ANNUAL REPORT
2022

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “**Director(s)**”) of Quantong Holdings Limited (the “**Company**” and together with its subsidiaries, the “**Group**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the “**Board**”) of Directors, I am delighted to present the annual report of the Group for the year ended 31 March 2022.

REVIEW

The Group has been engaging in foundation works business as a subcontractor and other construction works in Hong Kong for over 10 years. During the year ended 31 March 2022, the overall construction industry in Hong Kong was still facing various challenges. The outbreak of the COVID-19 pandemic has been lasting for over two years and results in serious and unanticipated disruptions in business operation and the Hong Kong economy. During the year ended 31 March 2022, the foundation and other construction works business of the Group generated revenue of approximately HK\$72.4 million (2021: HK\$104.6 million).

During the year ended 31 March 2022, the Group started to engage in provision of supply and installation of new energy charging piles in the People's Republic of China (the “**PRC**”). Revenue generated by the Group in this business segment amounted to approximately HK\$4.5 million for the year ended 31 March 2022 and gross profit was recorded in the same year.

PROSPECT

The uncertain economic and political environment of Hong Kong and around the world under the influence of COVID-19 during the year will undoubtedly continue to pose significant challenges to the construction industry. The foundation construction industry remained highly competitive in the year due to the participation of a large number of active subcontractors in the market, resulting in pressure on the overall bid price and impact on our gross profit margin.

Although the timing of the full recovery of the construction market of Hong Kong is still uncertain, the Directors consider that with the Group's business presence and good market reputation, the Group is able to compete with its competitors and cope with the future challenges that are commonly faced by all industry players. The Group is looking for suitable investment opportunities to diversify business and bring better investment return to the shareholders of the Company.

The Company continues to evaluate areas suitable for the diversification of business with an aim to deliver sustainable returns to its shareholders. As disclosed in the announcement of the Company dated 8 July 2022, the Company has established a subsidiary in the PRC in support of the Group's intention to start a new line of business in the supply chain industry in the PRC. Looking forward, the Company, as a listed company, will use its resources to (I) adopt a more aggressive approach to deal with tender invitations; (II) expand the existing operation and revenue stream of business; and (III) explore the business opportunities of charging piles for new energy vehicles, power battery recycling and new energy vehicle logistics industry and the supply chain industry in the PRC.

With its operational resources and experience in the construction industry, the Group believes that it has expanded into the construction of charging piles for electronic business and the new energy vehicle related industry chain and will explore business opportunities in the supply chain industry in the PRC, bringing better investment returns to the shareholders of the Company.

APPRECIATION

On behalf of the Board, I wish to take this opportunity to express my gratitude to our shareholders, customers, business partners and suppliers for their continuous support, and to our management and staff members for their commitment and contribution throughout the years.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group has been engaging in foundation works business as a subcontractor and other construction works in Hong Kong for over 10 years. During the year ended 31 March 2022, the overall construction industry in Hong Kong was still facing various challenges. The outbreak of the COVID-19 pandemic has been lasting for over two years and results in serious and unanticipated disruptions in business operation and the Hong Kong economy. Furthermore, the construction industry in Hong Kong is fragmented with increasing number of market players, resulting in keen competitions in the market and lower gross margin of construction projects. Nevertheless, after enhancement of cost control made by the Group, for the year ended 31 March 2022, the Group recorded overall gross profit margin of approximately 3.9% as compared to the gross loss margin of approximately 15.1% for the year ended 31 March 2021.

Despite the unfavourable conditions in Hong Kong economy and the construction industry such as keen competition due to the growing number of market players, continuously increasing construction costs due to labour shortage, increasingly stringent regulatory controls and rising construction material and operation costs, the Directors are of the view that the market conditions of the construction industry will start to improve and consider that with the Group's business presence and good reputation in the market, the Group is well-positioned to compete with its competitors against such challenges that are commonly faced by all industry players.

In addition to continue the existing foundation works and other construction works business, the Group also explores other suitable business opportunities with a view to diversify its business. During the year ended 31 March 2022, the Group started to engage in provision of supply and installation of new energy charging piles in the PRC and recorded gross profit in this business segment. The Directors consider the new business is the first step in the business diversification and expansion of the Group's business portfolio. The Group will proactively explore new opportunities to benefit the Company and its shareholders as a whole in long run.

FINANCIAL REVIEW

REVENUE

The Group's revenue for the year ended 31 March 2022 was approximately HK\$76.9 million, representing a decrease of approximately HK\$27.7 million or 26.5% as compared to the revenue for the year ended 31 March 2021. The decrease in revenue was primarily due to the decrease in number of sizable projects tendered by the Group during the year and thereby contributed less revenue to the Group during the year ended 31 March 2022.

COST OF SALES

The Group's cost of sales decreased from approximately HK\$120.4 million for the year ended 31 March 2021 to approximately HK\$73.9 million for the year ended 31 March 2022, representing a decrease of approximately HK\$46.5 million or 38.6%. Such decrease was due to the enhancement of cost control to avoid the late penalty compensation, additional direct cost for delayed project completion and unexpected costs of testing for certain projects caused by unpredictable matters as incurred during the year ended 31 March 2021.

GROSS PROFIT AND GROSS PROFIT MARGIN

For the year ended 31 March 2022, the Group recorded gross profit of approximately HK\$3.0 million (2021: gross loss of approximately HK\$15.8 million) and gross profit margin of approximately 3.9% (2021: gross loss margin of approximately 15.1%). The change from gross loss of the Group for the year ended 31 March 2021 to gross profit of the Group for the year ended 31 March 2022 was due to the decrease in cost of sales as explained above.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

ADMINISTRATIVE EXPENSES

The administrative expenses decreased by approximately HK\$6.4 million or 32.5% from approximately HK\$19.7 million for the year ended 31 March 2021 to approximately HK\$13.3 million for the year ended 31 March 2022. The decrease was mainly due to the effect of provision for impairment loss of property, plant and equipment of approximately HK\$3.7 million and legal and professional fees incurred in relation to the one-off cash offer transaction in respect of shares of the Company during the year ended 31 March 2021.

FINANCE COSTS

Finance costs of the Group were approximately HK\$1.5 million and approximately HK\$1.7 million for the years ended 31 March 2022 and 2021, respectively. Finance costs consist of interest on loans from other borrowings, interest on loan from a shareholder and interest on lease liabilities.

LOSS FOR THE YEAR ATTRIBUTABLE TO OWNERS OF THE COMPANY

Net loss for the year ended 31 March 2022 was approximately HK\$10.4 million (2021: approximately HK\$29.5 million). Such decrease in loss was mainly due to gross profit of approximately HK\$3.0 million recorded during the year ended 31 March 2022 as compared to gross loss of approximately HK\$15.8 million recorded during the year ended 31 March 2021 as explained above.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Company's shares were successfully listed on GEM on 10 August 2015 (the "Listing"). There has been no change in the capital structure of the Group since the date of the Listing and up to the date of this annual report.

	2022	2021
	HK\$'000	HK\$'000
Current assets	64,191	18,714
Current liabilities	108,403	40,197
Current ratio	0.59	0.47

The current ratio of the Group as at 31 March 2022 was approximately 0.59 times as compared to that of approximately 0.47 times as at 31 March 2021.

As at 31 March 2022, the Group had total cash and cash equivalents of approximately HK\$2.2 million (2021: approximately HK\$1.2 million).

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

As at 31 March 2022 and 31 March 2021, the Group had other borrowings, amount due to a shareholder/then directors, loan from a related party/then directors and lease liabilities in total of approximately HK\$64.9 million and HK\$45.4 million, respectively. The scheduled repayment date of the Group were as follows:

	2022 HK\$'000	2021 HK\$'000
Within one year	57,268	17,602
Between one and two years	7,627	27,827
Between two and five years	–	–
	64,895	45,429

GEARING RATIO

The Group monitors capital using a gearing ratio, which is net debt divided by total equity/(deficit). Net debts are calculated as the total of lease liabilities, amount due to a shareholder, loan from a related party and other borrowings and less cash and cash equivalents.

	2022 HK\$'000	2021 HK\$'000
Total debts	64,895	45,429
Less: Cash and cash equivalents	(2,206)	(1,191)
Net debts	62,689	44,238
Total deficit	(51,839)	(44,136)
Gearing ratio	(120.93%)	(100.23%)

TREASURY POLICIES

The Group adopts a conservative approach towards its treasury policies. The Group's credit risk is primarily attributable to contract assets, trade receivables and deposits with banks. The credit risk of the Group's contract assets and trade receivables is concentrated since approximately 99.9% of which was derived from five major customers as at 31 March 2022 (2021: approximately 98.7%). As the customers of the Group are reputable corporations, the credit risk is considered to be low. The Group's major bank balances are deposited with banks with good reputation and hence the management does not expect any losses from non-performance by these banks. In relation to the management of liquidity risk, the Group's policy is to regularly monitor the liquidity requirements in order to maintain sufficient reserves of cash and adequate committed lines of funding from major banks to meet the liquidity requirements in short and long term.

CAPITAL STRUCTURE

The shares of the Company were successfully listed on GEM of the Stock Exchange on 10 August 2015. There has been no change in the capital structure of the Group since then. The share capital of the Group only comprises ordinary shares.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

As at 31 March 2022, the Company's issued share capital was HK\$8 million, representing 800,000,000 issued ordinary shares of HK\$0.01 each.

SEGMENT INFORMATION

Segmental information is presented for the Group as disclosed in Note 6 to the consolidated financial statements.

DIVIDEND

The Board does not recommend any final dividend for the year ended 31 March 2022 (2021: Nil).

CONTINGENT LIABILITIES

The Group did not have any significant contingent liabilities as at 31 March 2022.

CHARGE ON GROUP ASSETS

As at 31 March 2022, the Group had no assets charged for bank borrowings or for other purpose.

CAPITAL COMMITMENTS

As at 31 March 2022, the Group did not have other significant capital commitments.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

During the year ended 31 March 2022, the Group did not have any material acquisitions and disposal of subsidiaries, associates and joint ventures.

SIGNIFICANT INVESTMENTS HELD BY THE GROUP

During the year ended 31 March 2022, there was no significant investment held by the Group.

FUTURE PLAN FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

The Group did not have any concrete plan for material investments or capital assets as at 31 March 2022.

