#### **BUSINESS REVIEW AND OUTLOOK**

We are a leading digital video technology solution and service company in the TV broadcasting industry in China. We provide a full range of solutions, services and products to TV broadcasters and other digital video content providers, to effectively assist and enhance digital video technology content in the upgrade and management works on the post-production segment, a critical part of the People's Republic of China (the "**PRC**") TV broadcasting market. We have been at the forefront of digital video technology innovation in China. Our emphasis on developing a demand-driven and highly responsive R&D is particularly critical for us because of our focus on the solutions and services business, where the customers demand customized services. Our solutions, services and products businesses facilitate the processing, enhancement and management of digital video content at the post-production stage between the ingestion of raw content and the output of finished content.

We have established business relationships with most of the central- and provincial-level TV stations in China and with some of the provincial-level TV broadcasters in China for over 26 years. We have also served alternative broadcasting platforms, such as cable network operators, Internet media content providers and IPTV operators. In view of the sustained losses of the Group, while we will continue our existing principal business, we will conduct a review of our business activities for the purpose of formulating business plans and strategies for our future business development. We may explore other business opportunities and consider whether any asset disposal, asset acquisition, business rationalisation, business divestment, fund raising, restructuring of the existing business and/or business diversification will be appropriate in order to enhance our long-term growth potential.

On 20 March 2017, the Company adopted the Share Award Scheme to recognize and reward the contribution of certain selected participants to the growth and development of the Group. The Share Award Scheme does not constitute a share option scheme or an arrangement analogous to a share option scheme for the purpose of Chapter 23 of the GEM Listing Rules. The shares under the Share Award Scheme will be acquired by a trustee by way of subscription of new shares (whether pursuant to general mandate or specific mandate granted by the shareholders or otherwise) and/or purchase of shares from the market out of cash contributed by the Group and be held on trust for the participants until such awarded shares are vested in the relevant selected participants in accordance with the provisions of the Share Award Scheme. The administrator of the Share Award Scheme, may from time to time, at its absolute discretion, select any participant for participants.

The Company has appointed The Core Trust Company Limited as the trustee (the "**Trustee**"). The Trustee is an independent third party of the Company and is acting for a wide scope of participants under the Share Award Scheme.

Unless early terminated by the Board, the Share Award Scheme shall be valid and effective for a term of 10 years commencing on the adoption date of the Share Award Scheme, provided that no contribution to the trust fund will be made by the Company on or after the 10th anniversary date of the adoption date of the Share Award Scheme.

The maximum number of shares which may be allocated and awarded to a selected participant under the Share Award Scheme in any 12-month period shall not exceed 1% of the issued share capital of the Company immediately preceding such allocation and award.

Vesting of the shares will be conditional on the selected participant remaining a participant at all times from after the relevant dates of the fulfillment of the performance targets (if any) specified by the Board and on the vesting date until and on each of the relevant vesting dates and his/her execution of the relevant documents to effect the transfer from the Trustee, unless otherwise determined by the Board.

During the 2023 Interim Period, the Company neither issued new shares nor arranged any funds to be paid to the Trustee for purchasing of shares of the Company from the market.

#### **COMPETING BUSINESSES**

For the 2023 Interim Period, none of the Directors or the controlling shareholders of the Company and their respective associates (as defined under the GEM Listing Rules) had any interest in a business that competes or might compete with the business of the Group, or had any other conflict of interest with the Group.

#### **COMPLIANCE WITH CORPORATE GOVERNANCE PRACTICES**

The Company has adopted the code provisions as set out in the Corporate Governance Code (the "**Corporate Governance Code**") as contained in Appendix 15 of the GEM Listing Rules as its corporate governance practices.

Code provision C.2.1 of the Corporate Governance Code stipulates that the roles of the chairman of the board of directors and the chief executive officer of a Company should be separate and should not be performed by the same individual, and that the division of responsibilities between the chairman and the chief executive officer should be clearly stated.

Mr. ZHENG Fushuang was appointed as the chief executive officer of the Company (the "**CEO**") with effect from 3 April 2018 and is currently serving as both the chairman of the Company (the "**Chairman**") and the CEO. Such practice deviates from code provision C.2.1 of the Corporate Governance Code. The Board believes that vesting the roles of both the Chairman and the CEO in the same person can facilitate the execution of the Group's business strategies and boost the effectiveness of its operation. The Board is comprised of three executive Directors and three independent non-executive Directors, which is appropriately structured to ensure that there is a balance of power to provide sufficient checks to protect the interests of the Company and its shareholders. Therefore, the Board considers that the deviation from the code provision C.2.1 of the Corporate Governance Code is appropriate in such circumstance.

Saved as disclosed above, in the opinion of the Directors, the Company had complied with all the code provisions set out in the Corporate Governance Code from 1 April 2023 and up to the date of this report.

