MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is an established food and beverage grocery distributor in Hong Kong with over 40 years of experience in the food and beverage grocery distribution industry. The Group's customers include restaurants, non-commercial dining establishments, hotels and private clubs, food processing operators and wholesalers in Hong Kong. The Group also offers product sourcing, repackaging, quality assurance, warehousing and storage, transportation as well as other value-added services to provide one-stop food and beverage grocery distribution solutions to the customers. The Group's product portfolio ranges from food commodities, specialty food ingredients to kitchen and hygiene products which can be broadly categorised into (i) commodities and cereal products; (ii) packaged food; (iii) sauce and condiment; (iv) dairy products and eggs; (v) beverage and wine; and (vi) kitchen and hygiene products.

Since the outbreak of the Coronavirus Disease (“COVID-19”) at the start of January 2020, the global business environment has been adversely affected. In late December 2021, Hong Kong has confirmed its first community transmission of the Omicron-variant of COVID-19, which is rumored to spread multiple times faster than previous major strains, therefore, social distancing rules in Hong Kong have been tightened again since 7 January 2022. The closure requirements on catering businesses and scheduled premises caused a revenue contraction to the Group in the first quarter of 2022, in line with the experience from prior lockdowns.

With the government's financial stimulus through consumption vouchers and the easing of the pandemic situation in Hong Kong since April 2022, the business of the Group recorded a rebound. Further, the government removed almost all anti-epidemic measures in December 2022 and reopened the city's border with mainland China in January 2023, our sales rose dramatically by comparison with 2022. Based on the unaudited financial information of our Group, our revenue was approximately HK\$73,520,000 for the three months ended 30 June 2023, representing an increase of approximately 15.7% as compared to approximately HK\$63,565,000 in the corresponding period of 2022.

The Directors are optimistic that 2023 will be a year of recovery for the Hong Kong economy. The Group will closely monitor the market conditions and seek suitable business opportunities to expand our business. The Directors expect that the competition of the market will be intense and the Group will devote more resources to sales and marketing activities and actively facilitate the business development of new products.

FINANCIAL REVIEW

Revenue

During the three months ended 30 June 2023, our revenue increased by approximately HK\$9,955,000 or approximately 15.7% to approximately HK\$73,520,000 (three months ended 30 June 2022: approximately HK\$63,565,000) mainly due to the increase in sales demand for our food and beverage products. With the removal of government's social distancing measures and the reopening of city's border with mainland China, there was an increase in the overall customer traffic of restaurants. Our customers ordered more food and beverage products from us to cope with the increased demand. Sales demand for our food and beverage products from local restaurants, hotels and private clubs increased dramatically during the current period.

In August 2022, the Group signed a contract with an independent third party in which the Group supplies stock and provides warehouse, office, sales consultancy and logistic support to the independent third party, in return, the independent third party gives 12% of its sales revenue to the Group. The customers of that independent third party mainly purchase soft drinks and kitchen and hygiene products, e.g. towel and rubbish bags, which contribute to the sharp increase in our sales of beverage and wine and kitchen and hygiene products during the current period.

The Group opened its first restaurant in Tsim Sha Tsui in April 2021. However, due to the pandemic situation in Hong Kong during 2021, the Directors decided to close down the restaurant in March 2022.

Cost of sales

Our cost of sales solely represented cost of inventories sold, which represented the cost of finished goods purchased by us from suppliers. Our cost of sales represents the costs of products, net of discounts and rebates, charged by our suppliers. Our cost of sales increased by approximately HK\$9,904,000 or approximately 20.9% to approximately HK\$57,267,000 for the three months ended 30 June 2023, as compared to approximately HK\$47,363,000 for the three months ended 30 June 2022, mainly due to the increased sales volumes, increased price of stock purchased and written off of obsolete stock.

Gross profit and gross profit margin

The Group's gross profit increased by approximately 0.3% from approximately HK\$16,202,000 for the three months ended 30 June 2022 to approximately HK\$16,253,000 for the three months ended 30 June 2023. The increase in gross profit was mainly due to the increased revenue resulted from the lifting of COVID-19 restrictions, partially offset by the increased cost of goods purchased from suppliers. For the three months ended 30 June 2023, the Group's gross profit margin decreased to approximately 22.1% as compared with previous year at approximately 25.5%.

Other income

Other income represented interest income from bank deposits, rent concessions, government grant, handling fee and sundry income. Other income increased from approximately HK\$766,000 for the three months ended 30 June 2022 to approximately HK\$1,119,000 for the three months ended 30 June 2023 mainly due to the receipt of handling fee of approximately HK\$1,001,000 from an independent third party during the current period. During the three months ended 30 June 2022, the Group received government grant of HK\$630,000 from the Employment Support Scheme and the Catering Business Subsidy Scheme launched by the government. The two schemes aimed at providing time-limited financial support to employers to retain their employees who will otherwise be made redundant and providing relief to the sectors directly affected by the tightened social distancing measures. No such government grant was received in the current period.