FOREIGN CURRENCY EXPOSURE

For the Group's operation in Hong Kong, the major revenue and expenses are denominated in Hong Kong dollars. For the Group's operation in the PRC, the major revenue and expenses are denominated in Renminbi, which would expose the Group to foreign exchange risk. The Group currently does not have a foreign currency hedging policy. However, the management of the Company monitors foreign exchange exposure and will consider hedging significant foreign currency exposure when the need arises.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

EMPLOYEES AND REMUNERATION POLICY

As at 31 March 2022, the Group employed a total of 20 staff (2021: 50 staff). The total employee remuneration, including remuneration of the Directors, for the year ended 31 March 2022 amounted to approximately HK\$8.9 million (2021: approximately HK\$25.2 million).

The Group entered into separate labour contracts with each of the employees in accordance with the applicable labour laws in Hong Kong. The Group provides its staff with various benefits including discretionary bonus, contributory provident fund and medical insurance. The Group also provides and sponsors various types of training to employees and offer options that may be granted to employees under the share option scheme.

EVENTS AFTER THE REPORTING PERIOD

Proposed Change of Company Name

On 2 June 2022, the Board proposed to change the English name and Chinese name of the Company from “Quantong Holdings Limited” and “全通控股有限公司” to “China Hongbao Holdings Limited” and “中國紅包控股有限公司”, respectively (the “**Proposed Change of Company Name**”).

The Proposed Change of Company Name is subject to the following conditions:

- (i) the passing of a special resolution by the shareholders of the Company to approve the Proposed Change of Company Name at the extraordinary general meeting of the Company to be held on 10 August 2022; and
- (ii) approval being granted by the Registrar of Companies in the Cayman Islands for the Proposed Change of Company Name and the new name being entered in the register of companies by the Registrar of Companies in the Cayman Islands.

Subject to the satisfaction of the above conditions, the Proposed Change of Company Name will take effect upon the date on which the Registrar of Companies in the Cayman Islands issues a certificate of incorporation on change of name confirming that the new name has been registered. The Company will comply with the necessary filing procedures in Hong Kong and the Cayman Islands.

For further information, please refer to the announcements of the Company dated 2 June 2022 and 12 July 2022.

Proposed amendments to the memorandum and articles of association

On 12 July 2022, the Board proposes to make certain amendments (the “**Proposed Amendments**”) to the existing memorandum of association and articles of association of the Company (the “**Memorandum and Articles of Association**”) and to adopt the second amended and restated Memorandum and Articles of Association incorporating and consolidating all the Proposed Amendments (the “**Second Amended and Restated Memorandum and Articles**”), in order to, among other things, (i) conform to the amended Appendix 3 to the GEM Listing Rules which came into effect on 1 January 2022 and applicable laws of the Cayman Islands; and (ii) replace all references to the existing name of the Company with “China Hongbao Holdings Limited” and “中國紅包控股有限公司” to reflect the changes subsequent to the Proposed Change of Company Name.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

The Board considers that the Proposed Amendments and the adoption of the Second Amended and Restated Memorandum and Articles are in the interests of the Company and the shareholders of the Company as a whole. The Proposed Amendments and the adoption of the Second Amended and Restated Memorandum and Articles are subject to the consideration and approval by the shareholders of the Company by way of a special resolution at the extraordinary general meeting of the Company to be held on 10 August 2022, and are conditional upon the Proposed Change of Company Name becoming effective. The Board proposes that the Second Amended and Restated Memorandum and Articles be adopted in substitution for the Memorandum and Articles of Association with effect from the date on which the Registrar of Companies in the Cayman Islands issues a Certificate of Incorporation on Change of Name confirming that the new names have been registered.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group's financial position, results of operations and business prospects may be affected by a number of risks and uncertainties directly and indirectly pertaining to the Group's business. The following are the key risks and uncertainties identified by the Group:

- (i) The Group's past revenue and profit margin may not be indicative of the Group's future revenue and profit margin.
- (ii) The Group determined the project price based on estimated time and costs involved in a project, which may deviate from actual time and cost incurred. Inaccurate estimation may adversely affect the Group's financial results.
- (iii) The Group's business operations depend on the expertise and continuing performance of the key management personnel and there is no assurance that the Group can hire and retain them.
- (iv) Failure to invest in suitable machinery may adversely affect the Group's market competitiveness.
- (v) Acquiring machinery may result in an increase in depreciation expenses, machine operation costs, repair and maintenance costs and cash flow used in investing activities and may adversely affect the Group's operating results and financial position.
- (vi) As the Group from time to time engages subcontractors, the Group may bear responsibilities for any non-performance, delayed performance, sub-standard performance or non-compliance of the subcontractors.
- (vii) The Group is exposed to possible environmental liability.
- (viii) Adverse weather conditions, natural disasters, potential wars, terrorist attacks, riots and other disasters which are beyond the Group's control may reduce the number of workdays and may incur additional operational costs.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group's operations at work sites are subject to certain environmental requirements pursuant to the laws in Hong Kong, including primarily those in relation to air pollution control, noise control, waste disposal and waste water disposal.

Area	Measures
Air pollution control	(i) Dust suppression by use of water (ii) Installation of dust screens as required (iii) Use of low-dust techniques and equipment as required
Noise control	(i) Installation of acoustic barriers as required (ii) Inspection and maintenance of all equipment before use for compliance of permitted noise level (iii) Works to be undertaken in accordance with the permitted work hours as specified by the Group's customers
Waste disposal	(i) Waste to be segregated into general wastes and construction wastes before transporting to landfills
Waste water disposal	(i) Use of sedimentation tanks to reduce the suspended solids in the waste water to be discharged (ii) After the sedimentation process to the waste water, pumping into the filtration plant before discharging into approved discharge points

The Directors consider that the measures and work procedures adopted are appropriate and adequate. During the year ended 31 March 2022, the Group was not in violation of applicable environmental laws and regulations which would have a material adverse impact on the business, financial condition or results of operations of the Group.

COMPLIANCE WITH LAWS AND REGULATIONS

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Company and its subsidiaries during the year ended 31 March 2022.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

RELATIONSHIP WITH CUSTOMERS, SUPPLIERS, SUBCONTRACTORS AND EMPLOYEES

Customers

The Group's customers are principally main contractors and subcontractors of construction projects in the private and public sectors. During the year ended 31 March 2022, the Group's five largest customers accounted for approximately 98.0% (2021: 99.9%) of the total revenue for the year ended 31 March 2022, and the Group's largest customer accounted for approximately 24.1% (2021: 82.1%) of the total revenue for the year ended 31 March 2022. The Group has had good business relationship with most of the top customers which the Directors believe to imply that the Group is the one of the selected subcontractors on such customers' approved lists of subcontractors and the Group being invited to tender or quote from time to time.

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder had any interest in the Group's five largest customers.

Suppliers

The Group's suppliers primarily supply construction materials (such as cement, machinery spare parts and loose tools, diesel fuel and/or steel pile and casing) and/or services which primarily include machinery rental and machinery repair and maintenance. The Group generally orders relevant construction materials and services on a project-by-project basis, and does not enter into any long-term supply agreements with the Group's suppliers. The Group's largest and five largest suppliers accounted for not exceeding 30% of the total costs of services for the years ended 31 March 2022 and 2021.

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder had any interest in the Group's five largest suppliers.

Subcontractors

During the year ended 31 March 2022, the Group subcontracted a portion of the works which primarily consisted of drilling, grouting and geotechnical works to other parties with an aim to utilise the Group's own manpower and machinery in a more cost efficient manner. The Group's subcontracting fees represented approximately 55.0% and 32.4% of the total costs of services for the years ended 31 March 2022 and 2021 respectively. The Group's largest subcontractor accounted for approximately 23.6% of the total costs of services for the year ended 31 March 2022 (2021: 6.0%). The Group's five largest subcontractors accounted for approximately 52.3% of the total costs of services for the year ended 31 March 2022 (2021: 21.2%).

To the best knowledge of the Directors, none of the Directors or any of their respective close associates, or any shareholder had any interest in the Group's five largest subcontractors.

The Group selected subcontractors on a project-by-project basis, based on the Group's assessment of their (i) service quality; (ii) timeliness on delivery; (iii) price; and (iv) whether they have a quality assurance system that meets the Group's works requirements. The Group regularly reviews and updates the internal approved list of subcontractors according to the Group's evaluation.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

Employees

The Group recognises employees as valuable assets of the Group and during the year ended 31 March 2022, the Group endeavored to attract and retain appropriate and suitable personnel to serve the Group. The Group assesses the available human resources on a continual basis and will determine whether additional personnel are required to cope with the business development of the Group.

The Directors consider that the Group has maintained good relationship with its employees. The Group was not involved in any labour disputes nor did the Group experience any difficulties in recruiting and retaining experienced or skilled staff members which would have a material impact on the Group business, financial condition or results of operations. The Group has not set up any trade union for its employees.

CORPORATE GOVERNANCE REPORT

INTRODUCTION

The Company is committed to achieving and maintaining high standards of corporate governance, as the Board believes that good and effective corporate governance practices are key to obtaining and maintaining the trust of the shareholders of the Company and other stakeholders, and are essential for encouraging accountability and transparency so as to sustain the success of the Group and to create long-term value for the shareholders of the Company.

CORPORATE GOVERNANCE PRACTICE

The Company has applied the principles and code provisions in the Corporate Governance Code (the “**CG Code**”) as set out in Appendix 15 to the GEM Listing Rules as its corporate governance practices. During the year ended 31 March 2022, to the best knowledge of the Board, the Company has complied with the applicable code provisions of the CG Code except for the deviation from code provision D.2.5 of the CG Code as set out in “Risk Management and Internal Control” below in this corporate governance report.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted a code of conduct for dealing in securities of the Company by the Directors on terms no less exacting than the required standards of dealings set out in Rules 5.48 to 5.68 of the GEM Listing Rules (the “**Required Standard of Dealings**”). The Company had also made specific enquiry to all the Directors and each of them was in compliance with the Required Standard of Dealings throughout the year under review. Further, the Company was not aware of any non-compliance with the Required Standard of Dealings by the Directors throughout the year under review.

BOARD OF DIRECTORS

As at the date of this annual report, the Board comprised five Directors, including two executive Directors, namely Mr. Cheng and Mr. Ji, and three independent non-executive Directors, namely Mr. Chow, Dr. Kung and Ms. Wong.

The overall management of the Company’s business is vested in the Board which assumes the responsibility for leadership and control of the Company and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. All the Directors should make decisions objectively in the interests of the Company. The Board has the full support from the executive Directors to discharge its responsibilities.

