INTERIM REPORT 2022

The background of the lower half of the page features an abstract graphic design. It consists of several overlapping, semi-transparent blue rectangles and vertical bars of varying heights and widths, creating a layered, architectural effect. The colors range from light sky blue to a deeper cerulean blue.

CHARACTERISTICS OF THE GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

*This report, for which the directors (the “**Directors**”) of Smart City Development Holdings Limited (the “**Company**”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “**GEM Listing Rules**”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

2. BASIS OF PREPARATION

These unaudited condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Chapter 18 of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “**GEM Listing Rules**”) and with Hong Kong Accounting Standard (“**HKAS**”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). They have been prepared under the historical cost convention, except for leasehold land and buildings classified as property, plant and equipment, investment properties and financial assets at fair value through profit or loss which have been measured at valuation or fair value. These unaudited condensed consolidated financial statements should be read in conjunction with the annual accounts for the year ended 31 March 2022.

The accounting policies and methods of computation used in the unaudited condensed consolidated financial statements for the six months ended 30 September 2022 are the same as those followed in the preparation of the Group’s annual financial statements for the year ended 31 March 2022, except for the standards, amendments and interpretations to the Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the HKICPA applicable to the annual period beginning on 1 April 2022.

2. BASIS OF PREPARATION (Continued)

In the current period, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 April 2022 for the preparation of the Group's condensed consolidated financial statements:

Amendments to HKFRS 3	Reference to the Conceptual Framework

Annual Improvements to HKFRSs 2018–2020	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41

The adoption of these new and revised HKFRSs has had no material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

The Group has not early adopted any new and revised HKFRSs that have been issued but are not yet effective, in these financial statements.

3. OPERATING SEGMENT INFORMATION

- (b) the securities investment segment is engaged in investment in securities;
- (c) the property investment business segment is engaged in the holding of investment properties; and
- (d) the money lending business.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group's profit/loss before tax except that interest income included in "other income and gains", finance costs as well as head office and corporate expenses are excluded from such measurement.

3. OPERATING SEGMENT INFORMATION (Continued)

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

(i) **Construction Segment**

(a) ***Building construction works and related businesses:***

For the Reporting Period, revenue recorded at this section amounted to approximately HK\$66,099,000 (2021: HK\$43,402,000).

The increase of 52% was mainly due to the increase in revenue recognition for main contractor works (including E&M works) for a residential house in Tai Mong Tsai, Sai Kung, New Territories and addition works for interior layout and external areas of a residential house at Peak Road, Hong Kong which has commenced work in late March 2022.

(b) ***E&M works:***

For the Reporting Period, revenue recorded from this section amounted to approximately HK\$73,493,000 (2021: HK\$79,112,000).

The slight decrease by approximately 7% was mainly due to lesser revenue recognition during the Reporting Period of the projects which were almost completed including a triennial term contract for operation and maintenance of air-conditioning installations at Attended Municipal Venues in Hong Kong Region and electrical and fire services installations for construction of two 30-classroom primary schools in Queen's Hill, Fanling.

The above decrease was partially offset by the increase in revenue recognition for the 18-month term contract for the maintenance and repair of, alterations and additions to fire services installations for Health Services Buildings in Hong Kong Region and Outlying Islands and a triennial contract for maintenance and repair of, alteration, addition to, fire service installations in municipal venues for the Government of the Hong Kong Special Administrative Region.

(c) Interior fitting-out works:

For the Reporting Period, revenue recorded from this section amounted to approximately HK\$2,236,000 (2021: HK\$37,097,000).

The significant decrease by approximately 94% was mainly due to the PRC operation, as Beijing Chang-de Architectural & Decoration Co., Limited (北京長迪建築裝飾工程有限公司) (“**Beijing Chang-de**”) was disposed on 11 August 2021 where its revenue was no longer included into the Group’s consolidated revenue after the completion date.

(iii) Property investment segment

For the Reporting Period, revenue recorded from this segment amounted to approximately HK\$302,000 (six months ended 30 September 2021: HK\$306,000). It was mainly attributable to rental income earned from the investment properties.

The Group's existing portfolio consists of commercial properties in Hong Kong which generated rental income. In view of the recent volatility in the property market, the Board will adopt cautious measures to manage the Group's portfolio.

(iv) Money lending business segment

The Group's prepayments, deposits and other receivables decreased by approximately HK\$6.9 million or 41% as at 30 September 2022 as compared to 31 March 2022. It was mainly due to the decrease of cash held at securities accounts of licensed corporations under the Group's name, which has been utilised in the investment in securities segment or transferred to bank accounts of the Group.

Contract assets

The Group's contract assets increased by approximately HK\$4.3 million or 11% as at 30 September 2022 as compared to 31 March 2022. It was mainly due to the increase in unbilled revenue initially recognised for revenue earned from the provision of construction services as the receipt of consideration is conditional on successful completion of construction. Upon completion of construction and acceptance by the customer, the amounts recognised as unbilled revenue are reclassified as accounts receivable.

