKFRS 16

Amendments to HKFRS 9, Hong Kong

Accounting Standards ("**HKAS**") 39, HKFRS 7,

HKFRS 4 and HKFRS 16

COVID-19 – Related Rent Concessions COVID-19 – Related Rent Concessions beyond 30 June 2021 Interest Rate Benchmark Reform – Phase 2

In addition, the Group applied the agenda decision of the IFRS Interpretations Committee (the "Committee") of the International Accounting Standards Board issued in June 2021 which clarified the costs an entity should include as "estimated costs necessary to make the sale" when determining the net realisable value of inventories.

The application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

For the year ended 31 March 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

Amendments to HKFRSs Annual Improvements to HKFRSs 2018-2020¹

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company (the "**Directors**") anticipate that the application of all other new and amendments to HKFRSs will have no material impact on the consolidated financial statements in the foreseeable future.

Amendments to HKFRS 3 Reference to the Conceptual Framework

The amendments:

- update a reference in HKFRS 3 Business Combinations so that it refers to the Conceptual Framework for Financial Reporting 2018 issued in June 2018 (the "Conceptual Framework") instead of Framework for the Preparation and Presentation of Financial Statements (replaced by the Conceptual Framework for Financial Reporting 2010 issued in October 2010);
- add a requirement that, for transactions and other events within the scope of HKAS 37 Provisions, Contingent Liabilities and Contingent Assets or HK(IFRIC)-Int 21 Levies, an acquirer applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination; and
- add an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective (continued)

Amendments to HKAS 1 Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)

The amendments provide clarification and additional guidance on the assessment of right to defer settlement for at least twelve months from reporting date for classification of liabilities as current or non-current, which:

- specify that the classification of liabilities as current or non-current should be based on rights that are in existence at the
 end of the reporting period. Specifically, the amendments clarify that:
 - (i) the classification should not be affected by management intentions or expectations to settle the liability within 12 months; and
 - (ii) if the right is conditional on the compliance with covenants, the right exists if the conditions are met at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarify that if a liability has terms that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instruments, these terms do not affect its classification as current or non-current only if the entity recognises the option separately as an equity instrument applying HKAS 32 Financial Instruments: Presentation.

In addition, Hong Kong Interpretation 5 was revised as a consequence of the Amendments to HKAS 1 to align the corresponding wordings with no change in conclusion.

Based on the Group's outstanding liabilities as at 31 March 2022, the application of the amendments will not result in reclassification of the Group's liabilities.

Amendments to HKAS 1 and HKFRS Practice Statement 2 Disclosure of Accounting Policies

HKAS 1 is amended to replace all instances of the term "significant accounting policies" with "material accounting policy information". Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements.

The amendments also clarify that accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial. However, not all accounting policy information relating to material transactions, other events or conditions is itself material. If an entity chooses to disclose immaterial accounting policy information, such information must not obscure material accounting policy information.

HKFRS Practice Statement 2 *Making Materiality Judgements* (the "**Practice Statement**") is also amended to illustrate how an entity applies the "four-step materiality process" to accounting policy disclosures and to judge whether information about an accounting policy is material to its financial statements. Guidance and examples are added to the Practice Statement.

The application of the amendments is not expected to have significant impact on the financial position or performance of the Group but may affect the disclosures of the Group's significant accounting policies. The impacts of application, if any, will be disclosed in the Group's future consolidated financial statements.

For the year ended 31 March 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective (continued)

Amendments to HKAS 8 Definition of Accounting Estimates

The amendments define accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty". An accounting policy may require items in financial statements to be measured in a way that involves measurement uncertainty – that is, the accounting policy may require such items to be measured at monetary amounts that cannot be observed directly and must instead be estimated. In such a case, an entity develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available, reliable information.

In addition, the concept of changes in accounting estimates in HKAS 8 is retained with additional clarifications.

The application of the amendments is not expected to have significant impact on the Group's consolidated financial statements.

Amendments to HKAS 12 Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments narrow the scope of the recognition exemption of deferred tax liabilities and deferred tax assets in paragraphs 15 and 24 of HKAS 12 *Income Taxes* so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

As disclosed in Note 3 to the consolidated financial statements, for leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to the relevant assets and liabilities separately. Temporary differences on initial recognition of the relevant assets and liabilities are not recognised due to the application of the initial recognition exemption.

