Notes to the Consolidated Financial Statements (Unaudited)

2. BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standard issued by IASB, which collective term includes all International Accounting Standards (“IAS”) and related Interpretations. For the purpose of preparation of the consolidated financial statement, information is considered material if such information is reasonably expected to influence decisions made by primary year. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (“GEM Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments that are measured at fair value or revalued amounts at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if the market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in the consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 *Inventories* or value in use in IAS 36 *Impairment of Assets*.

Notes to the Consolidated Financial Statements (Unaudited)

2. BASIS OF PREPARATION (Continued)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The accounting policies and methods of computation used in the preparation of the unaudited condensed consolidated financial statements are consistent with those adopted in preparing the audited financial statements for the year ended 31 December 2021.

The IASB has issued a number of amendments to IFRSs. The application of the amendments to IFRSs in the current period has had no material impact on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in these unaudited condensed consolidated financial statements.

Notes to the Consolidated Financial Statements (Unaudited)

Management Discussion and Analysis

BUSINESS REVIEW

The Group has been operating in the civil and structural engineering market in Singapore for around 16 years. Leveraging on our industry experience in Singapore, we started providing civil and structural engineering consultancy services in Vietnam in 2009. The Group mainly provides services in Singapore and Vietnam. Our Group provides the following services: (i) civil and structural engineering consultancy services; and (ii) other services including master planning, structural due diligence and visual inspection of existing buildings.

Our Group's key objective is to provide engineering expertise and ingenuity to achieve the client's objective, which includes completing the projects on time, within budget and with the right quality so as to achieve sustainable growth in terms of our business and financial performance.

Due to outbreak of a Novel Coronavirus ("**COVID-19**"), many countries have implemented emergency public health measures and taken various actions to prevent the spread of the COVID-19 pandemic including travel restriction and lockdown measures. Such measures resulted in general disruption of production, supply chain and logistic of services. Although some countries gradually ceased the lockdown measures, the global market remains challenging and market sentiments still have to take a long time to fully recover unless preventive measures are available to prevent the COVID-19 infection.

FUTURE PROSPECTS

With the Group's experienced management team and reputation in the markets the Group operates in, the Directors believe that the Group is well-positioned to compete against our current competitors, though we opine that in the coming financial years it will continue to be challenging for our industry sector due to the uncertain global environment stemming from the US-China Trade war which will lead to a slump in global demand for goods and services in different industries and rising costs in Singapore, Vietnam and Hong Kong, and the outbreak of COVID-19 that may further affect Singapore, Vietnam and Hong Kong's economics.

The Company has also been continuously evaluating the current business strategies of the Group and the use of capital by the Group's existing businesses with an aim to ensure resources are being used effectively to improve its overall performance. The Company has been actively looking to diversify the revenue sources of the Group in order to create more value to shareholders through acquiring businesses or projects that have promising outlooks and prospects.

The Group's revenue increased by approximately SGD0.9 million or 15.8%, from approximately SGD5.7 million for the nine months ended 30 September 2021 to approximately SGD6.6 million for the nine months ended 30 September 2022. The increase of revenue was mainly due to (i) prefabricated prefinished volumetric construction (the "PPVC") projects which accounted for approximately SGD3.1 million for the nine months ended 30 September 2022, representing a decrease of approximately SGD0.3 million from approximately SGD3.4 million for the nine months ended 30 September 2021 and (ii) conventional projects which accounted for approximately SGD3.3 million for the nine months ended 30 September 2022, representing an increase of approximately SGD1.4 million from approximately SGD1.9 million for the nine months ended 30 September 2021. The increase was mainly because of gradual resumption of construction activities comparing to nine months ended 30 September 2021.

Cost of Services

The Group's cost of services increased by approximately SGD0.9 million or 16.4%, from approximately SGD5.5 million for the nine months ended 30 September 2021 to approximately SGD6.4 million for the nine months ended 30 September 2022 which was largely due to (i) adjustment of staff salary by lower 5% to 20% for the period from March 2021 to May 2021 but none in 2022 and (ii) replacement with a more senior staff with higher salary for junior staff to increase the efficiencies in work.

Other Income, Gains, and Losses, Net

Management Discussion and Analysis

FINANCIAL REVIEW (Continued)

Administrative Expenses

The Group's administrative expenses decreased by approximately SGD0.1 million or 4.3%, from approximately SGD2.3 million for the nine months ended 30 September 2021 to approximately SGD2.2 million for the nine months ended 30 September 2022, which was mainly due to lower in depreciation costs.

Finance Costs

The finance costs mainly consist of interest expenses on bank borrowings and lease liabilities. The finance costs for interest expenses on bank borrowings remained at a stable level with approximately SGD30,000 and SGD23,000 for the nine months ended 30 September 2022 and 2021 respectively.

Income Tax Expenses

As all of the Group's profit are derived from Singapore, Vietnam and Hong Kong, the Group is subject to income tax in Singapore, Vietnam and Hong Kong.

There is no income tax expense for the nine months ended 30 September 2022 primarily due to all subsidiaries of the Company having recorded losses for the nine months ended 30 September 2022.

Loss For The Period

The loss for the nine months ended 30 September 2022 was approximately SGD1.7 million, as compared with the loss of approximately SGD1.6 million for the nine months ended 30 September 2021.