CORPORATE GOVERNANCE REPORT (Continued)

The day-to-day management, administration and operation of the Company are delegated to the executive Directors. The delegated functions and work tasks are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions entered into by the executive Director(s). The Board also assumes the responsibilities of maintaining high standard of corporate governance, including, among others, developing and reviewing the Company's policies and practices on corporate governance, reviewing and monitoring the training and continuous professional development of Directors, reviewing and monitoring the Company's policies and practices on compliance with legal and regulatory requirements, and reviewing the Company's compliance with the CG Code and the disclosures in this annual report. All Directors, including independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective delivery of the Board functions. Independent non-executive Directors are invited to serve on the Audit Committee, the Remuneration Committee and the Nomination Committee.

The biographical details of the Directors and other senior management are set out in the section headed "Biographical Details of the Directors and Senior Management" on pages 15 to 18 of this annual report. Save as disclosed in the section headed "Biographical Details of the Directors and Senior Management" in this annual report, each of the Board members has no financial, business, family or other material or relevant relationships with each other.

Corporate Governance Functions

The Board is responsible for performing the corporate governance duties as set out in code provision A.2.1 of the CG Code, which include the following:

1. to develop and review the policies and practices on corporate governance of the Group and make recommendations;

Code provision C.5.3 of the CG Code stipulates that at least 14 days' notice should be given for a regular Board meeting. For other Board and Board Committees' meetings, reasonable notices should be given. Board papers together with all appropriate, complete and reliable information are sent to all Directors at least 3 days before each Board meeting or Board Committee meeting to keep the Directors apprised of the latest developments and financial position of the Company and to enable them to make informed decisions. All Directors are provided with details of agenda items for decision making with reasonable notice and are welcomed to include matters in the agenda of each Board meeting. Directors have access to the advice and services of the Company Secretary who is responsible for ensuring that the procedures are complied with and advising the Board on compliance matters.

CORPORATE GOVERNANCE REPORT (Continued)

Minutes of Board meetings and meetings of Board Committees are kept by the Company Secretary and are opened for inspection as requested by Directors. During the year ended 31 March 2022, the Board was given sufficient time to review and approve the minutes of Board meetings and meetings of Board Committees. Directors are also provided with access to independent professional advice, where necessary, in carrying out their obligations as Directors, at the expense of the Company. If potential conflict of interest involving a substantial shareholder or a Director arises which the Board has determined to be material, the matter will be dealt with by a physical Board meeting rather than a written resolution. Directors who are considered to have conflict of interests or material interests in the proposed transactions or issues to be discussed would not be counted in the quorum of meeting and would abstain from voting. The Directors attended meetings in persons or through other means of electronic communication in accordance with the Articles. The day-to-day management, administration and operation of the Company are delegated to the executive Directors and the senior management of the Group. The delegated functions and work tasks are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions entered into by the executive Directors and senior management. All Directors assume the responsibilities owed to the shareholders of the Company for the well-being and success of the Company. They are aware of their duties to act in good faith and in the best interests of the Company. The Board is responsible for maintaining proper accounting records so as to enable the Directors to monitor the Company's overall financial position. The Board updates shareholders on the operations and financial position of the Group through quarterly, half yearly and annual results announcements as well as the publication of timely announcements of other matters as prescribed by the relevant rules and regulations.

BOARD DIVERSITY POLICY

The Board adopted a board diversity policy (the “**Board Diversity Policy**”) on 28 December 2018. The Company embraced the benefits of having a diverse Board, as such, the Board Diversity Policy aimed to set out the approach to maintain diversity of the Board. A summary of the Board Diversity Policy, together with the measurable objectives set for implementing the Board Diversity Policy, and the progress made towards achieving those objectives are disclosed below.

Summary of the Board Diversity Policy

With a view to achieve a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. In determining the Board's composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, professional experience, cultural and educational background, expertise, skills and know how. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Measurable Objectives

Selection of Board candidates will be based on a range of diversity perspectives, including but not limited to gender, age, professional experience, cultural and educational background, expertise, skills and know how. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

Monitoring and reporting

The Nomination Committee will report annually, in the corporate governance report, on the Board's composition under diversified perspectives, and monitor the implementation of this Board Diversity Policy including but is not limited to the progress towards meeting the measurable objectives of this policy.

NOMINATION POLICY

The Board adopted a nomination policy (the "**Nomination Policy**") on 28 December 2018. A summary of the Nomination Policy, together with the measurable objectives set for implementing the Nomination Policy, and the progress made towards achieving those objectives are disclosed below.

Summary of the Nomination Policy

The Nomination Policy aims to set out the approach to guide the Nomination Committee in relation to the selection, appointment and re-appointment of the Directors. This also ensure that the Board has a balance of skills, experience, knowledge and diversity of perspectives appropriate to the requirements of the Company's business.

Measurable Objectives

The Nomination Committee will evaluate, select and recommend candidate(s) for directorships to the Board by giving due consideration to criteria including but not limited to:

- (a) The Nomination Committee will, giving due consideration to the current composition and size of the Board, develop a list of desirable skills, perspectives and experience at the outset to focus the search effort (collectively, the "**Criteria**");
- (b) The Nomination Committee may consult any source it deems appropriate in identifying or selecting suitable candidates, such as referrals from existing Directors, advertising, recommendations from an independent agency firm and proposals from shareholders of the Company with due consideration given to the Criteria;
- (c) The Nomination Committee may adopt any process it deems appropriate in evaluating the suitability of the candidates, such as interviews, background checks, presentations and third-party reference checks;
- (d) Upon considering a candidate suitable for the directorship, the Nomination Committee will hold a meeting and/or by way of written resolutions to, if thought fit, approve the recommendation to the Board for appointment;
- (e) The Nomination Committee will thereafter make the recommendation to the Board in relation to the proposed appointment and the proposed remuneration package; and
- (f) The Board will have the final authority on determining the selection of nominees and all appointment of Directors will be confirmed by the filing of the consent to act as Director of the relevant Director (or any other similar filings requiring the relevant Director to acknowledge or accept the appointment as Director, as the case may be) to be filed with the Registrar of Companies in Hong Kong.

CORPORATE GOVERNANCE REPORT (Continued)

Monitoring and Reporting

The Nomination Committee will assess and report annually, in the corporate governance report, on the composition of the Board, and launch a formal process to monitor the implementation of this Nomination Policy as appropriate.

REVIEW OF NOMINATION POLICY

The Nomination Committee will launch a formal process to review this Nomination Policy periodically to ensure that it is transparent and fair, remains relevant to the Company's needs and reflects the current regulatory requirements and good corporate governance practice. The Nomination Committee will discuss any revisions that may be required and recommend any such revisions to the Board for consideration and approval.

DISCLOSURE OF NOMINATION POLICY

A summary of Nomination Policy including the nomination procedures and the process and Criteria adopted by the Nomination Committee to select and recommend candidates for directorship during the year ended 31 March 2022 will be disclosed in the annual corporate governance report.

In the circular to shareholders for proposing a candidate as an independent non-executive Director, it should also set out:

- the process used for identifying the candidate and why the Board believes the candidate should be elected and the reason why it considers the candidate to be independent;
- if the proposed independent non-executive director will be holding their seventh (or more) listed company directorship, the reason the board believes the candidate would still be able to devote sufficient time to the Board;
- the perspectives, skills and experience that the candidate can bring to the Board; and
- how the candidate can contribute to the diversity of the Board.

DIVIDEND POLICY

The Board adopted a dividend policy (the "**Dividend Policy**") on 28 December 2018. According to the Dividend Policy, in deciding whether to propose any dividend payout, the Board shall also take into account, inter alia:

- the Group's actual and expected financial performance;
- shareholders' interests;

CORPORATE GOVERNANCE REPORT (Continued)

- retained earnings and distributable reserves of the Company and each of the other members of the Group;
- the level of the Group's debts to equity ratio, return on equity and financial covenants to which the Group is subject;
- possible effects on the Group's creditworthiness;
- any restrictions on payment of dividends that may be imposed by the Group's lenders;
- the Group's expected working capital requirements and future expansion plans;
- liquidity position and future commitments at the time of declaration of dividend;
- taxation considerations;
- statutory and regulatory restrictions;
- general business conditions and strategies;
- general economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Company; and
- other factors that the Board deems appropriate.

Such declaration and payment of dividends shall remain to be determined at the discretion of the Board and subject to all applicable requirements (including without limitation restrictions on dividend declaration and payment) under the Companies Ordinance (Cap. 622 of the Laws of Hong Kong) and the Articles. Except for interim dividend, any dividends declared by the Company must be approved by an ordinary resolution of shareholders at the general meeting and must not exceed the amount recommended by the Board. The Board may from time to time pay to the shareholders such interim dividends as appear to the directors to be justified by the financial conditions and the profits of the Company available for distribution.

The Company will continually review the Dividend Policy and reserves the right in its sole and absolute discretion to update, amend and/or modify the Dividend Policy at any time, and this Dividend Policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and/or in no way obligate the Company to declare a dividend at any time or from time to time.

For the year ended 31 March 2022, the remuneration paid or payable to the external auditor of the Company in respect of the statutory audit services and non-audit services for the Group are as follows:

	Fees paid/ payable for the services rendered HK\$'000
Statutory audit services	900
Non-audit services	–

RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for the risk management and internal control systems (the “**Systems**”) and reviews their effectiveness annually. Such Systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and establishing and maintaining appropriate and effective Systems.

The Company has been developing and adopting various risk management procedures and guidelines with defined authority for implementation by key business processes and office functions, including project management, financial reporting, human resources etc. The main features are as follows:

Control structure

A. The Board

- (I) ensure the maintenance of appropriate and effective Systems in order to safeguard the shareholders' investment and assets of the Company;
- (II) define management structure with clear lines of responsibility and limit of authority; and
- (III) determine the nature and extent of significant risk that the Company is willing to take in achieving the strategic objectives and formulate the Company's risk management strategies.

CORPORATE GOVERNANCE REPORT (Continued)

B. Audit Committee

- (I) assist the Board in leading the management of the Company (the “**Management**”) and overseeing their design, implementation and monitoring of the Systems of the Company;
- (II) review and discuss with the Management annually to ensure that the Management has performed its duty to have effective Systems; and
- (III) consider major findings on internal control matters and make recommendations to the Board.

C. The Management

- (I) design, implement and monitor the Systems properly and ensure the Systems are executed effectively;
- (II) monitor risks and take measures to mitigate risks in day-to-day operations;
- (III) give prompt responses to, and follow up the findings on internal control matters; and
- (IV) provide confirmation to the Board on the effectiveness of the Systems.

D. Internal Audit Function

- (I) carry out the analysis and independent appraisal of the adequacy and effectiveness of the Systems.