Upon the application of the amendments, the Group will recognise a deferred tax asset (to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised) and a deferred tax liability for all deductible and taxable temporary differences associated with the right-of-use assets and the lease liabilities.

The Group is still in the process of assessing the full impact of the application of the amendments. The cumulative effect of initially applying the amendments will be recognised as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the earliest comparative period presented.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023, with early application permitted. As at 31 March 2022, the carrying amounts of right-of-use assets and lease liabilities which are subject to the amendments amounted to approximately HK\$2,248,000 and approximately HK\$2,284,000, respectively. The Group is still in the process of assessing the full impact of the application of the amendments.

For the year ended 31 March 2022

2. APPLICATION OF AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

New and amendments to HKFRSs in issue but not yet effective (continued)

Amendments to HKFRSs Annual Improvements to HKFRSs 2018-2020

The annual improvements make amendments to the following standards:

HKFRS 9 Financial Instruments

The amendment clarifies that for the purpose of assessing whether modification of terms of original financial liability constitutes substantial modification under the "10 per cent" test, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or the lender on the other's behalf.

HKFRS 16 Leases

The amendment to Illustrative Example 13 accompanying HKFRS 16 removes from the example the illustration of reimbursement relating to leasehold improvements by the lessor in order to remove any potential confusion.

HKAS 41 Agriculture

The amendment ensures consistency with the requirements in HKFRS 13 Fair Value Measurement by removing the requirement in paragraph 22 of HKAS 41 to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.

The application of the amendments is not expected to have significant impact on the financial position and performance of the Group.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") and by the Hong Kong Companies Ordinance ("CO").

The Directors have, at the time of approving the consolidated financial statements, a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.1 Basis of preparation of consolidated financial statements (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 Share-based Payment, leasing transactions that are accounted for in accordance with HKFRS 16 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can
 access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

3.2 Significant accounting policies

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (continued)

Basis of consolidation (continued)

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKFRS 9 Financial Instruments ("HKFRS 9") or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Revenue from contracts with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates or enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Input method

The progress towards complete satisfaction of a performance obligation is measured based on input method, which is to recognise revenue on the basis of the Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation, that best depict the Group's performance in transferring control of goods or services.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

3.2 Significant accounting policies (continued)

Leases (continued)

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Non-lease components are separated from lease component and are accounted for by applying other applicable standards.

Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the recognition exemption for lease of low-value assets. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis or another systematic basis over the lease term.

Right-of-use assets

The cost of right-of-use asset includes:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site
 on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the
 lease.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

3.2 Significant accounting policies (continued)

Leases (continued)

The Group as a lessee (continued)

Right-of-use assets (continued)

When the Group obtains ownership of the underlying leased assets at the end of the lease term, upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to property, plant and equipment.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include:

- fixed payments (including in-substance fixed payments) less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Group under residual value guarantees;
- the exercise price of a purchase option if the Group is reasonably certain to exercise the option; and
- payments of penalties for terminating a lease, if the lease term reflects the Group exercising an option to terminate
 the lease.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (continued)

Leases (continued)

The Group as a lessee (continued)

Lease liabilities (continued)

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case
 the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the
 date of reassessment.
- the lease payments change due to changes in market rental rates following a market rent review/expected payment
 under a guaranteed residual value, in which cases the related lease liability is remeasured by discounting the revised
 lease payments using the initial discount rate.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Lease modifications

The Group accounts for a lease modification as a separate lease if:

- the modification increases the scope of the lease by adding the right to use one or more underlying assets; and
- the consideration for the leases increases by an amount commensurate with the stand-alone price for the increase
 in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular
 contract.

For a lease modification that is not accounted for as a separate lease, the Group remeasures the lease liability, less any lease incentives receivable, based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group accounts for the remeasurement of lease liabilities by making corresponding adjustments to the relevant right-of-use asset. When the modified contract contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the modified contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the date of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (continued)

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income, other gains and losses, net".

Employee benefits

Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Termination benefits

A liability for a termination benefit is recognised at the earlier of when the group entity can no longer withdraw the offer of the termination benefit and when it recognises any related restructuring costs.

