#### CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED

GEM has been positioned as a market designed to accommodate small and midsized companies to which a higher investment risk may be attached than other companies listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this interim report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this interim report.

This interim report, for which the directors (the "**Directors**") of Omnibridge Holdings Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this interim report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this interim report misleading. The board of Directors (the "**Board**") is pleased to announce the unaudited condensed consolidated interim results of the Company and its subsidiaries (collectively referred to as the "**Group**") for the three months and six months ended 30 June 2022 together with the unaudited comparative figures for the corresponding period in 2021, as follows:

#### **BUSINESS REVIEW AND OUTLOOK**

We are a Singapore-based human resources service provider, and we are principally engaged in the provision of human resources outsourcing services and human resources recruitment services.

Even during these turbulent times, the Group was able to secure more jobs from both government agencies and private firms through more intense marketing programs and the gradual relaxation of the COVID-19 measures, thus contributing to the growth in revenue.

The business environment remains challenging albeit with the relaxation of COVID-19 restrictions and the opening of borders by many countries around the world. Many countries have lifted restrictions on border controls and quarantine restrictions with caution. However, with the continued military conflict in Ukraine, and the continuing restrictions in the People's Republic of China ("**China**") as a result of the sudden sporadic surges in coronavirus (COVID-19) cases, businesses have been badly hit by soaring prices of raw materials globally. Many countries have been tackling high inflation rates, with Central Banks of many countries raising interest rates. Coupled with continuing trade tensions between China and the United States, the global economic conditions remain volatile. The Directors will constantly review the market conditions and adjust the Group's business diversification to counter the contingent risks.

With the challenging and volatile global economic environment, the Group will continue to explore new business opportunities and expansion of the Group's business to neighbouring countries in the region actively. We are always on the lookout for potential strategic partners and investors and prudently assessing new ventures to invest when the opportunity arises. The Directors are cautiously optimistic and are confident that the Group is well-positioned to take on the current challenges and move up to a higher level.

We will continue to capture market opportunities so as to achieve a sustainable business growth and long-term benefits of the shareholders of the Company.