Control approach

The risk management process includes risk identification, risk evaluation and risk management measures and also reviewing the effectiveness of the Systems and resolving material internal control defects.

The Management conducted interviews with relevant staff members, reviewing relevant documentation of the internal control system, identifying and evaluating findings of any deficiencies in the design of the Company’s internal control system, providing recommendations for improvement and following up on the effectiveness of implementation of such recommendations, where appropriate. The scope and findings of review on the risk management and internal control are reported to and reviewed by the Audit Committee during the year ended 31 March 2022.

Procedure manuals and operational guidelines are in place to safeguard the assets against unauthorised use or disposition, ensuring maintenance of proper accounting records in compliance with the applicable laws, rules and regulations for the provision of reliable financial information for internal use and/or external publication.

CORPORATE GOVERNANCE REPORT (Continued)

During the year ended 31 March 2022 under review, the Group appointed external professional to:

- assist in identifying and assessing the risks of the Group through a series of workshops and interviews; and
- independently perform internal control review and assess effectiveness of the Group's risk management and internal control systems.

The results of the independent review and assessment were reported to the Audit Committee and the Board. Moreover, improvements in internal control and risk management measures as recommended by external professional to enhance the risk management and internal control systems of the Group and mitigate risks of the Group were adopted by the Board. Based on the findings and recommendations of external professional as well as the comments of the Audit Committee, the Board considered the internal control and risk management systems effective and adequate.

The Group has yet to establish its internal audit function during the year ended 31 March 2022 as required under code provision D.2.5 of the CG Code. The Directors have reviewed the need for an internal audit function and are of the view that in light of the size, nature and complexity of the business of the Group, it would be more cost effective to appoint external independent professionals to perform internal audit function for the Group in order to meet its needs. The Audit Committee and the Board have considered the internal control review report prepared by an independent consultancy company and communications with the Company's external auditor in respect of any material control deficiencies identified during the course of the financial statement audit to form the basis to review the adequacy and effectiveness of the Group's risk management and internal control systems. The Company considers that sufficient risk management and internal control of the Group can be maintained with the above-mentioned arrangements. The Audit Committee and the Board will continue to review the need for an internal audit function on an annual basis.

Inside Information

To ensure timely, fair, accurate and complete disclosure of inside information and for compliance with the applicable laws and regulations, the Group has in place, as an internal control element, procedures for handling and dissemination of inside information. Under the procedures, heads of business units shall report to the Directors any potential inside information event as soon as practicable when it materialises for determining the nature of developments, and if required, making disclosure.

Annual Review

During the year ended 31 March 2022, the Audit Committee has conducted an annual review of the risk management and internal control systems. The results of the review were reported by the Audit Committee to the Board, based on which the Directors concluded that, for the year ended 31 March 2022, the risk management and internal control systems were effective and adequate and, save for the deviation from code provision D.2.5 of the CG Code as set out above, the Group has complied with the provisions in the CG Code regarding risk management and internal control.

COMMUNICATION WITH SHAREHOLDERS AND INVESTOR RELATIONS

The Company has adopted shareholders communication policy with objective of ensuring that the shareholders and potential investors are provided with ready, equal and timely access to balanced and understandable information about the Company.

The Company has established several channels to communicate with the shareholders of the Company as follows:

- (I) corporate communications such as annual reports, quarterly reports, interim reports and circulars are issued in printed form and are available on the Stock Exchange's website at "www.hkexnews.hk" and the Company's website at "www.quantongholdings.com";
- (II) periodic announcements are made through the Stock Exchange and published on the respective websites of the Stock Exchange and the Company;
- (III) corporate information is made available on the Company's website;
- (IV) annual and special general meetings provide a forum for the shareholders to make comments and exchange views with the Directors and senior management; and
- (V) the Hong Kong share registrar of the Company serves the shareholders in respect of share registration, dividend payment and related matters.

The Company keeps on promoting investor relations and enhancing communication with the existing shareholders and potential investors. It welcomes suggestions from investors, stakeholders and the public. Enquires to the Board or the Company may be sent by post to the Company's principal place of business in Hong Kong.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT ("ESG REPORT")

The Company will issue a separate ESG Report no later than five months after the end of the financial year in compliance with Appendix 20 to the GEM Listing Rules, which will be available on the Stock Exchange's website at "www.hkexnews.hk" and the Company's website at "www.quantongholdings.com".

CHANGES IN CONSTITUTIONAL DOCUMENTS

During the year ended 31 March 2022, there was no change in the constitutional documents of the Company.

As disclosed in the announcement of the Company dated 12 July 2022 and the circular of the Company dated 19 July 2022, a special resolution will be proposed at the extraordinary general meeting of the Company to be convened and held on 10 August 2022 to approve, among others, the proposed amendments to the existing memorandum and articles of association of the Company, in order to, among others, conform to the amended Appendix 3 to the GEM Listing Rules which came into effect on 1 January 2022 and applicable laws of the Cayman Islands. For further details, please refer to the circular of the Company dated 19 July 2022.

CORPORATE GOVERNANCE REPORT (Continued)

SHAREHOLDERS' RIGHT

As one of the measures to safeguard shareholders' interest and rights, separate resolutions are proposed at shareholders' meetings on each substantial issue, including the election of individual directors, for shareholders' consideration and voting. All resolutions put forward at shareholders' meeting will be voted by poll pursuant to the GEM Listing Rules and the poll voting results will be posted on the Stock Exchange's website and the Company's website after the relevant shareholders' meeting.

Extraordinary general meeting may be convened by the Board on requisition of shareholders holding not less than one-tenth of the paid up capital of the Company (the "Requisitionists") pursuant to Article 64 of the Articles. Such requisition must state the object of business to be transacted at the meeting and must be signed by the Requisitionists and deposited at the registered office of the Company or the Company's principal place of business in Hong Kong. Shareholders should follow the requirements and procedures as set out in such article for convening an extraordinary general meeting. Shareholders may put forward proposals with general meeting of the Company by sending the same to the Company at the principal office of the Company in Hong Kong.

For putting forward any enquiries to the Board, shareholders may send written enquiries to the Company. Shareholders may send their enquiries or requests in respect of their rights to the Company's principal place of business in Hong Kong.

DISCLOSURE OF INSIDE INFORMATION

The Group has in place a policy on disclosure of inside information which sets out the procedures and internal controls for handling and dissemination of inside information.

The policy provides guidelines to the Directors, officers and all relevant employees of the Group to ensure proper safeguards exist to prevent the Company from breaching the statutory disclosure requirements. It also includes appropriate internal control and reporting systems to identify and assess potential inside information. Key procedures in place include:

- define the requirements of periodic financial and operational reporting to the Board and the Company Secretary to enable them to assess inside information and make timely disclosures, if necessary;
- control the access to inside information by employees on a need-to-know basis, and safeguarding the confidentiality of the inside information before it is properly disclosed to public;
- procedures of communicating with the Group's stakeholders, including shareholders, investors, analysts, etc. in ways which are in compliance with the GEM Listing Rules.

The Group has also established and implemented procedures to handle enquiries from external parties related to the market rumours and other Group's affairs.

To avoid uneven dissemination of inside information, the dissemination of inside information of the Company shall be conducted by publishing the relevant information on the Stock Exchange's website and the Company's website.

Accordingly, Mr. Cheng Jun, Mr. Chow Chun To, Dr. Kung Wai Chiu Marco and Ms. Wong Chi Yan will retire from office as Directors at the forthcoming annual general meeting of the Company. Mr. Cheng Jun, Mr. Chow Chun To, Dr. Kung Wai Chiu Marco and Ms. Wong Chi Yan, being eligible, will offer themselves for re-election.

DIRECTORS' REPORT (Continued)

PERMITTED INDEMNITY PROVISION

Every Director shall be entitled to be indemnified out of the assets and profits of the Company from and against all actions, costs, charges, losses and liabilities incurred or sustained by him/her as a Director in defending any proceedings, whether civil or criminal, in which judgment is given in his/her favour, or in which he/she is acquitted.

DIRECTORS' SERVICE CONTRACTS

Each of the executive Directors has entered into a service contract with the Company for an initial term of three years which may be terminated by not less than one month's notice in writing served by either party on the other and is subject to retirement by rotation and re-election in accordance with the Articles.

Pursuant to the letter of appointment between the Company and each of the independent non-executive Directors, the independent non-executive Directors have been appointed for an initial term of three years which may be terminated by either party by giving no less than two months' written notice.

None of the Directors has any unexpired service contract which is not determinable by the Company or its subsidiaries within one year without payment of compensation (other than statutory compensation).

DIRECTORS' AND SENIOR MANAGEMENT'S BIOGRAPHIES

Biographical details of the Directors and the senior management of the Group are set out on pages 15 to 18 of this annual report.

EMOLUMENTS OF DIRECTORS AND FIVE HIGHEST PAID INDIVIDUALS

Details of the emoluments of the Directors and the five highest paid individuals of the Group are set out in Note 11 to the consolidated financial statements.

EMOLUMENT POLICY

The Remuneration Committee is set up for reviewing the Group's emolument policy and structure for all remuneration of the Directors and senior management of the Group, having regard to the Group's operating results, individual performance and comparable market practices.

The Remuneration Committee will meet at least once each year to discuss remuneration related matters (including the remuneration of Directors and senior management) and review the remuneration policy of the Group. It has been decided that Remuneration Committee would determine, with delegated responsibility, the remuneration packages of individual executive Directors and senior management.

DIRECTORS' INTEREST IN SIGNIFICANT CONTRACTS

Save for the related party transactions disclosed in Note 28 to the consolidated financial statements and the cash advances and shareholder loans granted by Mr. Xing Yuan (a former director of the Company who resigned on 19 May 2022) to the Group disclosed in Note 21 to the consolidated financial statements, no Director or an entity connected with a Director had a material interest, either directly or indirectly, in any transaction, arrangement or contract of significance in relation to the business of the Group to which the Company or any of its subsidiaries was a party that was subsisting during or at the end of the year ended 31 March 2022.

CONTROLLING SHAREHOLDERS' INTERESTS IN CONTRACTS

Save as disclosed in the section headed “Directors’ Report — Related Party Transaction” above and the cash advances and shareholder loans granted by Mr. Xing Yuan (a controlling shareholder of the Company as at the date of this annual report) to the Group disclosed in Note 21 to the consolidated financial statements, neither the Company nor any of its subsidiaries had entered into any contract of significance with the Company’s controlling shareholders (as defined in the GEM Listing Rules) or their subsidiaries, or any contract of significance for the provision of services to the Company or any of its subsidiaries by the Company’s controlling shareholders (as defined in the GEM Listing Rules) or their subsidiaries during the year ended 31 March 2022.