Short-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit/loss before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

For the year ended 31 March 2022

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (continued)

Taxation (continued)

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate and tax laws that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies HKAS 12 requirements to right-of-use assets and lease liabilities separately. Temporary differences on initial recognition of the relevant right-of-use assets and lease liabilities are not recognised due to application of the initial recognition exemption. Temporary differences arising from subsequent revision to the carrying amounts of right-of-use assets and lease liabilities, resulting from remeasurement of lease liabilities and lease modifications, that are not subject to initial recognition exemption are recognised on the date of remeasurement or modification.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set-off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Taxation (continued)

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write-off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment on property, plant and equipment and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3.2 Significant accounting policies (continued)

Impairment on property, plant and equipment and right-of-use assets (continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro-rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Provisions for the expected cost of assurance-type warranty obligations under the relevant contracts with customers for provision of interior design and fit-out services are recognised at the date of completion of the service, at the directors' best estimate of the expenditure required to settle the Group's obligation.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

3.2 Significant accounting policies (continued)

Financial instruments (continued)

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are subsequently measured at fair value through other comprehensive income ("FVTOCI"):

- the financial asset is held within a business model whose objective is achieved by both selling and collecting contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

Classification and subsequent measurement of financial assets (continued)

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired (see below), interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

Impairment of financial assets and other items subject to impairment assessment under HKFRS 9

The Group performs impairment assessment under expected credit loss ("**ECL**") model on financial assets (including trade and other receivables, amounts due from related companies and bank balances), and other items (contract assets) which are subject to impairment assessment under HKFRS 9. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group applies the simplified approach and recognises lifetime ECL for trade receivables and contract assets.

Impairment of financial assets subject to impairment assessment under HKFRS 9 (continued)

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless there has been a significant increase in credit risk since initial recognition, in which case the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

(i) Significant increase in credit risk

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes-off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written-off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data and forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights. The Group uses a practical expedient in estimating ECL on trade receivables using a provision matrix taking into consideration historical credit loss experience and forward looking information that is available without undue cost or effort.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

Lifetime ECL for trade receivables and contract assets are considered on a collective basis taking into consideration past due information and relevant credit information such as forward-looking macroeconomic information.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises impairment gains or losses in profit or loss for financial instruments through loss allowance accounts.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities at amortised cost

Financial liabilities including trade and other payables, amount due to a director, bank borrowing and lease liabilities are subsequently measured at amortised cost, using the effective interest method.

Derecognition/modification of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The Directors have not come across any significant areas where critical judgements are involved in applying the Group's accounting policies.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

For the year ended 31 March 2022

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Key sources of estimation uncertainty (continued)

Deferred tax asset

As at 31 March 2022, a deferred tax asset of approximately HK\$155,000 (2021: approximately HK\$259,000) in relation to tax depreciation and provision for warranties for certain operating subsidiaries has been recognised in the consolidated statement of financial position. No deferred tax asset has been recognised on the tax losses of approximately HK\$16,166,000 (2021: approximately HK\$13,391,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future, which is a key source of estimation uncertainty especially the uncertainty on how the COVID-19 pandemic may progress and evolve. In cases where the actual future taxable profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place.

Provision of ECL for financial assets and contract assets

The provision of ECL is sensitive to change in estimates. The loss allowances for financial assets and contract assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the ECL calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Revenue recognition from construction contracts for sales of interior design and fit-out services over time

The sales of design and fit-out services is considered to be performance obligation satisfied over time as the terms of the relevant construction contracts create an enforceable right to payment for the Group for performance completed to date. The contract revenue and profit of the contracts are according to the management's estimation of the total outcome of the construction contract as well as the progress towards completion of the contracts. Notwithstanding that the management reviews and revises the estimates of both contract revenue and costs for the construction contract as the contract progresses, the actual outcome of the contract in terms of its total revenue and costs may be higher or lower than the estimates and this will affect the revenue and profit recognised.

Provision for warranties

The Group offers a 1-year warranty for commercial interior design and fit-out services and a 3-year warranty for residential interior design and fit-out services, during which free warranty service for the repair and maintenance of parts and components under normal usage is provided to the customers. The calculation of the amount of the provision requires assumptions to be made with regard to the probability of liability, the amount of claims and the duration with reference to the historical pattern. The estimation basis is reviewed on an on-going basis and revised where appropriate. Notwithstanding that the management reviews and revises the estimates of the provision for warranties where appropriate, the actual claims may be higher or lower than the estimates and this will affect the profit recognised. As at 31 March 2022, the carrying amount of provision for warranty costs was approximately HK\$881,000 (2021: approximately HK\$1,362,000).

