2023THIRD QUARTERLY REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of the China United Venture Investment Limited (the "Company", together with its subsidiaries, the "Group") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. This business segment suffered from the suspension of trading of the Group since 3 April 2023 and affected the Group's reputation while the one of top customers conducted compliance review.

The Architectural Design Business

This segment has been adversely impacted by the aftermath of COVID-19 pandemic and the gigantic debt default events in the PRC real estate industry for the last three years. In the year ended 31 December 2020, the outbreak of COVID-19 had caused suspension of our design projects in the PRC. On top of an observed slow recovery from COVID-19, since the second half last year 2021, this segment was further affected by the crises experienced by its downstream customers, the China real estate developers' high debt level and liquidity issues. Revenue from this business segment decreased from approximately HK\$6.1 million in PY2022 to approximately HK\$1.7 million during the nine months ended 30 September 2023, representing a decrease of approximately 72.1% from last year. The Directors are monitoring the issues closely and remain cautiously optimistic to the results of the Architectural Design Business in the future and are actively engaging in negotiation for new design business.

The Group suffered from the suspension of the trading which would affect the Group's reputation from the stakeholders' views.