MANAGEMENT CONTRACTS

As at 31 March 2022, the Company did not enter into or have any management and administration contracts in respect of the whole or any substantial part of any business of the Company.

PENSION SCHEME ARRANGEMENTS

A Mandatory Provident Fund Scheme (the “**MPF Scheme**”) has been set up for employees of the Group in Hong Kong, in accordance with the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of the Laws of Hong Kong). All employees in Hong Kong are required to join the MPF Scheme and the employees and their employer are each required to contribute 5% of their gross earnings with a current ceiling of HK\$1,500 per month to the MPF scheme. The only obligation of the Group with respect to the MPF Scheme is to make required contribution under the scheme. No forfeited contribution is available to reduce the contribution payable in the future. The contribution charged to the consolidated statement of comprehensive income represents the contribution payable to the funds by the Group.

DIRECTORS' RIGHT TO ACQUIRE SHARES

Apart from as disclosed under the paragraph headed “Disclosure of Interests” below and the share option scheme disclosures in Note 34 to the consolidated financial statements, at no time during the year ended 31 March 2022 were rights to acquire benefits by means of the acquisition of shares in the Company granted to any director or their respective spouse or children under 18 years of age, or were any such rights exercised by them; or was the Company, or the Company’s subsidiary or holding company or a subsidiary of the Company’s holding company a party to any arrangement to enable the directors to acquire such rights in any other body corporate.

A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint BDO Limited as auditor of the Company. The Company has not changed its external auditors in any of the preceding three years.

ON BEHALF OF THE BOARD

Mr. Cheng Jun

Chairman and Executive Director

Hong Kong, 29 July 2022

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF QUANTONG HOLDINGS LIMITED

(incorporated in Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Quantong Holdings Limited (the “Company”) and its subsidiaries (together the “Group”) set out on pages 53 to 119, which comprise the consolidated statement of financial position as at 31 March 2022, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s “Code of Ethics for Professional Accountants” (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note 3(b) to in the consolidated financial statements, which indicates that the Group incurred a net loss of approximately HK\$10,419,000 for the year ended 31 March 2022. In addition, the Group had net current liabilities and net liabilities of approximately HK\$44,212,000 and HK\$51,839,000, respectively, as at 31 March 2022 while the Group only had cash and cash equivalents of approximately HK\$2,206,000 on the same date. As stated in Note 3(b), these conditions, indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the “Material Uncertainty Related to Going Concern” section, we have determined the matters described below to be the key audit matters to be communicated in our report.

INDEPENDENT AUDITOR'S REPORT (Continued)

REVENUE RECOGNITION FOR CONSTRUCTION CONTRACTS

The Group's revenue from construction contracts amounted to approximately HK\$72,358,000 for the year ended 31 March 2022. As described in Note 4(i) and 5(b)(i) to the consolidated financial statements, the Group recognises revenue overtime, which is by reference to the progress towards complete satisfaction of performance obligation at the end of the reporting period, measured using the output method in accordance with HKFRS 15 "Revenue from contracts with customers". For those contracts that contain variable consideration, the Group estimates the amount of variable consideration to which it will be entitled and includes it in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

We identified the revenue recognition of construction contracts as a key audit matter as the revenue recognition of construction contract involved significant management judgement and estimate. Further the uncertainty and subjectivity involved in determining the estimation of contract revenue may have a significant impact on the results of the Group.

Our response:

- Obtaining an understanding of and evaluating the key controls related to revenue recognition of construction contracts;
- Discussing with management of the Group about the bases of estimation of the budget revenue and costs as well as the progress towards completion of the contracts and evaluating reasonableness thereof;
- Assessing the Group's revenue recognition practice to determine that they are in compliance with HKFRS 15 "Revenue from contracts with customers", including the determination of performance obligations and the assessment of the Group's efforts or inputs to the construction contracts (i.e. contract costs incurred for work performed) relative to the total expected inputs to the construction contracts;
- Assessing reasonableness of revenue recognised and the progress towards completion of the contracts by reference to the relevant payment certificates issued by customers;
- Checking on sample basis, the basis used for evaluating reasonableness of budgeted costs against our understanding on the construction services;
- Reviewing contract budget prepared by management of the Group for each on-going construction contract to assess whether foreseeable losses on contracts has been properly recognised; and
- Re-performing the calculations of revenue of each performance obligation and investigating if there is any discrepancy or cut-off variance.

IMPAIRMENT OF TRADE RECEIVABLES AND CONTRACT ASSETS IN RESPECT OF EXPECTED CREDIT LOSSES ("ECLs")

As set out in Notes 17 and 16 to the consolidated financial statements as at 31 March 2022, the carrying amounts of the Group's trade receivables and contract assets amounted to approximately HK\$39,074,000 (after the provision of HK\$1,357,000) and HK\$16,231,000 (after the provision of HK\$461,000), respectively, which represent approximately 61% and 25% respectively of the Group's total assets.

INDEPENDENT AUDITOR'S REPORT (Continued)

Management of the Group has determined the provision for the trade receivables and contract assets by estimating a lifetime expected loss allowance for all trade receivables and contract assets. The loss allowance for financial assets and contract assets is determined based on a number of key assumptions. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on information including the Group's historical credit loss experience, the number of days past due, adjusted for forward-looking factors (e.g. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment.

We identified the impairment of trade receivables and contract assets as a key audit matter due to the significance of the carrying amounts of trade receivables and contract assets to the consolidated financial statements, as well as the significant judgement involved in developing and implementing the ECLs model and high level of estimation uncertainty, which is set out in Note 5(b)(iii).

Our response:

- Understanding and evaluating the key controls that the Group has implemented to manage and monitor its credit risk, and validating the control effectiveness on a sample basis;
- Understanding management's process of assessing ECLs of trade receivables and contract assets;
- Assessing the appropriateness of management's ECL model, challenging assumptions and data used in estimating ECLs, including testing the accuracy of historical data, evaluating whether historical loss rates are appropriately adjusted based on current economic conditions and forward-looking information and assessing whether there was an indication of management bias when recognising loss allowances;
- Engaging our internal valuation specialist to assess the reasonableness of the forward-looking information and credit rating used by the management's expert; and
- Discussing with management about its evaluation of impact of disputes with customers and unforeseen delay of construction contracts, if any, on the recoverability of trade receivables and contract assets and checking to those relevant correspondences and documents to assess reasonableness of the evaluation.

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT (Continued)

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The audit committee of the Company (the "Audit Committee") assists the directors in discharging their responsibility in this regard.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

INDEPENDENT AUDITOR'S REPORT (Continued)

- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguard applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

³ Effective for annual periods beginning on or after a date to be determined.

The directors of the Company are in the process of making an assessment of the impact of these new or revised HKFRSs is expected to be in the period of initial adoption. Up to date when the consolidated financial statements were approved and authorised for issue by the board of directors of the Company, the directors of the Company did not aware of any aspect of these new or revised HKFRSs which are likely to have a significant impact on the preparation or presentation on the Group’s consolidated financial statements.

3. BASIS OF PRESENTATION AND PREPARATION

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRS”) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the GEM of the Stock Exchange of Hong Kong Limited.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

3. BASIS OF PRESENTATION AND PREPARATION (Continued)

(b) Basis of preparation and going concern assumption

The consolidated financial statements have been prepared under the historical cost basis.

The Group incurred a net loss of approximately HK\$10,419,000 for the year ended 31 March 2022. In addition, the Group had net current liabilities and net liabilities of approximately HK\$44,212,000 and HK\$51,839,000, respectively, as at 31 March 2022 while the Group only had cash and cash equivalents of approximately HK\$2,206,000 on the same date. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern, and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

The consolidated financial statements have been prepared on a going concern basis as the directors, based on a cash flow forecast that is prepared by them covering a period from 1 April 2022 to 30 June 2023 (the "Cash Flow Forecast"), and assuming that Mr. Xing and Mr. Fu (as defined below) would fulfill their undertakings, are satisfied that the Group will have sufficient working capital to finance its operation and to meet its financial obligations as and when they fall due. In preparing the Cash Flow Forecast, the directors have taken account of the following:

- (i) Subsequent to the year end, Mr. Xing Yuan ("Mr. Xing"), a former executive director of the Company and the beneficial owner of the ultimate parent of the Company, has undertaken not to demand repayment of the current portion of amount due from the Company of HK\$18,151,000 as at 31 March 2022 (Note 21) within eighteen months from 31 March 2022.
- (ii) In July 2022, Mr. Xing entered into two loan facility agreements with two financial institutions in Hong Kong and the PRC for the amounts of HK\$50 million and RMB50 million (equivalent approximately to HK\$62 million) available for withdrawal in the coming 18 months since the agreement dates, respectively (the "Loan Facilities") and made the Loan Facilities available to the Company and pursuant to the terms of the Loan Facilities, funds are exclusively for the Company and made available upon its request.
- (iii) Subsequent to the year end, Mr. Fu Yik Lung ("Mr. Fu"), a related party of the Company, has undertaken not to demand repayment of the amount due from the Company of HK\$15,050,000 as at 31 March 2022 (Note 21), within eighteen months from 31 March 2022.

Should the use of the going concern basis in preparation of the consolidated financial statements be considered to be inappropriate, adjustments would have to be made to write down the carrying amounts of the Group's assets to their net realisable values, to provide for any further liabilities which might arise and to re-classify non-current assets and liabilities to current assets and liabilities. The effect of these adjustments have not been reflected in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

3. BASIS OF PRESENTATION AND PREPARATION (Continued)

(c) Functional and presentation currencies

The consolidated financial statements are presented in Hong Kong Dollars (“HK\$”), which is also the functional currency of the Company, and all values are rounded to the nearest thousands, except when otherwise indicated.

4. SIGNIFICANT ACCOUNTING POLICIES

(a) Business combination and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the dates of acquisition or up to the dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive processes and whether the acquired set has the ability to produce outputs.

Changes in the Group’s interests in a subsidiary that do not result in a loss of control of the subsidiary are accounted for as equity transactions. The carrying amount of the Group’s interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

Any contingent consideration to be transferred by the acquirer is recognised at acquisition-date fair value. Subsequent adjustments to consideration are recognised against goodwill only to the extent that they arise from new information obtained within the measurement period (a maximum of 12 months from the acquisition date) about the fair value at the acquisition date. All other subsequent adjustments to contingent consideration classified as an asset or a liability are recognised in profit or loss.