For the year ended 31 March 2022

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

Estimated impairment of property, plant and equipment and right-of-use assets

In determining whether property, plant and equipment and right-of-use assets are impaired, the Group has to exercise judgement and make estimation, particularly in assessing whether an event has occurred or any indicators that may affect the asset value.

For the purpose of impairment testing, the Group has to exercise judgement and make estimation, particularly in assessing: (i) whether the carrying value of an asset can be supported by the recoverable amount, in the case of value in use, the net present value of future cash flows which are estimated based upon the continued use of the asset; and (ii) the appropriate key assumptions to be applied in estimating the recoverable amounts including cash flow projections and an appropriate discount rate. The Group estimates the recoverable amount of the cash generating unit to which the assets belong, including allocation of corporate assets when a reasonable and consistent basis of allocation can be established, otherwise recoverable amount is determined at the smallest group of cash generating units, for which the relevant corporate assets have been allocated. Changing the assumptions and estimates, including the discount rates or the growth rate in the cash flow projections, could materially affect the recoverable amounts. Furthermore, the cash flows projections, growth rate and discount rate are subject to greater uncertainties due to uncertainty on how the COVID-19 pandemic may progress and evolve.

As at 31 March 2022, the carrying amount of property, plant and equipment and right-of-use assets subject to impairment assessment were approximately HK\$9,807,000 and approximately HK\$2,248,000 (2021: approximately HK\$9,925,000 and approximately HK\$1,431,000) respectively. There is no impairment is recognised on property, plant and equipment and right-of-use assets for the years ended 31 March 2022 and 2021. Details of the impairment testing on property, plant and equipment and right-of-use assets are disclosed in Note 15.

5. REVENUE AND SEGMENT INFORMATION (CONTINUED)

(ii) Performance obligations for contracts with customers

The Group provides interior design and fit-out services to customers. Such services are recognised as a performance obligation satisfied over time as the Group creates or enhances an asset that the customer controls as the asset is created or enhanced. Revenue for these works is recognised based on the stage of completion of the contract using input method.

The Group's services contracts include payment schedules which require stage payments over the services period once certain specified milestones are reached. The Group typically requires customers to provide non-refundable upfront deposits range from 60% to 70% of total contract sum, when the Group receives a deposit before service commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the specific contract exceeds the amount of the deposit.

A contract asset, net of contract liability related to the same contract, is recognised over the period in which the services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on the Group's future performance in achieving specified milestones. The Group typically bills the customers when the specified milestones are reached (i.e. when the rights become unconditional) and the contract assets will be transferred to trade receivables.

(iii) Transaction price allocated to the remaining performance obligation for contracts with customers

All contracts with customers are for periods of one year or less. As permitted under HKFRS 15, the transaction price allocated to these unsatisfied contracts is not disclosed.

Information reported to the board of Directors (the "**Board**"), being the chief operating decision maker ("**CODM**"), for the purpose of resources allocation and assessment of segment performance focuses on types of goods or services delivered or provided. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

Specifically, the Group's reportable and operating segment under HKFRS 8 *Operating Segments* is provision of interior design and fit-out services in Hong Kong.

Since this is the only reportable and operating segment of the Group, no further analysis thereof is presented. All the revenue of the Group are generated from provision of interior design and fit-out services for the years ended 31 March 2022 and 2021.

Geographical information

The Group's operation is located in Hong Kong. All the non-current assets of the Group are located in Hong Kong.

Information about major customers

For the years ended 31 March 2022 and 2021, as no revenue derived from an individual customer of the Group has accounted for over 10% of the Group's total revenues, no information about major customers is presented.

Under the two-tiered profits tax rates regime of Hong Kong Profits Tax, the first HK\$2,000,000 of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2,000,000 will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%. Accordingly, the Hong Kong Profits Tax of the qualifying group entity is calculated at 8.25% on the first HK\$2,000,000 of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2,000,000.