Other gain and losses, net

The Group recorded net other losses of approximately HK\$109,000 for the three months ended 30 June 2023 which was attributable to written off of bad debts. During the three months ended 30 June 2022, the Group sold a motor vehicle to a third party at a loss of approximately HK\$417,000 in May 2022.

Selling and distribution expenses

Our selling and distribution expenses mainly comprised transportation expenses, commission expenses to sales persons based on a certain percentage of the gross profit on successful sales, staff costs for our sales team and entertainment expenses. The increase of selling and distribution expenses of the Group were in line with the revenue increment and were mainly due to the increase in transportation costs and increase in commission expenses to sales persons. The selling and distribution expenses accounted for approximately 12.1% and 11.3% of the total revenue for the three months ended 30 June 2023 and 2022 respectively.

Administrative expenses

For the three months ended 30 June 2023, the Group's administrative expenses primarily comprised staff costs for administrative and management personnel, directors' remuneration, depreciation on property, plant and equipment and depreciation on right-of-use assets. Administrative expenses decreased from approximately HK\$7,985,000 for the three months ended 30 June 2022 to approximately HK\$7,865,000 for the three months ended 30 June 2023. The decrease of administrative expenses of the Group was mainly due to decrease in depreciation on property, plant and equipment and decrease in legal and professional fees.

Finance costs

Finance costs amounted to approximately HK\$248,000 for the three months ended 30 June 2023, increased by approximately HK\$97,000 as compared to approximately HK\$151,000 for the three months ended 30 June 2022. Finance costs of the Group represented interest expenses on lease liabilities. The increase was mainly due to the increased interest expenses incurred for the newly rented Yau Tong warehouse since June 2023.

Income tax expense

For the three months ended 30 June 2023 and 2022, our income tax expenses were approximately HK\$140,000 and HK\$106,000, respectively.

Profit and total comprehensive income attributable to owners of the Company

For the three months ended 30 June 2023 and 2022, the Group's profit and total comprehensive income attributable to owners of the Company was approximately HK\$149,000 and HK\$1,125,000, respectively. The decrease of profit and total comprehensive income attributable to owners of the Company was mainly attributable to the increased cost of goods purchased from suppliers, decrease in receipt of government grant and increase in transportation costs, partially offset by increase in revenue, increase in receipt of handling fee, decrease in depreciation on property, plant and equipment and decrease in legal and professional fees.

Dividend

No dividend was paid, declared or proposed during the period. The Directors do not recommend the payment of any dividend for the three months ended 30 June 2023 (three months ended 30 June 2022: nil).

No shareholder of the Company has waived or agreed to waive any dividends during the period.

LIQUIDITY AND FINANCIAL POSITION

As at 30 June 2023, bank balances and cash of the Group amounted to approximately HK\$38,425,000 (as at 31 March 2023: approximately HK\$35,533,000). The current ratios (current assets divided by current liabilities) of the Group were approximately 4.3 times and 4.5 times as at 30 June 2023 and 31 March 2023 respectively. Note: The expected timeline for utilising the unutilised net proceeds is based on the best estimation of the future market conditions made by the Group. It is subject to change based on the current and future development of the market condition.

As disclosed in the prospectus of the Company dated 31 March 2017 (the “**Prospectus**”), the Group’s principal business objectives are to strengthen its position in the food and beverage grocery distribution industry and further expand its business operations with a view to creating long-term shareholders’ value. The Directors intend to achieve the objectives by (a) increasing warehouse facilities strategically located in certain districts of Hong Kong in proximity to the Group’s customers; (b) upgrading the ERP system to enhance the Group’s operation efficiency; (c) further penetrating the food and beverage grocery distribution market through sales and marketing activities and the Group’s quality value-added services; and (d) attracting and retaining quality personnel.

In light of the rise in number of customers and purchase orders, the Group had planned to lease two warehouse facilities, one in the New Territories and another on the Hong Kong Island for accommodating the increased inventory level. However, since the second half of 2017, the rent and the rent price index in the factory building rental market in Hong Kong showed a continuous uptrend and the Group had not yet identified suitable premises for the warehouse facilities in both areas, therefore the leasing was not yet commenced up to March 2019.