#### **CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS**

The Company has adopted a code of conduct regarding Directors' securities transactions on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. After making specific enquiries with all the Directors, the Company confirmed that all Directors have fully complied with the required standard of dealings and the code of conduct regarding Directors' securities transactions during the 2023 Interim Period and up to the date of this report save and except for Rule 5.56(a) of the GEM Listing Rules.

During the 2023 Interim Period, Mr. ZHENG Fushuang (**"Mr. Zheng**"), an executive director of the Company, did not comply with Rules 5.56(a) and 5.61 of the GEM Listing Rules as he acquired an aggregate of (i) 4,030,000 shares of the Company; and (ii) 2,464,000 shares of the Company on the open market during blackout period (on 17 October 2023 and 19 October 2023) without first notifying the designated Director and obtaining a valid written acknowledgment as required under Rule 5.61 of the GEM Listing Rules. Mr. Zheng reported that the non-compliance of Rules 5.56(a) and 5.61 of the GEM Listing Rules was inadvertent and confirmed that he will act in strict compliance with Rules 5.56(a) and 5.61 of the GEM Listing Rules in the future.

The Company has immediately reminded all Directors again of the requirements of Rules 5.56(a) and 5.61 of the GEM Listing Rules and will provide additional reminders to the Directors on the commencement date of the blackout period in the future. The Company will provide further regular training and development materials to the Directors, including but not limited to (a) the relevant GEM Listing Rules requirements; (b) enforcement case studies; and (c) the applicable topics in relation to the obligation and duties of the Directors. In light of this, the Company will also review and improve its relevant internal control procedures timely so as to reduce the risk of non-compliance of a similar nature in the future.

#### **AUDIT COMMITTEE AND REVIEW OF INTERIM RESULTS**

The Company has established an audit committee with written terms of reference in compliance with the GEM Listing Rules on 23 May 2016. The primary duties of the audit committee are mainly to review the financial information and reporting process, internal control procedures and risk management system, effectiveness of the internal audit function, audit plan and relationship with external auditors and arrangements to enable employees of the Company to raise, in confidence, concerns about possible improprieties in financial reporting, internal control or other matters of the Company.

The audit committee comprises three independent non-executive Directors, namely, Mr. LI Youliang, Dr. LI Wanshou and Mr. Frank CHRISTIAENS, and is chaired by Mr. LI Youliang.

The audit committee has reviewed the unaudited interim financial information for the 2023 Interim Period and is of the opinion that (i) the unaudited interim financial information of the Group for the 2023 Interim Period comply with the applicable accounting standards and the GEM Listing Rules; and (ii) adequate disclosure has been made in such unaudited interim financial information.

#### **COMPOSITION OF THE BOARD**

The composition of the Board reflects the necessary balance of skills and experience desirable for effective leadership of the Company and independence in decision making. The Board currently comprises three executive Directors and three independent non-executive Directors. The Directors have no financial, business, family or other material/relevant relationships with one another.

#### (c) PRC withholding tax

According to the relevant laws and regulations in the PRC, the Group is also liable to a 10% withholding tax on dividends to be distributed from the Group's foreign-owned enterprises in the PRC in respect of its profits generated from 1 January 2008.

Under the Arrangement between the Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income and its relevant regulations, dividends paid by a PRC resident enterprise to its direct holding company in Hong Kong will be subject to withholding tax at a reduced rate of 5% (if the Hong Kong investor is the "beneficial owner" and owns directly at least 25% of the equity interest of the PRC resident enterprise for the past twelve months before the dividends distribution).

The Group is not subject to tax under other jurisdictions during the six months ended 30 September 2023 and 2022.

FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2023

#### **14. TRADE AND OTHER RECEIVABLES** – continued

#### (a) Trade receivables

Invoices issued to customers are in accordance with the payment terms stipulated in the contracts and payable on issuance. Deposits are normally required upon signing of the contract. For customers with good credit history and selected large television stations in the PRC with sound financial standing, its settlement may be longer than 180 days (31 March 2023: 180 days) after issuance of invoices. Ageing analysis based on invoiced date of the trade receivables and net of ECL allowance at the end of the reporting period, is as follows:

	(Unaudited) As at 30 September 2023 RMB'000	(Audited) As at 31 March 2023 RMB'000
0 to 90 days 91 to 180 days 181 to 365 days	6,503 2,763 12,055	22,121 17,792 25,387
1 to 2 years Over 2 years	7,104 12,648 41,073	19,889 19,596 104,785

The Group applies the simplified approach for the calculation of the ECL allowance prescribed in IFRS 9, which permits the use of life-time ECL for all trade receivables. To measure the ECL allowance, trade receivables without significant outstanding balances have been grouped based on shared credit risk characteristics and the ageing.