Under the Law of the People's Republic of China (the "PRC") on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% for both years.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

The tax charge for the years can be reconciled to the loss before income tax per the consolidated statement of profit or loss and other comprehensive income as follows:

| | 2022 HK\$'000 | 2021 HK\$'000 |
|---|------------------|------------------|
| Expense relating to short-term leases | 318 | 1,057 |
| Expense relating to leases of low-value assets, excluding short-term leases of low value assets | 14 | 12 |
| Total cash outflow for leases - within operating cash flows - within financing cash flows | 332 2,248 | 1,069 1,783 |

For both years, the Group leases various offices, retail stores, office equipment and motor vehicles for its operations. Lease contracts are entered into for fixed term of 1 to 5 years. Lease terms are negotiated on an individual basis and contain different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

As at 31 March 2021, the Group has pledged a motor vehicle with carrying amount of approximately HK\$374,000 under the lease arrangement. The lease arrangement has been completed during the year ended 31 March 2022.

15. IMPAIRMENT TESTING ON PROPERTY, PLANT AND EQUIPMENT AND RIGHT-OF-USE ASSETS

During the current year, as a result of the recurring operating losses of the Group, the management of the Group concluded that there was indication of impairment and conducted impairment assessment on recoverable amount on property, plant and equipment and right-of-use assets with carrying amounts of approximately HK\$9,807,000 and approximately HK\$2,248,000, respectively.

For the purpose of impairment testing, property, plant and equipment and right-of-use assets which set out in Notes 14A and 14B, respectively, have been allocated to one individual cash generating unit in the provision of interior design and fit-out services in Hong Kong.

The recoverable amount of that cash generating unit has been determined based on the value in use calculation prepared by the management of the Group. That calculation uses cash flow projections based on financial budgets approved by the management of the Group covering the following 5 years with a pre-tax discount rate is 11.4% as at 31 March 2022. The annual growth rate used is approximately 2.2%, which is based on the cash-generating units' past performance and management expectations for the market development. The financial model assumes a terminal growth rate of 2.5% taking into account of the inflation rate. The growth rates and discount rate as at 31 March 2022 have been assessed taking into consideration higher degree of estimation uncertainties in due to uncertainty on how the COVID-19 pandemic may progress and evolve.

For the year ended 31 March 2022, based on the result of the assessment, management of the Group determined that the recoverable amount of the cash-generating unit exceeded the carrying amount and thus the management of the Group determines that there is no impairment is recognised on property, plant and equipment and right-of-use assets. Management of the Group believes that any reasonably possible change in any of these assumptions would not cause the carrying amount of the cash generating unit to exceed the recoverable amount of the cash generating unit.

For the year ended 31 March 2022

16. DEFERRED TAX ASSETS (LIABILITIES)

The components of deferred tax assets and liabilities recognised in the consolidated statement of financial position and the movements during the reporting period are as follows:

Deferred tax assets arising from:

| | Tax depreciation HK\$'000 | Provision for warranties HK\$'000 | Expected credit losses HK\$'000 | Total HK\$'000 |
|--------------------------------------|---------------------------------|---|---------------------------------|-------------------|
| As at 1 April 2020 | - | 101 | 41 | 142 |
| Credited (charged) to profit or loss | 34 | 124 | (41) | 117 |
| As at 31 March 2021 and 1 April 2021 | 34 | 225 | | 259 |
| Charged to profit or loss | (24) | (80) | | (104) |
| As at 31 March 2022 | 10 | 145 | - | 155 |

Deferred tax liabilities arising from:

| | Tax depreciation HK\$'000 |
|--------------------------------------|---------------------------------|
| As at 1 April 2020 | 124 |
| Credited to profit or loss | (43) |
| As at 31 March 2021 and 1 April 2021 | 81 |
| Credited to profit or loss | (51) |
| As at 31 March 2022 | 30 |

As at 31 March 2022, the Group has unused tax losses of approximately HK\$16,166,000 (2021: approximately HK\$13,391,000) available for offset against future profits. No deferred tax asset has been recognised in respect of the unused tax losses due to the unpredictability of future profit streams. The tax losses may be carried forward indefinitely.

For the year ended 31 March 2022

17. CONTRACT ASSETS (LIABILITIES)

| | 2022 HK\$'000 | 2021 HK\$'000 |
|---|------------------|------------------|
| Contract assets Less: Allowance for credit losses | 3,296 (19) | 2,465 (37) |
| | 3,277 | 2,428 |
| Contract liabilities | 12,251 | 12,842 |

As at 1 April 2020, contract assets amounted to approximately HK\$431,000 (net of allowance for credit losses of approximately HK\$13,060,000.