PROSPECTS

(i) Construction Business

The Group will uphold an on-going parallel development of its construction business (including building construction, interior fitting-out works and E&M works) in Hong Kong and Macau. To cope with the difficulties encountered in the construction and engineering industry, the Group has adopted a prudent strategy in project tendering.

With its proven track records and adequate expertise in the main contracting business, the Group was included in Building Category Group C of the “List of Approved Contractors for Public Works”, and Turn-key Interior Design and Fitting-out Works Category Group II of the “List of Approved Suppliers of Materials and Specialist Contractors for Public Works” under Development Bureau of the Government of the Hong Kong Special Administrative Region (the “HKSAR”); the Registered General Building Contractor, the Minor Works Class I Contractor and the Registered Specialist Contractor (Site Formation Works and Foundation Works Categories) under the Buildings Department of the Government of the HKSAR.

For E&M works, the Group was included in 11 categories of the “List of Approved Suppliers of Materials and Specialist Contractors for Public Works” under Development Bureau of the Government of the HKSAR; and the Registered Specialist Contractor (Ventilation) and Minor Works Class III Type E Contractor under Building Department of the Government of the HKSAR.

The Group is able to take an active part in the construction business development.

During the Reporting Period, new projects such as i) fitting-out works for a residential house in Tai Mong Tsai, Sai Kung, New Territories, ii) replacement of ductworks and enhancement of existing air-handling units at Shek Wu Hui Market, iii) replacement of air-conditioning system at Labour Tribunal Building and Lands Tribunal Building; iv) replacement of air-conditioning system at Aberdeen Tunnel and v) replacement of air-conditioning equipment at Attended Municipal Venues in Sham Shui Po District were secured. As at the date of this report, the Group has contracts on hand with a total contract sum of over HK\$848 million.

With the Group's proven track record, comprehensive services and numerous licences, permits and qualifications, the Directors believe that the Group could strengthen its position in the Hong Kong market and diversify its customer base particularly by attracting larger corporate customers and tenders for more capital intensive projects for such customers. The overall building and construction expenditure maintained its uptrend which was contributed by the growth in private building and construction position in Hong Kong to capture more sizeable and profitable projects as well as to further diversify the customer base by bidding works from more private residential developers. In addition, further opportunities may arise which include the promotion by the HK government in the widely adoption of modular integrated construction method ("**MiC**"), government enhancement work to combat COVID-19 pandemic and the recent development of the Greater Bay Area.

Regarding the licences, permits and qualifications of the Group, they are all subject to the continued compliance with various standards relating to financial capability, expertise, past job reference, management and safety. The Development Bureau in recent years has gradually imposed additional requirements to some categories of work licenses which may be essential for retention in the List/Specialist List. The Group will certainly try its best endeavour to satisfy these additional requirements, so that the retention on the List/Specialist List will not be affected. The Group operates under various licences, permits and qualifications and the loss or failure to renew/retain any of these licences, permits and qualifications could affect the Group's business.

Furthermore, with the Group's experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors under such future challenges that are commonly faced by all competitors, and after obtaining adequate job reference for construction works, the Group will continue to pursue the following key business strategies: (i) further expand the Group's service scope by application for additional licences, permits or qualifications which may be required; (ii) exercise more caution when tendering for new construction contracts and continue to selectively undertake new contracts; and (iii) further strengthen the Group's construction department through recruiting additional qualified and experienced staff.

(ii) **Investment in Securities Business**

The Group has set up a Treasury Management Committee (“**Treasury Management Committee**”) to implement on the Group’s behalf the investment policy and guidelines for its investments in securities business. The Treasury Management Committee comprises one chairman and two committee members (being at least two Directors of the Company, including at least one executive Director who acts as the investment manager). The Board will adopt cautious measures to manage this business activity aiming to generate additional investment return on available funds of the Group from time to time.

Despite the uncertainties in the global financial markets, the Group will continue to respond to the changing market environment and review its investment strategy regularly. The Group will also seek investment opportunities in listed securities and other financial products in Hong Kong and other recognised financial markets overseas with a view to generate additional income and enhance the capital use of the Group.

In view of the recent volatility in the stock market, the Board will adopt cautious measures to manage the Group’s investment portfolio with an aim to provide positive return to the Group in the near future.

(iii) **Property Investment Business**

The Group’s investment properties consist of two commercial properties in Hong Kong. The Directors have determined that the investment properties are commercial properties, based on the nature, characteristics and risks of the properties. In view of the recent unstable condition of the economic environment, the Board will from time to time review the Group’s portfolio of investment properties.

(iv) **Money Lending Business**

The Group is engaged in money lending business through a wholly-owned subsidiary of the Company, which holds a money lenders licence under the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong) to carry out money lending business in Hong Kong. The Group continues to make efforts to develop the money lending business. Even though the market for the money lending industry in Hong Kong has become increasingly competitive and uncertain in view of the external business environment, the Group believes that the money lending business will provide a positive impact and return to the Group.