When the Group loses control of a subsidiary, the gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for on the same basis as would be required if the relevant assets or liabilities were disposed of.

For the year ended 31 March 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Business combination and basis of consolidation (Continued)

Subsequent to acquisition, the carrying amount of non-controlling interests that represent present ownership interests in the subsidiary is the amount of those interests at initial recognition plus such non-controlling interest's share of subsequent changes in equity. Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income is attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to such non-controlling interests even if this results in those non-controlling interests having a deficit balance.

(b) Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: (i) power over the investee, (ii) exposure, or rights, to variable returns from the investee, and (iii) the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment losses, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(c) Property, plant and equipment

Property, plant and equipment, including right-of-use assets arising from leased building where the Group is not the registered owner of the property interest (see Note 4(e)), are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Property, plant and equipment (Continued)

Property, plant and equipment are depreciated so as to write off their cost net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The principal annual rates are as follows:

Leased building	Over shorter of asset's useful life and the lease terms
Leasehold improvements	Over the lease term but not exceeding 5 years
Machineries	Over shorter of 20% per annum and the lease terms
Furniture and equipment	20% per annum
Motor vehicles	30% per annum

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in the profit or loss on disposal.

(d) Government grant

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable and are recognised as other revenue, rather than reducing the related expense.

(e) Leases

The Group as a lessee

All leases are required to be capitalised in the consolidated statement of financial position as right-of-use assets and lease liabilities, but accounting policy choices exist for an entity to choose not to capitalise (i) leases which are short-term leases and/or (ii) leases for which the underlying asset is of low-value. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets and leases for which at the commencement date have a lease term of less than 12 months and low-value assets. The lease payments associated with those leases have been expensed on straight-line basis over the lease term.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) Leases (Continued)

Right-of-use asset

The right-of-use asset is recognised at cost and would comprise: (i) the amount of the initial measurement of the lease liability (see below for the accounting policy to account for lease liability); (ii) any lease payments made at or before the commencement date, less any lease incentives received; (iii) any initial direct costs incurred by the lessee; and (iv) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group measures the right-to-use assets at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liability. The Group presents leased building which is held for own use under property, plant and equipment and are amortised over the shorter of assets' useful life and lease term on a straight-line basis.

Lease liability

The lease liability is recognised at the present value of the lease payments that are not paid at the date of commencement of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

The following payments for the right-to-use the underlying asset during the lease term that are not paid at the commencement date of the lease are considered to be lease payments: (i) fixed lease payments less any lease incentives receivable; (ii) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at commencement date; (iii) amounts expected to be payable by the lessee under residual value guarantees; (iv) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and (v) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Subsequent to the commencement date, the Group measures the lease liability by: (i) increasing the carrying amount to reflect interest on the lease liability; (ii) reducing the carrying amount to reflect the lease payments made; and (iii) remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

When the Group revises its estimate of the term of any lease (because, for example, it reassesses the probability of a lessee extension or termination option being exercised), it adjusts the carrying amount of the lease liability to reflect the payments to make over the revised term, which are discounted using a revised discount rate. The carrying value of lease liabilities is similarly revised when the variable element of future lease payments dependent on a rate or index is revised, except the discount rate remains unchanged. In both cases, an equivalent adjustment is made to the carrying value of the right-of-use asset, with the revised carrying amount being amortised over the remaining (revised) lease term. If the carrying amount of the right-of-use asset is adjusted to zero, any further reduction is recognised in profit or loss.

The Group as a lessor

The Group has leased out its machineries to a tenant. Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on the straight-line basis over the lease term.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial instruments

(i) Financial assets

A financial asset (unless it is a trade receivable without a significant financing component) is initially measured at fair value plus, for an item not at fair value through profit or loss (“FVTPL”), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement of debt instruments depends on the Group’s business model for managing the asset and the cash flow characteristics of the asset. The Group classifies its financial assets at amortised cost as explain below:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest rate method. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain on derecognition is recognised in profit or loss.

(ii) Impairment loss on financial assets

The Group recognises loss allowances for expected credit losses (“ECLs”) on trade and other receivables, contract assets and other financial assets measured at amortised cost. The ECLs are updated at each reporting period and are measured on either of the following bases: (1) 12-month ECLs: these are the ECLs that result from possible default events within the 12 months after the reporting date; and (2) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk. The Group always recognise lifetime ECL for trade receivables and contract assets.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets’ original effective interest rate.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial instruments (Continued)

(ii) Impairment loss on financial assets (Continued)

The Group measured loss allowances for trade receivables, and contract assets using HKFRS 9 simplified approach and has calculated ECLs based on lifetime ECLs. The ECL on trade receivables and contract assets are assessed individually.

The Group has estimated lifetime ECLs on an individual customer basis that is based on various factors including the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions, the number of days past due, adjusted for forward-looking factors (i.e. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

For other debt financial assets, the ECLs are based on the 12-month ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs.

Significant increase in credit risk

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

(f) Financial instruments (Continued)

(ii) Impairment loss on financial assets (Continued)

Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full. Irrespective of the above, the Group considers that default has occurred when a financial asset is more than one year past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. All trade receivables with more than one year past due are considered an event of default and fully credit-impaired.

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments where the corresponding adjustment is recognised through loss allowance account.

Interest income on credit-impaired financial assets is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset. For non credit-impaired financial assets interest income is calculated based on the gross carrying amount.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial instruments (Continued)

(iii) Financial liabilities

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred, including financial liabilities at amortised cost. Financial liabilities at amortised cost are initially measured at fair value, net of directly attributable costs incurred.

Financial liabilities at amortised cost

Financial liabilities at amortised cost including trade and other payables, other borrowings, amount due to a shareholder and loan from a related party are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

(iv) Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(v) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(vi) Derecognition

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKFRS 9.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

Where the Group issues its own equity instruments to a creditor to settle a financial liability in whole or in part as a result of renegotiating the terms of that liability, the equity instruments issued are the consideration paid and are recognised initially and measured at their fair value on the date the financial liability or part thereof is extinguished. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments are measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability or part thereof extinguished and the consideration paid is recognised in profit or loss for the year.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(g) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are employee benefits (other than termination benefits) that are expected to be settled wholly before twelve months after the end of the reporting period in which the employees render the related service. Short-term employee benefits are recognised in the year when the employees render the related service.

(ii) Defined contribution retirement plans

The employees of the Group's subsidiaries which operate in PRC are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

For the defined contribution schemes of the Group, the forfeited contributions (by employers on behalf of employees who leave the scheme prior to vesting fully in such contributions) would not be used by the employer to reduce the existing level of contribution.

(iii) Termination benefits

Termination benefits are recognised on the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs involving the payment of termination benefits.

(h) Cash and cash equivalents

Cash and cash equivalents, including cash and bank balances, comprise cash on hand and demand deposits and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. For the purpose of the combined statements of cash flows, cash and cash equivalents include bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Revenue recognition

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, excluding those amounts collected on behalf of third parties. Revenue is after deduction of any trade discounts.

Depending on the terms of the contract and the laws that apply to the contract, control of the goods or service may be transferred over time or at a point in time. Control of the goods or service is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates or enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the goods or services transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the goods or service.

When the contract contains a financing component which provides the customer a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amounts receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liabilities under the effective interest method. For contracts where the period between the payment and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

As the delayed payment terms in respect of retention receivables are for reasons other than to provide financing to the customers, which is security given to the customer (i.e. the contractor) in case that the Group fails to adequately complete some or all of its obligations under the contract, there are no significant financing component identified.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Revenue recognition (Continued)

(a) Provision of foundation and other construction services

The Group provides foundation and other construction services based on contracts entered into with customers. Such contracts are entered into before the services begin. Based on the terms of the contracts and the specific facts and circumstances, the Group recognises revenue from provision of foundation and other construction service is recognised over time as the Group believes that, the foundation and other construction work performed by the Group creates or enhances the assets that the customers control as the assets is created or enhanced. Revenue from provision of foundation construction work is therefore recognised over time using output method, i.e. based on the progress towards completion of the contracts by reference to the relevant payment certificate issued by customers. The Directors consider that output method would faithfully depict the Group's performance towards complete satisfaction of these performance obligations under HKFRS 15 "Revenue from Contracts with Customers".

For other construction services, the construction work is recognised over time using an input method based on the progress towards satisfaction of the services, measured based on proportion of contract cost incurred for work performed to date relative to the estimated total contract cost.

For contracts that contain variable consideration, the Group estimates the amount of consideration to which it will be entitled using either (a) the expected value method or (b) the most likely amount, depending on which method better predicts the amount of consideration to which the Group will be entitled.

The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

For the loss making contracts, when it is probable that total contract cost will exceed total contract revenue, the expected loss is recognised as an expense immediately.

At the end of each reporting period, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances present at the end of each reporting period and the change in circumstance during the reporting period.

(b) Supply and installation of new energy charging piles

The Group provides supply and installation of new energy charging piles services based on contracts entered into with customers. The Group recognised revenue when the supply and installation services are completed and transferred to customers.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Revenue recognition (Continued)

(c) Other income

Interest income is accrued on a time basis on the principal outstanding at the applicable interest rate.

Rental income under operating leases is recognised on a straight-line basis over the term of the relevant lease.

(d) Contract assets and liabilities

Contract assets represents the Group's right to consideration in exchange for services that the Group has transferred to a customer that is not yet unconditional. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

Contract liabilities represents the Group's obligation to transfer services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

Contract assets are recognised when (i) the Group completes the other construction works under such services contracts but yet to issue billing certified through the contract terms agreed by customers, or (ii) the customers retain retention money to secure the due performance of the contracts. Any amount previously recognised as contract assets are reclassified to trade receivables at the point at which it is invoiced to the customer. If the considerations (including advances received from customers) exceeds the revenue recognised to date then the Group recognises contract liabilities for the difference.

(e) Contract costs

The Group recognises an asset from the costs incurred to fulfil a contract when those costs meet all of the following criteria:

- (a) the costs relate directly to a contract or to an anticipated contract that the entity can specifically identify;
- (b) the costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- (c) the costs are expected to be recovered.

The asset recognised is subsequently amortised to profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the cost relate. The asset is subject to impairment review.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of each reporting period. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects any uncertainty, related to income tax.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised, provided that the deductible temporary differences are not arises from initial recognition of assets and liabilities in a transaction other than a business combination that affects neither taxable profit nor the accounting profit. Deferred tax is measured at the tax rates expected to apply in the period when the liability is settled or the asset is realised based on tax rates that have been enacted or substantively enacted at the end of each reporting period, and reflects any uncertainty related to income tax.