The contract assets primarily relate to the Group's right to consideration for work completed and not billed because the rights are conditioned on factors other than passage of time. The contract assets are transferred to trade receivables when the rights become unconditional.

The Group classifies these contract assets as current because the Group expects to realise them in its normal operating cycle.

The significant increase (2021: increase) in contract assets in the current year is the result of the increase in ongoing design and fit-out services at the end of the year.

Details of the impairment assessment of contract assets are set out in Note 28(b).

The Group's service contracts include payment schedules which require stage payments over the service period once certain specified milestones are reached. The Group typically requires certain customers to provide non-refundable upfront deposits range from 60% to 70% of total contract sum as part of its credit risk management policies.

Contract liabilities, that are not expected to be settled within the Group's normal operating cycle, are classified as current liabilities based on the Group's earliest obligation to transfer goods or services to the customers.

The following table shows how much of the revenue recognised relates to carried-forward contract liabilities and how much relates to performance obligations that were satisfied in prior periods.

For the year ended 31 March 2022

27. CAPITAL RISK MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders, to support the Group's stability and growth; to earn a margin commensurate with the level of business and market risks in the Group's operations and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends to shareholders, return capital to shareholders, issue new shares, obtain new borrowings or sell assets to reduce debt.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as the total of interest-bearing bank borrowing (Note 24) and lease liabilities (Note 25) divided by the total equity as at the end of each reporting period.

The gearing ratios of the Group are as follows:

| | 2022 HK\$'000 | 2021 HK\$'000 |
|--|------------------|------------------|
| Total interest-bearing bank borrowing and lease liabilities Total equity | 5,140 38,602 | 5,329 42,868 |

28. FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management objective and policies

The Group's major financial instruments include trade and other receivables, amounts due from related companies, bank balances and cash, trade and other payables, amount due to a director, bank borrowing and lease liabilities. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include interest rate risk, credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

(a) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to lease liabilities (see Note 25 for details). The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank balances (see Note 20 for details) and variable-rate bank borrowing (see Note 24 for details). The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of interest rates on bank balances and Prime Rate arising from the Group's borrowing. The Group aims at keeping borrowings at variable rates. The Group currently does not hedge its exposure to interest rate risks. However, the management monitors the interest rate risk exposure closely and will consider hedging significant interest rate risk exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for interest-bearing bank borrowing at the end of the reporting period. The analysis is prepared assuming the financial instrument outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis points increase or decrease in variable-rate bank borrowing are used and represents management's assessment of the reasonably possible change in interest rates. Bank balances are excluded from sensitivity analysis as the management considers that the exposure of cash flow interest rate risk arising from variable-rate bank balances is insignificant.

If the interest rate on bank borrowing had been 100 basis points higher/lower and all other variables were held constant, the Group's post-tax loss for the year ended 31 March 2022 would increase/decrease by approximately HK\$29,000 (2021: approximately HK\$40,000).

For the year ended 31 March 2022

28. FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management objective and policies (continued)

(b) Credit risk and impairment assessment

Credit risk arises mainly from contract assets, trade and other receivables, amounts due from related companies and bank balances. The Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations as at the reporting dates in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position.

Trade receivables and contract assets arising from contracts with customers

In respect of trade receivables and contract assets, collective credit evaluations are performed on all customers. These evaluations focus on the customer's financial position, past history of making payments and take into account information specific to the customer as well as pertaining to the economic environment in which the counterparty operates. Monitoring procedures have been implemented to ensure that follow-up action is taken to recover overdue debts. In addition, the Group performs impairment assessment under the ECL model on its financial assets and contract assets. In this regard, management considers that the Group's credit risk is significantly reduced.

The Group has concentration of credit risk. As at 31 March 2022, 3 customers (2021: 1 customer) which individually contributed over 10% of the Group's aggregate trade receivables and contract assets. The aggregate amounts of trade receivables and contract assets from these customers amounted to approximately 74% (2021: approximately 57%) of the Group's total trade receivables and contract assets as at 31 March 2022.

Other receivables and amounts due from related companies

The management makes periodic individual assessment on the recoverability of other receivables and amounts due from related companies based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The management believes that there are no significant increase in credit risk since initial recognition and the Group provided impairment based on 12-month ECL.