The Group did not hold any collateral as security or other credit enhancements over the impaired trade receivables, whether determined on an individual or collective basis.

#### (b) Other receivables

#### Deposit for guarantee certificate

Deposit for guarantee certificate over tendering and performance are placed with third parties for performing the contracts and the deposits are interest-free and will be returned when the contracts are completed.

#### Loan receivables

As at 30 September 2023, the Group has gross amounts of loan receivables of RMB24,941,000 (31 March 2023: RMB23,488,000) from independent third parties.

As at 30 September 2023, a credit-impaired loan receivable of RMB24,941,000 (31 March 2023: RMB23,488,000) is secured by a property, carrying fixed interest rate of 6% per annum and should be wholly repayable on 30 May 2020. The Group has taken legal action against the debtor to recover the loan receivable.

#### **15. CONTRACT ASSETS AND CONTRACT LIABILITIES** - continued

#### 15.1 Contract assets – continued

The Group's contract assets mainly include retention receivables of solution sales contracts. Typical payment terms which impact on the amount of contract assets recognised are as follows:

The Group's solution sales contracts include payment schedules which generally require contract instalment over the contract period once certain specified milestones are reached. The Group also agrees to a one to two years (31 March 2023: one to two years) retention period for 5% to 10% (31 March 2023: 5% to 10%) of the solution sales contract value. This amount is included in contract assets until the end of retention period as the Group's entitlement to this final payment is conditional on the Group's satisfactory work.

The Group applies the simplified approach for the calculation of the ECL allowance prescribed in IFRS 9, which permits the use of life-time ECL for all contract assets. To measure the ECL allowance, contract assets have been grouped with trade receivables based on shared credit risk characteristics and the ageing. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Group has therefore concluded that the ECL rates for trade receivables are a reasonable approximation of the ECL rates for the contract assets.

#### **15.2 Contract liabilities**

Contract liabilities of the Group mainly arise from the advance payments made by customers while the underlying products or services are yet to be provided.

#### **20. SHARE-BASED COMPENSATION TRANSACTIONS**

#### (a) The Share Option Scheme adopted by the Company in 2017

Pursuant to an ordinary resolution passed at the annual general meeting of the Company held on 18 May 2017, the Company adopted a share option scheme to attract, retain and motivate employees, directors and other participants, and to provide a means of compensation through the grant of options for their contribution to the growth and profits of the Group, and to allow them to participate in the future growth and profitability of the Group (the "**2017 Share Option Scheme**"). The participants of the 2017 Share Option Scheme are any executive, non-executive or independent non-executive directors or any employees (whether full-time or part-time) of the Company, or any of its subsidiaries or associated companies or any other person whom the board considers, in its sole discretion, has contributed or will contribute to the Group.

The 2017 Share Option Scheme is valid and effective for a period of ten years from 24 May 2017.

The maximum number of shares which may be issued upon exercise of all options to be granted at any time under the 2017 Share Option Scheme and any other share option schemes of the Company must not in aggregate exceed 10% of the relevant class of the shares in issue as at the date of adoption (the "Mandate Limit of Option Scheme"). Options lapsed in accordance with the terms of the 2017 Share Option Scheme will not be counted for the purpose of calculating the Mandate Limit of Option Scheme.

The Company may seek approval from its shareholders in general meeting for refreshing the Mandate Limit of Option Scheme under the 2017 Share Option Scheme. However, the total number of shares which may be issued upon exercise of all options to be granted under the 2017 Share Option Scheme and any other schemes of the Company under the limit as "refreshed" must not exceed 10% of the relevant class of the shares in issue as at the date of passing the relevant resolution to refresh such limit. Options previously granted under the 2017 Share Option Scheme and any other schemes (including those outstanding, cancelled, lapsed in accordance with the 2017 Share Option Scheme or any other schemes or exercised options) will not be counted for the purpose of calculating the Mandate Limit of Option Scheme as "refreshed". The Company may seek separate approval from its shareholders in general meeting for granting options beyond the Mandate Limit of Option Scheme provided the options in excess of the Mandate Limit of Option Scheme are granted only to eligible participants of the option scheme specifically identified by the Company before such approval is sought.

The amount of HK\$1.00 is payable as consideration for each grant of options under the 2017 Share Option Scheme, upon acceptance of such grant.

#### 23. FAIR VALUE MEASUREMENTS OF FINANCIAL INSTRUMENTS

The following table presents financial instruments measured at fair value in the condensed consolidated statement of financial position in accordance with the fair value hierarchy. The hierarchy groups financial instruments into three levels based on the relative reliability of significant inputs used in measuring the fair value of these financial instruments. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the financial instrument is categorised in its entirety is based on the lowest level of input that is significant to the fair value measurement.