Deferred tax liabilities are recognised for taxable temporary differences arising on property, plant and equipment, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items directly recognised in other comprehensive income in which case the taxes are also directly recognised in other comprehensive income.

(k) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Impairment of assets (other than financial assets)

At the end of each reporting period, the Group reviews the carrying amounts of property, plant and equipment and investment in subsidiaries, to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased.

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods. A reversal of an impairment loss is recognised as profit or loss immediately.

(m) Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions apply:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

(m) Related parties (Continued)

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

(n) Capitalisation of borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets.

Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(o) Segment information

The Group identifies operating segments and prepares segment information based on the regular internal financial information reported to the executive directors for their decisions about resources allocation to the Group's business components and for their review the performance of those components. The business components in the internal financial information reported to the executive directors are determined following the Group's major operations.

The measurement policies the Group uses for reporting segment results under HKFRS 8 "Operating Segment" are the same as those used in its consolidated financial statements prepared under HKFRS 8.

(p) Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in first-out method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) Foreign currencies

Transactions entered into by Group entities in a currency other than the currency of the primary economic environment in which they operate (the “functional currency”) are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the reporting date. Exchange differences arising on the retranslation of unsettled monetary assets and liabilities are recognised immediately in profit or loss, except for foreign currency borrowings qualifying as a hedge of a net investment in a foreign operation, in which case exchange differences are recognised in other comprehensive income and accumulated in the exchange reserve along with the exchange differences arising on the retranslation of the foreign operation.

Exchange gains and losses arising on the retranslation of monetary financial assets are treated as a separate component of the change in fair value and recognised in profit or loss. Exchange gains and losses on non-monetary OCI financial assets form part of the overall gain or loss in OCI recognised in respect of that financial instrument.

On consolidation, the results of overseas operations are translated into HK\$ at rates approximating to those ruling when the transactions took place. All assets and liabilities of overseas operations, including goodwill arising on the acquisition of those operations, are translated at the rate ruling at the reporting date. Exchange differences arising on translating the opening net assets at opening rate and the results of overseas operations at actual rate are recognised in other comprehensive income and accumulated in the exchange reserve.

Exchange differences recognised in profit or loss in Group entities’ separate financial statements on the translation of long-term monetary items forming part of the Group’s net investment in the overseas operation concerned are reclassified to other comprehensive income and accumulated in the exchange reserve on consolidation.

On disposal of a foreign operation, the cumulative exchange differences recognised in the exchange reserve relating to that operation up to the date of disposal are transferred to the consolidated statement of comprehensive income as part of the profit or loss on disposal.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of the consolidated financial statements of the Group requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(a) Critical judgements going concern basis

As disclosed in Note 3(b), the consolidated financial statements have been prepared on a going concern basis. The appropriateness of the going concern basis is assessed after taking into account of all relevant available information about the future of the Group, including cash flow forecast of the Group covering a period up to 30 June 2023. Such forecast about the future inherently involves various assumptions and uncertainties. In the preparation of the cash flow forecast of the Company, the Directors assumed that further extension of the loans from a shareholder and a related party would be granted until the Group is able to meet its obligations. Actual results could differ significantly and hence render the adoption of the going concern basis not appropriate.

(b) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(i) Provision of foundation construction services

The determination of the progress of the foundation construction services involves judgements and the Group recognises revenue overtime, which is by reference to the progress towards complete satisfaction of performance obligation at the end of the reporting period, measured using the output method in accordance with HKFRS 15 “Revenue from contracts with customers”. For those contracts that contain variable consideration, the Group estimates the amount of variable consideration to which it will be entitled and includes it in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulated revenue recognised will not occur.

Significant judgement is required in revenue recognition of construction contracts. Further the uncertainty and subjectivity involved in determining the estimation of contract revenue may have a significant impact on the results of the Group.

5. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

(b) Estimates and assumptions (Continued)

(ii) Impairment of non-financial assets

The Group assesses at the end of each of the reporting period whether there is an indication that an asset may be impaired. If any such indication exists, the Group makes an estimate of fair value less cost of disposal and the recoverable amount of the asset. This requires an estimation of the value-in-use of the cash-generating unit (“CGU”) to which the asset is allocated. Fair value less costs of disposal is based on management estimates having regard to estimated fair value provided by an independent external valuer, which is a level 3 fair value measurement. Estimating the value-in-use requires the Group to make an estimate of the expected future cash flows from the CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows. A change in the estimated future cash flows and/or the discount rate applied will result in an adjustment to the estimated impairment provision previously made.

(iii) Expected credit loss allowance of trade and other receivables and contract assets

Management of the Group has determined the provision for the trade and other receivables and contract assets by estimating a lifetime/12-month expected loss allowance for all trade and other receivables and contract assets. The loss allowance for financial assets and contract assets is determined based on a number of key assumptions. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on information including the Group’s historical credit loss experience, the number of days past due, adjusted for forward-looking factors (e.g. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment.

(iv) Income taxes

Determining income tax provisions requires the Group to make judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions in accordance with prevailing tax regulations and makes tax provisions accordingly. In addition, deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised. This requires significant judgement on the tax treatments of certain transactions and also assessment on the probability that adequate future taxable profits will be available for the deferred tax assets to be recovered.

6. REVENUE AND SEGMENT INFORMATION

Operating segments

The Group was principally engaged in the provision of foundation and other construction works and supply and installation of new energy charging piles in Hong Kong and the PRC for the year ended 31 March 2022. The executive directors have been identified as the chief operating decision-maker (“CODM”), responsible for making strategic decisions, allocating resources and assessing performance of the operating segments.

In the current year, the Group commenced the business in the supply and installation of new energy charging piles in the PRC and the Group reorganised its internal reporting structure which resulted in changes to the composition of its reportable segments. Prior year segment disclosures have been represented to conform to the current year’s presentation.

The reportable operating segments and their results are as below:

- provision of foundation and other construction works; and
- provision of services in supply and installation of new energy charging piles.

Year ended 31 March 2022

	Foundation and other construction works HK\$'000	Supply and installation of new energy charging piles HK\$'000	Total HK\$'000

Operating segments (Continued)

Information about major customers

Revenue attributed from customers that accounted for 10% or more of the Group's total revenue during the year is all from foundation and other construction works segment as follows:

	2022 HK\$'000	2021 HK\$'000
Customer A	18,116	85,881
Customer B	N/A	11,414
Customer C	16,138	N/A
Customer D	18,525	N/A
Customer E	18,053	N/A

N/A: The relevant revenue for the years ended 31 March 2022 or 2021, respectively, did not exceed 10% of the Group's revenue.

The following table provides information about trade receivables and contract assets from contracts with customers.

	2022 HK\$'000	2021 HK\$'000
Trade receivables (Note 17(a))	40,431	8,514
Contract assets (Note 16)	16,692	7,061

The Group has applied the practical expedient to its contracts for foundation and other construction services and therefore, the above information does not include information about revenue that the Group will be entitled to when it satisfies the remaining performance obligations under the contracts for construction production that had an original expected duration of one year or less.

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date on revenue related to the provisions of the foundation business. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group provides the invoice to the customers.

The above amount also does not include any amounts of completion bonuses that the Group may earn in the future by meeting conditions set out in the Group's construction contracts with customers, unless at the reporting date it is highly probable that the Group will satisfy the conditions for earning those bonuses. During the years ended 31 March 2022 and 2021, the Group did not have any contracts with completion bonuses.

12. INCOME TAX EXPENSE

The amount of income tax expense in the consolidated statement of comprehensive income represents:

	2022 HK\$'000	2021 HK\$'000
Current tax		
Hong Kong profits tax	–	–
PRC Enterprise Income Tax	460	–
	460	–
Deferred tax (Note 23)	(224)	89
Income tax expense	236	89

Hong Kong profits tax is calculated at 16.5% (2021: 16.5%) of the estimated assessable profits for the year ended 31 March 2022. According to the Inland Revenue (Amendment) Bill 2017 (the “Bill”), profits tax rate for the first HK\$2 million of assessable profits of corporations is lowered to 8.25% with the excess assessable profits continue to be taxed at 16.5%.

No provision for Hong Kong profits tax was made for the year ended 31 March 2022 (2021: nil) as the group entities which are subject to Hong Kong profits tax either incurred losses for the year or had tax losses brought forward to set off with the assessable profits for the year.

The basic tax rate of the Group's PRC subsidiaries is 25% under the law of the PRC on Enterprise Income Tax (the “EIT Law”) and implementation regulations of the EIT Law. For the current year, certain subsidiaries of the Group qualified as small and micro enterprises and enjoy the reduction of the applicable tax rate to 10%.

The income tax expense for the year can be reconciled to the loss before income tax per the consolidated statement of comprehensive income as follows:

	2022 HK\$'000	2021 HK\$'000
Loss before income tax	(10,183)	(29,361)
Tax calculated at domestic income tax rates of 16.5% (2021: 16.5%)	(1,681)	(4,845)

13. DIVIDEND

No dividend has been paid or declared by the Company during the years ended 31 March 2022 and 2021.

14. LOSSES PER SHARE

The calculation of the basic losses per share attributable to the ordinary equity holders of the Company is based on the following data:

	2022 HK\$'000	2021 HK\$'000
Loss		
Loss for the purpose of calculating basic losses per share	(10,419)	(29,450)

	Number of shares '000	Number of shares '000
Number of shares		
Weighted average number of ordinary shares for the purpose of calculating basic losses per share	800,000	800,000

There were no potential ordinary shares in issue for the years ended 31 March 2022 and 2021. Accordingly, the diluted losses per share presented is the same as the basic losses per share.

As at year ended 31 March 2021, the management of the Group concluded there was indication of impairment for foundation construction CGU as it did not operate as expected and conducted impairment assessment to determine the recoverable amounts of property, plant and equipment other than right-of-use assets and right-of-use assets with carrying amounts (before impairment) of HK\$4,104,000, and HK\$4,959,000 respectively in the CGU.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 March 2022

15. PROPERTY, PLANT AND EQUIPMENT (Continued)

The recoverable amount of CGU has been determined based on fair value less cost of disposal calculation. That calculation uses direct comparison approach by assuming sale of the assets in its existing state and by making reference to comparable sales transactions as available in the relevant market. Appropriate adjustments and analysis are considered to the quoted price transactions in similar assets adjusted for differences in condition between the comparable assets and the subject assets. The fair value less costs of disposal is classified as a Level 3 measurement.