For the year ended 31 March 2022, ECL on other receivables amounting to approximately HK\$3,000 (2021: reversal of impairment loss of approximately HK\$127,000) is recognised in the profit or loss.

For the year ended 31 March 2022 and 2021, the Group assessed the ECL for amounts due from related companies is insignificant and thus no loss allowance is recognised.

Bank balances

Credit risk on bank balances is limited because the counterparties are reputable banks with high credit ratings assigned by international credit agencies. The Group assessed 12-month ECL for bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies. Based on the average loss rates, the 12-month ECL on bank balances is considered to be insignificant and therefore no loss allowance was recognised/to specify the amount of impairment made.

(b) Credit risk and impairment assessment (continued)

The Group's current credit risk grading framework comprises the following categories:

| | | Basis for recognising ECL | | |
|------------|---|--|--|--|
| Category | Description | General approach | Simplified approach | |
| Performing | The counterparty has a low risk of default and does not have any past-due amounts or frequently repays after due dates but usually settle in full | 12-month ECL | Lifetime ECL – not credit- impaired | |
| Doubtful | There has been a significant increase in credit risk since initial recognition | Lifetime ECL – not credit- impaired | Lifetime ECL – not credit- impaired | |
| In default | There is evidence indicating the asset is credit Impaired | Lifetime ECL – credit- impaired | Lifetime ECL – credit- impaired | |
| Write-off | There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery | Amount is written-off | Amount is written-off | |

The tables below detail the credit risk exposures of the Group's financial assets and contract assets, which are subject to ECL assessment:

| | Notes | External credit rating | Internal credit rating | 12-month or lifetime ECL | 2022 Gross carrying amount HK\$'000 | 2021 Gross carrying amount HK\$'000 |

(b) Credit risk and impairment assessment (continued)

The loss allowance for trade and other receivables and contract assets were determined as follows:

| | Weighted average expected credit loss rate | Gross carrying amount HK\$'000 | Expected credit loss HK\$'000 | Net carrying amount HK\$'000 |
|---------------------|--|--------------------------------------|-------------------------------|------------------------------------|
| As at 31 March 2022 | - | | | |
| Trade receivables | 30.82% | 256 | 79 | 177 |
| Other receivables | 0.22% | 1,228 | 3 | 1,225 |
| Contract assets | 0.59% | 3,296 | 19 | 3,277 |

| Other receivables | - | 2,258 | _ | 2,258 |
| Contract assets | 1.50% | 2,465 | 37 | 2,428 |

The movements in the loss allowance for trade and other receivables and contract assets are as follows:

| | Trade receivables Life-time ECL (not credit- impaired) HK\$'000 | Trade receivables Life-time ECL (credit- impaired) HK\$'000 | Other receivables 12 months ECL (not credit- impaired) HK\$'000 | Contract assets Life-time ECL (not credit- impaired) HK\$'000 |
|--|--|--|--|--|
| At 1 April 2020 | 35 | 83 | 127 | 2 |
| (Decrease) increase in loss allowance recognised in profit or loss during the year | (33) | (6) | (127) | 35 |
| At 31 March 2021 and 1 April 2021 Increase (decrease) in loss allowance | 2 | 77 | | 37 |
| recognised in profit or loss during the year | - | | 3 | (18) |
| At 31 March 2022 | 2 | 77 | 3 | 19 |

For trade receivables and contract assets, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. The ECL on these assets are assessed collectively using a provision matrix with appropriate groupings based on internal risk characteristics. The expected loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort.

(c) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet their liquidity requirements in the short and long term. Management believes there is no significant liquidity risk as the Group has sufficient financial resources to fund their operations.

The following table details the remaining contractual maturities at the end of each reporting period of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates) and the earliest date the Group may be required to pay:

Bank borrowing with a repayment on demand clause are included in the "on demand or within one month" time band in the above maturity analysis. As at 31 March 2022, the aggregate carrying amount of the bank borrowing amounted to approximately HK\$2,856,000 (2021: HK\$4,000,000). Taking into account the Group's financial position, the management does not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The management believes that such bank borrowing will be repaid within two years after the end of the reporting period in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

29. SHARE OPTION SCHEME

The Company's share option scheme (the "**Scheme**") was adopted pursuant to a resolution passed on 24 March 2017. The Scheme is to attract and retain the best available personnel, to provide additional incentive to the eligible participants under the Scheme.