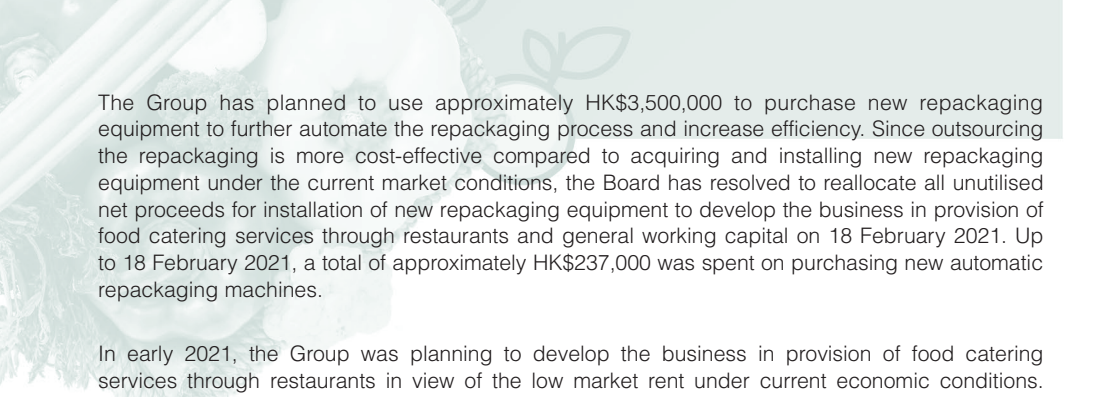

In early 2019, the Group surveyed a premise in Yau Tong, Kowloon, which size and location are suitable for our warehousing, and additionally, the proposed rental fee is relatively cost-effective. The Board evaluated that the premise in Yau Tong, Kowloon is meeting the Group’s requirements for fair and efficient use of financial resources. Therefore, the Board had decided to establish a new warehouse at the above mentioned premise and migrated all inventory from the existing warehouses to the new location.

In view of the conditions and expansion of the existing business, there is no urgent need to lease another warehouse facility as the current warehouse facility has met the needs of the Group. Therefore, on 18 February 2021, the Board has resolved to reallocate all utilised net proceeds for leasing of warehouse facility in Kowloon to develop the business in provision of food catering services through restaurants and general working capital, except that approximately HK\$3,278,000 of the net proceeds are remained to settle the rental expenses of the Yau Tong premise. Up to 18 February 2021, a total of approximately HK\$5,052,000 was spent on rental deposits, renovation costs and start-up costs for the warehouse facility. Up to the date of this report, full amount of the net proceeds of approximately HK\$7,400,000 was utilised on rental payments.

The Group has planned to use approximately HK\$12,560,000 of the net proceeds to upgrade the ERP system, which is used to monitor the inventory level and minimise incidences of overstocking, so as to enhance the operational efficiency of the Group. Up to the date of this report, the Group selected a new ERP software for implementation and a total of approximately HK\$7,720,000 was spent on consultancy services and software and hardware acquisition for the upgrade of the ERP system.

The Group has planned to use approximately HK\$5,540,000 of the net proceeds to conduct sales and marketing activities to attract more customers and strengthen customer loyalty so as to further penetrate the food and beverage grocery distribution market. Up to the date of this report, a total of approximately HK\$1,311,000 was spent on advertising and participating in domestic food exhibition and sales exhibition to showcase our products to potential buyers. The Group is currently recruiting new marketing company for upcoming new sales campaign.

The Group has planned to use approximately HK\$3,500,000 to purchase new repackaging equipment to further automate the repackaging process and increase efficiency. Since outsourcing the repackaging is more cost-effective compared to acquiring and installing new repackaging equipment under the current market conditions, the Board has resolved to reallocate all unutilised net proceeds for installation of new repackaging equipment to develop the business in provision of food catering services through restaurants and general working capital on 18 February 2021. Up to 18 February 2021, a total of approximately HK\$237,000 was spent on purchasing new automatic repackaging machines.

In early 2021, the Group was planning to develop the business in provision of food catering services through restaurants in view of the low market rent under current economic conditions. The Board is of the view that such vertical expansion would give us a competitive advantage, given that it allows us to have better cost control of the supplies for the new restaurant business and improve the performance of our existing business. Approximately HK\$9,000,000 of the net proceeds is allocated for the start-up costs and renovation costs for the restaurants. Up to the date of this report, a total of approximately HK\$3,064,000 was spent on renovation and start-up of the new restaurant in Tsim Sha Tsui. However, due to the pandemic situation in Hong Kong during 2021, the Directors decided to close down the restaurant in Tsim Sha Tsui in March 2022 and are looking for opportunities to develop such segment.

An addition of HK\$5,211,000 of the net proceeds is allocated for the general working capital to support the daily operation of the Group and to maintain sufficient working capital in preparation of any market upheaval. Full amount was utilised as general working capital up to the date of this report.

Looking forward, the Group is still reasonably optimistic to sustain the core business given all the economic uncertainties with the latest epidemic situation of COVID-19 and the changes in government policy. However, the Directors are actively assessing and managing the uncertainties, and implementing, if necessary, measures to conquer this challenging time. At the same time, the Group remains committed to the strategies that we have promised our shareholders before being listed and will continue to seek for the best possible opportunities to grow our business by leveraging our current client base, offering a wide spectrum of products for customers and exercising careful cost controls.

The principal strategic, operational and financial risks faced by the Group are market competition, employee commitment and satisfaction, warehouse disruption, credit risk of customers and fund investments and returns. With the Group's proven track record, plus its experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors. The Directors will also continue to explore opportunities to diversify the Group's operation so that the customer base could be strengthened and diversified. The Directors will continue to review and evaluate the business objectives and strategies and make timely execution taking into account the business risks and market uncertainties. The Directors believe that the Group will continue to expand to become one of the leading food and beverage grocery distributors in Hong Kong.