Based on the result of the assessment, management of the Group determined the recoverable amount of the CGU is lower than the carrying amount and impairment of HK\$2,028,000 and HK\$1,637,000 has been recognised against the carrying amount of property, plant and equipment other than right-of-use assets and right-of-use assets respectively in profit or loss in 2021 against the carrying amount of assets used in foundation construction CGU. No impairment loss has been recognised or reversed in 2022.

Foundation construction services

The expected timing of recovery or settlement for contract assets as at 31 March 2022 and 2021 are as follows:

	2022 HK\$'000	2021 HK\$'000
Within one year	16,231	7,014

The movements in contract assets during the years are as follows:

	2022 HK\$'000	2021 HK\$'000
At 1 April	7,014	6,258
Addition during the year	72,358	4,194
Transfer to trade receivables during the year	(62,727)	(3,750)
(Provision for)/reversal of impairment loss	(414)	312
As at 31 March	16,231	7,014

The contract assets primarily relates to the Group's right to consideration for construction works completed but not yet billed to customers, and the retention receivables at the reporting date. The contract assets are transferred to trade receivables when the rights become unconditional, that is when the Group issue progress billings to customer based on the progress certificate agreed with customer or when the retention receivable become unconditional.

For the year ended 31 March 2022

16. CONTRACT ASSETS (Continued)

Foundation construction services (Continued)

Included within contract assets is an amount of approximately HK\$5,092,000 (2021: HK\$7,014,000) which relate to amounts withheld up to 5%–10% (2021: 5%–10%) of the contract sum under contractual terms from trade receivables from customers as the construction work progresses. The monies are generally released from the customers upon the certification of completion of work and/or finalisation of contract accounts, which is typically 12 months after the physical completion of the project. As these amounts are expected to be realised in the normal operating cycle, they are classified as current assets.

An impairment analysis is performed at each reporting date using simplified approach to provide for lifetime ECL prescribed by HKFRS 9, which permits the use of the lifetime ECL for contract assets and assesses the expected losses on contract assets individually. The estimated loss rates are estimated based on various factors including the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions, the number of days past due, adjusted for forward-looking factors (e.g. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

17. TRADE AND OTHER RECEIVABLES (Continued)

(a) Trade receivables (Continued)

The following is an analysis of trade receivables by age, net of loss allowance, presented based on the invoice dates:

	2022 HK\$'000	2021 HK\$'000
Current or less than one month	27,684	7,047
One to three months	9,654	745
More than three months but less than one year	1,736	443
	39,074	8,235

The Group periodically measures the loss allowance for trade receivables at an amount equal to lifetime expected credit loss individually. The estimated loss rates are estimated based on various factors including the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions, the number of days past due, adjusted for forward-looking factors (e.g. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

Under the Companies Law (as revised) of the Cayman Islands, the share premium account of the Company is distributable to its shareholders, provided that immediately following the date on which the dividend is proposed to be paid, the Company shall be able to pay its debts as they fall due in the ordinary course of business.

(b) Merger reserve

The merger reserve of the Group represents the difference between the total equity of those subsidiaries and the aggregated share capital of the relevant subsidiaries pursuant to the group reorganisation where the transfer of the relevant subsidiaries to the Company are satisfied by issue of new shares from the Company.

(c) Capital reserve

The amount represents in substance capital contribution from shareholders of the Company, being the difference between the fair value of the loans from them on initial recognition and the loan proceeds received by the Group. For details of the loans, please refer to Note 21.

(d) Statutory reserve

The amount represents the amount set aside from the retained profits by certain subsidiaries incorporated in PRC and it is not distributable as dividend. In accordance with the relevant regulations and their articles of association, the Company's subsidiaries incorporated in the PRC are required to allocate at least 10% of their after-tax profit according to the PRC accounting standards and regulations to legal reserves until such reserves have reached 50% of registered capital. These reserves can only be used for specific purposes and are not distributable or transferable to loans, advances, cash dividends.

(e) Exchange reserve

Gains/losses arising on retranslating the net assets of foreign operations into presentation currency.

(f) Accumulated losses

The amount represents cumulative net gains and losses recognised in profit or loss.

29. FINANCIAL RISK MANAGEMENT

The Group's principal financial assets are trade and other receivables and cash and bank balances that derive directly from its operations. Principal financial liabilities of the Group include trade and other payables, other borrowings, amount due to a shareholder and loan from a related party. The main purpose of these financial liabilities are to finance the Group's operations.

The Group's maximum exposure to credit risk is the carrying amounts of cash and bank balances, contract assets, and trade and other receivables.

The Group has not issued and does not hold any financial instruments for trading purposes at the end of the reporting period. The main risks arising from the Group's financial instruments are credit risk, liquidity risk, interest rate risk and currency risk.

The Group's financial risk management policy seeks to ensure that adequate resources are available to manage the above risks and to create value for its shareholders.

(a) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily for trade receivables and contract assets) and bank deposits.

The Group's exposure to credit risk is influenced mainly by the individual customer. Therefore, significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers.

The credit risk of Group's trade receivables and contract assets is concentrated, since approximately 99% of which was derived from five largest customers as at 31 March 2022 (2021: 99%).

The Group had a concentration of credit risk as certain of the Group's trade receivables and contract assets were due from the Group's largest customer and the five largest customers as detailed below.

	2022 HK\$'000	2021 HK\$'000
Largest customer	18,013	12,528
Five largest customers	55,243	15,232

29. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued)

(i) *Contract assets and trade receivables*

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in Note 17(a).

Management of the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment loss allowance are made for irrecoverable amounts on trade receivables and contract assets.

The Group measures loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs, which is on an individual customer basis that is based on various factors including the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions, the number of days past due, adjusted for forward-looking factors (e.g. forecast GDP) and specific consideration (such as credit rating and reputation etc.) to the debtors and the economic environment and an assessment of both the current conditions at the reporting period as well as the forecast of future conditions.

Management assessed the expected credit losses on trade receivables individually.

The estimated loss rates are estimated based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information that is available without undue cost or effort. Such forward-looking information is used by the management of the Group to assess both the current as well as the forecast direction of conditions at the reporting date.

29. FINANCIAL RISK MANAGEMENT (Continued)

(a) Credit risk (Continued)

(i) Contract assets and trade receivables (Continued)

Movements in the loss allowance account in respect of trade receivables and contract assets during the year are as follows:

	Trade receivables		Contract assets		Total	
	2022 HK\$'000	2021 HK\$'000	2022 HK\$'000	2021 HK\$'000	2022 HK\$'000	2021 HK\$'000
Balance at 1 January	279	1,457	47	359	326	1,816
Impairment losses recognised during the year	1,122	–	461	–	1,583	–
Impairment losses reversed during the year	(44)	(1,178)	(47)	(312)	(91)	(1,490)
Balance at 31 December	1,357	279	461	47	1,818	326

(ii) Other receivables

The ECLs of other receivables are based on the 12-month ECLs that results from default events that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since its initial recognition, the loss allowance will be based on life-time ECLs. When determining whether the credit risk has been increased significantly since its initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort, including both quantitative and qualitative information and analysis with reference to the Group's historical experience and informed credit assessment with forward-looking information. Applying the ECL model result in the recognition of ECL of HK\$5,764,000 at 31 March 2021, which increased to HK\$5,812,000 as at 31 March 2022.

To manage the credit risk associated with other receivables, the Group adopts risk control to assess the credit quality of the debtors, taking into account their financial positions and past experience. The Group has monitoring procedures to ensure that follow-up action is taken to due with overdue debts and considered the credit risk of those debtors in default to be medium/high. The management reviews the recoverable amount of the receivables individually at each reporting date to ensure that adequate impairment losses are made for irrecoverable amounts. The credit policies have been followed by the Group during the reporting period and are considered to have been effective in limiting the Group's exposure to credit risk to a desirable level. None of the Group's financial assets are secured by collateral or other credit enhancements.

29. FINANCIAL RISK MANAGEMENT (Continued)

(b) Liquidity risk

In the management of liquidity risk, the Group's policy is to regularly monitor its liquidity requirements in order to maintain sufficient reserves of cash in the short and long term. The liquidity policies have been followed by the Group during the reporting period and are considered to have been effective in managing liquidity risk including the forecast plan described in Note 3(b).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rates at the end of the reporting period.

29. FINANCIAL RISK MANAGEMENT (Continued)

(c) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to the short-term bank deposits and other borrowings. However, management considers the fair value interest rate risk is insignificant as (i) bank deposits is relatively short-term and (ii) the interest rate of other borrowings are fixed. The management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis

Management of the Group considers the interest rate risk for variable-rate bank balances are insignificant for the years ended 31 March 2022 and 2021. Hence, no sensitivity analysis is presented.

(d) Currency risk

The Group's companies operated in different locations with most of the transactions settled in local currency and did not have significant exposure to risk resulting from changes in foreign currency exchange rates.

30. NOTE TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

(a) Major non-cash transactions

The Group entered into leases agreements in respect of purchase of property, plant and equipment with a capital value at the inception of the leases of approximately HK\$nil (2021: HK\$2,212,000) during the year ended 31 March 2022.

31. CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debts. No changes in the objectives, policies or processes were made during the year.

The Group monitors capital using a gearing ratio, which is net debt divided by total equity/(deficit). Net debts are calculated as the total of lease liabilities, amount due to a shareholder, loan from a related party and other borrowings and less cash and cash equivalents.

	2022 HK\$'000	2021 HK\$'000

34. SHARE OPTION SCHEME

Shareholders of the Company have approved and adopted a share option scheme (the “Scheme”) on 6 July 2015.

A summary of the Scheme is set out as below:

The Scheme became effective for a period of 10 years commencing on 6 July 2015. Under the Scheme, the Directors shall, in its absolute discretion select, make an offer to any eligible participants to subscribe for shares of the Company at a subscription price being not less than the highest of (i) the closing price of shares of the Company as stated in the Stock Exchange’s daily quotation sheet on the offer date; or (ii) the average closing prices of the shares of the Company as stated in the Stock Exchange’s daily quotation sheets for the five business days immediately preceding the offer date; and (iii) the nominal value of the share on the offer date. The offer of a grant of options may be accepted within seven days from the date of the offer grant.

The maximum number of shares to be issued upon the exercise of all outstanding options granted at any time under the Scheme together with options which may be granted under any other share option schemes for the time being of the Company must not in aggregate exceed 10% of the issued share capital of the Company at the date of the approval of the Scheme.

No options have been granted since the adoption of the share option scheme.