Under the Scheme, the Directors may at their absolute discretion and subject to the terms of the Scheme, grant options to any employees (full-time or part-time), directors, consultants, advisors, distributors, contractors, suppliers, agents, customers, business partners or service providers of the Group, to subscribe for shares of the Company. The eligibility of any participants to the grant of any options shall be determined by the Directors (or as the case maybe, the independent non-executive directors of the Company) from time to time on the basis of the directors' opinion as to their contribution or potential to the development and growth of the Group.

The aggregate number of the Company's shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share options schemes of the Company must not exceed 30% of the Company's shares in issue from time to time. No options may be granted under the Scheme or any other share options schemes of the Company if this will result in the limit being exceeded. The maximum number of shares issuable upon exercise of all options to be granted under the Scheme and any other share option schemes of the Company as from the adoption date must not in aggregate exceed 10% of all the shares in issue upon the date on which the shares are listed and permitted to be dealt in the Stock Exchange. The 10% limit may be refreshed at any time by approval of the Company's shareholders in general meeting provided that the total number of the Company's shares which may be issued upon exercise of all options to be granted under the Scheme and any other share options schemes of the Company must not exceed 10% of the Company's shares in issue as at the date of approval of the refreshed limit.

For the year ended 31 March 2022

29. SHARE OPTION SCHEME (CONTINUED)

The total number of shares issued and to be issued upon exercise of the options granted to each participant (including both exercised and outstanding options) under the Scheme or any other share option schemes of the Company in any 12-month period up to date of grant shall not exceed 1% of the shares of the Company in issue. Where any further grant of options to a participant under the Scheme would result in the shares issued and to be issued upon exercise of all options granted and to be granted to such participant (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of such further grant representing in aggregate over 1% of the shares in issue, such further grant must be separately approved by shareholders of the Company in general meeting with such participant and his/her close associates abstaining from voting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or any of their respective associates must be approved by the independent non-executive directors of the Company (excluding any independent non-executive director who is the grantee). Where any share options granted to a substantial shareholder or an independent non-executive director of the Company, or any of their respective close associates would result in the total number of shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) under the Scheme and any other share option schemes of the Company to such person in any 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the shares of the Company in issue and having an aggregate value in excess of HK\$5 million must be approved by the Company's shareholders at the general meeting of the Company, with voting to be taken by way of poll.

The offer of a grant of share options might be accepted in writing within 7 days from the date of the offer. An option may be exercised in accordance with the terms of the Scheme at any time during a period as the Directors may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof. A nominal consideration of HK\$1 is payable on acceptance of the grant of an option with a remittance in favour of the Company within such time as may be specified in the offer (which shall not be later than 7 days from the date of the offer).

The subscription price shall be a price solely determined by the board of directors of the Company and notified to a participant and shall be at least the highest of: (i) the closing price of the Company's shares as stated in the Stock Exchange's daily quotations sheet on the offer date; (ii) the average closing prices of the Company's shares as stated in the Stock Exchange's daily quotations sheets for the 5 business days immediately preceding the offer date; and (iii) the nominal value of the Company's share on the offer date.

The Scheme shall be valid and effective for a period of ten years commencing on 24 March 2017, subject to early termination provisions contained in the Scheme.

No share option was granted, exercised, cancelled or lapsed during the years ended 31 March 2022 and 2021 and there was no share option outstanding as at 31 March 2022 (2021: Nil).

30. RETIREMENT BENEFITS SCHEME

The Group operates a Mandatory Provident Fund ("MPF") scheme established under the Mandatory Provident Fund Scheme Ordinance for all qualifying employees in Hong Kong. The assets of the MPF scheme are held separately from those of the Group, in funds under the control of trustees. The Group contributes monthly to MPF scheme at the lower of HK\$1,500 per month or 5% of relevant payroll costs for each employee, which the contribution is matched by employees.

At 31 March 2022 and 2021, the Group had no forfeited contribution available to reduce its contributions to the retirement benefit schemes in future years.

The total expense recognised in profit or loss of approximately HK\$482,000 (2021: approximately HK\$522,000) represents contributions payable to the MPF scheme by the Group at rates specified in the rules of the scheme.
